's contemporary German oser set the songs to music published the Carmina na in its entirety in 1937.

CONTENT VARIETY

content ranges from simplicity to sophisti- ymbolism and mysticism, devotional religious con- ation to unabashed world-

e songs included are "For- Empress of the World," Springtime," "On the Lawn," the Tavern," "The Court of and "Blanziflor and na."

oloists are Marjorie Polichio, ly Brown, Christine Bryan, man Turner, Martin Lies and de Rhea

KEY PERSONS for Monday night's combined concert featuring the university symphony and the university singers are Catherine A. Smith at the piano, and (l-r): Wiley Housewright, Singers director, Robert Sedore, symphony conductor, and Ernst von Dohnanyi, composer of one of the pieces to be presented.

No Matinee Performance

All 1600 Tickets Distributed For 'Back To Methuselah'

All tickets for next Thursday's Artis Series program, "Back to Methuselah," have already been distributed to the student body, according to Mrs. Kathryn Vernon, director of special events.

The 1600 tickets, representing the total capacity of Westcott Auditorium, were available at the Westcott ticket office beginning Monday at 9 a.m. All were gone by 9 15 a.m. Wednesday.

A long-distance call to the group's manager, in an effort to arrange a matinee performance, was in vain, Mrs. Vernon said yesterday.

"Every single ticket for the performance went to the students," Mrs. Vernon said. "The only cost was the No. 27 activity ticket, and no tickets were reserved for faculty, staff, or townspeople.

"The only faculty members present will be those who hold Artist Series season's tickets," she added.

ID'S AT DOOR

There has been evidence of resale of tickets by the students, Mrs. Vernon said For this reason, it has become necessary to require the showing of identification cards at the door, in order to enable as many students as possible to attend, she pointed out.

She also warned against tardiness to the show, since late seating will be permitted only during intermission.

Women students will receive late permission in case the performance lasts beyond dormitory closing hours They are urged to stay until the performance ends, Mrs. Vernon emphasized.

WAS FIVE PLAYS

In its original form, George Bernard Shaw's "Back to Methuselah" was a cycle of five plays requiring about nine hours for performance. This is the reason for the play's condensation, made by Arnold Moss.

This condensation was completed in the spring of 1957, and Mr. Moss and a group of players trouped this version to a series of summer theaters stretching from Boston to Chicago in the summer of 1957.

The presentation here produced by the Theater Guild and Arnold Moss, will be part of a 42-city Florida tour which began Monday, prior to the New York opening on March 17.

In addition to its three stars—Tyrone Powers, Faye Emerson, and Arthur Treacher—the production will feature Valerie Bettis, Mr. Moss, and Roger Evan Bixill.

Between them, these six players will enact a total of 19 roles. Mr. Moss will be the only member of the cast to be seen in one role only, that of Bernard Shaw himself

POWER, EMERSON

Power has been seen in 43 major motion pictures since he began his screen career—the most recent having been "The Sun Also Rises" and "Witness for the Prosecution."

Miss Emerson, referred to by Look Magazine as "America's Most Appealing Personality," has starred in a successful movie career, in a series of leading roles in Broadway plays, as a radio and TV personality, as a front-runner in fashion, and as a syndicated columnist.

Arthur Treacher makes his third Shaw appearance in recent years in "Back to Methuselah," following "Caesar and Cleopatra" and "Getting Married" on Broadway

He has also starred as a comedian in New York and film musicals. Texas-born Miss Bettis has had a versatile career on stage, screen, and television as an actress, comedienne, singer, dancer and choreographer.

Mr. Moss, a popular classical actor, is appearing for the first time in a Shaw play, and this is his first venture into producing. He also has a background in concert, having appeared as narrator-soloist with symphonic organizations such as the Boston and Detroit Symphonies.

Roger Boxill appeared on Broadway last season in two Shaw plays, "Major Barbara" and "The Apple Cart." He made his stage debut in "Women Aren't Angels" at the age of 12.

Set designer is Marvin Reiss; Patricia Zipprodt is costumer for the group.

The **New York Times** comment on Shaw's play. "Back to Methuselah" created a remarkable impression throughout the world. This gigantic work, comprising five plays grouped under a single title and centered in a single theme, was recognized everywhere as an important contribution to modern thought, expressing the idea that mankind, through creative evolution, may reach a state of longevity which resembles eternal life."

Senate Votes For No 'Horsecollar'

Senate has recommended the abolition of the penalty for missing classes before and after holidays.

"The students of Florida State University, as college students, should be allowed to exercise their own judgment as to when they can and cannot use cuts," stated the resolution unanimously passed by Senate on December 18.

TOO MUCH TIME

Junior Senator Pat Manning and Freshman Senator Carl Butler, co-authors of the resolution, pointed out that excessive time and money are used by the administration to check up on students' excuses. The senators felt that this time and money could be used for more valuable service.

Letters have been written to all academic deans concerning the matter. A further report will be given in the next few weeks.

In other senate action Women's Vice President Polly Atwater was elected president pro-tem of the Senate Wednesday. She defeated Junior Senator Gerry Gordon by a vote of fifteen to eleven.

TICKET FUSS

Senate also marched into the area of ticket distribution in the latter moments of Wednesday's meeting.

After a heated discussion on ticket scalping and the lack of available seats for the next artist series production, G. B Shaw's "Back to Methuselah," Sophomore Senator Ronnie Clark moved that a committee be appointed to investigate ticket distribution.

Tickets for the play went on sale Monday at 9 a m and were completely sold out by Wednesday.

Senator Clark's motion was carried and the committee was appointed. The chairman will be Senator Clark.

rwarding Address eeded For Seniors

raduating seniors must send a rding address to the editors Tally-Ho, Florida State Uni- ty annual, before graduation is in order that they may re- their copy of the 1957-58 edi- of the year book.

A COMMON SCENE in the next couple of weeks will be this one, as assistant registrar Hoyt Price registers Robert Kienzle for the coming semester. Registration began Wednesday, runs through the 18th.

FSU Profs To Be Called In State Probe

State Senator Bart Knight of Blountstown announced last week that he plans to ask the Legislature's racial investigating committee, of which he is a member, to summon three Florida State University professors to testify.

BEHIND NAACP

Knight said that he had reliable reports that these three faculty members were "behind the organization of the NAACP in Florida." He declined to name the professors since he said that the charges have not been proved.

The committee held hearings last year, with White Citizen's Council leaders, state Negro leaders, and white supremacist John Casper as witnesses.

Knight threatened to resign unless the committee gets moving soon. The senator could not be reached for further elaboration of his January 3rd statement.

Florida State University Dean of Students R. R. Oglesby said that he did not believe that the university had any policy in relation to this problem.'

The university faculty is one of "highly diversified ideas," he said, but declined to comment further.

Report Favors 'Who's—Who'

Student Senate Wednesday heard a report from a special committee on the investigation of administration of the "Who's Who in American Colleges and Universities," yearbook that expressed approval with the national set-up.

Day student Senator Dayton Roberts, chairman of the committee, reported that the group had found nothing wrong with the intent of the organization, but did discover some discrepancies between the overall operation and its statutory administration at FSU.

"There is no basis for criticism of the organization itself," Roberts said. "Who's Who is most helpful to its members who are looking for jobs."

"Recommendations for jobs may be obtained from the organization, and these recommendations are honored by most employers."

Roberts reported that some other colleges and universities use a point system in selecting the members for "Who's Who" A certain number of points are alloted for academic achievements, memberships in organizations and offices held in these organizations and other campus activities.

Seven-hundred colleges and universities participate in the program.

SCULPTOR FRED HOLSCHUH holds aloft one of the pieces of sculpture from his exhibit, which went on display Wednesday in the art gallery.

Art Faculty's Show

'Monkey Doings' Art Included In Exhibit

Bold, brilliant and dramatic paintings of large scale, and subtler, more subdued and restful paintings, both large and small, are displayed in the annual Faculty Exhibition of the Department of Art in the FSU Art Gallery.

Illustrations for a proposed children's book, **Monkey Doings**, by Miss Ann Kirn, offer contrast to the paintings by Karl Zerbe, Miss Florence Kawa, Miss Laura Lee and Robert Schuler

12 MONKEYS

The 12 pages on display present 12 frolicsome monkeys, complete with jingles, starting, "One little monkey sat all alone, eating a strawberry ice-cream cone."

Zerbe, well-known member of the contemporary modern art movement, has submitted five new paintings, **Landscape with Letters, Green Totem, Interior at Tallahassee, Chinese Actor,** and **Nob Hill.**

Miss Kawa's oil paintings—**City, Still Life No. 1, Pine Tree, City at Night,** and **Still Life with Pine Cones**—illustrate nature and city views abstractly.

Shuler's **Bedroom, Road to the Sea,** and **Lolita,** are, like Miss Kawa's, oils.

LEE SHOWS FIVE

Two casein paintings and three watercolor paintings are illustrative of Miss Lee's work

Offering still more contrast in the exhibition are the studies in design and color by Irwin Rubin. His selection of subtle shadings make for delicate, artistic designs.

Again offering contrast is the sculpture by Frederick Holschuh and Rudolf Jegart.

Holschuh has six entries, including a heavy looking but light weighing **Open Form Composition** of fiber glass silica, lighted from inside, and also an impressive, massive head of **Barabbas** in plaster and plymer

250 LB. BARABBAS

Barabbas now weighs about 250 pounds, and will at least double its weight when Holschuh does the subject in pink marble

Sculptured, life-like heads represent Jegart's creations The subjects, in bronze, plaster and terra-costa, are all Florida youngsters, and have been loaned to the exhibition by their parents.

This exhibition will be in the gallery until January 27, and is open daily to the public—10 a m to 5 p m , Mondays through Fridays; 10 a.m to 1 p.m. Saturdays; and 1 to 4 p.m. Sundays.

Former Dean Of Students, Classics Professor Here, Dies

Dr. Olivia Dorman, former dean of students and classics professor, died Wednesday in Tallahassee following a long illness

Dr. Dorman, who resided with Florida State University Dean of Women Katherine Warren, was a member of the FSU faculty until 1956 when she retired from the Classics Department.

Funeral services will be held this morning at 11 at the St. John's Episcopal Church.

ALABAMA NATIVE

Dr. Dorman was born in 1892 near Huntsville, Ala. and was graduated from Randolph-Macon Women's College in Lynchburg, Va., in 1913 with training in Latin and Greek.

For five years following her graduation she taught in the Latin department at Randolph-Macon and then went to Athens College, Athens, Ala She served as Dean her last year there.

After receiving a PhD in Classics in 1924 at the University of Chicago, Dr. Dorman came to FSU as associate professor. She later became Latin professor here.

In 1934 she became Dean of Students and held this position until 1947 when by her own request she returned to teaching in the Classics Department. She retired in 1956.

TEACHER AND DEAN

On her retirement, Dr. Doak S. Campbell, then president of FSU wrote to her: "Few people who have participated in the development of this university have contributed more than you have done. You enjoy the distinction of having made your contributions, both in the field of administration and in the field of teaching and scholarship."

Her Greek and Latin professor at Randolph-Macon, Dr Herbert Lipscomb, once wrote of her, "One of the most satisfactory students that I have ever taught. A scholar in every sense of the word."

Dr Dorman was a member of Phi Beta Kappa, several classics societies, Eta Sigma Phi, Mortar Board and belonged to the American Philological Society for which she wrote several articles.

'Pow Wow' Editor Applications Due

The Board of Student Publications is now accepting applications for the position of "Pow Wow" editor. Interested students should make their applications to Dr Reid Montgomery, Room 19, Longmire Building, or Ruth Fritchie, Chairman of the board.

Qualifications include a 2.3 scholastic average, in addition to experience in organizing of information and staff members.

The salary of the editor is $50. The board will appoint the editor at 11 a.m on Tuesday, January 14, in Longmire.

Will Appear On 'Arlene Francis Show'

By MARCY SEITZ

Florida State University will be well represented on television this month by "Flying High", Gymkana, and the department of music.

Appearing on the "Arlene Francis Show" today, will be 18 members of the university's circus troupe and seven Gymkana performers.

Previously appearing on the show was Miss Beverly Brown, a voice major, last Tuesday.

Miss Brown, a senior from Atlanta, Ga., sang a solo "Getting to Know You", and a duet with a performer from the show. The duet was "Make Believe."

ACTIVE VOCALIST

The attractive brunette, a soprano, is a member of the University Singers and The Women's Glee Club, and had leading roles in recent Light Opera Guild productions of "South Pacific" and "Oklahoma" at FSU.

"I had a wonderful time," said Miss Brown. "They made me feel like Queen Elizabeth".

"It was good experience for me," she added

The Flying High performers will be featured in six acts, bicycle, quartet adagio, skaters, tight wire, double trapeze and Spanish web

The circus students will be Chris Parmalee, Nancy Long, Ann Wear, Pete Wooten, De Ann Head, Sheryl Rose, Jim Haywood, Patsy Stearns, Wayne Barber, Leigh Heisinger.

Ronald Whiteard, Arlene Wooten, Jean Hartz, Peter Hagerty, Charles Lloyd, Pete Kiefer and Martha Hall. In charge is Mr. Jack Haskins, circus coach.

Flying High previously appeared on the ABC television production, "You Asked For It", during the month of December.

The circus performers left Tuesday, for rehearsal in Silver Springs until the time of their appearance

GYMNASTS PERFORM

Gymkana students will appear January 14, and will be featured in stunts on the high bar, flying rings, trampoline, and in tumbling acts.

They are Chick Cicio, from Brooklyn, New York, who was Mr Florida and candidate for Mr. America, Jack Miles and Dave Carrmali, Tallahassee; Lorraine Powlus, Bloomsburg, Pa., who will do an acrobatic routine; Jack Ryder, Dayton, Ohio; Don Preisser, Denver, Colorado; and Larry Malmlin, Swedish Olympic champion, from Stockholm, Sweden.

Also being presented will be Miss Gymkana, Nan Chamberlain, and the attendant, Marilyn Harris.

LEAVE MONDAY

The Gymkana students will leave FSU on Monday January 13 to rehearse for the 10 a. m. show on Tuesday.

Originally the "Home" show; the "Arlene Francis Show" is producing its first remote production in Silver Springs since the changing of the program

Coast to coast the NBC television show is seen on 110 stations and will be broadcast from Ocala, January 5-17.

The program is a 30 minute production and is seen each morning from 10 to 10 30 a. m.

Symphonic Band Concert Set Friday

The Florida State University Symphonic Band will combine with the Concert Band for their first appearance of the 1957-58 school year on Friday, January 17 at 8:15 p m. in Opperman Music Hall

The joint presentation will serve as a relaxing and entertaining music treat for students and faculty prior to exam week and will conclude an active fall semester on campus

The Concert Band, under the direction of Robert T Braunagel, will open the program. The group of eighty musicians consists of students from all schools of the university It is considered a continuation of band participation after high school and is open to all interested students

The Symphonic Band will conclude the concert and will feature Anne Verran in a piano solo. Miss Verran is a senior from Cairo, Georgia.

Newman Club pitted against Penthouse Gang and battling for a chance to meet Veterans in the finals. With a show of renewed hope, Newman Club found the basket for 33 points while the Gang only racked 24 points.

TOUCH FOOTBALL

The Greek Division of Touch Football Intramurals has taken off until after the Christmas Holidays. In the final day of play, Friday, TC crushed PKP in a rash of scoring, 39-26.

SAE defeated KS in an interesting game, 18-13. PKA pulled a stalemate out of the fire by taking SPE, 6-0. Earlier PKA trounced LCA, 18-12.

In the Dorm-Independent Division of Football, on Thursday, Veterans powered over CLO 18-6. Magnolia easily defeated Senior Hall 28-12 and Penthouse Gang handed Newman Club a 26-14 defeat.

Forfeits for the day gave Playboys a win over the Rebels, AFROTC over the Peds, and BSU over the Lutherans.

If anyone is interested in officiating at the Intramurals games, please notify the Intramural office and leave your name. The department is short of referees and would like to recruit anyone that knows anything about sports.

Vets Vibrations

Santa Visits Kids Early At Party

BY JOHN RAY

Santa Claus made an early visit to about 25 underprivileged Tallahassee children Saturday night at a party sponsored by the Vets Club and the Scullions.

The delighted youngsters, ranging in age from one to 15, received two gifts from Santa. They also received bags of goodies and refreshments served by the Scullions. Santa was played by Mr. Vehip Zeko, of New York City, who is visiting his son Fehmi.

The party marked the first time that the Vets Club has attempted such an affair and it was termed a great success by President Joe Moffa.

Moffa extended the club's appreciation for the use of the Dale Mabry Community Center, where the party was held. He also thanked Dr. Royal Ray and the Department of Advertising for allowing the club the use of a movie projector.

Volunteers from the Dames Club assisted the Scullions and Vets at the party.

In addition to three comedies which were shown, the program of entertainment included a number of games. A Dames Club member told the children several stories.

Moffa said the Vets Club was delighted with the outcome of the party and plan to make it an annual affair.

ZEKO PRESIDENT

Fehmi Zeko was elected president of the Vets Club for the Spring semester at a meeting Frida evening. Zeko is serving as vice-president this semester.

Other officers elected are John Ray, vice-president; Clyde Wells, secretary; Edwin Bowers, treasurer; and Joseph Pipitone, sergeant-at-arms.

The new officers will be installed at a banquet in January. The next meeting of the club will be Friday, Jan. 10.

CHECK CHECKS

If you want to receive your check for December, you had better sign for it before leaving school for the holiday, Dec. 20.

All vets must sign the necessary papers before noon, Dec. 20, according to Mrs Don Mathas, who handles veterans affairs on campus.

Northern Coeds

(Continued from Page 2)
dinary everyday food that you actually do eat. They have illusions about southern cookery and it's your mission not to disillusion them. Memorize a list including such good victuals as mustard greens, collards, black-eyed peas, chitterlings, hominy grits and corn pone. They'll appreciate the gesture.

Another question sure to come up is **"What about segregation? Do they treat the Negroes very badly?"** Here's your opportunity to show off your three months of liberal education. Explain the South's side, apply all you've learned in the social sciences and then offer a solution to the problem. From what I hear, most northern students are pretty good at this! However, if you really want to enjoy your Christmas vacation, tell them that you've converted to the southern viewpoint. This should make for many interesting conversations. Possibly, you won't even have to come back for final exams!

CERTAINLY your family will ask **"What kind of professors do you have?"** Get three or four witnesses, say they're great, get it notarized and mail it directly to all of your instructors. Sometimes anything helps in computing final grades.

Here's another, **"Have you learned much at college?"** Be careful! This is a loaded question. Your folks are talking about academic enlightenments! If they didn't go beyond the third grade, tell them all you've learned in considerable detail. However, if they got through the fourth, you had better keep quiet. They just might mistake it for modesty!

THIS LIST is far from complete but I hope it will give some idea of what to expect when you get home. Admittedly, it has been slanted towards the girls from the North, but, some of it could be applied to the federalized males.

I fear, however, that most of "Youse guys" will not be greeted by questions. Instead you'll be welcomed by a rousing "Well look who's back from his southern vacation. Now get out and shovel that snow and earn your big deal college education." Oh well, such is life.

Loyola Tonight

(Continued From Page 3)
them, 95-89.

It was the first win of the season for Furman as its all-Southern guard, Dick Wright, poured in 30 points to help gain the victory. Deckle was the high point man for the Tribe as he ripped the cords for 25 markers to bring his season total to 89.

Liteky, connected for eight out of 14 shots before fouling out in the second half. Liteky is now the team's leading scorer with 90 points. Strom got his best night of the season as he picked up 21 tallies to his credit.

It was a close game from the start with Furman owning a 49-46 halftime edge. But foul shots made the difference as the Tribe made nine out of 13 charity shots while the Paladins picked up 27 out of 36.

Girl's Parents Appreciate Aid

The parents of little Denise Roberts, whose affliction with Leukemia last year brought an overwhelming response from students and townspeople, are once again expressing their appreciation to the university community.

With Denise at home now, the parents, Mr. and Mrs. Dennis Roberts of 353 Hull Drive, have received numerous gifts for the little girl from various campus groups and individuals.

Mrs. Roberts, who said that many gifts had been left or sent by unidentified persons, asked Chaplain Edwin Hartz to express their appreciation publicly to the givers.

Students and civic organizations responded to Denise's plight last year with donations of both blood and money for a trip to New York City for treatment there.

Ballistics Head Speaks Tomorrow

Pi Mu Epsilon and Sigma Pi Sigma, math and physics clubs, will combine ranks Wednesday to hear Dr. A. S Galbraith talk on the subject, "Hit or Miss."

Dr. Galbraith is head of the ballistics center at Eglin Air Force Base. The meeting is scheduled to begin at 8 p.m. at 124 Science, and all interested persons are invited to attend.

Editorial Club Meets Tonight

The club presently known as the Editorial Club will be holding a very important business meeting tonight at 7 p.m.

All students interested in the journalism field or campus publications are invited to attend. The purpose of this club is to bring together all people interested in the various phases of journalism. It is not necessary to be enrolled in any journalism courses, but only to have a desire in promoting the field.

The meeting will be held in the second floor lounge of Longmire. Refreshments will be served and business will be discussed.

Keeps Tabs On Classes

Director Of Social Activities Finds Job 'A Big Challenge'

BY GEORGIANA FRY

"When students come into the office for my signature, I like for them to make only one. It's much easier for them," and with this she literally ran out of the room, almost knocking reporter down.

"The boy got away before I could catch him. Just extra work for him," she came puffing back into her office, a few minutes later.

Although "She", Miss Marie Williams, isn't paid for chasing young men when they dash out of her very attractive office, she "thoroughly enjoys" her job as director of social activites, and finds it "a big challenge."

SOCIAL ACTIVITIES

Miss Williams is directly concerned with all five Classes, including graduates, in planning their social activities and keeping them within their budget.

She is also closely connected with all Greek, church, and residence social functions, as every social activity on campus must be registered through her office and have her approval.

Since Miss Williams assumed her position two years ago, the Inter-Fraternity Council and Panhellenic have separately formed sub-committees of students.

WESTCOTT MOVIES

Another achievement since Miss Williams' arrival has included the showing of movies in Westcott Auditorium on Friday nights. This addition to the campus movie program, of which Miss Williams is chairman, went into effect this fall.

"Most of our problems in student relationship is in lack of communication," Miss Williams said.

Miss Williams, also director of the Summer School Activities Program, was head social counselor in 1945-46 when the university was Florida State College for Women.

NEVER CLOSED

The door of her office is never closed, and if she doesn't know the answer to a student's problem, "I'll pick up the phone and find the answer."

A native of Eldorado, Arkansas, Miss Williams has an AB degree from Hendricks College, where she was dean of women for nine years, and her MA degree in student personnel administration from Columbia.

When her work isn't too pressing, Miss Williams takes time out for a game of scrabble. She enjoys listening to classical records but at the same time advocates that Louis Armstrong, in ... lier years, made a de... tribution, particularly in the ... dy Blues."

As her student assistant ... Flesher, says, "Her work ... ferent!"

No Matinee Performance

All 1600 Tickets Distributed For 'Back To Methuselah'

All tickets for next Thursday's Artis Series program, "Back to Methuselah," have already been distributed to the student body, according to Mrs. Kathryn Vernon, director of special events.

The 1600 tickets, representing the total capacity of Westcott Auditorium, were available at the Westcott ticket office beginning Monday at 9 a.m. All were gone by 9:15 a.m. Wednesday.

A long-distance call to the group's manager, in an effort to arrange a matinee performance, was in vain, Mrs. Vernon said yesterday.

"Every single ticket for the performance went to the students," Mrs. Vernon said. "The only cost was the No. 27 activity ticket, and no tickets were reserved for faculty, staff, or townspeople.

"The only faculty members present will be those who hold Artist Series season's tickets," she added.

ID'S AT DOOR

There has been evidence of resale of tickets by the students, Mrs. Vernon said. For this reason, it has become necessary to require the showing of identification cards at the door, in order to enable as many students as possible to attend, she pointed out.

She also warned against tardiness to the show, since late seating will be permitted only during intermission.

Women students will receive late permission in case the performance lasts beyond dormitory closing hours. They are urged to stay until the performance ends, Mrs. Vernon emphasized.

WAS FIVE PLAYS

In its original form, George Bernard Shaw's "Back to Methuselah" was a cycle of five plays requiring about nine hours for performance. This is the reason for the play's condensation, made by Arnold Moss.

This condensation was completed in the spring of 1957, and Mr. Moss and a group of players trouped this version to a series of summer theaters stretching from Boston to Chicago in the summer of 1957.

The presentation here, produced by the Theater Guild and Arnold Moss, will be part of a 42-city Florida tour which began Monday, prior to the New York opening on March 17.

In addition to its three stars—Tyrone Powers, Faye Emerson, and Arthur Treacher—the production will feature Valerie Bettis, Mr. Moss, and Roger Evan Bixill.

Between them, these six players will enact a total of 19 roles. Mr. Moss will be the only member of the cast to be seen in one role only, that of Bernard Shaw himself.

POWER, EMERSON

Power has been seen in 43 major motion pictures since he began his screen career—the most recent having been "The Sun Also Rises" and "Witness for the Prosecution."

Miss Emerson, referred to by Look Magazine as "America's Most Appealing Personality," has starred in a successful movie career, in a series of leading roles in Broadway plays, as a radio and TV personality, as a front-runner in fashion, and as a syndicated columnist.

Arthur Treacher makes his third Shaw appearance in recent years in "Back to Methuselah," following "Caesar and Cleopatra" and "Getting Married" on Broadway.

He has also starred as a comedian in New York and film musicals. Texas-born Miss Bettis has had a versatile career on stage, screen, and television as an actress, comedienne, singer, dancer and choreographer.

Mr. Moss, a popular classical actor, is appearing for the first time in a Shaw play, and this is his first venture into producing. He also has a background in concert, having appeared as narrator-soloist with symphonic organizations such as the Boston and Detroit Symphonies.

Roger Boxill appeared on Broadway last season in two Shaw plays, "Major Barbara" and "The Apple Cart." He made his stage debut in "Women Aren't Angels" at the age of 12.

Set designer is Marvin Reiss; Patricia Zipprodt is costumer for the group.

The New York Times comment on Shaw's play: "Back to Methuselah" created a remarkable impression throughout the world. This gigantic work, comprising five plays grouped under a single title and centered in a single theme, was recognized everywhere as an important contribution to modern thought, expressing the idea that mankind, through creative evolution, may reach a state of longevity which resembles eternal life."

Senate Votes For No 'Horsecollar'

Senate has recommended the abolition of the penalty for missing classes before and after holidays.

"The students of Florida State University, as college students, should be allowed to exercise their own judgment as to when they can and cannot use cuts," stated the reaolution unanimously passed by Senate on December 18.

TOO MUCH TIME

Junior Senator Pat Maoning and Freshman Senator Carl Butler, co-authors of the resolution, pointed out that excessive time and money are used by the administration to check up on students' excuses. The senators felt that this time and money could be used for more valuable service.

Letters have been written to all academic deans concerning the matter. A further report will be given in the next few weeks.

In other senate action Women's Vice President Polly Atwater was elected president pro-tem of the Senate Wednesday. She defeated Junior Senator Gerry Gordon by a vote of fifteen to eleven.

TICKET FUSS

Senate also marched into the area of ticket distribution in the latter momeots of Wednesday's meeting.

After a heated discussion on ticket scalping and the lack of available seats for the next artist series production G. B. Shaw's "Back to Methuselah," Sophomore Senator Ronnie Clark moved that a committee be appointed to investigate ticket distribution.

Tickets for the play went on sale Monday at 9 a.m. and were completely sold out by Wednesday.

Senator Clark's motion was carried and the committee was appointed. The chairman will be Senator Clark.

A COMMON SCENE in the next couple of weeks will be this one, as assistant registrar Hoyt Price registers Robert Kienzle for the coming semester. Registration began Wednesday, runs through the 18th.

FSU Profs To Be Called In State Probe

State Senator Bart Knight of Blountstown announced last week that he plans to ask the Legislature's racial investigating committee, of which he is a member, to summon three Florida State University professors to testify.

BEHIND NAACP

Knight said that he had reliable reports that these three faculty members were "behind the organization of the NAACP in Florida." He declined to name the professors since he said that the charges have not been proved.

The committee held hearings last year, with White Citizen's Council leaders, state Negro leaders, and white supremacist John Casper as witnesses.

Knight threatened to resign unless the committee gets moving soon. The senator could not be reached for further elaboration of his January 3rd statement.

Florida State University Dean of Students R. R. Oglesby said that he did not believe that the university had any policy in relation to this problem.'

The university faculty is one of "highly diversified ideas," he said, but declined to comment further.

Report Favors 'Who's—Who'

Student Senate Wednesday heard a report from a special committee on the investigation of administration of the "Who's Who in American Colleges and Universities," yearbook that expressed approval with the national set-up.

Day student Senator Dayton Roberts, chairman of the committee, reported that the group had found nothing wrong with the intent of the organization, but did discover some discrepancies between the overall operation and its statutory administration at FSU.

"There is no basis for criticism of the organization itself," Roberts said. "Who's Who is most helpful to its members who are looking for jobs."

"Recommendations for jobs may be obtained from the organization, and these recommendations are honored by most employers."

Roberts reported that some other colleges and universities use a point system in selecting the members for "Who's Who." A certain number of points are alloted for academic achievements, memberships in organizations and offices held in these organizations and other campus activities.

Seven-hundred colleges and universities participate in the program.

SCULPTOR FRED HOLSCHUH holds aloft one of the pieces of sculpture from his exhibit, which went on display Wednesday in the art gallery.

Art Faculty's Show

'Monkey Doings' Art Included In Exhibit

Bold, brilliant and dramatic paintings of large scale, and subtler, more subdued and restful paintings, both large and small, are displayed in the annual Faculty Exhibition of the Department of Art in the FSU Art Gallery.

Illustrations for a proposed children's book, **Monkey Doings**, by Miss Ann Kirn, offer contrast to the paintings by Karl Zerbe, Miss Floreoce Kawa, Miss Laura Lee and Robert Schuler.

12 MONKEYS

The 12 pages on display present 12 frolicsome monkeys, complete with jingles, starting, "One little monkey sat all alone, eating a strawberry ice-cream cone."

Zerbe, well-known member of the contemporary modern art movement, has submitted five new paintings, **Landscape with Letters, Green Totem, Interior at Tallahassee, Chinese Actor,** and **Nob Hill.**

Miss Kawa's oil paintings—**City, Still Life No. 1, Pine Tree, City at Night,** and **Still Life with Pine Cones**—illustrate nature and city views abstractly.

Shuler's **Bedroom, Road to the Sea,** and **Lolita,** are, like Miss Kawa's, oils.

LEE SHOWS FIVE

Two casein paintings and three watercolor paintings are illustrative of Miss Lee's work.

Offering still more contrast in the exhibition are the studies in design and color by Irwin Rubin. His selection of subtle shadings make for delicate, artistic designs.

Again offering contrast is the sculpture by Frederick Holschuh and Rudolf Jegart.

Holschuh has six entries, including a heavy looking but light weighing **Open Form Composition** of fiber glass silica, lighted from inside, and also an impressive, massive head of **Barabbas** in plaster and plymer.

250 LB. BARABBAS

Barabbas now weighs about 250 pounds, and will at least double its weight when Holschuh does the subject in pink marble.

Sculptured, life-like heads represent Jegart's creations. The subjects, in bronze, plaster and terra-cotta, are all Florida youngsters, and have been loaned to the exhibition by their parents.

This exhibition will be in the gallery until January 27, and is open daily to the public—10 a.m. to 5 p.m., Mondays through Fridays; 10 a.m. to 1 p.m. Saturdays; and 1 to 4 p.m. Sundays.

Former Dean Of Students, Classics Professor Here, Dies

Dr. Olivia Dorman, former dean of students and classics professor, died Wednesday in Tallahassee following a long illness.

Dr. Dorman, who resided with Florida State University Dean of Women Katherine Warren, was a member of the FSU faculty until 1956 when she retired from the Classics Department.

Funeral services will be held this morning at 11 at the St. John's Episcopal Church.

ALABAMA NATIVE

Dr. Dorman was born in 1892 near Huntsville, Ala. and was graduated from Randolph-Macon Women's College in Lynchburg, Va., in 1913 with training in Latin and Greek.

For five years following her graduation she taught in the Latin department at Randolph-Macon and then went to Athens College, Athens, Ala. She served as Dean her last year there.

After receiving a PhD in Classics in 1924 at the University of Chicago, Dr. Dorman came to FSU as associate professor. She later became Latin professor here.

In 1934 she became Dean of Students and held this position until 1947 when by her own request she returned to teaching in the Classics Department. She retired in 1956.

TEACHER AND DEAN

On her retirement, Dr. Doak S. Campbell, then president of FSU wrote to her: "Few people who have participated in the development of this university have contributed more than you have done. You enjoy the distinction of having made your contributions, both in the field of administration and in the field of teaching and scholarship."

Her Greek and Latin professor at Randolph-Macon, Dr. Herbert Lipscomb, once wrote of her: "One of the most satisfactory students that I have ever taught. A scholar in every sense of the word."

Dr. Dorman was a member of Phi Beta Kappa, several classics societies, Eta Sigma Phi, Mortar Board and belonged to the American Philological Society for which she wrote several articles.

'Pow Wow' Editor Applications Due

The Board of Student Publications is now accepting applications for the position of "Pow Wow" editor. Interested students should make their applications to Dr. Reid Montgomery, Room 19, Longmire Building, or Ruth Fritchie, Chairman of the board.

Qualifications include a 2.3 scholastic average, in addition to experience in organizing of information and staff members.

The salary of the editor is $50. The board will appoint the editor at 11 a.m. on Tuesday, January 14, in Longmire.

Will Appear On 'Arlene Francis Show'

By MARCY SEITZ

Florida State University will be well represented on television this month by "Flying High", Gymkana, and the department of music.

Appearing on the "Arlene Francis Show" today, will be 18 members of the university's circus troupe and seven Gymkana performers.

Previously appearing on the show was Miss Beverly Brown, a voice major, last Tuesday.

Miss Brown, a senior from Atlanta, Ga., sang a solo "Getting to Know You", and a duet with a performer from the show. The duet was "Make Believe."

ACTIVE VOCALIST

The attractive brunette, a soprano, is a member of the University Singers and The Women's Glee Club, and had leading roles in recent Light Opera Guild productions of "South Pacific" and "Oklahoma" at FSU.

"I had a wonderful time," said Miss Brown. "They made me feel like Queen Elizabeth".

"It was good experience for me," she added.

The Flying High performers will be featured in six acts: bicycle, quartet adagio, skaters, tight wire, double trapeze and Spanish web.

The circus students will be Chris Parmalee, Nancy Long, Ann Wear, Pete Wooten, De Ann Head, Sheryl Rose, Jim Haywood, Patsy Stearns, Wayne Barber, Leigh Heisinger.

Ronald Whiteard, Arlene Wooten, Jean Hartz, Peter Hagerty, Charles Lloyd, Pete Kiefer and Martha Hall. In charge is Mr. Jack Haskins, circus coach.

Flying High previously appeared on the ABC television production, "You Asked For It", during the month of December.

The circus performers left Tuesday, for rehearsal in Silver Springs until the time of their appearance.

GYMNASTS PERFORM

Gymkana students will appear January 14, and will be featured in stunts on the high bar, flying rings, trampoline, and in tumbling acts.

They are Chick Cicio, from Brooklyn, New York, who was Mr Florida and candidate for Mr. America; Jack Miles and Dave Carrmali, Tallahassee, Lorraine Powlus, Bloomsburg, Pa., who will do an acrobatic routine; Jack Ryder, Dayton, Ohio; Don Pretser, Denver, Colorado; and Larry Malmlin, Swedish Olympic champion, from Stockholm, Sweden.

Also being presented will be Miss Gymkana, Nan Chamberlain, and the attendant, Marilyn Harris.

LEAVE MONDAY

The Gymkana students will leave FSU on Monday January 13 to rehearse for the 10 a.m. show on Tuesday.

Originally the "Home" show; the "Arlene Francis Show" is producing its first remote production to Silver Springs since the changing of the program.

Coast to coast the NBC television show is seen on 110 stations and will be broadcast from Ocala, January 6-17.

The program is a 30 minute production and is seen each morning from 10 to 10:30 a.m.

Symphonic Band Concert Set Friday

The Florida State University Symphonic Band will combine with the Concert Band for their first appearance of the 1957-58 school year on Friday, January 17 at 8:15 p.m. in Opperman Music Hall.

The joint presentation will serve as a relaxing and entertaining music treat for students and faculty prior to exam week and will conclude an active fall semester on campus.

The Concert Band, under the direction of Robert T. Braunagel, will open the program. The group of eighty musicians consists of students from all schools of the university. It is considered a continuation of band participation after high school and is open to all interested students.

The Symphonic Band will conclude the concert and will feature Anne Verran in a piano solo. Miss Verran is a senior from Cairo, Georgia.

Leave Scalp 'Em To Cheering

It has been reported that students obtaining tickets to the Artist Series production "Back To Methuselah" have been either giving them away to non-students or reselling them at a profit.

THE LATTER practice, commonly called "scalping," is unfortunate in this case in that it prevents students from attending the program which they have already paid to see via their student activity fee.

Also it is unfortunate because the ticket office, upon learning of this, decided the best way to prevent it is through a required showing of ID cards at the door the night of the performance. Regulations of this sort should be avoided if possible, but in this case it seems like the only way to protect students against their fellow classmates.

THE ARTIST Series programming staff is handicapped by one factor which they have no power to regulate. That is the problem of space. Westcott auditorium, although a newly constructed modern building, seats only 1600 people.

But there are nearly 7500 students who help support the Artist Series programs through the student activity fee, and many townspeople, faculty and staff members who enjoy attending the cultural and entertaining shows presented yearly.

WHEN A popular program is scheduled like the one to be presented Tuesday night starring such eminent personalities as Tyrone Power and Faye Emerson, the students receive priority on tickets sales. They deserve this privilege since they have paid in advance to finance the Series.

However, this privilege shouldn't give students the right to resell these tickets in order to make a profit. "Scalping" of this sort only prohibits other students from benefiting from a program to which they have contributed and requires regulations to be executed, such as the showing of ID cards at the door.

Police Tactics Weaken Court

The announcement that members of the Honor Court, upon the request of members of a class, sat in on an examination in order to catch students cheating presents an appalling situation.

BY ACCEPTING the request of students to "proctor" the examination the Honor Court is not strengthening its purpose and its ideals, but is initiating procedures which will nullify the progress already achieved in establishing a true honor system here.

The whole problem of honor at FSU is a difficult one both for the Honor Court and for the student. The reason for this is that the university's honor system is not seeped with years of tradition. A highly respected and influential honor system does not greet the incoming student, although he is instilled with the idea and philosophy of it.

THUS, the Honor Court is faced with the difficulty of finding a method to establishing itself as an influential institution to which students will adhere voluntarily.

How will this be accomplished? Will it be done by the lack of faith shown students by professors who remain in classes to insure obedience to the code? Will it be done by the examples set by administrative police procedures? Will it be done by instilling fear in the student or by instilling faith in his desire to achieve an honor system?

WE DO not attempt to give the Honor Court the right answer. We hope for an honor system which makes its purposes and ideals clear.

If it is going to follow a policy of faith in the integrity of the student to uphold the honor system without a noose around his neck, let it base its procedures upon this method; but if it chooses to use procedures which assume a lack of faith in the student, let this be the basis of the philosophy of the honor system.

★ ★ ★ ★ ★

Thanks Extended To Administration

The decision of the administration to allow sophomores to bring cars on campus next semester is an action to be commended.

UPON THE recommendation of student groups, and the president of the student body, the administration requested the Board of Control to rescind its prior declaration that sophomores shouldn't have cars this year.

At the beginning of the year, Dr. Robert M. Strozier, taking into consideration that students had not been officially informed of the Board's summer decision, halted the action for the fall semester.

AT A Board meeting last month the FSU administration, represented by Vice President A. B. Martin, received the Board's okay to decide whether or not sophomores would be allowed cars for the spring semester.

The results indicate a healthy relationship between the university administration and student government in working out a satisfactory solution to an important student problem.

★ ★ ★ ★ ★

'Man Of Year' Not Shining Example

Time Magazine, in their January 6 issue, selected Nikita Khrushchev as their choice for "Man of the Year" in 1957. Time has been making the "Man of the Year" award since 1923. It goes to the man who has been most influential "for good or for evil" during the year.

Unquestionably, Mr. Khrushchev deserves the award. To win it, he has led the Soviet Union into first place in the missile and space race and virtually eliminated any contenders for his position as Russia's No. 1 man.

Neither President Eisenhower, and certainly not John Foster Dulles, nor anyone else of whom we can think has been so influential during 1957.

It certainly is not a pleasant reflection on the state of the world that the selection goes to a man who is so power mad, tyrannical, and (to quote Time) "frequently drunk" and "boastful." It seems a shame.

FSU Honor System Called 'Corrupt'

LETTERS to the EDITOR

TO THE EDITOR:

Is there, in reality, an honor system at FSU? One certainly would not think so while waiting at the library to have his briefcase searched for books, or waiting at the finish of a test for the pencils and exam booklets to be counted, or hurrying to get his girl back to the dormitory at 10:30 before the doors are locked.

A NEW and much more objectional development has recently been brought to my attention. The Honor Court now seems to be conducting some sort of purge. They are searching the rooms of and going through the personal belongings of the occupants of some of the girl's dormitories. As I understand it, they are trying to find stolen articles.

I have even heard some girls complain of being awakened at two and three in the morning so their rooms could be searched. This is done without any kind of search warrant or permission from the occupants of the rooms. I, for one, would deeply resent having my constitutional rights violated and my honor questioned. This is, indeed, a strange type of "honor" system.

AT THE same time, the Honor Court advocates that teachers leave the room while a test is in progress. They are evidently following the "Do as we preach; not as we do" type of philosophy. I strongly resent these invasions of an individual's privacy and think something should be done about it.

Perhaps there should be a purge of the honor system itself. When a student organization gets into such a corrupt state as this, it is definitely time for drastic measures to be taken. Let's either have a real honor system or at least admit that the honor system here doesn't work. This Gestapo under the guise of an honor system is not fooling anyone but itself.

Sincerely,
JAMES BUTLER

(Editor's note—This letter was received by the Flambeau previous to the Christmas holidays.)

Guest Editorial

Let Frat Pledging Be Decided Locally

(Daily Texan, University of Texas) This weekend, delegates from colleges and universities all over the United States met in Colorado Springs, Colorado, for the National Inter-fraternity

Monday, the Texan received a letter from Dr. Philip L. White, assistant professor of history, which clearly parallels our own thinking on the ticklish question of bias clauses.

"The National Inter-fraternity council is on firm ground when it affirms the right of fraternity members to choose their own associates.

"Certainly an individual or a private group can make itself as snobbish and anti-social as he or it pleases as long as laws are not violated.

"However, if the council is to exalt this freedom, it seems to me that consistent observance of the principle would require elimination of hard and fast national rules designed to limit the choice of members arbitrarily by excluding all people of certain racial or religious groups regardless of their individual worth and possible attractiveness to members of a local chapter.

"It seems to me that every chapter should, according to this principle, be free to decide for itself whom it wished to invite to membership and that there should be no arbitrary restrictions of the right.

"The National Inter-fraternity council has come a long way in recognizing the principle of free choice. Perhaps ultimately, the council may even apply it."

The National-fraternity council may soon be forced to take a more positive and stronger stand on bias clauses as more and more institutions accept the theory that selectivity should be on a local basis only.

Some schools have said they will allow a fraternity with a national clause to remain on their campus; others are requiring removal or progress toward removal of the clauses by a definite date.

We believe that such requests are neither unreasonable nor out of line—that in the long run such a practice is actually more fair to each individual fraternity.

However, we feel just as strongly that complete freedom of choice must rest with the local group. And it is the group's privilege to be as restrictive or exclusive as it chooses. This is the essence of the fraternity system.

Particularly repugnant to us is the reported attempt by some schools to require the local fraternity to furnish proof of non-discrimination, i.e., forced pledging a man of another religion or race.

It is this move that fraternities as a whole fear (rightly so) and are fighting against.

We believe (and as Dr. White has implied) that the only way for the two viewpoints to be reconciled into any kind of workable solution is to let basis of selection rest exclusively and finally within the local group.

Mr. Throw Is Watching Frats

TO THE EDITOR:

There has been a lot of talk about "Come in, Mr. Throw", the story in the Smoke Signals. Well, I would like to line up on Throw's side. Some fraternity men say their organizations aren't like Throw found them. Well, I don't see any of them inviting him in to take a better look.

Frankly, I would like to meet Mr. Throw myself. I want to invite him to join an organization I am starting. We have no dues, no meetings, no duties or obligation, in fact, no organization. On meeting nights we just sit around and drink beer. This may revolutionize our system of social organizations.

The day of 1984 is past. BIG BROTHER is old hat. Today the fraternities must watch their manners because MR. THROW is watching them.

Sincerely,
BILL BARNES

Graduate Deadline Extended To Monday

The deadline for February graduates to order announcements and to reserve a cap and gown is Monday, according to Bill Weaver, president of the Senior Class.

"The deadline has been extended in order to accomodate the seniors," Weaver said.

Announcements and caps and gowns may be ordered at the Student Center.

Installation Banquet Slated By Vets Club

Plans for an installation banquet will be made at a meeting of the Vets Club at 7:30 tonight at the Trophy Room in the Student Center, President Joe Moffa announced this week.

Moffa said newly elected officers for the Spring semester will be installed at the banquet. The affair will be open to all members of the club and their guest.

All members are requested to attend tonight's meeting.

Why Do We Laugh At Cruelty Jokes?

BY NANCY HANNAFORD

Why do we laugh at such horrid jokes? What on earth the matter with us that we find a dialogue like the follow funny?

"Daddy, why can't I stop running around in circles?"

"Shuddup, kid, or I'll nail your other foot to the floor."

The "cruelty" joke, as this brand of humor is called, goes over like a Mack truck with the older generation. Have you ever tried to relate one of these gruesome anecdotes to your parents? The response is quite unrewarding, ranging anywhere from a shocked chuckle to a shudder.

ALTHOUGH these square-toed tales have recently filtered down to high school and junior high students, and up a little into "grown-up" circles, they are mainly the product of a nation-wide college humor fad which began almost two years ago.

Why do university students in particular enjoy "cruelty" jokes? One FSU coed suggested it might be because we're old enough to understand responsibility and laugh at its distortion in a joke, but sheltered enough that we haven't seen these things as the grim realities they sometimes are terrible disablement; pain; and social cruelty.

ANOTHER Florida State student pointed up college courtship as the reason we laugh at physical deformity. At this time in our lives, he stated, we are very interested in being put together correctly so as to attract members of the opposite sex.

Most psychologists agree that people laugh mainly at the things they actually value the highest (e.g. family relationships; sex; ability to get along with others and be tactful; religion; and personal appearance and dignity).

IF THIS is so the profusion of jokes about physical deform… laugh at these days are a… cation of a rather odd place… of values. Do we give too m… emphasis to bodily fitness… personal appearance?

Students aren't the on… that is baffled by the popula… cruelty jokes. Outstanding Events Of 1957 Reviewed

BY BUCKY CANON

Nineteen fifty seven was quite a year. It will probably … remembered by future generations as the peak year of the "fa… ious fifties."

IT WAS certainly an eventful year. Three of the events will cause a marked change in the face of America over the coming years. They are (1) the launching of Sputnik, (2) the business decline, and (3) Little Rock.

By far the most important of these events was the successful launching of two satellites by scientists of the Soviet Union. (And their successful testing of an intercontinental ballistic missile.) The consequences of these Soviet scientific triumphs will be many and varied. And they will be felt more in America than in Russia.

OUR FIRST reaction will be an overhaul of our concept of defense. Far seeing leaders will realize that conventional defenses can no longer be depended upon. Such things as SAC's heavy bombers and large standing armies have seen their hey-day.

This is not to say that conventional weapons will be abandoned overnight. They won't. In the first place, the military moves slowly, especially in a democracy. Old ideas and old traditions stay on as old men inhabit high places. Secondly, of course, old weapons cannot be abandoned until the new weapons have been manufactured and tested.

BUT IN the coming years we will see less and less of our present defenses. More and more emphasis (and money) will be placed on long range missile development. The possibilities of manned satellites will be tested, too. (As soon as we get our unmanned satellite off the ground.)

The second reaction to Sputnik is the opening of the floodgates of criticism of the American educational system. Americans hate to come off second best in anything. They have been putting their two bits worth in as to the weaknesses in our educational system which caused us to lose the satellite race.

THIS CRITICISM is good. It will cause a revaluation of where the emphasis is placed in our educational set-up. More scholarships will be offered to bright students, less to athletes. The Federal Government will probably enter the scholarship business.

Science and mathematics courses will be improved … courses will receive less atten…

NINETEEN FIFTY SEV… will be remembered as the … with the business dip at the … The boom is over—at least … porarily. Stocks are down, un… ployment is up, the free spend… mood of the people is over.

Any recession brings up me… ories of 1929. Is 1957 simila… 1929? Is another depression in … making? These questions are … the back of many minds.

THERE IS not much cha… for a repetition of the 1929 cat… trophe. Things are too differ… now. Anti-deflation laws clu… the statue books. Governmen… committed to keeping the ec… omy on an even keel and sta… ready to prime the pump with … fense spending.

Businessmen predict that … recession will end by mid-… Perhaps they are right. Prob… we have seen the most prosper… years of the decade, however … consumer production has cau… up with and passed our consu… demands. Hard times wi… come, but government and … ness will have to do some … nomic tinkering to keep the … nomy up.

LITTLE ROCK was impor… too. Actually it is not so im… tant in itself as it is as a … of the 1954 Supreme Court … sion.

It was inevitable. A co… between the Federal govern… and Southern feeling on th… tegration issue had to come so… time. It came at Little Rock.

THE RESULT was inevita… too. The government could … allow the decision of a Fed… court to be defied by state … mob action. To do so would … defiance of Federal court … sions in every state in the u… and the eventual breakdow… the Federal judicial system … government was bound to b… the court—with troops if ne… sary.

Results of Little Rock wi… a slowing down of Federal in… ration policy. (As seen in the … cent reversal of the Dallas … ration order.) The govern… (including the courts) is n… anxious to see violence and … use of troops.

The policy will be slowed … not reversed.

1958 Grid Slate Termed Toughest

According to the publicity and the NCAA, Florida State officially went "big-time" in college football circles in 1955.

Since then, the Seminoles' grid slate has been getting increasingly tougher. Next year is undoubtedly the finest—and toughest—schedule in the school's history.

In an effort to find a soft spot on a slate which includes giants like Georgia Tech, Tennessee, Miami, Florida, FSU added Tennessee Tech and Tampa (again?) to the 1958 slate.

This, in our estimation, was a grave mistake.

In the first place, Tennessee Tech can hardly be considered a power in football—they have come up with pretty fair basketball teams but not football teams.

In the second place, the date of the Tech game almost insures a very small crowd. It's slated for the 13th of September, six days before school starts.

ONLY A FEW STUDENTS

This means that few students other than early arriving upperclassmen and a few freshmen will see the game. This appears to be further proof of the old adage that football is for the money-offering alumni, not the students.

In any case, it seems unlikely that very many people would pay to see Tennessee Tech anyway.

This is another one of those games where FSU goes into the contest with everything to lose and very little if anything to gain by winning.

It hardly justifies our "big-time" status.

As for Tampa, we complained about the scheduling of Tampa last year, and were told it was for recruiting purposes in the Tampa area.

This year, the game is in Tallahassee. For recruiting purposes? Hardly!

Tampa is hardly in our class of football, and hasn't been for the last several years. They haven't beaten FSU in the last five years when the Seminoles have "come of age" so to speak) and it is unlikely that they would if the two teams met for the next 25.

POOR HOME SCHEDULE

The addition of these two teams at home also leaves FSU with a pretty poor home schedule, particularly if the Georgia game is moved to the Gator Bowl in Jacksonville as rumors indicate.

Besides Tampa and Tennessee Tech, Furman, VPI, Wake Forest and maybe Georgia are slated home. Drop Georgia and we've got two teams of any worth to be played home—Wake Forest and VPI.

This may be a rebuttal to the students for their generally poor support of the excellent home slate which was presented them this year, or rather last year—1957.

It was indeed a good schedule—including two of the top 20 teams in the country, N. C. State and top-ranked Auburn, and ...

What happened?

During the Miami weekend, a good share of the students went ... elsewhere, and Auburn, supposedly the nation's best ... did not draw as well as Furman—in some estimations the ...s worst.

While defending the poor schedule on that somewhat weak ... we still contend that the scheduling of Tennessee Tech and ... will still bring no favorable publicity here.

... Seminoles still appear to be on a middle plateau as regards football class. They can murder the little teams, can't touch the ... and are at a par with the rest of them, such as VPI, Wake Forest, N. C. State (usually—not in 1957).

Guess here is they've gone too far in both directions next year. They're out of their class with Georgia Tech, Tennessee, Miami, Florida and possibly Georgia.

And they should have given up playing teams like Tennessee Tech and Tampa two years ago.

Hoopsters Face Memphis State

Veterans, SAE Win 'Mural Cage Crowns

A fired-up Vets Club team met Newman Club for the title match of the 1957 Dorm-Independent Intramurals basketball competition on Tuesday December 17 and won going away, 44-24.

Led by Maboney with 14 points, the Vets Club took the lead early in the first minutes of the game and never let up until the final whistle.

At half-time the Vets led 19-10.

The Title match in the Greek Division of the intramural basketball was slightly a different tale On Monday December 16, SAE and ATO met for the championship match of the Greek Division.

From the outstart of the game both teams were evenly matched and it was a case of first one team leading and then the other. Corso was the main sparkplug for the ATO's and Nellums and Kimber shared the spotlight for the SAE's.

At half-time, SAE held a slight margin and maintained that lead through the third period. During the fourth period new life flowed through the ATO's and they began cutting down SAE's hard fonght margin.

As the game neared the final whistle, SAE sank a field goal and a free throw. ATO matched the field goal, but were unable to pull the game out of the fire and SAE were winners 30-29.

PLAYOFF SCHEDULED

A Campus Championship game is being scheduled between the Veterans Club and the SAE's. This game is strictly a post-season match and will be played at the convenience of the two teams concerned.

The match will definitely be played before the current semester ends, according to the intromural office. This will be the first time this year that a Dorm-Independent team has met a Greek team in competition.

TGUCH FOOTBALL

Touch Football resumed with action in both divisions on Tuesday, as undefeated SN ounced PKT in an easy tussel, 40-12.

ATO maintained their undefeafed slate by defeating TC, 24-21 KA remained in the undefeated column on a forfeit by SPE.

DTD had little trouble in their 33-12 victory over PKA, and SC slipped a narrow win over SAE by beating them 13-6.

TEP, still seeking its initial win, bowed to PKP, 13-7.

TOM GACIA (11) tries to cut around Loyola guard Karl Vogt during the final minutes of Monday night's game. Others are Larry Strom (13), Dan Boltz (15) and Loyola's Pete Gaudin (15).

Drop 7th Game To Loyola, 79-67

Florida State's eagers face what is probably their toughest opponent of the 1957-58 basketball season, Monday night, when they meet 18th ranked Memphis State at Memphis.

Leading the Tribe's attack will be its two high scoring guards, Hugh Durham and Jim Liteky. Dan Boltz, (6-6) center, will need all the help he can get from starters Bert Deckel and Larry Strom to cope with the rebounding strength of the Memphis quintet.

Memphis, which was recently put on NCAA probations, is loaded with plenty of height, including a (7-0) reserve center. Memphis has four players who are over 6-5 in their starting lineup.

Coach Bob Vanatta's crew, which missed by a single point of copping the National Invitation title last year, is again on its way to another successful cage season.

In the latest cage poll State was ranked 18th despite a 6-3 record at the time.

The only mutual opponent for the two clubs has been loyola which twice knocked off Florida State, and in its only meeting with Memphis dropped a close one 65-63.

The Seminoles played Tampa last night while Memphis State meets Murray State, which lost to FSU earlier in the year, Saturday night.

In the Tribe's last game before Tampa, they were outgunned by Loyola of New Orleans, 79-67.

The Wolfpack hit for a tremendous percentage from the floor, 28 for 45 good for a .622 percentage, while the Tribe took 20 more shots and hit on five less. Loyala also hit for an almost unbelievable 23-23 from the free throw line.

Loyola, behind Pete Gaudin and Bob McLaughlin with 25 and 22 points respectively, led the Seminoles by 27 points at one time before Durham, who scored 20 points, and Liteky, 19, could get hot and cut the lead to the final score margin of 12 points.

In the Senior Bowl tournament held during the holidays, FSU finish third by gaining a win over Georgia, 92-80.

Baseball Meeting Set On Wednesday

A meeting for all baseball players is scheduled for Wednesday January 15, at 7 p.m. in the lecture room of the Men's Gym said Coach Dan Litwhiler.

Varsity, freshmen and managers are expected to attend the meeting which will feature films of the Milwaukee Braves.

Swimming Team Needs Freshmen

Florida State's freshman swimming team is in dire need of more frosh tankers announced "Bim" Stults.

All freshmen are urged to come out for the team which practices at the Women's gym every afternoon from 3 on.

If enough frosh come out there will be competition with other schools scheduled, he said.

South's Gym Team Bows

Florida State gymnasts accounted for three places in the annual North-South gymnastics meet December 30 in Sarasota as part of the National Gymnastic Clinic.

The North team, coached by George Syspula, won for the first time in three years, upsetting the South's domionance of the yearly event.

Jack Miles, a graduate at FSU, copped third places on the horizontal bar and flying rings. Abie Grossfield, U. S. Olympian from Illinois, and Michigan State's Taschas edged the former national all-around champion on the high bar.

Jay Warner from Penn State and Sam Bailey of Iowa placed ahead of Miles on the rings.

Back from a six month tour with the Army, former Florida State gymnast and Olympian Don Halder placed fifth on the parallel bars for the South, while Don Priesser took another fifth on the trampoline.

Chick Cicio won the bronze medal for a third on the long horse in the Roy E Moore memorial meet to wrap up Seminole scoring during the clinic.

Track Team Posts New Relay Record

A new school record in the mile relay was set December 29 as representatives of Florida State's Track team ran in the Sugar Bowl Invitational track meet.

The relay team, composed of Jack Terwilliger, Charley Nye, Doyle Ruff and Mike Conely, finished fourth in the event with a time of 319.4. The winner of the race only set a time of 318.7.

The school record had been 320.8, which was set last year at the Florida Relays. Jim Casteel, the soph quarter-miler, placed third in that event with a time of 49.4.

Terwilliger ran in the preliminary 100 and did it in 10.0, which wasn't good enough to qualify.

Head coach Mike Long said he was pleased with the way the men showed up against tough competition. The teams taking part in the meet were University of Texas, University of Houston, North Texas State, Texas Tech, Kansas State and North Carolina.

Also sending its top men to the meet were the University of Oklahoma, Oklahoma State, Duke, LSU and Maryland.

"I was satisfied with the times the boys set, they looked good for this stage of the season," said Long.

The Seminole thinclads will see their next action on March 1 when they compete in the Atlantic Coast Conference which will probably be held in Chapel Hill.

The Tribe will be defending its title for non-conference schools at this meet.

Frosh Five Meet South Georgia JC

Florida State's freshman basketball team resumes action after a 29-day layoff when the Baby Seminoles clash with South Georgia Junior College at Douglas tonight.

Coach Jimmy Oler's FSU yearlings will be after their second triumph against one setback in the 8 p.m. game

It's the second start for South Georgia, coached by former FSU football standout Vince Gibson.

Paced by 6-5 forward Charles Tinsley, the Baby Seminoles walloped Norman Park (Ga.) College, 82-41, in their opener at Gainesville.

Tinsley, a 1957 All-State high school standout from Miami, is averaging 21 points. Baby Seminole center Bill Archer (6-5) of Melbourne, Fla., has a 17.5-point average.

Other FSU starters against South Georgia will be 6-3 Jim Daniel of Atlanta at forward, and Bobby Conrad (6-0) and Bud Whitehead (5-10), both from Marianna, Fla., at guards. All three were on FSU's 1957 freshman football team.

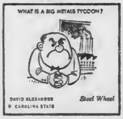
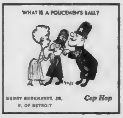
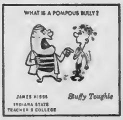
WHAT IS A MARCHING BAND THAT NEVER GETS A LUCKY BREAK?
(SEE PARAGRAPH BELOW)







MEMO TO MAESTROS: is your band dawdling instead of tootling? Is it full of feeble fifers and drooping drummers? Well, this musical slowdown *may* be traceable to lack of Luckies. Better give your band a break—and make it a Lucky one! A Lucky, you see, is a light smoke—the right smoke for everyone. It's all cigarette—all naturally light, wonderfully good-tasting tobacco. And Luckies' fine tobacco is toasted to taste even better. Now then, what's a marching band that never gets a Lucky break? Why, it's a *Sore Corps!* (Wasn't that cymbal?)

LUCKY STRIKE
CIGARETTES

STUCK FOR DOUGH?

START STICKLING! MAKE $25

We'll pay $25 for every Stickler we print—and for hundreds more that never get used! So start Stickling—they're so easy you can think of dozens in seconds! Sticklers are simple riddles with two-word rhyming answers. Both words must have the same number of syllables. (Don't do drawings.) Send 'em all with your name, address, college and class to Happy-Joe-Lucky, Box 67A, Mount Vernon, N. Y.

Student Officials Attend Meet

Two student government officials, Art Moore, attorney general, and Gerry Gordon, junior senator, journey to Auburn, Alabama, this weekend to attend an executive council meeting of the Southern Universities Student Government Association.

The purpose of the trip is to make plans with member universities for the yearly SUSGA conference which will be held here next semester.

The conference will be open to any schools wishing to attend, a change from the other SUSGA conferences in which only member schools participated.

Active members of the organization are Auburn, the University of Alabama, the University of Tennessee, Georgia Tech, Mississippi Southern, and FSU.

Final Examination Schedule

Classes will end Wednesday, January 22 at 10 00 p m Examinations will begin 6 00 a m. Thursday, January 23 and end 12.30 Friday, January 31, 1958 Examination periods are of two hours

All sections of the following courses have examinations at the same time and will be held at the place announced by the instructor

COURSE	TIME OF EXAMINATION
Accounting 201, 202	Thursday, January 23, 4-6 p m

Courses meeting one hour each week	Friday Jan 24, 10 30 a m -12 30 p.m

Courses meeting two hours each week will take the same schedule as the three hour courses unless otherwise shown on this schedule

In case of conflict the examination which appears first on this schedule will have preference over the other examination. Make arrangements with the instructor of the conflict examination to take the examination Monday, January 27, 1.30-3 30 pm

Students are not permitted to change sections for examinations

In unavoidable circumstances where a student must be absent from an examination, the student may request permission from his academic dean to take the examination late. No examination is to be given early in such cases

Night classes will have their examinations at the first regular class period time during the examination week, except those having group examinations

Classes meeting on Saturday morning only will have their examination Saturday, January 25 10 30 am—12 30 pm.

Students who have more than three examinations scheduled for one day contact Mr. Price Assistant Registrar 102A Westcott Building In case of four examinations in one day, the third examination in the students schedule will be changed.

A candidate for graduation may be excused by his instructor from taking the final examination of a course in which he has maintained without question, a "B" average when the examination is scheduled Candidates for degrees who are required to take examinations will have them scheduled with their instructors not later than Monday, January 27, 1958

The lecture period of a laboratory course will determine the examination time

Arrangements for room assignments should be made with Mr. Price or Mrs Tharp in the Registrar's Office, Ext. 7-6501

The examination schedule is published with the approval of the Faculty Senate Committee on examinations.

ROBERT KRAL, a doctoral student here, shows Assoc. Prof. R. K. Godfrey a new species of pawpaw he has found in Florida. Kral is doing reclassification of pawpaw species. On the table is a new species of insectivorous butterwort Dr. Godfrey found in Walton County. The two plant collectors together have added about 15,000 plants to the FSU Herbarium.

FSU Herbarium Growing Fast, More Than 36,000 Specimens

A fast-growing plant collection at Florida State University is helping bring botanists and the plants they study together.

For 200 years, according to Dr. R. K. Godfrey, associate professor of botany at FSU, plant collectors have been busy in Florida but the plants they have collected usually have been taken to distant herbaria.

Even today, he said, the New York Botanical Garden probably has more Florida specimens than any collection in this state.

But herbaria like the one at FSU, which now has more than 36,000 specimens, are making easily available to scientists the plants they sometimes had to go a long way to inspect.

COMING HERE

Many scientists from distant points now are coming here, in fact, to look at Florida material Among recent visitors to the FSU Biological Sciences herbarium have been botanists from Gray Herbarium at Harvard, Montreal Botanical Garden, Vanderbilt, University of Tennessee and University of Georgia

The FSU herbarium has exchanged plants also with herbaria at Duke, North Carolina, North Carolina State, State University of Iowa and Southern Methodist University, among others

About 75 per cent of the FSU material is from Florida. Dr. Godfrey and a graduate assistant, Robert Kral have collected perhaps 15,000 of the plants personally during the past four years, principally in that part of Florida west of the Suwanee River

This region, and particularly the Apalachicola River drainage basin, has been a favorite collecting area of botanists for years. One of the notable plants collectors of the 19th century, Dr Alvan W. Chapman, lived at various times in Apalachicola and Quincy.

He was the author of the standard "Flora of the Southern States," published in 1860 (with several later editions) and many west Florida plants were either named by or for him

TORREYA BY CROOM

Another 19th century collector was H B Croom of Tallahassee, who discovered the rare Torreya tree.

Kral, now making a reclassification of the pawpaw species in Florida, has run into the lack of availability of plant specimens some of the plants he has had under examination in his FSU lab have traveled at least 10,000 miles, including twice across an ocean, altough they were collected a day's drive from Tallahassee.

A case in point is the gopher-berry pawpaw, collected according to the identification tag by Ferdinand Rugel in Volusia County, Florida, in 1848. The plant first went to James Shuttleworth in England, thence to one British museum and eventually to the Missouri Botanical Garden in St Louis, Mo. From there it was borrowed by Kral for his study.

PRESS AND FILE

Plants as old as this, and even some which were pressed and filed away as long as 500 years ago, still are in good condition for study, their form and colors still well preserved.

Plants collected by FSU botanist are pressed while in the field between large sheets of corrugated cardboard, blotting paper and newspapers and bundles of them are placed in an electric dryer. When dry the plants are mounted on paper, carefully identified from field notes and are filed away in metal cabinets which have been insect-proofed

About 25,000 of the plants in the FSU herbarium are flowering plants, nearly all acquired since 1954 In addition there is an extensive collection of Florida mosses, collected by Dr. Ruth S Breen over a period of several years, and a collection of blue green algae collected by Dr. C. S Nielsen.

The collecting expeditons, financed by National Science Foundation funds, occasionally produce a new species of plant life

Recent discoveries, for instance, include a new species of butterwort, found by Dr Godfrey in a bog in Walton County and growing only there and in neighboring west Florida counties. He calls the plant, one of the few insectivorous plants to be found in the state, Pinguicul primuliflora

Kral, in his study of the pawpaws, also has found a new species, still to be named A shrubby plant, he found it growing on the sandy soil of six north central Florida counties, including Suwannee County where it was first found.

Four Fashion Fellowships Offered

Four Fashion Fellowships will be awarded this year by Tobe'-Coburn School for Fashion Careers in their twentieth annual nation-wide contest among senior college women.

Each fellowship for the New York City school covers the full tuition of $1250 for the one-year course for the year 1958-1959. All senior women graduating before August 31, 1958 are eligible to apply.

The widely-known school offers fellowships yearly to encourage able college graduates to enter a field which holds unusual advancement opportunities for well-trained young women. Graduates hold jobs in buying, advertising, styling, radio and television, and magazine editorial work.

The one-year course emphasizes actual contact with the fashion industry through lectures by important fashion personalities; visits to manufacturers, department stores, buying offices, fashion shows and museums; and ten full weeks of working experience, with pay in New York stores and other fashion organizations.

Senior women may secure Fashion Fellowship registration blanks from the vocational office, or from the Fashion Fellowship Secretary, Tobe'-Coburn School for Fashion Careers, 851 Madison Avenue, New York 21, New York. Registration closes January 31, 1958.

Dem School Fire Was Mostly Smoke

The Florida State University Demonstration School got into the excitement act Tuesday when a small fire broke out on the school grounds around the bases of several palm trees.

Mrs. Jeanne L. Carter, secretary of the school, told a Flambeau reporter Wednesday that there was "smoke, smoke everywhere, but not much fire at all."

Before the Tallahassee Fire Department could arive on the scene, J. Garland Wynn, guidance director at the school, had whipped out his trusty automobile fire extinguisher and doused the blaze

The excitement was confined to the faculty, however, as school was out at the time. No cause of the fire could be determined.

Symphonic Band Sets State Tour

The Florida State University Symphonic Band will make its fourth annual state concert tour Feb. 17-23. The band, consisting of 90 top student musicians, will be directed by Manley R. Whitcomb of the music faculty during the tour.

A trumpet trio composed of Calvin Hasbrouck of Tallahassee, Mike Hipps of Newton, N.C. and Charles Turner of Bunnell, a marimba solo by Jackie Howard of Ft. Lauderdale, a medley of popular tunes by Anne Vernon of Cairo, Ga. and several selections by a percussion ensemble directed by Ramon Meyer of the music faculty will be featured on the tour program.

The tour schedule includes concerts at Columbia High School, Lake City, and George Washington Hotel, Jacksonville, Feb. 17; Seminole High School and War Memorial Auditorium, Ft. Lauderdale, Feb. 19; two concerts at Dan McCarty High School, Ft. Pierce, Feb. 20; Auburndale High School at Mayhall City Auditorium, Lakeland, Feb. 21; and Manatee High School, Bradenton, Feb. 22

Party Scene

'Last Blast' Set By Delts, S Nu

By RUTH FRITCHIE
Flambeau Society Editor

The **Delta Tau Deltas** and the **Sigma Nus** are donning their party togs for one last party fling before exams close out the party schedule for the semester. Tabbed the "Last Blast," the party—at the Delta Shelter— will get under way early tomorrow night. A combo from Florida A&M will provide the rock and roll for the two-fraternity party.

Last night the **Delta** played host to the **Delta Zetas** at the Delt House. The Delt's own combo, consisting of guitars, one piano, and a harmonica entertained the girls before the record party.

• • •

Tonight the Chi Omegas are having a combo party to which the student body is invited. The Devilaires are going to be playing and it is strictly a Bohemian affair, so wear your sneakys and shades and go over to the Chi O house.

Last night the **Chi Os** and the **ADPis** joined forces at the Chi Omega house for a weiner roast. The two sororities then serenaded several of the fraternities.

• • •

Wednesday night the **Pi Kapps** entertained the **Kappas** at the Pi Kapp house. From all reports, a good time was had by all.

Tomorrow night the Pi Kappas are having their last party of the semester. Along with the sounds of a cool combo, there will be a show presented by the pledges.

• • •

Games and good times are in store for the Kappa Alpha Thetas this weekend at the Reservation. The Thetas will eat supper at the camp tonight and enjoy an open fire place roasting marshmallows.

• • •

Alpha Omicorn Pis celebrated their Founder's Day with a banquet at the Tallahassee Dining Room. Alums and honorary members were present to enjoy the banquet and the program that was presented.

Thursday night before Christmas the **AOPi** pledges gave the actives a party. This party was not like the ones in previous years because this year the AOPis decided not to exchange gifts within the chapter.

Instead, the girls adopted a family in Tallahassee and bought that family clothes, sheets, blankets and a complete Christmas dinner. Through this project the AOPis did much to contribute to spreading the spirit of Christmas.

• • •

The Phi Delta Thetas have selected the men to lead them in the spring semester. The new president is Hank McCann.

Other officers are: Scott Harpe, vice president; Ted ..., secretary; Jerry Glancy, warden; Jim Magee, ...; Frank May, house manager; and Benny Benandler, pledge trainer.

Tom Gregory, historian; Arnold Davis, librarian; ... Pettruzelli, chaplain, Bob Weber, sophomore executive; Fletcher Eyster, junior executive; Jim Webb, ... executive; and Galen Kilburn, receptionist.

• • •

The **Kappa Deltas** and the **Kappa Alphas** had a record party last night at the KD house. A skit was presented by the KDs.

• • •

Kappa Alpha Theta was announced as FSU's Sorority of the Year by Delta Tau Delta, at the Panhellenic dance, on December 14.

Bob Wolfenbarger presented to Barbara Hendrix, Theta president, the silver bowl which had resided in the Theta house in 1954.

INTERNATIONAL STUDENT CLUB PARTY. New Year's Scene, Fugikage Harue, a Japanese dance performed by Mrs Kawabatu from Japan.

Seminole Society

Twirp Dance Planned

The second annual Twirp Dance, presented for the entire student body by the freshmen class, will be held next Friday. The dance will be in the Suwannee Room from 6 to 11:30 p.m., according to Kip Tichenor, vice president of the freshman class.

Tichenor urged that each girl ask a date to the informal affair and be responsible for tickets and the finances for the evening.

"Entertainment will be provided by Chick Cicio who will sing, and probably other students will be asked to perform," he said. The master of ceremonies will be comedian, Stan De Hart.

Attire will be informal. Suggested were slacks and shirts for men and simple dresses for women.

Tickets, which may be bought for fifty cents, will go on sale today in the Westcott ticket office. They may also be obtained in the girls' dormitories.

"Think of the money boys pay out all year for girls," Tichenor reminded. "You girls should be glad to pay for one evening." He also explained that this is the one dance that is sponsored entirely by the freshmen.

Georgea Ort, freshman social chairman, is in charge of the dance. On her committee is Bruce Brown, president, in charge of refreshments; Kitty Wade, secretary, working on decorations; Claire Brightwell, treasurer, planning entertainment; and Tichenor, who is responsible for ticket sales.

Choice Of Spring Opera Indefinite

The choice of the opera for spring of 1958 lies between "La Boheme" and "Madame Butterfly," announced Richard Collins, director of opera productions, this week.

Tryouts begin January 9 and 10, and all students, regardless of major, may audition.

"By selecting the principal voices first and then choosing the opera best suited to their vocal types, we hope to give the best possible presentation," Collins said.

In "Oklahoma," his first FSU project, Collins combined the efforts of the Light Opera Guild and the University Singers. He hopes to continue building toward a strong opera department and eventually, a seperate major in opera in the School of Music.

Journalism Club Sets Meeting

The newly organized FSU Journalism Club will hold its January business meeting, Tuesday, January 14, at 7 p. m., in the Student Lounge of Longmire.

All persons interested in journalism, but not necessarily enrolled in the School of Journalism, are invited to attend this meeting, as well as students in the school.

This will be the only meeting held during the month of January, due to the forthcoming final exams. Everyone who is already a member is encouraged to attend this meeting as the main item of business will be the adopting of a constitution.

K D Pi Adds 18 Members

Eighteen students at Florida State University will be initiated into Kappa Delta Pi, national education honorary, Friday, Jan. 10.

New members of the chapter at FSU are Cecil Hartsfield, Manelle Jeter, Nancy Worrall, Sandra Stewart, Sharon Williams, Jacqueline Bird.

Also Sherry Nichols, Carlos Taylor, Nancy Key, Mary Anne Coleman, Gary Logan, Nancy Jo Bowers, Nancy Hudgins, Catherine O'Sullivan, Carolyn Bell, Lois Charlesworth, Terryl Grace and Ruby Combs.

Howard Abel, instructor in business education and president of the FSU chapter, will be in charge of initiation ceremonies.

Lost: Class Ring, Watch, Notebook

LOST — Red, standard size, looseleaf NOTEBOOK with FSU letters in gold. Contains notes valuable to owner. Will give REWARD of $5.00 if returned by Monday, Jan. 13. Please phone Mrs. Evelyn R. Paris, Tallahassee 2-1453.

LOST — Helbros wrist watch, white gold, on December 3, in the vicinity of Reynolds Hall or the Conradi Building. Finder please contact Penny Pickels, Room 47, Reynolds Hall.

FOUND —Outside Florida Hall, 1957 Boca Ciega class ring. Please check at Lost and Found Desk in Longmire.

Church News

BSU, Wesleyites Honor Frosh

By ANNETTE McINTOSH
and KAY JACKSON

Parties in honor of freshmen will be given Saturday night at the **Wesley Foundation** and the **Baptist Student Union.**

The party at the Foundation will be held from 7:30 until 11 p.m. as a part of Freshman Week.

Baptist freshmen are invited to come to the BSU hourse with a date or a friend and dress as twins. Party time is from 7:30 until 9:30 p. m.

The **Hillel Foundation** will sponsor a Membership Drive Brunch at 11 a. m. tomorrow at Temple Israel. Thirty-five cents will gain you admission and an opportunity for fellowship.

The **Baptist Student Union** invites everyone to attend the Summer Missions Seminar tonight at 7 p. m.

Vesper services are held every Tuesday at 6:30 p. m., and Morning Watch services continue to be held from 7:30-7:50 a. m. on Fridays. Breakfast is served before 7:30 for those who have 8 o'clock classes, and it is served again after Morning Watch.

This Sunday evening at 6:30 the **Wesley Foundation's** Forum Hour will have as its guest speaker Justice Campbell Thornall, of Tallahassee. Arnold Greenfield will be the student leader, and he extends an invitation to all to attend.

The schedule for Sunday: Sunday school, 9:30 a. m.; church, 10:55 a. m.; supper, 5:15 p. m.; Forum Hour, 6 p. m.; and Vespers, 7:15 p. m. For the week: Matins is held in the chapel every Monday, Wednesday, and Friday at 7:30 a. m. This week's topics are "Study or Play," "Study or Pray," "Stury or Pass."

At the **Westminster Fellowships:** Sunday — 9:30 a. m., Sunday school; 11 a. m., church; 5:45 p. m., supper and fellowship at First Presbyterian Church. Tuesday — 9:30 p. m., devotions at the Westminster House. Thursday — 5:30 p. m., Theology Hour, at which Rev Davis Thomas will lead a discussion.

Dr. Guenter Schwarz, of the department of physics at FSU, will be the speaker at Sunday morning's services of the **Unitarian Fellowship** of Tallahassee. His talk will deal with the impact of the recent Russian experiments upon the United States.

The Congregational Fellowship Group will meet on Sunday night, at 6:00 p. m. in the recreation room of Broward Hall. All Congregational students are invited to attend.

The **Newman Club** for Catholic students at FSU welcomes all students who want to be members.

Headquarters are at the Newman House and Mass is held there on Sundays at 9:30 and 11:30 a. m., and Weekdays at 7:00 a.m. Confession is held on Saturday at 4:30 to 5:30 evening. Instruction classes are held Tuesdays and Thursday at 7:30 p. m.

The group is well organized with an executive council of about 27 members which meets bimonthly. They have a faculty advisor, Dr McDonough who gives assistance and guidance.

The purpose of the Newman Club is to enrich the members in three phases: spiritual, social and intellectual. It can be described as a tricycle whose wheels are the three phases and the front wheel is the spiritual wheel which is the source of drive and direction.

The religious phase of the Newman Club is shown in the Religion committee (girls who decorate the altar), altar boys committee, altar and rosary committee, and the contact system.

Leadership training is offered in other committees: supper committee, publicity, choir, librarian, usher, decorations, social, house (repairing), sports, refreshments, weekly bulletin, rules and membership.

The Club has a student advisor for the freshmen who contacts them, gets them interested, helps them become a part of the Club and gives assistance with problems when asked.

The Newmanites work outside their club by helping the Knights of Columbus and by helping with the Blessed Sacrament projects including their clothing drives.

Cavalier Taps Eleven Men

Eleven men were initiated as pledges of Cavaliers, campus dance organization, last Thursday at 7:30 p. m., in ceremonies in the Trophy Room of the Student Center.

Cavalier President Gordon Davis conducted the initiation. New members are Eddie Henderson, Ira Glisson, Jim Colee, Rem Noblit, Ray Charles, Fenton Bennett, Doug Taylor, John Del Vecchio, Sal Lanza, Wes Brown and Bob Sikes.

The new pledges were chosen for membership from 28 candidates, according to Davis.

Student Wanted To Make Boat Repair

One or two male students experienced in sailing and boating to do minor repair and refinish of hull, sails and rigging.

Choose your own hours.

Duration is two months, possibly permanent position.

Contact Dr Jack F. Davis, Men's Physical Education.

Engagements

ARMES-ROCHE

Liz Armes, a junior from St. Petersburg is a Kappa Alpha Theta.

Bill Roche, a senior from Panama City is a member of Sigma Alpha Epsilon.

A June wedding is planned.

BELVIN-MUNROE

Elaine Belvin, a senior from Tallahassee majoring in education will wed Palmer Munroe this summer. Miss Belvin is a member of Kappa Delta.

BRUCE-IVES

Patty Bruce, a senior from Lake City majoring in business education will marry Tommy Ives. A summer wedding is planned. Miss Bruce is a member of Kappa Delta.

DAVIS-McCLAIN

Hope Davis, a junior from Miami majoring in specialized education will wed Tom McClain this summer. Miss Davis is a member of Kappa Delta.

DAVIS-ATKINS

Kay Davis, a junior from Jacksonville majoring in speech will marry Ken Atkins this summer. Miss Davis is a member of Kappa Delta.

HAMILTON-ABBOTT

June Hamilton, who will graduate in February in interior decoration is from Bushnell, Florida. Miss Hamilton is a Delta Zeta.

Kenneth Abbott, senior in personnel management is from Birmingham, Alabama. Mr. Abbott is a member of Kappa Alpha.

A summer wedding is planned.

LATIMER-RASCO

Diane Latimer, a senior from Miami majoring in education will marry Austin Rasco. Miss Latimer is a member of Kappa Delta.

A summer wedding is planned.

MURPHY-MANNING

Pat Murphy is a junior from Port Lauderdale and a member of Kappa Alpha Theta.

Jack Manning, a junior from Vero Beach is a Lambda Chi Alpha.

An August wedding is planned.

WILLIAMS-VEAL

Jennie Lind Williams, a senior from Ponte Vedra Beach majoring in education will wed John Veal this summer. Miss Williams is a member of Kappa Delta.

'Institute' Activities

Fashion-minded students at Florida State are invited to become members of the Fashion Institute.

Since its establishment on campus in 1954, the "Institute's" activities and accomplishments have been many.

Sponsoring a modeling squad, which offers modeling services to the local merchants and television station, is one group activity. At the organization's annual tryouts for the squad, any girl with previous modeling experience or a talent for showing clothes nicely has a chance to become one of the models. This year's tryouts are scheduled for later in the month.

"Fashion Day," an annual spring project, combines the efforts of its approximate fifty members and the members of the Faculty Fashion Institute in presenting a fashion show.

Aside from its yearly projects, each month the club sponsors a program where local merchants, buyers, advertising people, etc., are invited to speak. The guest speaker presents views on his particular profession and gives club members some idea of what their work might include if they chose a similar field.

Overseeing all the "Institute's" work is its president, Barbara Emmett. Assisting her are Nancy Buchan, vice-president; Jean Permenter, secretary; Vici Walters, treasurer, and Elsa Hickendorff, program and social chairman. Miss Ann Kern of the Art Department serves as faculty advisor.

Anyone interested in fashion and having ideas to contribute will be a welcome addition to the Fashion Institute, and anyone may, at any time, attend a meeting of the group, said Miss Emmett.

Young Women:

After Graduation, Begin Your Career In An Executive Position !

If you're a college senior, you can prepare now for an important executive future by applying for an officer's commission in the Women's Army Corps. In addition to an officer's pay and prestige, you will have a position of vital responsibility...working side by side with male officers in such challenging staff and administrative assignments as:

*Personnel & Administration *Intelligence *Comptroller
*Public Information *Civil Affairs and Military Government
*Information and Education *Legal and Legislative

And with this challenge, come these personal rewards:

*An officer's busy cultural and social life
*The chance for exciting foreign assignments
*A 30 day paid vacation every year
*The satisfaction of serving your country in a really important way

You owe it to yourself and your country to investigate this challenging and rewarding executive opportunity. For full information fill in and mail this coupon today !

JUNIORS — The Women's Army Corps will select a limited number of qualified women who have completed their junior year for 4 weeks training, summer 1958. There are no commitments. You will receive an orientation in the Army and may make application for a commission after graduation if you want to become an officer in the United States Army. If interested check the enclosed coupon.

THE ADJUTANT GENERAL CP
Department of the Army
Washington 25, D. C.

Says Oxford Prof

Human Sympathy Shakespeare's Forte

The br[oad] human sympathy of Shakespeare's comedy made it superior to its satirical and burlesque contemporaries in England in 1610, according to Oxford Professor Frank Percy Wilson.

Speaking Wednesday night in the Library Lecture Hall, Dr. Wilson, visiting FSU as guest of the Alpha of Florida chapter of Phi Beta Kappa and the Department of English, compared Heyward's "The Fair Maid of the West," Ben Johnson's "The Alchemist," and Shakespeare's "The Winters Tale."

Yesterday afternoon he spoke on "King Lear" at the English Coffee Hour.

Dr Wilson, surprised to find below-freezing weather on his first visit to the Sunshine State, said that American audiences are more receptive than British.

"If you like something you are much more apt to show it," he commented.

Dr Wilson has been on the faculty of Oxford University since 1947, teaching English drama of the sixteenth and seventeenth centuries. He has had several related works published.

Recently he has been doing research on a fellowship at the Folger Shakespeare Library in Washington, D. C.

Comparing the educational set-ups of Oxford and many American universities, he mentioned in particular the tutorial system.

That is, according to Dr. Wilson, an arrangement whereby the student works almost completely on his own. Reading the material and attending the lectures recommended by his tutor, he writes papers on the subject he is studying.

The student reads these papers to his tutor at prescribed intervals and receives criticism on their form and content.

Another major difference in the Oxford and American universities is in the amount of specialization.

The student at Oxford has no "general education," as U. S. colleges do, for all work is done in one of 26 or 27 colleges from the freshman year on.

As for academic aims, Dr. Wilson feels they are the same at most universities. An education must prepare one for future work, he states.

"The days when a man didn't have to worry about his livelihood are over."

FSU Prof Publishes New History Study

A study in medieval history by a new member of Florida State University's history department, Dr. Coburn V. Graves, has just been published in Rome.

The work, entitled "The Economic Activities of the Cistercians in Medieval England (1128-1307)" runs to about 60 printed pages. Dr. Weymouth T. Jordan, head of the FSU history department, called it "a very outstanding publication."

Fall Faculty Add

D[r.] G[raves] joined the FSU faculty this fall, coming to Tallahassee with his family from San M[arcos], Texas, where he was a member of the history faculty at S[outhwest] Texas State Teachers College.

His new publication was based on some of the material which went into his doctoral dissertation, submitted at the University of Chicago in June 1955. A Container Corporation of American fellowship enabled him to write the dissertation.

Having the study accepted by the Cistercian publishers from a person outside the order, was the [bi]g compliment to Dr. Graves He admitted he was "a little critical in his [ju]dicious attempt to reassess the Cistercians" also known as the white monks but not to be confused with the white friars.

Dr. Graves condensed his study and sent it to the publishers in Rome on the advice of a Cistercian monk friend, Father Louis Lekai who is the author of "The White Monks" and is on the faculty of the University of Dallas, the only advanced school in this country staffed entirely by Cistercians

The FSU professor was asked to read "The White Monks" critically before its publication

Unescapable

Asked why he became interested in the Cistercians, Dr. Graves said that since his graduate field was medieval history, he found the Roman Catholic Church and its orders unescapable, and the white monks soon had a hold on him.

He said his most original contribution was in documenting the continued wrangling between a succession of early English kings and the Cistercians Much of the trouble arose from the monks "hunger for land" to carrying on a successful wool business.

Special interest in the Cistercians, particularly in Florida, lies in the recent transplanting of a 12th century monastery built in Spain to North Miami.

The project of moving the monastery was started by William Randolph Hearst about 30 years ago, but only dismantled, shipped in crates, strewn over 10 acres and finally reassembled by expert stonemasons in the last few years.

Today it serves as a monumental tourist attraction It has been definitely identified as Cistercian Dr Graves hopes to have a look at it next spring.

HOW WELL DO YOU KNOW YOUR CAMPUS?

CHANCES ARE you've visited the spot where the above photo was snapped. But unless you're an amateur astronomer, you might not be familiar with the gadget in the picture at the left See story for locations of these and other little-known places around the campus.

Can You Locate Planetarium? Sculpture Lab? Flower Garden?

"Where's Westcott?" would be a rather simple query, to anyone except, perhaps, a freshman in September or a visitor.

But "Where's the planetarium?" is a horse of a different hue, perchance.

In the photo at the left above, you'll see the major piece of equipment in the planetarium — a projector which flashes the planets, stars, moon and sun (no sputniks as yet) on a dome-shaped ceiling in a turret atop Westcott.

The little orbs of light circle across the dome in their orbits, providing artificial duplication of a night outdoors for astronomy classes. To find this spot, enter the south side entrance and climb to the top.

MUSEUM

The picture at the right is a more familiar location — the museum and art gallery on the second floor of the dining hall building Its educational and interesting exhibits are changed frequently.

You now can locate two interesting spots on campus. Try your hand at placing these:

The university duplicating service. Or the speech clinic. Or the art department's sculpture lab. Have you visited the IBM office recently? And you should know where our flower gardens are located, the source of the decorations in all the dorms and buildings on campus.

TOO SIMPLE

That was easy, wasn't it? The duplicating department's in the basement of the old demonstration school; the speech clinic can be found in the Lodge near the tennis courts behind Magnolia.

You will find art students sculpting in their lab in the dining hall basement, and the International Business Machines are under Westcott, north side. The posies grow over near Florida Hall.

These will really test your campus knowledge Go to the head of the class if you can find the Physiology Rat House. Did you know that the PBX operator is located in the North Cawthon basement?

And do you know where the party planning service is?

Neither do we. If you find it, let us know.

Three FSU Grads Receive Marine Officer Commissions

Three graduates of Florida State University have received second lieutenant commissions in the United States Marines.

They completed the ROTC training program at FSU and after a ten-week Officer Candidate Course at Quantico, Va are now enrolled in the nine-month officer basic school at Quantico. Upon completion they will be qualified infantry platoon leaders.

These men were in training with other applicants from the nation's colleges and former enlisted Marines

William H Leonard received his BS degree in physical education from the School of Education in

SMITH TEBAULT

June of 1957. While here he was a member of the Seminole football team for four years, and was in the Men's Letter Organization for two He was also active in intramurals and Alpha Tau Omega social fraternity

Omer B. Smith, Jr., graduated from FSU in June, 1957, with a BS degree in Business, his major was banking science and management Smith was social chairman for Kappa Alpha social fraternity for two years.

Alfred H Tebault Jr from St Augustine, graduated from FSU with a BS degree in Journalism He was active in Sigma Alpha Epsilon social fraternity and intramurals.

All Women Eligible For DDD Grant

Florida State University women are eligible for the Delta Delta Delta scholarship competition, whether or not they are members of a sorority, Mrs. Margaret Blair, assistant director of placement and student aid said this week.

In announcing the 1958 Tri-Delta General Fund Scholarship Competition, Mrs Blair said that the scholarships, which are awarded to women on campuses that have a Tri-Delt chapter, may amount to as much as $200

The scholarships, which are administered through the national office of the fraternity, are awarded on the basis of academic qualifications and promise of valuable service to the future communities in which the applicants will live.

Application forms for the awards are available in the office of Placement and Student Aid, 309 Westcott.

Successful candidates for the awards will be notified by May 15, 1958, and the awards will be made at the beginning of the term for which they have been granted. They may be used for the 1958 summer session.

Florida Blizzard Buries Seminoles

BY STAFF WRITER

Florida State University staged its own version of a New England blizzard Wednesday morning.

In truth, it was a poor facsimile. But for the first time since early 1955, snow fell on the FSU campus.

For approximately two hours, beginning around 7:30 and lasting until almost 9 30, the cotton flakes fell, tossed by a brisk wintry wind.

VARIED COMMENTS

The phenomenon was greeted with varying degrees of enthusiasm. Comments ran the gamut from "Haven't seen snow since I left home!" to "Gee — I've never seen snow before in my whole life!"

One snow-struck South Florida lass entered a 9 a. m. class, after a trip through the flakes. "It's snowin' out theah!" She announced in a stunned voice to her fellow students

A caustic professor, reminded of his youth spent in the North, was bitter. "Too much like home —I hated shoveling snow," he commented.

QUICK NOTE

A frostbitten junior penned a quick note to his parents. "Send cash. Need overcoat"

Another phoned Eastern Airlines "Can you give me the time schedule on your flights to Jamaica?" he inquired

Many students of northern origin lapsed into nostalgic ecstasies, raising prayers for more heavenly white stuff. Enough for snowballs.

On the other hand, another form of dancing observed on campus was engaged in by first-time-snow-viewers. Their antics, closely resembling the ancient rites of a prehistoric tribe, were only their expressions of enthusiasm as they frolicked on the frost-browned grass chasing snowflakes.

It was a day to be forgotten.

FELLOWSHIP INTERVIEWS

The Woodrow Wilson National Fellowship Foundation offers fellowship for first-year graduate work to promising prospects for the academic profession.

Dr. Richard Boys, national director of the foundation, will visit FSU Monday and Tuesday.

Faculty members who would like to talk with him should telephone the Dean of the Graduate School.

'Methuselah' Ticket Rumors False

Cabinet Votes Not To Attend NSA's Integration Conference

By JOHN RAY
Flambeau Associate Editor

Invitations for student government officials to attend two meetings on integration sometime this year drew negative replies from the Student Body President' Cabinet Wednesday.

Student Body President Arnold Greenfield, who presided at the session, reported to the cabinet members that he had received a letter from Bob Braham, vice-president of the Southeastern division of the National Student Association, inviting FSU to participate in a proposed NSA conference on the integration problem.

Braham's letter also informed Greenfield that the national president of the NSA would be in Florida next week and would visit the FSU campus if an invitation was extended.

Greenfield told the cabinet members he felt the visit would be pointless because the Student Senate has already disapproved joining NSA this year

IN AGREEMENT

Other cabinet members agreed with Greenfield but recommended that a letter be written informing the president of this fact They said the NSA president should also be welcomed if he decides to stop at FSU anyway

On the integration conference the cabinet members appeared in agreement that little could be gained by attending Greenfield said he would write Braham telling him of the cabinet's feelings on the matter.

The student body president also reported he had received a letter from Marshall Shapo of Miami University asking for FSU's feelings toward an inter-collegiate meeting to discuss integration. Greenfield said Shapo was the chairman of the NSA desegregation committee last summer.

Priscilla Moss, secretary of state, said it might be a good idea to send someone to observe the meeting Greenfield replied that he doubted if much would be gained. He said he has the feeling they have all been through these type of discussions before.

Once again the cabinet members appeared in agreement that little could be gained from this type of conference. Greenfield again announced he would write a return letter informing Shapo of the cabinet's feelings

SCALPING PROBE

The student body president informed the cabinet that he had investigated the rumors around campus that tickets to "Back to Methuselah" were being sold to the public instead of given to students and had found them to be false.

A total of 1,371 tickets were distributed to students and none were sold to the public, according to the president. He pointed out the only tickets released to the public were to people who purchased season tickets earlier in the year.

ELECTIONS APRIL 1

Joan Harmon, secretary of elections, reported the annual presidential election will be held April 1. She said campaigns for this election would probably start two weeks earlier. The student body president will be elected at this time.

Greenfield said Dr James Carr, director of placement and student aid, had requested the student government to investigate the feasibility of holding a student handicraft bazaar.

The bazaar would give students who make handicraft items a market to sell their products. A long discussion followed Greenfield's report. It was the consensus of opinion that the items might be sold easier from a downtown store. The cabinet recommended that Dr. Carr appoint a committee to investigate this possibility and added that it would not be taken up as an official student government function.

SUMMER JOBS

Dr. Carr also recommended to Greenfield that survey of the number of students working in the summer be taken. This will enable his office to organize a better supervised summer employment program for students. Student government will investigate this matter.

The cabinet agreed to investigate a request from the married students living in Dale Mabry Heights for an annual expenditure of about $200 to maintain the community center.

At the present time each family contributes a small amount each year to maintain the center. The cabinet members agreed that the families are entitled to an expenditure from the university for this activity.

Miss Moss requested that the cabinet approve postponement of

Packed House Certain At 'Methuselah' Play

1300 Invited To Strozier's Inauguration

About 1300 invitations went out this week to guests and delegates from over the nation who are being invited to the inauguration of Dr. Robert M. Strozier as president of Florida State University on Feb. 21.

Presidents or administrative heads of colleges and universities throughout the nation are invited as official delegates and will march in an academic procession into Westcott Hall that morning for the official installation.

GEORGIA BOY

Dr Strozier, a 51-year-old native of Georgia, took over his duties at FSU last September. He had formerly served the University of Chicago where he was dean of students and professor of romance languages for the past 12 years.

The guest list includes 800 names, including the entire State Cabinet, Supreme Court and Board of Control, along with the three justices on the North Florida Court of Appeals, members of the Legislature, Florida representatives in Congress and two representatives of the U. S Department of Health, Education and Welfare.

The guest list, in addition, will include the chairmen or chief administrative officers of state departments and agencies and of the governmental units of Leon County and Tallahassee

Dr. A B Martin, university vice-president and chairman for the inauguration, said that for local friends of the university a special reception has been planned by Dr and Mrs Strozier at their home on Saturday, Feb. 22

A reception also is being planned for students and theÁroziers are planning, beginning late this month, a series of receptions for members of the university faculty

GUEST RECEPTION

A reception for guests and delegates is planned from 4:30 to 6:30 p. m Friday, Feb 21, following a symposium during the afternoon at which educators from over the nation will participate The inauguration itself will be held Friday morning.

The invited delegates 449 in number, will include the presidents or heads of colleges and university members of the Southern Association of Colleges and Secondary Schools, junior colleges in Florida, private universities throughout the country and state universities

Also as delegates the chief administrative officers of national honor societies like Phi Beta Kappa, educational associations, learned societies and educational foundations are being invited

Also on the list, besides Florida and local governmental heads are the presidents of education-related organizations in Florida, the president and manager of the Tallahassee Chamber of Commerce, the president of Tallahassee civic and women's civic organizations, representatives of the press, radio and television, past president and present board members of the FSU Alumni Association, 94 FSU student officers and Tallahassee ministers

METHUSELAH STARS for Thursday night's showing will be Tyrone Power and Faye Emerson.

Tyrone Power Is Featured; Curtain at 8:15

A sell - out crowd will see Tyrone Power, Faye Emerson, and Arthur Treacher in George Bernard Shaw's "Back To Methuselah" Thursday night at 8:15 in Westcott.

Originally a series of five plays taking about nine hours performance time, "Back To Methuselah" was condensed in the spring of 1957 by classical-actor Arnold Moss, who will appear in the role of Bernard Shaw.

All of the other actors to appear will play, between them, a total of eighteen roles.

43 POWER ROLES

Tyrone Power, seen in 43 major motion pictures during his screen career, is star of the current "The Sun Also Rises" and "Witness for the Prosecution."

Miss Emerson, star of radio, screen, and television has also made a name for herself fashion-wise and as a syndicated columnist.

Star of musical comedies and New York comedian Arthur Treacher has in recent years portrayed two other Shaw roles in "Ceasar and Cleopatra" and 'Getting Married.'

Also featured are Valerie Bettis Moss, and Roger Evan Bixill.

Set designer is Marvin Reiss; Patricia Zipprodt is costumer for the group.

42 CITIES

The presentation here, produced by the Theater Guild and Arnold Moss will be part of 42-city Florida tour which began a week ago Monday, prior to the New York opening on March 17.

Mrs. Kathryn Vernon, director of special events, states that in order to prevent the re-sale of tickets by students there will be a check of identification cards at the door

Mrs. Vernon also states that late seating will be permitted only during intermission, thus making it advisable to arrive on time

Women students will receive late permission to return to dormitories whenever the performance is over and are encouraged to remain seated until the curtain falls, Mrs. Vernon emphasized.

Symphonic, Concert Bands

Two Bands Combine For Friday Concert

A pre-examination variety concert will be presented by two large bands in Opperman Music Hall Friday to mark the last weekend before final examinations for the fall semester.

The public is invited to the concert, beginning at 8:15 p.m.

The University Concert Band, conducted by Robert Braunsael, will present the first half of the program, and the University Symphonic Band, conducted by Manley Whitcomb, will conclude the program, featuring Anne Verran as piano soloist.

This is the fourth year Miss Verran, a senior, has been active in the band program at FSU, playing clarinet in the Symphonic Band and as majorette with the Marching Chiefs. She is a piano student of Robert Glotzbach.

A modern rendition for band of Bach's Prelude and Fugue in B Flat will open the concert, followed by a Folk Song Suite of three by Vaughn Williams, Scherzo for Band by Frank Erickson, March-Old Comrades by Carl Teile, Holiday for Winds by Glenn Osser and Highlights of Kurt Weill, arranged by Paul Yoder.

After intermission Miss Verran will play a selection from Mendelssohn's Piano Concerto in G Minor, Op. 25, and then the Symphonic Band will play the Symphonic Suite in five movements by Clifton Williams.

The cornet will then have the spotlight with a trio of students playing Three Candy Cornets by Howard Cable, followed by the whole clarinet section playing Ebony Rhapsody by Edgar L. Barrow.

The band will play Tulsa—A Symphonic Portrait in Oil by Don Gillis as the grand finale.

Strozier Schedules Week Of Travel

Two out-of-town addresses and two meetings are on the schedule of President Robert M Strozier of Florida State University this week

Yesterday he addressed the Ocala Parent-Teacher Association, and tomorrow he will attend a meeting in New York of the Lafayette Association

On Thursday he attends a meeting of the Board of Control in Gainesville and on Friday will address the Women's Cluub of Quincy.

Next week he has two addresses on his schedule He speaks to the Rotary Club in Panama City on Tuesday,and to the annual dinner of the Chamber of Commerce at Moultrie, Georgia, where Dr. Strozier was graduated from high school, on Thursday.

Other public appearances on his schedule incluude the annual meeting of the Chamber of Commerce at Mt. Dora Feb 4; the 50th anniversary of the founding of State Teachers College at Statesboro, Ga., Feb. 7; and the opening of the Music Teachers National Association meeting in Tallahassee Feb. 10

SUSGA Meet Here In April

Preparations for the annual conference of the Southern Universities Student Government Association which will be held at Florida State University April 25 and 26, were made at a council meeting at Auburn, Ala. last weekend.

Art Moore, FSU attorney general, who is president of the organization, attended the meeting.

The association is composed of delegates from five southern schools, with its objectives being to exchange ideas on student government in an attempt to improve the governments of the member universities.

Present members are The University of Alabama, Auburn, Miss. Southern, The University of Tennessee, and FSU.

"We are now trying to get new members," Moore said. At last weekend's meeting we authorized the appropriation of about $150 to be used for travel for a membership drive," he added.

Moore said he planned to visit Georgia Tech, Emory, and the University of Georgia in the near future in an effort to increase the membership of the organization and to invite the colleges to the conference in April.

Varsity Debaters Earn Third Place

The Varsity Debate squad placed third in the negative standings in the All-Southern Debate Tourney at Agnes Scott College in Atlanta, Ga last weekend.

The University of South Carolina captured first places in both the affirmative and negative matches FSU's affirmative team, composed of Suzy Flory and Leanne Reetz, won three out of five rounds, but failed to place in the overall standings.

A certificate of award was presented to the negative team for its third place finish. Jenn Bleichner and Melvin Peters debated the negative, winning three out of five rounds.

The team members toured Georgia Tech and Emory University campuses before returning to FSU Sunday morning.

Severe Shortage Here

Federal Funds Requested For Married Housing Units

By JOHN RAY

An increasingly complex problem which faces Florida State University officials at the start each semester is the severe shortage of adequate housing for married students in the Tallahassee area

Dr R R Oglesby, dean of students, said FSU officials are aware of the lack of married housing provided by the university and have taken steps to the problem.

Federal aid has been requested by FSU for the construction of married housing units, according to Dean Oglesby. He university officials felt confident the aid would be granted the Federal government.

The university official was not able to say when action on the would be taken or when initial work on the housing project would start. He pointed out that a project requires a great deal of planning but added that work would be started immediately upon approval by the government.

LAND AVAILABLE

Land for the proposed 300 units is available on university property, Dean Oglesby said. He said that married students with or without children would be eligible to rent the apartments.

At the present time the university has only 99 units in Dale Mabry Heights These units consist of two and three bedrooms. The two-bedroom apartments are rented for $34.50 a month and the three-bedroom dwellings for $37.50 All 99 apartments are unfurnished but furniture can be rented from the university for a nominal monthly fee. Utilities must be paid by the renters in the Dale Mabry units.

The university also maintains a trailer park for married students. Several steps are now being taken for community improvement of the trailer park.

The housing facilities offered by the university, however, are far short of the demand. A long list is constantly lengthened by married students applying for apartments in Dale Mabry. In order to rent an apartment a married student must have children.

A survey taken recently revealed that there are approximately 800 married veteran students living off campus. A large number of this group have applied for university-sponsored housing, but are forced to wait until vacancies occur at Dale Mabry. Many of these families have been waiting for over a year for an apartment in Dale Mabry

MANY DROP OUT

Each semester a number of married students are forced to drop out of school for financial reasons. A contributing cause to this problem is believed to be the high rent cost in the area

The average cost of unfurnished apartments in the city is about $60. A few fortunate couples may obtain unfurnished apartments for as low as $45 a month but these are generally gone well in advance of the start of a semester.

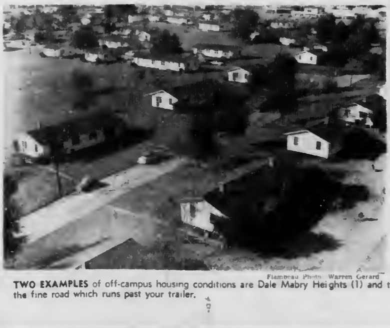
Furnished apartments run between $55 and $75 a month, with the latter becoming more and more scarce.

Many married students, who are entering FSU for the first time, never get to register because they arrived in Tallahassee too late to find an apartment. Dean Oglesby said he believed FSU loses many applicants each year because of the limited housing situation here.

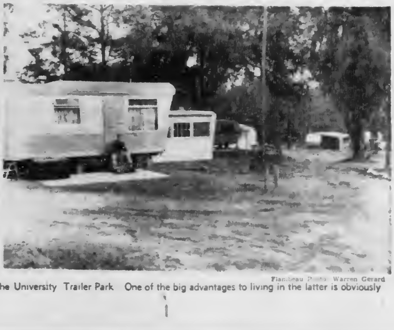
TREND TO CONTINUE

The university official said

(Continued on Page 4)



Flambeau Photo Warren Gerard



Flambeau Photo Warren Gerard

TWO EXAMPLES of off-campus housing conditions are Dale Mabry Heights (l) and the University Trailer Park One of the big advantages to living in the latter is obviously the fine road which runs past your trailer.

State Of Union Still A Question

The warm heart of the American people, always quick to respond to a gallant gesture, undoubtedly was moved by President Eisenhower's appearance before Congress in an attempt to provide the leadership the nation so sorely needs.

NOT MANY will find fault with anything the President proposed in his "safety through strength" program outstatesmanlike address. The eight-point "Safety Through Strength" program outlined in broad detail by Mr. Eisenhower can — if executed, if vigorously followed through — give a new sense of direction and purpose to our national effort to overcome the threat which Communist imperialism now offers to the free world.

The great unanswered question is still whether the President has the physical stamina and the political determination to exercise the untiring leadership which the hour demands.

FOUR OF THE EIGHT POINTS set forth by the President promise to have easy sailing in the Congress.

The first of these is reorganization of the defense establishment to assure that inter - service rivalries do not hinder our military efficiency.

Congress has been waiting for Mr. Eisenhower, as commander-in-chief with a lifelong military background, to settle this problem on his own. If he needs further legislation to expedite matters, the applause of the listening Senators and Representatives on both sides of the aisle indicated that he will have full support.

HIS SECOND POINT, following naturally upon the first, is for an overall speed-up in our defense effort. Here again Congress has been ahead of the administration — and the people have been ahead of Congress.

A third point on which support will be virtually unanimous is that of strengthening our scientific educational and research program, for which the administration has already proposed a billion-dollar, four-year plan.

And, though it may grieve conservatives of the Harry Byrd-John Taber school, Congress is not apt to boggle at Mr. Eisenhower's firm declaration that, while a balanced budget still is desirable and should be sought, adequate security comes first.

THERE ARE THREE POINTS in the Eisenhower program, however, which the President is apt to get in any satisfactory measure only if he shows far more determination and follow-through than he has previously demonstrated in dealing not only with Congress but with members of his own administration.

These are:

Continuation and strengthening of the mutual security program.

A five-year extension of the Reciprocal Trade Act.

Scientific cooperation with our allies, including much more free exchange of atomic secrets.

There is no doubt about how strongly the President feels on these matters. In particular, he was almost as pungent as Harry Truman in scornfully denouncing those who attack the foreign aid program as a "give-away."

NOR IS THERE ANY DOUBT as to how vital these points are to a well-rounded program of rebuilding and maintaining a posture of American strength against the Soviet menace.

But it is these points on which Congress is most apt to bog down in unstatesmanlike political maneuvering.

ON SHARING SCIENTIFIC information and "secrets" with our allies, the President is going to run into a heritage for which he can, in large part, thank his running-mate and heir-presumptive, Vice President Richard Nixon.

That is the poison of the "security" phobia so assiduously cultivated for political purposes by Mr. Nixon and by members of the McCarthy cabal. So thoroughly has much of Congress become indoctrinated in this attitude that hard effort will be needed to get a majority to agree to a sensible revision of present laws.

AND ON THE matter of continued and expanded expenditures in mutual security — damned as "foreign aid" — it is going to take the highest degree of leadership and of skillful and persistent political persuasion — especially of Republican members of Congress — if the President is to have any marked success.

Mutual security is little understood, and therefore little liked, by a great body of the public. And it is such an easy target for political demagogues in an election year that this part of the program faces rough going.

THE LAST POINT made by the President was a stirring and statesmanlike call for world peace. It was aimed principally at the people of Russia and other nations either in the Soviet sphere or leaning toward it.

It was a noble and moving appeal for "works of peace."

Yet the blunt truth is that to other peoples — even friendly ones — the fact that the dour figure of John Foster Dulles symbolizes this nation's foreign policy probably cancels out most of the effect of Mr. Eisenhower's words.

THE PEOPLE HOPE AND PRAY that the objectives outlined by the President may be achieved.

They applaud the President's courageous presentation of the needs which circumstances have created.

Unfortunately, however, it is impossible for many to forget that on frequent other occasions the President has made eloquent appeals and speeches equally cogent — only to have that be as far as the matter got.

THEY CANNOT overlook the fact that the genuine heroism of the President in going to the NATO meeting in Paris on the heels of a slight stroke failed to accomplish anything. The world leaders to whom Mr. Eisenhower appealed gave him the resepectful hearing and the warmly friendly reception which his sacrifice merited — but treated him almost as an elder statesman in an emeritus capacity.

That Congress, including Republican members, and even the President's own official family, may regard him in that same light is a possibility that cannot be overlooked.

And that is not enough.

Strong, tireless — almost ruthless — leadership is needed in this hour of peril.

The question that only time can answer is whether the President can be that kind of leader.

The St. Petersburg Times

Administration Faces Dilemma

State Senator Knight of Blountstown will soon ask the legislature's racial investigating committee to summon before it three FSU professors allegedly "behind the NAACP" in this state.

IF THIS committee carries its investigation through, it could pose a serious dilemma for FSU's new administration.

The NAACP is a political pressure group. It has certain legal and political goals, involving legislative and judicial actions. Before the law, a professor's membership in it (or association with it) is no more illegal than his membership in other pressure groups such as the Florida Education Association or the American Legion.

IT CANNOT be denied, however, that the NAACP is unpopular with the majority of Florida's white citizens and that any organization with such a standing is not going to receive favorable treatment from the state government.

This unpopularity is the cause of the committee's invasion of the academic freedom of those professors who allegedly support the NAACP cause.

IF THE senator's charges prove true, the same unpopularity will be the cause of pressure to have those professors "fired." While the professors could not be "fired" if they had tenure, the administration has the power to make things awfully unpleasant for any teacher who isn't wanted around.

This is where the new administration will face a dilemma.

FSU HAS A policy of academic freedom. The administration will have to violate this policy in order to win the approval of the state's many segregationists and the benign smiles of the money-dispensing legislature.

Refusal of the administration to submit to the pressure (which will follow if Senator Knight's charges prove even halfway true) will win the respect of professors and teachers everywhere and will undoubtedly influence many outstanding professors in accepting teaching positions here.

IT WILL be a choice of academic freedom and respect or favorable relations with the segregationist majority in the legislature.

We hope that the new administration will not have to face this dilemma. But if it does, we hope that they can take the honorable course.

"We'd Let You See It But We're Afraid You Might Be Overcome With Joy"

Reflections, Reflected In A Bad Eye

By ART ALBRECHT

A few decades ago a novel such as **Peyton Place** would have been considered a dirty book. Today, thanks to a changed society and clever promotion by its publisher, **Peyton Place** is good, realistic writing. "Earthy, human, one of the most extraordinary literary discoveries of recent years."

Nothing written any more is just plain dirty. It's earthy. Dirt is something in the mind of the reader—certainly not in a work of literature.

No longer do people have to read books that overflow with sex behind locked doors. For 50 cents you can walk, with head held high, into any drugstore and purchase a best selling book like **Peyton Place**, read it, see the movie and say with pride, "Well, a considerable portion of the book was left out but the picture wasn't bad."

NOW I DON'T know if the theory is good or bad. By theory, I mean the idea that it's admirable to read smutty books if they are advertised as literary greats. What does bother me is the self-styled literary expert who has read all of Erskine Caldwell and **Peyton Place** and proceeds to expound upon their literary merits.

Let's face facts. Basically **Peyton Place** is a fair story, rather poorly written, and loaded with sex. It's a best seller not a great work of literature. There's nothing wrong with reading it. So many people have already read it, you feel ignorant if you don't join the masses and, after all, I suppose "earthiness" is a part of education.

* * *

SECOND reflection. It was interesting to note the hustle and bustle in the Seminole Club last week when some of Morrison's top brass roamed the area. There were even four main dishes for the first time in ages. Employees smiled occasionally and never failed to say thank you after taking your hard-earned dough.

Looking over a dozen or so suggestion cards placed on the tables, I didn't find one that had anything complimentary to say other than a card which read "the Cuban sandwiches are okay." Complaints ran from prices to quantity and quality. What's wrong? Isn't there any campus loyalty? A good little Seminole would praise anything concerning FSU.

* * *

THIRD reflection. Closed circuit television in Miami Beach hotels has received considerable attention in the news lately. Hotel residents can tune in the kitchen, swimming pool, supper club, et cetera.

It's even possible for the hotels to maintain a grand scale baby-sitting service simply by setting a TV camera next to the crib and flashing what goes on to a monitoring room where a sitter can watch a dozen children at one time.

Please don't blame me if the school administration, after reading this column, decides to set up a closed circuit TV on campus to check on necking, drinking, cheating and so forth.

* * *

FOURTH reflection. If you read the so-called news and picture magazines very often I'm sure you've noticed that the great free press has just about decided on Nixon and Kennedy for the next presidential race. Naturally, to confuse their readers, they've mentioned several hundred other possibilities but the two mentioned above seem to be getting the most space and support.

The nice thing about these candidates is that you get an opportunity to read hundreds of letters-to-the-editor in national magazines starting off "Dickie is a known nigger lover," or "If Kennedy is elected the Pope will take over and control the U. S."

It helps to build up faith in your fellow Americans' ability to select the best man for the job.

* * *

THE LAST reflection reflects on the honesty of the faculty. We have a hot-to-go Honor Court to protect us but nobody looks out for the faculty. Even the library refuses to let them check out unbound periodicals. Maybe they should establish their own Honor Court to investigate this casting of asperaions upon faculty honor.

What Gives Here?

Propaganda Battle Changes Character

By NANCY HANNAFORD

The propaganda battle between Russia and the U.S. has changed in character from the military and economic race it used to be.

ALTHOUGH these factors are still important, especially in view of the new "no strings attached" economic aid the U.S.S.R. is doling out, they seem to more or less cancel each other out in the power bid both Russia and the U.S. are making to gain alliances with presently neutral nations in Africa and Asia.

As Walter Lippman and other critics of the international scene have pointed out, the determinant of a "power" nation now has become intellectual leadership.

AN EXAMPLE of this revaluation of national superiority by the people of the world is the reception given the Russian sputniks.

They have no economic significance and in their present stage of development, they carry little weight militarily. It's a foregone conclusion that sooner or later the U.S. will launch its own satellites. So they received none of the fearful acclaim that was given the American explosion of the atom bomb in 1945.

THE SPUTNIKS were primarily scientific, not military, accomplishments.

The impressive thing about them was that they were launched by a nation whose specialized education program is condemned by the free world on the grounds that it stifles individual creative ability, kills incentive to produce, and concentrates exclusively on the gaining of military superiority.

Out of this supposedly distorted system of learning came one of the biggest scientific advancements of the century.

AND WHERE was America when the sky fell in? Where was the country with the ideals that encourage the individual to the highest of which he is capable?

It might be noted that the U.S.S.R. challenged America for intellectual leadership in one of the only non-military fields in which she would be assured of taking first place.

She could be sure of taking first place because 1. the U.S. doesn't have enough scientists and the government doesn't have the power to make people go into science, and 2. without the power of dictatorship any administration would have trouble handling a scientific program efficiently. For, unlike many other non-military fields, space science has no public demand or backing.

HAD RUSSIA challenged America in the field of social science, humanities, or communications she probably would have bitten off more than she could chew.

But that's beside the point. She hit us where we, set up as we are politically, would be weakest.

She took the plug out of our bathtub, as it were, and we had best see about putting it back in.

How can we get young people interested in science? In a talk given to the Unitarian Fellowship of Tallahassee Sunday, Dr. Gunter Schwartz, of the physics department, discussed the problem.

Somewhere between the third and seventh grade, he said, American youth become uninterested in science and mathematics, mainly because there is more emphasis placed on developing them socially than mentally.

This attitude is reflected throughout our society, he stated, in that we are content to become lax mentally, to settle for mediocrity instead of the best, to avoid mental stimulation.

(At one point Dr. Schwartz brought this right home to college students. "Study is work," he said. One can't expect to develop an alert mind without working for it.)

Perhaps by emphasizing to young children the advantages of a well-trained mind we can regain our scientific prowess. These advantages are also something we could consider, for, as eventual college graduates, we will take much of the intellectual responsibility for the U. S. in the future.

More than the educational segment of our society is being tested in our intellectual race with Russia. As is always the case in any form of democracy, when the country is challenged every individual in it is challenged also. Nebulous. Idealistic. But true.

Resident Objects To West Hall Searches

LETTERS to the EDITOR

TO THE EDITOR

I heartily agree with Mr. Butler's letter accusing the "Honor Court" (Ha-Ha) of being corrupt. There is no such thing on this campus as an Honor Court. There are, however, a large number of: tattle-tales, rats, squealers, etc., who will inform on people they don't know and than assist their friends in cheating on some test.

AS TO Mr. Butler's reference of the girl's dorm's being searched, I would like to add that this searching of rooms is not restricted just to the girl's dorm's but also takes place in West Hall.

I think that if Florida State University is going to have an honor system, the faculty, students, personnel, and all concerned should forget the honor system as it is now and maybe start all over again.

I HAVE voiced my opinions on this subject to a few students with the following results. The assistant councelor told me that I could feel or think whatever I wanted to but could not voice my opinions; I persisted, the resident counselor told me the same thing; still I persisted, and was sent to the Dean of Men, where I was informed that I would be expelled if I didn't stop voicing my opinions concerning the Honor System, challenging the authority of counselors or assistant counselors in the matter of searching rooms.

I think you can understand why I feel I can't sign my … to this letter. I do believe … are qoite a number of students thal feel as I d… with a little encoura… from you might be a litt… inclined to voice the… plaints concerning the … Court and so called … System.

Prof Puts Finger On Educators In TIME

TO THE EDITOR:

In the not too distant past there were rather heated discussions concerning the merits or lack of merits of the professional education courses required by the state for certificates of public school instructions. Perhaps the best indictment against the present requirements of certification thoughout the nation is one voiced by professor J. Frank Dobie, former professor of history at the the University of Texas.

His remarks were record in **Time** magazine of January 13, 1958. Perhaps you have read his comments, if not, permit me to quote Dobie's words.

For a long generation now . . . the professional educators in America have been holding school without much respect for 'cultivated mind.' All the public school superintendents, and a great many college presidents hold degrees in education spelled with a capital E. They are Johnny-on-the-spot with Rotary Club optimism, football teamwork, Dedication-to-America Week, and such as that; but many of them don't know a thing when it comes to a real teacher of English, histor… logy or any other bra… knowledge. Despite … grees and positions, … puerile-minded. Near… them are stuffed with … —which is not relig…

If the universities and … that are always cr… money cut out 85 per ce… education courses … would save an enorm… of money and at the s… advance knowledge. O… bowls going up would m… mountain tops rock. The … fluous always how; w… milk is cut o'. For the … year of 1957-58, the … department of the Un… Texas lists 351 course… are all to make teachers … banal-minded. God p… pupils: don't blame … not being educated. W… teacher needs, aside fr… ing sense and charact… sic knowledge in his… ence, languages, litera… fundamentals. All a … teacher gets out of educat… palaver."

Thank You,
ELTON F. HE…

Guarantee Teachers Freedom To Speak

TO THE EDITOR:

A news release to the effect that certain members of the FSU faculty may be arraigned before a state legislative investigating committee for their alleged participation in activities of the NAACP in Florida should be viewed with alarm and concern by the citizenry of this progressive state.

INSTRUCTORS should not be intimidated and harassed for their concepts and opinions of truth as they see it in relation to the controversial issue of integration versus segregation. Freedom of expression is one of the fountainheads of our democracy as predicated upon our American Bill of Rights, and no committee, state or otherwise, should interfere with this right—the action of our legislature notwithstanding.

As a student I am proud of the multiple differences of opinion voiced by components of the student body and … ulty. Because of this res… ity of ideas, I have be… more tolerant and respe… the beliefs and conviction… students who originate … outside the South.

CONSEQUENTLY I hav… come familiar with the … tudes and creeds of this … to alien group, and uneq… cally, I would not like … this university functio… converse manner, stifling … suppressing incompa… points of view. This wou… aftermathed by tyranny … worst.

No college faculty sh… ever become subservient t… state or body politic, n… compelled to truckle sla… at the feet of any such … Obviously, the committee's … pose is to pillorie and disc… these instructors by car… ing and misrepresenting … before the eyes of the peop… Florida.

I EQUALLY reverse and … the efforts of faculty mem… both from the South an… sections when their labo… deserving of it. Likewise … esteem many of my instr… who subscribe to the ph… phy of integration, be… they are doing a magni… job of training student… their particular spheres … teaching apart from this he… issue.

No teacher can force a … dent to alter his beliefs … spect to segregation, for ac… ly he has no instrument … categorical persuasion at … disposal. Therefore, what… conversion transpires is a … rect result of the student's … man structure. No indiv… need be proselyted, unless … wants to be.

THE FRUITS of such a p… gram as the committee indo… can only result in a "ro… canker" on the back of … great state, and such a car… can only lead to everlast… ruin for our educational s… tem by causing well-quali… instructors to withdraw fr… the state. It isn't worth it.

Sincerely Yours,
BOB DUKE

Very Few Hook Shots

It used to be that when a center in a basketball game got the ball in the bucket he would turn and set off a hook shot. But within the last few years the hook shot has taken a back seat, and in its place has come the jump shot. The center today has just about forsaken the hook shot.

But perhaps it isn't the center's choice in this matter. The keyhole spread has been widened to 12 feet mainly because of the prominence of the "goon."

The first of the basketball giants if I recall correctly was Don Otten, a 6-11½ center from Bowling Green of Ohio.

Otten, and others almost as tall, would station themselves about three or four feet from the basket, the other players would feed him, then would come the deadly hook.

When other members of the team would shoot, under the basket would be the center waiting for an easy tap. So the lanes were widened.

Two of the most unusual hook shots ever seen in basketball belonged to all-American Tony Lavelli of Yale and Ray Lumpp of New York University.

Lavelli would station himself in the corner of the court, which is a normal place for a shot from the side. But from this spot he would hook without using the backboard.

It was probably the most fascinating hook shot ever seen in basketball.

Lumpp, currently assistant coach at NYU, had a completely different type of hook shot. He would start his drive and when within about eight feet of the basket would let go with his hook while still on the run.

A very tough shot to master.

But today's big men seem surer of themselves with a short jump shot, and in only rare occasions will use a hook.

It's too bad, because a perfectly executed hook shot is a beautiful shot for a crowd to watch.

FOUR LOSSES, 11 POINTS

Even though the Seminoles sport seven losses (possibly eight after last night) so far this season it could easily have been four less.

A grand total of 11 points have turned victory into defeats. They lost to Florida by one, Furman by six, Louisiana State by two and Citadel by two.

Those games could have gone either way, but unfortunately the Tribe wound up on the short end of the score each time. Undoubtedly the injury to ace guard Hugh Durham seems to be the major factor.

A healthy Durham would have added anywhere from 15 points on up to the Tribe's final number of points.

As it turned out, he was for all purposes, useless during the closing minutes of the Florida game and played only about two minutes against Furman before leaving the game with no points. He played in other games, but was definitely below par.

Even in the last two home games with Loyola and Tampa he seemed to be favoring his injured ankle. And until the ankle is completely recovered it spells bad news for the Tribe.

NEEDS A LEADER

Every team needs a key man or a leader out on the court. The Seminoles appear to lack such an individual. Or at least no one has made much of an effort to become the leader.

If anyone has the ability for such a position, it is certainly Durham. He showed his stuff last year as a sophomore scoring [illegible] points and showed his old form a few times this season.

Besides being a top scorer, Durham is a good passer and a sharp ball handler, and appears to have that savvy that makes an outstanding player.

However he has not taken the leadership thus far, perhaps [illegible] if not someone else has to.

It's a must.

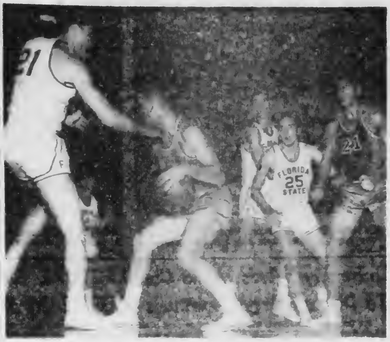
Seminole Five To Host Stetson



WHAT HAPPENS NOW? Seminole Jim Liteky (21) seems to have Tampa's Bill Turner bottled up in last week's game. Looking on are Hugh Durham (25), Bert Deckel (behind Durham) and J. C. Miller (21).

Kitchens Leads Hatters; Tribe Tops Tampa, 72-53

By FRANK RAMOS

Florida State's cagers will be trying to make it two victories in a row at home Thursday night, when they entertain high-scoring Stetson.

The Hatters, led by Co-captain Jim Kitchens, lead the nation's small colleges in scoring according to the latest NCAA statistics. Kitchens, a (6-2) forward, has a good chance to set a school scoring mark. The three year letterman earlier this year set an individual scoring record when he hit for 37 points in one game.

Coach Glenn Wilkes, who replaced Dick Moreland, has the job of keeping Stetson's record of not having had a losing season in the past seven.

Along with Kitchens, the other Stetson starters will be Mel Gregory, Bob Hearin, Gene Wells and Ralph Miller. Hearin and Gregory are returning lettermen. The Hatters, going into last night's game with Florida Southern, had a 6-2 record.

In the intrastate series the Seminoles hold a 13-8 edge.

Last night the Tribe traveled to Memphis to play 18th ranked Memphis State.

Led by Burt Deckel and Larry Strom, the Tribe rolled past the Tampa Spartans by 72-53 in their last home appearance.

Deckel scored 25 points and grabbed 13 rebounds while Strom flipped in 20 points and cleared the boards 13 times.

Leading by only six points at the half, the Seminoles came roaring back with 39 points in the second period to swamp the Spartans.

Coach Bud Kennedy's crew's free throw shooting was off a little against Tampa, but the Tribe still holds down one of highest free throw percentages in the nation.

	FG	FT	TP	Avg.
Burt Deckel	71	42	184	18.7
Jim Liteky	60	50	178	15.5
Hugh Durham	44	62	150	15.8
Larry Strom	46	20	112	10.2
Tommy Garcia	21	18	68	5.5
Danny Boltz	21	15	57	5.7
Jim Savage	9	8	24	2.2

FSU, Georgia Clash In Dual Swim Meet

By TOM HALE

The Florida State swimmers open their home schedule Thursday night when they meet the University of Georgia in a dual match at 8 p.m. in the Women's Gym.

There will be no admission charge.

In two meetings last year, the Seminoles dunked the Bulldogs by scores of 57-29, in Tallahassee, and 60-25, in Athens.

Back to pace Georgia again this year is Jim Blackston who accounted for 15 of the Bulldogs 25 points in the Athens meet and is the Southeastern Conference Champion in the 220 yd. 440 yd and 1500 meter freestyle events.

Service returnees Marshall Floyd, Bob Kidd and George Pows will give Georgia extra balance that was lacking last year. Floyd was SEC champion in the 220 yd freestyle two years ago the same year that Kidd won the SEC diving championship. Pows was runnerup in the 100 and 200 yd backstroke in the SEC meet in 1955.

GOOD RELAY TEAM

Back to bolster the Seminole attack will be veterans Ken Abbott, Joel Jacobs, Ryan "Beaver" Ray and Paul Hammood. Abbott along with Ray and Hammond will give FSU, according to Coach Bim Stults, "definite superiority in the short sprint events, and a good, strong, freestyle relay team."

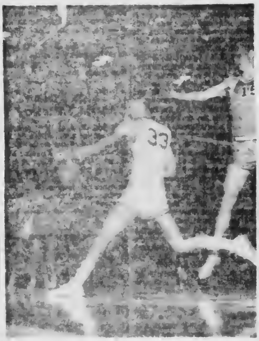
Jacobs, along with sophomore Bud Cole, is expected to add points in the [illegible] event, while Paul Stro[illegible] and J[illegible] Glasscy should be strong in the backstroke.

Baby Cagers Bow To South Georgia

Florida State's freshman basketball team absorbed its second loss of the season Friday night when it was edged by South Georgia JC, 46-42.

Both teams employed a zone defense throughout the game and no more than four points ever separated the teams. The Georgians held a 20-19 halftime lead.

South Georgia, coached by former FSU grid star Vince Gibson, used a slow sharpshooting offense led by guard Bill Hill who was the high scorer with 14.



ONE BIG STEP is taken by Bert Deckel (33) as he drives in for a layup against the Tampa Spartans. Attempting to block the shot is Tampa's Bob Bengter (15). John McNamara (10) and Larry Strom, wait for rebound.

Vets, SAE Vie For Cage Crown

The Veterans Club, Dorm-Independent Basketball Champions, and the SAE fraternity, Greek Basketball Champions, will meet in the Men's Gym tonight at 9 p.m. For the Campus Championship Title in Intramural Basketball.

Intramural News

ATO, KA, and the Veterans got tumbled from the undefeated ranks of their respective divisions.

This past week's action narrowed the undefeated ranks to three. SN is the only undefeated team in the Greek division. BSU and Penthouse hold the top spot in the Dorm-Independent division.

DARKHORSES

Thursday found DTD and PDT moving up like dark-horses by downing their opponents. DTD racked KA, who was defending an un-beaten slate, 20-13.

PDT crushed TC to hold their loss column to one, in a 27-0 ramble. ATO remained undefeated for the present by downing TEP, 31-13.

SPE powered over LCA for their second win in a wild 31-12 tussel. PKT pulled a stalemate out of the fire by defeating SAE 6-0. SC handed KS a 20-12 defeat.

VETERANS DROPPED

In a round of make-up games on Friday, AFROTC put the skids to the Veterans and dropped them from the undefeated ranks on the merit of the first down ruling.

The game ended in a 12-12 tie, but AFROTC had accumulated two first downs to only three for the Veterans.

Newman Club barely squeezed by CLO in 12-6 battle. Forfeits for the day gave BSU a win over Sr. Hall, leaving BSU undefeated, and Penthouse remained undefeated on a forfeit by the Playboys.

Back in the Greek division on Saturday in a make-up series, PDT still moving up like a dark-horse, tumbled ATO from the undefeated ranks in a 13-0 melay.

DTD continued their winning streak by edging LCA in a 12-6 match. PKT trying to better their standing, dumped SAE, 25-18.

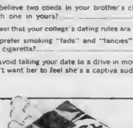
R. J. Reynolds Tobacco Company, Winston-Salem, N. C.

	YES	NO
1. Do you find the dimensions of a parallelogram more intriguing than those of an hour-glass figure?	☐	☐
2. Do you believe that your studies should be allowed to interfere with your social life?	☐	☐
3. Do you call off a movie date with the campus doll because somebody tells you the film got bad reviews?	☐	☐
4. Do you think anything beats rich tobacco flavor and smooth mildness in a cigarette?	☐	☐
5. Do you believe two coeds in your brother's class are worth one in yours?	☐	☐
6. Do you feel that your college's dating rules are too lenient?	☐	☐
7. Do you prefer smoking "fads" and "fancies" to a real cigarette?	☐	☐
8. Do you avoid taking your date to a drive-in movie because you don't want her to feel she's a captive audience?	☐	☐

If you answered "No" to all questions, you obviously smoke Camels — a real cigarette. Only 6 or 7 "No" answers mean you better get on to Camels fast. Fewer than 6 "No's" and it really doesn't matter what you smoke. Anything's good enough!

But if you want to enjoy smoking as never before, switch to Camels. Nothing else tastes so rich, smokes so mild. Today more people smoke Camels than any other cigarette. The best tobacco makes the best smoke. Try Camels and you'll agree!



Have a real cigarette - have a Camel

Flyers Seek Another Plane; One Of Oldest Clubs Here

By RAY HEMANN

(Editors note—Ray Hemman is a former student, ex-business manager of the Flambeau, and an active member of the Seminole Flyers.)

Early in 1947, when the earth still had only one moon and Florida State University had just turned co-educational, a group of students and faculty members from this same institution had a gleam in their eyes. The gleam was one of a bright little yellow airplane that was nothing but fabric, wood and wire, but nevertheless could, once it was put into motion, take to the air.

From such humble beginnings ofttimes come great things, and from this humble beginning came one of the few early-founded organizations in the short history of FSU which, without interruption and with very little publicity or fan fare, still exists and boasts of a growing membership each year, to say nothing of a growing bank account.

In fact, the membership has grown to the point where the one little yellow airplane (not the original, but one similar to it) can no longer accomodate the swelling ranks of the Seminole Flyers, as they call themselves.

For this reason, the Seminole Flyers are beginning to look for another airplane to supplement the work of the one they now have. This will not be another little yellow job, which is primarily a training type aircraft, but one which will be a little larger, more comfortable, fly a little faster and have more doodads for the pilot to play with. In short, a cross country type aircraft

The Seminole Flyers can boast a ten year record with not a single injury due to flying accidents. There was the case, though, of the guy who was injured in an auto accident while driving out to the airport so he could fly.

There was also the time Dr. Owen Sellers of the School of Music was forced to make an emergency landing into the tree tops when his engine decided to quit. After the airplane came to rest and all the leaves finally settled, Dr. Sellers found he had a long step to the ground, but outside of the indignity of having to shinny down a tree, was uninjured.

Then there was the case of the fellow who tried to start the airplane with no one in the cockpit and inadvertently left the throttle half open. The airplane started with a roar, ran over the pilot, down the runway, over a ditch and through a barbed wire fence where it finally came to rest on its back. Scratch one airplane, but still there were no injuries to anyone other than pride.

So, you see, the history of the Seminole Flyers is not without its hairy tales which are as much a part of flying as airplanes themselves.

These are just examples of some of the more spectacular events marking the history of The Seminole Flyers. There have been countless ground loops, bent wing tips, broken props and other minor events resulting in everything from no damage at all to a total destruction of the airplane.

But, in spite of being financially wiped out several times as the result of either partial or total loss to the airplanes the club has owned, the flying club has always been a successful venture requiring nothing but an interest in aviation and $40 to join.

Several of the members do not even fly the airplane, they just like the companionship of pilots and to join in the "hanger flying" which goes on at each monthly meeting.

The airplane the club now owns has just been completely rebuilt and recovered to go along with the complete engine overhaul which it had last Spring.

A brand new two-way radio has been installed as well. All of this goes to making the airplane virtually a brand new one

As stated before, the club is getting ready to buy another airplane and will do so as soon as it can pick up a few more members and thereby minimize the financial risk.

If you have an interest in flying as a pilot or if you would just like to go to the meetings to do some "hanger flying", see movies and soak up some ground school instruction, the man to contact is Dr. Kenneth Miller, men's physical education department.

Don't let the fact that Dr. Miller is with the men's physical education department fool you though; the club has several female members. And if you're poor, don't feel bad, we all are Financial arrangements can be made.

Even if you're not interested in joining The Seminole Flyers, you may want to take a ride out to the airport some day and see "our air force". Yes, that's nothing but fabric covering, so please don't poke so hard!

SEMINOLE FLYERS Ed Sessions, Edward Peneski Jr., and Terry Edgar, studying their map before preparing for takeoff

ORLIS CASSEAUX discusses final flight preparations with Ed Sessions. Both are members of the Seminole Flyers Club.

University Wives Music Club To Discuss Negro Spirituals

The University Wives Music Club is holding a meeting tomorrow night at 8 p.m. at the home of Mrs. Howard Wilson, wife of Dr. Wilson, associate professor of music.

The program will include a discussion of Negro spirituals taken from the book, "Slave Songs of the United States" by Dr. Miles Mark Fisher. Dr. Fisher's theories will be explained and discussed.

Also included in the program will be the singing of folk songs and some of the more well-known Negro Spirituals including "Steal Away".

CHAIRMEN NAMED

Co-chairmen for the meeting are Mrs. Sidney Fox, wife of Dr. Fox, professor and director of the Oceanographic Institute; and Mrs. Charles Metz, wife of Dr. Metz, also of the Oceanographic Institute.

The University Wives Music Club was begun in the spring 1950 when a group of new faculty wives, all members of music organizations on other campuses, met informally.

A formal program was organized in the fall of 1950, at which time a constitution was drawn up, and officers were elected.

The Club is officially sponsored and planned as an interest group

WIVES ONLY

The organization is open to faculty wives who enjoy, and are intellectually curious about good music

Each year the group studies a different phase of music. During the first year a complete study of orchestration, including historical background, was introduced

In succeeding years the music club has studied opera, composers, ballet, modern and contemporary music, and encourages attendance to the Artists Series Concerts, and the Light Opera Guild.

This year the study has been on contemporary music.

The University Wives Music Club meets monthly.

LECTURE SERIES HERE BEGINS IN FEBRUARY

Major challenges facing the United States will be considered in a weekly series of lectures and discussions for the spring semester at Florida State University.

A similar program in American Studies is offered annually. Dr. Maurice Vance of the history faculty will again direct the lecture class which will meet regularly from 7:30 to 9 p.m. on Wednesday in 218 Music Building. The course may be taken for two hours graduate or undergraduate university credit or audited.

Dr Vance has lined up 15 FSU professors for the lectures. They are specialists on the subjects they will discuss, and will invite questions from the audience during the last half hour of class. Their general plan is to present the crises in a particular field, outline alternatives in dealing with them, and weigh the crises in relation to other crises.

Dr. Marian Irish will open the series Feb. 12 on Foreign Relations, followed by Colonel Howard Withycombe, Feb. 19, Military Affairs; Dr. Malcolm Parsons, Feb. 26, Law and Order.

'Turkey Today' Film Feature

"Turkey Today" will be [fea]tured tonight at the weekly [film] review, sponsored by the Au[dio-]Visual Department, in the [lec]ture hall at 7:30.

The first film, "Introdu[cing] Turkey," featuring Tur[key's] major cities, is a 45-minute c[olor] film.

"Istanbul, The Magic City," a filmed pleasure trip thro[ugh] the historic metropolis w[here] Europe meets Asia. The sec[ond] film, also in color, lasts 27 m[in]utes.

The purpose of the preview [is] to help the Audio-Visual Dep[art]ment decide through aud[ience] reaction what film to add to [the] FSU Film Library.

Following each film an au[di]ence discussion is held wi[th a] leader who is familiar wi[th the] subject discussed in the film.

Next Tuesday's films will [in]clude, "Conducting Good M[usic]," "Percussion, The Pulse of [Mu]sic," "Introducing The W[ood]winds," "Introduction to B[aton] Twirling."

Faculty members, students [and] their families are encourage[d to] attend. "Its very informal [...] come and go as you please" [...] Mrs. Kathryn Harrell, exec[utive] secretary.

Chemstrand Offers Scholarship Fund

Florida State University is among 30 U.S. colleges and universities at which the Chemstrand Corporation of Decatur, Ala., has established a fund to provide undergraduate scholarships and grants-in-aid

The Chemstrand scholarships are for upperclass students, preferably seniors, in the fields of chemistry, physics, chemical, mechanical, electrical and textile engineering, business administration, industrial management, and the liberal arts.

Chemstrand President Edward A. O'Neal Jr. said the scholarships will be awarded and administered by the individual colleges. The purpose of this program he said, is to assist financially in the academic training and development of scientists, engineering and management personnel.

The grants-in-aid will be used by the institutions for the purchase of equipment or to supplement salaries.

There are no obligations to Chemstrand on the part of students awarded these scholarships, according to O'Neal.

(Continued From Page 1)

"Who's Who's" Tea until next semester Approval was given her request.

Joyce Weatherup, secretary of honor, read a letter which her committee proposed to send to faculty members requesting they refuse to grade any final examination which fails to have a signed honor pledge on it.

The cabinet members discussed the proposal and decided there would be no basis for enforcing such a rule. Greenfield's proposal to send a letter just reminding professors to remind students of the honor code before the exams was unanimously approved

there is a large growth in the number of married students in colleges throughout the United States today. He said statistics point out that this trend will continue and more adequate housing must be available to take care of the need.

Dean Oglesby pointed out that married housing is less expensive to operate for a university than dormitories. He said the families paid for their own utilities and that usually the university is able to break even at the end of the year on the maintenance of this type of dwellings.

The increase of graduate students at FSU, the majority of whom are married, also indicates the increasing need for more university-sponsored housing.

Student Body President Arnold Greenfield said that the married housing situation here is presently being investigated by the Student Government. He said the main objective of this investigation will be to request that the university maintain a closer supervision of the housing which is rented in the city

APARTMENTS POOR

He pointed out that many apartments are not adequate and it would be advisable for the university to check the apartments which are listed in the housing office in men's residence. This service is maintained for students searching for apartments and would permit the university to list only the apartments that it felt adequate.

Despite the plans which the university has for solving the housing shortage, most married [illegible] tion on their minds. "When am I going to get an apartment?"

Although this question cannot be answered definitely one thing is known: FSU officials now recognize the seriousness of the housing problem and are taking steps to correct it.

Pi Mu Epsilon Meets Tomarrow

Pi Mu Epsilon, the campus mathematics club, will hold its last meeting of the semester tomorrow at 8 p. m in room 213 of the History Building. A talk on game theory will be given by Dr. James W Ellis, assistant professor of mathematics The meeting is open to all interested persons.

Water Ski Club May Be Formed

Water ski enthusiasts interested in forming a Water Ski Club are asked to contact Miss Joan Guthridge in Room 17 of the basement of Longmire by Friday.

Miss Guthridge recently received a letter from Floyd T Swann, faculty sponsor of the University of Miami Water Ski Club. Members of the club are interested in organizing a series of water ski tournaments among colleges and universities in Florida.

The Miami Club has sent letters to schools throughout the state in an effort to determine interest in such a program. "If enough interest is shown by Florida State students, there is a possibility that a Water Ski Club could be organized here," said Miss Guthridge.

International Club To Have Meeting

The International Students Club will meet Wednesday night at 8 p.m. in Longmire Auditorium "The purpose of the meeting is to plan the club's activities for second semester," announced Miss Jean Guthridge, club sponsor.

PENN R. POST received his B.S. in engineering from U.C.L.A. in 1956. He is now in the second year of General Electric's Technical Marketing Program, in the Company's General Purpose Motor Department.

"In a growing industry, there's room for me to grow"

"Here at General Electric," says Penn R. Post, 24-year-old marketing trainee, "you hear a lot of talk about the future — even as far ahead as 1978. In fact, I've discovered that planning ahead for America's needs 10 and 20 years from now is characteristic of the electrical industry. And, what's important to me, General Electric's long-range planning takes my future into account. I'm now on my fourth assignment in the Company's Technical Marketing Program — all planned steps in my development.

"I'm pretty confident about the electrical future, too. For one thing, America's use of electricity has been doubling every ten years. And it will increase even faster as our population grows another 65 million by 1978 — and as research and development lead to new electrical products that help people live better. The way I look at it, the technical, manufacturing and marketing resources of large companies like General Electric are important factors in the growth of the electrical industry. And in a growing industry, there's room for me to grow."

• • •

Young people like Penn Post are an important part of General Electric's plans to meet the opportunities and challenges of the electrical future. Each of our 29,000 college-graduate employees is given opportunities for training and a climate for self-development that help him to achieve his fullest capabilities. For General Electric believes that the progress of any industry — and of the nation — depends on the progress of the people in it.

Progress Is Our Most Important Product

DEFENDS HONOR SYSTEM. Barbara Burkhardt, chief justice of the honor court, shown answering student senate queries about the honor system, at Wednesday's senate meeting.

Burkhardt Defends Honor System In Senate

By KAY WRIGHT

Chief Justice Barbara Burkhardt appeared at Wednesday's Senate meeting to defend Honor Court policies and to answer direct questions from the senators concerning recent Honor Court activities.

At the close of the session, a special Senate committee was appointed to work with the Honor Committee on an evaluation of the Honor System.

Concerning the seven cases of cheating brought before Honor Court last month, Miss Burkhardt reported that members of the class in which the arrests were made had been requesting that Honor Court take action since early in the semester.

"We suggested that the students report the cheating themselves, but because of social pressure and other reasons, they refused to do so", said Miss Burkhardt.

"It was with the complete cooperation of the professor of the class that we sat in on the exam. I talked with the professor before the examination and he was willing for us to come into the classroom and observe," she said.

As a result of this action, seven cases were brought before Honor Court. One case was dismissed as not guilty, with the other six students receiving convictions. The penalty for the six convicted students was honor court probation for one calendar year and a grade of "F" in the course in question.

"Honor Court is not a police force," said Miss Burkhardt. "We are here to deal with the problems brought to us. We feel that we owe it to the students to go into a classroom when there is a majority of requests by the members of the class."

When questioned as to whether the exam watches will continue, Miss Burkhardt replied, "Not unless it is absolutely necessary. I have had some requests to do something about finals, but I will ignore these requests unless I hear more from them."

Sophomore Senator Ronnie Clark asked Miss Burkhardt "If an honor system exists on this campus, why do we have different colored and numbered tests, sit one seat apart, and have a monitor in the room during a test or exam? Is this a true honor system?"

"We do not approve of these methods," replied Miss Burkhardt. "It will take the full understanding and cooperation of the faculty and every student before we can have a true honor system."

Regarding Honor Court trials this semester, Miss Burkhardt reported that there have been thirty-five cases. Of these cases, two were reported by faculty members and twenty-nine were reported by students.

FROSH SUPPORT

"I am pleased that the freshmen are supporting the Honor System this year. The upperclassmen are the ones who seem to have fallen down on the job," said Miss Burkhardt.

Senator Clark asked if the chief justice did not feel that the people who telephoned to report cheating in their class rather than reporting individuals were not supporting the System.

Miss Burkhardt replied, "It is a definite sign that the freshmen are taking responsibility for the honor system when they report cheating or stealing at all."

ACCUSED RIGHTS

She pointed out that it was the right of the accused to face his witness, and that often social pressures were put upon the witnesses. "Students still prefer to be handled by students rather than faculty members or proctors," she said.

The matter of searches made in men's and women's residence halls was discussed. Miss Burkhardt reported that she knew nothing of the searches conducted in West Hall, and that Honor Court had no part in them.

"Searches made in women's residence halls were conducted

New Emory President Is Graduation Speaker

Petition Asks Changes For Detroit Concert

Students in the School of Music began circulating a petition this week for a change in program for the forthcoming appearance of the Detroit Symphony Orchestra.

Disturbed over the fact that the orchestra is playing its program number two, the students managed to procure 232 names of interested persons who wished to have the orchestra play either the first or third programs.

The Symphony carries three set programs for presentation at any time during their tour.

TO COMMITTEE

The petition will be submitted to the Artist Series Committee, since any recommendation for change of program made to the orchestra must come from that group.

The 232 signatures are headed by the name of Dr. Ernst Von Dohnanyi.

The second program of the orchestra, which is scheduled to be played here, consists of Lalo's Overture to L'Roi d'Ys," Chausson's Symphony in Bb" three pieces from Mendelssohn's "Midsummer Night's Dream," and George Gershwin's "American in Paris."

PROGRAM ONE

Program number one, which the students feel would be preferable to the program originally scheduled, includes Beethoven's "Fidelis Overture," Mendelssohn's Symphony No 5 (The "Reformation"), Wagner's "Prelude" and "Love's Death" from **Tristan and Isolde**, Debussy's "Prelude to the Afternoon of a Faun," and "La Valse," by Maurice Ravel.

The third possible program, which the group feels would also be preferable, consists of "Roman Carnival," an overture by Berlioz, Schumann's Symphony No. 4, Wagner's "Prelude" and "Love's Death," and a tone poem by Chabrier entitled "Espana."

John Bracewell, spokesman for the group, said he hoped the committee would heed their petition and recommend the program change to the orchestra.

NEW GARNET KEY TAPS. These girls were tapped Wednesday night for Garnet Key, women's honorary. First row (l-r): Sue Gunderson, Nancy Jo Bowers, Jackie Hailey, Jeri Bradfield, Jacque Bauder, Joan Harmon, Pat Malsied, and Barbara Bild. Second Row (l r) Pat Arrants, Carolyn Bell, Ann Stickler, Cynthia Lawrence, Barbara Eissey, Sue Shives, Diane Latimer, Ann Kelly, Patsy Stewart, and Betty Hatton.

Garnet Key Adds 22 Taps

Twenty-two women, outstanding in leadership, scholarship, and service to the University, were tapped by Garnet Key Wednesday night.

A campus women's leadership honorary, Garnet Key taps twice yearly from second semester sophomores, juniors and seniors, on the basis of leadership and service in extra-curricular activities.

Members must have a 2.3 overall average and be active in at least two extra-curricular areas, according to Lois Charlesworth, publicity chairman.

Senior initiates for the fall semester, listed with one area in which they have been active, are: Jeri Bradfield, Honor Court; Jacque Bouder, major field; Jackie Hailey, majorettes and circus; Joan Harmon, student government; Betty Hatton, sorority; Ann Kelly, Pan-Hellenic, Diane Latimer, major field; Sue Shives, class officer; Patsy Stewart, publications; Ann Stickler, publications.

Juniors tapped to Garnet Key are: Carolyn Bell, athletics; Barbara Bild, Dorm; Nancy Jo Bowers, sorority, Ruby Combs, student government, Ann Duncan, major field, Barbara Eissey, student house; Carol Turpening, major field; Sue Gunderson, dormitory; Cynthia Lawrence, student government.

Also Absences

Senate Discusses 'Horsecollar' Rule

Abolition of the "horse-collar" regulation, one of Senate's second semester projects, was discussed in Senate Wednesday.

Letters concerning the abolition of the penalty for missing classes before and after holidays, written by FSU President Robert M. Strozier and Dr. Charles A. Davis, dean of the College of Arts and Sciences, were read by Senate Secretary Gayle Gardner.

Dr. Strozier wrote that he would be willing to cooperate in discussing this matter further.

Dr. Davis expressed his opinion that it would be impossible to omit this penalty since a certain number of class attendance is necessary to comply with state and national rulings.

Also discussed was attendance requirements for senators.

Jim Apthorp, newly appointed chairman of the judicial rules committee, reported that all senators having more than the allowed number of absences had satisfactory excuses. He said the committee accepted these excuses as legitimate.

Legally, a senator is eligible for impeachment if he misses three Senate meetings. Senators who have missed more than the allowed amount are Teschke, 8; Ramsey, 4, Williamson, 3, Wilmon, 6; Murry, 3; Kirby, 3; Clark, 5; Howell, 4, Van Beck, 3; Latimer, 3; Gordon, 3; and Copps, 3.

Apthorp recently replaced Teschke as chairman of the judicial rules committee.

TO NAME STREETS

Senator Pat Mickler heads a committee which will put up suggestion boxes on campus in which the student body may place suggestions of names for streets on campus.

A special Senate committee to discuss the selection of candidates for "Who's Who in American Colleges and Universities" on this campus is still meeting. A further report will be given in Senate later.

Sophomore Senator Ronnie Clark reported that the Artist Series spent $4,000 for the one performance of "Back to Methuselah."

"The Series could not afford to have more than one performance," said Senator Clark, in explaining why the program was engaged for one performance only, thus creating the problem of insufficiency of tickets. He proposed that his committee continue to work with the Artist Series on solving problems in this area.

CHRISTMAS PARTY

Senator Rufus Jennings was appointed to head a committee to study the possibility of a campus-wide Christmas celebration next December. A campus "Christmas Sing" was proposed by Senate members this year, but the plan was not carried through due to lack of pre-planning.

Senator Kissinger asked that the Labor and Student Services Committee find out why freshmen and sophomore students living in off-campus trailer parks are not allowed blue stickers for their cars. A report will be given at the next Senate meeting on this matter.

Twirp Twirl Set Tonight, Open To All

Contrary to popular rumor, the Twirp Twirl, although Freshman sponsored, is open to all classes, according to Kip Tichenor, vice-president of the Freshman Class.

The annual freshman Twirp Twirl is being held tonight at the Suwannee Room from 8 to 11 p.m.

For upperclass women interested in attending, tickets will be sold at Westcott until noon today, and will be sold at the door tonight for 50 cents a couple.

Music will be furnished by Jerry Kohler and his Trio. Refreshments will be free.

On the program of entertainment will be Stan DeHart, comedian, who will MC. DeHart will introduce Gwen Waters, who will sing "Can't Get a Man With a Gun," and "They Say It's Wonderful."

Also featured will be Chick Cicio and Jim Brooks.

Dress will be informal; for men, slacks and shirts, and for women, informal dresses.

This is the second year this type of dance has been held, and "We hope to make it an annual dance," said Tichenor.

On the planning end of the dance is Kitty Wade, head of decorations; Claire Brightwell, entertainment; Bruce Brown, refreshments; and Kip Tichenor, ticket committee. Georgia Ort is social chairman.

"This is your dance, Freshmen," said Tichenor, "so let's make it a big one."

Bulletin:

Florida State's basketball team will meet West Virginia, the top-ranked team in the nation, January 31 in Morgantown, W Va., athletic officials announced today.

The game will be part of a four-game trip, including also Xavier of Ohio, Marshall (W. Va.) and Ohio University.

'HODGE-PODGE' CONCERT FEATURES ANN VERRAN

An informal pre-examination week concert will be given tonight in Opperman at 8:15, according to Manley Whitcomb, director of bands at FSU.

The public is free to drop in and out of this "hodge-podge" group of musical numbers, Whitcomb continued.

Featuring the University Concert Band, conducted by Robert Braunagel, and the Symphonic Band, led by Whitcomb, the program will include many soloists.

VERRAN PLAYS

Miss Ann Verran, a piano student of Robert Glotzbach, will play a selection from Mendelssohn's Piano Concerto in C Minor, Op. 25.

The senior music education major has been active in the band program during her three and a half years at FSU, playing clarinet in the Symphonic Band and as majorette with the Marching Chiefs.

CONCERT BAND

Numbers to be featured by the Concert Band are a modern rendition for band of Bach's "Prelude and Fugue in B Flat"; "Folk Song Suite of Three" by Vaughn Williams; "Scherzo for Band" by Frank Erickson; "March—Old Comrades" by Carl Teile; "Holiday for Winds" by Glenn Osser; and "Highlights of Kurt Weill," arranged by Paul Yoder.

After Miss Verran's number, the Symphonic Band will present a symphonic suite in five movements by Clifton Williams; a cornet trio performing Howard Cable's "Three Candy Cornets"; "Ebony Rhapsody" by Edgar D. Barrow, featuring the entire clarinet section; and "Tulsa—A Symphonic Portrait in Oil," by Don Gillis.

396 Students Seek Degrees February 1st

The February 1 commencement address will be delivered by Dr. Sidney Walter Martin, the new president of Emory University, it was announced today.

Three hundred and ninety-six students are candidates to receive degrees, the first to be conferred by President Robert M. Strozier. The graduation list includes 331 candidates for the degree of bachelor of arts or science, 49 for master's degrees and 16 for doctorates.

Dr. Martin was recently inaugurated as the fifteenth head of Emory. He was on the faculty of the University of Georgia for many years.

GEORGIA GRADUATE

A native of Tifton, Ga., Dr. Martin is a graduate of the University of Georgia, where he completed his work in 1933. Subsequently he earned the master of arts and doctor of philosophy degrees at the University of North Carolina.

He began a teaching career as instructor in history and director of athletics at Palatka, Fla., high school where he served from 1933 to 1935. He then joined the faculty of the University of Georgia as instructor of history.

Dr. Martin was dean of the Liberal Arts College at Georgia from 1949 until he left to become president of Emory University. He and Dr. Strozier were colleagues when the FSU president was a member of the University of Georgia faculty 12 years ago.

FLORIDA AUTHOR

Although a Georgian, Dr. Martin is the author of two books on Florida history and biography: "Florida During the Territorial Days," published in 1944, and "Florida's Flagler", published in 1949.

The largest mid-winter class in FSU's history will proceed into Westcott Hall at 4 p. m. Saturday, Feb. 1, for the conferring of degrees.

A reception is planned for the graduates Friday, the day before commencement, in Longmire Building.

Mystery Story Origin Coffee Hour Feature

The origins of today's popular mystery story will be discussed by Dr. James Preu of the English faculty at the English Coffee Hour at 4 p.m. today in the Westminster House.

Dr. Preu's talk is entitled "Things That Go Bump in the Night," and will mainly concern the mystery stories found in paperbacks at many drugstores and super-markets.

The English professor will trace the beginnings tales of terror or horror stores, as "old time penny-dreadfuls or shilling-shockers." He said Horace Walpole's "Castle of Otranto," was published in 1764, was probably the father of them all.

A host of others like Mary Shelley's "Frankenstein," and Braw Stoker's "Dracula," still widely read today, followed, according to Dr. Preu.

The professor said he found that the early stories featured haunted castles, tombs, grisly apparitions, demons and assorted horrors. "The villians were a sinister lot whole-heartedly devoted to mayhem, murder, diabolism and lycanthropy," he added.

Dr. Preu points out that some of the villians of early thrillers make real-life monsters like Jack the Ripper of London or the Mad Butcher of Willow Run seem like cub scouts.

The public is invited to the social-literary program, sponsored by the English department.

Art Albrecht Named Editor Of Pow-Wow

Art Albrecht, senior advertising major, was elected editor of the 1958 Pow Wow by the Board of Student Publications this week.

Albrecht was chosen unanimously from a field of five. Other applicants were Tom Hale, Susan Knight, Lawrence Perkins, and Jane Salley.

The Pow Wow is a guidebook for freshmen and transfer students published yearly and distributed during orientation week.

CONDENSED VERSION

Dr. Reid Montgomery, publications adviser, said in reference to improving the book, the new editor should look toward condensing it instead of expanding it.

"The Pow Wow is primarily a fact book," he said. The Board intends to study possibilities for Pow Wows to be available to all students who want them.

MORE 'SIGNALS'

On the agenda of the meeting was the discussion of increasing the circulation of Smoke Signals. The circulation is now 4,200. Since a representative from the magazine was not in attendance, the motion was tabled.

Chairman Ruth Fritchie said two members of the Board will not return to school for the second semester.

Replacements will be made by appointment of Student Body President, Arnold Greenfield, she said. New appointees must have the same qualifications for office as those being replaced.

Flambo Circulation Goes Up To 5,000

The **Florida Flambeau** will increase its circulation to 5,000 copies next semester, Charlie Poitevint, **Flambeau** editor reported to the Board of Student Publications this week.

"This is the third increase in circulation in two years," she said. "We have raised the circulation over one-thousand copies in two years and have not raised the local advertising rates. With this increase the ad rates will be raised ten cents a column inch," she said.

Present ad rates are below average compared to other collegiate publications, according to the editor. Printing costs of the **Flambeau** have gone up approximately 20 per cent each year. "We hope to obtain a better balance between the costs of printing the newspaper and the cost of advertising," she said.

Present local rates are 70 cents per column inch yearly and 7 cents per column inch per issue on a contract basis. The **Flambeau** derives its funds from advertising approximately $9,000 and the student activity fee (approximately $20,000).

Joint Recital Tomorrow Night Offered By Marriott, Jensen

Soprano Mary Jane Marriott and flutist Dale Jensen will present a special joint recital tomorrow at 8:15 p.m. in Opperman Music Hall.

The recital, open to the public, is termed "special" because it is not a graduation requirement. Miss Marriott and Jensen, both music education majors, have previously fulfilled such requirements with certificate recitals.

CLASSICS TO FOLK

Miss Marriott will sing classical selections by J.S. Bach, Robert Schumann, Gaetano Donizetti, and Gian-Carlo Menotti. The North Carolina folk song "He's Gone Away" and a novelty piece, "Little China Figure" provide a change of pace.

Jensen's program includes Handel's **Sonata No. 5**, **Sonatina** by Henri Dutilleux and **Sonata, Opus 7**, composed by his brother David Jensen.

Lowell Roddenberry and Marie DeLuca will serve as accompanists.

OPERA LEADS

From the studio of Edith Kapp, Miss Marriott last year sang the lead in the FSU productions of the **Bartered Bride** and the one-act opera **See the Wind**. She has also been soloist with the Symphony Orchestra and in the **Messiah**. Miss Marriott recently completed her eight-week internship in Clearwater.

Jensen, during his four years at FSU, has played in the Opera Orchestra, Concert Band, and Symphony Orchestra. He commutes to Jacksonville to play with that city's Symphony Orchestra. Jensen is in the studio of Nancy C. Fowler.

No 'Horsecollar' At Semester Start

Classes for the second semester will begin February 6 at 8 a.m., according to Dr. R. R. Oglesby, dean of students.

Semester tests will be concluded January 31 at 12 noon. Students are urged to return by February 8, the dean stressed.

"In spite of the fact that there will be no penalty for not returning for the first day of classes," Dean Oglesby said, "all students should return to class on the scheduled date. It is important that each student get a good start in each class and not get behind in assignments," he emphasized.

He added that this will be a real test for the students as the faculty will be more disposed to reconsider and allow the penalty to be dropped before regular holidays.

At present 1/6 of a credit is lost in each class that a student misses before or after a regular holiday.

Orientation Begins Sunday, February 2

Orientation for new students who will register for the spring semester, 1958, will begin Sunday, February 2, and will continue through Wednesday, February 5.

Placement exams will be taken during this period, and faculty counselling will be provided.

Registration of new students will take place in the dining hall of the Suwannee Room beginning at 9 a.m. Tuesday, February 4.

Any student desiring information concerning the registration of freshmen and transfer students should call the Office of Coordinator of Counseling, 301 Westcott.

BALLET LEG—Meta Viohl, president of the Tarpon Club and a senior sociology major at Florida State University, is the owner of the leg. Mrs. Beulah Gundling, a national champion in synchronized swimming, is showing the student how to perfect one of the basic aquatic art figures, the ballet leg—done of course in water. Mrs. Gundling has just performed her "Thunderbird" act in the FSU women's gym pool—the same act she gave at the Olympic Games in 1952.

Reward Offered For Bracelet

LOST: Siam, sterling silver bracelet, silver figures on black background. Small reward being offered. If found, please return to Longmire or Sue Lowell, North Cawthon.

The Florida Flambeau

Florida Flambeau editorials represent only the views of the student members of the staff. Signed columns on this page represent only the opinions of their authors. Any student may submit either editorials or columns for consideration.

State's Best Editorial Page 1957

Registration Rules Improving, But Exemption Rules Lacking

With the semester drawing to a close, we would like to comment on two events always involved with the end of it—pre-registration and exam exemptions for graduating seniors.

PRE-REGISTRATION perhaps has not been consistent since it began here. It has migrated from one building to the next, using a different method of registering each time.

But with each change has come an improvement—a more feasible and time-saving method of going through the usual gruelling experience of standing in line after line.

MOSTLY AFFECTED with the difficulties of registration have been the students taking general education courses. They have had to stand in long tiring lines in the past to compete with classmates for a favorite section.

Last semester a plan was initiated whereby students paid fees before registering. The plan has been extended and improved this semester so that students pay their fees in the student accounts office before registering.

Students who have gone through the previously confused type of registration can appreciate the effort of the planners and improvers of the new, more efficient, and time-saving registration procedures.

* * *

OF CONCERN to a limited number of students at the present time and eventually all graduating seniors is the subject of exam exemptions.

Should students be exempt from exams if they have a "B" average in a course or should every one be required to take the final test? The university's policy is to exempt seniors with a "B" average in a given course, but in practice this varies according to the professor and the department.

WHILE EXAMS may seem necessary to some professors, the fact that the policy varies is bothersome to seniors, who, having made a "B" average, want to be assured of exemption. This feeling is encouraged by the "myth" that is rumored about during one's scholastic years that seniors should be exempt from exams.

We can see no justification for not exempting graduating seniors with "B" average. However, those not earning that grade have no right to the privilege.

There aren't very many senior privileges at FSU, especially for men students (women get late permission), and one which encourages scholarship should not be violated.

★ ★ ★ ★ ★

Absent Senators Stagnant Office-Holders

The report given by the chairman of the Senate Judicial Rules committee Wednesday on the investigation of excessive absences of Senators seems to ignore the fact that offenders of the absence rule are stagnant office-holders.

Several Senators guilty of abusing the three-absences limit were excused by the committee because they gave "legitimate excuses". While there are cases when students must be excused from Senate meetings, there are other cases where Senators are always unable to attend meetings.

We sympathize with anyone in this position who would like to serve his school and student body, but those who cannot attend Senate meetings cannot fulfill the duties and obligations of that office

He is not carrying out the responsibility to the students who elected him. It is only proper that Senate seats be filled by those who adequately represent their constituents.

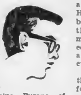
Symphony, Singers Concert Reviewed

By LOWELL RODDENBERRY

An audience of unusual proportions heard an FSU Symphony concert ranging from the divine to the salacious last Monday evening in Westcott. Doctoral candidate Catherine Smith performed two works for piano and orchestra and the University Singers offered the lengthy Carmina Burana of Carl Orf.



IN COLLABORATION with Miss Smith was her teacher, Ernst von Dohnanyi The evening saw him in the dual role of conductor and composer. This is a great man. Familiarity, in this instance, with perhaps the greatest musical figure living, breeds an immense appreciation of what a musician par excellence he is.

The first half of the program was devoted to Mozart's C minor Piano Concerto and Dohnanyi's Variations on a Nursery Rhyme. Both works were notable for their ideal tempos. The Mozart was a happy instance of a soloist and orchestra merging into a union rather than one faction against another. The Dohnanyi Variations by their very nature could have been merely a series of contrasting pieces. As it was, the work emerged as a masterful piece of architecture held together from start to finish.

MISS SMITH gave authoritative readings to both works. Her manner at the keyboard bespeaks her musical convictions Hers was a thoroughly musical conception that allowed her to play both as a soloist and ensemble partner, whatever the occasion demanded.

The opening string sound in the Mozart was well-nigh perfect The evening witnessed exceptionally fine playing and justified our belief that the FSU Symphony can be and is a fine organization.

However well the orchestra played, their intonation was more than occasionally faulty. Particularly plagued was the woodwind section (any woodwin section) which is composed of more than capable instrumentalists. Specifically, the second movement of the Mozart was delightful at moments and equally maddening at others. Would that the Creator had given orchestra players incomparably more discerning ears than their fellows!

TO SINGLE out but a few first chair players we must mention clarinettist Dixon Redditt's really beautiful solo passages and Andy Patterson's brilliant bassoon playing. Not to mention the seemingly effortless and inexhaustible high notes of trumpet player, Charlie Turner.

Dr. Wiley Housewright's University Singers conducted by Robert Sedore presented Carl Orf's Carmina Burana. Posterity may award this choral work a lasting place in the repertoire, if not for merit, then most certainly for length.

MR. SEDORE deserves much commendation for as good a performance as it was. The rehearsal time allotted was quite brief and next month's representation of the Orf work will benefit from this presentation.

Made up of ribald verses, one had the district feeling at times that the music had some religious affiliation, however catholic the nature. The most exciting passages were those when this listener had the distinct impression that the whole group was leering lasciviously at the audience out of the sheer joy of being permitted to sing certain unmentionable words (which would be deleted by the proofreader were we to write them here).

Bushels of bouquets to the soloists who added much to the evening. In particular to Claude Rhea and Marge Pollichio for their vocal pyrotechnics.

Secretary Of Honor Answers Critics

TO THE EDITOR.
Concerning the Honor System:

There is no douot in my mind that the great majority of students on this campus adhere partially to our Honor System, and do so willingly of their own personal belief in the rightness of Honor. This is certainly the first step towards a working Honor System.

UNFORTUNATELY, however, that adherence is only partial, and totally self-concerned—"I'm not going to violate the system myself, but I'm not responsible for anyone else" seems to be the prevailing attitude.

And where does this leave the court as far as that minority of students who can not even accept the personal role involved? Someone's got to do the policeing.

OBVIOUSLY, the court doesn't like it—yet the Chief Justice Miss Burkhardt was faced with the necessity of either answering the request of students to proctor on a half-way basis, or ignore the calls requesting help with the understanding that the "police role" was not her concern. Realizing that the students who called in were meeting the problem half-way, and following examples of action taken by past courts, Miss Burkhardt chose one alternative. If it was not the better one, then this procedure can easily be avoided in the future. (Although I wonder what criticism would have been leveled at the court for its refusal to give assistance, had it taken the other alternative.)

IF MORE CAN be accomplished by the court's refusal to proctor, then this is a valid suggestion, and appreciated. But absolutely nothing is going to come out of complaints of "corruptness," "tattle-tales," "rats," and "Squealers" which are directed to "a few friends." **Better to complain about those who can not accept their total responsibility to the University Community**, since they are the ones who weaken the effectiveness of our system and force the Court into a difficult position.

THIS IS certainly a challenge to that faction represented by our "West Hall Resident," Mr. Marraine, and Mr. Butler, as well as the entire studeot body—the next time there is an infraction of Honor going on under your nose, do something about it . . . or stop complaining about "policeing" or the "weaknesses of the system." It is a weakness of the student body—not the Court.

If you don't like the way the system is administered, and have constructive criticisms, then direct suggestions to the Honor Committee, or even work on it. Here is the body which suggests policy of the entire system—constructive criticisms are always needed and desired.

AND ONE OTHER SUGGESTION—find out the total situation before "lowering the boom." Many of the complaints offered only illustrated the ignorance of the complainers about the situation. Miss Burkhardt is always glad to explain as much of a situation as possible, within limits of discretion, to anyone who is sincerely concerned or interested.

Finally, I hope that the entire student body will continue to question and think seriously about our Honor System—its weaknesses and strengths—perhaps this is what we need most.

Sincerely,
JOYCE WEATHERUP
Secretary of Honor

(Editor's note: If students would like to continue discussion of the Honor System, the Honor committee will be glad to answer more specific questions in the **Flambeau**.)

LETTERS to the EDITOR

Change Series Symphony Program

TO THE EDITOR.

Wheo the people in the School of Music saw the announced program of the Detroit Symphooy we were appalled. We found out from Mrs. Vernon in the Westcott ticket office that two much more worthwhile programs were offered by the symphony on its tour repertoire.

The program in question, as well as the other available programs are listed io an article by Jim McIntyre in this issue of the **Flambeau**. We felt that by choosing a program of tha nature of the one that was selected, the Artist Series committee was playing down to the campus and to the city. I, for one, do not believe that we are that uncultured But if we should happeo to be of such mean taste, then the committee is offering us very little opportunity to raise our cultural level by selecting such programs.

A letter of protest has been tendered by the students and faculty of the School of Music. I am certain that there are many people all over the campus who feel as we do, and we hope these people will speak out.

The Artist Series should stand for the best in performance, and this program which was choseo for the symphony was certainly not the best.

Sincerely yours,
JOHN BRACEWELL

Semester Break Library Hours

For the cooveniece of students studying for final examinations, the library will remain open from 2 uotil 10 p m. Sunday, and agaio the following Sunday, Jaouary 26, according to Charles H. Walker, registrar.

Library bours during the semester break will be as follows:

Friday, January 31: 8 a m.-5 p m. (Exams end at ooon.)

Saturday, February 1: 8:30 a m.-12:30 p m

Sunday, February 2: Closed

Monday througb Wednesday, February 3-5: 8:30 a m.-5 p. m.

Offer Suggestions, Not Gripes To Court

TO THE EDITOR:

I am inclined to feel terribly sorry for the peopla who have written in or think of denouncing the Honor Court and the Honor System. I wonder how many of the peopla have ever taken the time on their own to clean up cheating or other dishonorable acts on the part of others—or are they themselves so sure that the entire humao race needs no controls or rules? If that were so, our police forces and entire government would be rather out of place in society.

An Honor System is not made for the individual, but for the mass and should be thought of as so. Perhaps you yourself are a pillar of honesty, but are you absolutely sure beyond a shadow of a doubt that the person next to you or across the room is? And if you don't care ooe way or the other, you are just as dishonorable as they are.

Perhaps these dissenting minds could better help the honor system with suggestions instead of "gripes" and thus help themselves. I do not believe any system is perfect, but ours is 4 years farther along to perfection that it was when I was a freshman.

At least we have some who are **doing** something about the honor—not just **talking** about it.

Recognize Weaknesses In Honor System

BY BUCKY CANON

Each year, it seems, a controversy comes up over some a[...] of the Honor Court. It happened two years ago, last year [...] this year has been no exception. Heated criticism of the C[...] has been raging for the past two weeks.

THE QUESTION arises, "What are the weaknesses in our honor system which cause this annual furor?" For the answer, an examination of our honor system seems in order.

FSU has chosen the honor system (as opposed to its alternative - faculty proctoring) because it includes student participation.

STUDENT PARTICIPATION. That is a requirement which an effective honor system must have. Yet, FSU is notably lacking in this. Why?

One reason is that FSU, unlike older, smaller, and private schools has little tradition of an honor system. Traditions, as this campus well knows, are not built overnight. Especially at a state university where there is little selectivity and a high rate of turnover among the students.

SECONDLY, it is inculcated into us from the first grade that being a tattle-tale is petty, especially on matters not directly concerning us. While this inculcation may not be good or right, it is hard to overcome.

So lack of student participation is a main weakness of the honor system.

ANOTHER WEAKNESS is the basic differences between Honor Court jurisprudence and that of the American court system. The most outstanding of these is that real courts judge only the guilt or innocence of the accused. The functions of apprehension and prosecution are left to others. In our present honor system setup all of these functions are performed by members of the Honor Court.

Also, real courts bend over backwards for the protection of the rights of the accused. Again, the Honor Court does not follow the American standards of justice. Here, for instance, it is the accuser's privilege to decide whether or not he will face the accused at a trial for cross-examination. If he decides not to, the accused has no recourse.

OTHER MAJOR discrepancies between real justice and Honor Court justice are the searching of rooms without warrants and trials withou[t] notice.

Students are not blin[d] these differences. They d[o] see why those rights, [...] they will have a few [...] hence, as full-fledged cit[izens] should be violated now. In [con]sequence, they resent the [...] system and refuse to su[pport] it.

This student resentment [...] second weakness.

A THIRD WEAKNESS [...] in the connection between [...] election of Honor Court m[em]bers and student politics [...] terest in student politic[s ...] dead on this campus—co[nse]quently a small group of [poli]ticians control the nomina[tions] of Court members Man[y of] the nominations are mad[e for] political reasons (to carr[y a] dormitory, to reward tha[t so]rority), rather than for [the] nominee's ability or consc[ien]tiousness.

If we wish to obtain a [...] tem, we must work to c[...] the weak points just disc[ussed].

THE DIVORCE of the [...] system from student [...] should be the easiest acc[om]plishment. That is, of co[urse] if students are as inter[ested] in the honor system at ele[ction] time as they seem to be [...]

Correction of the se[cond] weakness—differences be[tween] the standards of justice [...] Honor Court and real cou[rts] could be accomplished b[y ...] overhaul of our honor sy[stem]. Not an overhaul of its [...] principles, but of its proc[edures]. This would help to elim[inate] student resentment

THESE CORRECTIO[NS] would go a long way to[ward] making the honor system [...] accepted institution on [...] FSU campus (and this lac[k of] acceptance is its basic w[eak]ness).

Friends of the honor sy[stem] should not despair. The C[ourt] has improved itself after [...] controversy in the past y[ears]. It will continue to do so.

However, they should [con]tinue to recognize the w[eak]nesses of the system and [...] to correct them. Not to d[o so] will doom the honor sys[tem] to failure.

Alan's Aisle

Critic Names Top Ten Movies Of 1957

BY ALAN KASS

As all text books begin to open for finals, it's time to [...] our movie book for the year 1957. We find that in the wa[y of] novelty besides rock and roll we have received a new sor[t of] movie entitled "expiotation pictures." Such pictures which [are] due for popularity in the upcoming year are these "I Wa[s a] Teenage Frankenstein" and "Blood Of Dracula." On that [...] we dissent and make our list for our favorite movie bon-bons [of] the year.

FUNNY FACE: The first of the "sophisticated" musicals which unfortunately met with mixed reaction due in part to the evident miscasting of Fred Astaire who co-stars with Audrey Hepburn. True, the plot was weak, but it showed more imagination than its nearest opposition, "Les Girls," in the story department.

TWELVE ANGRY MEN: Based on a Reginald Rose TV story, told with a single set, the story of justice was acted with perhaps the finest and most capable cast of the year Headed by Henry Fonda, Lee J. Cobb and Jack Warden the story was told with realistic detail, despite the fact that you realized that the picture must end with justice done, and it was only a matter of disclosing the proper evidence until the conclusion was reached. If any picture is a "sleeper" for the Academy Award, this is it.

A HATFUL OF RAIN: Told in a documentary style, this grim story filmed in New York, of the struggle of a dope addict with his family, friends and conscience bested any treatment of narcotics on the stage or screen. Newcomer Tony Franciosa uses his stage experience in the same role to make a lasting impression and a great promise for better roles and improvement in the future.

THE STRANGE ONE: Ben Gazzara, noted Broadway actor, turns his greatest stage characterization, that of Jocko De Paris, military bad-boy, amock on the screen. All the hate and anger of a cadet mad at the world explodes with intensive feeling and sensitivity before your eyes. Not since Bogart has a more meaner and crude article hit the silver screen than Ben Gazzara.

GUNFIGHT AT THE O. K. CORRAL: My better judgment echoes that "Gunfight" does not deserve this high critical praise with which we give it credit. Nonetheless, it is certainly the best from the West this year. Kirk Douglas as Doc Holiday makes a sympathetic study of a man with no place in life and no place to belong. It was the most entertaining western of the year with "The Tin Star," placing a weak [sec]ond.

SWEET SMELL OF SU[C]CESS: The fine photograph[y of] James Wong Howe, the cr[ac]kling dialogue written by [Er]nest Lehman, and the rea[l] impression of big-city l[ife] make the story of an unscru[pu]lous press-agent a tense [ac]count of the practice of d[og-]eat-dog. Tony Curtis and B[urt] Lancaster both played [their] roles to the hilt in fact it se[em]ed the best acting job ever f[rom] both individuals.

OPERATION MAD BA[LL]: The attempt at a military c[om]edy has met with dismal fa[te] since "Mr. Roberts" sadly [de]parted several years ago I[n] peace time mix-up Jack L[em]mon, Ernie Kovacks, M[ickey] Rooney have maintained [the] same good taste and deft [hu]mor despite a series of fam[iliar] sight and situation gags "M[ad] Ball" proves a hilarious m[ad]cap romp.

PATHS OF GLORY: A [...] young man of promise and [vi]tality behind the camera [...] Stanley Kubrick who last [...] sent us "The Killings" T[his] time out he betters himsel[f] adapting a minor literary c[las]sic from the past. It stars K[irk] Douglas and Ralph Mee[ker] and makes a tragic true [inci]dent come alive and beg [...] understanding and justif[ica]tion. Watch for this in the [fu]ture.

SAYONARA: Due here n[ext] week, this should provide M[ar]lon Brando with enough sup[er]latives to maybe win an Os[car] for his sensitive portrayal i[n a] story of love in the Eas[tern] world. A number of newcom[ers] to films, Red Buttons a[nd] James Garner should make [fa]vorable impressions on tho[se] of us who wish to see mo[re] new faces with our new mov[ies].

THE BRIDGE ON TH[E] RIVER KWAI: Last and c[er]tainly not least, in fact, b[est] of tha best is this story of m[en] in war. We see that a war p[ic]ture and a thrilling one [...] that can be produced witho[ut] a single shot fired. It is inde[ed] doubtful that we will have a[n] opportunity to see "The Ri[ver] Kwai" for at least seve[ral] months.

Hurricanes Due Tomorrow

The Game Of Hearts

It's a long bus ride from Tallahassee to Memphis, and in the ... so hours actual driving time it takes to reach that destina... one must occupy one's time.

As can be expected this was done in various ways by FSU's ...

Some of the team were playing cards, a couple were read... one was typing a term report, a few studying, one probably ... and the remaining gazing out the window.

There I was, minding my own business reading a book of ... stories when a voice called out from the back of the bus.

"Hey Larry," said Hugh Durham, "how about playing some ... just to pass the time?" Center Dan Boltz had decided to ... some reading and Tommy Garcia, Joe Williams and Durham ... one more to complete the foursome.

Since I like the game of hearts, I accepted.

The first game went along pretty smoothly with one of the ... three winning. But in the second game after about four ... I found myself low man.

...OT TO THE TOP

But that didn't last for long. Before I knew it I was sky... to the top. I couldn't have gone up faster if I was ... express elevator.

However, there was a good reason for this sudden accumula... of points. It turned out that my trustworthy associates and ... companions were not playing according to Hoyle.

They were cheating.

The three crooks knew what each other had, and one time ... was observing what was being dealt. Another time ... culprit Garcia, who had the deal at the time, turned up ... four of my cards excusing himself each time, of course, ... he thought we were playing open poker.

"If you don't like the way we play," he said, "don't play ... us."

Durham said that he learned to cheat by playing with ..., while Joe Williams said nothing and laughed while ... was all going on.

Needless to say I lost the game.

A moment later Larry Strom came to the back and told me ... didn't play with those guys because they cheat. I told Strom ... well-intended message came a few minutes late.

So I told my playing companions that I didn't think I'd ... anymore since I didn't enjoy playing with cheats.

But coming back I had my revenge.

...TURN GAME

Shortly after leaving Memphis I was again asked to take a ... in a heart game by Durham who promised it would be ... honest game.

Williams was also in the game, but Boltz had taken Garcia's ...

And true to his word there was no cheating. With Durham ... and myself 20 points higher, I "shot the moon" for the 26 ... putting Boltz out and came out the winner.

TENNESSEE TIDBITS. Florida State packed the Memphis ... gym drawing a near capacity crowd of 4,000 . . . The an... introduced every member of each team with Garcia and Williams receiving the greatest applause of the Seminole ... . . Bob Swanger, senior guard, who will probably be ... the rest of the season after having his jaw broken in the ... last game received a standing ovation from the crowd. Boltz received a fine hand when fouled out with five minutes ... after scoring six points and snaring 15 rebounds, tops in ... game. . The Tigers were taking no chances on the Tribe ... them as they went into a freeze with three minutes re... and the Tribe three points behind . . . Coach Kennedy ... only six men, Jim Savage being the lone substitute . . . Ter... spirit by Memphis State followers.

SAE 5 Tops Veterans For Intramural Title

By JACK PEACOCK

Scoring 21 field goals and 16 out of 27 charity shots, Sigma Alpha Epsilon claimed the Intramural Basketball Campus Championship, 58-51 over the Veterans Club Wednesday night.

Getting off to a slow start, the Vets trailed SAE until the final seconds of the first half, when Jack Mahoney tallied a field goal on the merit of a steal by Joe Maffa. The Vets then took the lead for ten seconds.

Bill Kimber sunk a set shot, pulling SAE ahead, 24-23, as the half ended.

Despite many efforts, the Vets were never able to make a come-back and SAE dominated the rest of the game.

PHILP TOP SCORER

Bob Nellums led the SAE's with 15 points and Gerry Philp was high man for the Veterans with 16.

In the opening minutes of the game SAE sacked four fast points before the Vets found their range and started hitting. At the end of the first quarter, SAE led 12-10.

During the second quarter the Veterans settled down and closed SAE's lead. The half ended with the Vets trailing 24-23.

As the third quarter took shape, the Vets' lack of depth began to show and SAE widened their margin to 13 points, their largest margin of the game.

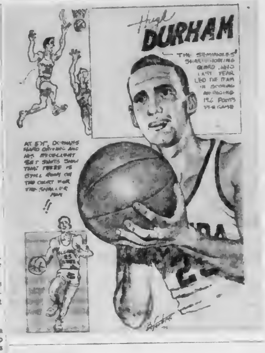
VETS FALL SHORT

Trying desperately to get back in the game, the Veterans started hitting with deadly accuracy, but due to many personal fouls they trailed by seven points as the clock ran out.

In regular season play, SAE finished the season with a six wins and two losses record. They were undefeated in the Greek division championship tournament and claimed that crown over ATO in a 30-29 finals match.

The Veterans finished their regular season with an 8-3 record and went into the Dorm-Independent championship as an apparent underdog.

In the Dorm-Independent finals, after being undefeated, the Vets won the title over Newman Club in an easy 44-24 ramble.



Hugh DURHAM
THE SEMINOLES' SHARPSHOOTING GUARD WHO LAST YEAR LED THE TEAM IN SCORING AVERAGING 17.6 POINTS PER GAME
AT 5'11", DURHAM'S HARD DRIVING AND HIS EXCELLENT SET SHOTS SHOW THAT THERE IS STILL ROOM ON THE COURT FOR THE SMALLER MAN

SN Leads In Touch Football

Going into their last game of the regular season, SN is the only team in the Greek touch football division to remain undefeated.

On Tuesday, Sigma Nu dumped SAE in an easy 26-6 victory which gave SN a 6-0 record.

LCA took a heartbreaker from DTD on the merit of the First Down ruling and chalked up their second win of the season. The game ended in a 13-13 tie, but LCA had managed five first downs to DTD four.

PKT rambled to an easy win over KS in a 39-13 meley. KA had little trouble in defeating PGA 25-6. ATO marked up an identical score against PKP in their 25-6 match.

TEP still trying for their initial victory fell to a powerful PDT team, 19-7.

The Greek division will begin their double elimination play-offs for the Touch Football Championship today at 4 p.m.

Action for today will pit PDT against KA, and ATO will meet either SC or PKT. SC and PKT played each other late yesterday for a decision match. The winner will enter the play-off against ATO.

Dorm-Independent play-offs in football are scheduled to start on February 7.

At Atlanta

Gym Team Opposes Ga. Tech In Opener

Florida State's highly rated gymnastics team will seek to maintain their dominance of the Southeastern area Saturday afternoon when they open their regular season against the Yellow Jackets of Georgia Tech.

Against Tech, the Seminoles under Coach Hartley Price, have amassed six wins and a tie in a rivalry which dates back to 1950.

Last year FSU barely escaped with a 64-64 tie, and Price is determined not to have a repetition of that performance.

Price said that "Georgia Tech really surprised us last year when we left Jamile Ashmore, Rafael Lecouna, and Ronnie Amster home in an effort to even up the meet a bit.

"We just did catch them and you can be sure we are not leaving any of our top scorers at home this time."

Two promising sophomores will get their first crack at collegiate dual meet competition this year as Larry Malmlia and Fernando Lecouna move up from the freshman ranks to take over top spots on the varsity.

Both of these men are expected to set the pace for Florida State along with Chick Cicio, who will work all-around with Malmlin.

Joe Gusic, Laird Anderson, Bob Hicks, Bob Martin, Roger Webb, Don Priesser, Don Powers, and Don Rosansky round out the Seminole squad.

Litwhiler Named To BB Committee

Florida State baseball coach Danny Litwhiler has been elected to the executive committee of the American Association of College Baseball Coaches.

Litwhiler, who will represent the South (District III) for a four-year term, just returned from the NCAA baseball meetings in Philadelphia.

Now preparing for his fourth baseball season at FSU, the former major league standout coached the Seminoles to a 22-9 record and a berth in the College World Series at Omaha, Neb., last year.

Most of that 1957 FSU team is back, including all-America shortstop Dick Howser of West Palm Beach.

Memphis State Edges Seminoles

The University of Miami Hurricanes visit Tallahassee tomorrow night, with what is considered their finest cage team in years, to play the hard-luck Seminoles of Florida State in the Men's Gym at 8:15.

Coach Bruce Hale has an experienced squad with last year's four leading scorers returning along with three of its top rebounders. Hale has also added some top-notch sophomore talent to blend with his experienced seniors.

Leading the Hurricane's attack will be Captain Gene Stage. This is Stage's third year as a starter and the sharp shooting guard has a good chance to set an individual career scoring record.

Ed Morris and Marty Burdette should be at the forward positions, and both have been starters since they were sophomores. Burdette set his own individual scoring high of 25 points against the Seminoles last January.

Set to see plenty of action is Joe Munley, a junior who averaged better than 10 points a game last year.

7 FOOT CENTER

The Hurricanes bring with them the most talked about player to ever attend Miami, Dick Berghoff. As a freshman, he set an all-time scoring record for the 'Canes. The 7-foot center has been labeled as possible all-America material by the time he graduates.

Also scheduled to see action is junior forward Joe Gardner. Gardner will be remembered for his fine play against the Tribe last year when he scored 19 points and sparked the Hurricanes, along with Burdette (25 points), to an 85-77 victory.

Ed Contreras is said to have improved over his previous performances and is also expected to see considerable action.

Expected to lead the Seminoles' offensive attack will be Burt Deckel, who has been averaging better than 17 points per game. The Seminoles' two sharp shooting guards, Jim Liteky and Hugh Durham, are being counted on to lend their scoring support to halt the Hurricanes.

Last night the Seminoles played Stetson while Miami started its northern swing by playing Florida and faced Jacksonville U tonight.

LOSE CLOSE ONE

In the Seminoles' last game before meeting Stetson, they dropped a close one to Memphis State, 58-56.

The Tribe had come as close as one point within the last minute of play, but Spud Hays of Memphis was fouled in a scramble for the ball and sank both free throws for the final margin.

Burt Deckel once again led the FSU cagers with 17 points. Jim Liteky chipped in with 13 and Hugh Durham hit for 10.

University Dem School One Of 'Best-Equipped'

Located on the Florida State University campus is the school called by many observers the best-equipped in the state. Not only in equipment does the University School take pride. but in the extremely high calibre of its teachers.

Because the teachers must help teach FSU students majoring in education as well as instruct their individual classes, they must be better prepared than the average teacher.

Students from FSU are invited to attend the University School any time to observe a teacher's methods and tactics.

Actually, the school is a teacher-training laboratory assisting the FSU school of education The school was established almost with the founding of FSCW.

FLORIDA HIGH

Known as Florida High only in athletic phases, the school is directed by Harry P. Day. The total faculty, including a guidance counselor, a director (principal), a director of instruction, a librarian, and a dietician, is made up of 46 members.

The director of instruction, Miss Helen Deans, is in constant touch with the classrooms. She tries to keep a close check on the effectiveness of the personnel and also helps communications between elementary and high school students.

In charge of the testing program and taking all referals from teachers regarding students is J. Garland Wynn, guidance counselor.

WAITING LIST

The school enrollment is kept at approximately 750 by maintaining a waiting list for admittance. Parents all over town submit their children's names to the list.

Children are not always accepted in the order they are placed on the list, however, because the administration tries to keep a balance of boys and girls and of intellectual ability.

Students in the lower grades receive no marks after the first and fourth sixth weeks. Compulsory conferences between teachers and parents replace grades.

Another difference in the school is that conversational Spanish is taught from kindergarten through junior high, when Spanish grammar is begun.

MUSIC OPENINGS

Music opportunities at the University School are exceptional. Children are taught some type of music from kindergarten, and in the fourth gade, they receive the chance to try out several types of instruments free of charge.

In the fifth grade, a final choice of instruments is made, and the students are eligible for orchestra or band In senior high, glee club is also offered.

A special vision class, open to any student who has a doctor's recommendation, is one of the fine features of the school.

Mysterious Flag Flies At Center

What mysterious force claimed possession of the Student Center yesterday morning?

Early-breakfasting students discovered there a red banner with a large black dot in the center flying beneath the Stars and Stripes.

Presumably run up the flagpole during the night, the banner was the object of much conjecture. Comments ranged from "The pirates have sailed inland" to "Is this the new Communist Party headquarters?"

About 9:30 a. m. the ROTC hauled down the flag amid murmurs of disapproval.

Who had planted it there? No one seemed to know.

Six Federal Officials Speak To PA Courses

Six high level administrative officials from Washington are on the Federal Lecture Program of the School of Public Arministration at Florida State University for the spring semester.

The six officials, along with three other speakers, will talk to a class of advanced students on various phases of the theme selected for this spring's study, "Governmental Personnel Problems and Practices."

Kenneth O. Warner, director of the Public Personnel Association with headquarters at Chicago, will open the lecture program here Feb. 18-20, speaking on "Personnel Administration: Status, Scope and Trends"

Final speaker will be William W Parsons of Washington, administrative assistant secretary in the Treasury Department. He will speak on "Personnel Administration from the Operations Viewpoint," while here May 6-8.

The other speakers on the schedule are: James R. Watson, of New York City, executive director of the National Civil Service League; Harold H Leich, assistant director, Bureau of Departmental Operations, U.S. Civil Service Commission; C. Mansel Keene, chief of the Standards, U.S. Civil Service Commission.

Gerald L. Howell, deputy director of the Florida Merit System; O. Glenn Stahl, director, Bureau of Programs and Standards, U.S Civil Service Commission; Seymour S. Berlin, chief, Program Planning Division, Bureau of Programs and Standards, U.S. Civil Service Commission; and Milton Hall, deputy director of personnel, Department of Health, Education and Welfare

International Hour To Meet Weekly

An International Hour is going to be held weekly, starting next semester, according to D.R.K. Murty, president of the FSU International Club

The Hour, suggested by Dr. Mitra, at the club's only meeting in January held Wednesday evening, will be an informal gathering where students can talk and play indoor games, such as checkers and cards.

Mr. Murty announced at the meeting that the Athletic Association will provide soccer and hockey equipment, if the members are interested in forming teams.

Informal dancing will follow some of the club's meetings next semester. Members of the club have volunteered to teach dancing to the foreign students who do not dance.

Other club plans for next semester include two picnics. One in the early spring will be held at the Reservation, while the other will be at the beach.

Cavalier Pledges Will Be Honored

The Cavaliers, FSU Men's Dance Honorary, will honor their new pledges at a banquet Friday night at the Talquin Inn.

FSU's Cavaliers are the second group in the United States to be officially recognized. The Alpha Chapter is located at the University of Florida.

At a recent meeting, the Cavaliers adopted their official pin. The pin consists of a shield with a diagonal sword through the shield.

The background of the shield is black and silver. In the upper lefthand corner is a boot and in the lower righthand corner is a carnation, the fraternity's flower.

Ruge Slates Recital Sunday

Frances Hankinson, soprano, and Wesley Chesnut, baritone, will present a recital of sacred music at 5:30 p.m. Sunday in the Chapel of the Resurrection, 655 West Jefferson St

The two Florida State University students will be accompanied by Kenneth Robinson, student in the School of Music.

Miss Hankinson, a sophomore in the School of Music, will sing "How Beautiful Upon the Mountain," by Flaxington Harker; "I Walk Today Where Jesus Walked," by Geoffrey O'Hara; and "These Are They" from the R Gaul cantata, The Holy City.

Chesnut, a senior in the College of Arts and Sciences, will sing "How Lovely Are Thy Dwellings," by Samuel Liddle; "Nature's Adoration," by Beethoven; and "Ave Maria," by Bach-Gounod.

The recital precedes a service of Evening Prayer at 6 p.m. in the chapel

Burkhardt . . .

(Continued From Page 1)

only when we knew what we were looking for, and felt that we would find it. It was necessary to make the searches at 11 p.m. when we knew all the women were in their residences," she said

SEARCH WARRANTS

In reply to Senator Gerry Gordon's question about search warrants, Miss Burkhardt said that each time a search is to be made, a university search warrant must be secured from the Dean of Men or Women's offices.

She pointed out that Junior Counselors and Honor Court members are instructed before a search as to how to enter the rooms they are to search, and how to leave them when they have completed their job. Residents are requested to remain in their rooms while a search is going on so that stolen articles cannot be transferred

HELP WELCOMED

When asked if she approved of the methods used in exposing theft and dishonesty, Miss Burkhardt replied, "I do not necessarily approve of these methods, and I would welcome any suggestions as to how we might accomplish our job by other means"

The special Senate committee appointed by Vice-President Jan Kaminis will be headed by Senator Don Sink This committee will meet with the Honor Committee to evaluate the present Honor System.

Tarpons Get Expert Coachin[g]

The 30 expert swimming members of the Tarpon Club are receiving coaching this week from a visiting world champion in synchronized swimming.

Mrs. Beulah Gundling is the champion spending several days at FSU with her husband, Henry Gundling who is president of The International Academy of Aquatic Art with headquarters at Cedar Rapids, Iowa.

The husband and wife team came to FSU on invitation of Miss Glynise Smith, faculty advisor of the Tarpons. The Gundlings and Tarpons met last year when all participated in a [...] Symposium held at Emory [...]versity.

Morrison's To Set Up 'Model' Cafeteria Here

Remodeling Of Campus Eating Places Slated

By CHARLET POITEVINT
Flambeau Editor

Morrison's Food Services announced last night it plans to set up a "model" cafeteria operation on the Florida State University campus in the immediate future.

In order to train management employees, the Southern cafeteria chain will invest approximately $50,000 to completely remodel tha Seminole Club, the Student Center and the Soda Shop.

Morrison's will transfer its specialists in cafeteria operation hera so new management trainees may observe them, according to the announcement made at a dinner meeting held for representatives of the administration, Morrison's and student government.

APPROVED BY BOARD

Student Body President Arnold Greenfield said the plan has been in the planning stage for the past few weeks and was only recently approved by the Board of Control.

The FSU Food Services will be a duplicate of Morrison's commercial enterprises. According to the business office, Greenfield said, the steam tables, serving lines and kitchens in the Seminole Club will be revamped, the Student Center will be converted into a regular cafeteria, and the Soda Shop will probably be enlarged.

"This should enable Morrison's to serve a greater variety of food and to improve its quality," Greenfield said. "Morrison's will also initiate a special Saturday menu to try to build up its weekend trade. One of the special menus will be a steak dinner, sold Saturday evenings on a non-profit basis," he said.

CO-OPERATION

Greenfield asserted that the Morrison's project was one of significance for student government as it represented successful co-operation between student government and the FSU business office.

"Co-operation with the business office was the first item on my program for the year," the president declared. "This is an illustration of what can be accomplished by such co-operation."

"Quite often by working with the business office many things can be done that would be beyond the economic means of student government alone. At the beginning of the year I never really expected to accomplish a complete over-haul of Morison's. I thought we would have to be satisfied with some minor changes," he said.

BIGGEST PROJECT

"If this materializes as planned it should be the biggest single project student government has ever been instrumental in achieving. However, this can only be done through the mutual respect, understanding and friendly feelings among student government, the administration and Morrison's, he concluded.

Student Body Vice President and Chairman of Senate, Jan Kaminis told the **Flambeau**, "we are confident that the students will be able to see a great improvement in variety of food offered and quality of food served under this new plan."

STUDENT INTEREST

She said, 'we are certain this new project is a direct result of student interest. FSU is fortunate in being selected for this project over other college campuses, and we hope it will prove satisfactory to the students."

The Vice President declared Senate has been interested in improving campus food services for a long time. "This year we have been making a thorough study of the services offered on ours and other campuses," she said.

MAJOR FACTOR

Gerald Jones, assistant business manager, said be thought student demands were a motivating factor in receiving the Morrison's project.

Morrison's has come under considerable fire from the students during its two year operation of the FSU Food Services.

Since taking over, the company remodeled the interior of the Seminole Club and added new equipment in the Soda Shop. One of the difficulties faced by Morrison's was having to operate with outmoded and inadequate facilities.

Morrison's, which bought out Siege's Cafeteria this fall, is planning to open a cafeteria in that site in the near future.

Matrimony Slated For Many Grads

By NANCY FRASER

What will some of this year's February graduates be doing in a few weeks when they have left FSU? Several February graduates answered that question for a Flambeau reporter this week.

The results were varied and interesting.

The results were varied and interesting

Celeste Webb, whose major during these four years has been medical technology, will put her training to use during a one-year internship at Charity Hospital in New Orleans, La.

ANOTHER ONE

Joining her at the hospital will be another medical tech major, Mary Harris, who attended the University of Florida before coming to FSU.

Sam Rogers, a business major, plans to go to work for the Florida State Insurance Commission. Also going into insurance work is Harold Anderson of Orlando

The flash of engagement rings following the Christmas holidays seemed to be an indication that matrimony would be in store for many of the graduates.

EX-PREXY TO WED

Mary Louise Peacock, an education major, will tie the knot with former Student Body President Dave Bachman, who is presently employed at the State Penitentiary in Raiford.

The couple will live in Kingsley Lake, Florida, with Mrs. Bachman teaching high school English in Green Cove Springs.

Moving day will follow close on the heels of graduation for Martha McGinnis Andrews and her husband, Art. A civil engineer with the State Road Department, Mr. Andrews has been transferred to Bartow, where Mrs. Andrews will teach in the elementary schools.

ART IN TALLAHASSEE

Jessie Nabie, a commercial art major, will put his training to work right after graduation with Dixie Printing Co. of Tallahassee.

Carol Hummel, who spent a year hitch-hiking around the world with her brother, would like to "travel and learn to write." Her present plans, however, are to teach geography and social science in Broward or Dade County junior high schools.

Stapped At Pioneer Stage

Navy Satellite Plan Never Pursued—Hall

This country might well be in the stage of "interplanetary flights on an experimental basis" if pioneer efforts of the navy in an earth satellite program had been pursued, a scientist who was identified with the program told the Tallahassee Rotary Club this week.

Dr. Harvey Hall, who has just joined the staff of Florida State University as professor and head of the physics department, said the program, started in 1945, was never pursued beyond the exploratory stage because of what was considered lack of military value and because of lack of funds.

NAVAL RESEARCH

Dr Hall joined the faculty after leaving the Office of Naval Research Dec. 1. He was director of the naval analysis group. In a prepared address Dr. Hall declared:

"On Oct. 3, 1945, a sequence of developments was initiated in the Bureau of Aeronautics of the Navy which led, within the following year or year and a half, to the establishment of the feasibility of an earth satellite vehicle.

"There was every indication that these events could have been followed by a successful flight program which would possibly have surpassed by now the satellite phase and advanced into the realm of interplanetary flights on an experimental basis

"But adequate financial support for an experimental program involving actual vehicles was always lacking in the Navy, Air Force, Army, Research and Development Board and other activities, because there was no known military requirement that could justify the necessary expenditures

NOT SUFFICIENT

"A simple justification based only on scientific and technological pioneering was not deemed sufficient to justify the cost, and even today the Pied Piper program of the Air Force, recently announced in the press, which was developed as a result of the division of responsibilities between the Air Force and the Navy as laid down by the Research and Development Board in March, 1948, bases its request for funds on a stated requirement for continuous reconnaissance of the earth.

"There is a legitimate doubt whether the most effective progress can be made by combining such a great technological step with the requirement for a large payload, before a gradually expanding experimental program, involving much smaller payloads in its initial phases, can be completed. The Russians didn't begin their flight program with large payloads. But at least the Air Force

(Continued On Page 4)

497 Additional Students May Enter Here

Applications from new students for the Spring Semester at Florida State University number some 497 as of January 15, according to Mrs. Johnny G. Wright, of the Registrar's office.

This total includes 249 transfers, 165 freshmen, 65 graduate students and 18 foreign students. The number is expected to decrease somewhat, owing to failure of students to complete entrance procedures.

NOT SURE

Final figures on new students and total university enrollment will not be available until after the completion of registration procedures, Mrs Wright said. The last scheduled registration period is February 6 and 7 for students taking Saturday and evening courses

Transfer students will begin registration early February 4 and freshmen, after 2 p.m. the same day. Returning former students and those not registering in the January pre-registration period will do so February 5.

DORMS OPEN

Residence halls will open to new students the morning of February 2.

The first event of Orientataion is scheduled for 7:45 a.m. February 3 in Opperman Music Hall. All new students, freshmen and transfers, will be required to attend.

Metz Is Named Assistant Director

Professor Charles B. Metz has been appointed associate director of Florida State University's Oceanographic Institute beginning in February, Institute director Sidney W Fox announced today.

Dr. Metz will be especially concerned with the operation of the Institute's marine laboratory at Alligator Harbor, 43 miles from Tallahassee on the Gulf of Mexico.

An experimental embryologist, Dr. Metz came to FSU in 1953. He joined the staff of the Oceanographic Institute in 1956, where he has continued his research on egg fertilization in the sea urchins, starfish and other marine animals.

ROTC Band To Perform At Mardi Gras

Florida State University's Air Force ROTC band and drill team will participate in the Mardi Gras Festival in New Orleans February 9.

Both the band and the drill team will perform in the traditional daytime parade and also in the night-time entertainment program at the Carrolltown Ball in the Civic Auditorium

TO GET PLAQUE

The Mayor of New Orleans will present a plaque to the AFROTC representatives to commemorate the unit's second appearance in the Mardi Gras events. The band and drill team performed at the affair in 1956 but for financial reasons did not return in 1957. This year the Carrolltown Krewe of the Mardi Gras is underwriting a portion of the expense of the trip.

Junior Cadet Major Dave Reams will lead the drill team through its parade paces and Cadet Benny Jones will act as drum major for the band during the parade.

FROSH CONDUCTOR

Frosh Cadet Captain Lester A. Yeomans will direct the band in the evening performance. The band and drill team will perform alternately at the performance.

The band's evening program will feature "Music of the Southland," with Claire Grundman's "Kentucky 1800," Fillmore's "Lassus' Trombone," Sousa's "King Cotton" and Morrisey's "French Quarter Suite."

The opening number will be "Air Force Blue" and the program will conclude with FSU's 'Alma Mater" as arranged by Charles Carter of the School of Music. Cadet Frank Friedman will announce FSU's portion in the evening show.

The band, consisting of 35 cadets, and the 24-member drill team will leave Friday, February 7, after classes and will return February 10.

Colonel Howard J. Withycombe, professor of air science, will accompany the AFROTC units.

A full dress rehearsal will be given by the band for the assembled cadet corps at 12 noon February 6 in Westcott Auditorium. The performance will be open to the public.

Honor Committee Distributes Cards

The Florida State University Honor Committee has busied itself in the past few weeks with distributing to students wallet sized cards containing a 1958 calendar, the Honor Pledge and pertinent facts about the honor system at the university.

Questions are answered concerning what is a violation of the honor code, and how such violation is reported. The purpose of this operation is to increase student participation in the FSU Honor System and to prevent violations of the code.

Flambeau Photo Steve Kleid

TYRONE POWER talks to reporter-photographer Steve Kleid, following the movie star's appearance in "Back To Methuselah," here last Thursday night.

At "Methuselah"

Turns House Counter To Get Backstage

By STEVE KLEID

Stars fell on Tallahassee last Thursday night, with the arrival of the cast of "Back to Methuselah," the G. B. Shaw farce.

A renowned list of performers, headed by Tyrone Power, Faye Emerson, Arthur Treacher and Arnold Moss appeared in the production, which played to a sardine-can house in Westcott Auditorium.

Standing backstage, studiously avoiding the stage manager's attempts to "clear the area of all people not working in or on the play," I got a ringside view of the cast as they reported for duty.

THE STAR COMETH

First came the star (at least he got top billing) of the show, Tyrone Power, looking somewhat peaked after a trying session counting the house.

His arrival was the signal for a concerted effort on the part of the stage manager which resulted in the exit of a large body of ruffled **Flambeau** (and other) photogs and scribes. Fortunately, I managed to quickly assume the pose of Chief Assistant House Counter, and thus preserved my position.

Next came Arnold Moss and Arthur Treacher. Moss arrived in quite a businesslike manner. Treacher bounded in like an extremely likeable overgrown gazelle, emitting magnificent "good evening's" at every bound, and using words so lengthy that it would be impossible to reproduce them in this limited space

DESTROYER EMERSON

Last, but **definitely** not least, came Faye Emerson, looking, to this observer, somewhat like a destroyer plowing through a ruffled sea. In her wake, I thought I could see a small ball of cotton, which had apparently caught on her heel. This turned out to be her pet dog, at least I sincerely hope so.

To any slighted Valerie Bettis I must say I didn't see her at all until she came up ready to go on stage looking like a large butterfly.

ACTORS ARE PEOPLE?

As the evening progressed, a few words with them here and there (mostly there) strengthened my impression that even actors are people

Treacher and Moss, in particular, proved extremely friendly and easy to talk to. Moss, who is associate producer of the play, and who did the adaptataion, expressed the opinion that the FSU audience was the best that they had played before on their tour.

As he put it after coming offstage after his first appearance, "Remember that line I got two chuckles on at the last place? Well, tonight I distinctly heard eight. Fine audience!"

He meant it, too.

ALD Scholarship Offered To Grads

A $750 scholarship for graduate study will be awarded this year by Alpha Lambda Delta, national freshman women's scholastic honorary, according to Sylvia Miller, president of the local chapter.

Any member of Alpha Lambda Delta graduation in 1956, 1957 or 1958 who has maintained the scholastic average (3.5) throughout her college career is eligible to apply for the scholarship, the Alice Crocker Lloyd Fellowship. Graduating seniors may apply if they have maintained this average to the end of the first semester of this year.

Deadline for application for the Fellowship is February 15. Application blanks may be obtained from Katherine Warren, dean of women

Applicants for the award must be planning to do graduate work in a college having an Alpha Lambda Delta chapter. Acceptance of the fellowship involves an obligation to begin and complete the year of study contemplated in the application submitted unless good cause for not doing so can be shown.

The award will be given on the basis of the applicant's scholastic record, recommendations submitted, soundness of the applicant's project and purpose, and to some extent on need.

Bus Driver Saves The Day For Coed

An appreciative co-ed was able to register for next semester last week due to the honesty of a campus bus driver.

Cleaning out his bus after work a few days ago, Mr. Steve Green found a personal envelope on the floor. He placed it behind the sun-visor, thinking it would be claimed sooner or later.

The next day he noticed the envelope, still unclaimed, obviously contained green slips of paper called cash. Upon investigation, he discovered it was a large sum in cash and endorsed checks.

Green delivered the envelope to Gerald Jones, director of auxiliary units, who notified the owner, Carol Jean White, who lives in Florida Hall.

Miss White was anxious for everyone to know about the return of the money. "She said she couldn't have stayed in school next semester without it," Jones said.

No 'Wet' Election Slated For Leon

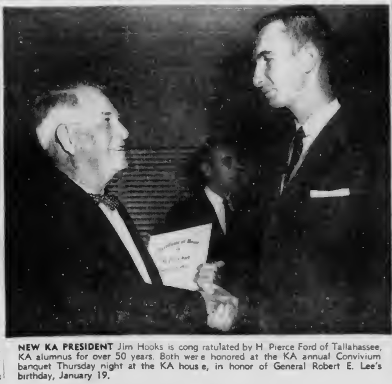
Contrary to rumor there will be no wet-dry county election in Leon County in the forseeable future, according to Fred Strickland, Leon County Deputy Clerk.

Strickland went on to state that 25% of the qualified electors would have to petition the office of the county commissioners before a wet-dry election could be held.

"No such petition has been filed," stated Strickland.

Spokesmen from the office of the county commission state, "There has been no petition filed to our knowledge . . ." "We haven't heard a thing about such an election . . ."

Throughout its history Leon has always been a dry county.



NEW KA PRESIDENT Jim Hooks is cong ratulated by H Pierce Ford of Tallahassee, KA alumnus for over 50 years. Both were honored at the KA annual Convivium banquet Thursday night at the KA hous e, in honor of General Robert E. Lee's birthday, January 19.

"Model" Morrison's Gratifying

The new plan of Morrison's to use the FSU Food Services as a training center for management employes is as Vice President Kaminis stated, "fortunate for the university."

BY BRINGING its best employees here for management trainees to observe, the student body will benefit. For after overhauling the antiquated equipment in the Seminole Club and setting up a cafeteria system similar to its commercial enterprises, Morrison's will be able to offer a more varied and better tasting menu.

But even though the basic conflict between the Food Service and its student customers is calmed by the project, there still will be criticisms made relating to price and so forth. These are not major factors; however, the employment of students is still an important issue to settle with the cafeteria managers.

FIRST, THERE arises the question of whether students will have as many opportunities for employment by Morrison's under the new project. In many ways it is advantageous for students to be employed on the campus—it's convenient and harmonizes well with tight class schedules. Because it is beneficial to students who need work for the Food Services to employ as many of them as possible, we hope the new plan will not eliminate chances for student employment.

SECOND, THERE remains the problem of the how to pay student workers. The present system of payment (with meal books) could be improved and its monetary value increased. As it is administered now, student employees must eat all their meals at the Food Services at regular prices, thus putting part of their salary back into the Morrison's kitty.

Student demands went a long way toward achieving the attention and action of Morrison's officials. Student government, hearing complaints from the students, extended the utmost effort in satisfying these demands as did Mr. Gerry Jones, assistant business manager in charge of service units.

IT IS GRATIFYING to see such extensive action taken by Morrison's. Mr. Milton Dennis, manager has been most co-operative with the administration and student government.

We hope the same interest, co-operation and good relationship will continue so that the problems which may arise in the future and those aforementioned may be solved.

★ ★ ★ ★ ★

Boys' Farm Worthy Project

A feature article in Sunday's **Tampa Tribune** brought out a project that could be of particular interest to FSU students who are interested in helping a worthy cause.

THE ARTICLE was concerned with the proposed Boys' Farm being built by the Florida Sheriff's Association in Suwanee County near Live Oak. It told primarily of the work being done by the people of that community in aiding the construction of the farm in order to have the place ready as soon as possible.

The Boys' Farm is being built by the sheriffs of Florida in an effort to provide a wholesome atmosphere for boys who might otherwise run afoul of the law or grow up in conditions that would not be conducive to the proper development.

THIS IS A constructive move on the part of the men who are usually concerned with apprehending law-breakers, rather than seeing that they have the proper surroundings.

The movement on the part of the citizens of Suwanee County to help with manual labor in the clearing of the land and the general development of the area is exemplary. FSU students could well benefit from their example.

MORE HELP IS needed on a voluntary basis at the farm. There is a need for some strong backs and even a place for those with backs that are not-so-strong.

Fraternal organizations at the university would do well to investigate the possibility of helping out in the development of the site. Religious groups, organizations, and just plain individual students might be able to assist also.

COLLEGE STUDENTS are known for their pre-occupation with themselves. We are thought of as a reckless generation with little thought given others.

The distance to the farm is approximately 90 miles. The distance to Panama City for a party is over 100 miles.

If any group is interested in assisting in the project, they are asked to call the **Flambeau** office for the details.

Hawkins Case Up Again

Virgil Hawkins, nine year loser in his fight for admittance to the University of Florida Law School, has filed another appeal. At the present time he is seeking an immediate federal district court injunction in order to gain admission by February 1.

The public relations man for Bethune-Cookman College at Daytona Beach is the only applicant of the eight Negroes that applied originally to continue the quest for admission to UF.

The case has journeyed through every facet imaginable. By the latest ruling of the U.S. Supreme Court, the case was placed under the new jurisdiction of the district court.

With the high court's last decree—that Hawkins should appeal to the district court—indications were that it would be a long time before the first Negro would enter a Florida school.

If the district court agrees with the Florida Supreme Court that the time "is not ripe" we wonder when the time will be right. The district court should hand down an affirmative verdict in the Hawkins case; indications are that Florida students are willing to accept desegregation on this level.

If the court decides Florida is not ready for the drastic step, however, it is imperative that through communication and discussion that Florida schools prepare themselves.

"Methuselah" Casting Not The Best

By LOWELL RODDENBERRY

Longevity, were it the only way to perpetuate the species, would and mayhap will become an actuality. Immortality, were it possible on this plane with all the limitations of the physical body, would inevitably become intolerable. Thus, the answer lies outside the realm of human experience.

SHAW THE philosopher merely reiterates an ancient enigma. Through the ambiguities of words he reconstructs his own brand of Genesis. His Good Book begins with a Pentateuch of a Shavian bent.

God's desciple is the snake with its disarming temptations; i.e. irrefutable logic. Organized Christianity is Satan's solution for impeding evolution. Ostensibly, Shaw is a raving heretic, albeit a benevolent one.

SHAW, WITH his wealth of wit and insight, is not a playwright in this instance. Elaborate sets and cloying costuming render ineffectual his message by distracting the theatre-goer. When he waxes philosophic, it should be done as a staged reading or from a pulpit.

Thursday evening's production of "Back to Methuselah" was a condensation, and as such was tasteful. The unabridged five plays in one last for an unseemly length of time and only the most fanatic devotee of Shaw would raise exception to cuts.

ITS CONDENSER, Arnold Moss, portrayed the ghost of G.B.S. stalking the stage between scenes which provides a conhesive element to the play. If fault must be found with Moss' adaptation, then the epilogue was not to justifiably shortened. It is the poetic consummation of "Back to Methuselah." In it the cycle comes full circle.

Tyrone Power, half-heartedly handling a shovel, and Faye Emerson, ineptly entangling some string, could hardly have been said to have been acting. Their stage business was so scanty as to be nonexistent.

MISS EMERSON delivered her lines a la Bankhead with a distinctive voice probably caused by a lucky throat infection as a child. Her vocal inflections consist of a consistent rise and fall which would be conducive to sleep were it not for the fact that her personality projects with considerable impact.

One could conceive of better casting. After all, Miss Emerson is hardly the motherly type and Eve, even in Shaw's Genesis, was exceedingly prolific.

AS A scantily dressed Adam, Tyrone Power was not so convincing. The fully robed, suave sophisticate he handled excellently. His role of the archbishop opposite Miss Emerson's Mrs. Lutestring gave them both their best moments. "Back to Methuselah" as a staged reading would have been the perfect vehicle for Power just as "Don Juan in Hell" was.

In their various roles, Valerie Bettis and Arthur Treacher further corroborated our thesis that the leads may get top billing but it is the character roles that steal the show.

IT WOULD be hard to imagine a worse affront to the ear than Vladamir Ussachevsky's and Otto Luening's Tonalities. Were Shaw living today he would unquestionably dispatch with this lural abomination in his most scathingly vitriolic manner.

Despite our insistence that sets and costumes proved disturbing, they had obvious merits. Patricia Zipprodt's costumes were occasionally stunning as particularly evidenced by Miss Bettis' mauve and chartreuse snake. It seems that 31,958 A.D. will bring back classical Greek dress. (Why wait? They would prove attractive on the most ungainly of figures.)

"Back to Methuselah" is good Shaw. It is a lengthy and diffuse work but then, so is its source of inspiration.

Calling The Card

Pin-Ball Fraternity Gives Secret Shake

By JIM McINTYRE

I have now been initiated into one of the most exclusive groups on the whole campus. This is an achievement and a signal honor.

IT'S NOT A fraternity as such, but simply a non-organized club of addicts of the popular all-campus sport, pin-ball playing.

There's a handshake, too. I knew I was in solid with the gang when they finally started giving it to me. It consists of the regular clasp with one finger extended over the wrist and several light taps on the wrist in a manner signifying the flipping of the flipper button.

THE FRATERNITY has regular meetings at a local establishment known colloquially as "Graddy's", which is a filling station on the outside, but actually is a front for an international pin-ball syndicate. The meetings are held every Friday and Saturday afternoons.

The meetings have very little ritual involved, unlike most fraternities, except for a certain primitive anatomical movement known as "body-english." They consist of many, many repeated games of the electrical sport, both singles and doubles matches.

RECORDS ARE kept of high scores for teams, individual games, and single ball scores. To break a record means that one has finally come into his own as a pin-ball champ. He is instantly held in reverence and awe by his bleary-eyed compatriots.

I was talking with the champ the other day, a fellow by the name of Gordon Gregory (he is also a doubles champ, having teamed with old pro Jake Neumann to set a new record). I just wanted to know basically what the secret of his success was. He told me.

"WELL SON (pin-ball champs always refer to the novices as son), he said, "I started when I was very young. Came up through the YMCA and Police Athletic League pin-ball programs.

"I wasn't too good at first, but I gradually got the hang of it, you know what I mean, like the body-english and the non-tilt jiggle. Tough tricks to pick up, but they always stand you in good stead in later life."

I BROKE IN AT this point and asked how long he had been playing the machines with flipper buttons, a fairly recent innovation.

"Well, son (pin-ball champs always refer to the novices as son), he said, "the flipper machines haven't been out long enough to really be able to tell whether they'll last or not. Personally, I prefer the old type game that depended on how far you pull back the plunger and how well you could bump with your body."

"The flippers have revolutionized the old game, son (pin-ball champs always refer to the novices as son. The game's much faster these days, but the fans like it a lot better. Lot more action for 'em to watch. Keeps 'em on the edges of their respectives seats."

"WHAT ADVICE would you give champ," I said, "to parents who would like to have their kids grow up and be a pin-ball champ like you."

"Simple, son (I was still a novice)," he said, "I'd tell 'em to get their kids to hang around the pool halls and bars where the really good machines are. If they don't have enough nickles, they can just sit and watch the good players and pick up some real pointers."

THIS CONCLUDED my interview, and I left determined to raise all my children to be just like the champ.

If you would like some of the same type inspiration, drop in to Graddy's some Friday afternoon. A word of caution, though. You'd better practice on the Mecca machine. There aren't as many pros around there.

Where Are Works Of Our 'Avant' Gard[e]

By EMMETT JARRETT

During the "fin de siecle" period of the last century was introduced into Western art and thought a new co[ncept] which had its advent with that of the Impressionist paint[ers in] Paris. This was the idea of the "avant garde."

THE "AVANT GARDE" is a group of people with an historical consciousness. They know (and appreciate) what has gone before them in art and thought, and they know where they are in relation to the past. For that reason, they endeavor to create the future. They are concerned with not repeating what has been done in the past, because they respect it.

The people within an "avant garde" group are individualists. They are concerned with themselves, their present and their future, and not with the past. They are concerned with saying something worthwhile in a worthwhile manner. They want to be present in the future.

ALL AROUND us we hear that the day of the individualist is over, that we must conform in order to survive. But the "avant garde" does not agree, and neither do we. We believe that the man who conforms does so because he is dead! The man who is truly alive in the Renaissance sense of the word is concerned with himself and with being himself and no one else.

Americans have long claimed to be "rugged individualists." We are a pioneer country, and the "avant garde" concept found a warm welcome here in 1908. But what of today? What is occurred in literature and the other arts in the last fifteen years? Where is our "avant garde"?

THE ONLY group in the United States which can claim to be in the "avant garde" ideational tradition is the San Francisco literary "renaissance." And this is far from enough.

And now to the punch line. Charles Fenton, in an article published recently entitled "Writer As Professor," said that the writers (and other artists) of our generation have gone to the universities. contention seems to be bor[ne out] by the facts.

But if this is so, where [is the] work of these artists? The [West] coast group are certain[ly not] university people. We fee[l] that America has not [been] producing art works. We only cry "Come out" [to the] universities and hope tha[t they] will.

AND WHAT OF FSU? W[here] are the works of the you[ng ar]tists whom we have s[een] here (and they are [here]). Could it be that they are discouraged? That there [is no] outlet for their talent? [If this] is so, condemn the [...] (that seems to be someth[ing of] a tradition among us, an[yway)] but also condemn the p[...].

The "avant garde" o[f other] years did not wait for o[thers] to set up magazines a[nd gal]leries. They spoke up thems[elves]. We are guilty of not [putting] ourselves forward, too.

But let us begin now. I[...] see the "avant garde" [...]tion with the old fer[vor that] comes from the knowl[edge that] here is new art, and som[ething] which must be said.

Artists of the world, aris[e!]

New Feature— Literary Colu[mn]

Next semester the Flam[beau] hopes to initiate a literar[y col]umn on the editorial page [and] would like to invite stud[ents] and faculty members who [are] interested in contributing [to] such a column to submit [their] contribution (about 500 wo[rds]) to the Flambeau editor. [Sub]jects may vary according to [the] writer's interests, and ma[y be] written in the form of a b[ook] review, critique, or general [dis]cussion.

Nation Won't Survive By 'Humanitarianism'

LETTERS to th[e]
EDITO[R]

Letters must bear the writ[er's] name, although not necessa[rily] for publication.

TO THE EDITOR:

Permit me to answer the criticism of our legislators which was made by Bobby Duke and others in **The Flambeau**. No doubt they felt compelled to defend these individuals who are subtly influencing the attitudes of our students and who might also be actively working in the "field" of social justice—that is "integration." At the risk of being disliked, I would like to perform a bit of surgery on the thinking or more accurately the emotions and sentiments of such "enlightened" and highly respectable individuals.

Many people were staunch individualists in 1929 who felt that the government had no right to interfere with their life. But this interference was apparently necessary for the economic rehabilitation of the nation and was heartily approved by the intellectual leadership (novelists, teachers, preachers, etc.) These intellectual leaders adopted the religion of the "Social Gospel"—that is the doctrine of humaneness and compassion for suffering humanity.

The second World War interrupted the work of intellectual and social reconstruction, but due to the ideological reaction to the doctrines of the Axis powers, we found ourselves committed to the doctrines of brotherhood, cooperation and humanitarianism. It was this policy, accepted by such "enlightened" leaders as Truman, that caused the dismissal of such men as Gen. MacArthur who advocated countering Soviet moves in the world by military destruction and control.

While this sentiment was admirably suited to overcome the depression it is the very opposite of what is needed in this nation today. What constituted "virtue" in 1933, is vice and a disease in reference to the present "challenge."

The plea for integration and "social progress" is only one symptom of this disease. This is certainly no time to create hatreds, disunity, and demoralization in the nation or in the schools. More importantly though this is no time to rely on sentiments and methods that are ruinous as instruments of survival. It is not too late yet, sputniks and the ICBM's notwithstanding, for us to pull ourselves out of the dangerous position that the last 12 years of humanitarian, pacific madness has gotten us into. Time is, however, running short. If this pacificism and reliance on "democratic" sentiment and methods continues history will write the obituary of an "enlightened" people who, apparently, were not as "enlightened" as they thought. Yet, as our social reformers well know, a "prejudice" is a very difficult thing to modify. These humanitarian "social reformers" are now faced with the task of doing awa[y with] their own "prejudice" bu[t in]stead of "social progress" [and] "justice" being at stake [in the] present crisis, our very su[rvival] as a nation is involved.

Let them "reform" [them]selves.

JOSEPH M. SALMO[N]

Member Answers Honor Critics

TO THE EDITOR:

In regard to the letter w[rit]ten by our West Hall res[ident] I would like to commen[t on] some of his remarks and [may]be I can enlighten him on a [few] points and perhaps even li[ft the] veil of mist from his eyes.

It would appear that [our] friend" is attempting to "ch[am]pion the cause of truth [which] is being "persecuted" by [the] administration. But wha[t our] friend" is really trying [to do] is to make FSU a haven [for all] sorts of bad actors.

If there are people tha[t are] informing on other stud[ents] while aiding or abetting [their] friends to cheat why hasn'[t he] come forth with this inf[orma]tion that he reports to [...]. By not doing so he is [...]ing cheating and he is pled[ged] not to do so when he came [to] this university.

It seems to me tha[t "our] friend" cannot offer any [pos]sible constructive recomme[nda]tion to the court but ha[s be]come nothing more than a b[ab]bling fountain of criticism [as] to the searches mentio[ned. I] can assure you that the c[ourt's] foremost aim is the retur[n of] the missing property — I [hope] you're not against that to[o].

After reading Peter M[...]rine's little note, one would [be] led to assume that if wh[ole]sale cheating was going on [in] his class that Peter could h[ave] been aware of it and d[one] something about it that wo[uld] have been more effective th[an] his note to the **Flambeau**.

Also, the honor court d[id] have the prof's permission [to] enter that class. In the fu[ture] p-l-ee-a-s-e get the fac[ts] straight, for rumor can do FS[U] no good at all.

DON A. REEDY
Junior Honor Court

Alan Whitmarsh

Looked Like Real Basketball Town

Tallahassee almost looked like a basketball town Saturday ...!

With 3,200 fans on the edge of their seats for nearly the ...re 40 minutes, the atmosphere at the FSU-Miami clash might ...e reminded some observers of a good basketball city up north.

Basketball has never caught on in Tallahassee, or in the ...uth in general for that matter, but Miami traditionally draws ... good crowd when they come here.

And the 'Canes usually provide a whale of a game for the ...tators to see.

It was easily this year's largest crowd, and would compare ...rably with the one last year for the gymnasium opener with ... A&M, the largest to see a game in the new gym thus far.

Estimated attendance for the 18 home games last year was ...,000 and with 11 games on the docket this season, that at...endance should easily be surpassed.

We figure that the six home games thus far have drawn over ...,000 though the athletic department does not issue attendance ...ures for basketball games.

...G TEAMS STILL TO COME

Memphis State and Oklahoma City are still on the home ...et and both should draw 3,000 or over. Rollins, Army and ...gia should easily add the additional 5,000 to go over last ... attendance record.

In passing comment on the FSU-Miami game, it seems ob...s that being seven feet tall does not make one a good basket... player.

Despite Bruce Hale's high hopes for him, Hurricane giant ...ck Berghoff has come far below expectations this year at the ...ot position.

Watching Berghoff maneuver Saturday reminded this ob...er of another big man whom Miami brought up two years ... 6-11 Carl Paulus.

Paulus, like Berghoff, just lacked the natural ability, and ...e did little to make up for this lack.

Berghoff shows considerable promise, but his coordination ...r the most part is off. Seminole center Dan Boltz, 6-6, out...bounded the Miami beanstalk, 22-12, and out-maneuvered him ...der the boards most of the night.

At this point, we'd like to interject a few words of praise for ... who has played two of the finest defensive games we've ... a big man play for FSU in four years here, the last two times ...

Danny hauled down 26 rebounds against Stetson Thursday ... and grabbed 22 more against the Hurricanes Saturday, ...e showings in any league.

Boltz also contributed heavily to the defense by blocking ...veral Miami shots Saturday.

Probably his biggest advantage is his size, 225 pounds. He ...eally tough to move out of there once he gets set for a re...nd, as opposing centers feeling their sore spots all year have ...dy discovered.

If he improves some offensively, he will make the Seminoles ...e center. We think he will.

...OUGHEST ROAD TRIP

The 31st of this month, the Seminoles tackle probably the ...est road trip in the cage history of the school.

Beginning with West Virginia, the nation's number one team, ... meet Marshall, Ohio University and Xavier on the remainder ... the four-game trip.

The ruggedness of the West Virginia game speaks for ...self, and a brief synopsis of the other three will illustrate how ...gh this trip will be.

Marshall ranks in the top five in the country in scoring, ... a 8-4 mark as of this writing, and has two men hitting ... than 50% of their shots afield.

Ohio U. is traditionally one of the strongest teams in their ...ference, the Mid-American. They carried a 7-4 mark after ...rday night's games.

Xavier carries a 10-3 record at the moment, and anyone who ...ows anything about midwestern basketball will tell you the ...ncinnati school is annually one of the best.

This trip serves as an excellent opportunity for FSU to put ...al on the basketball map. A good showing in all four games or ... three (a loss to West Virginia is no disgrace no matter by ... many points) will give FSU a favorable reputation in basket... circles.

I believe we have the ball club good enough to win at least ... maybe three on the trip. Time will tell.

CAGE CAPSULES. West Virginia is slated for a Tallahassee ...earance and Memphis State may return.

The Seminoles unfortunately decided to get all their bad ... shooting over with on the same night Saturday . . . Going ... the game 12th ranked in the nation in this department, the ... hit less than 60% from the charity line . . . Fortunately for ... Miami did little better, however.

Gymnasts Rip Ga. Tech, 87-41

Florida State gymnasts opened their regular season Saturday afternoon in Atlanta by winning firsts in all eight events to score an overwhelming 87-41 victory over Georgia Tech.

Three Seminoles won gold medals in two events with Laird Anderson taking a first on the flying rings and winning the rope climb in 3.9 seconds.

Chick Cicio was high scorer with 20 points as the former NCAA free exercise champion scored firsts in free exercise and high bar plus a pair of seconds on the parallel bars and in tumbling.

PREISSER FIRST

Trampolinist Don Priesser copped a first on the tramp and wound up a perfect day with a gold medal tumbling.

Swedish gymnast Larry Malmlin scored in all five events he entered, picking up a first on the parallel bars for a total of 18 points.

The remaining first went to Fernando Leconna on the side horse. Roger Webb scored two thirds in free exercise and flying rings, and added two more points with a fourth in tumbling.

The Tribe's next competition will be a return meet with Georgia Tech on February 8 in Tallahassee.

Intramural News

Greek Intramurals touch football playoffs are underway as six teams qualified for this double elimination tournament.

SN and KA both wound up their season with undefeated slates. ATO and PDT finished with only one loss on their records. DTD ended with a 5-2 season and PKT squeezed into the finals with a 5-3 record.

The playoffs opened on Friday and found ATO pitted against PKT. ATO came through and dropped PKT to the losers bracket, 38-21.

PDT barely edged by KA and handed the KA's their first defeat of the season in a very close 13-12 match.

SN WINS

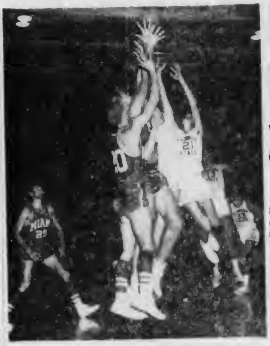
On Saturday, SN dropped ATO 19-13. PDT found tough competition in the DTD, but squeezed by them, 13-12.

Late yesterday found SN facing PDT in the Winners bracket. PKT met DTD and KA faced ATO. This tournament is scheduled to finish up on Thursday.

Action is still being seen in the Dorm-Independent division, with no one team sporting an undefeated record.

The playoffs are scheduled to start in this division on February 7. An unofficial standings chart shows BSU still in the lead with a 10-1 record

BSU	10	1	.910
Penthouse	8	2	.800
Veterans	8	2	.750
AFROTC	8	4	.600
Newman	5	4	.560
CIO	4	4	.500
Magnolia	3	4	.429
Playboys	3	4	.429
Sr Hall	3	5	.375



Flambeau photo: Warren Oerird

REACHING FOR THE BALL are FSU's Dan Boltz and Jim Liteky (21) and Miami's Dick Berghoff and Marty Burdette (20). Boltz won. Other Seminoles are Larry Strom (13) and Burt Deckel (33).

Tankers Await SMU; Maul Georgia, 68-17

The Florida State swimming team resumes their schedule after a fifteen day break for exams when they meet Southern Methodist in a dual match on Jan. 31 in the Women's Gym.

Following the SMU clash the Seminoles will be host to Rice University on Feb. 1, and Texas A&M on Feb. 3 before taking off on an extensive road trip, meeting Birmingham Southern in Birmingham, Ala. on Feb. 4, Kentucky, Feb. 5, in Lexington, Ky. and Ohio University in Athens, Ohio on Feb. 7.

GEORGIA SWAMPED

Last Thursday night the Tribe swamped an undermanned Georgia squad by the tune of 68-17.

The Bulldogs were never in the meet as the Seminoles swept nine out of ten first places, losing only the butterfly event by a scant yard, to gain their tenth consecutive victory over the Georgia mermen.

RECORDS POSTED

School records were posted in the 400 yd medley relay and 200 yd. breaststroke events, being new events this year. In the 200 yd. freestyle Paul Hammond, in his first try at the distance, broke a four year old Seminole record when he beat SEC champ Jim Blankston in his specialty.

The summary:
400 yd medley relay—FSU (Jacobs, Abbott, Wentworth, Fillmore) 4:16.4. 200 yd. freestyle — 1st Hammond (FSU), 2nd, Blankston (Ga.) 3rd, Dyrdahl (Ga.) 2:05.4. 50 yd freestyle—1st, Ray (FSU), 2nd Thatcher (FSU), 3rd Tyre (Ga.) 23.8. Diving—Weeber (FSU), 2—Simpson (FSU), 3— Tillman (Ga.); 200 yd butterfly —Ellis (Ga.) 2—Fillmore (FSU) 3—Koeth (FSU) 2:30.5. 100 yd freestyle Abbott (FSU) 2—Thatcher (FSU) 3—Tyre (Ga.) 2:22.6. 440 yd freestyle—Metz (FSU) 2—Dyrdahl (Ga.) 4:45.1. 200 yd. breaststroke—Cole (FSU) 2—Newell (FSU) 3—Bell (Ga.) 2:41.8. 400 yd freestyle relay—FSU (Thatcher, Glancy, Hammond, Ray)

BASEBALL TOURNEY

Notre Dame, Wisconsin, West Virginia and Florida State will be paired in FSU's third annual invitational baseball tournament here April 4-10, Seminole Coach Danny Litwhiler said last week.

Freshman Quintet Cops 2nd Victory

Florida State's freshman cagers, once again led by Charlie Tinsley, evened their season's record at 2-2 by defeating Georgia Southwestern, 92-70.

Tinsley, a 6-5 center, bucketed 23 points although he sat out most of the second half with the Baby Seminoles enjoying a 20 point spread most of the way.

The Baby Tribe had six men hit for double figures. Bobby Conrad and Bud Whitehead were good for 16 and 13 points respectively.

Leading Georgia's attack were Melvin and Smith who both dropped in 16 points.

Basketballers Face Rough Road Trip

West Virginia Opening Foe

By BEN BALSER
Assistant Sports Editor

The Florida State basketball team, winner in four of its last six games, opens a four-game road trip when it meets the nation's number one team, West Virginia, January 31 at Morgantown, W. Va.

After playing the Mountaineers, the Tribe will clash with Marshall Feb. 1, then move into Ohio where they will meet Ohio University (Feb. 3) and Xavier (Feb. 4).

West Virginia has knocked over 13 opponents so far this season without a single loss. FSU has met West Virginia twice before and the Mountaineers have come out on top both times.

Last season the Seminoles lost 88-54 as Hot Rod Hundley and Co. overpowered the Tribe at Morgantown. Hundley is gone this year but West Virginia has shown it is just as good if not better than last year.

A sure bet for the Southern Conference title, the Mountaineers have also come up with some talented sophomore who are playing like seasoned veterans.

Marshall College, out of Huntington, W. Va., has two men who are listed among the top ten scorers in the country. Hal Greer 6-2, forward, was listed tenth in the country last week.

Greer is rated as a top all-American candidate and topped the Mid-America Conference in shooting accuracy last season with a 53% from the field.

Byrd 6-1, the other forward, was rated fifth in the country last week with a game average of 25.6. Marshall ranks as one of the top five teams in scoring in the county.

OHIO LOSES TOP MEN

Ohio University, another Mid-America Conference team, lost only two men from the squad which compiled a 15-8 mark last season. But it so happens that the two graduates were the top two scorers on the team.

Key men in the Ohio attack are Bob Peters, the team captain, center Dave Scott 6-6, and Howard Joliff 6-6. FSU has never met Ohio University on the court before.

Possibly the strongest independent in the mid-west is Xavier which had a 20-8 record last season. This brilliant record was rewarded with a berth in the National Invitational Tournament at New York.

Corny Freeman 6-5, who was the leading scorer and rebounder last season, and Joe Viviano 6-5, the second leading scorer and rebounder are the top returnees for Xavier.

TRIBE DROPS 'CANES

Seminole reserve forward Jim Savage calmly dropped in two free throws in the closing minutes of the game and these points were to provide the Tribe with a 71-70 win over the Miami Hurricanes

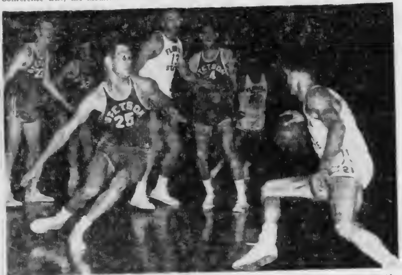
With less then two minutes left in the game Savage was fouled by Joe Munley. He then proceeded to score his only two points of the night and put the Seminoles in the lead 71-68. Munley then swished a set shot to close the margin to 71-70 and that's where it stayed

In the win which brought FSU's record to 6-8, Hugh Durham hit for 20 points to grab scoring honors. Close behind him was Seminole Burt Deckel with 19.

STETSON FALLS

The Stetson Hatters, went down to defeat at the hands of the Seminoles Thursday by the score of 77-60.

Deckel was high scorer with 26 points while Hatter Gene Wells was second highest with 19. Durham hit for 16 tallies followed by Larry Strom and Jim Liteky with 10 apiece.



Flambeau photo Alan David

GETTING READY TO DRIVE is Jim Liteky against Stetson here last Thursday. Tribe won, 77-60.

Campus Notices

Here are the events of the week at FSU beginning today. This calendar week ends February 2, 1958. The events are listed day by day, as follows:

Tuesday, January 21

12 noon. Biochemistry Seminar. L. Sp[illegible]el. "Comparative Biochemistry of the Cytochromes." 306 Science

4 p.m. Meteorology Seminar. Ph[illegible] P. St[illegible]ksel. "The Application of Diffusion Theory to Atmospheric Pollution from a Single Source." 124 Science.

4:30 p.m. Physics Seminar. Prakash C. Sood. "Proton Potential Anomaly in Nuclear Theory." 306 Science

7 p.m. Varsity Debate Squad. 222 History

7:30 p.m. Film Previews. Topics: Music Library Lecture Hall

Wednesday, January 22

Last day of classes in the Fall Semester.

Thursday, January 23

Examinations commence.

10 a.m. Kappa Delta Pi reception honoring interns. Large Lounge, Longmire.

8 p.m. Tallahassee Kennel Club. 1314½ S. Monroe.

Friday, January 24

4 p.m. Chemistry Seminar. Dr. R. H. Johnson. "Radiation Chemistry of the N2-02 System." 306 Science

Sunday, January 26

11 a.m. Unitarian Fellowship. Dr. Edgar Henderson. Unitarian Church.

8 p.m. Reading of a play by Miss Betty Caldwell, sponsored by University Wives Club. 2116 West Randolph Circle

Thursday, January 30

12 noon. Grades for graduating seniors due in the Office of the Registrar.

8 p.m. Play. "No More Homework," presented by the University School for the benefit of the March of Dimes. University School Auditorium.

Friday, January 31

3:30—5:30 p.m. President's Open House, honoring graduating seniors and their guests. President's Home.

4:30 p.m. Faculty Meeting. Opperman Music Hall.

8 p.m. Swimming Meet. FSU vs. SMU. Women's Gymnasium.

Saturday, February 1

All Day. Alumni Association "All Day Coffee" honoring February graduates. Longmire

4 p.m. Conferring of degrees. Speaker will be Dr. Sidney W. Martin, President of Emory University. Westcott Auditorium.

8 p.m. Swimming Meet. FSU vs. Rice. Women's Gymnasium

Sunday, February 2

9 a.m. Residence halls open for new students.

NAVY SATELLITE . . .

(Continued From Page 1)

program does invite progress."

REVIEWS PROGRAM

Dr. Hall reviewed Navy program for an earth satellite vehicle from October, 1945, to 1948, telling the club:

"An early committee study initiated by the Bureau of Aeronautics showed that the prospect for an earth satellite vehicle was sufficient to warrant a detailed study. It was suggested a separate organization be set up to pursue the project. As a result of committee studies about $1,000,000 in exploratory contracts were placed over a three-year period.

"The first of the studies under these contracts, by the California Institute of Technology, confirmed the conclusions of the committee and pointed to success, provided the rocket fuel and engine combination would perform as assured and provided also that assumed structure (mass ratio 9:1) could also be realized.

"Additional research confirmed the original conclusions and virtually assured that an experimental satellite vehicle was technically feasible. This position was reasonably well established during 1946.

FINANCIAL SUPPORT

"Then began an intensive effort to obtain financial support, involving a seemingly endless series of meetings. Early estimates were that $5,000,000 to $8,000,000 would be needed for the first prgoram phase but there were clear indications in the Navy that whatever progress was made would have to be obtained with much less than $5,000,000.

"For this reason overtures were made to the Army Air Force to establish a joint program and the first of several joint meetings was held on March 7, 1946. But whereas the AAF representatives at the conference on March 7 had been receptive, General Curtis LeMay when he reviewed the program for the Air Forces appeared to resent any Navy interest and inquired bluntly what the Navy was doing in this field of [illegible]zation, which so obviously, he maintained, was the province of the AAF.

"The Navy had suggested a civilian agency for the project. Eventually the Navy and Air Force submitted seperate programs to the civilian Research and Development Board.

Graduation List For February

The following is a complete list of the 396 students who are expected to graduate February 1:

SCHOOL OF NURSING

BSNE Anna Jean Acuff, Celia Dillon Blanks, Muriel Christian Crusoe, Florence May Culpan*, Anne Katherine Russ, Dolores M. S[illegible]dwall

BSN Shirley Lorraine Baber, Barbara Ann Tucker

SCHOOL OF BUSINESS

BS Charlotte Rose Abney, Charles E. Al[illegible]on Jr., C[illegible]n F. A[illegible]n Jr., Harold C. Anderson, Russell O. Anderson, Linda Lou Arnold, Geraldine Balthaser, Lowell And[illegible] B[illegible], R. Carroll Barwick Jr., L[illegible] H. Beaty, Richard McMains B[illegible], Bert E. Bobby, Lonnie L. El[illegible], John Neel Bradberry, Charles William Bradshaw, O. C. Brigh[illegible], Pa[illegible] Br[illegible], E[illegible] K. Cain, Lar[illegible] Nelson C[illegible], William Earl C[illegible], Har[illegible], Coleman, William B. Conner Jr., Paul Cory, Earl Cr[illegible], Ja[illegible] Davis, Richard A. Del[illegible], Quintin Duxbury, James C. Fa[illegible], Ronald deMille Fe[illegible], John Frederick Freund, Sanford M[illegible] Futch

Jack Arthur Gow[illegible], Leonard Gl[illegible]hill Jr., Herbert John G[illegible] Jr., Pilton Hend[illegible], Haley James William Hal[illegible], Ed[illegible] A. H[illegible], Melvin S. Hunter, Robert M. Jernigan, Charles Edward Joiner, Wallace Edward Jones, Paul N. Ju[illegible], William Cameron Kilian, Arthur M. Kirchhofer*, Rodney E. Knight, John U[illegible] Landry, Lloyd Frederick Lassen, Ra[illegible] Lecuona, John P. LeGrand Jr., [illegible] C. Lindsey Jr., H[illegible] Dwain M[illegible], K[illegible] D. McKay, John E. McManus, Lewis C[illegible] McMillen, Andrew Jackson McMullian III, David Dean Meador, Arthur Donald M[illegible], Billy Me[illegible]r, Gordon S. Merim[illegible], Joseph Guy Moffa, James Perry M[illegible] Jr., John William Morris Jr., Ray B[illegible] Munroe, Jackie Don Kidd

Frances Neeley, Karl Bernal Nelson, Everett B. Nowlen, Carlos E. Otero-Villardeb, Marion E. Pa[illegible], William Lyle Payne, Gene L. P[illegible], Robert O. Peterson, Jao Jerome P[illegible], Donald Bo[illegible] Ramsey, [illegible]mond Louis Raymond, Jer[illegible] Delbert Reid, Charles Arnold Richardson, Samuel Byrd Rogers, Garrison D. Roth, Ben B. Self, Michael Vincent Shaar, Charles G. Shaw, Barry M. Shoemaker III, Robert L. Shumar, Robert O. Silvey, Francis Ronald Smith

Leonard Bradshaw Southerland Jr., Charl[illegible] Louis Sowell Jr., Platt R. Spencer Jr., Kenneth Van Steele, William B. Stevens*, Bobby E. Sug[illegible], Clyde C. Sumner Jr., Varich Ta[illegible]aphon, David Martin Tiedt, Albert Warren Tier[illegible], Frank Ben[illegible]n Tillett, Patricia H[illegible]ton To[illegible], Frederick S. Tyson, William G. [illegible] Middleworth, Robert Fran[illegible] W[illegible], J[illegible]n Howard Weekl[illegible] Jr., Th[illegible] F. West, James Cooley White, Billy Gene Whitehead, Frances Pinder Wicks, Emory Otto Williams Jr., David L. Young

BA Sara Cannell Welch

SCHOOL OF JOURNALISM

BS Roger L. Burnham, John Cecil Garrett, Billy Grayson Johnson, William Munroe Jr., Charles M. Young

BA Grover Prevatte Ropkins

SCHOOL OF PUBLIC ADMINISTRATION

BS C[illegible] Wheeler Blackwell, Armond R. Cross, Gerald J. Delev, David Bryan Dougl[illegible], Don[illegible] I. Harfafield Sr., George Edward Kirby, Gary Joseph Kissinger, Frederick Stephen McGee, Robert E. Page III, Benjamin Ra[illegible]d Pridgen, W. H. Whale Jr., Richard Ellsworth Wight

SCHOOL OF SOCIAL WELFARE

BS Barbara June Brunson, Barbara L. C[illegible], Reu[illegible] Ra[illegible] Fo[illegible]n, John Ma[illegible]n Gli[illegible], Ph[illegible]is Ann Miller, LaDon E. Pittman, Patricia Nell Revel, Kathryn Ann Richards, Barbara Davis Sherwood, Julie Sutton

BA Judy Br[illegible]on

LIBRARY SCHOOL

BA Constance Irene DeMoully, Sueanne Maxwell Field, Caroline Arden Williams

SCHOOL OF MUSIC

What Happens To Tests? At Last, Story Is Told

Ever wondered what happened to your machine graded test after you turned it in to the professor to be graded?

The Florida State University Test Service is where all machine graded tests are taken to be scored. An IBM machine is fed all the tests, which are back in the hands of the professor within 24 hours after the time received.

Departmental tests are not the only tests scored by the service. The four tests required before graduation — the American Council on Education Psychological Exam and the California Test of Personality which are given during Orientation Week to freshman and transfer students, the General Culture Test given the first semester of the junior year, and the Junior English Exam given to sophomores—are all marked by the bureau.

GRAD EXAMS

Graduate school examinations —the Miller Analogies Test which is strictly for entrance to FSU, and the Graduate Record Examination which is required of all graduate students either before or during enrollment — are two other tests scored by the the IBM machines.

A frequent misconception of people was cleared up by the statement, "We are the organization which administers the tests, but not the one which sets up the requirements. This is done by the university," made by Dr. H. W. Stoker, assistant director of the bureau. Dr. K. F. McLaughlin is director of the service.

SPECIAL TESTING

Special tests are also given by the organization. The University Personnel Office Test given to applicants for work in the university, and the tests for the Coordinator of Counciling Office, are two administered by the service.

The College Entrance Board Examination given to seniors in high school enabling them to enter schools requiring this [illegible] is also given by the bureau.

The Selective Service College Qualification Test (U. S. Government), the Law Admission Test, the Medical Aptitude [illegible] Professional Qualification [illegible] (U. S. Govrnment, and the Florida Merit System Exams [illegible] among the other tests given [illegible] service.

Ballots are counted by [illegible] IBM item counter, used for analysis, during student [illegible]tions.

The University Test Service [illegible] located in room 210 of the [illegible]cation Building.

Sticklers!

TAXI DRIVING, at best, is a *checkered* career. Some days, nothing seems to click—including the meter! Traffic crawls, motor stalls, horns bleat, bumpers meet. What a moment to reach for a Lucky—and discover (horrors!) you're fresh out. That's when the most genial driver turns into a *Crabby Cabby*. And why not? He's missing the best taste going . . . a cigarette that's light as they come. Luckies are all light tobacco—good-tasting tobacco, toasted to taste even better. Try 'em yourself. And step on it!

WHAT IS A TAXI DRIVER WHO RUNS OUT OF LUCKIES?
(SEE PARAGRAPH AT LEFT)
TAXI

DON'T JUST STAND THERE . . .
STICKLE!
MAKE $25

Sticklers are simple riddles with two-word rhyming answers. Both words must have the same number of syllables. (No drawings, please!) We'll shell out $25 for all we use—and for hundreds that never see print. So send stacks of 'em with your name, address, college and class to Happy-Joe-Lucky, Box 67A, Mount Vernon, New York.

FOR INAUGURATION. Art professor Karl Zerbe puts the finishing touches on his painting which will be exhibited at the inauguration of Dr. Robert Strozier a week from Friday.

428 Delegates

Record Number Attending MTNA Convention Here

The second biennial convention of the Southern Division of the Music Teachers National Association, which began Sunday on the Florida State University Campus, has more than doubled the attendance of the previous convention.

According to S. Turner Jones, national executive secretary of the organization who is serving as registrar for the convention, 428 delegates had registered by 10 a.m. Monday, with more expected to arrive before the final sessions Wednesday.

The previous convention, held in Atlanta in 1956, had a registration of slightly less than 200 persons.

EFFICIENT HOSTS

Mrs. Merle Sargent of Miami, divisional president and presiding officer for the convention, said yesterday in her opening remarks before the first assembly that the high enrollment could be "traced directly to the efficient manner of the host group."

Dean Karl Kursteiner of the FSU School of Music is chairman of the local convention committee. The co-chairman is Eugene Crabb, also of the School of Music.

Eight states comprise the Southern Division of MTNA: Alabama, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi and Tennessee.

The program, which was opened Sunday with the performance of several numbers by college students, ended with an 8:15 concert by the Orchestra of the duPont Manual High School of Louisville, Kentucky.

Earlier in the day, the South Mississippi Youth Symphony, of Hattiesburg, Mississippi, presented a concert program under the batons of Frank Crockett and Roger DeGiulian.

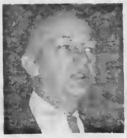
In the Monday morning general assembly, following a performance by the FSU brass choir, under the direction of William Cramer, FSU President Robert M Strozier addressed the group on behalf of the university.

FORMER SINGER

Dr Strozier was introduced by Dean Kursteiner as "a former member of the Emory University Glee Club."

At the convention banquet, which will be held this evening at 7:15 in the Suwanee Room, the conventioners will be addressed by Duane H Haskell, national president of MTNA, and will hear musical presentations by Anna Kaskas, mezzo-soprano on the FSU faculty.

The convention will end tomorrow after the third general session, to be held at 2 p.m. in Opperman Music Hall.



KURSTEINER

No More Excuses For Sicknesses

The University Hospital policy of excusing class cuts durina hospitalization has been discontinued, accordina to hospital officials.

Instead, arrangements will be made between students and professors, with the hospital merely confirming excuses of illness when requested.

TIME CARDS

A portion of the time card, bearing the admission and discharge times, will be issued, as usual, according to Dr DeHart Krans and Hinton F. Bevis, hospital administrator.

The new policy was approved recently by the Council of Deans.

In addition, the infirmary officials announced that classification for limited activity in physical education classes will be handled as formerly by the usual pink cards.

They also said that students with "temporary mild symptoms" not requiring hospitalization, who wish limited activity in physical education or ROTC for that session, should arrange this with the instructor of the class.

Ends Saturday

Advertising Fraternity Sponsoring Ad Week

Another first has been recorded on this campus as the Elon Borton Chapter of Alpha Delta Sigma, national advertising fraternity, became the first college fraternity in the nation to locally sponsor National Advertising Week and the Advertising Federation of America's annual essay contest.

Advertising Week, which started Sunday and ends Saturday, is ordinarily handled by advertising clubs in various cities throughout the nation.

Started in 1949 by Syracuse New York, Dr Royal H. Ray now head of the advertising department at FSU, was co-chairman of the committee in charge of the initial observance of National Advertising Week.

NO AD CLUB

The absence of an advertising club in Tallahassee has hindered promotion of Ad Week in the past; however, the local chapter set up a program which would do credit to many professional advertising men.

Obtaining the support of Tallahassee's advertising media, the chapter, under the leadership of Art Albrecht, chapter president, and faculty advisor Richard Joel who is also national ADS president, spearheaded the movement to spread the theme of this year's program, "America

(Continued On P. 4)

Stroziers To Give Student Reception

The entire student body including wives or husbands of all married students have been invited by Dr. and Mrs. Strozier to a post-inaugural reception.

The reception, the first big social event after the President's inauguration, will be held Sunday, Feb. 23, from 3:30-5:30 p.m.

Buses will shuttle between campus and the President's home from 3:30-5:30 p.m. Stops will be made at Bryan, Landis and West Hall.

Students will assist Mrs. Strozier in giving this reception.

SURROUNDING Governor LeRoy Collins as he proclaims Advertising Week in Florida are: Art Albrecht, president of the local chapter of ADS; Dr Royal H Ray, head of the Department of Advertising and national vice-president of the Advertising Federation of America; Joan Harmon, president of Gamma Alpha Chi; and Professor Richard Joel, national president of Alpha Delta Sigma.

Number Of Burglaries Reported On Campus

Over $1,000, Many Articles Stolen Here

By CHARLET POITEVINT

A wave of stealing on campus culminated this weekend with the breaking and entering of Coach Tom Nugent's office, Assistant Business Manager Gerald Jones told the **Flambeau** yesterday.

Cash totaling at least $1 000 and numerous valuable articles and university office equipment have been reported stolen in the past few months, he said.

Although Coach Tom Nugent's office was ransacked, only about $1.50—stamp money—was missing according to a secretary.

The value went high on items listed as missing by the business office.

STOLEN LIST

Jones listed among the stolen goods over 50 wallets taken from the women's gym, eight to ten cases of stolen hub caps and car batteries, a 21-jewel watch, a Hi Fi set from the Longmire Building Student Lounge, a typewriter unbolted from a desk in the Dining Hall, an adding machine from the Education Building, piano stools from the Music Building, and a $150 trans-atlantic radio from a students' apartment. Also two automobiles were stolen and recovered.

"It is not known for sure if FSU students are responsible for these thefts," Jones said. However, three purses stolen from choir members at a Tallahassee Baptist Church were found near the History Building this week.

POLICE AT STORE

"Because of the seriousness and intensity of the stealing a policeman has been stationed at the University Book Store to protect the large sums of money handled there," the assistant business manager said.

Jones said there has been much adverse criticism from students about the police protection. "I hope students will realize the police are not there because we are doubting their honor, but were stationed there to protect the Book Store."

CITY POLICE

The Tallahassee Police Department is cooperating with Jones' office to catch the offenders. Plants have been made of marked money within the last 30 days in hopes of finding the outlet for the stolen money.

Jones said students should report any unusual happenings if they observe them, and they should protect their belongings by locking doors, etc.

Honor Court has been handling reported cases of stealing in the women's dorms, while the business office and the city police are working on the other cases.

English Exam Dropped, Last One Feb. 18

Following action at the December meeting of the Faculty Senate, the Junior English Exam, formerly required of all students of junior standing or above, has been abolished, Dr. Francis G. Townsend, English Department Head, announced recently.

Dr. Townsend stated, however, that any student who has failed the exam, or who was delinquent in taking it as of December, 1957, must still meet the Junior English requirements.

LAST TIME

The Junior English Examination will be given for the last time in room 202 Graduate School on Saturday, February 15, at 9:30 a.m., and on Tuesday February 18, at 7 p.m. for the benefit of those declared delinquent in their Junior English requirement as of December, 1957, and for those who previously failed the test and wish to retake it.

Any student who has already been declared deficient in English has that deficiency marked on his permanent record and will not be allowed to graduate until he is able to meet the department standards of skill in English.

With the abolition of the Junior English Exam, the Junior English clinic has been replaced by the English Review Clinic, located in 425 History. The FSU Catalog statement concerning English Clinic Requirements has been revised to read as follows:

CATALOGUE CHANGE

"(1) Any instructor of any course may at any time refer a student to the English Review Clinic for remedial work. Such referral will be recorded in the Registrar's Office, and the Department of English must certify that the deficiency leading to the referral has been removed before the student may graduate.

The clinic will decide whether to enroll the student for short courses without credit, meeting perhaps one hour each week for seven weeks, whether to give the student special tutoring, or whether to recommend that he enroll for a regular writing course above the freshman level.

The student's adviser will receive a written report on the recommendations of the English Review Clinic.

VOLUNTARY CLINIC

(2) Any student may volunteer to attend the Clinic. Such voluntary attendance will not be recorded in the Registrar's Office, and the student may discontinue it at any time."

Further changes in the English Department's writing program include the opening of three additional sections of English 100 next fall to provide additional help for entering freshmen who are deficient in English, and the opening, next fall, of an advanced writing course, English 201, Expository Writing.

REMODELING JOB. Construction is progressing in the widening of Westcott Gate, long a traffic bottleneck, to permit two-lane traffic.

Fines Paying Off

Gate Being Widened, Parking Lot Added

The Westcott Gate is getting a face-lifting.

Donated by the class of 1918, the landmark gate provided sufficient clearance for the horse-and-buguy traffic of that era. But in more recent years, something of a bottleneck has tended to result, especially at the end of classes.

So wrecking crews approached the scene, and the destruction is rapidly reaching completion.

The street entering the campus at the point where the gate has stood, will be widened to a full 30 feet—as wide as the moving lanes of traffic on College Avenue. This will allow two-lane traffic in and out of the gates.

ARCH TO STAY

The big arch reading "Florida State University," removed late last week—as well as the brick pillars—have been retained and will be re-incorporated into the new, wider gate to be constructed.

"It's been an expensive operation to preserve the gate in its original form, while compromising with the modern requirements of the university," according to Gerald O. Jones, director of auxiliary units (including traffic.)

G'BYE, PIPE

And the four-inch yellow pipe in the middle of the street, reputed to be unremovable because "It's the center of the universe?"

"I expect it will be removed," Jones said.

In a further run-down of present traffic situations, Jones stated that in excess of 4600 cars are now registered. "We can't over-emphasize the need for immediate registration of new cars on campus—including faculty and staff," he said.

He called attention to the fact that a minimum of 400 additional cars are on campus at this time, owned by delegates to the Music Teachers National Association convention. Every effort is being made to cooperate with the convention, he said, and delegates are requested to park in the Copeland lot.

SCHOLARSHIPS

A total of approximately $600 has been the monthly average derived from traffic fines, Jones reported. At this rate, he said, approximately 25 scholarships of $100 each should be available from the fund for distribution by the Scholarship and Loan Committee.

Another parking lot has been

(Continued On P. 4)

Program Changed

Detroit Symphony Concert Offered Here Thursday

To play a program recently changed by local petition the Detroit Symphony will visit the FSU campus Thursday.

Tickets are now on sale for an 8:15 performance of an overture from "Patrie" by Bizet; "Symphony No. 5" ("Reformation") by Mendelssohn; "Prelude" and "Love-Death" (from the opera "Tristan and Isolde") by Wagner; prelude to "Afternoon of a Faun" by Debussy; and "La Valse" by Ravel.

CHANGED PROGRAM

The Artist Series Committee had planned another program but a petition signed by a group of 400 Tallahasseeans and FSU students and faculty led Special Events Director Kathryn Vernon to write the Detroit Symphony requesting a change.

The program originally planned consisted of the "Overture to La Roi D'Ys" by Lalo; "Symphony in Bb" by Chausson; excerpts from "A Midsummer Night's Dream" by Mendelssohn; and "An American In Paris" by Gershwin.

WANTS FRENCH

Artist Series Committee Chairman Owen Sellers, assistant dean of FSU's music school, said he had favored the originally chosen program because the French selections by Lalo and Chausson were not run-of-the-mill concert numbers.

He also felt they'd be interpreted well as the director of the Detroit Symphony, Paul Paray, is a Frenchman.

Spokesman for the student group was John Bracewell, a student in the School of Music.

The stated reason for the change recommended was that the numbers of Lalo, Chausson, and Gershwin have little depth of composition, something which is to be expected by a university housing a music school of the caliber of Florida State's.

ORCHESTRA HISTORY

Founded in 1943 by industrial chemical magnate Henry R. Reichhold, a Berlin-born amateur violinist, the Detroit orchestra was directed by Karl Kruegar, formerly of Kansas City.

"My Symphony," as Reichhold appropriately nicknamed the Detroit, became his personal hobby.

Fighting almost constantly with his musicians, their union, his board of directors, the newspaper critics, and the public, Reichhold finally tyrannized his symphony and its supporters into disbanding on September 13, 1949.

For two years women's groups in the city tried in vain to raise enough money to re-assemble the orchestra. Then, in the spring of 1951, embarrassed boosters of the city of "motors-but-no-music" talked to Jerome H. Remick, Jr., a music-lover with experience in raising money for big-scale civic projects.

Remick agreed to look into the matter. Soon he had selected John Ford, chairman of the board of the Wyandotte Chemicals Corporation, to lead the campaign.

MILLION BUCKS

After some rapid business negotiations Ford had over a million dollars raised, all from local business firms.

Howard Farington was snaffled from the managership of the Indianapolis Symphony to manage the Detroit Symphony.

Greeted with a million dollars to buy the best orchestra available, Harrington went to work hiring a 92-member group, with Toscanini's NBC Orchestra concertmaster (head violinist) Mischa Mischakoff, who is now probably the highest-paid concertmaster in the world.

Soon the podium position was filled: Frenchman Paul Paray, formerly conductor of the Concerts Colonne in Paris.

Give Plenty Of Scholarship Aid

President Eisenhower's program for federal aid to education and the criticism of its lack of granting funds for school construction show how federal aid is di-vided into two programs.

WHEN SECRETARY Folsom presented Eisenhower's four-year $2,100,000,000 school program (including $600,000,000 in matching funds from states) based on the granting of scholarships to gifted students, it was called "inadequate" and unmindful of the needs of the country by Democratic Senator Morse.

The administration's plan for federal aid to education provides, among other things, for 10,000 scholarships a year for exceptionally able high school graduates and $605,000,000 in federal funds to strengthen the teaching of science and mathematics in public schools.

IT IS CONSIDERED an emergency plan created by the advent of Sputnik. Last year the concern was over crowded school buildings, but this year it is over the need for researchers and technicians in the sciences to enable us to keep up with Russia's achievements.

Along with the criticism of lack of pro-visions to build more classrooms, the ad-ministration's program has been attacked for not requesting enough funds even for scholarships.

SENATOR HILL of Alabama, chairman of the Labor and Public Welfare commit-tee, wants a bill to provide four times as many scholarships, and the National Edu-cation Association contends that a "mas-sive program" of permanent status is needed rather than an emergency booster.

All these programs emphasize the seri-ousness of the school crisis and offer solu-tions limited not only by the size of the budget, but by many highly controversial issues.

..THESE ISSUES include the question of whether federal aid should include pa-rochial and private schools, whether fed-eral aid should be made available to seg-regated schools, and whether federal aid means federal intervention of states' rights.

Already State Superintendent of Pub-lic Instruction Thomas Bailey has ques-tioned any federal assistance which might bring controls over Florida's public school system.

BUT WE MUST return to our original statement that federal aid to the Eisen-hower administration basically means an emergency granting of scholarships, for as Eisenhower stated in his November Okla-homa City Speech the immediate crisis makes the "cutting out or deferring of whole categories" of activities "one of the hardest and most distasteful tasks."

We are not quite willing to claim the administration does not in reality support federal aid to education although it ap-pears that way. (Folsom said its pro-posals for aid to construction have not been abandoned, but deferred.) But we feel any aid which can be had by states should be accepted.

THE CRISIS IS serious—classrooms are badly needed and specialists in the scien-tific field are also needed. When debating how much of the federal budgets should be spent on aid to education, Congress should make sure the basic need for scientific achievement—our future scien-tists—are not neglected. They should take priority.

★ ★ ★ ★ ★

Classes Start With Many Missing

The administration policy of beginning the second semester classes on a Thurs-day is one that needs revision, preferably elimination. We believe that classes could just as easily be started on the following Monday, thus giving the students and faculty four extra days of vacation.

ADMINISTRATION officials have ar-gued that so many days of class attend-ance are necessary in order to meet state and regional accreditation requirements. We hate to keep pointing at our sister state university as an example, but we notice that the University of Florida's classes didn't begin until yesterday. Nor does the U of F extend its classes beyond ours. Rather their classes end before ours do so that their students might have more time to study for finals.

As the University of Florida has the same state and regional accreditation problems that this university has, we fail to see why we must begin second semester classes on a Thursday.

OUR OPINION SEEMS to be borne out by the only half filled classrooms found during the first two days. We would esti-mate that only one half to two thirds of the students returned for classes last Thursday and Friday.

There is not another break in the se-mester schedule until Easter, almost two months away. We think that the admin-istration would be giving the students and faculty a fair break if they had allowed them the two extra days.

★ ★ ★ ★ ★

Students Being Protected

For the last few months students have been disturbed over seeming distrust of their honor without realizing the serious-ness and extent of stealing on campus.

INDICATIONS OF stealing have been seen through complaints of students ob-jecting to rooms being searched. How-ever, we are assured by the Chief Justice of Honor Court that the Court has not abused its right to search students' rooms. It does so with the permission of the oc-cupant and while he or she is present.

Any deviation from this rule is not in accordance with the policies of the Honor Court. Students' objections have there-fore been unfounded unless the Honor Court policies have been misused by dorm officials.

The latest example of resentment is the placing of a policeman in the University Book Store. As Gerald Jones, assistant business manager, states in the story on page one, the policeman is there to pro-tect the large sums of money—not because the administration expects students to steal.

If students are involved in the out-break of stealing, and it is apparent that some are since they have been convicted by the Honor Court, it is a small minority of the student body—perhaps one per cent.

With the knowledge at hand of the seri-ousness of these thefts, students will be glad to know the Honor Court and the administration wish to protect their be-longings, not to imply they are dishonest.

What Gives Here?

'Alcohol?' 'Drinking Or Rubbing?'

By NANCY HANNAFORD

"What are you thinking about?"

"You wouldn't approve."

"Tell me."

"I was thinking I'd love a glass of clear, cool bourbon."

"You're right. I guess I don't approve."

"Now tell me exactly why."

"It just isn't good for you."

"Oh go on. That's purely a matter of opinion. Even if it isn't so red-hot for my liver, it does wonders for my frame of mind."

"And you'd hurt your body to change your frame of mind? Don't you have the will power to govern your own moods?"

"Sometimes no. But that's be-side the point because any way you look at it it's my mind and my body and I should be able to do what I want with it."

"But alcohol can cause such a loss of human dignity. I don't know. It just doesn't go with me."

"Oh gosh. Human dignity bah. We have too much of that. We take ourselves too seriously. But of course that's a matter of per-sonal opinion. The thing that gripes me is that some narrow-minded, self-righteous busybodies have the unadulterated gall to pass laws preventing people from pursuing their happiness as they wish."

"Hey take it easy. Now who's taking things seriously?"

"This is a subject I can get rabid on. You know the Bill of Rights? Remember that little piece of paper? Although eating and drinking habits weren't men-tioned specifically, there was a sort of principle of individual liberty brought up, you know? And remember the Declaration of Independence bit about the right of 'pursuit of happiness'? Unimportant documents, huh? We only built our government around them."

"Just a minute. What about majority rule? We built our government on that too."

"Do you mean to tell me that if a majority in a community wanted to ban freedom of the press it'd be O.K.?"

"That'd never happen, though."

"Heck it wouldn't. What if you got in the majority say a re-ligious group that thought knowl-edge was sinful?"

"Then there'd be the Bill of Rights."

"So simply because intoler-ance of drinking habits wasn't the problem in Thomas Jeffer-son's day it is now. Just be-cause it wasn't put in then, now we have to give up our personal tastes in dining? The principle is the same: individual rights as long as they don't infringe on the rights of others."

"I'm glad you brought that up. Liquor can be bad for the whole community. Look at all the drunkards and alcoholics we have, even now with so many counties dry like Leon."

"Why not kill all teen-agers because of juvenile delinquency? Why not ban all automobiles be-cause of accidents? Drunkards and alcoholics are an obnoxious exception, like there are excep-tions to everything. Millions of people drink every day and don't harm anyone. Whole nations THRIVE on wine or beer or vocka. But because some Southb-ern Baptists interpret the Bible to be against alcohol everyone else in the county has to support the bootleggers to get something they should be able to buy in any grocery store. There was also a mention of freedom of religion in the Bill of Rights. Doesn't that apply to forcing religious be-liefs off on a minority?"

"Your arguments sound good, but I don't know. Alcohol just isn't right."

"WHY?"

"I don't know. It just isn't. Isn't good for you."

"That's my opinion and my choice, though."

"No, not if you don't choose rightly. I have a responsibility to help those who don't know their own best interests."

"No individual, not even a county majority has any respon-sibility for making personal de-cisions for others. Our govern-ment was founded on the prin-ciple that the individual have complete freedom as long as that freedom didn't hurt others."

"And I can't try to help those weak-willed people who don't have the guts to stay away from alcohol?"

"Sure you can do what you want for them individually. But govern the personal habits of an entire county. A thousand mil-lion trillion times NO."

The Pontificator

San Francisco Group Uncivilized Pseudos

By EMMETT JARRETT

We mentioned in our last issue that the only group in the United States which can claim to be in the 'avant garde" tradi-tion is the so-called San Francisco "renaissance." It is now time to clarify this statement and comment on the movement.

CHAPERONED by Kenneth Burke, an aging poet, critic and translator, the group consists mainly of younger writers in their twenties and early thirties. The two most widely publicized mem-bers of the movement are Allen Ginsberg, author of "Howl", a long poem banned by the San Francisco authorities as obscene, and Jack Kerouac, whose new novel, **On the Road**, claims to be a picture of his friends and their way of life and thought.

"Howl" is written intensely, and with a remarkable and welcome sense of rhythm. The long, sonor-ous lines of Walt Whitman appear, together with the influence of Ger-ald Manley Hopkins and Dylan Thomas.

TO OUR DISTINCT regret the content of the poem does not measure up to the form. Couched in language generally found on the walls of public rest rooms, the poem does just what it claims to do—it howls! Ginsberg presents the screams of the victim of the self-inflicted wounds of nihilism, defeatism and purposelessness.

The novel, **On the Road**, has not even the saving grace of fine form.

The philosophy avowed by the San Francisco group is as bad as Ginsberg's style is good. They are rank nihilists, and their chief term is "disaffiliation." They claim to be continually disaffiliating from everything.

CLAIMING THE title of "renais-sance", the West Coast group is anything but a re-birth. It is the death-agony of youngsters who are already old men, and that without the dignity of age. The have nothing in common with the vivac-ity, the "joie de vive," the whole-someness and the wholeness of the Renaissance.

Leslie Woolf Hedley, a West Coast poet and editor, has said that they are mainly "nihilists with a warped sense of Zen." (He refers to the fact that the group dabbles in a pseudo-religion called Zen-Buddhism—not to be confused with the legitimate Eastern re-ligion.) "They're mostly unread, unexperienced uncouth and un-published," and, we might add, with the full weight of the term intended, 'uncivilized! His con-clusion is that "No healthy art can come from this deformity. . .Per-haps it would have been best for all concerned had these people in question gone into burleque, female impersonation, or carnival barking. . . ."

To return to the theme of the "avant garde," we must qualify our statement that the San Fran-cisco group is in the "avant garde" tradition. In that they are doing something new, something which has not been done in the past, and will not (we fervently hope) be repeated in the future, they are "avant gardists." But in the full sense of comprehending the past, realizing the present and creating the futuer—they are far from this. Woe to the society which is thus reflected in its art!

"NOW WE CAN GIVE THEM A *REAL* TEST MISS BABB—YESTER-DAY WAS THEIR 'DEADLINE' FOR WITHDRAWAL FROM CLASSES"

Why Have An Honor System At FSU?

LETTERS to th[e] EDITO[R]

Letters must bear the wri[ter's] name, although not necess[arily] for publication.

TO THE EDITOR:

There is a question that re-curs in my mind in the midst of this "honor system cold war." That is, "Why an honor sys-tem?" More than a few colleges and universities do quite well sans any such codes. I wonder how they get along!

If a student is prone to cheat-ing and illegal procedures I'm quite sure he won't let an honor code stand in his wayward path, and I'll wager the average stu-dent will not report offenders; particularly if the offender is a friend. I believe the majority of students do not resort to unethical tactics to pass exams, but this is not for the sake of an honor code. If one was to survey a number of students, I think a standard report would be "I wouldn't cheat; but I could not turn anyone in." And really, of what use is the pres-ent "system," when five or six instructors monitor a large de-partmental exam?

I hear a lot of conversation referring to our honor system, but I seldom hear anyone de-fend it except those consc[ien]tious members of the H[onor] Court. If we want to be d[emo]cratic we should put i[t to a] vote, and determine if the [stu]dents want an honor system [or] if only the Honor Court m[em]bers approve it.

Perhaps we can abolish [the] present system and replac[e it] with something tangible [that] could sanction our classes [as] a "Monitor System," and [its] officers could consist of a "J[un]ior Gestapo."

Sincerely,
JAMES SNOWDE[N]

Not The System—Lack Of Honor

(Ed. note: This leter was received by Barbara Burk-hardt, Chief Justice of Honor Court, who passed it along to the Flambeau.)

DEAR MISS BURKHARDT:

For what are obvious reasons, I shall not sign my name, but I am a freshman attending this university.

In high school I got very sick of the continuous cheating that went on without anything being done about the problem. Now that we are in college supposedly the poorer class of person has been left behind, but the cheating continues. All the letters written stating that the honor system at this Uni-versity is corrupt is absolutely ridiculous. It is not the system which is corrupt but rather the "lack of honor." I have been discussing with some, who think that there should not be [...] checking of books, studen[ts sit]ting in on exams, ad-infin[itum]. I am afraid that I am n[ot able] to see their side of the [...] if there is cheating going [on] then it must be stopped.

What I have been leadi[ng up] to is this. I feel that your [...] is perfectably justified to [...] and take the upper hand [when] cheating is occuring. Some [stu]dents have said "oh, let [them] cheat, they are only h[urting] themselves, and they wi[ll be] caught some day." Som[eday] isn't soon enough for me [...] them now!

The students who are [con]tinuously cheating are [...] hurting other students be[cause] it is setting a very high c[urve] for the grades.

Sincerely yours,
Gordon, A MALE STUDE[NT]

Senate Described As Mickey Mouse

TO THE EDITOR:

M-I-C-K-E-Y MOUSE

Mickey Mouse, this and no other should be the theme song of the Student Senate. I should know, I'm a Senator, and not too proud of the fact either. I got into Senate through the back door. Not illegally mind you, but very quietly through the back door. I entered to find out if student government was as powerless and weak as most students believe it to be. I felt that maybe I could do some-thing to give the Senate more life and help to accomplish some of the important things that need doing badly.

In matters of any importance the Senate is powerless. They can make decisions on sugges-tion boxes, whether or not to play Elvis Presley's "White Christmas" over the Westcott loud speaker system at Christ-mas, and other picayune topics. On other matters such as the much discussed "horse collar" rule they can pass a resolution. Resolutions of the Student Sen-ate have in the past been re-garded by the administration very lightly, if at all. The se[n]ate can enact no real laws [or] make worthwhile rules [...] not designed and set up [that] way. A modern Senate is [ex]pected to legislate. We only [of]fer suggestions. Do we [...] have a Senate at all? I'll [an]swer my own question. No [we] don't; we have a farce.

It is this state of being [...] powerless by the university [ad]ministration that has ca[used] the Senate to degenerate to [the] calibre of a Wednesday af[ter]noon gathering of campus p[oli]ticians. The fault of Se[nate] does not lie with the se[nate] alone. It is partially a prod[uct] of the general apathy of [the] students who elect the Se[na]tors as their supposed repre[sen]tatives to the administration.

There is one dim hope fo[r the] future and that is our ne[w] and we hope, progressive pr[esi]dent, Robert M Strozier [...] has stated that in the "hor[se] collar" issue he is at least w[ill]ing to cooperate in discus[sing] matters.

Most sincerely,
JOHN VAN BECK
Student Senator?

Movie Coupon Books Not Easy To Get

TO THE EDITOR:

If I understand correctly, not too long ago some members of our student body succeeded in getting special movie prices through the use of coupon books.

I attempted on two different occasions to purchase such books but failed in both in-stances. The reaction to my asking for the coupons indicat-ed that the girl in the ticket office was aware of this item but seldom if ever sold same. She had no coupon books at hand and acted as if this were an unusual request.

These two incidents handled in the same manner brought to my mind the possibility that no opportunity for a price reduc-tion to students was sincerely intended. The approach tak[en] by the theater management [is] perhaps nothing more than [a] delaying action providing ti[me] for students to forget the pr[e]vious gesture.

If this is found to be [so] I sincerely hope someth[ing] drastic is done to remedy [the] farce. However, if I am in er[ror] my apologies are extended [to] those offended but I sinc[ere]ly hope that the coupon bo[oks] will be made easily availa[ble] and that students will take a[d]vantage of the opportun[ity] made possible to them.

Sincerely,
A SCALPED SEMINO[LE]

(Editor's note: Coupon book[s] may be obtained from the man-ager of the Florida Theater.)

Send Education Criticism

TO THE EDITOR

Those interested in the ques-tion of state certification re-quirements for public school tea-chers should take note of a pow-erful committee which will make recommendations concerning mo-difications of present require-ments to the 1959 Florida Legisla-ture. The opinions of those who are dissatisfied with present re-quirements will be given weight by the Senate Interim Comm[it]tee on Education. Construc[tive] criticism, of course, should [be] voiced.

Send letters to either Sena[tor] L. K Edwards, Jr., chairma[n] Interim Committee on Educatio[n] Irvine, Florida; or, Interim Com-mittee on Education, Office of the Secretary, 4349 Irvington Avenue, Jacksonville, Floride.

DUNCAN L. GRAY

Larry Block

Esprit De Corps

The Black Knights of the Hudson have quite a reputation on the gridiron, and judging from their performance Friday night in the game of basketball they're not too bad at that either.

What they seemed to lack in height they made up in speed, aggressiveness and good shooting.

But Army is not by any stretch of the imagination a basketball power, and is regarded as just a mediocre team in the North.

They play mostly teams of their own calibre, such as Siena, Colgate and Yale, and occasionally step out of their class.

But when they play some of the big names of collegiate basketball they get beaten, as was the case when they met Louisville. However, the Cadets lost by only five points.

By defeating the Seminoles, they handed Florida State its ... loss of the season. And for the second straight year the Seminoles will finish with a losing record

It was a game where the Tribe was the better team on paper. ... have excellent outside men, speed and most of all a tremendous advantage.

Pity the poor Cadets who must play teams that have giants under the boards just waiting for rebounds. The Academy will admit any man that measures over 6-6.

Imagine if that was the rule in all colleges.

So they scheduled a game with Florida State which boasts ... men 6-6, and one 6-5, up front. And what do they have to combat this disadvantage, a center that stands 6-5.

So what does he do but end up as the game's top rebounder with 18.

This was a team that would not give up. Behind nine points (or more) during the first half they bounced back. Call it what you like; hustle, spirit, esprit de corps; without it a team doesn't go very far.

A woman behind the scorer's table remarked that Army must be very tired after all that running. The Cadet on my left whispered to me, "They could run like that all night." I'll bet they could too

At the beginning of the season someone said "Pity the poor team when Hugh Durham, Burt Deckel and Jim Liteky get hot in the same game"

That means they must all score 20 points or more. A lot of people are still waiting for that alleged game.

Liteky and Durham had a fair night and Deckel had one of his poorest nights from the floor hitting only three of 17 attempts.

But if the Seminoles are to win, fair nights on the court are not enough Especially when there is no one to pick up the slack A really good basketball player is consistent in his scoring no matter what team he plays True, he might slip in a few games, but those times are few and far between.

There are six games left on the schedule, four of which are to be played on the home court. And two of them represent big games in college basketball.

Tomorrow night Oklahoma City is here, led by 6-10 Hubert Reed, a possible all-American candidate. The other will be here February 18—Memphis State, a big, fast, rugged ball club which edged the Tribe by three points earlier this season.

Perhaps the Seminoles will really play some basketball.

FSU Gymnasts Smother Tech

Florida State's gymnasts continued their dominance over Georgia Tech, as the Seminoles smothered the Yellow Jackets, 82-48 before an appreciataive audience of 1 000 Saturday night in the Men's gymnasium.

Coach Hartley Price's squad swept seven of eight first places, with Larry Malmlin capturing three firsts, while Don Priesser and Laird Anderson won two each.

Malmlin, a 27-year-old sophomore from Stockholm, Sweden, completed his routines with near perfection, edging teammates Chick Cicio in free exercise, Fernando Lecuona on the side horse, and Joe Gusic on parallel bars.

MALMLIN HIGH

The stocky Swede wound up his scoring with a second in tumbling and a fifth on the flying rings to walk away with the all-around title with 27 points

Priesser and Anderson won their third and fourth straight victories over a two dual meet period, with Priesser copping firsts in trampoline and tumbling, and Anderson continuing to dominate the flying rings and rope climb.

Bo Stocks, with 10 points, was the only Yellow Jacket who dented the Tribe's monopoly on scoring with any regularity. The lone Tech standout won a first on the high bar, beating Malmlin.

FSU gymnasts next appear in competition tonight at 8:00 in the men's gym, when the freshman gymnasts, coached by veteran varsity performer Joe Gusic, oppose the varsity under graduate assistant Jack Miles.

Rope climb—1. Anderson, FSU, 4.1 seconds, 2. Ricks, FSU, 4.2 3. Stokes, Tech, 1.6. 4. Reuland, Tech, 5.0 5. Gibson, Tech, 6.6
Free exercise—1. Malmlin, FSU, 2. Cicio, FSU, 3. Webb, FSU, 4. Moore, Tech 5. Smith, Tech
High bar—1 Stokes, Tech, 2. Malmlin, FSU, 3 Lecuona, FSU, 4 Dohig, Tech 5 Cicio, FSU
Trampoline—1 Preisser, FSU 2. Moore, Tech. 3. Stonier, Tech. 4. Reuland, Tech.
Side horse—1 Malmlin, FSU, 2. Lecuona, FSU 3. Cicio, FSU, 4 Stokes, Tech 5. Dohig, Tech
Parallel bars—1 Malmlin, FSU 2. Gusic FSU, 3 Cicio, FSU, 4. Stokes, Tech 5. Dohig, Tech.
Flying rings—1 Anderson, FSU 2. Smith Tech 3 Morris, Tech 4. Webb, FSU 5 Malmlin, FSU
Tumbling—1 Preisser, FSU 2 Malmlin, FSU 3 Webb, 4. Moore, Tech. 5 Morris, Tech.

FLYING HIGH. Larry Strom (13) of FSU and Don DeJardin (21) of Army go high into the air for a jump ball in Friday's game. Tom Garcia (11) and Fred Kaiser (25) look on.

Tribe Cagers Host Okla. City, Rollins

By BEN BALSER
Assistant Sports Editor

With the gloom of five straight losses hanging over their heads, the Florida State basketballers will take on the rugged and highly favored Oklahoma City basketball squad tomorrow night in the Seminole Gym at 8:15.

The Tribe will then play host to a tough downstate rival, the Rollins Tars Thursday night.

Oklahoma City, which has gone to the NCAA playoffs for six straight years, is having a slow year and sports a 10-10 mark. The Chiefs have beaten such teams as Western Kentucky, Tulane, and Houston and Wyoming twice.

The only mutual opponent for the Chiefs and the Seminoles was Memphis State. Oklahoma City was edged by Memphis State 53-50 while the Seminoles lost 59-56 to State.

FSU fans will get a look at possible all-American material in the form of the Chiefs 6-10 center, Hubert Reed. The rangy senior has an average of 24 points per game last season and is close to that so far this year.

ALL-AROUND CENTER

Last week he was 10th in the nation in scoring, 10th in free throws and 9th in rebounding Coach Abe Lemons rates Reed as the finest pivot man in the Mid-West.

Besides Reed at center, the Chiefs will start Leon Griffin and Bill Hanson, both 6-5, at forwards. The probable starters at guard will be Ed McGraw 6-1 and Mike Kelley, 5-9.

Griffen and Hanson are both lettermen with plenty of experience and savvy. Griffen has an average of 13 points per game last season.

McGraw and Kelley are fast and Lemons says they both have fine set shots.

The Seminoles now hold a 6-13 record and with only six games remaining, they have no chance for a winning season It is the second straight losing season for the FSU cagers.

The Tribe's latest defeat came at the hands of the Army Military Academy last Friday night by the score of 71-62.

6-13 RECORD

The Seminoles were leading 32-31 at the half, but the Cadets came back and outscored and outhustled the Seminoles in the second half The game's high scorer was Army's Darryle Kouns who hit for 20 points

The Tribe took top honors in the rebounding department with 59 Strom was top man here with 16. Army nabbed 57 with center Jim Kiosek getting 18.

A road trip through Virginia and Ohio between semesters spelled disaster for the Tribe as they started their current losing streak by dropping four out of four.

On Jan. 31, West Virginia the top team in the nation took advantage of their superior strength and ripped the Seminoles 103-51.

Then Feb. 1, Marshall College of West Virginia led by Hal Greer and Leo Byrd cut loose with full fury and trounced the men of FSU 109-68.

The teams in Ohio had a rougher time with the Seminoles, but still managed to down them. Ohio University beat the Tribe 86-66 on Feb 3 and Xavier downed the Garnet and Gold 76-60, Feb 4

The Florida State freshman basketball team will face South Georgia Junior College Thursday night at 6 p m just before the varsity game with Rollins

Students who plan to attend the basketball games against Oklahoma City Wednesday night and Rollins Thursday should bring their new activity books.

Coupons number two and three will be required respectively for admission

Seminole Swimmers Cop Five Straight

Florida State's swimming team re-established claim as the top tank team in the Southeast after splashing their way to five successive one-sided wins after a loss on Feb. 1 to Southwestern Conference champ SMU.

Adding an early season victory over Georgia, the tankers record now stands at 6-1.

On Feb. 2, the Seminole swimmers opened their winning ways with a 55-29 trouncing of Rice Institute.

The Tribe opened their road trip by donking Birmingham Southern to the tune of 63-15. The Southerners failed to win any first places as the Seminoles broke five Birmingham pool records in gathering their most impressive victory since the tankers held South Carolina to 11 points back in 1950.

The swimmers then traveled to Lexington, Ky where they handed the University of Kentucky a 59-25 setback. Rube Waddell announced his return from the service by winning the 440 and placing second in the 220 The Seminoles then moved over to Louisville where they set four pool records and handed the Cardinals a 57-24 setback

The FSU mermen put on an exhibition meet in Fremont, Ohio, on Feb 6 Fremont is the hometown of head coach "Bim" Stults.

Stults and his men invaded Oberlin College for the final game on the trip. The Ohioans were stonned 59-25 as Florida State completed one of its most successful road jaunts in the nine-year history of the swimming team.

The next meet for the winning Seminoles will be Georgia Tech Saturday night in the Women's Gym

Linksters Rip Wisconsin

Florida State University's golf team picked up where they left off last season by downing Wisconsin 20-7 last weekend at Thomasville, Ga.

Rem Noble of FSU won medal honors with a 73, edging out teammate Bob Shave who shot a 75 despite strong winds, as neither team had a man break par.

Low men for Wisconsin were Jack Allen and Jim Rynnert with 77s.

Allen and Rynnert (Wisc.) defeated Shave and Dave Morris 5 and 4; Don Torpper and Dick Hanscom (FSU) defeated Jeff Ames and Dennis G...hr, 7½ and 1½; Noble and Wayne Timberman (FSU) defeated John Gray and Doug Rasmussen, 8½ and ½.

Shoplifting, Plagiarism

Five More Students Convicted By Court

Honor Court Chief Justice Barbara Burkhardt announced this week the conviction of five students on charges ranging from shoplifting to plagiarism.

The students were convicted in meetings of the court immediately prior to the end of the first semester. Two immediate suspensions were in the list of penalties.

SHOPLIFTING CASE

The first case involved a student who was apprehended while shoplifting in a university establishment. The student was turned in to the court by the manager of the establishment.

The student was found guilty by the court and recommended for immediate suspension.

The second case involved the stealing of money and personal possessions from rooms in a woman's dormitory. Over $100 worth of stolen goods were found in the student's room.

The student admitted guilt and was recommended for immediate suspension from the university.

SAME ESSAYS

Cases three and four arose as the result of identical essays turned in by two students in the same course.

The students turned themselves in for the violation and were found guilty. They received grades of "F" in the course in question and were placed on one semester honor court probation.

The fifth case was reported by three students and was brought before the court on a charge of cheating on a final exam. The student was found guilty, given an "F" in the course, and sentenced to one calendar year honor court probation.

U of C . . .

(Continued From P. 1)

Georgia, before going to Chicago in 1945. He took over his duties as president here last September.

KASKAS TO SING

As special music for the inaugural program Anna Kaskas of the music faculty will sing a selection from the opera "Tannhauser" by Wagner, "Oh, Hall of Song, I Give Thee Greeting." She will be accompanied by John Boda at the piano.

"The Processional" by Marchello, Ramona Cruikshank Beard at the organ, will be played as the delegates file into the auditorium. The program will end with a benediction by the Rev. W. Jeffery Alfriend, rector of St. John's Episcopal Church.

Dr Marian Irish, professor and head of the Department of Political Science, will introduce panelists on the symposium from 2:30 p.m. to 4 p.m. in Westcott.

The final event on the inaugural program that day will be a reception at the home of President and Mrs. Strozier for delegates and guests. This will be from 4:30 to 6:30 p.m.

GATE . . .

(Continued From P. 1.)

constructed behind the Woman's Gym, but it cannot be used at this time due to the condition of the ground "With good weather it should be usable by the end of this month," Jones said

About ten of the spaces will be reserved for Women's Physical Education faculty members, with the other ten spaces unrestricted.

"It is imperative, for the protection of all, that campus traffic regulations be enforced," Jones said. "The regulations will be rigidly enforced from now on," he concluded.

FLORIDA GOVERNOR LeRoy Collins obligingly signs autographs for admiring teenagers after the FSU-Army basketball game Friday night.

Creativity Features Current Art Exhibit

The current Florida State University art exhibition, "Creativity and You," suggests that all of us can be creative, or more creative.

Sponsored by the arts education department, the exhibit includes about 60 photographs and other art works and will be open to the public February 2-23 in the FSU Art Gallery.

Stimulus for the development of all kinds of creative action is to be found in the exhibition, in such diverse fields as science, music, dance, literature, even child psychology.

The exhibition represents cooperative efforts of the FSU arts education faculty, Hugh Hinely, Ralph Hurst, Ivan Johnson, Marylou Kuhn, Paul Masengill, Fred Metzke, Mary Mooty, Juan Schwaltz, Harold Sutton, Edwin Walter, and William Watson have been planning and collecting materials for about three months

In addition to the photographs, many of them taken by Florida State personnel paintings, sculpture and ceramics are included to point up creative evolutions. Of special interest to doodlers will be a painting by Hale Smith, FSU anthropologist. It originated from doodles.

Yvonne Streetman of the FSU audio-visual staff and Richard Parks, Tallahassee free lance photographer, made many of the pictures illustrating creative behavior. Others were loaned by national magazines. A number of drawings by adults and children of the Tallahassee area are included.

The FSU show will be the focal exhibition at the regional conference of the Southeastern Arts Association, scheduled April 6-9 in Tampa and with the theme, "Operational Creativity." After the conference the exhibition will tour several southeastern states.

Advertising

(Continued From P. 1.)

is a better America—thanks to Advertising."

The AFA Essay Contest, now in its twelfth year nationally, was set up by chapter members in the four local high schools on the subject "What Advertising Means To Me."

Posters and pamphlets explaining the contest were printed and distributed to each high school Albrecht and F[illegible] Zcko, treasurer of the fraternity, gave a series of lectures and answered questions in ten classrooms Advertising literature was also compiled and presented to each class as well as the Leon County Library.

STUDENT AWARDS

The contest ended yesterday and cash awards will be presented to the students writing the three top papers in each of the four schools. The city-wide wining entry will be entered in national competition for a grand prize of $500 and an all-expenses-paid trip to the AFA National Convention in Dallas.

Along with considerable publicity on the contest, the Advertising Week program includes newspaper ads, outdoor posters, radio and TV commercials, and downtown window signs and displays. The chapter also recorded commercials on tapes which were distributed to radio stations throughout North Florida.

Seven FSU Profs Given Grants

Seven members of the Florida State University faculty have been awarded research appointments for next summer—the first such appointments to be made by FSU.

According to Dr Werner A. Baum, director of university research, the FSU Research Council has approved the following appointments:

Dr Richard A Bartlett, assistant professor of history, for research on The Great Surveys of the American West, 1867-1879

Dr O. D. Dickerson, associate professor of insurance and real estate, Actuarial and Rate-Making Techniques in Casualty Insurance.

Dr. M V. Holloway, professor of public administration, Council-Manager Government in Florida Cities

Dr. George A Lensen, associate professor of history, A History of Russo-Japanese Relations from 1697 to 1875 (a partial grant, supplemented by the American Philosophical Society).

Dr. Robert L. Plunkett, associate professor of mathematics, Topological Proof of Certain Theorems.

Dr Francis G. Townsend, professor of English, The Religious Essays of Matthew Arnold.

Dr Francis R Walton, professor of classics, Ancient Greek Religion.

Four Debaters Will Attend Mobile Meet

Four debaters from the Florida State University Varsity Squad will attend the Azalea Debate Tournament in Mobile, Ala., on February 14-15.

The four—Suzie Florey and Leanne Reetz on the affirmative team and Jim McIntyre and Jeane Bleichner on the negative team—will discuss the national topic, "Resolved: That the Requirement of Membership in a Labor Organization as a Condition of Employment Should Be Illegal."

Charles Fuller, graduate student in speech, will accompany the team.

Members of the debate squad attended two tournaments on February 7-8 At West Georgia College, in Carrollton, Ga., the team won four of five first places. Members at this tournament were Ben Bryan and Linda Arnow, affirmative side, Graham Stikelether and John Webb, negative.

Two freshman women won superior ratings at the Gulf States Speech Festival, at Mississippi Southern. Judy Webb won her rating in extemporaneous speaking with Rosa Castro's award coming in interpretive reading.

At the festival, the affirmative and Rosa Castro, won five out team, consisting of Patsy Baird of five debates, winning a superior rating.

The negative team members were Miss Webb and Melvin Peters. Tom King, graduate assistant in speech, accompanied the group.

Japanese Prize Winner Offered By Film Club

"Rasho-Mon," Japanese Grand Prize winner at the 1951 Venice Film Festival will be shown tonight by the Florida State University Film Club at 6:30 and 8:40.

A limited number of tickets for this and the five other remaining films offered by the club are on sale at the Westcott Ticket Office for $1.50. All will be held in the University School Auditorium

FROM 8TH CENTURY

"Rasho-Mon" is based upon a modern novel, **In The Forest**, by Akira Akutagawa, but the action apparently occurred in the eighth century. The story of the film revolves around four contradictory accounts of a single violent event.

A merchant and his wife while traveling are accosted by a highwayman. A firewood seller witnesses the crime. Then the actual sequence of events in the crime are related differently by the wife, the witness, the bandit, and a medium speaking for the murdered man.

Each account is enacted. Since no final verdict is offered, the audience is free to draw his own conclusion.

CRITICIZED FIRST

When "Rasho-Mon" was brought to the screen in 1951, critics were at first displeased with it. They regretted the director's "retreat into the past." However, its success at the Film Festival and acclaim outside Japan overcame this criticism.

Acceptance and appreciation of it contributed to the Japanese film industry's effort to expand beyond their familiar "sword plays" (equivalent to American Westerns). "Rasho-Mon" thus became the forerunner of several excellent films to receive wide showing in America.

FILM SERIES

"Rasho-Mon" is another in a series of first-rank foreign and domestic films sponsored yearly by the FSU film club.

This group, composed of students, faculty members and townspeople, elected three new members to its Board of Directors February 2. They are Mrs. Werner Herz, Miss Yvonne Streetman and Dr. Robert Greenberg.

Present members of the Board are Hale Smith, president; [...]win Rubin, treasurer, Mr G[...] Lewis, II; Charles Fairba[...] Jackson Ice, Mrs. Glenn A[...]

Family Weekend Slated Here May 2-4, Featured By Circus

Family weekend has been scheduled for May 2-4 according to Laura Cheek, publicity chairman for the event.

According to Miss Cheek, this will be the first year FSU has sponsored a family weekend of this type. It will take the place of the annual Dad's Day held in the fall semester.

MANY ASPECTS

"The purpose of the event," Miss Cheek said, "is to bring FSU students' families to the campus so that they may see as many aspects of university life as possible."

Various events and entertainments have already been scheduled with committee heads to plan and schedule others.

"The highlight of the weekend will be the FSU Circus performance which will be held Saturday night, May 3," the chairman said. Other events include tours of the campus, a picnic at the Reservation and a baseball game between FSU and University of Florida freshmen teams.

Trophies will be awarded a sorority and fraternity for the most families attending. The dormitories with the most families according to percentage basis will also receive one.

Twelve thousand pamphlets are being printed and will be sent to the families of FSU students and also to the al[...] The pamphlets will describe [...] detail the purpose of fa[...] weekend and the special e[...] planned.

Snow Buries Campus; Result: Pandemonium

Snowball Warfare Breaks Out, Ten-Foot Snowman Erected

While unhappy Chamber of Commerce officials looked on, a record three inches of snow fell on the city of Tallahassee and the Florida State campus Wednesday night and Thursday morning.

No measurable amount of snow had been recorded in this city since 1899, when two inches blanketed the city.

The effect of the white magic on the students was pandemonium.

Observers on College Avenue reported that the snowball warfare was so intense between the Zetas and the Pi Phis that it was ridiculous for an automobile to attempt to use the street for its intended purpose.

Conditions on sorority row similarly resembled a battleground for an Alaskan combat team, while at Florida Hall the girls screamed "throw us snowballs," after the 11 o'clock curfew.

SNOW PEOPLE

Everywhere snowmen were going up. The largest reported was a 16-foot high production by some West Hall men at one of the local drive-ins (with beer cans for eyes).

By noon Thursday, some snowball warfare was still going on, but by that time much of the ammunition had submitted to nature and melted.

A good many snowmen still stood Thursday at noon, but most were rapidly meeting their doom, as missile-guiders ran out of ammunition and the sun took its toll.

In any case, native Floridians will long remember the day it snowed in Tallahassee.

Here are first hand accounts by **Flambeau** staff members of the snow, and what it meant:

A letter home from Nancy Gene Brown:

Yukon, Florida

Dear Mom and Dad:

How's the weather down there? Up here in the Nawth, we're digging out from under the first real-type Florida blizzard.

Don't have time to write much—there's a rash of snow-balls flying around out there and I want to go join up on the Confederate side.

It was real unusual to find a family of snow people this morning out on Landis White (that used to be Landis Green). You know the mud puddles I'm always complaining about? No problem today; they're all frozen and we just ski across.

Didja ever see snow on palm trees? It only happens in sunstruck Florida.

I only have one more comment: Somebody Up There's sure got one healthy case of dandruff.

Your frostbitten daughter,
ngb.

Bucky Canon:

To us South Florida people who only go north during the hot summers, the snow was indeed a miracle to behold. Many were the sights we never thought we'd live to see in the Sunshine State.

A boy with water skis was skiing down the hill beside West Hall.

Snowmen were blooming out all over campus.

Hundreds of men were participating in snowball fights outside the girls' dorms, tossing the cold white missiles at the girls' windows, at passing cars, at girls running for the door to beat the closing deadline, and at each other.

The snow did what nothing else could do. It made us forget our homework, forget any concern for our health, and just go outside and spend a night of unforgotten ecstasy.

It was wonderful!

Charlet Poitevint:

It was the first time I had seen snow too. Real snow that is, that blanketed the ground just like the gooey white frosting on cakes.

Our dorm counselor was excited too. She ran outside to throw snowballs with the girls, who weren't really dressed for the occasion. But they frolicked and frolicked and didn't want to come back inside although it was getting extremely late—past 11 o'clock.

The reason they didn't want to come inside was because several dozen MALES arrived and commenced to have a ball (snow of course) with the femmes.

On the whole everyone acted pretty silly, running around and jumping up and down like it was the first time snow had ever happened.

Well, its all over. The white soft flakes have disintegrated in the warm Florida sun. But while it lasted, I must say that I had never seen so many happy, cheerful people all having a marvelous time. Me too.

Marcy Seitz:

Any Yankee driving casually through Tallahassee Wednesday night would have undoubtedly been amazed at the reaction a few inches of that wonderful white stuff known as snow brought to FSU.

To those of us who are familiar with what brought mass hysteria to the entire campus population, it brought a somewhat different feeling although there were few of us that did not take the opportunity to romp and frolic with the exuberant Southerners.

If between ducking snowballs, dodging well-meaning young men trying to drown you in two inches of snow, and trying to keep from freezing to death from having a large clump of ice wedged down your back, you were overcome with a feeling of nostalgia, do not feel ashamed. You were just responding as every red-blooded American Northerner should do. Norseland is proud of you!

To those of you who came unsuspectingly to the "Land of The Sunshine" for the sunshine: please refrain from marching immediately to the Tallahassee Junior Commerce and demanding your money back. It will comfort you to know that this is the first time in the history of Tallahassee such a horrible mistake has occurred.

And despite various and emphatic discussion to the contrary it is not likely to happen again.

CLOSEUP OF TALLAHASSEE SNOW.

It is to be stated here however, that for your own good and health, do not let your feelings about this phenonema be brought to the surface for it will only serve to mar the innocent joy of our fun-loving classmates, and you may well end up as a large snowman decorating the front of Westcott.

Snow has come to Tallahassee and weather it be for better or worse, here is one Yankee that says, "I'm Glad!"

Alan Whitmarsh:

To an old Yankee who came south to discover a warmer climate nine years ago, this is ridiculous.

The fundamental laws of nature (set up by the Florida Chamber of Commerce) say it cannot, must not, will not and does not snow in Florida—in fact, it's even illegal for the temperature to drop below 70, according to said same laws of nature.

But it snowed.

And 7,000 students came rushing out into the "blizzard," to throw snowballs, build 10-ft. high snowmen, take pictures as fast as possible—and some just to stand there, with the flakes dropping around them, saying: "It's the most beautiful sight in the world."

Martha Veverka:

House meetings in the women's dormitories failed to calm near-hysterical co-eds Wednesday night as snow began to blanket the ground. Large groups of men throwing snow balls and taunts increased the fervor inside the dormitories.

Most of the women were allowed to go out following the meetings.

At Broward Hall the excited residence counselor was dragged in the snow before the exuberant men realized she wasn't another co-ed.

Flambeau Photo: Bob Meier

ONE OF MANY snowmen produced by disbelieving FSU students during Wednesday night's blizzard.

Tabling Amendment Beaten

Senate Postpones Vote On 'Shorts' Resolution

A surprise debate concerning the right of women to wear bermuda shorts highlighted Student Senate meeting Wednesday afternoon.

The debate came on a resolution introduced by Sophomore Senator Ronnie Clark. Final vote on the resolution was postponed until next week.

FAVORS RIGHTS

Clark's resolution proposed that the Senate go on record as favoring the right of women students to wear bermudas on a modified basis.

During the debate Senate defeated a crippling amendment to table the resolution indefinitely made by Senator Jim Apthorp. The vote was 20-8. Such amendments are parliamentary devices designed to kill a resolution permanently.

Apthorp, in defending his amendment, said that he didn't think the entire Senate should take up this matter as it was not one for the men to decide upon.

During the debate Student Body Vice President Jan Kaminis stated that a committee of some leading undergraduate women had been called together by Dean of Women Katherine Warren for the purpose of studying the problem of bermuda shorts and issuing a report to the administration.

Miss Kaminis emphasized that no report would be made by the committee until after President Strozier's inauguration.

Voting to kill the resolution were Senators Manning, Apthorp, Barber, Butler, Highnam, Holt, Mann, and Moreno.

Voting to keep the resolution alive were Senators Clark, Godin, Van Beck, Mickler, Black, Edwards, Husty, Kissenger, Lewis, McGowan, Ramsey, Gordon, Jennings, Wall, Roberts, Sink, Williams, Williamson, and Men's Vice President Muarry.

In other actions the Senate:

Passed a motion by Junior Senator Gordon recommending student government funds for recognition keys for this year's Junior Counselors. They will cost approximately $225.

DEAD DAY

Referred to a committee a resolution recommending that an entire "dead day" be placed between the last day of classes and the first of final examinations. The resolution was introduced by Freshman Senator Don Sink.

The committee will consist of Senators Barbara Yeomans, Pat Manning, and Joe Barber.

Voted to have suggestion boxes placed in dorms and eating places for the purpose of naming the campus streets.

Voted to sponsor a Christmas sing next year.

Heard a report by Senator Pat Mickler stating that she had found out that it is now impossible to give blue stickers to freshman and sophomores in trailer camps.

Received the appointments of Bob Kansky and Vernon Edgar to the West Hall and Graduate Class vacancies.

Received a letter from President Greenfield concerning the repeated absences of several Senators.

'Satellite' Hop Will Feature C-C Taps

Presentation of Cavalier and Cotillion taps will climax the clubs' informal dance tomorrow night from 9 until 12, in the Suwannee Room.

The Jerry Kohler Trio will provide the music for the dance, with Stan DeHart acting as master of ceremonies.

"Various cutouts of vividly painted space objects will be around the Suwannee Room, against a black and white background, to give the atmosphere of the 'Satellite Shuffle' theme," according to Ginny White, Cotillion president and chairman of the decorating committee.

Students can obtain tickets for the dance from Jim Arnold, chairman of the ticket committee, or from any member of the clubs, for $1.

The Cavalier taps, according to Gordon Davis, president, are: Eddie Handerson, Ira Grisson, Jim Colee, Rem Noble, Ray Charles, Fenton Bennett, Doug Taylor, John Del Vecchio, Sal Lanza, Wes Brown, and Bob Sikes.

Blood Bank Here To Be Expanded

Arrangements are being made for the expansion and improvement of the Florida State University blood bank beginning February 25, according to University Hospital officials.

On that date, between 1:30 and 4 p.m., blood donations from students will be received as the beginning of an extended blood bank program.

Under this new plan, any student taking more than three semester hours and any faculty or staff member, as well as the immediate families of students, faculty, and staff, are eligible to receive blood from this supply.

There will be no infirmary charge for the service, but they will request that the recipient secure donors to replace the blood used, according to Hinton F. Bevis, hospital administrator. This will mean a substantial cash saving when blood is needed, he said.

Blood can be secured by contacting the University chaplain, Dr. Edwin Hartz, or his secretary; or, in an emergency, Bevis of the chief physician.

NO BURGLARY REPORTS SINCE MONDAY—JONES

The recent rash of campus burglary has subsided since the **Flambeau's** news release Tuesday, according to Gerald Jones, assistant business manager.

"I have heard no new reports of thefts since Monday afternoon," Jones stated yesterday.

PUBLICITY SERVED

"I think the publicity given to it has served as a possible deterrent," he went on. "The good that such publicity has done outweighs the adverse nature of the situation."

The story was broken first by the **Flambeau** and was carried nationally by both the AP and UP.

According to Jones, local and out-of-town police have made a number of arrests and lined up several suspects, which should lead to the recovery of some of the hub caps and other articles. Some wallets have been found and returned to their owners.

"The Tallahassee police are cooperating with us. They come out any time we call them," Jones said.

CARELESSNESS

"I hope students are being more careful with their belongings," Jones cautioned. "Ninety percent of the thefts were due to carelessness. We know of no case where a student's room has been broken into."

The majority of articles were taken from open lockers in the women's gym. Jones again urged that students lock rooms and lockers when leaving them.

There was some resentment of the policeman stationed in the University Book Store until students learned why he was there.

"We have had nothing but favorable comments (on this measure) after students knew about the situation," Jones said. "There has been some good-natured kidding of the policeman and people throwing up their hands in mock surrender."

NO HONOR DOUBT

"Some people had the idea we doubted their honor, but if this had been so we would not have had a uniformed policeman stationed in full view of everyone. We would have called in a plainclothesman."

If any student has reason to believe he knows where stolen articles are, he is asked to contact Jones in room 104 Westcott.

Articles found should as usual be turned in to the director's office in Longmire.

Rush Is Named New Library Head

The new director of libraries at Florida State University is N. Orwin Rush, who for the past nine years has been director of libraries and professor of library science at the University of Wyoming.

A native of Sapulpa, Okla., he has held positions with the New York Public Library, Colby College and Clark University. From 1947 to 1949 he was executive secretary of the Association of College and Research Librarians.

Rush is the author of several books, including "Rufus Jones' Selected Stories of Native Maine Humor." In 1952-53 he did research in Great Britain under a Fullbright Award.

He and Mrs. Rush are the parents of four children: Barbara Lucille, 19; Donald Nixon, 15; Bradford E., 12, and Susan May, 9.

AN ARTIST'S CONCEPTION of a few scenes from "No Time For Sergeants," showing tonight at Westcott Auditorium.

Lists Accomplishments

Senate Prexy Denies 'Mickey Mouse' Tag

Jan Kaminis, in her capacity of Senate President, defended the Senate on recent charges of being "Mickey Mouse" at the opening of Wednesday's session.

Miss Kaminis said that the term "a 'do nothing' Senate cannot be justified." She went on to say that "7,000 students have the right to be heard," and that the Senate has "been a very effective voice acting as a link between students and administration."

DOESN'T THINK

Concerning charges of Senate powerlessness, she said, "I don't think that any of us would want to be a part of a university where the students ran the university."

At the end of her speech Miss Kaminis summed up the accomplishments of Senate for the fall semester and asked, "I wonder just how minor they are?"

According to Miss Kaminis the Senate accomplishments are:

Passage of five resolutions which have favored (1) removal of the sophomore car ban, (2) removal of "horsecollar" rule, (3) extension of Sunday library hours, (4) removal of the barbed wire, and (5) placing of additional mailboxes on campus.

Of these, Miss Kaminis said the first goal has been accomplished.

Another concrete accomplishment of Senate has been the lowering of theater rates in town.

Investigations of Morrison's and Who's Who, have resulted in improvements. Miss Kaminis continued and presently an investigation of the Honor System is under way.

Later in the meeting Senator John Van Beck elaborated on his letter to Tuesday's **Flambeau**. Van Beck said that his letter "was not intended to be a slam at my colleagues," but "because we are subject to so much administration red tape, I found it unfortunate that we are so frequently blocked."

ODK Meeting Draws From 13 Schools

Delegates from 13 southern schools will gather today on the Florida State University campus for the annual southeastern regional Omicron Delta Kappa convention.

Conventioneers from Florida, Georgia, Alabama, Tennessee, North Carolina, and South Carolina schools will register between 10 a.m and 3 p.m. in Longmire. Approximately 60 delegates are expected to attend.

SMART PRESIDENT

Dr John Smart of the University of Tennessee, regional president, will preside at the sessions.

The Trophy Room at the Student Center will be the scene of the group's first meeting, a banquet, which is to begin at 6.30 p.m. FSU Dean of Students R. R. Oglesby will be the featured speaker of the evening.

Following the banquet, the delegates will attend meetings in the library lecture hall. Smaller group gatherings will meet in library classrooms.

WORKSHOPS HELD

Various workshops will be held, in addition to lectures on leadership and the function of campus leaders.

The convention delegates will be housed in fraternity houses, Longmire Building, and the Hovde House at Woodward and Jefferson Streets.

Bill Cullom is president of the Florida Circle of ODK. Hank McCann, vice president, is in charge of planning the convention. Mr Joe Plant of the Mathematics Department is secretary, and Arnold Greenfield is treasurer.

University Wives Feature Panel

A panel discussion on "How Can We Secure A Proper Balance of Liberal Arts and Professional Education in the Training of Teachers?" will be featured at the February meeting of the American Association of University Wives, February 17, at 7:30 p.m., in the University School Auditorium.

'To Be Or Not To Be?'

At Wednesday night's American Studies lecture Dr. Marian Irish described America's international predicament in the words of Shakespeare. The big question, she said, is: "To be, or not to be?". Professor Irish pointed out that many impersonal factors condition foreign relations, and thus unfortunately we can not control the whole world according to our will.

AT THE SAME TIME. of course, we are faced with many inescapeahle responsibilities. We must make decisions dealing with life and death for the people of the globe. Our policy makers are thus forced into the position of having to play God (or at least Big Brother) with only finite power at their command. Obviously, a great tension is created between the necessity for action and the human limitations of the actors.

If there are impersonal factors condltioning foreign policy which may be beyond the control of the State Department, then certainly there are an equally large number of personal conditioning factors shaping the actions of Mr. Dulles and his associates.

BROTHER DULLES in particular is possessed of a stern Presbyterian conscience, being a nationally prominent layman in that church. He is also an old man by common standards, having been born in 1888. By profession the Secretary of State is a corporation lawyer, politically of course he is a conservative Republican.

Totaling up these factors in combination with the crucial problems facing the U.S., what do we find? Seemingly this is the time for deep thinking, for careful analysis of the facts, for objectivity, for shrewedly calculated and decisive actions, for grasping the diplomatic initiative as it were.

IN CONTRAST TO what seems to be needed, what do we really have? We have a Secretary of State who is extremely prone to moralize and publicly condemn our enemies and the so called "neutrals". We have a Secretary of State who appears to be afraid of bold new policies, and who has been content to inadequately respond to the moves of the U.S.S.R. Too often Mr. Dulles has seemed bound up in past traditions; too often he has pontifically enounced empty words conveying self-righteous attitudes.

THE RESULTS HAVE been dreadful. No matter haw many times Mr. Dulles falsely assures himself that we are in no danger, he is fooling no one except possibly himself. The era of "bomb rattling" is over, for the Russians are now "missile rattling"; and, they do indeed have the missiles to rattle. So crisis follows crisis, danger is compounded daily; but, the Secretary of State seems to feel that he can disregard the warnings of his own State Department and go flying around the world personally attempting to resolve international problems in terms of "right" (his opinion) and "wrong" (other opinions).

The United States must answer the question, "To be, or not to be?", but John Foster Dulles seems more comparable to John Calvin than to Hamlet. Perhaps he should even read up on his Machiavelli.

Jeff Davis Regains Prestige

We notice in the **Christian Science Monitor** that due to the quick and loyal action of Rap. Bob Sikes of North Florida Jefferson Davis was saved from a royal Northern snub.

Jeff's portrait, it seems, which hung on the walls on the office of the Secretary of the Army, had been "demoted" and carried off to the basement storeroom. Rep. Sikes showed his indignation and the picture of the Confederate President was brought upstairs to hang in a corridor with other former Secretaries of War.

To the critics of Jeff Davis' term as President of the Confederacy, may we inject that as War Secretary under President Pierce he initiated many worthwhile reforms. He opposed service seniority rules because they limited the choice for best leadership. He improved weapons, substituting iron for wood in gun carriages, and improved the quality of small-arms ammunition.

We salute Rep. Sikes for saving the dignity of a fine man. In passing, we wonder why the greatest man of the Civil War period, Abranam Lincoln, received so little recognition on his birthday this week.

Professor's Death Is Loss

The death of Dr. Andre Van Assenderp of the political science department is a distinct loss to the university community.

Dr. Van Assenderp's many experiences in the Dutch East Indies, South America, and Holland made him one of the more colorful of campus professors. His vast knowledge of international affairs and foreign governments made him an invaluable asset to the political science department and the university.

Indeed, it is unfortunate that students, present and future, will find the knowledge of this fine man unavailable to them.

It is with sorrow and regret that we acknowledge his passing.

Guest Editoriol

Advertising Is Important

American advertising, a phenomenon of our times, is celebrating its week.

AND, AS THIS greatest consumer country in the world recognizes National Advertising Week, it is most appropriate to consider just what that fabulous profession-craft-industry means to all of us.

It has been said, with considerable accuracy, that advertising is the least understood industry in America. Perhaps this is because advertising has been so busy telling someone else's story. A legend has also grown up—a distorted stereotype of grey flannel suits spouting a language understood only by those in a select circle. Too often, advertising has been portrayed as a never-never land where high-powered individuals spin around aimlessly in a sort of perpetual confusion.

CERTAIN CRITICS tend to deride advertising as sheer wastefulness — something that add unnecessarily to the cost of an item. They're dead wrong. Advertising has sparked the engines of our productive economy, helped elevate our matchless living standard, improved our quality of goods, sharpened competition.

Right there you have one of advertising's main benefits.

As the showcase into which 170,000,000 Americans look daily, advertising is the place where thousands of manufacturers vie for our favors.

LEGITIMATE advertising becomes a virtual guarantee of quality and dependability—a testament in living text to a product's worth.

The products of our farms and factories are moved in a steady stream, thanks, in part, to advertising. By alerting, informing and educating the public, the advertising industry acts as a flexible salesman—creating a consumer demand. Advertising thus serves as an integral part of modern merchandising. The tremendous economic growth of this country is the result of progressive and imaginative business enterprise. The advertising industry has contributed its share to this effort.

THE THEME OF this year's Advertising Week is:

"America is a better America—thanks to advertising."

That's the message, a solid one, that bespeaks the importance of this 20th century science of communications.

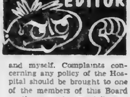
Non-Hospitalization Excuses Stopped



TO THE EDITOR:

An article concerning the naw policy of not issuing excuses for absences from class due to illness as set up by tha Council of Deans for the University Hospital seems to have been misunderstood by some students. During the short period between the time the **Flambeau** was distributed Tuesday morning and the time the regular Cabinet meeting at 4 p.m. the same afternoon I heard several complaints concerning the new policy. The purpose of this letter is to help clarify the issue at hand.

FIRST, let me say that the information contained herein was derived from a conference with the University Hospital Pharmacist, Mr. Hinton F. Bevis, Tuesday afternoon.

It is not the intention of either the Council of Deans or the University Hospital to try to inconvenience students. As was clearly stated in the article, admission slips stating the time of admission and discharge will be issued as in the past.

THE ONLY change is that written excuses for illnesses **which do not require hospitalization** will no longer be issued. Tha Hospital keeps records of the time students report in for treatment, and these records are available to all faculty members. A telephone call by the instructor to the Hospital is all that is necessary to determine whether or not a student was undergoing treatment at the time of any class period.

FOR THE first time in the history of Student Government, a Student-Staff Hospital Policies Board has been functioning. During meetings of this Board, student complaints are aired, and the necessary steps for correction are taken. The members of this Board are: Dr DeHart Krans, Mr. Hinton Bevis, Mrs. R.K Youngblood (Head Nurse), Dean Duxbury (School of Nursing), Glanda Briscoe, Kay Ready, and myself. Complaints concerning any policy of the Hospital should be brought to one of the members of this Board so they can be carefully examined.

Sincerely,
DICK CRAWFORD
Secretary of
Student Welfare

Poetry?

TO THE EDITOR:

Of all the different sorts of guys
There are only two that I despise:
The first I really would like to slam
Is the one who copies from my exam.
The other one's the dirty skunk
Who covers his and lets me flunk!

A STUDENT

Van Beck Has Honest Ideals

TO THE EDITOR:

In regard to the letter to the editor by John Van Beck that appeared in the last issue of the **Flambeau**, I should like to congratulate Mr. Van Beck on having an ample suply of something not often found within the hallowed halls of Student Senate, forthrightness and honest ideals. This, thougb rare in the Wednesday afternoon Longmire Social Club, is to be highly commended.

No doubt Mr. Van Beck will be severely censured, perhaps even ostracised, by his colleagues, but it is vaguely forseeable that some good may come of it. At least it will provide them with an intelligent topic of conversation, and if something is done about the situation, that very pretty (and, no doubt, expensive) Senate room could be used for the Winter Olympics.

Thanks again to Senator Van Beck. If his constituants are wise, as they probably are, he will remain a Senator for quite a while and, after the next campus election, will be joined by more of his calibre.

Sincerely,
STEVE KLEID

ALAN'S AISLE

Hemingway's Novel Surpasses Movie

By ALAN KASS

A recent trend in movieland of late has been the attempt of successful reproductions of best-selling novels into celluloid, with the advertisements praising the faithful picture adaptation of the work from page to picture. It is obvious that if a reviewer has any worth in his evaluation he will write of the picture and not of the book.

NONETHELESS, in almost every instance the critic has tended to, in fact, review the book commenting to the degree to which the film did or did not follow. Very few pictures are able to stand this test. "Island In The Sun" didn't but was profitable since it had a racial theme and Harry Belafonte. The other best-sellers failed due in part to reviews. So a review is in some sections of the land helpful or harmful.

In other words, while millions claim Hemingway as the best novelist in America due to his output and publicity, few actually have read his books. And when it is put on the screen they cannot be as critical as the "intellectuals" who are apt to compare the original with what is seen on the screen.

AFTER VIEWING David O. Selznick's "A Farewell To Arms" it seemed that either Hemingway doesn't sound as good as he reads or simply that his story is dated and hapless. Rock Hudson and Vittorio Di Sica are well cast. This picture certainly brings out the fact that not only is Mr. Hudson handsome and rugged but he can also emote with the best in Hollywood. Jennifer Jones seemed a poor choice for Catherine Barkley not only because she is not very popular with the masses but because she lacks warmth. Only toward the tragic conclusion does she appear real although this is certainly a difficult part for any actress to master.

THE STORY briefly is about an American ambulance worker, who in time of war finds he is passionately in love with a strong, courageous, young nurse. Wounded in battle, be heals and ripens only through his determination for his love, who dies in Switzerland in childbirth. Hemingway wrote of the futility of love and war: this was his theme, his idea, his mood and his message. In the picture except for several scenes unrelated to the plot you fail to notice that a battle is taking place. This is what the picture lacks—the mood of uncertainty and doom.

THE STAR of the picture is the camera and the color. Scene after scene catches the breathtaking grandeur of the Alps and the men fighting in the snow. The all-important retreat from Caporetto is charged with excitement and confusion. The picture makes fine use of the screen and several times rises to fine dramatic heights but this is not enough.

"A Farewell To Arms" is much more enjoyable on paper. On the screen it suffers, but still it is a picture that must be seen. It has marks of brilliance, especially since some of the finest talents in movies have created this picture. The picture falls twenty minutes short of three hours and most of the time you'll be seeing a picture that rises above all of its rivals.

"WELL, LIKE YOU SAID WHEN YA FLUNKED ME OUT OF SCHOOL!—WE CAN'T ALL BE BORN WITH A HIGH I.Q.—I'M JUS' LUCKY I GUESS."

Dear Mama Seminole

DEAR MAMA SEMINOLE,

We write today Mama to ask favor of you. Many changes take place on Seminole Reservation. All new classes with new faces too. This mean that Georgie need new volumes to study. Me know tourist season slow now, but if Mama sell any more blankets, Georgie need more wampum. No can buy hand-me-down books. Think maybe "Mickey Mouse" legislation should hold meeting with book men. Ma bring books home in summer to use for kindling for offering in rain dance. No other use for some of them.

Me need to buy padlocks too. Many Seminoles find things missing. Me no understand system here. On home reservation no rules needed. Art 475 Is Highly Recommended Course

By EMMETT JARRETT

There are good and bad courses in every university. Our[...] no exception. We have found, however, that here at FSU [...] exists a situation in which the limits are reached in both [...] and bad.

WE REFER IN tha first instance to Art 475, taught by Dr. Adolph Karl. This course deals with the painting, sculpture and architecture of Europe and America in the twentieth century.

Dr. Karl makes his course completely fullfill the tile of "art" history. At the beginning of the course the students hear in class the translation from nineteenth century to modern, or twentieth century music. Also there is a discussion of the differences in the literature of the moderns and their forerunners.

THROUGHOUT THE course, the graphic arts of the period are related to the scientific and social ideas which were contemporary with them. The students are expected to read, not only criticism of the graphic arts, but also works concerning the cultural and scientific changes of the twentieth century.

It is no small accomplishment to survey graphic art in the twentieth century, but Dr. Karl does it, and does it completely and brilliantly. He discusses the schools of art and their viewpoints, and presents a vast number of slides illustrating tha work of the artists discussed.

THE COURSE IS recommended by us to any student who is desirous of covering a field of great importance and interest, also to those who would escape the general dullness of university classes.

At the opposite extreme, in our opinion, is the course which deals with tha subject of greatest concern to us. Dealing with a companion art in the same period, English 355 (Twentieth Century Poetry) is as poor as Dr Karl's 475 Art History is good. It is as deficient in merit as the period is full of good poetry.

The instructor spends [...] entire first half of the sem[...]ter on Walt Whitman, Ge[...] Manley Hopkins and f[...] minor poets. Although W[...]man is undoubtedly a g[...] poet, unfortunately he has [...] claim to being a twent[...] century poet, since he died [...] 1892.

THIS WRITER FEELS [...] remainder of the sem[...] should have covered the [...] of twentieth century (? poe[...] that is, from 1900 to the pr[...]ent. In reality it does [...] farther than 1930.

Tha instructor tells the s[...]dents that they cannot und[...]stand T. S. Eliot, the gre[...]est poet of the century, [...] dismisses him with three [...]tures. A few minor poets [...] discussed. (Lectures in c[...] consist of the instructor re[...]ing some poems and becom[...] drippingly sentimental ab[...] them.)

POETS OF SUCH imp[...]ance as W. H. Anden, H[...] Crane, Ezra Pound, Step[...] Spender and Dylan Thomas [...] not considered. Some of th[...] are not even mentioned [...] worth reading.

But there is one poet [...] is adequately treated. Thi[...] Robert Frost. The instru[...] is of the opinion that [...] second-rated provincial ve[...]fier is the greatest poet of [...] twentieth century, and [...] last three weeks of the co[...] are tearfully spent in lectu[...] about him.

AS WE SAID, there are [...] good and the bad. Let us h[...] that in the future courses s[...] as Dr Karl's will predomina[...]

Apologies to Kenneth B[...] for accidentally substitu[...] his name in the last issue [...] that of his distant infe[...] Kenneth Rexroth. A slip of [...] typewriter (and our memory[...])

Senate Seats Need To Be More Coveted

By BUCKY CANON

A letter published in Tuesday's **Flambeau** terming the Stud[...] Senate as "Mickey Mouse" in character has proved to be one [...] the most controversial in quite a while.

THE AUTHOR, John Van Beck a senator from West Hall, charges that tha Senate with being powerless in matters of importance (such as the abolition of the "horsecollar" rule). He further states that Senate resolutions are treated lightly by the administration.

This letter has brought to the public forum a questinn long in the minds of the mora or less disinterested student body. This is the question of how much power Student Senate really does have.

FOR AN ANSWER let's begin by looking at the accomplishments of the Senate for last semester. According to Senate chairman Jan Kaminis these accomplishments were the reduction of movie rates in town, the removal of the sophomore car ban, and improvements in Morrison's and Who's Who.

Of the above, however, it would seem that removal of the car ban was the doing of the administration rather than of the Student Senate and is still only tentative. Also the improvements made (or going to be made) at Morrison's were more the result of Student Government Cabinet and Morrison's efforts than of Senate.

WHO'S WHO hardly affects the average student. The reduction of movie rates is the Senate's only concrete accomplishment for the first half of the year.

Of course Senate has accomplished many minor items. Among these are the placing of suggestion boxes, the naming of campus streets, and the determination of the song to be played over the loudspeaker at Christmas.

These are all necessary items. But is it necessary that items like these take up so much of the Senate's time? Could they not be performed more easily by cabinet or a Senate committee?

SO IT SEEMS that Van Beck[...] charges are pretty well su[...]stantiated. The Senate is deg[...]ding itself to nothing but a glo[...]fied high school student coun[...] when it allows such penny-a[...] matters to take up more [...] a minimum amount of time.

What is the reason for th[...] The answer is that the leade[...] in Senate do not seek more [...]sponsibility. Responsibility n[...] sought will not be granted.

THIS RESPONSIBILITY is [...] sought because there is no [...]mand for it from the stude[...] body in general. The avera[...] student knows very little of w[...] Senate does and cares even le[...] Why? Because he knows th[...] nothing the Senate can do w[...] directly affect him. And [...] course this kind of apathy le[...] to a lack of candidates and [...] lack of voting at student ele[...]tions.

To prove this it can be poi[...]ed out that in the fall electi[...] many of our present Senato[...] ran unopposed and that in t[...] precincts apathy was so gre[...] that there were no candidates [...] all.

THE SOLUTION to the [...]lem lies in increasing student [...]terest in Senate by making t[...] position of Senator a more cov[...]ed one. This could be done [...] making the Senate smaller a[...] election harder.

Secondly, Senate must st[...] taking up such picayune top[...] which can be handled by cab[...]net in a matter of minutes or [...] individuals.

The Senate is capable of han[...]dling bigger, more importa[...] matters. And they can hand[...] them when the leaders of tha[...] body decide to reach out and [...] grasp them.

Only when the Senate shows [...] a willingness to take on the re[...]sponsibilities of the student [...] body's more important problems, will the administration [...] grant them those responsibilities.

Zone Stops Reed, OCU, 57-52

[Lar]ry Block

Education Vs. Bonus

[I]t is now a common occurrence to pick up any sports page of [a] newspaper and read where a major league baseball team has [sign]ed some college ballplayer to a contract.

Last week, the name of Pfil Hunt of Florida State appeared [in] such a story.

When he signed, Hunt had another year of eligibility re[main]ing and another year in which to graduate.

"We would have been very strong down the middle," Lit[whil]er said, "with Owen McCarron in center field, Dick Howser [at] shortstop Hunt at second, four veteran pitchers, and Johnny [...]ard behind the plate. I've been dreaming about this team [for] a long time."

"The primary reason for a ballplayer going to college is for [an] education. Secondary reason is in going into pro ball," he [said].

"A college ballplayer should finish school before entering [profes]sional baseball. There's plenty of time to go to the majors.

"The average age for entering the majors is 23 to 25 and a [...] ballplayer can make the majors in about three years.

"After college most players are 21 or 22, with three or four [years] to make it. And most players start in class B or better.

"When a scout signs a boy while he is still in college as an [under]graduate, he's giving up a lot when he signs that contract. [Footba]ll is not a career, but a means to a career.

"Most college ballplayers will not return to school and finish their education. I believe, though, that Hunt will return [to] school, but, of course, its going to take him longer to com[plete] it."

"We want them to sign, we're proud of it and proud our [train]ing helped to develop them. It's nice to see it happen—but [after] they graduate."

"It makes for better relations with people and definitely re[flects] credit upon the University."

Litwhiler is continually flooded with mail from the major [league] coaches and scouts asking for rosters and schedules of [the] Seminoles so they can come here to look over the team.

"And we want them to come down and look over our ball[play]ers over. Most of them desire to have them complete their [educ]ation and that's the way we like it.

"For one unethical scout, there are 10 good ones and are [willing] to wait."

After the Seminoles competed at Omaha, this same scout [want]ed to sign Hunt for $4,000. Litwhile advised Hunt to wait, [play] another good year, finish school and receive more bonus [money].

"When you give up a college education," said Litwhiler, "the[n you] would have to pay a high price."

[When] asked about when the playing days are over, what then?

"That's the point. After you finish then you have to start [earn]ing a living. That question never bothered me because I [had] a college degree. With education I knew I had a job.

"I knew Hunt might sign, but I actually found out when I [saw it] in the paper. If I had known I would have lined up other [clubs] that were interested in him, but were holding off until he [gradu]ated. And if someone else is going to sign a player then [I] want a chance to bid also.

"I'm happy he was able to sign for over $15,000, especially [sinc]e it was the same scout that tried to get him for less. Not [bad] for waiting six months.

"But I just don't think the scouts should do it."

On Campus with Max Shulman

(By the Author of "Rally Round the Flag, Boys!" and "Barefoot Boy with Cheek.")

BE IT EVER SO HUMBLE

Today let us apply the hot white light of sustained thinking to the greatest single problem besetting American colleges. I refer, of course, to homesickness.

It is enough to rend the heart, walking along a campus at night and listening to entire dormitories sobbing themselves to sleep. And in the morning when the poor, lorn students rise from their tear-stained pallets and refuse their breakfasts and stumble off to class, their lips trembling, their eyelids gritty, it is enough to turn the bones to aspic.

What can be done to overcome homesickness? Well sir, the obvious solution is for the student to put his home on rollers and bring it to college with him. This, however, presents three serious problems:

1) It is likely to play hob with your wine cellar; many wines, as we all know, will not travel.

...the little matter of getting your house through the Holland Tunnel

2) There is the matter of getting your house through the Holland Tunnel, which has a clearance of only 14 feet, 8 inches. This, of course, is ample for ranch houses, but quite impossible for Cape Cods, Georgians, and Saltboxes, and I, for one, think it would be a flagrant injustice to deny higher education to students from Cape Cod, Georgia, and Saltbox.

3) There is the question of public utilities. Your house—and, of course, all the other houses in your town—has wires leading to the municipal power plant, pipes leading to the municipal water supply and gas main. So you will find when you start rolling your house to college that you are, willy-nilly, dragging all the other houses in town with you. This will result in gross population shifts and will make the Bureau of the Census cross as bears.

No, I'm afraid that taking your house to college is not feasible. The thing to do, then, is to make your campus lodgings as close a replica of your home as possible.

Adorn your quarters with familiar objects, things that will constantly remind you of home. Your brother Sam, for instance. Or your citizenship papers. Or a carton of Marlboros.

There is nothing like Marlboros, dear friends, to make you feel completely at home. They're so easy, so friendly, so welcome, so likable. The filter is great. The flavor is marvelous. The Flip-Top Box is wonderful. The tattoo is optional.

Decorating your diggings with familiar objects is an excellent remedy for homesickness, but it is not without its hazards. Take, for instance, the case of Tignor Sigafoos and Estabrook Raunch who were assigned to share a room last fall in the freshman dorm.

Tignor, an ice-skating addict from Minnesota, brought with him 44 barrels over which he had jumped the previous winter to win the Minnesota Jumping-Over-Barrels Championship. Estabrook, a history major from Massachusetts, brought Plymouth Rock.

Well sir, there was simply not enough room for 44 barrels and Plymouth Rock too. Tignor and Estabrook fell into such a violent quarrel that the entire dorm was kept awake for twelve days and twelve nights. Finally the Dean of Men was called in to adjudicate the dispute. He listened carefully to both sides of the argument, then took Tignor and Estabrook and pierced their ears and sold them to gypsies. © 1958, Max Shulman

• • •

And now all is quiet in the dorm, and everyone sits in peace and smokes his Marlboros, whose makers bring you this column throughout the school year.

Tankers Face Georgia Tech Here Tomorrow

The Seminole swimmers go after their sixth consecutive win of the season tomorrow night when they square off in a revenge meet against Georgia Tech at 8 p.m. in the Women's Gym.

The Yellow Jackets handed the Tribe a 46-40 dunking last year, one of three such the Seminoles felt while winning nine.

The overall picture against Tech stands 7-1 in favor of FSU.

After completing one of the most successful road trips in recent Florida State swimming history, winning five straight and holding their closest opponent to no more than two first places out of ten, the Seminoles loom as a slight favorite.

WADDELL RETURNS

Back to help the tankers is service returnee Rube Waddell who is figured to add strength in the distance freestyles. Waddell picked up three first places and added a second place on the road trip.

FSU head coach "Bim" Stults said, "We are now in pretty good shape physically and should be in top form tomorrow night."

Stults will be counting on stalwarts Joel Jacobs, "Beaver" Ray, Paul Hammond and Ken Abbott to carry the load in the revenge match.

These men are all outstanding in a different way according to Stults' opinion: Joel Jacobs, one of the team's top performers, he is a breaststroke specialist . . . he may achieve national rating this year in his event. Ryan "Beaver" Ray, is the Seminoles' leading sprint man . . undefeated in the 50-yard freestyle in two years . . . holds the school record in the event.

Paul Hammond is the leading man in the 100-yard freestyle . . . counted on heavily for lots of points. Ken Abbott, probably the Tribe's most versatile swimmer. Bob Webber, an all-American high school diver . . . a sophomore who has potential to be among best in the nation.

Flambeau Photo: Warren Gerard.

OFF THE BOARDS. Hub Reed (99), OCU's 6-10 center, leaps up to grab a rebound as Dan Boltz (15) tries vainly to outjump him. Seminoles upset Chiefs, 57-52.

Gymnastics Team Defends Florida AAU Title At Hialeah

Florida State's gymnasts seek to defend their South Florida AAU crown tomorrow night at Hialeah, Florida.

The meet will be held in the Hialeah High School Gymnasium.

Coach Hartley Price and his squad of five men will also conduct clinics and demonstrations prior to the meet for visiting coaches and gymnasts.

The gymnasts include Tom O'Connor, transfer from Michigan, freshman Dave Carmolli, Jim McEcherman, and Bill Beavers who will all be competing for FSU for the first time.

Chick Cicio is the only varsity performer making the trip.

Among the high school coaches who have men entered in the meet will be Carmen and Joe Regna, Dick Gutting, Pat Signorelli, and Ronnie Amster, all of whom were members of Dr. Price's national championship teams.

In a dual meet Tuesday night, the varsity defeated the freshmen and transfers, 88-50.

Larry Malmin and Cicio tied for high point honors with 21 each. First places for the frosh went to O'Connor on flying rings and Beavers on side horse.

Beavers with a first, second and fourth was high point man for the frosh with 12 points.

Frosh Quintet Battles Gators

The Florida State frosh basketball team which has amassed one of the best records in history will meet the University of Florida freshman team tomorrow night in the Seminole Gym at 8 p.m.

Up to last night's game against South Georgia Junior College the baby cagers had a 4-2 record.

Coach Jim Oler will probably start his usual five consisting of Charlie Tinsley, John Daniels, Bill Archer, Bud Whitehead and Bob Conrad.

The baby Gators whipped the Tribe in Gainesville, 84-63 in an early season game. Lou Merchant and Bob Shiver have led the Florida five this season.

The baby Seminoles defeated Chippola, 70-65 Monday night.

Five SEC Squads Included On Netter's Spring Schedule

A 13-match home schedule that includes meeting with five Southeastern Conference teams and two members of the Big Ten highlight Florida State's 1958 tennis schedule.

FSU Coach Keith Pitchford said the Seminoles will play a 17-match schedule, only four of them away from home.

The Seminole netters open against Georgia here March 19. Other SEC opponents are Florida, Georgia Tech, Mississippi State, and Louisiana State. Michigan State and Indiana of the Big Ten also will appear in Tallahassee.

Junior Lex Hester of Neptune Beach heads a list of returning veterans from the 1957 team that posted a 5-11 mark. Heater has improved steadily and figures as the Seminole's No. 1 player.

Other returnees are Frank Bryan, Sumter, S. C.; Jim Maddock, Fort Lauderdale, and Jackie Crew, Bainbridge, Ga. Service returnee Dave Barry is expected to bolster Seminole hopes.

March 19—Georgia at Tallahassee; 22—Georgia Tech at Tallahassee, 27—Michigan State at Tallahassee! 28—Jacksonville State at Tallahassee; 31—Howard at Tallahassee.

April 2—Indiana at Tallahassee; 3—Florida at Tallahassee; 4—Mississippi State at Tallahassee, 5—Louisiana State at Tallahassee; 8—Rollins at Tallahassee; 9—Murray State at Tallahassee; 10—Florida at Gainesville; 13—Mercer at Tallahassee; 19—Stetson at Tallahassee; 24—Georgia at Athens, Ga.; 25—Georgia Tech at Atlanta, Ga.; 26—Mercer at Macon, Ga.

Outfielder Martin Lost For 6 Weeks

Nell Martin, Florida State's promising outfielder from St. Petersburg, will be out for about six weeks with a fractured leg, Seminole Coach Danny Litwhiler said today.

Litwhiler said Martin, a heavy-hitting lefthander, turned an ankle while running during practice. X-rays revealed a hairline fracture of a small bone just above the ankle.

Martin compiled a 400 batting average with 25 runs-batted-in for the FSU freshman nine last spring. He was a strong candidate for a starting left field position this season.

Litwhiler said Martin's leg will be in a cast for about four weeks, and it will require at least two additional weeks for him to round into playing form.

Football Practice To Open Monday

Fourteen lettermen will be among the players that don football togs Monday for the beginning of Spring football practice.

There will be approximately 20 lettermen missing from last year's squad through graduation and because of scholastic difficulties.

Heading the returning letterman will be Bob Renn, Al Ulmer and Joe Majors. Besides the lettermen, there will also be a group of red shirts who will be eligible in the fall. This group includes quarterback Vic Prinzi, guard Leo Baggett and end Tony Romeo.

The 20 days of actual practice will be climaxed by the annual Garnet and Gold intrasquad game which will be played in the early part of March.

Victory Snaps Five Game Losing Streak For Cagers

By BEN BALSER
Assistant Sports Editor

With four men hitting in double figures and the use of a zone defense, Florida State's basketball team snapped a five game losing streak by downing Oklahoma City 57-52 Wednesday in the Seminole Gym.

Burt Deckel was the game's high scorer with 16 points. Behind him were Hugh Durham with 15, and Larry Strom and Dan Boltz with 11 apiece.

Hub Reed, Oklahoma City's potential all-American, was held to 15 points, the lowest he has scored this season. Up to this game he had 25 point average. His season's total is now 542.

For the first time this season, the Seminoles used a zone defense which held the scoring throughout the game. The Chiefs used a zone briefly, but switched to a man to man defense with the 6-10 Reed guarded by 6-6 Boltz and 6-5 Deckel most of the night.

In spite of this, Boltz had his best night of the year and got just as many rebounds as Reed, which was 12.

FACED ROLLINS

The loss brought the Chief's record to 10-12 while the Seminoles upped their mark to 7-13. The Tribe played Rollins last night.

Oklahoma took an early lead and held it throughout most of the first half although the Seminoles put on a rush in the closing minutes to close the score to 31-28 in favor of OCU at halftime.

FSU took the lead after the half but the margin see-sawed back and forth and at one time, the Chiefs had a four point lead. Just before fouling out, Strom swished one to put the Tribe ahead 49-48.

From that point on, the Tribe held the lead and pulled ahead by five points with less than four minutes remaining. Oklahoma City employed a full court press with two minutes left, but the FSU attack did not falter.

GOOD SECOND HALF

Florida State outscored the Chiefs 29-21 in the second half.

The Seminoles topped OCU in most of the departments. They made 22 field goals as compared to 20 by the Chiefs. Strom and Boltz got 12 rebounds apiece to help the Tribe gain a 46-41 margin in that category.

The visitors hit on 12 of 16 free throw attempts for a 750 average, while FSU made 11 out of 17 trys for a 647 percentage. Reed, who leads the nation in free throws, sank seven out of seven.

The Seminoles next contest will be played here Tuesday night against the rugged five from Memphis State.

FLORIDA STATE BASKETBALL STATISTICS

(Twenty-Game Summaries)

	FG	FT	Pts.	Avg.
Burt Deckel	177	76	330	16.5
Hugh Durham	96	105	297	15.8
Jim Liteky	87	70	244	12.2
Larry Strom	87	40	20[illegible]	10.2
Danny Boltz	43	23	109	5.5
Tom Garcia	24	24	72	4.2

Others	8	8	0	0.0
Totals	301	389	1351	67.6

'Mural Track Begins Today

Despite yesterday's "blizzard" and today's below normal temperatures, the 1958 Intramural track meet will open at Florida High field this afternoon at 4 p.m.

Preliminaries will be held today with the finals being held Monday afternoon. Both Greek and Dorm-Independent division teams will compete at the same time.

Last season's rules will be in effect and no track shoes will be allowed. All of the regulation events will be run, with the exception of the high hurdles.

VOLLEYBALL, BOWLING

Intramural volleyball and bowling competition will open next Wednesday, with the usual Greek teams participating and eight Dorm-Independent teams competing.

Two new teams have entered the Dorm-Independent division. The Physical Education Majors Club are sponsoring a team and PEK, a physical education honorary, are entering intramural competition for the first time.

Tomorrow afternoon finds Phi Delta Theta and Sigma Nu battling for the Greek Intramural touch football crown. Each of these teams have one loss marked against them during the playoffs.

Veterans Club made a comeback in the Dorm-Independent Touch Football playoffs by defeating Newman Club Wednesday afternoon, 32-13.

VETS IN FINAL

This win gave the Vets a chance to meet BSU in the finals. BSU dropped the Veterans in the first round of play, 31-19.

The finals will be played this afternoon at 4 p.m. If BSU wins today's game they will be the uncontested champions, but if the Veterans win, another game will have to be played as this is a double elimination tournament.

Hall, Withycombe Featured

Defense Security Program Monday

Defense Security, a subject recently in the news, will be discussed in a program sponsored by the FSU Journalism Club Monday at 7:30 p.m. in the Library Lecture Hall.

Two FSU professors, Dr. Harvey Hall, head of the department of Physics, and Colonel Howard Withycombe, professor of Air Science, will act as panelists on the program.

PAUL WILDER

Paul Wilder, a Tampa Tribune newspaperman who recently covered the Cape Canaveral missile launchings, and a representative from the State Department will complete the panel.

Withycombe Hall

Dr. Hall came to FSU December 1 from his job as director of Naval Research. Previously he was a professor of physics at the University of Southern California and at the College of the City of New York.

Dr. Hall received his doctorate and his master's at the University of California at Berkeley. He belongs to the American Physical Society, the Academy of Sciences, Phi Beta Kappa, Pi Mu Epsilon, and Sigma Chi.

MUCH TRAVELED

Colonel Withycombe served in the Air Force in India, China, France and Germany, receiving the Distinguished Flying Cross, the Air Medal and two Chinese decorations. He received an AB in economics and business administration from San Jose State College in 1939. Previously, he served in Sebring and Homestead, Florida.

Special guests include members of the Tallahassee Press Club and members of the FSU Journalism Faculty.

Albrecht New Prexy Of Ad Fraternity

Newly elected officers of the Elon Borton Chapter of Alpha Delta Sigma, national advertising fraternity, are: Art Albrecht, president; Bill Pace, vice-president, Claude Grizzard, III, secretary; and Fehmi Zeko, treasurer.

Open Sessions For Racial Probe Group

Meeting at the State Capitol, the Florida legislature's racial investigating committee held open sessions in Tallahassee Monday and Tuesday of this week.

Chief witness at the first session was J. B. Matthews, nationally known investigator, who charged in Washington that the largest group of Communist supporters in the United States consists of Protestant ministers. Matthews outlined the program for the committee.

Chief counsel Mark Hawes questioned witnesses at the Tuesday session, and entered the testimony of Mrs. Sylvia Crouch, former high ranking member of the American Communist Party. The deposition presented names of organizations and individuals in Florida who were Communists, Communists organizations or Communist fronts.

State Senator Bart Knight of Blountstown, who early in January charged that three FSU professors were behind the organization of the NAACP in Florida, declined to say who the professors were. In answer to a question concerning whether the professor would be subpoenaed by the committee, Knight said, "That I don't know at this time." He declined further comment.

The committee subpoenaed the records of the Tallahassee Council on Human Relations at the Tuesday session. James S. Shaw, a Tallahassee businessman, who is the treasurer of the organization, submitted the financial records of the council under protest. The committee voted not to allow Shaw to make a statement after an hour of deliberation.

Committee hearings in Tallahassee ended Tuesday. The committee will resume its work in Miami at the end of this month.

Gallery Gets $7500 Work

A Delacroix painting valued at $7500 is the first permanent acquisition for the University Gallery, the gift of an anonymous donor, according to President Robert M. Strozier.

The painting was presented to the university as a result of a trip to New York last week by Dr. James V. McDonough, head of the department of art and director of the University Gallery.

The 16 by 13 inch oil will hang first in the University Library and will be on display during the inaugural ceremonies February 21, when Dr. Strozier is officially inducted into office.

The painting is entitled "Orpheus Appealing to Pluto." Orpheus, playing on his lyre, appeals to Pluto, god of the underworld, for the release of his wife, Eurydice.

"Eugene Delacroix (1798-1863), who painted the work about 1838, was the founder of the French Romantic school of painting, Dr. McDonough said. Many of his works, including "The Barque of Dante" and "The Massacre at Scio," hang in the Louvre.

Murals by Delacroix are in the Library of the Chamber of Deputies in Paris, the Gallery of Apollo in the Louvre, and the Library of the Luxembourg Palace.

TRADITIONAL VALENTINE—One of these freshman coeds will be chosen Sweetheart of Jennie Murphree, but her identity will not be announced until the campus valentine dance tomorrow night, from 9-12. Left to right are Brenda McCampbell, Elaine Eisinger, Sandra Harris, Jackie Neher and Suusan Breese. The five and then the finalist are chosen by vote of the entire freshman dormitory.

Gymnastics Coach

Price Receives Grant To Indian College

Dr. Hartley Price, Florida State University gym coach and Gymkana director, has been awarded a Fulbright grant by the State Department to a north central Indian college.

Dr. Price will leave during the summer to remain for nine months at Lakshmibai College of Physical Education, Gwalior, Madhya Pardesh, India. He will teach physical education with the purpose of developing a gymnastics program in India.

One of the nation's foremost gym coaches, Dr. Price has coached more national gymnastic champions (50) than any other coach. He has also directed teams which have won 11 national team championships.

A native of Australia, Dr. Price coached four NCAA team champions and two NAAU team champions during 21 years at the University of Illinois. He has served on several Olympic committees.

Before coming to FSU in 1948, Dr. Price served in various capacities at the University of Illinois including director of varsity gymnastics and director of intramural and recreational sports. He is a graduate of Springfield College with a master's degree from Illinois and a doctor's degree from New York University.

The author of many professional articles, he wrote the handbook on gymnastics and tumbling for the Naval Air Force while in the service during World War II. He also served as coordinator for the NAF gymnastics program.

Speakers Talk In Civic Clubs

The Student Speaker's Bureau will soon send students from the Florida State University to speak in various civic clubs throughout the state, Joyce Combs, head of the bureau, announced this week.

Sponsored by student government, the bureau will give speakers an all-expense paid trip to the cities of Florida in which they are to speak.

Any student is eligible to participate in the program. Interested persons should contact Miss Combs at the Zeta Tau Alpha House or through the Student Body President's office.

The purpose of the talks is to present an informative program to better acquaint the citizens of Florida with the university by explaining its functions and services.

Last year 37 students visited 22 clubs in all parts of the state. Receiving student speakers were Kiwanis, Lions, Optimist and Rotary clubs.

This year the bureau is planning to send an even larger number of students.

Poll Scheduled On Honor System

A partial report of the Honor System Investigating Committee was presented to Senate Wednesday by Freshman Senator Don Sink, chairman of that committee.

According to Sink, the Student Government Honor Committee is drawing up a poll. The poll, which may be taken in conjunction with the Sociology Department, will question the student body on their preferences of Honor System procedure.

The exact nature of the poll is not yet known, Sink said.

When asked by Senator Ronnie Clark as to whether the poll will contain a question regarding the abolishment of the Honor System, Sink replied, "I don't think that anyone is in favor of doing away with the Honor System completely."

Campus Notices

Approximately 425 balcony tickets for the February 21 inaugural convocation of President Strozier are available to faculty wives, staff members and students at the Westcott ticket booth today from 8 to 4 p.m. Due to the limited space in the auditorium only one ticket per family is available.

NOTICE TO TEACHING SCHOLARSHIP APPLICANTS — The examinations will be held March 18 in the Suwannee Room. Applications may be secured in Room 215, Education Building. Legal residents of Florida and students preparing to teach in Florida public schools are eligible to receive these scholarships.

NOTICE TO FUTURE TEACHERS—Mrs. Elizabeth Titus will be on campus Monday and Tuesday in the lobby of the Seminole Dining Hall to display grade teacher materials.

Dr. Meyer F. Nimkoff, head of the department of sociology, is the speaker for Sunday morning's services of the Unitarian Fellowship. His subject is "Religion in the Family." The Fellowship meets regularly every Sunday in its new chapel at 936 Wildwood drive.

Vol. XLIV, No. 30 — Published By The Students Of Florida State University — Tuesday, February 18, 1958

SEWER PATROL On The Prowl (Story, P. 4)

Cadets Defend Title At FSU Debate Tourney

The ninth annual Florida State University Invitational Debate Tournament begins Thursday with teams from 24 schools representing seven states in attendance.

The United States Military Academy which swept last year's tourney, will again be in the competition, with three highly rated teams appearing who were not in last year's tournament: Emory, Miami, and the University of Florida.

FSU and Mercer College of Macon, Georgia, finished in a tie behind West Point for the overall "Sweepstakes" title in last year's meet.

NEW STYLE

The tournament will feature an innovation in debate technique during the last two rounds, when a newly-devised "court-room" debate style will be used.

The court-room debates will have the usual number of two persons to a team, but will have one of the debaters cast in the role of lawyer and the other in the role of the witness.

The affirmative team will open [illegible] minutes duration by the "lawyer" member of the duo, with an examination of the "witness" following for fifteen minutes. The opposition may interrupt with questions for clarification purposes.

The affirmative "witness" will then be cross-eaamined by the negative "lawyer" for five minutes with the oegative witness taking the stand for examination immediately following.

After a fifteen minute questioning by the negative "lawyer," the affirmative "lawyer" will cross-examine the witness Five minute summaries by each lawyer will close the debate

THREE EVENTS

Individual events in original oratory impromptu speaking, and after-dinner speaking will be held during the tournament, which begins with registration in the History Building Thursday afternoon

The final event on the calendar will be the awards luncheon, to be held in the Suwanee Room at 12 30 p m. Saturday. The finals in impromptu speaking will be held at that time, and awards made to both individuals and teams

Winners of the individual awards at last year's tournament were Ted DuBroff, FSU, oratory; Arthur Hastings, Tulane, after-dinner speaking, and Tom Carpenter, West Point, impromptu speaking

FIRST BAPTIST

The first day's activities will be held in the Adams Wing of the First Baptist Church, due to Friday's campus activities. Registration will continue at 8 a. m Friday in the Adams Wing, with the first round of debate scheduled for [illegible] a. m.

Preliminaries in the individual events will be held during the day Friday, with the finals in after-dinner speaking occurring Friday night at the banquet for the group in the Suwanee Room. Oratory finals will be held at 10 Saturday morning.

Schools represented will be: FSU Miami, University of Florida, United States Military Academy, Apalachian State Teachers College, Spring Hill College, Davidson Mercer, Emory, Tulane, Howard College, Georgia, Southeastern Louisiana Institute and Mississippi Southern College.

Debater Cracks Irish Monopoly

The Florida State University varsity debate squad managed to win only five of twelve rounds this weekend in the Azalea Tournament in Mobile, Alabama, but placed one speaker among the top four debaters at the tourney.

Leanne Reets, debating in the second affirmative position, was the only debater to receive an "outstanding debater" medal who was not on the Notre Dame University team.

Notre Dame debaters finished first, second and third while sweeping the overall tournament championship. Alabama State placed second, and Spring Hill College, the host school, was third

Strozier Addresses Corrections Meet

Dr. Robert M Strozier will make the welcoming address at the opening meeting of the Southern Conference on Corrections to be held here Wednesday and Thursday.

The conference is under the direction of Assistant Professor Charles L. Newman, who is president of the Florida Probation and Parole Association.

This will be the third annual conference to be held in the south The program is aimed primarily toward clarification of problems relating to juvenile and adult corrections in the areas that will be represented.

FOR IF SUPPER. Torchy Briscoe, left, samples Dick Ainsworth's cooking for the Intelligent Faith Week supper, while Judy Taylor and Annette McIntosh, other workers for the week, look on.

Begins Sunday

Ten Religious Leaders Speak During IF Week

Ten religious leaders from the Florida Chain of Missions will be on campus the week of February 22-26 to lecture and lead discussions for the annual FSU Intelligent Faith Week.

The week is set aside each year for the faculty, students and staff of the university "to share "religious experiences" and for soul-searching and examination."

The first event of the week will be a spaghetti supper at 4.30 p.m. on Sunday, February 23, at the First Baptist Church. Tickets will be available for $.45 at the chaplain's office, sororities and fraternities, and dormitories.

SKEPTIC'S HOUR

The events will include seminars led by various religious leaders, morning devotions and breakfasts at student religious houses, faculty classroom discussions, the "Skeptic's Hour," visits and talks at student houses, sororities, fraternities and dormitory teas.

Three of the leaders of the week come from Japan and one from Korea. All are affiliated with religious organization or are engaged in religious education or related work.

Methodist, Congregational, Christian Scientist, United Church of Japan, Lutheran, Presbyterian and Episcopalian denominations are represented.

LEADERS LISTED

Leaders are: Dr. William D. Bray, missionary on furlough from Japan, Methodist; Dr. Darley Downs, secretary, Council on Cooperation and Interboard Missionary Field Committee, Tokyo, Congregational; Joseph G. Heard, Supervisor, College Organization Activities, First Church of Christ Scientist, Boston, Mass.; the Rev. L. Paul Jaquith, director, University Christian Mission, National Council of Churches, Methodist; Dr. Kenneth L. Maxwell, executive director, Department of International Affairs, National Council of Churches, Baptist; Junichi Nakamura, United Church of Japan, graduate student at Duke University; Dr. John P. Nau, head of the Department of Religion and Philosophy, Mississippi Southern College, Lutheran; Dr. Kenneth M. Scott, medical missionary on furlough from Korea, Presbyterian; Dr. Hugh Wamble, assistant professor of church history, Southern Baptist Theological Seminary, Louisville, Ky., Baptist; the Rev. Fr. Kilmer Myers, vicar of St. Augustine's and St Christopher's Chapel, Lower East Side Mission of Trinity Parish, New York City, Episcopalian.

SUBJECTS, TOO

Some of the subjects on which the leaders will speak include "The Function of Religion in Daily Living," "Things That Make for Peace," "Impact of American Music on the Japanese," "Science and Religion," "Where Philosophy and Theology Part," "Buddhism, Shinto and the New Religions," "Influence of Leisure on the Cultural Patterns of Every Country," "The Ethical and Moral Principles in Business," "Plotting Your Personality," "Japan's Double Economic System," and "The Bible as Literature."

The climax of the week will be a two-part one hour program in Opperman Music Hall at 8 p.m. Wednesday, February 26. The Department of Speech will present the Tempter's scene from "Murder in the Cathedral" by T. S. Eliot It will be followed, after a brief intermission, by the Sacred Cantata 106 of Johann Sebastian Bach, "God's Time Is Ever Best," sung by the Bach Singers, under the direction of Karl Mohr.

Brahms, Dohnanyi

Chamber Music Keys Inauguration Concert

A concert of Brahms-Dohnanyi chamber music will begin the inauguration program this Thursday when Dr. Robert M. Strozier is inducted as president of Florida State University.

The public is invited to the concert. Sponsored by the School of Music and featuring Ernst von Dohnanyi and Edward Kilenyi as pianists and the University String Quartet, the concert will be held Thursday at 8.15 p. m. in Westcott Auditorium Next on the program is the official ceremony, beginning at 10 a m Friday, also in the auditorium

BRAHMS QUINTET

Quintet in f minor, Opus 34 (four movements), by Johannes Brahms will open the concert, presented by Robert Sedore, first violin, Donald Michel, second violin, Eugene Crabb, viola, Owen Sellers, violincello, and Kilenyi the pianist

Sextet in c major, Opus 37 (four movements), by Dohnanyi will conclude the program with the composer at the piano and Sedore, first violin, Crabb, viola, Sellers, violincello, Harry Schmidt, clarinet, and Joseph White, French horn

"Music by Brahms and Dohnanyi seems right for the inauguration of our president because a university cherishes traditions, and we at Florida State venerate Dohnanyi as sort of a living legend," said Dean Karl Kuersteiner of the School of Music.

The dean pointed out that Dohnanyi is a great musician in his own name, and that his experiences of earning early recognition near the turn of the century in music centers of Europe are unique.

KNEW BRAHMS

Dohnanyi came to know Brahms, and was greatly encouraged by him in 1895, two years before the death of Brahms. Only 18 years old, Dohnanyi was studying in Budapest under Hans Koessler, a friend of Brahms.

Koessler sent the score of Dohnanyi's Quintet in c minor, Opus 1, to Brahms who liked it so much that he called in musician friends to play it for him in his summer home at Ischl. Later that year Brahms arranged to have the work performed in a Vienna music hall with Dohnanyi the pianist Brahms was present. Twice the young Dohnanyi visited Brahms in his home

Music critics often refer to the strong affinity between Dohnanyi and Brahms Both follow in the classic tradition of Bach, Mozart and Beethoven, and exhibit features of romanticism. They both emphasize structure.

Although a native American, Kilenyi studied under Hungarian-born Dohnanyi for many years in Budapest. They later made concert tours together in Europe. Since Kilenyi joined the school of music faculty at FSU, the two friends have given a number of concerts together, usually calling for two pianos.

TO PLAY AT INAUGURATION CONCERT. Ernst von Dohnanyi, professor of music here, will play some of his own music as the second part of the inauguration concert Thursday night. Dohnanyi is looking at a picture of Johannes Brahms, whose music will make up the first part of the concert.

'Damn Yankees' Set, Current Broadway Hit

Inauguration Set Same Day As Campbell's

Dr. Robert M. Strozier will be inaugurated February 21 at 10 a. m., the same hour of the same day and month as Dr. Doak S. Campbell was 16 years ago.

Dr. Strozier succeeded Dr. Campbell, under whom Florida State College for Women became Florida State University and coeducational, last September.

BEGINS AT 10

The inaugural convocation will begin at 10 after delegates representing hundreds of colleges, learned societies and associations assemble at 9:15 in Opperman Music Building and file into Westcott Auditorium.

Bishop John W. Branscomb of the Florida and Cuba Conferences of the Methodist Church will deliver the invocation.

Greetings to the new president then will follow from Arnold Greenfield, president of the Student Government Association; Louis B. Vocelle, president of the FSU Alumni Association; Dr. William Hudson Rogers, professor of English; President-Emeritus Campbell; and Gov. LeRoy Collins.

Chancellor Lawrence A. Kimpton of the University of Chicago will speak on "The Greater University." Dr. Strozier served for 12 years at the University of Chicago as dean of students before coming to Tallahassee.

FROM TANNHAUSER

Aona Kaskas, a mezzo-soprano who is a member of the music faculty of FSU, will sing, "Oh, Hall of Song, I Give Thee Greeting," a selection from "Tannhauser." John Boda of the music faculty will accompany Miss Kaskas.

The charge will be delivered to the new president by James J. Love, chairman of the Board of Control. After accepting the charge, Dr. Strozier will make the presidential address.

The benediction will be by the Rev. Jeffrey W. Alfriend, rector of St John's Episcopal Church

Ramona Cruikshank Beard will be at the organ for the processional and recessional.

No Parking

The Inaugural Committee requests that all faculty, staff, and students use off-campus parking areas Friday, to facilitate on-campus parking for inauguration visitors.

Center Dance Set March 1

The Starlighters sextette will provide music for a dance at the Student Center, March 1.

The event, which is to be "informal" will last from 9 until midnight.

A Tallahassee trio is scheduled to appear during the intermission.

COMING IN MARCH. Devra Korwin assumes the famous victory pose from "Damn Yankees," the Broadway show which will make a road show appearance here March 27, as Ralph Lowe looks on somewhat dumbfounded.

Many Song Hits Featured; Set March 27

Arrangements for a campus performance of the current Broadway musical comedy "Damn Yankees" were completed by Director of Special Events Kathryn Vernon yesterday.

To be presented March 27 at Westcott, this production features hit tunes like "Whatever Lola Wants," "You've Gotta Have Heart" and "Two Lost Souls," and has been named "Best Musical Comedy of the Year" and "Best Musical Score."

OFFICE UNCERTAIN

The office of special events is uncertain as to whether to charge students $2 or $3 for "Damn Yankees."

According to Artist Series Head Kathyrn Vernon, the university must average $3 per seat.

If the students pay $2 admission then half the auditorium must be reserved for Tallahasseeans, who pay $4 a seat

The opinion of the special events office is now that the students would prefer to pay $3 admission and be surer of getting a seat.

Student opinion on this matter, through the Flambeau, would be welcomed, states Mrs. Vernon.

Despite its title, "Damn Yankees" has nothing to do with Civil War feelings of Southerners. It stems only from the grudge of a Washington baseball fan for the New York American League ball team called the Yankees.

FROM NOVEL

Taken from Douglass Wallop's "The Year the Yankees Lost the Pennant," the comedy tells about a middle-aged real estate man so devoted to the Washington Senators that he grieves mightily whenever they lose a game.

LIKE GOETHE?

When, as in the old Faust legend, Lucifer offers the aging fellow a chance to become a young man again — not for Faust's romantic reasons but so he can lead the Washington Senators to a pennant over the hated Yankees—he takes up the Satanic offer, at the cost of his soul.

"Damn Yankees" will be brought to FSU by the Broadway Theater Alliance, Inc, the same group which presented "No Time For Sergeants" last week

The Broadway Theater Alliance, Inc. will be sending nine more Broadway shows on the road next year, according to Mrs Vernon.

They are not included in next year's Artist Series, just planned, but will be added as "extras"

They are too expensive for regular Artist Series, Mrs. Vernon states.

In addition, they are not specifically scheduled in time for inclusion in the university schedule.

"AUNTIE MAME"

Among the shows which will be put on tour next year is "Auntie Mame," mentioned Mrs Vernon.

Mrs Vernon explained the Artist Series "Extra" set-up, under which students use both activity booklets and pay admission

The activity ticket is used to separate the number of students attending an Artist Series "Extra" event, paying student prices, from the adults who pay more for admission

This is important in the tallying up of ticket take-in to be divided between the university and the performing group.

"No Time for Sergeants" for instance, grossed approximately $1300 for the university, $4000 for the Broadway Theater Alliance, Inc

Another reason to require activity tickets is to insure that students of the university get the tickets.

Hearty Applause

Cast And Audience Happy At 'Sergeants'

By MARCY SEITZ

The cast and audience seemed well-pleased with each other Friday night at the two performances of the campus Artist Series "No Time for Sergeants."

Hearty rounds of applause followed each performance of the successful Broadway comedy given in Westcott auditorium on February 14.

The Maurice Evans - Emmett Rogers production came to Florida State university following a highly successful two-year run on Broadway. It is currently conducting a 40 week tour of 125 cities coast to coast.

Playing Will Stockdale, the good-natured Georgia plowboy, for his 633rd time was the lead Charles Hohman, whose theater appearances date back to pre-college days.

Discovered by Maurice Evans during his enlistment in the Army, Hohman helped make theatre-Army history in such productions as "Richard II", "The Bad Man", and "Macbeth".

Although from Mississippi originally, Hohman off stage lacks the southern accent that is so characteristic of Stockdale Hohman also has the role of husband to Harriet Shepard who played the red-headed Lt. in the play.

When asked his reaction to the FSU audience in comparision with others, Hohman replied, "They were a wonderful audience; very receptive."

This also seemed to be the opinion of Tucker Ashworth, who played "Ben," Stockdale's loyal cohort. "They're a very good audience", said Ashworth.

Ashworth, who during the past season has appeared in no less than four productions on Broadway was typecasted for his part in the play.

Rex Everhart, who managed an excellent job of portraying the harassed Sergeant, has been playing "service" roles for a good many years. He has also been active on TV in such noteworthy programs as Studio One, Camera Three, and Omnibus.

Everhart has played "G I" in more than 250 training films for the U. S Army Signal Corps, and ironically enough, he is a World War II U. S Navy veteran.

The play was presented by Maurice Evans, television and theatrical producer, with Emmett Rogers.

Staging was done by Morton De Costa who managed to whip the show into hit proportions within the space of three weeks' rehearsal and a similar time on the road. Costa has staged such Broadway hits as "Plain and Fancy," "She Stoops to Conquer", and "Dream Girl"

"No Time for Sergeants" is the first play to be sent from New York by the Broadway Theatre Alliance Inc Their aim is to bring top-notch theatre to all sections of the country.

Rush Ends Today, 118 Places Vacant

The FSU Panhellenic Association, under its new president Nancy Terry, will complete its spring sorority rush this afternoon.

The 16 national sororities on campus have a total of 118 places open, to be filled from the 136 girls who went through rush.

Rushees attended three parties Saturday, two Sunday and signed preferential cards yesterday. From noon to 3 p.m. today they will pick up bids from the Panhellenic Office, 4th floor Longmire. Pledging will be after 5 this afternoon.

The slate of Panhellenic officers for the spring semester took over their duties Tuesday. Nancy Terry, president, is a junior transfer student from Wesleyan in Macon, Ga., and is a member of Alpha Gamma Delta. Jean Hunter, a Phi Mu, is secretary and Ann Key, Chi Omega, treasurer.

The Panhellenic Association, sorority governing body, is composed of one representative and the president from each sorority. Dean Katherine Warren is advisor.

Nobel Winner Will Address Sigma Xi

The Nobel Prize - winning chemist who discovered Vitamin C will give the Sigma Xi lecture at Florida State University, Wednesday at 8 p.m.

The speaker, Dr. Albert Szent-Gyorgyi, is director of the Institute of Muscle Research, Woods Hole Marine Biological Laboratory, Mass. He will review research going on in his laboratory and elsewhere on the transfer of energy that takes place when muscles of living things do work.

Know as a lively and interesting speaker, Dr. Szent-Gyorgyi will give his lecture in the Geology Lecture Hall (Room 120). The talk is sponsored by the Sigma Xi, an honorary research society, and is open to the public.

Dr Szent-Gyorgyi received the Nobel Prize in 1937 for his work on ascorbic acid, better known as Vitamin C. He was the first to isolate and characterize this substance chemically. A story is told of how Dr. Szent-Gyorgyi searched in materials from around the world for this elusive vitmin, then finding it in a paprika plant from his own back yard in Budapest.

Born in Hungry, Dr. Szent-Gyorgyi received an M.D. degree from the Budapest University and a Ph.D. degree from Cambridge.

Warner Will Open Lecture Series Here

Kenneth O. Warner of Chicago, director of the Public Personnel Association, will open the the annual Federal Lecture Program today at Florida State University.

This program, dealing with "Governmental Personnel Problems and Practices," will bring to the campus nine national authorities on administrative and governmental problems, each to give at least two lectures in the nine successive weeks

The program is sponsored by School of Public Administration and directed by Dr. W. U. Holloway.

Paradox Of Human Progress

Again the advance of human discovery poses Robert S. Lynd's provocative question of 30 years ago: "Knowledge, for what?"

THE CHAIRMAN of the President's Advisory Committee on Weather Control, Howard T. Orville, has given a hint of that group's forthcoming report. And in a current article Dr. Henry G. Houghton, director of MIT's laboratory of earth sciences, is discussing the same subject.

In terms of sheer scientific advance these findings spell success. In terms of the effect on humanity they spell a grim warning as much as a bright promise. Weather control, says Dr. Houghton, can no longer be regarded as visionary. And he epitomizes the stupendous problems this presents when he says:

> An unfavorable modification of our climate in the guise of a peaceful effort to improve Russia's climate could seriously weaken our economy and our ability to resist.

Here, in a nutshell, is the paradox of human progress.

ONE SCALE ON which the march of civilization can be measured is that of the "thwarting" or harnessing of nature. Men have countered the heat of tropics and deserts with refrigeration. They have conquered Arctic cold with fire and have developed its uses to free themselves from grinding toil. They have countered gravity with the airplane and the rocket, and thus have further conquered distance and banished isolation. But they have turned this triumph into means to transport the ultimate in fire and blast one another off the face of the earth.

Men seem now on the threshold of not merely warding on weather but of controlling it. Will they now use that knowledge to make the particular corner in which they live a pleasant garden spot without regard to the deserts it may create elsewhere? Or even purposefully direct toward their enemies a force potentially more destructive, as Mr. Orville says, than nuclear bombs?

TO BRING THIS down to cases: Must Americans speed their meteorological research not alone to benefit their own homeland but as a deterrent threat lest some hostile power employ more advanced research against them? Will cloud seeding take a place in the balance-of-power struggle alongside ballistic missiles?

All of this has a most pertinent bearing on America's present urgent concern with the content and process of education. Already competent and respected voices are warning that America dare not turn out a generation learned in the laboratories but lacking historical perspective, ignorant of the wisdom of the ages, and insensitive to the arts.

BUT EVEN SUCH knowledge alone is not sufficient. There are convicted criminals in almost any penitentiary by no means illiterate in history, economics, literature. The political formula by which Machiavelli thought he could replace anarchy with a benevolent monarch has been so applied that his name has become synonymous with ruthless cunning.

Mere human knowledge acquired without awareness of spiritual values and applied without moral motivations can be turned into means whereby humanity can the more quickly destroy not improve itself.

Honor Poll Can Be Helpful

We notice that the Student Government Honor Committee is planning a poll among the students on the subject of the Honor System.

YEAR AFTER YEAR the Honor System has been a center of controversy among students. Much of the cause of this controversy is a result of weaknesses in the workings of the system. This poll can do much to bring student opinion of the Honor System to those who are in a position to initiate legislation to change its weaknesses.

One of the questions should pertain to the possibility of abolishment of the Honor System. Despite the assertion of a student government official that nobody, "is in favor of doing away with the Honor System," we do not think that all students feel this way. This decision is one that should be democratically decided by the students, not arbitrarilly decided by a SG official.

OTHER QUESTIONS should deal with student criticisms and suggestions for improvements of the system.

If this poll is conducted in the spirit of truly ascertaining the feelings of Florida State students on the Honor System, it will be doing the system and the students a real favor. If, however, it is conducted with the intention of merely confirming some convictions held by student government officials, it might as well not be taken.

★ ★ ★ ★ ★

This Is Florida?

We read a story the other day about a tourist driving through Quincy at the height of the snow storm. He pulled into a gas station and said to the attendant, "Which way to Florida?"

WHAT A BLOW to our Floridian pride! Not only are tourists being exposed to this highly un-Floridian weather, but dozens of pictures showing coeds playing in the snow and other such publicity shots are being circulated in the No'th. Will our coveted title of the Sunshine State be challenged?

We say NO, and NO emphatically, for as anyone can see for themselves the sun is stilll shining. It may be 27 degrees outside but the sun shines through it all. The wind may frostbite our noses but Old Sol can still be depended upon.

SO THE THING for the Florida Chamber of Commerce, hotel owners, publicity agents, et al. to do is to take advantage of the situation. They should send out more pictures — by the hundreds—showing the usual Florida scenes: bathing beauties lounging in the sand, water skiers, and deep sea fishermen.

If the local weather bureaus can be suppressed our problem will be solved. No one will be able to see the cold, cold wind whipping through our clothes, nor can they tell how many degrees below zero it is.

All they will be able to see is the clear sky and warm sun burning down on the "Sunshine State."

Movie Books Given For Years

By ART ALBRECHT

Everyone seems to be jumping on or off the Senate bandwagon—so here goes.

The status of Student Senate be at Mickey or Mighty Mouse isn't of earth-shaking or soul-shattering importance to me. I had always felt that a college Senate like its high school counterpart was simply a playground for experience in good government.

And, as Senate praxy Jan Kaminis noted, none of us would want to be part of a university where the students ran the university. Heavens forbid!

I would, however, like to get one fact straight—just for the records. For the past few months there have been frequent references to one of Senate's finest accomplishments—the lowering of theater rates in Tallahassee.

In Friday's **Flambeau**, Miss Kaminis cited the lowering of theater rates as a concrete accomplishment of Senate. On the following page, Bucky Canon's column noted that "the reduction of movie rates is the Senate's only concrete accomplishment for the first half of the year."

For the benefit of both, Senate has done absolutely nothing in the way of lowering movie rates. Either the Senate has been hoodwinked or it is trying to hoodwink the student body!

Theater prices are actually higher now than they were last year at this time and anytime that we get a movie within a year after its release, the tendency is to increase the rates.

But, this doesn't concern Senate. Our governing body cites as its "concrete accomplishments" the issuance of special $2 booklets which include a free pass. In plain words, we're getting five tickets for the price of four.

Now this is a good deal. The only thing wrong with it is that these special booklets have been available to everyone—including students—for several years. The writer of this column has been purchasing them since 1955—long before Senate succeeded in "lowering rates."

Apparently the manager of the Tallahassee theater chain also felt that we have a "do nothing" Senate and did a good job in convincing the committee members that he was giving them something which wasn't already available to the general public.

Therefore, if, as columnist Canon says, the administration and Student Government Cabinet is actually responsible for the major accomplishments claimed by Senate and, in reality, they had nothing to do with lowering theater rates other than publicizing the fact that special booklets were available, we have the right to ask Senate "what have y'all been doing up there in the Senate chambers?"

Personally, I don't care. I put my trust in the administration. Military service and life in general has taught me that "Big Brother" will take care of me as long as I take care of myself.

I really hate to start this week off by putting a damper over Senate's "only concrete accomplishment," but, certainly everyone is interested in giving credit where credit is due—and keeping the records straight.

The Pontificator

Modern Man Must Whip Relativism

By EMMETT JARRETT

The problem of Western man was set for him by Goethe in his poetic drama "Faust."

In the drama the Lord God and Mephistopheles, the devil, make a wager. If Mephistopheles can satisfy Faust, the representative Western man, with anything, he, Faust, will be given over to the devil and will go to hell.

Pursuing the wager with the deity Mephistopheles, the denier, prepares for his final denial—that of the worth of the human spirit. He in turn makes a bet with Faust. If the devil will give him anything that he wants (and having exhausted the field of the human intellect, if he is ever satisfied, must say, "Linger awhile, thou art so fair," to the thing with which he has been satisfied to the extent that he no longer desires to strive. With this Faust's soul will be damned.

Actually the wager is superfluous, for if a man ceases to strive (and this he does if he becomes satisfied), according to Goethe, he is damned already. The necessity of human anguish in this predicament is apparent.

Faust passes through many things with the devil as his companion, and we do not feel it necessary to narrate the story to our presumably educated readers. In his old age he becomes a man of action, as he had desired, and longs for the time when he can rest, and say, "Linger awhile, thou art so fair." But the time never comes. Faust dies of natural causes, without ever having ceased to strive, and is taken into heaven by angels.

Man in the twentieth century is faced with a special case of this general problem. Fyodor Dostoyevsky, the Russian novelist, has formulated the problem.

In **The Brothers Karamazov**, his greatest novel, and perhaps the greatest novel ever written, his character Ivan is reported as saying:

". . . for every individual, like ourselves, who does not believe in God or immortality, the moral law of nature must immediately be changed into the exact contrary of the former religious law, and egoism, even to crime, must become, not only lawful but even recognised as the inevitable, the most rational, even honourable outcome of his position . . ."

Presented with essentially the same problem, T. S. Eliot said, in "Ash-Wednesday"

> Because I do not hope to turn again
> Because I do not hope
> Because I do not hope to turn
> Desiring this man's gift and that man's scope
> I no longer strive to strive to strive towards such things.

Note that he said the worst: I no longer strive to strive!

This, then, is the problem which man in the twentieth century must solve. With the old foundations of religion, moral and natural law, the state, the social order and the class system falling around our heads, man must find a way out of the relativism which is the inevitable result of the death of God and the fall of the absolutes.

Librarian Compiles Two Check Lists

Ruth Stemple, assistant documents librarian at FSU, is the compiler of two check lists which appeared in the May-August and September issues of the Bulletin of Bibliography.

The check lists consisted of the works, criticisms, and biographical sources of two late West Virginia authors: Margaret Prescott Montague and Rebecca Harding Davis.

The research for these lists was completed at the West Virginia University library while Miss Stemple was employed there as senior reference librarian, from September 1955 to September 1956.

She received her MS in Library Science at FSU in August of 1955.

LITTLE MAN ON CAMPUS By Dick Bibler

"IT APPEARS TO ME ONLY *ONE* OF YOU TOOK THE TROUBLE TO DO THE OUTSIDE ASSIGNMENT LAST NITE!"

Writer Disagrees With Jarrett

LETTERS to the EDITOR

TO THE EDITOR:

John Fortescue's oft quoted remark that "comparisons are odious" is not at all times applicable, but I can think of no better illustration of its truth than the column, "The Pontificator," written by Emmett Jarrett in The Florida Flambeau of Friday, February 14. In an article entitled "Art 475 Is Highly Recommended Course," Mr. Jarrett undertakes a comparison of this course with English 355 (Twentieth Century Poetry). He is extremely critical of the latter and the instructor who teaches it. I have no firsthand familiarity with these courses and will not attempt to uphold their respective virtues or to defend Mr. Jarrett's opinions concerning them. Obviously, I cannot. However, I would not do so even if I were able. My purpose in writing this letter is not to express opinions about teachers and courses; it is primarily to comment on what seems to me to be the violation of a principle of the student-teacher relationship.

Sound, intelligent criticism is a healthy thing. It is the university's chief business to encourage clear, independent thinking. It is also the university's concern that this thinking be accompanied by a maturity of understanding and a respect for human feelings. Green apples have a sharp "bite" but they do not make for very good eating and are usually not easily digested. Hence, there is little of real nourishment or value to be obtained from them.

No person or thing is above criticism. Certainly teachers and teaching are not; but, then, neither are students! However, I am not of the belief that a school newspaper is legitimately at the disposal of either faculty or students to express the other's faults on an individual basis. A teacher who is attacked in print in this way is in no easy position to defend himself; to answer in a similar manner would be compromising and degrading. From the other point of view, how would a student feel if one of his instructors discussed his merits and abilities in public? There are quieter and more affective avenues for both to employ for this kind of criticism.

One who attacks another physically when he knows he has an advantage is called a bully. There are corresponding terms for one who does an equivalent thing in an intellectual and ethical way. Words can be cruel weapons—especially to those who love them. They should not be used to inflict wounds in a careless and thoughtless manner.

"If given enough rope, etc." is another quotation that may readily be applied to some of Mr. Jarrett's remarks. I refer, of course, to his designation of Robert Frost as a "second-rated provincial versifier." One could easily reply in equally belittling language, but such phrases are only a substitute for knowledge and judgment. Besides, Robert Frost needs no defense from me. I am not sure what Mr. Jarrett intends by "second-rated." If he is implying that it is the general consensus of the critics that Frost is "second-rated" and "provincial," I suggest that Mr. Jarrett re-read his criticism. If it is his own opinion, then I suggest that Mr. Jarrett re-read his Frost.

Too often these days it is forgotten that ideally a university is not only a body of scholars but also a society of ladies and gentlemen. Whether he realizes it or not, Mr. Jarrett owes the instructor involved (and he leaves no doubt as to the one he intends) a sincere apology.

"Dogmatism" and "dignity" are two terms that are often associated with a pontificator. In Mr. Jarrett's article there is dogmatism in abundance. Where is the dignity? I trust that this particular column was an aberration of good taste rather than a confirmation of its lack.

Very truly yours,
WILLIAM LEE PRYOR

Profs Face Dilemma: Can't Please All

TO THE EDITOR:

Having just completed four years at Florida State University, I can now appreciate the following which you may like to reprint in the **Florida Flambeau**, a fine college newspaper which I have on the whole been proud of, and of which editor this year I believe has surpassed to a degree the accomplishments of previous editors.

"Student Gripes That Face a College Professor" — excerpt from an article of above title in the AAUP bulletin, by J. Russell Morris, Chico State College:

When an objective test is given: "It doesn't let you express yourself."

When an essay test is given: "It's so vague, you don't know what's expected."

When a number of minor tests are given: "Why not have a big one? This keeps you on edge all the time.

When a few major tests are given: "Too much depends on each one."

When no tests are given: "It's not fair. How can he possibly judge what we know?"

When every part of the subject is taken up in class: "Oh, he just follows the book."

When students are asked to study a part of the subject themselves: "Why, we never discuss it."

When the course is in lecture form: "We never got a chance to say anything."

When the course consists of informal lectures and discussions: "We never cover any ground."

When detailed material is presented: "What's the use? You forget it after the examination anyway."

When students present reports: "He just sits there. Who wants to hear students? They don't know how to teach."

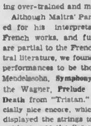
Thank you,
A RELIEVED GRADUATE

Opus Tuppence

Let's Have More Student Receptions

By DALE JENSEN

Westcott Auditorium was practically void of empty seats last Thursday for the Detroit Symphony Concert, which fact we noted with no little vicarious pride, but which had almost prevented us from getting seats a week before. We were left with mixed feelings after the performance. On the one hand, there were many rather unfortunate things heard, particularly from the winds, but on the other hand, the general impression was one of great pleasure and satisfaction.



As an instrumentalist, it was a pleasure to observe Maitre' Paul Paray's conducting. He seemed remarkably precise and the orchestra's playing bore this out fully. The strings, especially, responded instantly to his slightest motion, and displayed what must be the result of many hours of careful rehearsing, yet kept from sounding over-trained and mechanical.

Although Maitre' Paray is noted for his interpretations of French works, and further, we are partial to the French orchestral literature, we found the best performances to be those of the Mendelssohn, **Symphony #5**, and the Wagner, **Prelude and Love Death** from "Tristan." An especially nice encore, which fittingly displayed the strings to best advantage, was the Serenade from the "Namouna Suite", a ballet suite by Lalo.

After the concert, we attended the reception in the Longmire Lounge. Many of the orchestra members had been escorted over by students, and were deep in conversation in groups scattered over the room. Our immediate reaction was, how great! Here is an opportunity for us to meet and talk to some of the best artists in the world, and incidentally, for them to see FSU the best way, through her students. We hope these receptions remain as another of the campus' gracious customs.

Two Delegates Attend IWAS Meet

Two delegates from Florida State University's Women's Senate have been chosen to attend the Intercollegiate Association of Women Student Government convention.

Woman's Vice-President Polly Atwater and Diane Godin, sophomore senator will attend the Great Southern Regional convention in Dallas, Texas, in March.

The organization is national with approximately 300 member schools, and meets every other year.

asketball Team

Has Bright Future

any one bright spot can be found in this year's basketball gn certain to be a losing one, it is that prospects for next are the brightest in several years.

is not to say this year's team has done a bad job.

They have tackled the toughest slate in school history, and have a chance to finish as high as 12-13, with victories in four remaining games.

They have included Oklahoma City among their victims, and they will add Memphis State to that list tonight.

Victories over both these teams in the same year is a feat many college coaches would like to attain. It will take the team's finest performance of the year tonight to the trick, but I think that the boys are capable of doing it.

INOLES MISS DURHAM

recapping this year's record to date, I think it must be that two of the losses (to Furman and Louisiana State) be almost directly attributed to the absence in the lineup Durham.

The Seminoles don't seem to be the same team without team's court generalship, and with him would certainly have ated both teams.

But getting back to next year, only one starter, one reserve— Strom and Tom Garcia—will be lost through graduation.

Savage, who has performed well as a soph this year ready to move into Strom's starting position, if one of freshmen does not make the jump to the varsity more rapidly expected.

Durham, Burt Deckel, Jim Liteky, Dan Boltz, all return for year, as da three reserves, Joe Williams, Joe Westhafer, Casteel.

With two years of experiance behind him, I believe Durham be one of the finest little men in the south, and with he Deckel showing tha way, tha Seminoles could go places neat

HMEN LOOK GOOD

look at the freshmen as they dropped a 67-62 heartbreaker ida's yearlings Saturday night shows that three or four of may move up to varsity status, a couple probably to the 10.

Forward center Charley Tinsley was the high scorer for the with a 15.8 average, and if he picks up a little polish and over the summer, might contest Savage for that fifth post.

One of the coolest ballplayers on the frosk was Bud White- more noted for football prowess, and ane of the more along with Whitehead was forward Jim Daniel.

However, whether either one of them plays varsity ball depends ably on their football plans. Athletes who play both sports and far between.

Though nothing official has been disclosed, Seminole coach Kennedy has hinted he may have the finest home schedule tap for next season.

think he may hava the team to make it the brightest year basketball history.

RT SHORTS

interesting to note that just two of the 12 teams that beaten the Seminolo basketballers this year now own losing . This speaks highly for Kennedy's cagers, and for the ness of the schedule.

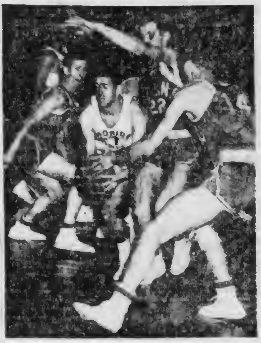
Of these 12 teams, only Farman (8-12) and LSU (8-16) are the wrong side of tha schedale. At the ather end are West 20-1), Memphis State (13-6), Marshall (15-5), Xavier , Teanessee (16-5) . . . All things considered, the Semi- have done a good job with a terrifically tough schedule.

things go as at present, Cincinnati and Kansas State will the first game of the NCAA tournament for both . . . the NCAA loses one more drawing card, having already (Stilt) Chamberlain, as only a miracle can get Kansas tourney now. . . . The National Invitation in New York love to hava Kansas and the Stilt, but conference rules any team but the champion going to post-season tourneys.

Here's a forecast that the winner of that Cincinnati-Kansas contest will meet and defeat West Virginia in the finals of tourney. . . San Francisco must not be forgotten, but I they can handle either Cincinnati or Kansas State.

Noted in the news a couple weeks ago that Miami football Andy Gustafson would like to see FSU meet the 'Canes part of a gridiron doubleheader in Jacksonville in 1959 . . . meet neat year in Miami, the 1959 game is slated here . . . if FSU officials will go for Gustafson's idea too strongly. . . There have been a couple efforts in the past at moving games to Jacksonville, most hava been nixed from this end.

Almost all spring sports will present their greatest home ever to local fans this season. Unfortunately there aren't fans to appreciate this, however . . . a total of 31 baseball will be played here, including 12 tournament games end frosh contests, 12 tennis matches, three track meets, and golf matches.



Flambeau Photo: Alan David

GARCIA OUTNUMBERED. Tom Garcia (11), FSU senior is guarded by three members of the Rollins basketball squad. Dick Bishop (22) waits to block the shot as Dick Bezemar (14) grabs for the ball.

BOAST 7-1 MARK

Tankers Dunk Tech; Prepare For Florida

The tide went out for Georgia Tech Saturday night as reserve-led Florida State tankers stranded the Engineers high and dry on the short end of a 54-30 score.

For the revenge seeking Seminoles, it was the climax of a year of waiting since the Yellow Jackets turned them back in an upset 46-40.

A capacity crowd watched the Tribe enter reserves in five events and no one in one event in an attempt to make the meet more equal.

The win stretches tha Seminoles win streak to six consecutive victories. The lone setback was at the hands of Southwest Conference Champ SMU. FSU's record now stands at 7-1.

Three meet records fell during the meet as the tankers won eight ot ten events. FSU's Ken Abbott swept home in the 50-yard freestyle in a time of 23.50 to set a new mark for the event.

METZ BREAKS MARK

Tom Metz of FSU and Georgia Tech's Bob Dudley both broke tha existing standard in the 440 yard freestyle. Metz placed first, clipping the old standard by seven seconds as Dudley finished sia seconds behind besting the previous mark by one second.

Saturday night the swimmers will be host to the Gator swim team from the University of Florida in a renewal of the now traditional bi-annual meet between the two schools.

In the first clash between the teams in 1956, FSU drowned the Gators 66-18, the worst defeat inflicted on a Florida swimming team. The boys from 'Old Florida' followed the loss with a 43-41 upset win later that season.

TANKERS SPLIT

Last year the tankers split with the Seminoles again winning the meet in Tallahassee by a score of 48-40. The Gators won the Gainesville contest 51-35. The record now stands at two wins and two losses for both Florida and FSU.

Results of the Georgia Tech meet:

400-yard medley relay—FSU (Glancy, Cole, Fillmore, Thatcher) 4:0.3.

220-yard freestyle — Dudley, Ga. Tech, Wilson, Ga. Tech, (No entries from FSU). 2:20.7.

50-yard freestyle—Abbott, FSU, Kay, FSU, Wiggin, Ga. Tech, 23.5.

Diving—Weber, FSU; Simpson, FSU. (No entries from Tech).

200-yard butterfly — Langler, Ga. Tech; Fillmore, FSU; Koth, FSU; 2:42.1.

100-yard freestyle—Thatcher, FSU; Wiggin, Ga. Tech, Hungerford, Ga. Tech, 56.0.

200-yard backstroke — Staffergen, FSU, Peterson, Ga. Tech, Deas, Ga. Tech, 2:34.7.

440-yard freestyle—Metz, FSU; Dudley, Ga. Tech; Wilson, Ga Tech, 5:14.3.

200-yard breastroke — Cole, FSU, Harrell, Ga. Tech; Stevens, Ga. Tech, 2:41.8

400-yard freestyle relay—FSU (Koth, Fillmore, Glancy, Wentworth), 3:57.1.

Gymnasts Retain State AAU Title

With Chick Cicio leading the way Florida State's gymnasts swept first places in nine of 10 events Saturday as they successfully defend their Florida AAU title, 11963 in Miami

St. Petersburg YMCA finished second.

Cicio, a former NAAU free exercise champino, won five first places and took the all-around title easily. Pat Rinard of St. Petersburg was second.

The colorful Seminole gymnasts won his specialty, free exercise, long horse, tumbling, parallel bars and the horizontal bars.

TRANSFER FIRST

University of Michigan transfer Tom O'Connor in his first competition for the Tribe edged teammate Jim McEacherman on flying rings and also took a first in still rings.

Freshman Bill Beavers won the side horse event and Dave Carmolli took a first on trampoline to round out FSU scoring.

Golfers Schedule 17 Dual Matches

A varsity golf schedule that includes 17 dual meets and two tournaments was released by Florida State golf coach Bill Odeneal.

The Seminoles have already opened the season with a 20-7 triumph over a touring University of Wisconsin team. Their next meet is with Florida at Gainesville, Feb 24.

The two tournaments which the FSU golfers will enter are the Florida Intercollegiate at Ocala March 6-8 and the Southern Intercollegiate at Athens, Ga., May 1-3.

Florida State has won the Florida Intercollegiate title the past two years. The golfers won nine out of 10 dual meets last year and finished fourth in the national collegiate.

The Seminola freshman golfers will compete in six dual meets and the Florida Intercollegiate this spring They open with Florida at Gainesville, Feb. 24.

Litwhiler To Coach Army In Europe

Florida State University Baseball Coach Danny Litwhiler has accepted an invitation to conduct the 1958 Baseball Coaches' Clinic for the United States Army in Europe, March 2-7.

Litwhiler will leave the United States for Europe Feb. 28 and return March 9.

It marks the second consecutive year Litwhiler has been asked by the Adjutant General, Department of the Army, to stage baseball clinics for the Armed Forces overseas. The former National League outfielder (1940-51) conducted clinics in Japan and Hawaii last year.

Hoopsters Seek Revenge Against Memphis State

Win Easily Over Rollins

By FRANK RAMOS

Florida State's Seminola cagers will try to revenge an earlier season defeat by Memphis Stata and will ba seeking thair third straight victory at homa when the two teams meet here tonight.

The Tigers will carry a 13-6 record into the contest while the Tribe possesses an 8-13 mark.

In the Seminoles' last two outings they whipped Oklahoma City (57-52) and Rollins (80-61). The Memphis eagers have split two games with OCU, taking the one at Memphis 53-50, and losing by eight at Oklahoma City last Friday night.

Bob Swander, a high-scoring guard, is expected to return to the Tigers starting lineup after having missed much action because of a broken jaw.

If Swander does not return to the lineup, the scoring burden will rest with forwards Orby Arnold and Jim Hockaday, who scored 14 and 21 points respectively against FSU when the Tigers shaded the Seminoles, 59-56 at Memphis.

Slated to start at center is Kent Bryan with Skip Wolfe and Spud Hays at the guards if Swander isn't ready.

There have been five mutual opponents for the two teams with the Tigers coming out on top more often. Memphis has twice downed Murray St. with the Tribe doing it once in one try. Coach Bud Kennedy's crew is 1-0 w. Tennessee Tech while the Tigers have downed them twice.

Memphis handled Loyola in their only meeting while the Seminoles took it on the chin twice from the same school. Both teams compiled 1-0 records with Stetson.

Kennedy is expected to go along with his usual starting lineup of Burt Deckel and Larry Strom at Forwards, Danny Boltz at center, and Hugh Durham and Jim Liteky at the guards.

The Seminoles are again expected to use their new zone defense which gave the Tribe their last two wins.

With four men hitting for double figures the Seminoles were able to easily turn back Rollins, 80-61 last Thursday night at home.

The FSU zone defense proved to be a real stopper for the Tribe in the second half when Rollins was held scoreless for the first nine minutes of that period.

The Tars got off to an opening lead with Dick Bishop, a freshman guard who wound up the nights top scorer with 23, forcing the attack.

But the Seminoles bottled up center Dick Bezemer and Boltz out rebounded him 15-12 to give the Tribe a 33-27 halftime edge

The Tribe had a .338 mark from the field while the Tars chalked up a .328 percentage. From the free throw line Rollins dropped 19 of 24 for .792 while FSU flipped in 22 of 29 good for a .759 mark.

Larry Strom who hit 5-5 from the foul line was high man for the Tribe dropping in 17 points. He was followed by Deckel 15, Durham 13, and Boltz 10. This Boltz's second time in a row to hit for double figures notching 11 against Oklahoma City the night before.

Gators Whip Frosh Cagers

The Florida State freshmen eagers had their four game win streak broken by the University of Florida frosh, 67-62 Saturday night.

All of the starters for the Gators hit in the double figures. Jim Daniels of FSU was the game's high scorer with 19 points. Florida's Jeff Osborn followed him with 15.

5-3 RECORD

The game was the final one of the season for the baby Seminoles who finished the season with a 5-3 mark. This was the second time the Gators had beaten the Tribe yearlings this year.

Charley Tinsley, 6-5 center from Miami, ended up as the team's leading scorer for the season. He had a total of 127 points and a 15.9 average. Tinsley tallied 13 against Florida.

Both teams got a slow start, and the Seminoles had a 25-22 lead at the half. But in the second half, Osborn, Lou Merchant, Bob Shiver and Frank Etheridge found the range for the Gators and took the lead in the opening minute of the second half.

First 'Crisis' Lecture

Foreign Policy Problem Is In Armaments—Irish

The problem of American foreign policy is that "we are lagging behind the USSR in nuclear armaments," according to Dr. Marian D. Irish, head of the FSU political science department. Dr. Irish spoke last Wednesday evening at the first of a series of American studies lectures entitled "The Crisis Papers."

The political scientist said that basically American foreign policy is that "we must be stronger than any potential enemy." For this reason the recent Soviet advances in nuclear power have threatened the core of our policy.

The title of Dr. Irish's lecture was "The Organization Man." This was taken from a recent book of the same name by William Whyte. The professor spoke of the men who determine American foreign policy, and "the impersonal factors conditioning them."

The impersonal factors spring from the fact that "the world is not of our own making." That is, the American foreign policy makers must operate through channels of American law, foreign goverment's constitutions, and international law.

POLICY PROBLEM

"Basically, the problem of foreign policy is trying to protect and support our interests in countries where our laws do not govern," Dr Irish said. The fact that we cannot compel either our allies or our enemies to act as we desire is the main impersonal factor.

When the Soviet Union has more power than the United States militarily, our foreign policy faces a crisis.

Other impersonal factors include the American economic situation, our need for strategic and critical military materials, and the ideological battle.

The second portion of Dr. Irish's lecture was devoted to discussion of the policy-makers, the "organization men."

IKE'S BOY FRIDAY

She discussed the position of Assistant to the President Sherman Adams, created for him in 1953. Adams "digests" all information and material before the President sees it, because Mr Eisenhower prefers not to become involved in arguments.

The chief policy-making group in the United States, according to Dr. Irish, is the National Security Council. Another organization man, Paul Cutler, controls this group in that he is the head of the National Security Council Planning Board. The NSC discusses nothing which is not prepared by Cutler's board.

In charge of planning for the Department of State is Gerald Smith, an interim appointee, whose appointment created so little notice that the New York "Times" did not have a biography of him.

Dr. Irish concluded her lecture by discussing the backgrounds, education, and other influential factors of some of the nation's most important organization men. Among them was John Foster Dulles, the secretary of state.

After the lecture, Dr. Maurice M. Vance, assistant professor of history, stated that the lecture series, although given for credit as American Studies 432, is open to visitors and auditors and interested persons are always welcome.

Roady, Prothro Publish Bulletin

Dr. Elston E. Roady, associate professor of political science, announced the publication of the Florida citizenship Clearing House Bulletin this week.

The Bulletin is a semiannual publication of the Clearing House, an organization dedicated to increasing the citizen's participation in politics and government.

Roady is executive editor of the Bulletin. He and Dr. James Prothro of political science are the directors of the clearing house on the Florida State campus.

Chapters of the Clearing House are on all Florida campuses. Many of the state's leading citizens are among the directors of the organization.

The state Clearing House is affiliated with a nationwide organization of a similar nature.

WOMEN'S DORMS ELECT SEMESTER OFFICERS

Coinciding with the excitement of the snow Wednesday night was the election of new officers in the girl's freshman dormitories.

Vice-presidents, social chairmen, intramural chairmen, breakfast chairmen, floor chairmen, and a social chairman were elected from the freshman dorms, while the upper-class dorms elected only new floor chairmen.

BROWARD

Broward Hall girls elected Mary Lou Newde and Mary Leighton as new vice-presidents; Deanna Morris was chosen social chairman, and Jessie Stoner, Kay McCorquodale, and Gail Gotthardt, floor chairmen.

New Bryan Hall vice-presidents are Linda Riedel and Glenda Powers. Janie Davidson is social chairman, and Cres Ann Kearns Marcella Pritchard, Suzanne Dunn, Nina Green, and Connie Brown are floor chairmen.

Serving Reynolds this semester will be Elbia Garcia and Betty DeHart, vice-presidents, Jonna Smith, social chairman; Jennie Jankunis, intramurals chairman; Margie Eichenger, breakfast chairman; Charlotte Goodman, chaplain; and Virginia Reynolds, Flossie Avis, Marilyn Zibell, Ginger Collier, Pat Lance, Jacqueline Stuart, Bebe Parks, Melvis Swest, and Jeanne Menis, floor chairmen.

JENNIE MURPHREE

New Jennie Murphree vice-presidents are Margie Geganschatz and Joyce Nuckles. Barbara Miller is the new social chairman; Midge Presnell, intramural chairman; Jo Lee Blondheim and Sylvia Rucker, breakfast chairmen; and Nancy Bild, Sandra Rogers, Julie MacDowell, Kitty Wade, Teal Guinand, Nora Neli Hardy, Annette Handcock, and Serita Wildt, floor chairmen.

New governor of Senior Hall is Al Ulmer, with Ramon Rogers as lieutenant governor, and Ray Axon, treasurer. Magnolia Hall elections were held last night, and West Hall elections are set for Friday.

"WORTHAL-HOW MANY TIMES MUST I SAY 'NO' TO CONVINCE YOU?"

Student Confesses: 'I Led Sewer Patrol'

By BEN BALSER

A cold chill ran through my body as the steel grating was pulled back over the cracked cement. The sound pierced the still night air. Someone with a flashlight cast a bright beam into the dark chasm which lay below us.

There were four of us. We didn't look any different than the other 7,000 people on campus, but we seemed to contain one inborn characteristic the others lacked

It was the same characteristic that had prompted Columbus to challenge the vast ocean in three small ships and the same characteristic that was imbodied in Lewis and Clark as they explored the virgin and wild frontier

Actually this was not a characteristic, but a desire to go into the unknown, to see sights never witnessed by human eyes.

I stood looking into the cavity which seemed eager to gather us into its gaping mouth "I'll go first," said one of the party. No one argued with him.

INTO DARKNESS

As I held the light, he stepped cautiously onto the first step of the iron-runked ladder. He hesitated down into the blackness The other two followed suit. Now it was my turn.

I looked around, hoping that someone would come to stop me, but no one did. I was alone. The moon went behind a cloud as if it were afraid to witness my act

"Hurry up," called the others. As they held the light from below, I climbed onto the ladder, stepped down about three rungs and pulled the grating back over the hole.

I felt as if I had entered another world Although the campus was a few feet above my head, I seemed a million miles away. I descended the remaining distance and stood among the other four on the cement floor

"Let's not stand here all night," someone commented, "let's get moving." But no one moved Finally the adventure in my blood overcame the reason in my mind I grabbed the flashlight and trekked off ahead of the others

RED-HOT PIPE

My eyes soon became accustomed to the darkness and I could make out some of my shadowy surroundings. Above our heads, to the left, was a pipe about two feet in diameter We couldn't get close to the pipe because it was red hot Consequently we had to walk between the wall and the pipe, a distance of about two feet.

I didn't mind being first in line because I rationalized that if anything would attack us it would get the last man in line. We could walk standing straight up, except in places where the supporting beams ran across the ceiling.

The air around me was close and it seemed to me the further we walked the hotter it got. I came to a place where I had to step up. This brought me closer to the ceiling and we could no longer walk upright but had to stoop, just slightly

LANDIS GREEN

I climbed up the ladder and lifted the grating. To my surprise I was in the middle of Landis Green "Where are we?" someone cried "Landis Green," I answered.

Suddenly I heard steps behind me and I turned quickly. The girl was walking from the library after a hard night of parallel reading As I moved, she saw me. There I was at 10 p.m. standing half in and half out of a hole in the ground. Why she screamed, I'll never know. Maybe she had a breakdown from too much study

We took a vote on whether to go back or continue as far as we could We decided to go on. Soon I came to another step-up and I realized that the rest of the distance would have to be covered on our hands and knees

Forward, ever forward we crawled. Finally when the passageway seemed the smallest, the rats seemed the biggest and the heat unbearable, I saw the end of our journey.

I reached the final grating and hurriedly pushed it away My sweaty body tingled as the cool night air covered me After a quick glance around I discovered the end of the unknown was the garbage platform in the rear of the Seminole Club

Without a word to each other we walked away, each in our own thoughts Although I had not studied for my history test the next day and although I had ripped the buckle off the back of my best Ivy Leagues, I felt proud.

I had gone the way of Columbus, Lewis and Clark and the rest of them.

I had led the first Magnolia Hall Sewer Patrol.

Gift Of Two Classes

Fence Encircled School When Gate Was Built

By DOLORES LAFFERTY

As one approaches the front of the Florida State University campus today will notice another sign of progress. The gates, a landmark of the University being moved apart to make two-way traffic possible.

Many have wondered just how long these gates have stood and who was responsible for putting them there. Alumni records show that they were given by the classes of 1916 and 1918, but for the actual story of their giving we went to Dr. Katherine Montgomery, professor of physical education and member of the class of 1918.

1916 START

"The class of 1916 started the gates when they decided upon that as their gift to the college upon graduation. This university was then Florida State College for Women and their class numbered less than thirty young women.

"When they realized that they could not finance the entire project, our class, 1918, chose the completion of the gates as their gift to the school," said Dr. Montgomery.

"Such events as the annual volleyball and basketball games held on Thanksgiving Day between the odd numbered classes and the even numbered ones created as much interest as any of the big college weekends of today.

"The week before the big event the odds decorated the fountain which was the gift of the classes of 1915 and 1917 with their colors of red, white, and purple while we decorated the gates with green and gold, our colors," explained Dr. Montgomery.

BIG FENCE

When the gates were first constructed there was a fence around the entire school which was covered with Cherokee rose vines. The gates were soon covered with the traditional ivy to stay in keeping with the three brick buildings—the Administration Building (now Wescott building), Bryan Hall and Reynolds Hall.

The campus then only included the section surrounded by Jefferson, Copeland, and streets. The back boundary about where the street runs in front of the S Club now is.

A tradition since Dr. Montgomery's college days decoration of the gates each at Homecoming by the F Club.

At the time of her graduation the college enrollment numbered 800 women.

New Calendar Under Way

Preparations for Florida State University's 1958-59 activities calendar is now under way.

Persons planning to schedule any non-academic events are to contact Kay Vernon at the Office of Special Events Westcott before March 1

At present the schedule for next year includesh:

Sept. 13—Football. FSU vs Tennessee Tech.

Sept. 15—Orientation Week begins Also General Faculty meeting.

Sept 20—Football. FSU vs. Furman.

Sept 22—Classes begin

Sept. 27—Football. At Georgia Tech.

Oct 4—Football FSU vs Wake Forest.

Oct 11—Football. FSU vs Georgia (probably Homecoming)

Oct. 18—Football. FSU vs Virginia Tech

Oct 25—Football. At Tennessee

Nov. 1—Football. FSU vs Tampa

Nov. 7—Football At Miami

Nov 11—Veteran's Day Classes dismissed 8 a m to 2 p. m

Nov 22—Football At Florida

Nov. 26—Thanksgiving Holidays begin, through Sunday.

Nov. 10—Gymkana, through Nov 15

Dec. 19—Christmas Holidays begin.

Jan. 5—Classes resumed.

Jan. 21—Classes end.

Jan. 22—Exams begin.

Jan. 30—Examinations end.

Jan 31—Graduation

Feb. 9—Classes begin.

Feb. 23—Intelligent Faith Week, through 25

Apr. 30, May 1—Circus.

June 6—Graduation.

Strozier Cites 'Academic Miracle' In Address

A University Is A 'Spirit,' Says Kimpton

"A great university is a spirit, a mood, an atmosphere," stated Chancellor Lawrence A Kimpton of University of Chicago this morning in his Inaugural Address.

Outlining the qualities that make a university "great," Kimpton mentioned first those assets that are sine qua non": stimulating teachers, superior students, money, and adequate physical facilities.

Kimpton continued, "These are the tangibles of the great center of learning, but, as in most other things it is the intangibles that ultimately make the difference."

FREEDOM FIRST

The first of these intangibles is a sense of freedom.

Not a "postured, self-conscious thing," Kimpton continued, but freedom that "is as natural as the air and no amount of shouting will produce it."

In addition, Kimpton calls it a disciplined freedom: "The fancy fellow who announces a discovery prematurely or the casual inquirer who does not bother to check all the evidence is in deep trouble."

The University of Chicago's Chancellor warned, "The pervasive air of freedom does not countenance stupidity or casualness or error unless it be honest error."

The freedom also involves a tolerance. Unusual, different, even odd viewpoints should be protected and nourished, Kimptoo maintained.

"ODD-BALLS"

"I do not meant hat we have to cherish the deviant, the odd-ball simply because he is this way, but I come very close to recommending this.

"A university that has no odd-balls is not a great university . . ."

The second intangible characteristic of a great university is its relationship to the society of which it is a part.

Defining the thin line between the idealistic and the empirical, Kimpton alluded to Plato's cave. ". . . we walk in careful suspension between heaven and earth, peering out . . . the clear form and beauty of the eternal ideas, but ever mindful of the shadows they cast upon the walls of the cave."

Kimpton cootinued, "And third, the great university must be efficient in an atmosphere of magnificent inefficiency."

Further defining what he himself agreed was a nebulous concept, Kimpton said that "the petty meanness of immediate efficiency must yield to those larger human values that produce an ultimate efficiency."

AIR OF EXCITEMENT

Fourth, enumerated Kimpton, is the air of excitement one always feels on the campus of a great university.

"The great university, if it could be personalized, would be a fit subject for the psychiatrist's couch, and yet it would lose all its greatness if it were tortured into adjustment through analysis."

In conclusion, Kimptoo stated, "There is a final characteristic that is a part of a great university, and I find it peculiarly difficult to put into words.

"The great university has a sense of direction, but you have to watch this one."

"FINAL GOALS"

Pointing out that setting a final goal and leaving it so static that it can be obtained is to move in reverse, Kimpton said that "The final goals and ultimate objectives of education should be constantly redefined in the process of trying to realize them."

He specified, "The neal blueprint of a curriculum, the exact formulation of the objectives of a scientific experiment, the final meanina and value of a program in the humanities, are things that never happen in a great university.

"I don't mean, of course, that, like Leacock's hero in Gertrude the Governess, we should ride madly off in all directions, but the direction that we go, like the navigation of a ship, is subject to constant adjustments for wind and tide and magnetic deviation.

NEW VALUES

"And the voyage, all the way along, takes on new and unanticipated meanings and values, and the destination is always relatina this idea to individuals," Kimptnn stated. "It is good to know where one is going, but it is an unhappy thing ever to arrive."

The U of C head concluded with the following:

"As I have observed your phenomenal progress over the past ten years, you possess all of the characteristics that are a part of a great university.

"You have guaranteed your destiny by the wise selection of your new President, Dr. Robert M. Strozier."

Board Head Inaugurates New Prexy

A packed Westcott Auditorium this morning heard Dr. Robert M. Strozier describe Florida State University as a "miracle in the academic world" in his inaugural address.

Strozier spoke to the throng of assembled delegates and well wishers immediately after tha charge was given him by Board of Control Chairman James Love during the induction ceremony. The audience stood throughout the induction period.

Referring to the growth of tha university from a small women's college to major university status, Strozier commented that "happily, quality and quantity have gone hand in hand."

ON GROWTH

"In a little more than a decade of its life as a university, Florida State has tripled its enrollment, built acres of classrooms, dormitories, gymnasiums, stadiums, auditoriums, laboratories and a magnificent library;

"Established a dozen schools and divisions; attracted hundreds of additional distinguished faculty members and embarked upon advanced studies and research in many areas."

"A university's first responsibility must be to the intellect," he went on, "but it must not nealect its search for moral and spiritual perfection.

"A university must have the wisdom and goodness to educate its students for living with other men and with themselves."

Strozier added that "a college should provide for its students a liberal education, but a university has still an added responsibility, that of seeking out the truth, which we call research.

"In this regard, the State of Florida has a particular responsibility to its citizens."

LONG A DEBTOR

Speaking specifically of graduate education, Strozier said that Florida had "too long been a debtor." He quoted a statistic indicating that nearly 39 per cent of Florida's graduate students are educated elsewhere.

"Graduate education," he said, "has been inadequately advanced while the state has had a phenomenal growth in wealth and population.

"Graduate education is inexpensive in the long run. No institution has the right to use the title university unless it is more than a group of colleges and schools.

"It must have an air of excitement about learning as its pervading tone; it must have graduate and professional areas where important work is underway;

"It must be dedicated to pure research as well as distinguished teaching. We have earned the right at this institution to call ourselves a university; we shall earn the right to be called a great university."

LARGE GIFTS

The president then told of several instances of success in his quest for financial support from private individuals, much in the pattern of the Universities of Michigan and California.

"The first person to send a check was Mr. Reeves Bowen; initiating a practice we hope many others will follow," he said, and added that a gift of mineral rights to Florida property had been received from Dr and Mrs. Charley K Wall.

The lecture series that students have been asking for for several years was given a shot in the arm by the president's announcement of a gift from Frank D Moor, for the expressed purpose of bringing outstanding lectures to the campus.

A gift of $10,000 from Tallahassean Weldon G Starry to furnish the new School of Business conference room, and a gift of $5,000 from faculty member George Weichelt for the furnishing of the student-faculty conference room in that building were also announced.

MONEY HELPS

"Money does not make a university distinguished," Strozier said, "but it helps."

Saying that he expected Florida State University to continue to grow in every way in the future, Strozier concluded:

"Today as I stand before this erudite assembly, I feel a sense of deep humility, tinged with exhilaration.

"My debt to our governor, tha board of education, and the board of control is immense. My gratitude for the sympathetic support which I have received

(Continued on Page 6)

Studied in Sorbonne

New Prexy Active Before Arrival

By DOLORES LAFFERTY

Dr. Robert M. Strozier, Florida State University's new president, led an active life before he came to his full time job here this past September.

Born July 20, 1906 in McRae, Georgia, President Strozier graduated from Mnultrie, Ga. high schools, took his PhD in romance languaaes from the University of Chicago; his Bachelor's and Master's degrees, in 1929 and 1930, respectively, from Emory University, Atlanta, Ga.

He also studied at the Sorbonne in 1932, and in the sprina of 1957 returned there on invitation to give a series of lectures.

Dr Strozier was professor of romance languages at Georgia State College for Men in Tifton from 1930 to 1933. He was dean of men and professor of French at West Georgia College from 1933-1940.

He went to the University of Georgia in 1940 as associate dean of students and associate professor of romance languages, and stayed there until 1945 when he went to the University of Chicago as assistant dean of students. He became dean of students in 1946.

CONSULTANT

Consultant to the State Department on the education exchange of students at Chicago, including the Fulbright program; a member of the board of International House at Chicago and president of the International House Association; board member of the Masaryk Institute; chairman of the fellowship committee of the LaFayette Foundation and member of the executive committee of the National Association of Deans and Advisers of Men, are some of his many activities and interests.

He also has served as president of the University of Chicago Settlement, and of the Chicago Medical College, and as president of the National Association of Personnel Administration.

His wife is the former Margaret Surnett, of Denver, who took her AS degree from the University of Colorado and her AM degree from the University of Chicago. As an undergraduate, she was a member of Pi Beta Phi sorority.

Mrs Strozier was a member of the Women's Board of the Art Institute of Chicago and of the board of directors of the Chicago Lying-in Hospital of the University of Chicago.

THREE CHILDREN

Dr. and Mrs. Strozier have three children; the oldest is Robert Jr., who graduated from the University of Chicago high school last June and is now in New Delhi, India with friends o. the family. He will return this summer to enter college next fall. Charles, or "Chuck" as he is called, is a freshman at Leon High School in Tallahassee. Aone is now enrolled in the fifth grade at FSU's Demonstration School.

Mrs Strozier has accompanied her husband on many of his trips around the state of Florida to get to know the people and state better. **The family attends St. John's Episcopal Church.**

Strozier's Brothers Expected Here

Two brothers of Dr. Robert M Strozier, including one who is flying from Rio de Janeiro for the occasion, will be on hand when he is inaugurated Friday as president of Florida State University.

Fred Strozier, who is in charge of Latin American operations of the Associated Press, was correspondent for many years for the AP in Miami, Jacksonville and Tallahassee. At Tallahassee he covered the capitol and several sessions of the legislature for AP.

He is expected to arrive Wednesday or Thursday. A brother from Baxley, Ga., W R Strozier, and his wife also are expected for the inaugural activities, which open Thursday night with a faculty concert.

LUNCHEON, RECEPTION FOLLOW INAUGURATION

Approximately eight hundred inaugural delegates and student representatives will attend a luncheon in the Suwannee Room at 12:30 p.m. today.

The luncheon will be held following the convocation. The Reverend Harold G. Sanders, pastor of the First Baptist Church of Tallahassee, will give the invocation. Local hosts have been assigned to each table.

STUDENT BODY INVITED

The entire student body has been invited to participate in the first big social event after the inauguration. A reception for all graduate and undergraduate students will be held on Sunday from 3:30-5:30 p.m. at the President's home.

"Church dress is the appropriate attire for the reception," said Miss Marie Williams, social director. "Forty-two students will assist Mrs. Strozier in givina the reception."

Miss Williams urged that students use the buses that will be provided rather than taking their own cars due to lack of ample parking facilities. Buses will shuttle between campus and the President's home at 1036 W. Tennessee Street on Sunday beginning at 3:30 p.m. The buses will stop at Bryan, Landis Arcade, and West Hall.

WILL BROADCAST INAUGURATION. These students, members of a journalism class in radio continuity writing, will do a broadcast of inaugural ceremonies for a local station this morning. Left to right are: Pat Warner, chief writer, Frank Kaney, producer, Gingir Connor, asst. producer, Laurie Hosford, reporter, Patti Wisener, writer, Rod Vaughn, chief reporter.

Organized Campus Leaders

Many Policy Shifts Made By Strozier

A number of changes in policy have been made since Dr. Robert M. Strozier took the position of president last September at Florida State University.

The **Flambeau** inquired this week as to what progress had been made in the administration and policies toward which Dr. Strozier expressed opiniona earlier this year, and these facts were discovered:

It was Dr. Strozier's opinion that "Informed student opinion should be heard."

Since that time the president has organized a group of campus leaders who meet regularly at his home to discuss various problems pertainina to students.

CLEARING HOUSE

Dr. Strozier, while serving at the University of Chicago, helped organize student government and a student-faculty committee as a clearing house.

It was also the president's view that student government should have a voice in affairs which deal with the students. As a result, student members now serve on the hospital board.

In an address to the faculty last September, Dr. Strozier expressed a desire for administrative heads and deans to teach classes in order to keep in touch with the students.

Several deans are now teaching classes, and Dr. Strozier himself plans to begin teaching by the fall of 1959.

ADD DISCUSSION

Believing the size of classes to be more important than the size of the university, the president said he would like them to be small enough for discussion as well as lecture.

This year for the first time, classes consisting of under ten students were not disbanded. In previous years, classes of such a size were dropped from the curriculum for that semester.

The new president feels students should be housed comfortably so that their physical surroundings are conducive to attaining the educational aims of the institution.

"The living units are excellent laboratories for the extension of the educational program of the university. The counseling program within and without the residence halls should be geared toward the development of the talents of all the students," he said.

Measures have been taken by the Board of Control and legislature, and already work has been started toward the building of a new International House.

State's Best Editorial Page 1957

New Era Embarked Upon

Florida State University will embark upon a new era with the advent of our new president whom we are honoring today.

The change of eras in the history of FSU is quite noticeable. It was in 1851 that the Florida Legislature passed the act to establish the Florida Institute which for the next fifty-four years was known as the West Florida Seminary, the Florida University, and Florida State College.

In 1905 the first milestone was passed when the Buckman Bill recognized the Institution of higher education to include a university for men at Gainesville and a college for women at Tallahassee.

The most significant milestone in our history, however, occured in 1947 when, by an act of the Legislature, the Florida State College for Women became the coeducational Florida State University.

* * *

In May it will be eleven years since this giant step was taken and the tremendous strides in the educational and physical facilities of the campus indicate we have much to show for this period.

Under the competent engineering of former president Dr. Doak S. Campbell, millions of dollars went toward providing adequate facilities for our rapidly increasing enrollment, with additional funds on the way.

Dr. Strozier comes to FSU at a prosperous time—at a time when expansion is well enough on the way that other areas of the university can easily be developed without the worry of needing space.

When Dr. Strozier was appointed by the Board of Control a short six months ago we wondered what sort of changes would come about under his administration. Wisely, Dr. Strozier said at that time he didn't intend to make any changes until he studied the university.

Since taking office in September, Dr. Strozier has more than met everyone's expectations. He has had the opportunity to travel throughout the state gaining much good will for the university. And he has taken time to get acquainted with faculty and students alike.

* * *

Some of the questions formerly asked about the type of university Dr. Strozier will administer have been answered in a small way through the various formal and informal talks he has made to campus groups.

In a statement to the faculty, the president warned against several of the problems now facing FSU. He urged that social activities, though important in a student's development, should be developed in proper perspective to the academic program, and he warned against vocationalism proventing students from obtaining a good general education.

It has been debated to a stalemate the question of whether extra-curricular activities play too large a role in an FSU student's life. We do not think anyone can deny that "they are highly developed," but we feel it is a good sign if they receive encouragement of a more academic nature.

We have several Schools which lean towards vocationalism. We feel, however, these Schools will give students a balance between "trade school" courses and liberal arts courses with the leadership of our new president.

* * *

Dr. Strozier expressed how we may earn the right to be called a great university in his address today.

He said such an institution "must have an air of excitement about learning as its pervading tone; it must have graduate and professional areas where important work is underway; it must be dedicated to pure research as well as distinguished teaching."

These are gigantic fields in which to work. Already FSU is fulfilling these requirements, especially in the two latter categories.

But what of developing "an air of excitement about learning?" We feel this area is one which students will achieve as the result of the plans of the administration. However, it is an area in which students themselves should play a large part.

Florida Should Attract Profs

Future instructors of higher education will be interested in attending the American Association of Professors conference tomorrow.

The professors of Florida's state universities—Florida A & M, FSU, and the University of Florida will gather here to discuss the economic problems of the university faculties.

Among the subjects to be discussed are "Social Security for University Faculties," "Salary Scales," and "Sabbatical Leaves."

The professors will try to tackle the difficult problem of attracting enough instructors to meet the increasing demands for high enrollments and methods to keep these instructors employed.

Even today we are made aware of the importance of keeping a capable and learned faculty in order to make a great university. Florida state universities perhaps offer smaller salaries than professors could earn in private industry or in bigger Northern universities. But we have much to offer in the way of climate and environment.

PEANUTS
SCHULZ

Public Symposium Slated For 2:30

A symposium on "New Horizons in American Education" will be held at 2:30 this afternoon in Westcott auditorium as part of the inaugural program.

The public is invited to attend the discussion, which will follow the luncheon for delegates and guests in the Suwannee Room.

Clarence Henry Faust, president of the Fund for the Advancement of Education of the Ford Foundation; Mrs Anne Gary Pannell, president of Sweet Briar College; and Marcus Edwin Hobbs, dean of the Graduate School of Duke University, will participate in the symposium. They will be introduced by Dr. Marian Irish, head of the political science department.

A University President Should Be...

By EMMETT JARRETT

We feel that it is appropriate at this time to discuss some of the qualifications of a university president, and some of the personal characteristics which a man in this position ought to have. This will necessarily be idealistic, but we are led to believe that these qualities exist in some measure in our new president, Dr. Strozier.

Foremost among the qualifications is that the university president be an educated and civilized man. We add civilized because the word is more adequate to what we mean, and also because of the degeneration of the term "educated" in our generation. A civilized man is one who is familiar with and loves Western culture and society in all of its good aspects, and attempts to correct those things about it which are not good from within on the basis of humanistic ideals. He is the balanced man, the man who is neither a scientist nor an artist nor a litterateur nor a student nor a statesman only, but all of these things and some thing more.

The president of a university should be a teacher. He should love learning and be dedicated to the propagation of it, and be a propagator himself. His education should be liberal, but not so liberal that he does not have a special subject in which he is competent. We understand that Dr. Strozier plans to teach a course in French literature (Balzac), his specialty, and we applaud this heartily.

He should possess a knack for administration without being an administrator to the exclusion of other aspects of his office. More specifically, and more important, he should be a leader of men, capable of inspiring the confidence through his actions of faculty and students. This is where his statesmanship is most needed, for a university of the size of ours is inevitably involved in disagreements. The president should not suppress differences, but encourage their open expression and harmonious reconciliation.

Finally a university president should have a "young" attitute. This does not exclude older men, but older outlooks. Some of the youngest men that we know are chronologically over sixty. The president should be open to new ideas and concepts in the same way that he is open to the use of newer buildings. He should approve and encourage new teaching methods. (Here we respectfully suggest more seminars in advanced studies.) He should be abreast of the political and social changes of the present generation and tolerant of them if not sympathetic to them, remembering always that change is one of the few permanent factors in the universe.

There is much more to be said on this subject. Many men have said much already which will dwarf our short comment, but the final word has not yet, and will not, so long as men are men, be said.

We extend our best wishes to President Strozier on this his inauguration day, and urge all of the students of FSU to join us in our hearty support of our first ranking teacher of the university.

Dear Mama Seminole:

DEAR MAMA SEMINOLE:

Georgie very happy today. New Chief take over officially today. Many, many important people visit reservation to witness this event. All pleased with new Chief. Mama, it good to know that Chief do many things which go unnoticed by most of tribe. Many changes take place behind scenes which make for more cooperation and understanding by all concerned. He is fine leader. Everything O. K. on top level.

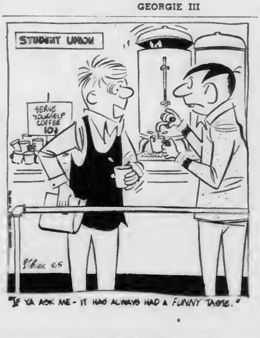
This not mean that little Chief of reservation in same position. Before now short leader well pleased with his little group. Him proud of "better food," "moving-picture discount" and other small improvements.

But letter with words "Mickey Mouse" start wheels moving in many heads. Tribe realize that many people put much faith in Wednesday afternoon meeting, but most decisions carry little weight. Me think short man with head duties should uphold his group.

Me realize truth when him say Mickey Mouse label is true. This prove to Georgie that something wrong somewhere. Why have leader with no faith in "law-making" body? If group have no power than room 210 Longmire could be used for recreation room. . . . maybe that the case now.

Me wonder if food on reservation seem to agree with tribe. Georgie notice lately that old routine being followed by food services. Some improvements stay, many others vanish. Maybe Georgie has tribe some day soon. Must go now Mama.

LOVE ALL,
GEORGIE III



"IF YA ASK ME - IT HAS ALWAYS HAD A FUNNY TASTE."

From The 'Lantern'

They Went Thataway

In an age of supersonic missiles a high percentage of America's 42 million TV homes last week preferred to watch a much slower mode of transportation—the

Five of the ten most popular shows on the circuits were westerns, according to a national TV rating service. The horse operas have earned a unique distinction this season by grabbing off more TV time than any other type of program.

They came on the airwaves 21 strong this fall, and not one of them has been shot down along the way.

Network executives are only too happy to give the viewers what they want, so there are three more wild west yarns in the works for the next season.

One wonders in the face of this onslaught of thundering hoofbeats what magnetic force draws western fans. Psychologically there are many answers.

The most popular theory is that the viewer projects him[self] into the role of the hero. The[re] are very few heroes in mod[ern] civilization, although the des[ire] to live the role of hero per[haps] exists in all of us.

Some suggest that the west[ern] has gained popularity becaus[e it] depicts rugged individualism [...] this situation the TV fan who [has] little chance in our mechan[ized] life to be an individualist [...] escape for half an hour into [a] dream world where men [...] men. In the typical horse ope[ra] the hero always does the cou[ra]geous thing in a tight spot, som[e]thing that his modern coun[ter]part rarely has the opportu[nity] to do.

At any rate, the viewer [who] can't live with the tales of [the] old west seems to have only [one] alternative in the face of m[ore] westerns to come. That is [to] saddle up and ride out of [his] living room for new parts.

University Heads Steeped In Tradition

By BUCKY CANON

When Dr. Robert M. Strozier is officially inaugurated [as] President of Florida State University this morning, he will st[ep] into a position steeped in academic tradition.

In medieval times the heads of universities were termed chancellors. In the earliest universities these chancellors were prelates of the church appointed to govern by a bishop or Pope. Gradually, as the universities became more concerned with the arts than with theology, the chancellor either ceased to be an ecclesiastical appointment or became a figurehead.

Those universities where he became a figurehead were on the continent. In universities such as Bologna and Paris the real power lay with the rectors who were executive officials elected by the masters at Paris and the students at Bologna.

At Bologna two rectors were elected representing the two "nations" which were, roughly speaking, Northern and Southern Europe. At Paris one rector elected by the arts faculty gradually emerged as head of the university.

A closer resemblance to our modern university president grew up at Oxford and Cambridge in England. Here the chancellor actually governed the university.

The first chancellors of Oxford were church appointed but as there was no cathedral at Oxford, the chancellor came to be elected by the masters around 1250. The election of chancellors was a bienoial affair and originally a sort of rotation was used and chancellors were seldom reelected. By 1300 the reelection of chancellors was a frequent practice though.

The crown granted to the chancellor of Oxford temporal power (jurisdiction over the campus and students without local or church interference) in about 1260. In the century following the role of the king or his ministers was increas[ingly] important in the selection of [the] chancellor.

As it took more and m[ore] money to run a univers[ity] those who supplied it natura[lly] assumed the power to name [the] head. This was manifested [in] England and America by the foundation and control of unive[r]sities by churches or gover[n]mental agencies.

The academic regalia has [an] ancient history too. The ancie[nt] master wore a simple [...] gown (somewhat similar to th[at] of a present day priest), know[n] as a cappa, with a silk hood [for] summer and a fur one for w[in]ter.

The square cap was called [a] biretta and had a tuft on top[;] tassels are a relatively mode[rn] innovation. For the most pa[rt] the modern regalia is not sim[i]lar to its medieval European an[c]estor.

Inaugural customs diffe[red] too. In Bologna it was the cu[s]tom after the inauguration of [a] new rector for the students [to] rip his gown from him and [sell] back to him the pieces [...] off. Also every incoming rec[tor] was expected to provide a h[oli]day feast and a tournament [at] arms.

At St Andrews in Scotland [it] was an ancient custom for st[u]dents to throw eggs or toma[]toes at the chancellor during [his] inaugural address in the cat[he]dral. While this was done in th[e] spirit of fun, it was done in [a] loud and boisterous manner.

However these medieval [...] of inaugurations are not [ex]pected this morning. Rather t[he] inauguration should begin th[e] advancement of Florida State [as] a great university under th[e] leadership of President Strozi[er].

Before She Met Dr. Strozier

Mrs. Strozier Wanted To Be A Dr.

Although Mrs. Robert M Strozier wanted to be a doctor like her father and found living in Chicago exciting, she appears happy and well adjusted as the wife of the new president of Florida State University.

"Tallahassee offers everything, and more than we have time for," she said in considering the busy weeks ahead which will begin with Dr. Strozier's inauguration as president today.

Margaret Burnett Strozier was born in Boulder, Colo., the daughter of Dr. and Mrs. C. T. Burnett. When she was just beginning school, she moved with her family to Denver, then returned to Boulder to earn a degree in English literature at the University of Colorado.

Her father opposed his daughter becoming a doctor, although a son, Dr. C. H. Burnett, followed his father in studying fedicine, is now head of the Department of Medicine at the University of North Carolina. The father, now retired, and mother live in Carmel, Calif.

TRIED TEACHING

After graduation at Colorado, the doctor's dauughter tried teaching school, but that was not for her. She then found a job in the Colorado State Hospital, and knew she was on the right track for a career. Next, she enrolled at the University of Chicago, seeking a master's degree in medical social work.

Mrs. Strozier and her husband met at the University of Chicago, in the cafeteria of International House where both were living. Both were intent on earning graduate degrees. That was in 1935.

They were married Dec. 27, 1937, before either attained the coveted degree. They shuttled between jobs and graduate work until she earned her master's degree and he his PhD.

Mrs. Strozier had her first glimpse of Tallahassee as a bride in the spring of 1938. It was just an overnight visit for the young couple, to see his mother and brother, before going to Georgia to see more relatives.

Mrs. Strozier remembers playing bridge that night in Tallahassee 20 years ago. She did not return until last summer when again she came with her husband, but this time to make arrangements about a home for the family and schools for the children.

With her house bright and shining and ready for company, Mrs. Strozier should be able [to] relax, find more time to listen to favorite Beeth[oven] or Brahms symphonies or concerts on the hi-fi, or perhaps read some new biography [...] more in her special magazines, Time and The New Yorker.

But she has few free hours. She likes to accompany her husband on some of his num[er]ous speaking-engagement trips, particularly to different parts of the state (all new to her). Than she wants to do a little entertaining, especially a series of informal affairs for facul[ty] wives, to get to know them better.

Mrs. Strozier is trying to go slow on join[ing] clubs and organizations which make regular de[]mands on her time. She had the experience [in] Chicago of being deeply involved on women['s] boards and committees, and knows how time[-]consuming they are, no matter how wor[th]while.

TIME FOR FAMILY

Like most mothers, she wants to keep a litt[le] time in reserve for her children—10-year o[ld] Anne and 13-year old Charles are the two [at] home. The older son, 17-year old Robert Jr. [is] spending this year between high school and college in India with friends from the Univers[ity] of Chicago.

His letters home arrive about every 10 days, sometimes enclosing a snapshot, like one showing him making friends with an elephant. Of course these letters are read and reread by all the family.

Young Anne is keen on mother-daughter play. She has just capitalized on having the German measles by persuading her mother to play many games of jacks. Only trouble, Anne discovered that her mother was a past jack-playing champion, and little daughter just can't win.

Anne has resumed piano lessons in Tallahassee, and seems to share her mother's love of music. She is now getting some violin lessons at the University School which works out fine as far as Anne is concerned.

She has great plans for fiddling while her mother accompanies her on the piano. To date they have progressed remarkably well together with the tune Anne calls "Hot Cross Buns" but which her mother knows as "Three Blind Mice."

Tankers, Gators Clash Tomorrow

Larry Block

The Other Side

There is a popular saying that there are two sides to every ... Last week this column gave the opinions of Baseball Coach ... Litwhiler regarding the signing of collegiate ballplayers ... they graduate.

This column was prompted by the signing of Florida State's ... infielder Pfil Hunt for a bonus of over $15.000.

Hunt appeared on campus Monday to straighten out his ... record and take a law school placement test which served ... "means to an end to insure my going to law school."

One thing is certain," Hunt said. "I will definitely finish ..." At present he has two full semesters to go.

He plans to enter the University of Oklahoma in the fall for ... special geology course which is offered here only in the second ... which makes it impossible for him to return.

However, "I will be back at FSU in 1958 for my degree in ...ology."

There are times in peoples lives when they have to do things ... dislike and this was one of those times. "The money will ... out at home and clear up things immediately. That was my ... reason for signing.

Should anything happen to me, I still receive the bonus.

...OULDN'T PLAY IN TOURNAMENT

For another, I couldn't play in any post season tournament ... I have already played three years." Hunt batted over .300 ... varsity competition.

"The day I signed I tried to get Litwhiler on the phone, ... couldn't reach him. When I finally did contact him it was ... late.

There were about nine clubs involved altogether, but Los ... and the Orioles were offering almost the same terms. ... The Baltimore team couldn't or didn't come as high as the ...

Hunt will go to spring training with the Victoria team of the ... League, class AA, but doesn't think he'll stick with the ...

"As long as I'm playing well I'll stay in baseball, but if ... feel I'm slipping I'm going to get out."

The scout that signed Hunt is not very popular with Lit... or with some of the current players.

He's followed me for a long time," said Pfil, "and has been ... up above board in my contact with him. Hamilton spends ... of time in Montgomery and has watched me since high ... and when I played Legion ball.

"He didn't handle himself as a scout with me."

Some of the directors of the Los Angeles club came down ... to me, and I'm perfectly satisfied with the Dodgers.

...RAISES COACH

I've really enjoyed playing for Florida State, and I couldn't ... a better coach or individual than Litwhiler. Even the ... that ride the bench like him; that's really something."

Naturally the loss of Hunt has thrown the proposed in... alignment out of kilter. Owen McCarron may be pulled from center field to play second base or the reserve in...ders may fight it out for the starting position.

I hate to leave school and pull out on the team, but after ... it over carefully I felt it was something that couldn't ... turned down."

On Campus with Max Shulman

(By the Author of "Rally Round the Flag, Boys!" and "Barefoot Boy with Cheek.")

THE PLEDGE YOU SAVE MAY BE YOUR OWN

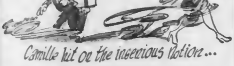
Today's column is directed at those young female undergraduates who have recently pledged sororities and are worried, poor lambs that they won't make good. Following is a list of simple instructions which, if faithfully observed, will positively guarantee that you will be a mad success as a sorority girl.

First, let us take up the matter of housemothers. The housemother is your friend, your guide, your mentor. You must treat her with respect. When you wish to speak to her, address her as "Mother Sigafoos" or "Ma'am." In no circumstances must you say "Hey, fat lady."

Second, let us discuss laundry. Never hang your wash on the front porch of the sorority house. This is unsightly and shows a want of breeding. Use the Chapter Room.

Third, meals. Always remember that planning and preparing meals for a houseful of healthy girls is no simple task. Your cook goes to a great deal of trouble to make your menu varied and nourishing. The least you can do is show your appreciation. Don't just devour your food, praise it. Exclaim with delight, "What delicious pork jowls!" or "What a yummy soupbone!" or "What scrumptious fish heads!" or "What clear water!"

Fourth, clothing. Never forget that your appearance reflects not just on yourself but on the whole house. It was well enough before you joined a sorority to lounge around campus in your old middy blouse and gym bloomers, but now you must take great pains to dress in a manner which excites admiring comments from all who observe you. A few years ago, for example, there was a Chi Omega named Camille Ataturk at the University of Iowa who brought gobs of glory to all her sorors.



Camille hit on the ingenious notion...

Camille hit on the ingenious notion of suiting her garb to the class she was attending. For instance, to English Lit she wore a buskin and jerkin. To German she wore lederhosen and carried a stein of pilsener. To Econ she wore 120 yards of ticker tape. Her shiningest hour came one day when she dressed as a white mouse for Psych Lab. Not only her Chi Omega sisters, but the entire student body went into deep mourning when she was killed by the janitor's cat.

Finally, let us take up the most important topic of all. I refer, of course, to dating.

As we have seen, the way you dress reflects on your sorority, but the men you date reflect even more. Be absolutely certain that your date is an acceptable fellow. Don't beat about the bush; ask him point-blank, "Are you an acceptable fellow?" Unless he replies, "Yeah, hey," send him packing.

But don't just take his word that he is acceptable. Inspect him closely. Are his fingernails clean? Is his black leather jacket freshly oiled? Is his ukulele in tune? Does he carry public liability insurance? And, most significant of all, does he smoke Marlboros?

If he's a Marlboro man, you know he's a lot of man. You know he has taste and discernment, wit and wisdom, character and sapience, decency and warmth, presence and poise, talent and grit, filter and flavor. You will be proud of him, your sorority will be proud of him, the makers of Marlboro will be proud of him, and I will be paid for this column. © 1958 Max Shulman

• • •

The makers of Marlboro wish to announce that Mr. Shulman has been paid for this column and will continue to be paid for bringing you his homely philosophy throughout the school year.

Hurricanes, Tampa Cage Road Foes

By BEN BALSER
Assistant Sports Editor

Now in the homestretch of their 1958 season, Florida State's cagers take to the road today to meet two downstate rivals, the University of Miami and the Tampa Spartains.

The Seminoles will meet the Hurricanes in the "Magic City" tomorrow night and invade Tampa on Monday evening.

This game will be the last one of the season for Miami which sports a 13-8 record. The FSU five downed the 'Canes earlier in the season, 71-70. The game was played here, however, and the Tribe will not hold the home court advantage.

LATE SPURT

The Hurricanes have put on a late season spurt and have won their last six contests. The reason for the strong finish, according to head coach Bruce Hale, could partly be because of the vast improvement of his seven foot center, Dick Berghoff.

Berghoff has hit for double figures in the last six wins, and has shown better than average from on the boards.

Along with Berghoff in the starting five will be fowards Marty Burdette and Ed Marris. Burdette gave the Tribe a rough time here in the first contest as he was high scorer for the Canes with 18.

At the guard posts, Miami will have Gene Stage, playing in his college finale, and Bill Talbot Stage, rated as one of the best backcourt men in the state and in Miami's history, has broken the Hurricane record for most points scored in a career which formerly was 1076.

The Hurricanes have had many mutual opponents with the Tribe. Most recently was Army, Oklahoma City and Stetson. The Miami quintet beat Oklahoma City, 83-66 and the Seminoles whipped Reed and Co., 57-52.

The Cadets of West Point ran over the Tribe 71-62 then journeyed to Miami where Bruce Hale's men gained an easy, 82-62 victory.

Miami has taken Stetson twice, 103-60 and 92-85. FSU played the Hatters once and won easily, 77-60.

USUAL FIVE

Seminole head coach Bud Kennedy will probably start his usual lineup of Burt Deckel (16.5), Hugh Durham (13.6), Jim Liteky (11.5), Larry Strom (10.3) and Danny Boltz (5.5).

The Spartans of Tampa are expected to be at full strength for the Monday night tilt with the Tribe. When Tampa visited-ed Tallahassee for the first clash this year, they were swamped, 72-53.

But, that night, Tampa played without the services of its senior center Wiley Cairns. Experienced guard Bob Swigert was also missing from the Spartan lineup that game.

The Memphis State Tigers employed a full court press and a tight man to man defense to grind out a 66-51 victory over the Tribe Tuesday night.

The crowd of over 2,000 saw the Seminoles stay with the Tigers the first half and finish that stanza behind, 23-21. But the second half was a different story.

FSU's new found zone defense held the Tigers outside, but the accurate set shots of Orby Arnold and Skip Wolfe made the zone look like a farce. The Seminoles were not so accurate on their shots as they garnered a .261 average from the field, Memphis was .338.

The Tribe was also outrebounded 61-39 by the Tigers who average 6-5. Arnold was high scorer for the game with 23, followed by Wolfe with 22. Durham was high man for FSU with 16, while Deckel tallied 17.

Gymnasts Seek 3rdStraight Win

Florida State gymnasts face a busy schedule this weekend meeting the Pensacola Naval Air Station team at Pensacola tonight, and then tangling with Mississippi Southern tomorrow afternoon in Hattiesburg.

The Seminoles have two victories so far this season, both over Georgia Tech, and recently defended their South Florida AAU crown.

Coach Hartley Price expects little trouble from either of the teams mainly, "because of our depth in so many events. Don Preisser, our trampolinist, may be pushed in that event, though."

Price was referring to Jim Zapperes, Pensacola's fine trampolinist and tumbler. The other Navy standout is Chuck Wimmler, who competes in free exercise and parallel bars.

Pensacola is coached by Bruno Johnke, former Cuban Olympic gym team mentor, who had previously coached FSU's Lecouna brothers in the Olympics and Pan-American games.

The Tribe will be led by the veteran Chick Cielo, and sophomores Fernando Lecuona and Larry Maimlin.

The results of these two meets will determine the lineups in the Southern Intercollegiates to be held in Hattiesburg next weekend.

Don McMahon, the Braves' brilliant bull-pen ace, pitched 47 innings of relief in 1957 and didn't give up a single home-run. In those 47 innings, the fire-balling ringhander allowed only 33 hits and eight earned runs and registered 46 strikeouts. He finished with a brilliant ERA of 1.53.

Nugent Pleased After Surprise Scrimmage

Florida State opened its spring football practices Tuesday in the Tallahassee cold, but soon had things "winter warm" thanks to an early surprise scrimmage.

"They really have pep and enthusiasm," said Head Coach Tom Nugent after Wednesday's practice. Nugent's remark followed on the heels of a spirited 30 minute scrimmage that duplicated the fervor with which the Tribe hit at each other during the opening practice.

Nugent, enjoying the spirited response of his players, outlined the procedures used in the practices on his way back to the stadium.

"For the first 40 minutes the players are assigned to one of the following groups, linemen, ends, linebackers and secondary men. Next, we emphasize team play and then end the practice with a scrimmage."

SQUAD GAME

The Seminoles are pointing toward their annual spring football intrasquad game, to be played on a date yet to be selected during the third week of March.

If the players should play as viciously in the game as they have in scrimmages this week the fans should be treated to a rousing free-for-all battle.

If the Tribe is to have a successful season next year playing such toughies as Tennessee, Georgia, Georgia Tech, and least of all Florida, Nugent must find some depth that perenially is missing.

"We lose lettermen this year due to graduation. One of our main jobs is to find a good second team," stated Nugent.

Nugent explained that the concentration is on defense and tackling. "We'll take care of the offense later. Right now we don't care who runs the ball. We'll emphasize that after we've got our defense sharpened."

Several of the many standouts on defense have been Bob Fountain and John Spivey, ends; John Craig and Royce Bryant, tackles; Al Ulmer, Leo Baggett and Terry Moran, guards; and John Bell, center.

PDT, Magnolia Track Champs

Winning by an easy 26 point margin, PDT won the Greek Division of the 1958 Intramurals Track Meet. Magnolia won the Dorm-Independent Division by a 12 point margin.

PDT only placed first in two events, the 440 and the 880 Relay, but they placed in all other events, thus totaling 46 points.

Magnolia's win was even more unusual, as they did not place first in any event, but they totaled 50 points by placing in all events.

Placings for the meet were: GREEK: First, PDT; Second, SC 20 pts; third, ATO 19 pts; fourth, SAE 17 pts; fifth, SN 13 pts; sixth, KS 11 pts; seventh, DTD and KA 8 pts (tie); ninth, PKT 5 pts; tenth, LCA and PKA, 3 pts (tie).

Dorm-Independent: First, Magnolia Hall 50 pts, second, Penthouse Gang 38 pts; third, Senior Hall 37½ pts; and fourth, BSU 20½ pts.

TOUCH FOOTBALL

Baptist Student Union won the Intramurals Touch Football Championship, Dorm-Independent division, on the merit of a forfeit by the Veterans Club.

The final game in the Greek touch football division will be played between PDT and SN on Sunday afternoon. These two teams have met twice in the playoffs with each losing a game.

Box scores for the Intramurals Track Meet:

GREEK DIVISION
(Placing left to right)

100-yard Dash—KS ATO, PDT, SAE, ...D
220—KS, ATO, LCA, DTD, PDT

Shotput—Sr Hall, Sr. Hall (tie) BSU, Magnolia, BSU.

Weather Slows Baseballers

Florida State's Seminole baseball team goes into its fourth week of practice Monday, and finds its biggest problem to date isn't replacing last year's players, but the weather.

Baseball coach Danny Litwhiler explained that in his four years as FSU coach his teams have always been a week ahead of time in conditioning, but finds the squad this year is a week behind instead.

With the weather taking its time to clear up, the players haven't really had a chance to show anything. But Litwhiler has noticed the booming bat of sophomore Charlie Rogers.

Rogers, according to Litwhiler is hitting the ball harder than anyone else and is expected to be at first base when the Seminoles open their season against Auburn, March 19.

According to the former Cincinnati Red Leg outfielder, there is a real battle going on to see who can capture the second base post vacated by Pfil Hunt who signed a major league contract with the Los Angeles Dodgers.

Stults Forecasts Closest Battle Yet

By TOM HALE

"It's going to be close, oh it's going to be close," moaned FSU swimming coach "Bim" Stults as he referred to the upcoming Florida-Florida State swim meet tomorrow night at 8 in the Women's Gym.

"Florida is coming into the meet with better times than we have in six of the ten events, plus the fact that they are two deep in each race. It will take our finest effort of the year to beat them, but I have reason to believe we can do it."

The Seminole and Gator tankers have split four matches in the last two years. In the initial contest in 1956, which was also the first regular scheduled athletic meeting between the two schools, Florida State won easily, 66-18.

It was the worse defeat a Gator swim team ever suffered. FSU lost the second match that year down in Gainesville in an upset, 43-41.

Last year the Seminoles again won the Tallahassee match 46-40 and lost down in Gainesville, 51-35. The rivalry is deadlocked and never have two teams been so closely matched.

SEC CHAMPS

The defending SEC champions bring with them a former world record holder, Phil Drake, in the butterfly events, plus Dave Calkin, who Stults considers, "the best 220 and 440 yard freestyler in the south today."

Florida Coach Jack Ryan dropped meets to North Carolina and Army, long considered among the best teams in the country.

The Seminoles have lost to southwest Conference champs SMU.

In comparing scores of similar opponents, both have beaten Georgia and Georgia Tech. Florida won the Georgia meet 62-19 while FSU dunked the Bulldogs, 56-25. The Tribe whipped Tech 51-30 as the Gators swept by them 52-29.

"Comparative scores don't mean too much against those two teams because they were so weak this year. We could have and I know Florida could have beaten them by as many points as we cared to," observed Stults.

In the butterfly event, the Gators have a decided advantage with Drake and Roy Tateishi leading the Gainesville attack. Tateishi was a high school all-American and would be the favorite if Drake were not entered in the event.

Both Ryan Ray and Ken Abbott of FSU are co-favorites in the 50 yard freestyle, but the Gator's Bob Duggan and Bill Wenz are also entered and could foment a problem for the Seminoles.

The Tribe seems to also hold the edge in the 100 yard freestyle with Paul Hammond and Glen Thatcher expected to give the Tribe some needy points.

BACKSTROKE IS TOSSUP

The backstroke is figured to be a tossup with Jim Wentworth expected to battle Florida's Bill Ruggie for the top spot. Wentworth has bettered Ruggie's times this year, but Ruggie beat him in the two times they met last year.

Also expected to be a tossup is the breaststroke where the Tribe's Joel Jacobs will face his toughest competition this season against Jim McDonnell. The Seminoles will be strong in the diving with Bob Webber and Bill

Begins Sunday

Mission Speakers Feature Intelligent Faith Week

Florida Chain of Mission speakers, here for the Florida State University Intelligent Faith week, Feb. 22-26, will speak at a number of Tallahassee churches Sunday as well as at campus chapels and religious centers.

Junichi Nakamura, representing the United Church of Japan, is slated for addresses at 9.45 a.m. at Trinity Methodist Church, 11 a.m. at the Christian Church and 7·30 p.m. at the Unitarian Chapel. He is on leave from Kobe Jogakuin College in Japan, where he is registrar and professor of English, for graduate study in American literature at Duke University. Recently he served as interpreter for the American novelist, William Faulkner, in Japan.

LUTHERAN

Dr. John F Nau, a member of the Lutheran church, will speak twice Sunday at the Epiphany Lutheran Church, at 11 a.m and 6.30 p.m. (with St. Stephen's youth). A member of the religion and philosophy faculty at Mississippi Southern, he earned his PhD at Tulane He has had extensive experience in parish ministry.

Dr. Kenneth L. Maxwell, a Baptist, will speak at 11 a.m. at the First Baptist Church and at 6 15 p.m. at the Wesley Foundation on campus. He is the executive director of the department of international affairs of the National Council of Churches of Christ in the U.S.A He was one of 10 ministers in this country chosen for Overseas Exchange co-sponsored by United States and British churches. He earned his PhD in New Testament studies at Yale, and graduate research work at Cambridge University in England

Dr Hugh Wamble, a professor in church history at the Southern Baptist Theological Seminary in Louisville, Ky., will speak at 11 a.m. at Immanuel Baptist Church and at 7·30 p.m at First Baptist Church He previously served Baptist churches in Kentucky and Virginia. A graduate of Mercer University, he earned his advanced degrees at the theological seminary in Louisville.

Dr. William D. Bray, a Methodist missionary on furlough from Japan, will speak at 8:45 a.m. at Trinity Methodist Church and at 11 a.m. at the First Presbyterian Church. He worked with his wife to establish a Christian church at Takarazuka, a city of 40,000 in Japan with 21 Shinto shrines and eight Buddhist temples For a year Dr. Bray held preaching missions in a Buddhist kindergarten while raising money to build a church.

The Rev. L. Paul Jaquith will be the speaker at 11 a.m. at Wesley Foundation. A Methodist, he served as director of the Wesley Foundation at the University of Wisconsin and pastor of the University church from 1951 to 1956 He has participated in many conferences of youth movements. For five years he was the religious news reporter for the Wisconsin Council of Churches' weekly broadcast. He holds degrees from Roosevelt and Northwestern Universities, and is now director of university Christian missions in the National Council of Churches.

The Rev. Kilmer Myers (Episcopal) will speak at four services Sunday at the Chapel of the Resurrection on campus, at 8 a.m. at Holy Communion, at 9 a.m. and 11 a.m. at morning prayers and at 6 p.m. at the Canterbury Hour, held in adjoining Ruge Hall. He is a vicar of Trinity Parish in New York City.

In addition to the seven Sunday speakers, there will be four other religious leaders here to address classes and special groups on the campus during the five-day observation of "Intelligent Faith." One who has just wired of his coming and not previously announced is Dr. Carl D. Soule, field secretary of the Board of World Peace of the Methodist Church. Before taking his staff position in 1945, he was both a college professor and pastor.

FOREIGN POLICY

Dr. Soule will be the speaker Wednesday at the Faculty Christian Fellowship luncheon at noon in Suwanee Room instead of Dr Maxwell who was originally scheduled. He will speak on "A Christian Critique of Foreign Policy."

The other campus speakers are Dr Darley Downs, Congregationalist, executive secretary of the Council of Cooperation and Interboard Committee for Christian work in Japan and director of eight denominational groups serving the United Church of Japan; Joseph G. Heard, supervisor of the college organization activities for the First Church of Christ, Scientist, and also a member of the Florida Bar Association; and Dr. Kenneth M Scott, a surgeon on the staff of Presbyterian Hospital in Taegu, Korea, who has served as a medical officer of the U. S Army in China and later as a surgeon in the Chinese Army.

Prexy's Oldest Son Misses Inauguration

Robert M Strozier Jr., 17, is the only member of the Strozier family who will miss the inauguration of his father today.

Bob, who graduated from high school in Chicago last June, is currently spending a year with a friend of the family, Geoff Ward, in Delhi, India

Young Strozier is planning to attend college in the United States this fall. Emory, traditional college home of the Strozier's, is being given prime consideration, though no decision has been reached.

60 Members Meet

AAUP Conference To Stress Problem Of Holding Profs

By GEORGIANA FRY

With the college enrollment in the state expected to double by 1960, professors from three Florida universities will meet here tomorrow to discuss the problem of attracting enough instructors to meet this demand and to hold on to them later.

The general theme of the annual American Association of University Professors conference is the economic welfare of university faculties.

Four panel discussions will be conducted in the FSU Geology Building, room 120, from 1:30-4 30 p.m.

Sixty faculty members from Florida Agricultural and Mechanical University, Florida State University, and University of Florida will attend and participate in the discussions at the George Washington Birthday Conference.

FIRST CONFERENCE

This is the first time such a joint conference has been held. The AAUP, realizing the rapid increase in college enrollments, hopes through the discussions that economic solutions will be suggested with the purpose of preventing professors from seeking other professions.

Dr. A. B Martin, vice-president of FSU, will welcome the group, announced Dr. David Christensen, president of the local chapter, who will preside.

"Social Security for University Faculties," involving the question whether professors should go under federal, rather than the present state, retirement system, will be discussed by Dr. Charles Conley, associate professor of law, Florida A & M; Dr. Robert F Lansdale, professor of social welfare, FSU; and Burton W. Ames, director of employee-personnel service, University of Florida.

SALARY SCALES

Comparison of Florida's state university, salaries with each other, with other states' universities, and with other professions will be discussed under the topic, "Salary Scales."

Panelists will be Dr Charles U. Smith, head of sociology department, Florida A & M. Professor Lawrence Mansfield, economics department, FSU; and Dr Cecil Phipps, professor of math, University of Florida.

"Sabbatical Leaves" will be discussed by Howard Lewis, instructor of art, Florida A & M; Dr. Hugh Stickler, FSU Educational Service, and Vynce Hines, professor of education, University of Florida

Sabbatical leaves include those yearly leaves given at periodical intervals with full or half salary so professors can travel, study, and do research.

ACHIEVE PURPOSES

The fourth panel will discuss the organizational efforts to achieve the purposes of the other three panel discussions. Members of this panel are Dr. Manning Dauer, head of political science department, University of Florida; David H Reid, research specialist, Florida Education Association; and Gilbert L. Porter, Florida State Teachers Association.

FSU program committee arranging the conference includes Dr David E Levine, professor of social welfare; Dr. William J. Tait, professor of physical education for men; and Dr. Sidney Kobre, chairman, professor of journalism.

AFROTC Passes

Florida State University's AFROTC Unit satisfactorily passed its annual inspection last week.

A report issued by Lt. Coy. Robert E. Burnham and Lt. Col. Joseph C. Styger, stated that "the AFROTC mission was being performed in an excellent manner," and "the leadership program is definitely above the average"

On arrival the inspectors were briefed by the Wing Cadet Officers. They also visited classes and reviewed unit records, and conferred with FSU's military coordinator Dr. Charles Davis and with President Robert Strozier on the activities of the unit.

Call St. Petition Now Forgotten

A petition filed by property owners along Call Street to prohibit student parking has been tabled indefinitely by the Tallahassee City Commission.

The petition was tabled since the University has conferred with the State Road Department to have the street widened, preventing congestion, as soon as the arrangements are worked out, according to Gerald Jones, head of Student parking and car registration.

The streets to be widened are West Call, Dewey and Copeland, on the University side. They will be widened from 6 to 8 feet.

Presbyterians Plan Retreat

BY ANNETTE McINTOSH

Membere of the Westminster Fellowship, student Presbyterian organization, are holding their annual Retreat at "The Southwinds," Lake Placid, Fla., from February 28-March 2.

Rev. Lawrence I. Stell will be the conference leeder. Sandy Burns, Fellowship member, advises you to sign up immediately at the Westminster House if you are interested in attending this event, which will be well worth the trip.

• • •

Members of the Wesley Foundation please note the new Sunday morning schedule: 8 a.m., morning worship service in the University Methodist Chapel; 9:45 a. m., coffee period; 10 a. m., Sunday school classes; 10:45 a. m., buses leave for the community churches; and 11 a. m., Sunday morning worship in the chapel.

New Sunday school classes are: "Christian Ethics," "Comparative Religion", and "History of Methodism". You may sign up for one of these subjects immediately.

Weekly activities include Matins every Mon., Wed., and Fri. morning at 7:30. A coffee hour is held at 10 p. m. on Friday. Firesides, discussions held on Thursday evenings at 7 p. m., have been discussing the book, Confessing the Gospel of St. Mark, by Edmond Perry.

• • •

Life - Liners, youth organization of Tallahassee's First Pentecostal Holiness Church, meet at 6:45 p. m. every Sunday at the church.

Meetings that were held on the first Sunday of each month, following church services, for fellowship, singing, reports, and refreshment, have been discontinued until possibly April.

• • •

The following new officere have been elected for the **Hillel Foundation** and are now planning the semester's program: Allen Breitler, president; Barry Silverstein, vice-president; David Rathfeld, secretary; and Irving Gordon, treasurer.

• • •

Gamma Delta, a Lutheran student organization on campus attended a regional, Florida-Alabama study conference Feb. 14-16 at Alabama Polytechnical Institute. The topic of discussion was "Active Christian Faith on Campus."

This Sunday, Gamma Delta will be featuring a cost supper followed by a discussion led by Dr. John F. Nau, head of the Department of Philosophy and Religion at Mississippi Southern University, and one of the guest speakers during Intelligent Faith Week.

This Sunday the Lutheran Student Association will have a special and unusual program, consisting of an interpretative modern dance of the one hundred and fiftieth Psalm.

It will be presented by Anne Skaggs, a freshman student of dance at 7:30 p. m. in the Trophy Room of the Student Center.

• • •

As the final event of the Newman Club's Cardinal Newman Week (Feb. 16-23), a communion breakfast will be held on Sunday, Cardinal Newman Day, at 11 a.m. in the Suwannee Room. Guest speaker will be the Honorable Stephen C. O'Connell, Justice of the Supreme Court of Florida.

The annual honoring of the Newman Club's patron, Cardinal John Henry Newman, was begun by a three-day mission, Feb. 16, 17, and 18, held at 7:30 p. m. in the Catholic Student Center.

On Wed. night Dick Brain, a garduate of Belmont Abbey, presented a short talk on "Newmanism and Catholic Students", after which he led a discussion and refreshments were served.

University Wives Plan Luncheon, Fashion Show

Eighteen members of the University Wives Club will model clothing, which they have made, at the club's luncheon and fashion show March 1, in the Suwannee Room.

A Vogue pattern company representative, Mrs. Frances Dickson, will be commentator for the show whose theme is "Fashion in the News."

The material for the clothes was bought at Gilberg's Fabrics and a local millinery will furnish the hats.

Mrs. Virgil Strickland is chairman of the modeling; other committee chairmen are Mrs. Edward Ekman, staging; Mrs. James Thornton, music; Mrs. Donald Lundberg, publicity; Mrs. R. R. Oglesby, table decorations; and Mrs. Harry Day, luncheon and tickets.

University wives and their guests are invited.

80 New Pledges On Sorority List

Eighty women were pledged by Florida State University's 16 sororities during informal spring rush, which ended Tuesday.

The new pledges are:

Zeta Tau Alpha: Donna Campbell, Virginia Collier, Harriet L'Engle, Mary McCorquodale, Penelope Pickels, Seranda Ralli, Jacqueline Roberts.

Alpha Delta Pi: Katherine Allen, Patricia Garner, LeVonne Zess.

Alpha Xi Delta: Joan Blake, Pal Canova, Terrie Jones, Jackie Neber, Barbara Schackenberg, Anne Skaggs.

Alpha Gamma Delta: Marion Mahannah, Jacquelyn Rohabach.

Gamma Phi Beta: Judith Metcalfe, Yolanda Mezey, Ann Morse, Mildred Stewart

Alpha Chi Omega: Gail Anchors, Peggy Sue Glasscock, Lynn McManama, Kathryn Meeks, Mary Miller, Vivian Rodriguez.

Alpha Omicron Pi: Mary Ann Brotherson, Vivian Ann Dozier, Jeanei Fordyce, Mary Shea, Virginia Spearing

Delta Delta Delta: Elinor Alexander, Lynda Barker, Barbara Broome, Eloise Echols, Jeanie Gregory, Aleen Lebo, Marcia Liegerot, Snaw Loy, Pat McRae, Georgea Ort, Linda Riedell, Marilyn Ziebell.

Phi Mu: Nancy Nealey, Judy NeSmith, Peggy Pafford, Ester Rogers, Margaret Ann Smith

Chi Omega. Beverly Bozeman, Carol Jones, Dottie Sue Linebaugh, Virginia Reynolds, Suzanne Smith, Janet Trask, Andrea Vogler.

Kappa Alpha Theta: Charlotte Mayer, Sonia Moreno.

Delta Zeta: **Nancy Cash, Letitia Dow, Gail Gotthardt, Jill Jenkins, Martha Mansfield, Marilyn Miller.**

Pi Beta Phi: Ann Moore, Judith Porter

Sigma Kappa: Barbara Bryan, Andrea Finlayson, Patricia Mickey.

Kappa Delta: Nancy Lee Bates, Pauline Clark, Joan Colter, Mary Davis, Eviline Green, Mary Patterson

Delta Gamma: Nancy Bild, Sue Cameron, Dorothy Anne Cronin, Kathleen Holding

Dockter Named DSPi Prexy

Delta Sigma Pi, business fraternity, has chosen the men to lead them this coming year. Selected as president was Bill Dockter.

Other officers are. Chuck Holmes, first vice president; Gene Freshour, second vice president; Bob Schlitt, secretary. Claude Grizzard, historian; Franklyn Romeu, treasurer.

Senate Requests Exam 'Dead Day'

The Senate unanimously passed a resolution urging a "dead dad" be placed between the last day of classes and the first day of final exams, Wednesday afternoon.

The resolution, introduced by Freshman Senator Don Sink in last week's session, stated that the Senate would like to see the innovation put into effect this year if possible, and definitely next year.

SCHEDULE GROUP

Senator Joe Barber, chairman of a committee considering the resolution, reported to the Senate that Dean of Students R. R. Oglesby would definitely bring the matter up before the scheduling committee, which consists of all the academic deans.

Senate referred to a committee of seven senators the controversial resolution favoring the right of women students to wear bermuda shorts at certain times and places on campus.

The committee consists of Senators Clark, Godin, Kansky, Gordon, Apthrop, Williams, and Men's Vice President Murray.

LOCATE POLLS

A bill to locate the polling places was introduced by Senators Gordon, Hutzy, and Clark. Gordon stated on the Senate floor that at present the matter was entirely in the hands of the Elections Committee. He felt that if the locations were placed permanently in the statutes, a greater turnout might be achieved.

The bill provides for polling places at Westcott, in front of Bryan Hall, in the Seminole Club, Student Center, West Hall, and on Landis Green.

A second bill introduced by Senators Gordon and Manning provides that in case of a vacancy in the class offices, the remaining officers would fill it by a majority vote.

Gordon emphasized that at present the statutes do not provide a clear method of filling a vacant class office.

Both bills were referred to the Elections and Appointments Committee.

OTHER STUFF

In other actions, the Senate:

Confirmed the appointments of Bob Kansky and Vernon Edgar to the West Hall and Graduate Class vacancies.

Passed a resolution introduced by Senator Diane Godin urging the student traffic committee to take up the problem of traffic on the outskirts of campus.

Gave the Labor and Services Committee the task of looking into prices of new and used books at the University Bookstore. According to Senior Senator Don Lewis who brought the matter to the floor, many students have been complaining about the high prices at the Bookstore and feel that they are making an undue profit.

Set the Christmas sing next year for December 16, 1958.

Reviewed parliamentary procedure with Miss Daisy Parker of the political science department.

Grecian Will Speak To Archeologists

The Tallahassee Society of the Archeological Institute of America will present an illustrated lecture by Professor Alexander Cambitoglou Friday, February 21 in the Library Lecture Hall at 8.30 p.m. The subject of the lecture will be "The Francois Vase."

Professor Cambitoglou is a subject of the Kingdom of Greece and a permanent resident of the United States. He was born Thessaloniki, where he received his elementary and secondary education.

He began his studies of classical archeology in the University of Thessaloniki, where he received his B. A. degree.

In 1946 he went to England, where he studied for six years at the Universities of Manchester, London and Oxford. He was awarded a PhD from Oxford.

The Greek archeology expert taught for three years at the University of Mississippi. He has been teaching at Bryn Mawr.

Professor Cambitoglou's special subject in classical archeology is Greek vase-painting. He took part in the excavations at Eleusis with Professor Mylonas.

Flambeau Photo [illegible]

CHUCK AND ANN STROZIER (AND "MUTT," POGO)

Never Miss Chicago

President's Children 'Enjoy Small Town'

By VIRGINIA DELAVAN

The bright lights and busy sidewalks of the "Windy City" have no nostalgic affect on two transplanted Tallahasseeans, Charles Burnett and Anne Lucille Strozier.

"Chuck" and Anne, younger children of Florida State University President Robert M. Strozier, declare that they "never miss Chicago," though it was Chuck's home for the past twelve years and Anne's birthplace. They agree that "it's nice to be in a small town."

Chuck, who was 14 last Sunday, is a tall-for-his-age 5'10". "The same height as my dad," he says proudly.

BLONDIE

Ten-year-old Anne is a fragile blonde with big blue eyes. When we called she had just gotten her hair cut and was complaining to her father that she didn't like her hair short.

The Strozier family arrived in Tallahassee the day before school opened in September and there is a friendly argument between the two over who chose the better school.

Chuck entered as a freshman at Leon High School and says, "I'm glad I went to Leon." He previously attended a small school, comparable to the Demonstration School, which was affiliated with the University of Chicago. Though Leon with about 1800 students, is larger Chuck says the people are friendlier and quality of instruction is better.

Anne is a firm booster of the Florida Demonstration School, where she is a fifth grade student.

Both youngsters are taking an active part in school and community organizations.

Anne is a two-year piano student, Junior Chorus member and plays violin in her school orchestra. Girl Scouting also claims part of her time. In her pretty grey, blue and white room is evidence of another hobby—a collection of small glass figurines and brightly dressed dolls from foreign countries.

One of Anne's most exciting activities this year was attendance at her first football game—the FSU-Furman tilt.

Chuck played end for Leon's winning freshman football squad, which amassed a 6-1 record. Practice kept him at school until 6:30 p.m. every weekday during the season, he says. Spring training for this sport starts March 1, and he also plans to go out for baseball and track.

Chuck serves as an acolyte "about twice a month" at St. John's Episcopal Church.

The whole Strozier family occasionally attends plays and other functions at FSU. Chuck describes the campus as "pretty . . . (it has) beautiful buildings . . . more spread out than Chicago."

WARMER?!

Though freezing Floridians will doubt this, the young Stroziers find our weather much warmer than they're accustomed to. Chuck jokingly claimed that Chicago's average winter temperature is "about fifty below." Actually it ranges from about 10 to 15 degrees, with snow on the ground most of the winter.

Being children of a university president definitely agrees with Chuck and Anne. Through their father's work they "meet a lot of interesting people."

MANY GUESTS

Especially is this true this inauguration week. At the time of our visit, Dr Strozier's brother from South America had just arrived and Chicago's Chancellor Kimpton was expected that night. The following evening a dinner party for 28 was to be held.

Some of their teachers mention the connection, but "we don't want and don't get special privileges" because of it.

Dr Strozier is not strict with Chuck and Anne (in Chuck's words, "He doesn't use a horsewhip" and he doesn't make them study. "He is good with us," Chuck says with satisfaction.

Are they going to the inauguration today? "Oh, yes! We get out of school for that!"

Eliot Scene Slated, As Part Of IF Schedule

A concert reading of The Tempter's scene from T. S. Eliot's poetic tragedy, "Murder in the Cathedral," will be presented in Opperman Music Hall at 8 p.m. Wednesday.

The department of speech is in charge of this portion of the two-part one-hour program which will keynote Intelligent Faith Week.

"Murder in the Cathedral" was written by Eliot in 1935 for the dedication of Canterbury Cathedral. "It is one of the best examples of liturgical drama written in the 20th century," said Dr. James W. Brock, associate professor, department of speech.

BANKS DIRECTS

The play will be directed by Wade W. Banks, a graduate student in speech. Dr Brock is serving as an advisor to the director.

The play is a dramatization of the murder of Thomas a Becket, archbishop of Canterbury. Portraying Becket will be Dr Jackson Ice, professor in the department of philosophy.

Virgil Austin will play the part of the First Tempter; Eli Ask, the Second Tempter; Frank Plencer, the Third Tempter; and the Fourth Tempter is Allen Thomson, instructor of English and humanities.

THE PRIESTS

The three priests are George Goldstein, Tom Appleyard, and Oliver Dixon.

Leading a nine-girl chorus will be Sandra Beskind. Other chorus members are Barbara Groom, Laverne Viola, Julia Conklin, Lorna Carr, Ada Wall, Nancy Bowers, Judy Willis and Julie Milan.

The play will be followed, after a brief intermission, by the Sacred Cantata 106 of Johann Sebastian Bach, "God's Time Is Ever Best," sung by the Bach Singers, under the direction of Karl Mohr.

TEMPTERS, PRIESTS AND SAINT. Dr. Jackson L. Ice, who will portray St Thomas Becket, is flanked by two "tempters" and two saints in this view of the Tempter Scene from T S. Eliot's "Murder in the Cathedral." The scene will be presented Wednesday night as a part of Intelligent Faith Week. The Tempters on the left are Eli Ask and Allan Thomson, the priests are George Goldstein and Oliver Dixon.

Stults Forecasts

(Continued From Page 3)

Simpson being counted on to score for the Tribe.

Florida will have the advantage in the two distant freestyles as well as the 400 yard.

The final event of the meet is the 400 yard freestyle relay in which both FSU and Florida have approximately the same times. "It could go either way."

At 8 p.m. the FSU freshmen swimming team will meet the Florida frosh in a preliminary to the big meet. When asked about his yearling chances, Coach Stults replied, "We may get two or three first places, but the meet will be all Floridas."

The Florida freshmen boast a number of high school all-Americans on their squad while FSU has none. The baby Seminoles rest their hopes on Bucky Hiles and Curtis Glendera to splash in the points for them.

Hiles can compete in almost any event while Glendera was Florida state high school diving champion last year. In their only previous outing this year, the FSU freshmen defeated Rice.

Vets Club Meets At 7 P.M. Tonight

The Vets Club will hold a reorganization meeting at 7 p.m. tonight in the Trophy Room of the Student Center.

President Fehmi Zeko has asked that all old and new members attend this important meeting. Veterans who are interested in joining are also invited.

Plans for club activities during this semester will be made at tonights meeting.

BOARD . . .

(Continued from Page 1)

from the faculty, students and alumni is unlimited.

"My appreciation to the people of Tallahassee who have made us feel that this is our home and we are one with them is profound.

"My exhilaration stems from the fact that, given all these blessings, with the guidance of Almighty God, we shall make of Florida State a great university."

ADMINSTRATION Changes (Story, P. 1)

Blood Bank Program Gets Underway Today

Infirmary Sets Hours, 1:30-4

By NANCY GENE BROWN

The expansion of the university's Student Blood Bank will get underway at 1:30 this afternoon, when student donors will be received in the University Hospital.

"Students are urged to visit the infirmary between 1 30 and 4 p.m to donate blood to the bank," said Hinton F. Bevis, hospital administrator.

"This expanded program will make it much easier—and much less expensive—for students to obtain blood when it is needed," be emphasized

BLOOD READY

"We'll be able to have the blood available in advance, instead of waiting until an emergency arrives to obtain it," Bevis said.

Any student taking more than three hours of work at Florida State University, and the husband, wife, and or children of any student, will be eligible to draw on the student blood bank.

"Ordinarily, when an emergency arrives, it is necessary to pay a variable amount totalling around $35 per pint of blood," Bevis said. "But with the expanded facilities of the FSU blood bank, this amount will be considerably reduced—only about $10 per pint, contained in disposable units."

CONTACT CHAPLAIN

Through the university blood bank, blood can be obtained no matter where the student is. This can be done by contacting Dr. Edwin Hartz, university chaplain, or his secretary, Mrs. Joanne Zingale. In case of an emergency, a check for the withdrawing of blood can also be obtained from Bevis or from the chief hospital physician.

After the blood has been withdrawn, the receiving student is requested to secure donors to replace the blood used. "In this way, we can keep a constant amount of blood in the bank," hospital officials emphasized.

TWO DAYS A MONTH

Although plans are presently to accept donations between 1:30 and 4 this afternoon, Bevis said that hours will be extended if necessary, or that students may return the following day. After today, the schedule for donations will include two afternoons per month, the first Monday and the last Tuesday in each month.

Students wishing to donate blood should come to the infirmary reception desk, from there they will be sent to the third floor laboratory for a health check. Following the donation, refreshments will be served.

Plans are being made for a survey of the faculty and staff in the near future, to determine if they are interested in undertaking a similar program for the expansion of their own blood bank.

Dr. Davis New Faculty Dean

Administrative changes week boosted a dean, d his place with an asiate dean, and employed full-time person to handle dent housing.

The boosted dean was Dr. rles S Davis of the College Arts and Sciences who was apted to fill a newly created po as Dean of Faculties. The rd of Control approved the ments Thursday.

is new position will be a auory one, with administrae precedence over all members the faculty, co-ordinating the rs of the various schools.

REYNOLDS MOVES UP

its place as dean of the Col of Arts and Sciences will be Paul Reynolds, formerly asate dean of the college. No associate has been named as

The employment of Dr. Jack low as director of housing for university came as a result several months of consultation ween Dean of Students R R by and Rollow, who leaves position at Harpur College, N. Y. for FSU.

llow, who will have charge of housing arrangements and developments, is a native and is serving at Harpur assistant dean and director of Evening Division.

is a graduate of Texas University and took his and PhD degrees in English ell University in 1948 and respectively He has taught four years at Cornell, two at and a summer at Alfred ersity.

Rollow is married to the er Margery Olmstead of Fort They have two children, and Jane

THE NEW WESTCOTT GATES frame the inauguration procession of faculty members marching in full regalia.

After Play

Singers To Perform Bach Sacred Cantata

The Bach Singers will perform the Sacred Cantata No. 106, "God's Time Is Ever Best," tomorrow night, following the speech department's presentation of "Murder in the Cathedral" at 8 p.m.

These two performances are part of the scheduled activities for Intelligent Faith Week, which began Sunday

SIXTEEN VOICES

The Singers, a sixteen voice ensemble, is composed of selected singers devoted to the performance of the sacred works of Johann Sebastian Bach. Their only remuneration is the pleasure of recreating these outstanding works by the master.

Cantata 106, one of the earliest of Bach's works to achieve modern recognition, will be sung under the direction of Karl Mohr, a graduate student from Tallahassee

Soloists for the performance are Ethel Donaldson, soprano; Harriet Morrill, alto; Martin Lies, tenor; Wesley Chestnut, baritone. Instrumental parts are taken by Dale Jensen, flute; Carol Terpening, flute; Elda Estep, viola; Phillip Posey, bassoon; Pat Johnson, violoncello.

LAST EVENT

The Bach Singers concert will be the closing event on this year's Intelligent Faith Week program. The "week", which is actually half a week, featured appearances of outstanding speakers in the field of religion.

The program of music and drama for the Wednesday night final event, is sponsored as a fine arts contribution to the total program by the Speech Department and the School of Music

Although the Bach Singers are not sponsored by the Music School, the students are representatives of it and use facilities provided in the Music Building

Students, Prof To Study UNC Desegregation

Five Florida State University Students and one faculty member will enplane tomorrow morning for Chapel Hill, North Carolina, and an extensive study of problems and methods met by the University of North Carolina in desegregating that institution.

The five—Jan Kaminis, Jim McIntyre, Priscilla Moss, Bill Strickland and Jim Webb—plus sociology professor Lewis Killian, will be making the trip under the auspices of the YMCA in order to ascertain the difficulties met by UNC.

GRADUATES FIRST

The University of North Carolina, the first state university established in the nation, quietly desegregated its graduate schools several years ago, with the undergraduate level soon following.

The job of the FSU group will be to investigate every area of similarity between the two universities and any areas of difficulties that might lead to different situations.

The group will interview both students and administrative leadership on the problem, with a trip being made by the women committee members to the UNC Women's College during their stay.

NOT PROMOTION

The purpose, according to Dr. Killian, is not to promote desegregation, but to have a solid foundation upon which to work should it become an eventuality. The group's function is preparatory, not promotional.

An effort was made, in the forming of the committee, to get a cross-section of student opinion represented, so as to gain a more objective approach to the entire study.

The committee members were chosen by Dean R. R. Oglesby upon recommendation by the Student Body President's Cabinet.

The group will return to Tallahassee Saturday. A report made by the entire committee will be filed with President Strozier, Governor Collins, and the university administrative files.

A STUDENT COMMITTEE plans Intelligent Faith Week. From left to right are Bill Moyle, Betty Hatton, Joe Westhafer, and Larry Strom.

Draws To Close

Intelligent Faith Week Lists Final Meetings

Today and tomorrow are the last two days of the University's Intelligent Faith Week. Following are the conferences scheduled:

These meetings will be held in classrooms:

8—Dr. William D. Bray will speak on "Japanese Culture" in room 314 of the modern language building.

8—Rev. L. Paul Jaquith will speak on "Personality and Maturity" in room 202 of the education building.

8—Dr. Hugh Wamble will speak on "The Bible as Literature and History" in room 316 of the modern language building.

9:30—Mr. Joseph G. Heard, "The Ethical and Moral Principles in Business," auditorium, 2nd floor, Longmire.

9:30—Dr. John F Nau, "Contemporary Movements in Philosophy," room 316, modern language building.

9:30—Dr. Hugh Wamble, "The Bible as Literature and History," room 313 of the modern language building.

10—Dr. Darley Downs, coffee hour, "Buddhism, Shinto and the New Religions," the second floor Longmire lounge.

10—Rev L. Paul Jaquith, "Plotting Your Personality," in room 312 of the modern language building.

10:30—Dr. John F. Nau, coffee, philosophy offices in the modern language building.

11—Lewis House Seminar, Mr. Joseph G. Heard, sponsored by Sigma Alpha Epsilon and Delta Delta Delta.

11—Dr. Hugh Wamble, "Christianity in Education," in room 210 of the modern language building.

THIS AFTERNOON

12—Prof. Junichi Nakamura, "The Role of Music in the School and Home Life of the Japanese Child," in room 222 of the music building.

2—Rev. L. Paul Jaquith, "Science and Religion: Some False Distinctions," room 316, modern language building.

3—Dr. Kenneth M. Scott, "Religion and Mental Health, coffee hour, second floor Longmire lounge.

3:15—Skeptics' Hour, Dr. John F. Nau, Longmire large lounge

4—Seminar for students of music school, Prof. Junichi Nakamura, "American Life as Seen by a Japanese," room 222 of the music building

THIS EVENING

6:30—Vespers, Baptist Student Union, Dr. Kenneth M. Scott.

7:30—Cooperative Living Organization, Mr. Joseph G. Heard.

9:30—Coffee and discussion, Senior Hall, Dr. John F Nau.

9:30—Coffee and discussion, West Hall, Dr. Kenneth M. Scott.

WEDNESDAY MORNING

8—Dr. William D. Bray, "Understanding Japanese Culture," room 202, education building

8—Mr. Joseph G. Heard, "The Function of Religion in Daily Living," room 303 Westcott.

8—Prof Junichi Nakamura, "Americans and Hiroshima," room 210 of the history building

8—Dr John F. Nau, "Social Work," room 307 of the new library.

9—Dr. Darley Downs, "Communism in Asia," room 202 of the education building

9—Mr. Joseph G. Heard, "The Ethical and Moral Principles in Business," the second floor Longmire lounge

9—Dr. Kenneth M. Scott, "The Work of Medical Missionary," room 212 of the history building.

10—Mr. Joseph G. Heard, "The Function of Religion in Daily Living," room 303 Westcott.

10—Dr. Kenneth M. Scott, "Religion and Mental Health," room 111 of the social welfare building

11—Dr. Darley Downs, "Buddhism, Shinto and the New Religions," in room 314 of the modern language building.

11—Rev. L. Paul Jaquith, "Science and Religion: Some False Distinctions," room 303 of the women's physical education building.

11—Dr. John F. Nau, "Contemporary Movements in Philosophy," room 210 of the modern language building

11—Dr. Kenneth M Scott, "The Work of a Medical Missionary," in room 205 of the modern language building

WEDNESDAY AFTERNOON

12—Dr Hugh Wamble, "The Bible as Literature and History," in room 313 of the modern language building.

1—Rev. L. Paul Jaquith, "Greek vs. Hebrew Perspective," room 318 of the modern language department.

1—Prof. Junichi Nakamura, "The Role of Music in the School and Home Life of the Japanese Child," room 222 of the music building.

2—Dr William D. Bray, "Understanding Japanese Culture," room 306 of the history building.

2—Rev. L. Paul Jaquith.

DR. SIDNEY KOBRE makes a point to members of the American Association of University Professors. AAUP members from FSU, Florida A & M, and the University of Florida met here Saturday to discuss economic problems of professors.

Florida State Universities Organize Joint Committee

By GEORGIANA FRY

Florida's three state universities—University of Florida, Florida Agricultural and Mechanical University, and Florida State University—formed a joint committee to further economic goals, as a result of a joint American Association of University Professors conference held Saturday at FSU.

Recognizing the rapid increase of college enrollments, the AAUP conference was held with the purpose of finding means of preventing professors from seeking other professions.

Dr. A. B. Martin, vice president, FSU, welcomed the group on behalf of President Robert M Strozier. Dr. Martin feels that the "public has never understood the place of college professors in society . . . and that the teacher should feel himself well paid in spirit."

FOUR PANELS

The four panels discussed at the conference were "Sabbatical Leaves," "Social Security," "Salary Scales," and "Organizational Effort."

On the panel, "Sabbatical Leaves," Dr. W Hugh Stickler, director, Institutional Research and Service, FSU, who has done research on sabbatical leaves all over the country, stated that in an inquiry to 71 universities, there was 100% response, and 45 of these institutions have sabbatical leaves for research, approved study, or treatment of illnesses.

This "integral part of the institutions" is not available at FSU, and there does not appear to be any change in plans, according to Stickler.

Florida A & M currently does not afford sabbatical leaves as they, like Florida's other state universities, are limited by legislative restrictions, Howard Lewis, instructor of art, A & M, pointed out.

A & M SURVEY

Lewis recently conducted a survey by means of a questionnaire among A & M faculty, and out of 16 replies, all felt that there should be a definite policy regarding sabbaticals and that it should be under contracturial coverage.

"University of Florida doesn't have sabbatical leaves and there's no prospect of having any," said Vynce Hines, professor of education, U of F. Hines informed the group that there is an AAUP committee which is investigating why U of F professors are leaving, and, how the university can keep them.

When the panel was open to discussion, Dr. Meyer Nimkoff, head of sociology, FSU, pointed out that professors do want sabbaticals and the fact that they can not obtain them "handicaps us greatly."

A panelist on "Social Security" Robert F. Lansdale, professor of social welfare, FSU, said that most private institutions have social security retirement in contrast to the universities' state retirement pro-

(Continued on Page 4)

2500 Students Attend President's Reception

Approximately 2,500 students attended the Student Reception the home of President and Mrs. Robert Strozier last Sunday afternoon.

Miss Marie Williams, director university social affairs, was charge of the event, assisted Miss Edith McCullom, assistant housing director.

Students were greeted at the r by Billy Weaver and Madn Hair. Priscilla Moss and Jan minis introduced each individual to the President and his e who were the only ones in receiving line.

REFRESHMENTS

After meeting the President students were shown about the er floor of the home and then rved refreshments in the dining room.

Students serving at the nch bowls were Ann Kelly, rbara Burkhart, Sandra Rosurw, and Joan Harmon. The nch was Mrs. Strozier's own pe Morrisons catered for the air

I have never had such good ponse from the students as on s function. Because of their k the party ran smoothly," ss Williams said.

SAE VISITS

Preceding the reception SAE aternity visited Dr. and Mrs. rozier presenting President ozier with a jeweled SAE pin. was a member of the fraternat Emory University as an dergraduate.

Other students working at the rty were Beth Bowen, Art ore, Martha Grizzard, Pat olfe, Kay Hufford, Jane Cathers, Barbara McCartney, Paul Perry, Hank McCann, Charlet Poitevint.

Arnold Greenfield, Ramon Arnold, Mr. and Mrs. Ted Lowe, Mrs. Billy Weaver, Mr. and Mrs. Leon Colter, D.R.K. Murty, Christina Oliviera, Deanne Head, Dessie Pinkhard, Betty Ann Montgomery.

Dave Harris, Kay Wright, Victor Harke, Georgia Ort, Linda Broderick, Charles Savage, Arie Lou Johnson, and Marvin Rosenblatt.

The reception was the last event of the inauguration activities.

Sophomore Dance Set Friday Night

Informality is the by-word of Friday's Sophomore Hop, according to committeemen, who state, "We're opening the dance to the entire student body and are stressing casual wear because we feel that people enjoy themselves more in a relaxed atmosphere."

Music for this year's Sophomore Class-sponsored dance will be provided by Billy Bowes and his Devilaires, with vocalist Sandy Beskind.

Comedy for the affair, from 8:30 to 11:30 p.m. in the Suwannee Room, will be furnished by Marsh LaCombe and Reggie Ivory.

No admission will be charged. Refreshments will be on sale. Everyone is invited.

Honor Poll On Tap In March

Senator Don Sink, chairman of the joint Senate-Student Government Honor Committee, announced yesterday that the forthcoming honor poll would contain questions pertaining to the abolition of the Honor System at Florida State.

Sink emphasized that the committee intended to take the poll "without prejudice." All types of student opinion are being sought, he added.

The poll, which is based on a similar poll given at other universities and which has led to the abolishment of the Honor System at some of them, will be given next month.

The poll will not be given to all students, but the committee said that it will seek out a representative body of students through the Registrar's office.

Philosophy Club To Hear Prothro

The Florida State University Philosophy Club, reactivating this semester, will hear Dr. James Prothro Thursday in the Student Center Trophy Room at 8 p.m.

Dr Prothro, associate professor of political science, will speak on "The Context of Ideas in American Politics" He regularly teaches a course in American Political Thought.

Monthly meetings have been scheduled for the group, sponsored by assistant philosophy professor J. L. Ice, with representatives of various academic disciplines presenting the programs.

The March meeting, to be held March 27, will feature Dr James Brock of the Speech Department relating philosophy to the theatre.

Dr Hans Plendl of the Physics Department will speak at the April 24 meeting of the group. His topic has not been announced.

The program for the May meeting will be announced at a later date, according to Dr. Ice.

Center Dance Out

The dance originally scheduled for Saturday, March 1, has been called off temporarily due to events scheduled previously for that date

The combo dance will be rescheduled to occur on the weekend of March 15, with the Starlighters providing music.

State's Best Editorial Page 1957

Party Needs Shot In Arm

With the annual elections coming around, attention is again drawn to the fact that FSU has two political parties competing for student government posts.

BUT THE two parties are not equal in size, position, and power.

The older and more powerful Student Party has consistently succeeded in dominating the major offices of Student Government for years and presently holds nearly every position available in the government.

COLLEGIATE PARTY (formed in 1954 and originally termed State Party) has offered consistent and game opposition to the Student Party "ins," but has never seriously threatened their supremacy.

Now parties are again important to campus politicians and would be politicians.

A QUESTION frequently asked is, "Would a strong two party system be a real benefit to FSU Student Government?"

We believe that it would.

The first advantage of a strong two party system on this campus would be the opposition offered to the Student Government "ins." It would serve to prevent the establishment of a student government hierarchy which would acquire a feeling of "owning the student government."

SECONDLY, a well balanced party system would increase student interest in Student Government and politics. Two parties, each making plenty of noise and actively promoting their own part in student government (and SG itself), would help reduce student apathy in campus politics.

Presently Collegiate Party is the low party on the totem pole. Why? Because freshmen who are seeking advancement in the ranks of campus politics look the situation over and decide to affiliate with the party on top—the winning party.

CONSEQUENTLY their new blood goes to further the party on top. Thus the situation becomes self-perpetuating.

Only disgruntled losers of Student Party nominations, non-conformists, or persons wanting to see a two-party system succeed, affiliate with the weaker of the two parties.

This is not good.

COLLEGIATE PARTY needs a shot in the arm. A rejuvenation of it will lead to a rejuvenation of student government generally.

Presently, Gerry Gordon, Collegiate Party chairman, is launching an extensive program to activate and strengthen his party.

BUT THE Collegiate Party leaders are juniors and seniors now. To continue its rise, the party needs younger leaders—the present freshmen and sophomores.

An effective two party system on this campus is going to require men and women who have courage enough to run the risk of losing as candidates of the weaker party. Only in this way will a true two party system be built in FSU Student Government.

★ ★ ★ ★ ★

Initiate "Dead Day"

Senate passed a resolution last week asking the administration and the scheduling committee to grant students a "dead day" between the last day of classes and the first day of exams.

WE HEARTILY endorse the Senate's actions.

It is not the first time this request has been made. Last year the subject was brought up, but no action taken by the scheduling committee to remedy the situation.

THE REASONS for a "dead day" are clear. Students hardly have a chance to catch their breath before facing final examinations. Assignments sometimes are given out until the last week of classes and students are busy finishing writing term papers.

This change of policy would be of most help to the students and perhaps to the faculty as well. We hope the scheduling committee (made up of the academic deans) will decide that the Senate's resolution is a sound one and put it in effect next semester.

★ ★ ★ ★ ★

Give Blood Today

Today the university hospital opens its doors for blood donations. The purpose, of course, is to expand the hospital's blood program thereby making it more feasible for students to obtain blood when needed.

WE WOULD like to urge eligible students to participate in this worthwhile project.

With enough blood available in the hospital, there will be no need to worry about securing it in an emergency. And it will enable the hospital to only charge the recipient a service fee, considerably less than the amount required now for a pint of blood. In an emergency case, student will not have to worry about being able to afford to pay for the medical expense immediately.

THE PROGRAM is of much benefit to students. For one thing, not only students enrolled at FSU are eligible to receive blood from the hospital, but their husbands, wives and children may also participate.

Another benefit of the program lies in the fact that if a student needs blood he may get it via the university hospital wherever he h appens to be. If he has an accident on the road in another town he can benefit from the program by contacting university officials.

For details of the blood donation program see the story on page one.

THE EXPANSION of the present blood donation program is the work of the new hospital administration aided by student government.

It is a fine program which deserves much support and co-operation of the students, for whom it was designed.

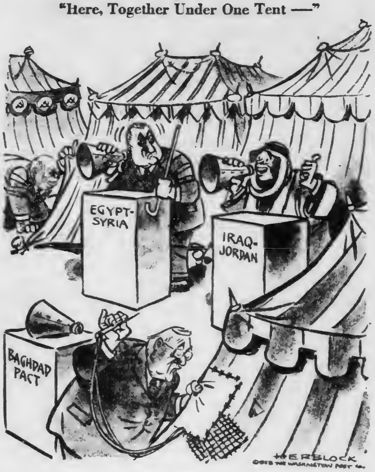
"Here, Together Under One Tent —"



"Death Of God" Surprise To Us

LETTERS to the EDITOR

TO THE EDITOR:

I have never written an open letter to a newspaper before, but to leave Mr. Emmett Jarrett's column "The Pontificator," which appeared in the February 18 issue of The Florida Flambeau, unanswered would be to slight my convictions, my church, and, I am quite sure, the vast majority of the student body of this university.

MR. JARRETT STATES, "This, then, is the problem which man in the twentieth century must solve. With the old foundations of religion, moral and natural law, the state, the social order and the class system falling around our heads, man must find a way out of the relativism which is the inevitable result of the death of God and the fall of the absolutes."

No doubt "the death of God" will come as a surprise to those thousands of us who attend church each Sunday and who cannot go along with the pseudo-intellectual atheism of Mr. Jarrett. The trouble with his class is that it receives vastly more publicity in the press of our country than do the college students who continue to cling to the "archaic" religious tenets taught them in childhood and continue to cling to them despite the verbose harangues of the Jarretts. It is usually the dissatisfied who speak out first and most loudly, could it be that Mr. Jarrett is deriving less satisfaction from his pitiable philosophy than the religious of this campus are from theirs?

IF MR. JARRETT will take the time to search the campus I believe he will find no few people for whom "the . . . old moral . . . law" has not fallen in at all. This sounds like mere subtle repetition of the old trite rationalization "Everyone else is doing it, so who shouldn't we?" College students everywhere should take as an insult this implication that they are immoral as a class.

The front page of the same edition of The Flambeau in which Mr. Jarrett's column appeared contained an adequate rebuttal of his gloomy preachments. Under the heading "Ten Religious Leaders Speak During IF Week" can be found this statement: "This week is set aside each year for the faculty, students and staff of the university 'to share religious experiences' and 'for soul searching and examination.'" Joe College, 1958 ,has answered the gloom of Mr. Jarrett with "I will go unto the altar of God; to God the joy of my youth."

Next time speak for yourself Mr. Jarrett The student body of FSU has given you no power of attorney.

Very truly yours,
FRED ROWLAND

TO THE EDITOR:

An "atheist" by definition is a person who believes that he can prove that God does not, and/or could not exist. This is as impossible logically as the proof of the existence of God. I am not, have never been, and have never said that I am, an "atheist."

The accusation that I am a "pseudo-intellectual" I shall not deign to answer. That term has been thrown around so much by many unqualified persons that it has become meaningless, and merely a term of abuse.

"The death of God" is a phrase which, if understood in its proper context, refers to the loss of the concept of a diety as a meaningful ground of value. Before you disagree with a person, Mr. Rowland, be sure you understand what he is saying.

As for the "vast majority" of students on this or any other campus being Christians, if you mean that they are baptized, you are correct. If, however, you mean that they follow Christ, and take up their cross daily, and love God more than mammon, and act in a manner indicative of this, I believe that you are mistaken.

Emmett Jarrett

TO THE EDITOR:

Bermuda shorts on coeds? I certainly hope not! The women at FSU are a credit to the university. They look like ladies should look at all times and I think they show good taste in dress.

Let us not ruin our reputation. Women knees should be covered, not shown immodestly by the wearing of short pants Let the tourists wear bermuda shorts. They aren't wanted here.

Has Our Society Lost Its Values?

By EMMETT JARRETT

We were privileged to hear the Rev. Fr. C. Kilmer Myers speak Sunday at the Anglican Chapel of the Resurrection, and we were greatly impressed with what he had to say.

FATHER MYERS is vicar of St. Augustine's and St. Christopher's Chapels of Trinity parish, New York. His chapels are located in the slum section of the Lower East Side. It is in this area that the new waves of immigrants, chiefly Negroes and Puerto Ricans, have settled.

The Anglican priest made us quite aware that the slum problems of this section are acute. But more important, he indicated (to us, at least) that the problems of the New York slums have the same root as the one which faces those of us in universities who have more intellectual polish.

THE REASON, it seems to us, for the organization of teen-age gangs, the resultant vandalism, narcotic addiction, etc., is that our society has lost its basic standard of values. We in colleges and universities have high sounding terms to refer to this problem, such as social disintegration, "outsider," and the decline of the stabilizing power of the social order.

Concisely put, the problem is this: Man, in order to integrate his personality and be sure of his own identity, must have a ground of value to which to relate himself. In the past this ground of value has been found in God, the social caste system, and other things of that nature. For the present generation this is impossible. There is, as a result of the loss of our standard of values, we feel alone, lost, "outside."

THIS IS THE same way that the immigrants in the slums feel. It is the way that people feel all over the world. The results of this loss of a value-standard is the same too: boredom, rebellion, neurosis, psychosis and suicide. Father Myers convinced us of a proposition which we had held tentatively previous to his statements: that the problem of the "outsider" is a universal one.

We cannot offer a solution to this problem, for it is a problem not only individual but social and world-wide. It faces mankind at the decline of every civilization, and now it is our turn to suffer the agonies of realizing that we are a decadent society, just as did the people of Greece and Rome.

The only word of positive advice which we have to offer is Goethe's: when men cease to strive they are damned. Therefore, not knowing for what we are striving, nor even whether it exists, we must strive.

Bachelors Fading Fast At UA

By GEORGIANA FRY

Bachelors are fading fast according to a survey at the [Uni]versity of Arizona. Whereas two years ago, there were [...] bachelor faculty members, there are now four, "giving the [...] .571 batting average," according to the Arizona Wildcat. It m[ight] be interesting to find out what the "batting average" is [...] at FSU.

All you students who are on academic probation take note: The Daily Trojan of Southern California reports that 1,100 of their students are on probation this semester, an increase of 60% over the 1957 spring term. Some 220 students face disqualification this semester, and their registrar predicts an extensive increase in expulsions for June.

The Reflector, Mississippi State College, reports that its college "is the only college in the South where Edam cheese is made, It is the only college in the U.S. to make and sell Edam, and it is the only producer in America to use imported cheese molds from the famous 'Wondstra' cheese mold company in Holland." I guess we know where to buy Edam cheese, mice.

The University of Chicago "prides itself in being one university," Chancellor Lawrence A. Kimpton told students recently. The interdepartmental communication makes "the University what it is," he continued, as reported in the Chicago Maroon. Dr. Kimpton was the outs[tand]ing speaker at President S[...]er's inauguration.

FSU criminology students [...] should be attending Ce[ntral] Michigan College as they [re]cently had a lecturer, Fab[ian] famous Scotland Yard dete[ctive].

Speaking of lecturers, [an]other university southeast [...] here just last week heard fo[rmer] secretary of state, Dean A[che]son. When is FSU going to [...] famous lecturers?

FSU students weren't the [...] excited students two weeks [...] University of South Carol[ina] built their first snowman a[t ...] a.m. on February 13—we [...] ours the evening of Februa[ry ...] The Gamecock stated t[...] winter wonderlanders ca[...] sign which read, "Christmas [...] Last."

Guest Column

Whose Duty Is Building Morals

In line with the recent letters in The Wildcat concer[ning] "when is adult?," we came across an editorial in the Au[burn] Plainsman, campus paper of Alabama Polytechnic Institute, w[hich] expressed concern with the freedom of a "responsible" student.

The editorialist, in developing his ideas that "the morals of a student" are his own, wrote that he had often wondered about the set up of the university with regard to its control of the private lives of students.

"Many of the faculty and administrative personnel here," he claimed, "still cling to the belief that it is the duty of the university to not only train and educate minds and bodies but also to regulate and govern the moral standards of the students. This may be well and good It does seem, nevertheless, that such control is carried to unneeded extremes

" . . A person while attending college is generally considered an adult by society. He is considered an adult capable of making his own decisions regarding both his personal morality and his status as a student. If as a student, he fails to make the correct decision and fails scholastically, the university has exerted a negative control in forcing him to make a decision between success or failure as a student.

". . . The morals of a student are his own. They were formed through parental and other influences many years before his arrival at a university. His morals may or may not be satisfactory as judged. Why, though, should it be the function of the university to try to govern the morality of the students? Adults everywhere find the laws of the land adequate for their private lives."

The subject of morals and the controlling of them is a touchy item anywhere. But it is even more so on a university campus where administrators feel "personally responsible" for the moral welfare of their students

Such a situation exists [...] here on the Arizona campus [...] a tight, regimented contro[l] maintained over the comings [and] goings of unmarried coeds [...] those above the legal age o[f ...]

This is done, the administra[tors] say, for the coeds' own protec[tion]. Many of these "women" feel [...] this control is unnecessary [...] unfair, while others are tha[nkful] for the protection thus afford[ed].

Whether the problem be [...] or wrong, we feel that propo[...] of open "hours" and less res[tric]tions for coeds must come up [...] sounder reasoning than "it's [...] fair" and "the morals of a s[tu]dent are his (or her) own."

Specialists And Trends

It's generally accepted in the colleges and universities dot'ng and that the age of specialization has cast its questionably shadow even behind their Ivy covered walls.

To put it in words more specific to the purpose here, the who once wore his school's colors in two or more sports rarity nowadays. In a lot of places, he's a legend.

The reasons are many, but perhaps the one most often is that because of increased emphasis and increased of athletics on a collegiate level, an athlete has to be standing to make the grade.

And to be really outstanding in a particular sport, he has to all others to devote his unhindered concentration on the which he chooses to excel.

There are exceptions, of course.

Every now and then an athlete will come along who has the ability to develop sufficient talent for any sport.

FEW EXAMPLES

Corso's a good example. A high school all stater in three Corso elected to play football at FSU rather than accept baseball offers.

In the spring, Corso found a role as one of FSU's more standing baseball players. And basketball coach Bud Kenis still insisting he would have made the grade in basket- too.

Tom Garcia is another two sport athlete. He's a basketball in the winter, and one of the baseball team's top pitchers the spring.

Henderson was a football quarterback of proven ability spring he'll be one of the southeast's top javelin heavers the track team.

Still, you don't find many of them.

PREDICTION OF SORTS

here's a prediction of sorts: look for an increase at FSU number of athletes who branch out and compete in more one sport.

And for a few specifics, look at the 6-foot, 6-inch, 225- frame of Danny Boltz as he bounces around a basketball He'd look pretty impressive under a set of shoulder pads.

And the hands of Jim Litkey, described as "magnificent" by would probably go real well wrapped around a football— time, and was allowed, to play quarterback.

may be a little premature, but it's the opinion here that and Litkey will get the nod to give football a try and that increased understanding between the football and basketball will result.

COMPROMISES NECESSARY

There will be problems from the beginning and both sides have some compromising to do. The tail end of football overlaps the opening of basketball practice and the con- there is evident.

Spring football drills usually come right at the start of base- season.

But look at the other side and you see a few advantages.

Recruiting for one. Kennedy tells of an outstanding football in a midwestern state who isn't going to choose a college his basketball playing friend makes a choice.

Both sports would benefit from any recruitment there.

It's no secret, either, that there are many, many more football scholarships granted each year than basketball has to work with. promise here would also prove beneficial to both sides.

Most members of the athletic department we've had occa- to talk with along these lines are hoping for a trend of in- understanding and harmony within the department.

It might sound trite, but the athletic department is a family allegiance, and a well-rounded growth should prove most in the long run.

You might say it's like a well-balanced diet.

COMING IN. Florida State freestyler, Rube Waddell about to complete the 440 freestyle race Saturday night against Florida. Meet ended in a tie, as the Tribe captured the final event.

Hoopsters Lose Road Tilt, 86-66

The University of Miami closed its 1958 cage season Saturday with its seventh successive victory as it downed the Florida State Seminoles, 66-66.

The win avenged an early season loss to the Tribe here in Tallahassee. It left the Seminoles with an 8-15 mark. They played the Tampa Spartans last night in Tampa.

Miami opened a quick 10-2 lead and were never headed although the Seminoles pulled within two points of the Hurricanes at one point in the game. It took the Tribe six minutes to get their first field goal.

The loss could probably be attributed to two features, the high number of personal fouls assessed the Seminoles and the inability of guard Hugh Durham to show his usual form.

23 FOULS

A total of 23 fouls were called against the Tribe which gave the 'Canes 37 attempts at the foul line. They made 32. Durham went into the game with a 15.6 average but in some unique manner was held to five points.

The other four Seminole starters hit in double figures with Burt Deckel getting the most—16. All five of the Hurricanes hit in double figures and Marty Burdette, who always has a good night againts FSU, emerged the game's high scorer with 23.

Miami outscored the Tribe from the floor also as it hit 36 per cent of its attempts compared to 33 per cent for FSU. In the rebound department Miami edged the taller Tribe 44-41.

UM captain Gene Stage scored 13 points and ended his college basketball career with a total of 1,192 points. This broke the Miami record that was set by Whity Campbell in 1947-50 at 1,076 tallies.

Ed Morris, another Hurricane senior played his last game and carried away two all-time records. His 309 free throws, set a new record in that category and he took over 750 rebounds to beat the old record by over a 100. Against FSU he got 12 out of 12 field goals

BOLTZ HITS 12

Danny Boltz scored 12 for the Tribe and Jim Liteky got one more with 13. Larry Strom hit for 10 for the losers.

The Seminoles will face the University of Georgia Bulldogs March 3. The game will be played here and will be the season finale.

FLORIDA STATE BASKETBALL STATISTICS
(For 23 Games, Not Including Last Night's)

Player	FG	FT	TP	Avg.
Burt Deckel	147	86	380	18.8

Intramural News

The second round in intramural volleyball and bowling begins this week with a full schedule.

Last week in the first round of the Greek Volleyball Division SN ripped out a win over LCA. The scores were 15-5, 14-16 and 15-2. PKT wasted no time in beating PKP by the scores of 15-9, 15-3.

The KA's opened their season by downing DTD by the scores of 15-4, 14-16 and 15-10.

In the Dorm-Independent Division, Senior Hall defeated the Majors Club and the Veterans Club edged PEK in a close game.

The first round of bowling in both divisions was completed but no scores were turned in to the office for publication.

The football game between SN and PDT, which was not played during the regular season because of various reasons, is scheduled for Sunday at 2 p.m.

Sophs Shine In Grid Drills

Florida State wrapped up the first week of spring football drills with at least five sophomores emerging as possible 1958 starters.

Coach Tom Nugent polished off the fourth of 20 scheduled spring sessions by running 59 Seminole candidates through a series of short defensive scrimmages.

Individual battles for three key positions and the determination by a host of sophomores-to-be highlighted the first four practices. It was a week devoted almost entirely to individual defensive fundamentals and team defense.

The most spirited scrap for a starting berth is at right guard, where senior letterman Leo Baggett of Panama City and sophomore Terry Moran of New Orleans are waging a terrific struggle. Nugent said Moran, 180-pound standout guard on FSU's 1957 freshman team, was the No. 1 lineman this week, with Baggett a close second.

Competition is keen at two backfield positions in particular. Sophomore Jim Calhoun of Winslow, Ariz., is making a determined bid to outdo junior Dink Lawrence for the first-team right halfback post. FSU's heaviest back at 209 pounds, Lawrence probably would have the inside track by shedding a few pounds. Calhoun weights 193.

Senior Vic Prinzi, who sat out last year, and junior Joe Majors have shown almost equal prowess in early drills, are running close in bids for the starting quarter back role. Sophomores Gene McCormick, Bobby Conrad, and Frank Springer also have impressed.

Gymnasts Win; Malmlin Stars

Florida State's gymnasts picked up their third and fourth consecutive wins of the season last weekend as they easily defeated Pensacola Navy and Mississippi Southern on the road.

The Seminoles took the Sailors by an 89-39 count, and polished off the Southerners the following day by a 84-31 score.

Sophomore Larry Malmlin of Sweden was top man in both meets, with Chick Cicio and Don Preisser scoring heavily for the Tribe at Hattiesburg.

FSU returns to Hattiesburg this weekend for the Southern Intercollegiates.

FOUR FIRSTS

In the Pensacola meet Malmlin collected four firsts in free exercise, horizontal and parallel bars, and flying rings. He picked up seconds in side horses and tumbling

Other first place winners were Preisser, trampoline and side side horse, Fernando Lecuona, rope climb and Cicio in tumbling.

The Seminoles first two victories came over Georgia Tech.

FSU guard Hugh Durham who led the squad last season with a 19.6 average will have to hustle in the last two games in order to reach even near that average this season. He now has a 15.1 average.

Swimmers, Miami Vie Here Tonight

Florida Meet Ends In Tie

By TOM HALE

Florida State's swimmers host a powerful University of Miami squad and its olympic star Jack Nelson here tonight.

The FSU swimmers, fresh from their Saturday night tie with the Florida Gators, will be facing one of the toughest teams in Miami's swim history.

Coach Bim Stults asserted "We haven't lost to Miami since 1952, but they're loaded this year and it will be one of our toughest meets."

The Tribe tankers defeated Miami twice last season by the scores of 52-32 and 10-0.

Nelson, a former olympic star, is Miami's top butterfly artist and sophomore William Lahde has already swam the backstroke faster than any other Hurricane swimmer.

The Seminoles now hold a 7-1-1 record. Their only loss coming at the hands of Southwest Conference champion, SMU.

Before an overflow crowd Saturday night, the FSU tankers splashed to two new school records and tied another in a come-from-behind effort to tie the Florida Gators, 43-43.

The outcome kept the rivalry deadlocked with both teams now owning a 2-2-1 mark. Meet records were established in eight of the ten events with each team managing four.

FSU's Joel Jacobs broke his own school record in the 200-yard breaststroke with a clocking of 2:34.2. Jacob's victory in the next to last event paved the way for the freestyle relay team to catch the Gators in the final event.

The Seminoles dominated the short freestyles as expected with Ryan Ray tieing his own school mark of 23.3 in the 50-yard sprint and Ken Abbott passing Jim Julian's old school standard of 52.9 by six-tenths of a second in the 100-yard freestyle.

The Tribe was losing 43-36 at the beginning of the last event, the 400 freestyle relay. Ray was off fast and gained a good lead. Teammates Abbott, Paul Hammond and Glen Thatcher kept the margin and gained first place and seven points which gave them a tie.

Bill Weber and Bill Simpson gained first and third respectively in the one meter diving for FSU.

The freshman meet provided just as much excitement as Bucky Hiles paced the baby tankers to a 47-38 victory over the baby Gators. Hiles copped firsts in the 100-yard butterfly and the 150-yard individual medley event. He also anchored the winning freestyle relay team to victory.

The varsity summary:

400 medley relay—Florida (Ruggie, Wiedamann, Drake, Hiler) 4:06.7. (Meet record.)

200 freestyle—Calkin (F), Metz (FSU), Crieghton (F). 2:13.8 (Meet record.)

50 freestyle—Ray (FSU), Abbott (FSU), Born (F) 23.3. (Ties school and meet record.)

Diving—Weber (FSU), Woods (F), Simpson (FSU). 230.8 points.

200 butterfly—Drake (F), Taleisnik (F), Fillmore (FSU). 2:34.6.

100 freestyle—Abbott (FSU), Hammond (FSU), Wene (F). 52.3. (School and meet record.)

200 backstroke—Ruggie (F), Wentworth (FSU), Glancy (FSU). 2:19.8. (School and meet record.)

440 freestyle—Calkin (F), Drake (F), Metz (FSU). 4:57.7. (Meet record.)

200 breaststroke—Jacobs (FSU), Wiedamann (F), McDonnell (F). 2:34.2. (School and meet record.)

400-yard freestyle relay—FSU (Ray, Thatcher, Abbott, Hammond). 3:34.7. (Meet record.)

Flunkies Still Here

By VIRGINIA DELAVAN

"Martha, we need 5,000 forms addressed and mailed by noon tomorrow. Can you help us?"

Next morning—6 a.m. Martha and roommate scrawl "Zerlinhoofer, Box 2900" on the last form.

"It's been a loog night, Sandy," says Martha, her eyes glazed. "Yes," agrees Sandy, trying to control her muscular twitches. They stuff the last form in the closet with the 4,999 others and squeeze the door shut

SETS IN

Battle fatigue, fought off so valiantly through the night, finally sets in.

There still remains the chore of putting each form in its appropriate post office box later in the morning.

Martha Bedell, president of Freshman Flunkies and heroine of the preceding, will be the first to admit that this is a slight easggeration of the facts Only slight, however

The Flunkies' biggest problems, stated parodoxically, are that they don't have enough to do, yet they have too much to do.

According to Martha, the only groups that have taken advantage of her offer of "200 willing hands and feet at your service" are the Freshman and Sophomore classes.

A large project calls for a meeting to outline procedure and get volunteers. This must be planned and arranged for in advance.

However, when a project is given them, they are usually allowed only two or three days in which to do it.

This leads to a fast and haphazard recruit of dormitory friends.

The Flnnkies held two organizational meetings at the beginning of the year, at which the following officers, in addition to the president, were elected. Judy Smith, vice president; Dovie Jean Kennedy, recording secretary; Patty Miller, corresponding secretary; Joan Golson, treasurer; Brenda Brady, typing chairmao; Pat Lance, poster chairman; Norma Nell Hardy, miscellaneous chairman The miscellaneous chairman's job is a grab-bag of odds and ends that don't fit under any other heading.

In addition to these meetings, a get-acquainted reception was held November 18, and a general meeting in January. Thus far the group has: addressed letters and made posters advertising the freshman class meeting; made posters for freshman dance; sent letters to Junior Counselors concerning service keys. Latest caper has been publicity for the sophomore "Joe College-Betty Coed" hop.

The posters announcing the frosh meetings were ill-fated, Martha says ruefully. Not more than five minutes after they were carefully tacked up (on campaign bulletin boards) a custodian removed the boards, posters and all.

The neat meeting of the group will be held March 11 to mobilize for its biggest job yet—circulation of 12,000 letters to parents and alumni containing information on the Circus and family weekend May 2, 3, 4

Having received small response from letters sent to club heads, Martha urges again that Freshman Flunkies stand ready and eager to undertake any and all projects—if given adequate time.

Students Tender Policy Opinions

By GLENDA POWERS

The official administration of Florida State University President Robert M Strozier has begun. Many new policies will be put into effect and various changes will occur. But will these changes be what FSU students want?

Eight students were asked, "What would you like to see happen to see happen to FSU under the new administration?" Although answers covered a variety of subjects, the most frequently mentioned were the parking problem and the infirmary.

"The university should give more scholarship help," according to John Humphries, freshman. "Many deserving people are unable to attend college because of high costs."

"I'd like to see Landis Green turned into a parking lot. I'd also like to see girls allowed to wear bermudas under certain limitations, and I'd like to see more FSU buses to carry students to class; also a better telephone system," said Lois King, freshman, in answer to the question.

"More boys!" exclaimed Karin Herz, when asked what she would like to see happen under the new administration After more serious thought (although most students give pretty serious thought to her first subject), she said she would like to see "higher academic standards, more professors with doctor's degrees, and higher entrance standards; also improved infirmary facilities with better administrative help"

Sophomore Melvin Peters added, "I'd like to see more adequate provision for buildings and other teaching facilities for the mathematics, history, English, and speech departments."

"More new dormitories; also more doctors and faster service at the infirmary" is needed, according to Barbara Essey, junior.

"I'd like to see learning really promoted," said Bucky Canon, junior.

"Better relations between the administration and the faculty and wider streets" are needed by FSU, thought senior Ray Clyde.

Parsons Talks Tomorrow

Dr. Malcolm Parsons, professor of public administration at Florida State University, will deliver the American Studies lecture at 7:30 p.m. Wednesday, Feb. 26.

The lecture, which is open to the public, will be in the lecture hall of the Library. Dr. Maurice Vance, director of the lecture series in American Studies, said the subject in a series of "crisis papers" will this time be "Law and Order."

Paper Execs Meet Here This Week

Top men in the paper industry in southeastern states are meeting this week at Florida State University for a third annual Executive Development Seminar.

The seminar is co-sponsored by the Southern Paper Association and the FSU School of Business. Dean Charles A. Rovetta of the school said the seminar is attracting more executives each year, that 75 from 17 states have already registered.

"The program will be keyed to paper as a major phase of our economy," the Dean said. Sessions will be given over to analyzing various types of economic problems which affect companies in the paper industry. Emphasis will be given to changes and developments currently taking place or anticipated within a decade.

Seminar faculty will be made up of nationally recognized business leaders including King Wilkin, president, Zellerback Paper Company, San Francisco, Calif.; G. Willing Pepper, vice-president, Scott Paper Company, Chester, Pa; Paul Lorenz, executive assistant to group vice-president, Ford Motor Company, Dearborn, Mich.; Robert K. Burns, director, Industrial Relations Center, University of Chicago.

George H. Brown, director of consumer research, Ford Motor Company, Dearborn, Mich.; I. Austin Kelly III, president, National Employees Relation Institute, New York City; Jasper C. Osborne, vice-president, Trust Company of Georgia, Atlanta, I. Wayne Keller, comptroller, Armstrong Cork Company, Lancaster, Pa.; Gerald A Barrett, professor in School of Business Administration, University of North Carolina; and Edwin R Hartz and Dean Rovetta of the FSU faculty.

The program will open Sunday with a reception at the Duval Hotel for executives and their wives. Special features arranged for wives will include luncheons at the University and Wakulla Springs, shopping periods, a trip to Killearn Gardens and a scenic tour of Tallahassee.

TARPON CLUB SLATES SHOW

Florida State University swimmers are busily preparing for the annual Tarpon Club show. Scheduled for March 5-8, in the Women's Gymnasium at 8:15 each night, the show will feature a "Mexirama" theme.

Tickets will go to the Westcott ticket booth for distribution tomorrow and may be received in exchange for student activity ticket number 14.

ARNOLD GREENFIELD accepts the first place award for original oratory from Dr Greg Phifer at the ninth annual FSU Invitational Debate Tournament.

FSU Fourth

Miami Cops Honors At Debate Tourney

The University of Miami copped sweepstakes honors in the Ninth Annual FSU Invitational Debate Tournament held on campus last weekend. Winning first place in debate was the College of William and Mary

The tournament was held on the FSU campus February 21 and 22. Taking second place honors was the United States Military Academy of West Point, with third place going to the College of William and Mary. Florida State placed fourth in sweepstakes awards.

MIAMI DEBATE

Runners-up to William and Mary in the debating event were the University of Miami, second, and West Point and University of Florida, tied for third.

Individual events held in the tourney were after-dinner speaking, original oratory and impromptu speaking. Florida State University students won first place in after-dinner speaking and original oratory.

G. W. Stikelether won first place in the after-dinner speaking for FSU, with second going to Blas Herrero, Jr., University of Miami, and third to G. W. P Walker of West Point.

GREENFIELD ORATES

Original oratory first place winner was Arnold Greenfield of FSU, with D. S. Detlie of West Point winning second, and G. W. P. Walker, also of West Point, third.

The awards in impromptu speaking went to Richard Essen, University of Maimi, first place; Barry Hess, Spring Hill College, second; and Diana Jacobs, William and Mary, third.

Individual debaters rated as superior included Norman Broad, Richard Essen, Blas Herrero, Jr., Stephen Kogan and Eric Raepple of the University of Miami; D. S. Detlie, C. A. Normington, and G W. P. Walker of the United States Military Academy.

Also given superior ratings were Diana Jacobs of the College of William and Mary; Rosa Castro and Melvin Peters of the Florida State University.

Mike Hudgins, one of Tennessee's most sought after prep football player has enrolled at Florida State to play baseball. The 6-1, 193 pounder is a left-handed pitcher who struck out 77 men in 42 innings last season for Battle Ground Academy.

SURVIVAL BENEFITS

Another "Social Security" panelist, Burton W. Ames, director, employee-personnel services, U of F reminded the AAUP members that the "survivors' benefits" does not enter into social security retirement.

Under the present retirement system, "one-fourth out of one percent of the salary," about $94 goes to survivors' benefit, Charles Conley, associate professor of law, A & M, commented. Conley felt that this retirement problem was one to be dissolved by the teachers themselves.

Following this panel discussion, it was announced to the group that President Strozier has appointed Charles Rovetta, dean of business, chairman of a five-man committee "to explore ways and means of increasing insurance coverage for the faculty and staff and to work toward getting social security coverage for the (FSU) faculty."

SALARY SCALES

An A & M English professor read Dr. Charles U. Smith's report to the conference concerning "Salary Scales." Dr. Smith, who was unable to attend the conference, is head of the sociology department at A & M.

"A & M is lower in minimum and maximum salaries in each rank (instructor, associate professor, assistant professor, and professor) than any other land-gran Negro univeristy," according to Dr. Smith.

Other panelists on "Salary Scales" were Lawrence Mansfield, assistant professor of economics, FSU, and Dr. Cecil Phipps, professor of mathematics, U of F.

Mansfield, pointing out the impending shortage of college and university teachers, said that increased class sizes decline the quality of education. To obtain and maintain the qualified teachers, "faculty salaries need to be raised" he said.

"Inflation is the enemy of salaries," Phipps stated. It is a present lag which will continue indefinitely, be continued.

Getting Acquainted Keeps Prexy Busy

By BUCKY CANON

Getting acquainted with the people of his newly adopted state has kept Robert M. Strozier busy since he assumed the presidency last September.

Addressing civic and educational groups around Florida has been the primary method Dr. Strozier has used to accomplish his job of making friends with the state's citizens.

Starting out locally, the President has addressed every Tallahassee civic club in recent months, telling them of their neighbor, the university, and its problems and hopes.

SPEAKS IN STATE

Expanding his itinerary, Dr. Strozier has made several speeches around the state. Two important talks were recently made at the Mt. Dora Chamber of Commerce meeting and the State PTA meeting at Ocala.

FSU alumni have not been forgotten by their new President either. This fall, Dr. Strozier has addressed the alumni chapters in Miami, Ft. Lauderdale, Tampa, and Pensacola Plans are made to talk before the remaining alumni groups throughout the state this spring.

Dr. Strozier has usually addressed the opening sessions of the many educational societies which have held regional or national conventions on campus

An outstanding talk was recently given before the American Childhood Education Association at its national convention here.

Recently Dr tSrozier was honored by his hometown of Moultrie, Georgia where he was invited to speak at a banquet in his honor.

LIKES TO TAG ALONG

Mrs. Strozier likes to accompany her husband on as many of his out of town speaking engagements as possible, though often her duties as a housewife prevent this. Occasionally Dr. Strozier is accompanied by a member of the faculty or staff when making a speech in another city.

Despite his seemingly full itinerary, Dr. Strozier travels little more than did Dr Doak S Campbell when he was President of the university.

Dr Strozier has spent his first semester at FSU by becoming acquainted with the university and its personnel.

The one change that he has made which has caused more comment among the faculty than any other, according to campus observers, was when he charged the time of the faculty senate meeting from 5 p.m. Wednesday afternoon to 3:30

When Dr. Strozier speaks to an audience, his subject is usually education — specifically education at FSU.

DON'T FORGET

On the subject of education in general, Dr. Strozier has said, admist the outcry following Sputnik that he very strongly hoped that, in the rush to educate more scientists and mathematicians, the humanities and liberal arts would not be forgotten

Speaking on FSU specifically, Dr. Strozier has asked audiences throughout the state for an endowment program for FSU.

Endowments are important in building a first class graduate school he explains. Observers have noted that it is most difficult to get the legislature to increase the funds for the graduate school because of the low ratio between professors and students.

A first class graduate school is a must for a first class university, Dr. Strozier feels

Dr. Strozier has praised the quality of the FSU faculty, the transition from FSCW to FSU, and the new admissions policy.

"We will be asking for suggestions for movies for next ... in the near future. I hope ... have good response from students" she said.

Withdraws Shorts Bill

Senate Tables Drop Resolution-By 1 Vote

A resolution to "immediately drop from the roll" any senator missing over half the senate meetings in a semester was the chief topic of debate in Senate Wednesday.

By the narrow margin of one vote, Senate passed a motion referring the question to a special committee. The vnte was 15-14. The committee was instructed to report back next week.

Sophomore Senator Diane Godin introduced the resolution. She was appointed chairman of the committee Other members are Senators Kissinger, Roberts, Sink, and Teschke.

AUTOMATICALLY OUT

Godin's resolution, if passed, would automatically remove any senator missing over half the meetings in the semester following his election. Excuses would have no effect, according to the resolution.

Junior Senator Gerry Gordon and Senator Don Hayes opposed the measure as an "ex post facto" law Gordon explained that the resolution would be retroactive and that he did not think that this was fair.

Several senatnrs suggested amendments to Godin's resolution which will be considered by the committee.

POLLS SET

A bill, introduced by Senator Gordon, to locate the polling places passed unanimously. The polling places will be located in Westcott, in front of Bryan Hall, on Landis Green, at the Seminole Club, Student Center, and West Hall.

On the controversial bermuda shorts matter, the Senate voted to withdraw a pending resolution favoring the right of women students to wear bermudas at certain times and places, but to keep the current committee active.

Senator Ronnie Clark, who made the proposals, explained that the committee "was not giving up the fight," but that the resolutinn needed mnre thought and rewording.

OTHER ACTIONS

Senate also:

Received the appointments of Ann Key for Juninr Judiciary, Ann Stickler for Cawthnn Senator and Art Albrecht for Board of Publications.

Received a bill from Senators Roberts, Mann and Apthorp to make certain changes in the selection nf Who's Whn candidates. The basic changes would (1) allow graduate students to attain Who's Who, and (2) raise the required grade average of a candidate from 2.0 to 2.5.

Heard Senator Ronnie Clark recommend that $50 of student government funds be alloted to each of the major political parties on campus.

Grad Recital Reset Tuesday

The faculty recital nf Dr. Howard Wilson, associate professor of piano in the Florida State University Music Department, has been rescheduled for Tuesday at 8:15 p.m. in Opperman Music Hall, instead of tonight.

A program of chamber music has been arranged by Dr. Wilson. The recital will include three works Trio in E-flat Major, K 498 by Wolfgang Mozart; Sextet in C Major, Opus 37 by Ernst von Dohnanyi; and Dr Wilson's own composition, Sonata for Violoncelln and Piano.

Dr. Wilson will be assisted in his recital by other faculty members of the FSU music department, including Dr. Joseph White, Frencb horn; Robert Sedore, violin; Eugene Crabb, viola, Owen Sellers, violoncello; Harry Schmidt, clarinet.

The public is cordially invited to attend the recital.

Annual Tarpon Show Features Mexican Idea

By MARCY SEITZ

"Mexirama" is the theme for this year's annual production of the Tarpon Club, women's water ballet team.

The show will be held in the Women's Gym, March 5, 6, 7, and 8 at 8:15 p.m.

Following the Mexican theme, the numbers will be an interpretation nf the culture and life of our south-of-the-border neighbors.

The show will open with a Flame Dance which includes three swimmers and six torch bearers. This number is based on the traditional Flame Dance of Mexico.

VIOHL SOLOS

Second on the program is a solo by Meta Viohl, president of the Tarpon Club.

Following Miss Viohl is an out-of-the-water dance done by Paula Parsons.

The largest number in the production is the "National Palace" act which has 14 members of the club doing an interpretation of the marching guards to music.

MONASTIC NOTE

Following in a more serious tone, is a monastry number in which seven synchronized swimmers move the length of the pool in the formation of a cross

Also on the program is a lively version of the Mexican Hat Dance, followed by the "Market Scene". This number has a total of twelve members enacting various Mexican market happenings.

Floats of flowers are the settings for a Floating Garden act, in which six swimmers pattern in and out of the floats.

Comedy is added to the production by an interpretation of the Donkey Serenade, which includes twn "donkeys" and a senorita.

BULL FIGHT

Pat Malseed, vice-president of Tarpons, and Lyn Strickland give their version of a Mexican Bull Fight.

Clad in plaid swim suits and bright skirts, eight Tarpon members depict the Mexican "Fiesta" by a dance out of the water, and synchronized swimming in the pool.

In a change of pace, a "Night Life" scene opens with a traditional dive into a non-lighted pool. Seven swimmers give their version of Mexican night life with the use of body lights.

The show ends on a solemn note with a short ceremony as the finale.

The Tarpon Club taps each year in October. In previous years the Tarpon Club has had appearances on such shows as "Tonight", and the Garry Moore show.

Two Convicted In Honor Court

Two students were recently convicted of honor violations, according to Barbara Burkhardt, chief justice of honor court.

The Honor Court sentenced the student accused of cheating to a grade of F in the course and one calendar year of probation. The student was observed by twn other students and a witness testified as to the accused student's guilt at the trial.

The student accused of stealing a hi-fi set from the Student Lounge was found guilty and suspended from the university.

The case was reported by a male student and investigated by the Honor Court, which found the hi-fi set in the student's room.

Eighth Campus Sing To Feature 27 Groups

—Flambeau Photo: Warren Gerard

WARMING UP for this weekend's campus sing are these Kappa Alpha Thetas: Standing: Nancy Jo Bowers, Linda Potter, Desse Pinckard, Katherine Ball, Mary Ann Vickery. Seated: Beverly Perkins, Torchy Briscoe.

Set Tomorrow For 1 P.M. In Westcott

By VIRGINIA DELAVAN

The eighth annual Campus Sing, showcase for the choral talents of 27 groups this year, will get under way tomorrow at 1 p.m. in Westcott Auditorium.

This round, the semi-final competition, features each entrant group singing two selections. According to Elaine Clark, co-chairman of Campus Sing, with Raymond Liebau, the entire performance will probably last until 6 p.m. The audience and partcipants may come and gn at will.

The six finalists, three men's and three women's groups, will be announced at the dance tomorrow night, which is an annual part of the festivities. The Commodores will play for this formal affair, to be held in the Suwannee Room from nine until midnight. The few remaining tickets are on sale in Westcott for $1 per couple.

FINALS SUNDAY

The finalists will compete at 2 p.m. Sunday for the two first-place loving cups, won last year by Delta Zeta and Pi Kappa Phi. Delta Zeta's win was their third consecutive and retired the women's trophy

Second and third place winners will be awarded plaques, along with records of their performance and pictures of the group in action, which are given all the finalists

Campus Sing is sponsored annually by Phi Mu Alpha and Sigma Alpha Iota, music honorary fraternities, "in order to promote singing in dormitories, fraternities and sororities."

FACULTY JUDGES

A trio of FSU musicians will judge the singing Dr Wiley L. Housewright, director of the University Singers, originated Campus Sing in the Spring of 1949. Edith Campbell Kaup, instructor in voice, has served as judge in several previous contests; George A. Booker, music education instructor, directs the Collegians.

Sororities, fraternities, dormitories, or any non-coed organization is eligible to enter This includes a male or female chorus from any coed organiastion No music organization is eligible

Applications for this year's Sing began coming in as early as December, Miss Clark said. This means that entrants have been practicing at least three months.

PIKES WON

Pi Kappa Phi, men's winner in '57, started practice near tha beginning of the year.

Type of music performed is left up to the group, but of the two numbers, one is light and one relatively serious. No two groups may sing the same number

Judging is based on 12 criteria: blend of voice, intonation (pitch, etc.), rhythm, dynamics, phrasing, balance, diction, technical difficulty, interpretation, participation of group from which chorus is drawn, originality and stage presence

PARTICIPANTS

Participants, in order of their performance, are:

KAPPA DELTA: "April Showers" and "Singin' in the Rain"; director, Aurelia Pitts; accompanist, Susie Ann Beevis

ALPHA CHI OMEGA: "Speak Low" and "You'll Never Walk Alone"; director, Mary Ethel Ingram; accompanist, Hean Johnson

GILCHRIST HALL: "Lord, Make Me an Instrument of Thy Peace" and "Rock-A-My Soul"; director, Frances Ellinwood, accompanist, Norman Turner

SIGMA CHI: "Lord's Prayer" and "Halls of Ivy". director, Jerry Dye; accompanist, Chris Vogle

ALPHA GAMMA DELTA: "Ezekiel Saw De Wheel" and "Music, Maestro, Please"; director, Fedora Lewis; accompanist, Ralph Russell.

KAPPA ALPHA THETA: "Carol of the Drums" and "An Affair to Remember". director, Sue Gunderson; accompanist, Charles Bryan

BROWARD SMILES

BROWARD HALL: "Smilin' Through" and "I Passed by Your Window"; director, Lynnia Cavin, accompanist, Deanna Lumpkin

SIGMA ALPHA EPSILON: "This Is My Father's World" and

(Continued on Page 6)

Running Independently

Moore Only Candidate For Student Body Prexy?

By BUCKY CANON

Art Moore, present attorney-general in the president's cabinet, appears to be the only candidate for Student Body President in the coming April electinns.

Moore, who has been active in student government since his freshman year, said that he would seek the office as an independent, but added that he would like to receive the endorsements of both major parties.

Opposition to Moore seems to be non-existent. Bill Clendinen, often mentioned as a probable opponent to Moore, told the **Flambeau** yesterday that he did not plan to oppose Moore.

GORDON—HAIR

What should prove to be the livellest race of the election is shaping up between Gerry Gordon and Mattox Hair for Student Body Vice President. Both candidates are chairmen of their respective parties.

Student Party Chairman Hair, in an interview with the **Flambeau**, announced that the party convention would be held in 124 Science at 7:30 p.m. March 11. At this time, Hair asid the party will nominate candidates to fill all major student government offices.

Gerry Gordon, Collegiate Party chairman, told the **Flambeau** that their convention will be held March 12 at the House of Representatives Chamber in the State Capitol downtown. A prominent speaker will give the keynote address, Gordon added.

NEW CHAIRMEN

Both party chairmen added that they expect new chairmen to be elected at the conventions. Hair said that Sophomore Senator Ronnie Clark was the leading candidate for the Student Party post. Freshman Class President Bruce Brown is the most probable Collegiate Party designate, Gordon said.

According to Hair, an interesting battle is expected to come up on the convention floor between Diane Godin and Ada Leigh Wall. Both are seeking the party's nomination for women's vice president.

GODIN FOR VEEP

Godin is a sophomore serving her second year in Senate Wall is a junior and this is her first year in Senate.

Jim Apthorp and Ramon Arnold are possible candidates for the Student Party nod for Men's Veep. Gordon of the Collegiate Party told the **Flambeau** that at present there are no leading candidates in the race for his party's nominations for men's and women's veep.

Also, party nominations will be open for Board of Publications, positions, chief justice of Honor Court, clerk of Honor Court, chairman of Traffic Court, secretary of Senate, and chairman nf the University Recreation Association.

STUDENT MAJORITY

Presently Student Party holds the majority of Student Government offices which they won in last spring's election. Vice President Jan Kaminis is the only major office holder not a member of Student Party. She was elected unopposed as an independent.

Both party chairmen emphasized that they thought their conventions would have a large turnout. Both added that any and all students interested in student government were invited to the conventions either as delegates or guests.

SOUTH NOT 2ND BEST, PREXY TELLS MATTOX

Dr. Robert M. Strozier's inauguration was less than twenty-four hours old when Rep. Ray Mattox of Polk County questioned some of the statements made by Dr. Strozier in his inaugural address.

Rep. Mattox wrote in a letter to Dr. Strozier that first impressions of the speech were that some remarks appeared to be critical of the South and of Florida.

He went on to ask Dr. Strozier if he would please break down into "cracker language" just what he meant when he stated "there is no Southern justice, no Southern democracy, and no Southern education."

CLARIFICATION ASKED

Also he wanted to know what the president meant by, "We in Florida should nnt be an island of dreams in a sea of practicality." Rep. Mattox cited several other statements that he wanted clarified.

Befnre Dr Strozier had a chance to receive the letter, Rep. Mattox released its contents to the press When asked for comments, Dr. Strozier said that he would reply to Rep. Mattox by personal letter.

Upon receiving Dr Strozier's letter, Rep. Mattox made its contents known to the public. This was Strozier's reply:

DIDN'T READ SPEECH

"I feel sure that you have not read my entire speech at the time you wrote me or you would have realized that I was attempting to say that Florida and the South should take their rightful place in the affairs of our country.

"One of our former fellow Georgians said that the South is where the second best will do. I believe in my heart that the South and particularly Florida are only where the best should be accepted.

"I am enclosing a copy of my speech and hope that you will give it a careful reading. When you come to Tallahassee, plan to drop by my office so that we may talk together about the future of Florida, our adopted state."

MATTOX REPLIES

In commenting on Dr Strozier's letter, Rep. Mattox said:

"I have no desire to prolong the controversy. However, there were certain questinns and as to whether or not they were answered. Dr Strozier's letter speaks for itself.

"I would reiterate that the vast majority of the people nf the state of Florida want segregation maintained and it would seem inconsistent with their best interests and desires to hire as president of one of our major institutions of higher learning a man who possibly would favor or work for integration."

No further comments have been publicly made by either party.

Dupont Representative

Denton Talk To Highlight Fashion Day, Set Thursday

By DOLORES LAFFERTY

Fashion Day, an annual event at Florida State University, will be held next Thursday, March 6. The day is sponsored by the Fashion Institute, composed of faculty members and the Student ...ion Institute. Special speakers from leading fashinn centers ... each year to speak to the ...ts.

Highlights of this year will be ... talk given by Mrs. Jane Stewart Denton, director of public ... and fashion representative for Dupont Company, along ... a special showing of Paris fashions which she brought with ...

Modeling the clothes will be ... Sears, Donna Huggins, ... Hargrave, Jackie Stecker, ... Ann Reitz, Margaret Hooten, ... Buchan, Jeani Kitchens, ... Pinckard, Diane Williams, ... Diane Davis.

An afternoon feature will be ... student tea and fashion ... Jean Permenter will act chairman of the tea, with ... Buchan, Donna Huggins ... Dolores Lafferty.

Also working on plans for the tea are Margaret McLean, make-up: Martha Frazier, music and tea chairman, with Sue Beck and Ethlyn Beasley assisting; Dr. Ivan Johnson, head of the art education department FSU, props; and Elsa Heckendorf, publicity, with Bobby McMillin, Audrey Flohe and Jerry Shearouse working under her.

Girls modeling their own fashions will be Sue Beck, Francine Coffey, Mary Ann Coleman, Barbara Emmett, Evelyn Gay, Cora Hargrave, Elsa Heckendorf, Donna Huggins and Janie Jarrett.

Mary Jane Johnson, Shirley Jackson, Kitty Kilner, Dolores Lafferty, Cynthia Lawrence, Jeanell Fordice, Arva Moore, Sandra Sears, Julie McKinsey and Jane Wallace will also model.

The schedule for the day is as follows:

SCHEDULE

9:15 a.m.: Dr. Lewis Killian, sociology professor at FSU, speaking on "Fads, Fashions and Conformities."

11:15 a.m.: Mr. Frederick Bohrman, art director from Rich's, Atlanta, speaking on "The Endless Art."

10 a.m.: Mrs. Jane Stewart Denton, Dupont Company, speaking with fashion show of Paris fashinns, auditorium.

2 p.m.: Mr. W J. P. Smith, former vice-president and general manager of Orback's, New York City, speaking on "Modern Methods in Retailing."

3 p.m.: Discussion and seminar groups with the speakers.

4 p.m.: Student Fashion Show and Tea, lounge.

All events will be held in Longmire Building

We Want Intelligent Answers

It wasn't too much of a surprise when Rep. Ray Mattox of Polk County publicized his inability to understand the terms in President Strozier's inauguration speech. We imagine it is a blow to persons of a conservative segregation view to think that the state has hired a man who "will favor and work for integration."

REP. MATTOX expressed concern about the statements made by our president. He said that his "first-hand impression is that you (President Strozier) are critical of the South and of Florida specifically for seeking to maintain certain customs and traditions that have been upheld and followed for decades, notably segregation."

We know this impression has been cleared up for the gentleman from Polk County if he has read the entire speech in question.

PRESIDENT STROZIER'S speech, however, is not the subject we would like to comment upon here. We would like to remind Rep. Mattox that, contrary to his belief that the majority of Floridians are "struggling to maintain segregation," many are willing to accept the fact that segregation is unlawful, no matter what their emotional feelings are on the subject.

May we remind him also that many people of Florida even think segregation is morally wrong.

PERHAPS, REP. Mattox was trying to appeal to the beliefs and intelligence of his constituents when he pleaded for Collins and Dr. Strozier to clarify their "high-flown" statments in "cracker language". However, this is not the type of language intelligent, reasonable citizens want to hear—especially at a university such as FSU.

We would rather hear rational solutions to our problem. We want suggestions for progress; not for the status quo. We want politicians to meet the problem with intelligent answers, not reactionary legislation such as the "last resort" bill.

FLORIDA CHOSE its leadership well at the last election and showed preference for the moderate viewpoint of Collins over the radical view of Lowry. We, the youth of Florida and many of the older generation recognize what Dr. Strozier tried to stress in his speech—that Florida must take its place in national affairs.

It is the political leaders who must make the laws of Florida and uphold the laws of the United States. University presidents must adhere to these laws; they are not the policy-makers except on their own campuses.

Therefore Rep. Mattox and others who raise such questions are fortunate that Florida has hired a man who is willing to "be a member of the team,' yet, is capable of handling the problems which may arise.

IF Week Needs Controversy

Another Intelligent Faith Week has come and gone. Gone, we might add, without really having enriched the lives of many FSU students.

RELIGION PLAYS a varying role in our lives. Some of us are actively concerned with it, while others do not give it so much attention. But directly or indirectly, it affects us all.

Because of this, Intelligent Faith Week is a good idea for any university. A program to stimulate our thinking and increase our general knowledge is something beneficial.

MANY STUDENTS ignore IF Week completely. Their complaint is, "I'm not very religious." For these persons, the IF Week inaugurated a new program this year.

This was the Skeptics Hour. Skeptics Hour proved to be one of the most popular and interesting of the IF programs. It provided a forum for intelligent discussion of student's questions about the nature and basis of modern religion.

We congratulate the planners of Intelligent Faith Week for Skepics Hour.

WE FEEL, HOWEVER, that in many ways Intelligent Faith Week fails to meet the test of intelligent reality.

It ignores many questions that should be taken up by religion in these times.

For instance one of the most important questions facing the Southland (and one which will probably face our children and their children) is the question of the relationship between our Christian conscience and the Negro.

THIS YEAR (and in the past several years) no speaker has come to grips with this topic in any hour talk, discussion period, or seminar. It has not been mentioned in more than passing.

Why?

Is it because of the planners of IF Week are afraid of including something of this sort for fear of potential controversy? Or is it because no speaker would take the topic?

IF IT IS the first reason, then the fear should be banished. For thought thrives on controversy. And if this is "Intelligent" Faith Week, then a program should be presented where students can take an intelligent, thoughtful look at the problems of modern Christianity.

If no speaker would dare to take the problem, then something is basically wrong with modern Christianity.

THE PROBLEM of the Negro is not the only problem facing the churches today. It is only one. Other problems concerning the practical application of Christian principles, and the explanation of theology in simple and logical terms. to confused students are problems IF Week should take up.

A few changes in next year's program would increase student interest tenfold. They might provoke more thought, stimulate more discussion, and set some students on the road to more answers.

A Message From Joe Blpsfk

Herbert Hoover's speech the other day at Valley Forge was a fine expression by a man who has earned well the title of Great American and who wears well the mantle of an elder statesman. Just the same, we wish he hadn't made it.

RECEIVING A Freedoms Foundation award for "wisdom and service," Hoover declared his faith in the country's ability to rally from this recession as it did in the '30s from the depression.

We don't especially care for this parallel, comparing today's head cold to yesterday's galloping pneumonia. It's not very cheery, especially when we note Mr. Hoover's proud announcement that he said the same thing at the same place 27 years ago. It took about 10 years to get out of the doldrums then, but economists look for this downturn to bottom out this year.

NOW HOOVER didn't cause the depression of the '30s; he was, rather, its victim. He might have brought us out of it, if he had had the chance. But he is symbolically associated with it. In the economic world, he is too much like Joe Blpsfk, Al Capp's comic character who bears his own private raincloud. Right now, it would be better if Mr. Hoover left the expressions of confidence to people who do not have such a unique association in the public mind.

Put Campus Talent In Big Show

By ART ALBRECHT

It all started back in the 1930's or maybe even earlier. At first it was called the Odd Even Demonstrations. In 1947 a contest was held and the name was changed to Sandspur. Today Sandspur is little more than a memory to about one-fourth of the student body and this discarded traditional event holds even less meaning for the remainder.

SOMETHING IS wrong when a tradition which has enjoyed great success in the past just disappears.

Sandspur, for the benefit of those who aren't in the know, was an annual musical comedy production written, produced and acted by students.

Presented each Spring during Sandspur Weekend, the musicals gave the creative element on campus an opportunity to express themselves. Along with the show, a Sandspur dance featuring name bands was held and on several occasions a King and Queen was selected to reign over the weekend festivities.

LOOKING BACK OVER past issues of the Flambeau, the weekends and the Sandspur productions were apparently successful. Several of the musical comedies seriously considered going on tour.

Well, whatever happened to Sandspur? Among other things it suffered from lack of suitable scripts and politics.

The last Sandspur production was presented in 1955. The following year a committee was formed to head the 1956 program. An attempt was made to create a permanent organization which would, in turn, select its successors. Cries of cliquishness were heard and the plan met with considerable opposition.

STILL, A PROGRAM for the annual event was set up and musical plays were requested to be submitted. In March the committee announced that the musical production was cancelled because "no suitable script had been turned in."

Actually, only one play had been turned in. Wiljohn, a Flambeau columnist who wrote the musical with David Ward-Steinman, complained in his column that "indiscretions in his writings earlier in Smoke Signals (which, incidently, resulted in the magazine being put on one-year probation) resulted in his play being banned, almost before it was written and submitted."

HE FURTHER SUGGESTED that the calling-off of Sandspur would mean the end of a tradition. In its place the Sandspur committee proposed an Original Talent Night offering $100 scholarships to the best skits, musical selections, poetry, dance numbers or short stories submitted by fraternities, sororities, residence halls and student organizations.

A few weeks later the committee reconsidered and cancelled the talent night deciding that its purpose was to "present an original musical comedy not a talent show." Other factors which influenced this decision were: a lack of cooperation, conflicting social functions and activities due to the delay in getting the show ready, inability to get a name band for the weekend dance, and, generally, a lack of funds.

THE COMMITTEE PROMISED, however, that it would start making plans for the 1957 Sandspur Weekend 1957 and now 1958 saw the end of Sandspur. No committee, apparently no interest, no nothing!

As I mentioned previously, something is wrong when a tradition which has been successful disappears — particularly, when its halt came as the result of one off-year.

MAYBE THIS COLUMN will serve only as a sketchy history of a former tradition which just faded away. Possibly it will cause some of you to write in your views about re-establishing Sandspur and Sandspur Weekend. And, it might even cause a few of you to get together and do something about it.

While on the subject of musical productions, et cetera, here's another suggestion. Each year those who attend Freshman Talent Night get to see and hear four or five acts which are truly professional—and that's the end of it!

IF YOU STOP and think for a few minutes you'll come to the conclusion that there's quite a lot of professional talent on campus. Well, why doesn't some energetic organization put on a really good variety show utilizing groups like the Devilaires and the Pastels and individuals like Beverly Brown, Rod Willis, Sandi Beskind, Dennis Smith and a number of others.

By charging a reasonable admission price and opening the show to the public, this could prove to be a real moneymaker and show-off the best of FSU talent at the same time.

Volunteers Needed For Grod Reception

Volunteers for the coming presentation of the Graduate Lounge are urgently needed according to Graduate Club officials.

The club is planning a reception and presentation, scheduled for March, of the Graduate Lounge in the Graduate School building (old library).

Assistance is needed in the areas of entertainment, decorations, and arrangements, refreshments, hostesses, and general help.

Persons interested in assisting are invited to attend meetings this afternoon at 3:30 and Tuesday at 10 a.m. in the Graduate Lounge, club officials said.

Public Faces Question 'Whence Education'

(Editor's note: Dr. Chalmers came to FSU in September a[fter] serving five years in Air Force research. Previously he ta[ught] at Princeton University where he received his bachelor's, Mas[ter's] and doctoral degrees. The Flambeau welcomes contribut[ions] from members of the faculty as well as the student body.)

BY E. L. CHALMERS, JR.
Assistant Professor of Psychology

For several decades educators have been conce[rned] about what has been called a "retreat from the hu[mani]ties". Educators complained that the study of Sch[open]hauer, Schubert, and Shakespeare had been replace[d by] mechanics, molecules, and microscopes. The educated [man] or woman was no longer interested in and familiar [with] the cultural works of man, but intrigued instead by man's exploration of the lawful wonders of the universe. The educators cry was scarcely heard. Society quickly sanctioned the change and awarded both prestige and income to those who prepared to become scientists.

THEN, LIKE A sputnik out of the blue came the realization that the "retreat from the humanities" had not swelled the ranks of scientists, but that a "retreat" had occurred here as well. With each passing year greater numbers of students were enrolled in the colleges and universities of this country, but neither the study of Shakespeare nor of molecules had witnessed a corresponding increase. In what courses were these students enrolled? With what courses had they replaced the humanities and sciences that had been the mark of an educated man only a few short decades ago?

Very little time or effort is required to discover the answer to such questions. Pick up any one of many university catalogues and the difficulty lies in finding the courses on Shakespeare, rather than the replacements. A great host of courses, schools, and programs have arisen, courses concerned with everything from marriage to television repair.

COURSES DESIGNED rather exclusively for the purpose of earning an income or finding a place in society have sprung up by the hundreds. Once again the American public has sanctioned the change by rewarding the man or woman who has been "taught" to get along with others and who has been "taught" the specific requirements of his job. Thus, the reading of great literature has been replaced by instructions on the "correct" way to answer party invitations or write advertisements. The study of languages has been limited to the meaning of RSVP.

The course on fly casting is a more popular offering than vertebrate physiology. The course on refinishing home furniture may run multiple sessions while botany leads a lonely exisetnce. The study of the world's great art gives way to techniques of fashion design, while study of the world's great music is replaced by techniques of directing high school band formations.

PRINCIPLES OF economics are replaced with problems of laundry management, and we learn how to teach or why it is taught.

Together with this change [activ]ities that had been regard[ed as] extracurricular and recreation[al ac]quire new significence in [light of] the new importance of "tea[ching] how to successfully interac[t with] one's fellow man. As e[...] courses in bowling and [...] dancing take a prominent p[lace] as credit courses and even [re]quired credit courses.

This current pedegogical [...] is evidently based upon the [...] that education should equ[ip the] student with the techniques [for so]cial and vocational acceptan[ce in] contemporary society; to [find] one's niche as the cliche go[es]. [It] implies that the products o[f edu]cational institutions shall [...] our present civilization rath[er than] possess the capabilities for [...]ing change.

STILL ANOTHER pr[...] which seems to characterize [mod]ern educational philosophy [is the] tendency to "democratize" [...] education. Like freedom [of] speech it becomes the bir[thright] of every native American to [...] a college degree. This le[ads to] the re-teeching of a host of [high] school subjects at the college [...] to the dedicated effort to [elimi]nate "work" from college co[urses] and to an overwhelming c[...] for the student at the low [end of] the distribution, while rela[tively] little comparable effort is [spent] upon the extra bright. After [all] they can shift for themselves [...] or can they?

These changes are neither [good] nor bad until some criterion [is ap]plied. In our country that c[...] is applied by society at large [not] so much by what society sa[ys as] by what it rewards. If [...] stamped social conformity a[nd vo]cational skills receive high [re]ward then virtually every [...] will follow such a path. Bu[t John] Q. Public can't have his cak[e and] eat it too.

IF HE IS concerned abou[t the] next generation of state[smen,] scientists, educators, and [inde]pendent thinkers in all wa[lks of] life, he cannot expect this p[...] from the same educationa[l ...] which yields complacent co[nform]ists. The young men and w[omen] who will act upon this wo[rld of] ours have little in commo[n with] those who have learned mer[ely to] exist within it.

Some teachers like to enga[ge in] romantic philosophy about th[e role] of the teacher. An educat[...]

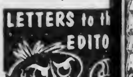
Non-Christians Lack Charity



TO THE EDITOR:

This will serve to answer Emmett Jarrett's reply to my previous letter to the editor published in the February 25, 1958 edition of **The Florida Flambeau.**

Mr. Jarrett's exception to my use of the term "atheist" is well taken. But whether he calls his flag atheism, skepticism, agnosticism or whatever, the color is the same and he should own up to bearing it. In my original letter I did not intend to bandy terms nor to direct a personal attack against Emmett. I simply object to the use of the **Flambeau** as a mouthpiece for a college type which I believe is not in a majority position. Skepticism is consistently preached in "The Pontificator", and this Mr. Jarrett could not possibly deny. Refer to the February 25 "Pontificator" wherein Mr. Jarrett states, "The only word of positive advice which we have to offer is Goethe's: when men cease to strive they are damned. Therefore, not knowing for what we are striving, nor even whether is exists, we must strive." Brother, this is skepticism, pure, simple, and probably intended as universal. I might add that I need no definition for this term in as much as I have a dictionary of my own. Skepticism in philosophy normally goes hand in hand with agnosticism in religion. Jarrett's column advocates both.

Your meaning when you used the phrase "The death of God" was quite clear, Emmett. Underestimating your readers' intelligence is a potentially fatal journalistic defect. You make this mistake when you attempt to veil your philosophy in the jargon of passe demagogues and when you imply that we do not comprehend your true meanings.

I still must maintain that the vast majority of this campus, and for that matter the vast majority of Americans, are Christian. I believe if you have the opportunity to study at first hand, as I have, a people whose religion is other than Christian you will understand my point. Such a people will lack one virtue of the Christian faith so obvious in this country—CHARITY. You will be surprised, I feel sure, Mr. Jarrett, to observe in a heathen but civilized country people starving on the streets, the sick dying for want of medicines, the helplessly poor suffering uncounted harrassments, the weak stepped on, ad infinitum. Granted, some of these things can be attributed to economic lack, but even where help is available it is not given simply because the prevailing religion does not call for a display of charity. Man is a product of his own environment, the heathen as well as the Christian. How often have you dropped a dime in the poor-box, Mr. Jarrett. Granted you can't find very many walking saints, but I think most of the attributes of Christianity can be found in Joe College and [...] Coed. If you are disappo[inted] with your society, Mr Ja[rrett,] don't study another. You [will] be positively sick to the [stom]ach.

With appreciation [for] your attention,
FRED ROWLAND

No Exit For 'Outsiders'

TO THE FACULTY:

The court convened, the sentence was passed, and the faculty was found guilty. Eliot, Camus, Wilson, the "outsiders," due to this decision, will remain outside.

Those who have suffered and are suffering the experience of transvaluation, of metamorphosis, the Monroes, the McDonalds, Smiths and Browns, cannot come to you, the faculty, for help, because by your own deed, in the action of the board of inquisition, you have found yourselves guilty.

A student came to the student court and opened his soul: the answer, "We sympathize with you, but we have a tradition to uphold."

As the student left the [...] he heard the laughter of [...] who held his fate in their ha[nds.] "This was the most unkin[dest] cut of all."

Some of you, the faculty [un]derstood and tried to help [...] the faculty review board, in [the] words of one of its mem[bers] could not understand [...] could not understand the [...] of the soul in the torment of [...] of values. The student was [...] by you with a "tabula rosa" [...] blank face, an uncompromi[sing] attitude, the rejection. You [...] told us as students that the[re is] truly no exit for us, the [out]siders."

PAUL SMI[...]

Ignorance Stunts Growth

TO THE EDITOR:

Unfortunately many of the students of this university have allowed ignorance to stunt their intellectual growth. It is time for them to open their minds, for that is what they are supposedly on a college campus for. I am amused to see good Christians quivering at the thought of new concepts being true. Archaic tenets taught in childhood continue to be clung to as if they were gods. In spite of the security and comforts that these beliefs bring, I have realized that perhaps they are not as prime packed with God, truth and justice as many would like to believe.

Often, sound thinking individuals are attacked by a group who would call themselves Christians. Their cries are like [the] bellows of so many out[raged] asses who will not be mo[ved]. Yet, in spite of these emot[ional] cries many of us are using [our] minds to seek truth.

"Ye shall know the truth [and] it shall make you free." You [will] never find real truth if you [are] afraid to search what you p[res]ently believe in to be true. [The] sun would still be revolv[ing] around the earth if it were u[p to] some staunch believers. No[t to] believe, but to understand w[hat] it is you do believe.

Let ignorance enslave you [...] will bring you security. I ch[oose] truth through knowledge, [even] though the knowledge I find m[ay] crush my belief.

IRVING GORDON

Hoopsters End Season Monday

Larry Block

Once Over Lightly

Sometimes it just doesn't pay to get up in the morning. Florida State's golf team bowed to Florida Monday, 19-8, with three Gators shooting under par. On the other side, two Tribesmen also broke par. . . Quite a contrast from last year's match when the Seminoles shot their worst game of golf. . . . A win over Georgia on **Monday night is a must for the cagers if they want to surpass last season's overall record.** Kennedy's charges now stand 8-16 . . . **Hugh Durham had his worst night as a Seminole** at Miami, being held to five points by Gene Stage. Durham scored only four against Loyola, but was handicapped by an injured ankle.

By beating the Tribe, **Tampa broke a 14-game losing streak** winning their third game of the campaign. . . . Also picked up their first win over the Seminoles since 1952 after suffering 10 straight defeats . . . **Cagers lose only two men from this year's squad, captain Larry Strom and guard Tom Garcia** . . . Of 72 % of the 80 professional basketball players in the NBA 36% are from four eastern states, namely New York, Pennsylvania, Mass., and New Jersey. These are not the colleges they played for but their hometowns . . . **Top state supplier is New York with** 18%, just nosing out **Pennsylvania with slightly over 12%.**

The FSU-Florida swim meet turned away about 800 students after cramming roughly 600 in according to the talk. Sounds like a sardine factory. . . **Look for service returnee Jim Casteel to be one of the south's best quarter milers. Tracksters should be strong in the running events, but weak in the field events except for the javelin says Coach Mike Long.** . . . It's anybody's guess as to who will play second base for the Tribe . . . There are about five players fighting for the job, but Litwhiler may move centerfielder Owen McCarron in to take over the keystone sack in the event that no one can hold down the job permanently. . Instead of the old gag, "Who's on first?" it becomes who's on second?

Spirit on the football team, we hear, is very high. According to one gridder the team really enjoys practice, they don't consider it a job. Very optimistic toward the coming season . . Miami's **cagers rewrote the record book as they tied their best season's record with a 14-8 mark, are waiting for the NCAA bid, Stage set a new season scoring record, and Ed Morris, 6-2 set a new rebound record.** . . . Including the tournament, frosh games and the varsity, there will be 31 home baseball games, of which 25 involve the Seminole varsity. . . . That's a lot of baseball. . . The spring semester provides the greatest total of home events in Seminole history.

Seminole netters could have an impressive record this season. The team has been bolstered by service returnee Jim Berry, who currently is the number two man . . . **Top man is veteran Lex Bester, who has faced some of the top men in collegiate circles.** . . **Included in the slate are five SEC opponents.** . . . Another instance where comparative scores mean nothing. Seminoles clobbered Murray State here early in the season, lost to Marshall by 4 and Murray State comes up and knocks off the West Virginia school.

When the tankers tied Florida it was only the second time that an FSU swimming meet ended in a tie. The last time was in 1952 against Georgia. Florida Coach Bob Woodruff seems to have made a shrewd move by scheduling Arkansas State the week before he tackles the Tribe. New Arkansas St. mentor Hugh "Bones" Taylor, former assistant to Nugent, will undoubtedly run some of Nugent's plays against the Gators.

Tankers Face Georgia Away

By TOM HALE

The Florida State tank team will seek their 11 consecutive swimming victory over the Georgia Bulldogs tomorrow night in Athens, Ga.

The Seminoles, on the winning end of a 68-17 match against the Bulldogs earlier this year in Tallahassee, will be heavy favorites to win their ninth victory of the season against the depthless Georgians.

BLANKSTON FAVORITE

Georgia's Jim Blankston, who was way out of form in the Tallahassee meet, will be the favorite in the 220 and 440-yard freestyle events in which he is defending Southeastern Conference champion.

The Tribe mermen will be favorites in all other events except the butterfly, which the Seminoles have been weak in all season. Jim Ellis of Georgia won the event in the last meet by a scant yard.

The FSU tankers now boast a 8-1-1 record with Florida the only meet remaining after Georgia.

The Seminole swimmers closed out their home season by trouncing the University of Miami tankers, 54-32 Saturday night.

8 OF 10

The Tribe won eight out of ten events, and used the second line freestyle relay team after it was obvious they had the meet wrapped up.

Ken Abbott, FSU senior freestyle specialist from Birmingham, broke records in both the 50 and 100-yard freestyle events. He swam the 50 in 23.2 seconds which broke the school record and tied the pool mark.

A time of 51.3 seconds in the 100 was turned in by Abbott. This standard was only two-tenths of a second off the time of Reid Patterson, Olympic standout, who set the record in 1954. Abbott's performance may win him all-American honors.

Joel Jacobs, Seminole breaststroker, broke the school mark in the 200-yard breaststroke by a whole second.

RELAY TEAM

Another school record was set by the Seminoles' 400-yard medley relay team composed of Jim Wentworth, Don Lewis, Paul Hammond and Jacobs.

Tom Metz, also won two events for the Tribe as he came in first in the 220 and 440-yard freestyle races. Bob Weber, soph diver continued his winning ways by copping a first in the one-meter diving event.

Teammate Bill Simpson came in a close second. Miami's former Olympic swimmer, Jack Nelson, won the 200-yard butterfly event with a time of 2:12.4. This was the fastest this event has ever been recorded in a Florida pool. It broke the FSU pool record by 12.2 seconds.

The loss broke a two-game winning streak for the Hurricanes.

The summary:

400 medley relay—1. FSU (Wentworth, Jacobs, Lewis, Hammond) 2. Miami 4:08.5. (School and meet record.)
220 freestyle—1. Metz (FSU). 2. Joseph (M). 3. Teschke (FSU). 2:15.6.
50 freestyle—1. Abbott (FSU). 2. Ray (FSU). 3. Redlich (M). :23.2. (School and meet record, ties pool record.)
One-meter diving—1. Weber (FSU). 2. Simpson (FSU). 3. Harding (M). 281.5 points.
200 butterfly—1. Nelson (M). 2. Carrera (M). 3. Korth (FSU). 2:12.4. (Meet and pool record.)
100 freestyle—1. Abbott (FSU). 2. Redlich (M). 3. Hammond (FSU). :51.3. (School and meet record.)
200 backstroke—1. Wentworth (FSU). 2. Glancy (FSU). 3. Lahde (M). 2:19.0. (Meet record.)
440 freestyle—1. Metz (FSU). 2. Nelson (M). 3. Joseph (M). 5:05.8.
200 breaststroke—1. Jacobs (FSU). 2. Nichols (M). 3. Schoeendorf (M). 2:35.4. (School and meet record.)
400 freestyle relay—1. Miami (Joseph, Lahde, Redlich, Laine). 2. FSU. 3:33.6.

—Flambeau Photo Warren Gerard

CONGRATULATIONS IN ORDER. Tribe tanker Ken Abbott is congratulated by a teammate after breaking the school record in the 50-yd. freestyle race against Miami. He also broke the 100-yd. record.

Track Team Defends Crown At Chapel Hill

Coach Mike Long and the Florida State track team travels to Chapel Hill, N. C., tomorrow to defend their crown in the non-conference division of the Atlantic Coast Indoor Relays.

This will open the 1958 season for the Seminole thinclads who are seeking their fourth successful season under Long.

Long expects to have a definite edge in the mile run with the entry of senior Mike Conley. "I'll be very surprised if Conley is beaten, he is in top shape and will be hard to catch", said Long.

Then he added, "Of course there is a chance I might be surprised." Conley holds the school record for the mile at 4:18.8.

KEENEY IN MILE

Also running in the mile will be sophomore Tom Keeney. Long reports that Keeney has been sick recently, and that it may have an effect on his showing.

Four men will represent FSU in the 60-yard dash. They are Jack Terwilliger, Ted Keen, Jim Casteel and Dick Elwood. Terwilliger, a consistent dash man, won this event last year with a time of 6.3.

Casteel, who will not be running in his specialty, the 440, will also compete in the low hurdles. The 440 event is not run at this meet.

3 LOW HURDLERS

Also running in the low hurdles will be Keen and Elwood. Claude Grizzard is also slated for the lows besides his entry in the high hurdles and high jump.

Junior Doyle Ruff, who holds the school standard of 1:57.1 in the half mile, will run in that event along with soph Charley Nye.

The Tribe entry in the mile relay will be composed of Terwilliger, Ruff, Conley and Casteel.

Long stated that the men are in good shape considering the fact that bad weather and the flu has held back many practices. The other teams that will compete are not known as yet, but Long said "they are sure to be rough."

Florida Breaks Par To Down Golfers

Five-under-par rounds highlighted Florida's linksters 18-8 victory over Florida State Monday at the Gainesville Golf Club.

Tommy Aaron and Ship Stiager each fashioned five-under-par 68s and Pete Trenham finished with a 86 for the Gators, while veteran Bob Shave and Don Tarppa had a 87 and 88 respectively for the Tribe.

The Seminoles are now 1-1 for season having beaten Wisconsin 20-7 in their opener. The teams play a return match in Tallahassee March 22.

Florida also won a four-man freshman match, 12-0.

FROSH BASEBALL

All freshmen baseball candidates are urged to report to Seminole field tomorrow at 1 p.m. with their own equipment announced frosh coach Bob Wynn.

When the basketball season is over the FSU golf team may get a member that will aid them in their rugged schedule. That man is Burt Deckel, standout forward on the cage squad, who is a below par golfer.

Spring Football

Sophomores Battle For Starting Berths

Florida State, currently engaged in spring football practices, has five sophomores that Nugent rates good enough to win starting positions next year.

Of the five, four are linemen. These men are Joe Verbinski and Royce Bryan at tackles, Terry Moran a guard, and end Tony Romeo. The fifth sophomore is halfback Ronnie Hinson.

Nugent hinted at the possibility of six or even seven sophomores on the first team, which would probably set a school record. "I feel sure a sophomore will start at center.

The three leading candidates, Bob Szozzowski, Jim Worthington, and Ken Keatner are all up from the freshman squad. Also, Carl Myers, another sophomore, is pushing Bob Renn for a halfback slot."

Nugent noted that Bud Whitehead is also in the running for Reno's position.

Sophomore-to-be Bob Conrad is high on the list at quarterback as is his classmate Jim Calhoun at fullback.

Surprisingly, there are some players faring pretty well who are not sophomores. These men are seniors Bob Fountain at end, Vic Prinzi at quarterback, and Renn with a question mark at halfback, juniors Floyd Lawrence at fullback and Al Ulmer, guard, all probable starters next year.

One might note a lack of experience on the '58 edition of the Tribe that could be a drawback to success against such powers as Tennessee, Florida, Georgia, Georgia Tech and Miami.

Nugent's comments on this subject are as interesting as they are optimistic.

"The sophomores are inexperienced and green as grass, but I'd rather have this bunch with their spirit and drive than last year's experienced team. It seems that veteran players lose some of their enthusiasm for the game," said Nugent.

"I've never seen boys with a greater desire to play than these ones. They never give up," concluded the Tribe Chief.

Oppose Bulldogs; Bow To Tampa

By FRANK RAMOS

Florida State's floundering Seminole cagers will try to close out the 1957-58 basketball season on a successful note Monday night when they meet Georgia's Bulldogs.

Both squads will carry unimpressive 8-16 records into the contest. When the two teams met earlier in the year at the Senior Bowl FSU came out on top, 92-80.

The Bulldogs have swept past their last two foes, Georgia Tech and Vanderbilt defeating both by three points. In the meantime the Seminoles have been busy on the road dropping games to both Miami and Tampa.

A unique fact about the Tribe's win over Georgia was that it was FSU's only win away from home, and then it was on a neutral court.

MUTUAL FOES

In the mutual opponents department the Bulldogs have a slight advantage in that they have beaten LSU while the Seminoles dropped a close one to the Tigers, 67-65.

Georgia split its series with Florida while the Tribe went down to the Gators in another close contest, 71-75. Both teams dropped games to Tennessee's Vols.

Coach Bud Kennedy is expected to go along with his regular starting lineup led by team scoring leader Burt Deckel.

Hugh Durham riding in second place in team scoring, and one of the nation's leading foul shooters and Jim Liteky should again draw the opening guard posts.

Danny Boltz, the teams leading rebounder, gets the starting nod at center while Larry Strom, the dependable senior and leading percentage shooter on the team, will make his last appearance at his usual starting forward slot.

This game will also mark the last appearance of reserve guard Tom Garcia.

UPSET, 78-56

Tampa's Spartans proved to be too much for the Seminoles Monday night at Tampa, whipping the Tribe, 78-56.

Using a strong first half and playing the Seminoles point for point in the second half, the Spartans were able to cop their third victory of the season against 22 losses.

It also marked the first victory for the Tampans over FSU in 11 straight games. The last Tampa win coming in 1952.

The Spartans outshot the Tribe from the floor hitting 28 of 66 shots, while FSU dropped in only 24 of 78 tries.

In the rebounding department, the Seminoles again found themselves on the bottom of the barrel as the Spartans cleared 44 rebounds to the Tribe's total of 24.

Deckel and Durham proved to be the only bright spots in an otherwise dismal evening. Deckel dunked 18 points with 15 of them coming in the second half, and Durham hit for 13, all in the latter half.

Gymnasts Seek 8th SIGC Title

Florida State's powerful gymnastics team will attempt to win their eighth consecutive Southern Intercollegiate title tomorrow night at Hattiesburg, Miss.

The Seminoles are heavily favored to cop the event over representatives of nine universities, with Georgia Tech, twice a victim of FSU this season, Duke and North Carolina offering the sharpest competition.

Other schools entering the meet are host team Mississippi Southern, Georgia, Florida, Texas, Texas A&M, Northwest La. State and the Pensacola Naval Air Station.

Once again the Tribe mainstays will be Fernando Lecuona, Larry Malmlin, and Chuck Cicio, who will handle the all-around chores.

The all-around title should be between Cicio and Malmlin according to graduate assistant Jack Miles.

Cicio is the 1957 SIGC free exercise titlist and will be defending his crown.

Miles was high in praise of rope-climber Laird Anderson, who is undefeated so far this year. Anderson is also favored to win the flying rings event.

Another "unbeatable" this year is trampolinist Don Preisser, who Miles feels may have to "go some to beat Pensacola's Jim Zipperes."

Preisser beat Zipperes in a recent meet at Pensacola.

Miles also noted that "one of the first places we may give up could come on the side horse where Hnen of Miss. Southern could edge Lecuona.

"We'll probably win this meet again because of our depth, but the outcome by no means indicates how FSU will place in the big NCAA meet coming up in April."

Where there's a Man...

Emphasis On Research Growing Here

Dittmer Seeks To Unravel Mysteries Of Certain Drugs, Chemicals, Vitamins

Editor's Note: The following article is reprinted through the courtesy of the Alumni Bulletin.

When Professor Karl Dittmer came to Florida State University in 1949 he had been working for five years in basic studies which tried to unravel the mode of action of certain drugs.

His enthusiasm for this area of basic research has been transmitted to a number of graduate students at FSU during the last eight years. With graduate students, an occasional post-doctoral fellow, undergraduate student assistants, and one or two full-time research technicians, Dr. Dittmer has formed a very active research team to unravel the mysteries of drugs and chemicals. Each team member is vitally interested in the basic problems, each makes contributions to other members' problems, but each works on some individual aspect of the overall problem.

Just what is this group doing?

Like most scientific projects, a little background is necessary for the layman before the answer can be understood.

SULFA DRUGS

"The method of action of sulfa drugs was explained by English investigators in 1940," Dr. Dittmer related. "From that work came a rather simple explanation: sulfa drugs differ chemically only very slightly from a vitamin, paraaminobenzoic acid (PAB). The vitamin, PAB, is not required by humans but is required by certain disease-causing bacteria."

"Sulfa drugs are very similar to PAB," he continued, "in fact, they are indistinguishable by the PAB-requiring bacteria, but the sulfa drugs cannot maintain the life process of the bacteria. Thus, the sulfa drugs take the place of PAB and essentially starve the bacteria of the needed PAB. This starvation of disease-causing bacteria is the result of a small chemical alteration in the structure of a vitamin.

"The development and use of such chemically produced drugs is known as chemotherapy," Dr. Dittmer said. "It is at present a most important part of the world-wide programs to eradicate other uncontrollable diseases of man, animals and plants."

Dr. Dittmer's explanation provides a simple model to explain the action of sulfa drugs. It is based on slight chemical alterations of a biologically important substance, resulting in inhibition of a life process by the altered chemical.

Its application to medicine is history

EXPERIMENTAL WORK

Professor Dittmer and his research group are engaged in experimental work to determine whether this simple model is correct and whether it can be extended to other biological processes.

Choosing for their investigations the group of biologically important chemicals known as amino acids, the research team first made alterations of the chemical structures of the acids—similar to the alterations made in the vitamin PAB—and to date about 50 modified amino acids have been prepared. The synthesis of these new and unnatural substances frequently required the development of new chemical techniques and new principles of chemistry.

This resulted in contributions to the basic knowledge in chemistry as well as the immediate research project.

"All newly prepared compounds are tested for their ability to inhibit the growth of microorganisms," Dr. Dittmer said. "If a compound is a good growth inhibitor, it is extensively studied to determine its mode of action."

Such studies, he stated, provide facts regarding the kind of chemical alterations which can be expected to produce growth inhibitors. These facts, properly organized and tabulated, provide a general theory which can be used as a blue-print to design other growth inhibitors.

ANIMALS USED

Dr. Dittmer pointed out that the newly prepared compounds are also studied for their effects on experimental laboratory animals, generally the mouse, rat, or rabbit. If a compound exhibits sufficiently interesting or unique properties in biological tests, he said, it is prepared in larger quantities for tests as a possible useful drug.

Such testing has been named "screening," and Dr. Dittmer's research group prepares large samples of each new compound for screening against human, animal and plant diseases.

The screening is done by other groups of investigators at the National Institutes of Health, Dow Chemical Company's division of Agricultural Chemistry, Parke-Davis and Company for clinical and veterinary medical applications, Sloan-Kettering Institute for Cancer Research, and many other medical research groups throughout the world.

Through these researches and the tests for possible application, new knowledge is provided in the form of a number of scientific publications, while at the same time men and women are being trained in the techniques of research.

STUDENTS LEARN

"This aspect of university research with graduate students is as important as the contributions made to basic knowledge," Dr. Dittmer emphasized. "The graduate students learn to do research and how to teach others."

His former students are ably fulfilling this role. He named several who are currently engaged in teaching and/or research:

Dr. Jacob Shapira is engaged in biochemical research and is teaching at the University of Illinois College of Medicine as an assistant professor. Dr. Ezzat Younathan has been a research associate at the same institution for two years and returned to FSU in February as assistant professor to teach and conduct research. Dr. Raymond Shapira has just moved to Emory University as assistant professor of biochemistry, after two years as research biochemist at the Oak Ridge National Laboratory.

Dr. Walter Magnuson is professor of chemistry and head of the Chemistry Department at Pepperdine College in Los Angeles, where he devotes full-time to teaching undergraduate students. Dr. Charles Crane is assistant professor of biochemistry at Oklahoma State University, conducting research and graduate instruction.

Dr. Donald Lewis, associate professor at Queens College, North Carolina, devotes full-time to undergraduate teaching of chemistry.

In addition to the above, all of whom received training with Dr. Dittmer's research group, there have been five master's degree students, four students who worked for about a year, and three post-doctoral fellows who each worked for a one-year period.

At present Dr. Dittmer's group consists of the following: Miss Guadalupe Agana and Robert Weinberger, master's degree candidates; George W. Knight, research associate; Mrs. Juanita Settine, Mrs. Dagmar Ceska, and Mrs. Alice Caldwell, technicians.

Speaker Keys Patterns In Behavior

"Our democracy is rooted in habitual patterns of behavior, and not in continuous agreement with the principles," Dr. James Prothro said last night in a talk before the University Philosophy Club.

Although we hear that concensus of fundamental principles is necessary in a democracy, pinning down the principles that the public agrees on is hard to do, says D. Prothro, professor of political science at Florida State University.

In explaining the two most essential pratices in a democracy, the choice of rulers by majority vote and the right of minorities to try to win support for their opinions, Dr. Prothro brought up this infamous fact:

"While a vast majority of Americans say that democracy is the best form of goverment, they deny the principles of majority role and freedom of dissent in response to specific questions. Although we say we believe in free speech, opinion surveys have found that a majority of Americans would deny socialists, communists, atheists or other unpopular groups the right to give a speech in their own cities," Dr. Prothro commented.

BEHAVIOR CONFORMS

While this inconsistency on principles is disturbing, it does not mean we do not actually have a democracy, he stated. "Even though we are without any concise agreement on fundamental principles, our behavior is in conformity as if we did articulate with them," he said.

Dr. Prothro gathered the material for his talk from a book he and Dr. Marian Irish, head of the FSU political science department, are writing, entitled "The Politics of American Democracy."

Basic Research Is Tabbed Pursuit Of Universal Ideas

Editor's Note: The following article is reprinted through the courtesy of the Alumni Bulletin.

The current trend to satellites, missiles, and space travel has focused more attention on the preparation of scientists than educators have experienced in many a moon! The present furor over space developments, reported daily in mass communication media, is bringing science to the layman to replace baseball, the weather, and "my last operation" on the conversation priority lists.

Taking advantage of the national publicity surrounding the general field of science, we have prepared several articles on research projects of various types, in both physical and social sciences, at Florida State. But it must be pointed out that these research projects, selected at random and reported herein, are only a minute part of the total research program. There are many others just as important, if not more so, which may well affect your life and improve your well-being in the future.

What is the value to a nation of a full-grown man? We will not all agree in every case; but it is comparatively simple to make a relative evaluation between, say, Benedict Arnold and George Washington.

But, what is the value to society of a new baby? No one can say. At best, one can make an "educated guess" on the basis of the baby's genetic background and the environment in which it is to be nurtured.

And so it is with applied and basic research. It is not difficult to appreciate the value of the airplane, a magnificent achievement of applied research and engineering. But this development was possible only because of years of non-spectacular, unoriented study of the laws of nature.

Basic research is the pursuit of knowledge about the universe, and the living and inorganic phenomena within it, for its own sake rather than to fulfill some immediate practical objective. It is the birth and pursuit of ideas, wherever they may lead.

And what is the value to society of an idea? As with the baby, one can only guess on the basis of its genetic background (the record of the scholar) and the environment in which it is to be nurtured (the atmosphere and facilities of the institution).

This is the point at which you and I enter the picture. It is the responsibility of the University administration, the alumni, and the citizens at large, in their respective ways, to make certain that the University provides the spiritual and physical environment which will atract competent scholars and facilitate their endeavors.

Universities have traditionally been the sources both of the basic knowledge upon which practical attainments are based and of the scholars who devote their lives to the search for this knowledge. Thus, the recent years of transition on our campus have seen the development of an extensive program of research in many fields of human experience. This program has come to fruition at a time when America has a renewed sense of appreciation of intellectual endeavor. We on campus face the future with confidence that we shall have your continued support if we can effectively tell you what we are doing and why.

Our research and creative efforts have become so extensive that we can describe only a small random sample. It is our hope that the accompanying articles will give you a fair picture, that they will be a source of pride in your alma mater, and that you will not hesitate to contact us if you have any questions about our research program.

Near Panama City

Oceanographic Group Gets Renewal Grant

A renewal grant of $30,000 for scientific exploration of the Gulf of Mexico near Panama City has been awarded to Florida State University's Oceangraphic Institute by the Office of Naval Research.

This grant extends the Institute's survey of the life and physical conditions of the Panama City marine waters to July, 1960. A previous award of $15,000 from the Office of Naval Research supported the first year's work of the survey, which has just been completed.

The Gulf of Mexico in the Panama City region is relatively unknown scientifically. One puzzling feature is the occurrence of many forms of tropical life there which are not found in adjacent waters lying farther to the South. The FSU scientists hope to gather information during the survey to help explain this tropical character of the Gulf near Panama City.

AQUA-LUNG DIVING

During the first year, the marine scientists collected specimens from the floor of St. Andrews Bay by aqua-ling diving and dredging. They are now busy identifying and cataloguing the specimens. Fouling organisms and the rate of marine fouling is being checked by observations on a series of plates kept submerged in strategic areas of the bay.

A highlight of last year's investigations was "Operation Soggy-Groggy," in which seven stations throughout St. Andrews Bay at Panama City were tested over a 24-hour period for current, temperature and salinity changes. This required a crew of volunteer graduate students and faculty members to man anchored skiffs around the clock.

The 12-hour watches led to the "groggy" part of the operation's title, while a cold November rainstorm added "soggy".

Information gained from this operation has proved important in understanding the movement of water in and out of St. Andrews Bay.

"Operation Soggy-Groggy II" will get under way later this month. Additional 24-hour tests of the seven stations will be held in May and August to complete the record through a year's cycle.

Heading the investigation for the Oceanographic Institute are Dr. R. Winston Menzel and Dr. Meredith L. Jones. Dr Jones, resident investigator for the survey, has moved to Panama City to facilitate work on the project. Neil C. Hulings and Joseph T. Branham, graduate students, are assisting in the research.

Headquarters for the survey are in the Navy Mine Defense Laboratory base at Panama City, where a laboratory has been provided for Institute scientists. The navy research base also cooperates closely with the FSU group by furnishing necessary boats, oceanographic equipment and other facilities.

I-Varsity Sets Meet

By ANNETTE McINTOSH

"BORN TO REPRODUCE" is the keynote of a week-end conference planned by the **Inter-Varsity Christian Fellowship** for March 7-9.

The meeting's purpose focuses on the fact that every Christian is born spiritually with the capacity to produce others who in turn will reproduce Jesus Christ. To be considered in practical training sessions: how to live and speak for Christ that others may come to know him.

The conference, to be held at O'Leno State Park near High Springs, Fla., begins with the opening session Friday at 8 p.m. and ends with Sunday dinner. Speakers include Rev. Gary Demarest of Christian Athletics and Mr. Charles Hummel, National Secretary, I.V.C.F. The total cost for the weekend, beginning with a snack Friday night, is $6.00; $1.00 is payable in advance for registration. Make checks payable to David L. Mayer and send with registration blank to Mr. John Cummer, c/o West Hall, FSU.

• • •

The **Baptist Student Union** would like to announce that the 1958 "Hobo" project is underway. This is an annual event which is conducted to raise $400 to help send two students into some part of the world for summer mission work.

An additional $400 is being raised for the support of a foreign student on the FSU campus. For 10 weeks students will be donating their time to do odd jobs such as lawn-mowing, baby sitting, car washing, typing, or window washing. Anyone who would like to have a "hobo" for such jobs should contact the BSU House.

Morning Watch will be held at the BSU House at 7:15 a. m. until 7:50 a. m. on March 3-7. These early morning services are being held in conjunction with the Revival which will begin next week at the First Baptist Church. Rev. Charles Wellborn will be the guest speaker for these sessions. Those who attend may eat breakfast at the BSU House before or after Morning Watch. Everyone is invited at attend.

• • •

Ruge Hall plans the following services this Sunday: 8 a.m., Holy Communion; 9:30 a. m. Holy Communion; 11 a. m., Holy Communion; 6 p. m., Evening Prayer; and 6:15 p. m., Canterbury Hour, at which Dr James Brock, Associate Professor of Speech, will talk on "Modern Theatre and the Human Prediction."

Program Series On Prisons To Be Released Tomorrow

Prison Document, a series of seven half-hour documentary radio programs has been accepted for March 1 release by the National Association of Educational Broadcasters, according to Roy Flynn, producer of the series.

Dr. Vernon Fox, professor of social welfare is the content-authority for the series. Prison Document is a condensation of research into state penal institution for the adult male. The series explores the question: What are our prisons for?

Funds from a grant-in-aid from the Educational Television and Radio Center made it possible for Tom Stone, a graduate student working under the direction of Dr. Fox to build over two-hundred half-hour tape recordings of interviews with correction officers, prison administrators, and prisoners.

From these recordings Flynn and Bill Ragsdale, Chief Engineer for the University Broadcasting Services, and Dr. Fox, have developed seven half-hour programs which now comprise the series.

According to Dr. Fox, Prison Document is to educate the public and to make the citizen understand penal philosophy is a problem which affects his welfare. Some 98 per cent of prisoners are released to become our neighbors and for this reason prisoners should be treated and uot punished.

Scholarship Tests Slated March 18

Examinations for 334 general scholarship loans for the preparation of teachers will be held on March 18, according to William Cecil Golden, coordinator of the Scholarship Service.

These scholarships will be awarded on the basis of the competitive examinations to be held in the various offices of county superintendents throughout the state.

Thirty-three counties have scholarships available, and these will go to residents of those counties first, but all scholarships not claimed by July 1, 1958, will be distributed over the state on competitive basis.

All persons interested must make application to the office of County Superintendent in their home county, and present these applications on the day of the examinations.

Applicants who took the scholarship examination on October 15, 1957, need not repeat the examination unless they choose to do so.

Boot Strapper Heads For London

Capt. Eric H. Phinney, 36, the first Boot Strapper to receive an advanced degree at Florida State, leaves tomorrow for an Air Force assignment in London.

Capt. Phinney, who graduated with a Master of Science degree here last Feb. 1, has been with the FSU Bootstrap (College Armed Forces Program) since 1954. He received his BS in August, 1955.

A native of New Jersey, Phinney has been with the Air Force since World War II. He has served in Alaska, Korea, Japan, and the polar regions.

His new assignment will place him as a weather officer for the Air Force in London.

Freshmen Should See Advisors

All second semester freshmen are requested to see their faculty advisors between March 3 and 14, concerning clarifications of majors for the fall semester, says counseling head Melvene D. Hardee.

Clarification of Intention forms must be filled out during this time, to enable the deans of schools to assign faculty advisors for the period of counseling scheduled in April.

Failure to see faculty advisors between March 3 and 14 will mean (1) a delay in the assignment to the second-year counselor; (2) a delay in effecting an appointment for counseling on the fall program; and (3) less chance of obtaining the desired appointment time for fall registration.

If there are further questions concerning present counselors, information can be obtained from the office of the Coordinator of Counseling, Ext. 7532-1 and 7533-1.

Landis Hall rec room will be the scene of a squara dance tonight. West Hall residents will be special guests . . . Phi Mu is celebrating Founders' Day March 4 . . . Alpha Kappa Psi, will hold an open house Sunday from 3 to 8 p.m. at the house. All male students enrolled in the School of Business Economics, and Baking Science have been invited to attend.

• • •

The '57-'58 pledge class of Pi Kappa Alpha presented their project to the chapter members during a dance held at the house last weekend. The project was a patio built on to the back of the house.

Plans are being made so it will be possible for the fraternity to have their evening meals served on the patio later in the semester.

The National president of Pi Kappa Alpha will be present at the annual Founders' Day Banquet today.

After the banquet, the president will go to Gainesville for the dedication ceremonies of the new quarter million dollar Pike house.

Seminole Society

Officers Announced

Alpha Omicron Pi recently elected new officers to serve them during tha coming year. Eve Lomaistro has been elected president; Linda Brinkley, vice president; Dagmar Jones pledga trainer; and Sally Morgan, recording secretary.

Others elected were Betty Jean Woodham, treasurer; Sharon Blumer, rush chairman, and Sharlee Maxwell, assistant rush chairman.

DELTA ZETA

The newly elected officers of Delta Zeta are Betty Jean Price, president; Ann Welsh, first vice president; Marty Bunker, second vice president; Sally Mathews, treasurer; Pat Burnash, corresponding secretary; Shelia Kennedy, recording secretary, Janie Conner, chaplain; and Kathy Davis, panhellenic representativa.

GAMMA PHI BETA

Gamma Phi Beta recently elected officers for the coming year. Nancy Beth Heacock was chosen president and Maryl Thompson, first vice president and pledge trainer.

Barbara Stoutamire is second vice president and social chairman. Other officers are Barbara Harrison, recording secretary; Caroline Emery, corresponding secretary; and Mary Ester Powell, treasurer.

Initiated recently into Gamma Phi Beta were: Jana Barr, Mary Burt, Betty Cleveland, Helen Ireland, Daisy Kirk, Alice Lupo, Rodney McMillan, and Reta Melvin.

Yvonne Moore, Florrie Roberts, Judy Scott, Betty Swarts, Linda Woods, Barbara Kay Wrenn, Dorie Wroblewski, Joan Gorski, and Rosalie Maynard.

Social Calendar

FRIDAY, FEBRUARY 28

8 a.m.-5 p.m.—Marine Corps Procurement Team. Trophy Room. 4 p.m. — English Coffee Hour. Allan Thomson, "Myth and Poetry." Westminister House. 8:15 p.m. — Faculty Recital. Howard Wilson, Pianist. Opperman Music Hall. 8:30-11:30 p.m.—Sophomore Hop. Suwannee Room.

SATURDAY, MARCH 1

1 p.m.—Campus Sing—Preliminaries. Westcott Auditorium. 9-12 p.m. Campus Sing Dance. Suwannee Room.

Initiation Held By Phi Chi Theta

Mock initiation and pledging were held Wednesday night by Alpha Rho chapter of Phi Chi Theta, national women's business fraternity.

Phi Chi Theta entertained the fraternity's first national vice president, Mrs. Josephine Zajac, who was on FSU campus to inspect the chapter's initiation and pledging.

Following the ceremonies and a short business meeting, Professor Junichi Nakamura, Intelligent Faith Week speaker, told the group about Japanese women's education, careers, and marriages.

Phi Chi Theta, a new organization on campus, is headed by Penny Appleby. According to Miss Appleby, the group has ambitious plans for the future and is seeking new members to carry out these plans.

MARTHA DOUGLAS, sophomore, models a wool-jersey chemise. The chemise is characterized by the new straight line.

ENGAGEMENTS

BRADFORD-RIDDIFORD

Jeri Bradfield, a senior from Riviera Beach, will marry Michael Riddiford, from Washington, D.C., on Valentine's Day, 1959, in Tallahassee.

Miss Bradfield, a member of Alpha Chi Omega, is majoring in music education. Mr. Riddiford is a 1957 graduate civil engineer of tha University of Miami.

CARSON-BOWLIN

Nancy Carson, a music education major, is engaged to Don Bowlin, a commercial art major.

Miss Carson, a member of Delta Gamma, is a senior from St. Petersburg. Mr. Bowling, a junior from Panama City, is a member of Pi Kappa Phi.

No wedding date has been set.

CISNEROS-FITZPATRICK

Julie Cisneros, a senior from Miami, will marry a former FSU student, Jack Fitzpatrick from St. Louis, Mo.

Miss Cisneros is majoring in secondary English education. Mr. Fitzpatrick is a member of Sigma Phi Epsilon.

CURRY-BRADFORD

Charlotte Curry, a junior from Albany, Georgia, will marry Jim Bradford, a senior from Carrabelia.

Miss Curry is a member of Phi Mu sorority, and Mr. Bradford is a member of Alpha Kappa Psi, the national business fraternity.

KELSHEIMER-KUHN

Two seniors, Kay Kelsheimer and Burt Kuhn will marry this summer.

Miss Kelshimer, a member of Sigma Kappa, is from Bradenton, and Mr. Kuhn is from Perry.

MENTZER-MASON

Barbara Mentzer, a home economics education major, is engaged to Ed Mason, a business major.

Miss Mentzer, a member of Delta Gamma, is a junior from Lake Worth. Mr. Mason, a junior from New York, is a Pi Kappa Phi.

MONROE-MENDOZA

Mary Monroe, sophomore, will marry Cliff Mendoza, freshman, on August 22.

Both students are from Jacksonville. Miss Monroe is a member of Sigma Kappa. Mr. Mendoza served with the Marines before attending FSU.

O'NEIL-NETTLES

A June wedding is planned for Doxie O'Neil, a senior from Miami, and Jim Nettles, a graduate geology student from Chipley.

Miss O'Neil, a psychology major, is a member of Delta Gamma. Mr. Nettles is a member of Pi Kappa Phi.

RUBISON-LLOYD

Elinor Rubison, freshman from Ft. Lauderdale, will marry Charlie Lloyd, junior from Ft. Lauderdale, on September 5, 1958.

Mr. Lloyd is majoring in hotel and restaurant management.

• • • •

Any student wishing to have her engagement, marriage or new arrival announced should contact Georgianna Fry at the Flambeau office, 213 Longmire, on Wednesdays from 2:30 p.m. to 4:30 p.m.

ROTC Sponsors Dorsey Concert

The Air Force and Army ROTC will sponsor a concert featuring the renowed Dorsey Brothers Band next Friday, Doug Greene, chairman of the concert committee, announced yesterday.

The band, presently led by Lee Castle, features better than 76 per cent of the recording band.

The concert will be held from 3 to 5 p. m. next Friday in Westcott Auditorium. Tickets are presently on sale for $1 apiece and can be bought at the Westcott ticket booth.

Greene urged students interested in the concert to purchase their tickets quickly, as seating capacity is limited and the tickets are selling fast.

During the intermission period, the five finalists for Military Ball Queen will be presented, Greene said. The five finalists were selected by vote of the ROTC cadets yesterday.

Greene added that the Military Ball is open only to Air and Army cadets and their guests.

FSU Fashions

Chemise Spirit, Short Skirt Popular

By ELSA HECKENDORF

A new spirit in tha year of 1958, and a new world finds us on the brink of adventure. We ara part of tha fascinating, limitless world of outer space.

Our vocabulary bristles with new words. Satellites, rockets, intercontinental ballistic missles.

THE CHEMISE

Fashion, too, indicates the pressure of this new spirit of adventure. How can we possibly feel satisfied to look and dress in the same familiar manner when the world around us is changing? To answer this question there are bright, new stars in the fashion orbit.

CHEMISE SPIRIT

The star of the first magnitude is the chemise influence. Contrary to belief, the chemise is not a "bag" or "sack", but a skillful shaping by American designers suggesting the feminine figure beneath the new straight line.

By revealing the shoulders, and suggesting the bust and hips, the chemise silhouette allows for freedom of movement, proving to be a very charming, youthful line.

There are variations of the chemise line: often unwaisted in back, shaped in at the front, and frequently broken by a low-set band or belt, or with a two piece look in front only, or by an actual two piece overblouse. Always, tha hipline is snugly tapered.

For those who cannot yet accept the de-emphasized waistline of the chemise, there is a fashion alternative, the waistline softly held in, smartest with the new blouson shaping that has a flatter blousing and a slightly lowered waistline.

This silhouette is easy to wear, and is evident in one and two piece dresses, jacketed costumes, in sportswear separates, and to a minor degree in coats.

SHORTER SKIRTS

More leg is showing with skirts shorter than last year, but stopping at the more becoming length for each individual pair of legs. On the legs are a beautiful array of new stocking colors coordinated with the entire costume.

Color has swung into a new orbit this spring. The brilliant colors of fall '57 have conditioned us to the singing, lightened hues of spring '58.

Fruit-basket colors are seen in geranium reds, in pink and orange tones rather than flame and ruby, clear alive blues, minty greens, golden yellows, sun-drenched apricots and hot oranges, lightened coppers, and misty irridescents. Ever popular beiges, grays, and navy balance nicely with these sparkling lightened hues.

NAUTICAL INFLUENCES

Strong also is white and the nautical influence: a whole wave of white foaming up in both clear and creamy shades, alone or in combinations. White is themed to the nautical influence, in white crisply pleated, in white with navy, with brass buttons, and in red-white-and-blue combinations.

The new alive look of vibrant prints, carried through with great success last fall, swings us into a fashion era of excitement. Not quiet, not unobstrusive, but a radiant splash of color-on-color that runs throughout ready-to-wear, and spreads to millinery, shoes and accessories.

BERET STYLE HATS

Along with tha tapered chemise silhouette this spring, accessory wise, we find longer gloves, slim, tapered handbags, roller, clochs, and beret style hats, colored jewelery, and lower heeled, pointed toe shoes in order to balance the chemise look.

The end result that emerges from our new fashion orbit this spring is one of Dashing Young Simplicity.

The new straighter, easier, uncluttered silhouette, the new shorter skirts, the new freshness of lightened colors, the new gaiety of vibrant prints all coordinate into a chic, nonchalant simplicity that spells YOUTH . . . the kind of youth that flatters feminity of every age.

Two Soph Senators Attend IAWS Meet

Two sophomore women senators, Pat Mickler and Diann Godin, will represent Florida State University at the Intercollegiate Association of Women Senators South Regional Convention, in Dallas, Texas, on March 15-17.

The theme of the South Regional Convention will be, "Feet on the ground, eyes to the future . . . the women of today face tomorrow."

Four FSU Coeds Win Madamoiselle Award

Four Florida State University coeds have been awarded positions on the 650-member **Mademoiselle** College Board.

Chosen were Elsa Heckendorf, Jo Ethel Sewell, Francina Coffay and Martha Frasier.

These coeds, chosen from some 3,000 applicants, are now eligible to try for a guest editorship for an issue of **Madamoiselle**. Twenty such editorships will be granted.

Those chosen will receive an expense-paid trip to New York during June to work on the August issue of the magazine. Opportunities to meet successful people in the fashion world, see fashion shows, Broadway plays, ballets and concerts will highlight thair adventura in the Big City.

CAMPUS REPORTERS

The girls on College Board function as campus reporters for **Madamoiselle** and send in two assignments — one in February and one in March. The assignments will be used in determining the 20 girls to be guest editors.

Besides being selected for College Board, 26 prizes were given: first prize of $50, 10 second prizes of $10 each and in addition, 15 honorable mentions.

Francine Coffey won a second prize. Her entry, in the field of advertising, publicity and promotion, was the layout of a college fashion show, including size and placement of cabinets and dress racks, designing of clothes worn by models and the cost of running the shop.

Elsa Heckendorf won an honorable mention prize on her tryout entry, an illustrated autobiography and the plans for a full wardrobe to be worn on a Christmas vacation in Sarasota. She selected the fabrics and explained the construction with design plates.

Miss Heckendorf is majoring in fashion design and aims toward a career in theater and motion picture design. She worked last summer on the college board of a department store in Washington, D. C., modeling and counseling.

COLLEGE CLOTHES

Jo Ethel Sewell is a fashion illustration major. She illustrated clothes to be worn in a Southern college as a suggestion for a feature for **Madamoiselle**. An eye-catching color scheme of red, white and blue and off-shades of these was used.

Martha Frasier, also majoring in fashion illustration, won an honorable mention. Her entry was a series of cartoons featuring a freshman coed rushing to join all the campus activities she can get in.

The activities were all peculiar to FSU, such as Circus, Gymkana and Theater Dance. Her climax is a cartoon of the freshman getting a pink slip and deciding that she will have to drop a few extracurricula.

CLOCK FASHIONS

Sandra Sears, who is majoring in fashion merchandising is also a new member of the **Madamoiselle** College Board. Her entry was a wardrobe with the theme of a ladies fashion show featuring round the clock fashions.

She has had experience on department store college fashion boards and has done some modeling in her home town of Sarasota.

Winners of the guest editorship will be announced in early May.

Law System Needs Action, Parsons Tells AS Group

Little or no action has been taken to improve the American law system, Dr. Malcolm Parsons, professor of administration, told an American Studies class Wednesday night.

The crisis in American law and order stems from 17th and 18th century procedures which badly need bringing up to date, according to Dr Parsons.

He listed the principal instruments of law and order as the police, the courts, and the legal profession and told of the problems of each department.

Police problems may be divided into five categories—administrative organization, political dishonesty, personnel inadequacies, police violence, and defective public understanding and support, he said.

DISORGANIZED

Organization of the federal, state, county, city, and district levels of police operation are not coordinated and overlap, he said, in relation to the first factor.

As for dishonesty, Parsons asserted it is impossible for such activities such as prostitution, bookmaking, and bootlegging to function without police protection.

Policemen are mostly poorly paid, inadequately trained, and lack morale and public prestige. They sometimes misuse authority by abusing minority groups, he charged.

And the final problem is overcoming the public image of the policeman as a "badly paid cop not above being bribed."

COURT PROBLEMS

Speaking of the problems of the court system, Parsons quoted Assistant Attorney General Oliver as saying, "whether or not an American gets justice in American courts depends upon who he is, where he is, and what the charge is."

"Court procedures and organization are patterned after the same rules which applied in the 17th and 18th centuries," he said. "Therefore courts are not organized to perform efficiently."

"Court personnel must provide intelligence," he said. However, judges juries, and counsel have been lacking in this requirement.

Speaking of judges in mostly the local and state levels, he asserted that "qualifications sometimes make it difficult to get good judges and once a bad judge is on the bench it is next to impossible to get him off." Parsons warned that the public shouldn't hold judges in awe or above criticism because of the sanctimony of their "black robes" and formality of the court.

JURORS ARE DUPES

Juries too are a part of the court personnel which need improving, said Dr Parsons. "The best educated persons are often exempt from jury duty while those who serve are bored, incompetent, disinterested, and easily prejudiced by the mass media." These jurors can become dupes of their emotions and are not above being bribed, he said.

Lawyers in the legal system developed in answer to the everyday citizens needs he said. However, legal services in criminal law are inadequate.

He said the public prosecutor, with the exception of federal government officials, have much responsibility and power and must use much discretion. Yet these officials who are elected are not as interested in justice in the abstract as they need to be for the public's interest."

DEFENSE COUNSEL

Also highly inadequate is the defense counsel—lawyers to defend those who can't afford the usual court costs. "According to the best available estimates, three to four out of five persons accused of crime do not have funds to engage competent legal counsel," he said.

The solution to this problem lies in court assignment of counsel, legal aid societies, voluntary defenders. "There is no public defender to counteract the role of the public prosecuter," he said.

In the legal profession no attempt has been made to remedy its problems. There is still delay, high cost of litigation, and it is still difficult to get lawyers disbarred. Procedures take more time than evidence, and those with the least ability are on the bar in lower courts.

STUDY FINISHED

The American Bar Association recently completed a seven-year study to find ways to improve legal education and ethics, he said. "But there has been almost no action."

"I don't have all the answers," Parsons exclaimed at the beginning of the meeting. He concluded, however, that personnel in the legal system must be improved.

"The heads of police departments should be trained administrators, not retired county politicians."

"Policemen should be higher paid, and those with sadistic streaks should be weeded out." The key, he said, is gaining police prestige from the public.

Meaning Of Term 'Myth' Thomson's Topic At 'Hour'

By NANCY HANNAFORD

"The heart of the term 'myth' is deeply related to man's spiritual quest for understanding his own emotional and intellectual relationship to the universe and to his society," states English Instructor Allan Thomson.

Today at 4 in the Westminster House, Thomson will speak on this subject at the English Coffee Hour.

Feeling that the common conception of the term 'myth', old Greek religious tales, is "the least important meaning of the word," Thomson will examine some of the earlier meanings of 'myth', trace them into the present era, and present a series of selected readings from modern poetry which are related to mythlogy.

MYTHS IN POETRY

Where poets and novelists have rejected traditional religious views of life and have had to search for a new means of spiritualizing human experience, myths have become important in modern poetry, Thomson points out.

He adds that modern writers, including Eliot, Joyce, and Yeats, have turned to past myths in search of an understanding of the more universal aspects of man's character and of his relationship to the world.

HISTORY AND MAN

They also have revealed man's relationship to history and to his own subconscious mind, he says, citing examples of phychologists who have used myths for that purpose.

"Modern poetry reflects this psychological influence," he comments.

Thomson, who has studied at McGill University, Cornell, and Syracuse, teaches English and humanities at FSU.

He has done special studies on Joyce, and completed a dissertation on "Time, Space" in James Joyce's thought.

'GLASS MENAGERIE' SET TO REPLACE 'DIARY'

Tennessee Williams' poetic drama, "The Glass Menagerie," will be presented in Conradi Theater March 14, 15, 17, and 18. It is the third community production of the speech department this year.

"The Diary of Anne Frank," originally scheduled for production on those dates, will not be presented because professional rights on the drama have not been released.

Tickets for "The Glass Menagerie" will go on sale March 10 in the Westcott ticket office, at 75 cents, or 40 cents with the activity ticket.

Richard Fallon will direct, assisted by Walter Saric. The four characters in the play will be portrayed by Isa Mae Cohen as the mother; Eli Ask, the son; Betti Seay, the daughter, and Bryant Simms, the gentleman caller.

"The Glass Menagerie," Williams' first successful Broadway play, as produced by Eddie Dowling, is the story of a Southern family living in St. Louis. The mother lives only in the hopes of getting her crippled daughter married. The discouraged son spends his time trying to get away on his own. The plot revolves around bringing in the "gentleman caller" to solve the family's problems.

Concert To Feature Current Music

The Florida State Universtiy Symphonic Band will present a concert of contemporary American band music Tuesday evening, March 11, in Westcott Auditorium.

Two conductors will lead the symphonic group. The conductor of the symphonic band, Manley R. Whitcomb, will present a guest conductor, Richard D. Mayo.

The program will include "March with Trumpets," by William Bergsma, "Huntingtower Ballad," by Ottorino Respighi; "Concert Piece for Band," by Charles Carter; "American Overture for Band," Joseph Willcox Jenkins.

Also to be played by the advanced band group is "Pageant," by Vincent Persichetti; "Hill Song No. 2," by Percy Grainger; "Shoonthree," by Henry Cowell; and "Tulsa," by Don Gillis.

Public Faces

(Continued From Page 2)

one who stands constant (and sometimes lonely) vigil watching for a spark of curiosity, or deliberately trying to ignite one where fertile ground is perceived. Carefully the spark is fanned to a self-sustained flame, and then fanned to the fury that leads to scientific insight, social and political change, and improvements for the many, not just a few.

THE DESIRE FOR social and economic advantage is damp tinder for such a spark. The desire for four years of idle diversion provides no tinder at all. If such a flame is to be considered a dangerous conflagration then it must be snuffed out, and we who are in education must be alert to stamp out each new spark that arises. Much present day education appears to effectively accomplish just this.

If, however, as the popular press indicates, concern has now turned to the education of future scientists and statesmen to lead and protect our way of life, the courses on how, and when, and where to do it are futile, since "it" is the unknown of the future. Conformists can only follow; they never lead.

The resolution of this problem lies in the hands of the American people. You, who are both citizens and participants in the educational drama, have a double interest in the decision. Your decisions must be made known, since in your collective hands lies the answer to the question, "Whence education?"

'Decided Gain In Co-operation' Feature Of IF Week, Says Hartz

By NANCY GENE BROWN

Intelligent Faith Week of 1958, which ended Wednesday, demonstrated a "decided gain in the ability to cooperate" on the part of university organizations, according to Dr. Edwin Hartz, university chaplain.

"I've been working since 1948 on programs like this," Hartz stated, "and this is the first year that students have really appeared to welcome the coming of Intelligent Faith Week, to truly want to share in the activities."

"Attendance was good at the dinner Sunday afternoon, and all the seminars were well attended," he continued.

Hartz praised the success of the Skeptic's Hour, which provided an "informal atmosphere" for free discussion of topics of interest, and Dr. John F. Nau, who presided at its meetings. "Dr. Nau handled the hour quite well," Hartz stated. The Skeptic's Hour is a new innovation in the IF Week program.

"I felt that IF Week was considerably advanced by giving the speakers more time for personal conferences with students about their problems," he added.

In pointing out the increased cooperation involved in IF Week, Hartz mentioned the fact that Dr. Nau was sponsored and brought to campus by the Lutheran student group on campus, to take part in the week's activities.

In a final conference held with IF Week leaders yesterday, in which this year's program was compared with previous years, several of the speakers expressed the opinion that, of all the universities they had visited on similar programs, FSU was "the best organized, and they received the most cordial welcome," Hartz said.

Student and faculty steering committees will meet within two weeks to evaulate this year's program and to begin working on next year's. "Some changes will probably be made, and I'm sure they will be for the best," Dr. Hartz concluded.

Information Available On Naval Aviation

The Navy's flight training program which offers two-year college men and college graduates the oportunity to become aviators, will be explained to interested applicants during the period of March 4, 5, 6 and 7, Tuesday through Friday.

The teams will be on hand from 9:00 a.m. to 3:00 p.m. in the Union Building and the main Dining Hall. "Main objective of the visit is to offer information on the Navy's flight training program."

Headquarters for the Information team is located at the Naval Air Reserve Training Unit, Naval Air Station, Jacksonville, Florida.

Pow-Wow Seeks More Staffers

Anyone interested in being on the 1958 Pow Wow staff should turn in their names to Dr. Reid Montgomery in the Student Lounge, Longmire.

Art Albrecht, Pow Wow editor, said that experience is not necessary and those selected will be able to work out their own time schedule. He emphasized that the amount of work required by staff members will be minimal since each member will have only one section of the handbook to compile.

A staff meeting will be held in the near future to discuss condensing certain sections of the book.

Says Seminar Speaker

Weather Said Health Factor

It may be the weather, instead of a microbe, that's ma[king] you feel bad today.

Weather will be increasingly recognized as a factor in he[alth] according to Neil Frank, a Florida State University graduate [stu]dent of meteorology who has surveyed research undertaken by scientists on the subject.

He predicted in a seminar talk this week that much additional research will be done in the future on the effect of weather, particularly short range influences, on such diseases as the common cold and many others things affecting bodily well being.

FORECAST CHANGES

"In the future, also, I expect some of the larger clinics will have meteorologists on the staff who can, for instance, forecast weather changes which may be a critical factor in recovery following an operation," he said.

There's some evidence from experiments, he said, that the common cold may be blamed on weather and climate more than anything else (providing the cold germ is present).

He referred to an experiment in California some years ago in which 24 men under controlled and "favorable" weather conditions were exposed to a person with a cold. None of them caught it although all had been selected because they were susceptible to colds.

Actually Hippocrates, in a book on medicine more than 2,000 years ago, gave weather and climate an important place in influencing bodily health and bodily recations, he said. More recently, he said, bacteria have been emphasized as a cause of disease to the exclusion of other factors.

Some of the things which [have] been suggested in experim[ents] conducted during this cen[tury] he said, are that: the ideal [tem]peratures for bodily func[tions] are between 40 and 70 de[grees] Fahrenheit and mean tem[pera]tures below and above thos[e ex]tremes are "depressing."

Rats have been found to [...] more readily (reaching food [ob]jectives) in temperatures around 65 degrees than in [tem]peratures of 75 or 90 deg[rees] and there is an indication [...] conception rate is lower in t[...] of the year when these extre[mes] are exceeded.

Wide ranges of temperat[ure] along with the frequence [...] degree of storminess, have [been] found to be "stimulating" [...] sections of the country w[here] these conditions prevail h[ave] proved the most stimulating.

Student Party Slates Reception

The Student Party will spo[nsor] a reception Tuesday for per[sons] interested in student poli[tics]. "The reception is open to [...] Student Party members and [Col]legiate Party members," acc[ord]ing to Mattox Hair, party c[hair]man.

The reception will be held [in] the Longmire Lounge from 4 to 5:30 p.m.

Moore Back From Tour

SUSGA Meet Set Here In April

Art Moore, student government attorney general and ...dent of the Southern Universities Student Govern...nt Association, returned Saturday from a Promotional ...r on behalf of the organization.

Moore, who was accompanied on ...p by Soph Senator Jim Ap... visited the campuses of ...gia Tech and Emory Univer... in Atlanta in an effort to en... the two schools in the annual ... SUSGA workshop.

ON CAMPUS

The workshop, to be held on ... 26, will be on the FSU cam... as a result of a bid by the ... delegation at last year's con...ence in Auburn, Alabama.

While in Atlanta, Moore talked ... Hal Reeves, Tech student ... president, who is also the ...-president of the National Stu... Association.

Reeves decided that Tech would ... a delegation," Moore said. ...d we hope they will become ...lar members after the work...

The workshop, which will bring ...ether the five present member ...ools of the group, plus about ... observer schools, will deal ... the various aspects of student ...ernment problems.

Workshops in publications, judi...l systems, legislative govern...t, and executive branches will ... held in conjunction with the ...al attendant social activities ... the convention.

VARIOUS AREAS

Delegates from each area of ...dent government involved in the ...kshop will be sent by most of ... member schools. FSU people in ... area will take charge of con...tion arrangements.

Moore also reported that, ...ugh he had gotten no definite commitment from Emory student government officials they had indicated a desire to send a delegation to the FSU conference.

Moore will make several other contacts between now and workshop time, attempting to induce other schools of large size in the area to attend the meeting.

The five members of the group now are: Alabama, Auburn, FSU, Mississippi Southern and Tennessee. Observer schools who have said they would send delegations include Tech, Emory, The University of Florida and Miami.

POSSIBLE

There is a possibility of Ole Miss, Mississippi State and the University of North Carolina attending in an observing capacity.

The main purpose of the organization is to sponsor the spring conference in order to gain ideas from the various groups represented as to how student government may be better run.

Moore said that a committee would be appointed soon to plan and run the conference. It will be made up of FSU student government and publications officials.

Apthorp, who accompanied Moore on the trip, is working with the committee, with the assistance of Junior Senator Gerry Gordon.

Buck Bryan and Don Reedy of the judicial branch and Bucky Canon of publications will also serve on the committee.

SCHOLARSHIP FUND PROVIDES FREE HOUSING

The Southern Scholarship and Research Foundation, which ...eady has provided two houses where 31 men students at Florida ...ate University live rent-free, announced today the purchase of ... house near the campus for about 30 women students.

COOK AND STUFF

The women students, selected ... outstanding ability and other ...alities, will cook their own ...eals share housekeeping duties ... the purchase of food and pay ... an agreed upon share of the ...lity bill as they live there and ... to school. A house mother will ... provided.

... Velma Keen, president of the ...oundation, and Dean Mode L. ...tone of the School of Education, ...e executive vice-president, said ... frame house at 620 West Pen...sacola Street was purchased this ...eek from Joe H. Gray for $25,000.

It will be renovated, a new ...eating plant added and other im...provements made. The house, ...ilt of cypress, has eight large ...bedrooms. With the purchase went ... adjoining lot where another ...ouse may be later built. The ...ouse will be readied for use be...ginning with the fall semester.

TEACHERS FIRST

About $9,000 has been raised recently for purchase of the house for women students, principally through efforts of county organizations of the Florida Education Association. Girls who intend to go into teaching will be given priority.

Already about 25 women have applied to live at the house in anticipation of the purchase, it was said. Those chosen will be selected after careful screening to determine superior academic ability, inability to finance a college education, citizenship record, clarity of educational and vocational objectives and willingness to assume a share of the duties involved.

The 31 men students in the two Co-operative Living Organization houses now in operation are studying in a variety of fields. Their savings are figured at around $500 a year by having a place to live rent-free and by doing their own chores.

Future Business Heads

Business Convention Here This Weekend

Over 200 "Future Business Leaders of America," enrolled in Florida high schools, are expected at the university this weekend for their eighth annual convention.

FSU has the only college or university chapter of the organization, also the state president—Don Zager, freshman from Jacksonville who is majoring in accounting in the School of Business. He will preside at the general sessions.

25 SEMINOLES

There are 25 students in the FSU chapter. Howard Abel, instructor in business education, is serving a third year as chairman of the Florida FBLA committee.

There are 56 chapters of FBLA in Florida, and about 30 are expected to be represented at the convention, accompanied by some of their high school teachers. They are coming as far away as Miami.

A majority of the teenagers will be housed at the Reservation, the University's camp on nearby Lake Bradford. Some of the girls will probably be housed in dormitories on the campus proper.

Some of the features of the program are an old fashioned spelling bee, discussion meetings of school FBLA service projects and election of state officers.

MR. AND MISS CONTEST

A Mr. and Miss FBLA will also be chosen after interviews by two FSU professors in business and one Tallahassee business man. Last year a Florida representative, Arlee Lowe of Ocala, was later chosen as the national Mr. FBLA. The spelling bee winner will be eligible to participate in the national convention in June, to be held in Kansas City.

Business Subject Of 'Crisis Series'

Challenges facing the United States in business and industry will be the subject of a lecture in the FSU American Studies series on 1958 crises tomorrow night.

Dr. Robert Clarence Earnest, professor of management and finance in the School of Business, will be the speaker. The address, which is open to the public, will be delivered in the lecture hall of the University Library at 7:30 p.m., according to Dr. Maurice Vance, who is directing the lecture series.

Dr. Earnest joined the FSU faculty last September. He has served previously on the staff of Marquette University, Kansas State College, Ohio State University and University of Denver, where he received his B.S. degree in 1948. He received his Ph. D. degree from OSU in 1956.

The educator is the author of a book "Savings and Loan Associations in Wisconsin" and of articles on the importance of the construction sector of Milwaukee's economy; mortgage lending in Milwaukee County; and the tax position of Wisconsin savings and loan associations.

Flambeau Photo: Dick Parks

BULL FIGHT in the water will be one presentation of "Mexirama," the Tarpon Club's show which opens tomorrow night. The "bull" is Pat Malseed, the "bullfighter" is Lynn Strickland.

2nd Straight For PKP

Pikes, Zetas Victors At Annual Sing

Pi Kappa Phi, for the second consecutive year, and Zeta Tau Alpha, won the two first-place loving cups in the Campus Sing men and women's finals, Sunday afternoon.

The 64 Zetas, under the direction of Sally Ford, sang "Waters Ripple and Flow" and "Russian Picnic." They had practiced three weeks prior to the Sing.

The Zetas placed second in Campus Sing in 1956. Coincidentally, the Pi Kaps placed second in that year too.

The 45 Pi Kapps, who had been practicing since Christmas vacation, sang, "The Creation" and "Joobalai," with Paul Perry as director. Perry was also director for the group last year.

Delta Zeta, who had placed first for the past three years, and Lambda Chi Alpha were awarded placques for placing second.

The DZs sang "Hast Thou Not Known" and "Swanee." The Lambda Chis sang, "Greensleeves" and "Give Me Your Tired, Your Poor."

Third place plaques were presented to North Cawthon Hall and Kappa Alpha.

The North Cawthon women sang "Sophomore Philosophy" and "Good Night." Fratres in Unum and a medley from "Song of the South" were sung by the KAs.

Judges for Campus Sing were Dr. Wiley L. Housewright, director of the University Singers; Edith Campbell Kaup, instructor in voice; and George A. Bocker, music education instructor, director of the Collegians.

Judging was based on 12 criteria: Blend of voices, intonation, rhythm, dynamics, phrasing, balance, diction, technical difficulty, interpretation, participation of group from which chorus is drawn, originality and state presence.

LEE CASTLE

Dorsey Band Sets Concert, Plays At Ball

The famous Dorsey band, sponsored by the campus ROTC units, will appear here Friday for a concert and the Military Ball.

The concert, which will be in Westcott auditorium at 3 p.m., is open to the public, according to Doug Greene, chairman of the joint ROTC committee. Tickets are selling for $1 per person and may be bought in the Westcott ticket booth.

The band will also play for the Military Ball, which will last from 9 until 12 p.m. in the Men's Gym, is open only to Army or Air Force ROTC cadets and their guests, Greene said.

Highlight of the Ball will be the crowning of the Military Ball Queen. The finalists are Francine Coffey, Sandra Stewart, Rita Nelms, Joyce Combs, and Arielou Johnson. The five finalists will also be presented at an intermission during the afternoon concert.

The band, which is a combination of both the Jimmy and Tommy Dorsey bands, will be led by Lee Castle. Castle has spent many years with the Dorsey bands and is known to many as "The Prince of the Trumpet."

The present band is composed of over three fourths of the original Dorsey bands, Greene added.

Wilson Recital Set For Opperman

The faculty recital of Dr. Howard Wilson, associate professor of piano in the Florida State University School of Music, will be held tonight at 8:15 p.m. in Opperman Music Hall.

Dr. Wilson has arranged the program of chamber music featuring three works: Trio in E flat Major, K.498 by Wolfgang Mozart; Sextet in C Major, Opus 37 by Ernst von Dohnanyi; and his own composition, Sonata for Violincello and Piano.

Other faculty members of the FSU School of Music will assist Dr. Wilson. These include Joseph White, French horn; Robert Sedore, violin; Eugene Crabb, viola; Owen Sellers, violincello; and Harry Schmidt, clarinet.

The public is cordially invited to attend the recital.

Flambeau Photo: Warren Gerard

MILITARY BALL QUEEN candidates are (l-r): Francine Coffey, Sandra Stewart, Joyce Combs, Rita Nelms, and Arielou Johnson.

Tickets Still Available For Tarpon Opening

Flambeau Photo: Dick Parks

ONE OF the feature attractions of the Tarpon Club's "Mexirama" production will be the fire dance, featuring (l-r): Eleanor Friel, Lynn Strickland and Margerite Duke.

Show Opens Tomorrow Night At 8:15

Tickets are still on sale for the Tarpon Club's annual production which opens tomorrow night at 8:15 in the Women's gymnasium.

The show, titled "Mexirama" will run for four nights, March 5, 6, 7 and 8.

Tickets may be purchased at the Westcott ticket office in exchange for activity ticket No. 14. For those without activity books, the admission is 50 cents.

Following the Mexican theme, the numbers will be an interpretation of the culture and life of Mexico.

The show has a total of 14 numbers. Comedy and seriousness are mixed together in scenes of market life, night life, palace life and the Mexican fiesta.

The show will open with a Flame Dance which includes three swimmers and six torch bearers. This number is based on the traditional Flame Dance of Mexico.

VIOHL SOLOS

Second on the program is a solo by Meta Viohl, president of the Tarpon Club.

Following Miss Viohl is an out-of-the-water dance done by Paula Parsons.

The largest number in the production is the "National Palace" act which has 14 members of the club doing an interpretation of the marching guards to music.

MONASTIC NOTE

Following in a more serious tone, is a monastry number in which seven synchronized swimmers move the length of the pool in the formation of a cross.

Also on the program is a lively version of the Mexican Hat Dance, followed by the "Market Scene." This number has a total of twelve members enacting various Mexican market happenings.

Floats of flowers are the settings for a Floating Garden act, in which six swimmers pattern in and out of the floats.

Comedy is added to the production by an interpretation of the Donkey Serenade, which includes two "donkeys" and a senorita.

BULL FIGHT

Pat Malseed, vice-president of Tarpons, and Lyn Strickland give their version of a Mexican Bull Fight.

Clad in plaid swim suits and bright skirts, eight Tarpon members depict the Mexican "Fiesta" by a dance out of the water, and sychronized swimming in the pool.

In a change of pace, a "Night Life" scene opens with a traditional dive into a non-lighted pool. Seven swimmers give their version of Mexican night life with the use of body lights.

The show ends on a solemn note with a short ceremony as the finale.

The Tarpon Club taps each year in October. In previous years the Tarpon Club has had appearances on such shows as "Tonight," and the Gary Moore show.

Killian Opens Program

'Fad, Fashion, Conformity' Keynote Of Fashion Day

"Fad, Fashion and Conformity" will introduce a new social-psychology note into Florida State University's fourth annual Fashion Day, Thursday, March 6.

Dr. Lewis Killian, professor of sociology at FSU, will discuss the subject in the opening address, giving him the opportunity to set the stage for the comprehensive program.

Longmire Student Alumni Building will be the setting for the whole program which is open to the public and begins at 9:15 a. m. in the auditorium with a welcoming address by President Robert M. Strozier.

Mrs. Jane Stewart Denton of New York City, manager of the public relation department of E. I. du Pont de Memours and Company will follow Dr. Killian on the program.

She will speak on "New Fibers Make New Fashions", illustrating her points with "exciting Paris originals and new styles from the American market" which she will bring with her.

Frederic Bohrman, art director of Rich's Department store in Atlanta will windup the morning program, speaking on "The Endless Art."

A native of Florida, his experience includes two years of study at Ringling School of Art in Sarasota, a year at the Traphagen School of Fashion, three years in New York as a fashion designer, and advertising work with major stores in Jacksonville.

After a lunch break the program resumes at 2 p. m. in the auditorium with an address on "Modern Methods of Retailing" by W. J. P. Smith, vice-president and general manager of Ohrbach's Department Store in New York, until his retirement last year to Lakeland, Fla.

Three Special Interest Seminars are slated for 3 p. m. The one on Fashion and Public Relations will be held in the auditorium, another on Fashion Illustration will be in the nearby Club Room and the third on Fashion Merchandising in the Small Lounge on the main floor. Guest speakers will serve as consultants.

The faculty Fashion Institute Committee, representing fashion related fields in the University, will serve in presiding at general sessions, as seminar leaders and hosts.

It consists of Mrs. Eleanore Adam, chairman, and Dr. Hazel Stevens of clothing and textiles, Dr. Ruth Connor of home and family life, Dr. Adolph Karl, Miss Ann Kirn.

Also Dr. James McDonough, art, Ivan Johnson, arts education, Dr. Royal Ray, advertising, Dr. W. G. Shover and Dr. Bruce Weale, marketing and William R. Slaughter, journalism.

A fashion show and reception, beginning at 4 p.m. in the large lounge, will wind up Fashion Day. Serving as Student Fashion Institute officials for the affair will be Barbara Emmett, Martha Frazier, Jean Permenter and Elsa Heckendorf.

Begins Friday

Stark Speech Keys Latin—American Meet

University representatives from over the Southeast, now the leading area in the country in Latin American studies, will gather at Florida State University next week-end for a two-day discussion of Latin American studies.

According to Dr. Charles Arnade, assistant professor of history at FSU and chairman for the fifth annual meeting of the Southeastern Conference on Latin American Studies, the public is invited to the discussions, which will be held in the lecture hall of the Library Friday and Saturday, March 7-8.

STARK SPEAKER

One of the principal speakers will be Dr. Harry Stark of the University of Miami, who has just returned from a Fulbright grant study of Argentina. He will speak at a banquet Friday night in the student center on "The Economic Problems of Post-Peron Argentina."

The Friday morning session, with Dr. Donald Worcester of the University of Florida as chairman, will feature Dr. Ethel Marshall of Alabama College as discussant and Dr. John Saunders of Mississippi State College (sociology), Dr. Graydon DeLand of FSU (Portuguese), Dr. Philip B. Taylor of Tulane University (political science), Dr. Stojan A. Bayitch of University of Miami (law) and Dr. Delbert Sterrett of Florida (music).

CAMPBELL FRIDAY

Friday afternoon's session, beginning at 1:30 p.m., will have Dr. Margaret Campbell of FSU as chairman and Dr. Richard Surdoch of University of Georgia as discussant.

Others will be Dr. Harold Bierck of University of North Carolina (history), Dean Hubert Mate of University of Alabama (spanish), Dr. David Ross of FSU (economics), Dr. Ralph Boggs of Miami (folklore) and Dr. James Swain of University of Tennessee (literature).

The final session, at 8:30 a.m. Saturday, will have Dr. Alfred Thomas of Alabama as chairman and Dr. Walter Payne of Florida as discussant. Participants will be Dr. Emilio Willems of Vanderbilt University (anthropology), Dr. Raymond Crist of Florida (geography), Dr. Benjamin Rogers of FSU (history of the Americas) and Dr. Adam Szasadi of Inter American University in Puerto Rico (Latin American studies in Puerto Rico).

Infirmary Offers Shots To Faculty

The University Hospital will give third booster polio vaccine shots to members of the faculty and staff and their immediate families March 10, 11, and 12 from 9 a.m. to 12:30 p.m.

The cost of immunization will be $1.25. All persons desiring the shot should register and pay the necessary charge not later than Friday at noon at the university bank in Westcott, Room 206. The receipt from this payment will entitle the holder to the shot on any one of the Polio Clinic days, according to the committee on the Polio Immunization Clinic.

Students may receive the shots at any time for the cost price of $1.

Holschuh, Hurst Get Art Awards

Two Florida State University professors received an award and honorable mention for works entered in the first All Florida Sculpture Exhibit, held Feb. 16-28 in Sarasota.

Fred Holschuh of the art faculty placed third in the show for his "Relief Panel" in wood, carrying an award of $50. He also got honorable mention for his "Architectural Figure" in wood, and a three dimensional abstract work in iron, brass and nickel called "Structure."

Ralph Hurst of the arts education faculty received honorable mention on his two entries: "Le Poisson" (the fish) in wood and "Bird" in Maine granite.

Holschuh's prize-winning seven foot panel was shown recently in Tallahassee in the art faculty exhibition held in the University Art Gallery, and both of Hurst's works were included in the one man show he had last fall in the University Gallery.

The Sarasota exhibit was sponsored by Associated Florida Sculptors, which was just organized last year. There were 59 entries from all parts of Florida. Artists had to have at least six months residence in Florida to qualify.

Probe Is Political Lesson

If you pick up one of the large Florida dailies this week, like as not the headlines will read about the current Federal Communications Commission probe.

THE STORY, stretched over a period of weeks, presents a confusing picture to the casual reader. But if it is followed it can show the reader some of the facts of modern politics.

The probe, being conducted by a House subcommittee, has demonstrated again to what extent men will struggle behind the scenes to gain the great prizes to be won in the power politics of the agencies of our national government.

THE PRIZE in this case was the license to operate channel 10 in Miami's TV rich area. There were four applicants for the license. An FCC examiner recommended that it be given to Col. A. Frank Katzentine, a Miami Beach civic leader.

By a 4-2 vote however the FCC awarded the license to a subsidary of National Airlines. The subsidary was last on the examiners list.

WHAT HAPPENED in between the examiner's report and the vote is the subject of the probe. It centers around Richard A. Mack, a member of the FCC from Miami.

Mack was appointed by Eisenbower in 1955. Before going to the FCC post, he was chairman of the Florida Railroad and Public Utilities Commission.

MACK VOTED for the National Airlines application. The probe has revealed that in between the report and the vote, Mack accepted loans of about $7,000 from Thurman Whiteside, a Coral Gables lawyer, for the National Airlines subsidary.

Whiteside further gave Mack a one sixth (later increased to one third), interest in the insurance company which insures the National Airlines television station. Mack has collected about $10,000 in dividends from this stock.

AT FIRST MACK said that he could see nothing wrong with these financial transactions and that he would not resign. Last week, though, Mack said that he would "give serious consideration" to the demands of several Congressmen that he resign.

We feel that Richard Mack ought to resign.

IF HE IS SO naive to the world of politics to see nothing wrong witb receiving money from parties whose applications and disputes come up for his vote, then be has no business in the public service. If, however, he knew what he was doing, then he certainly has no business on the FCC.

Nor is Mack the only offender against the public interest. Whiteside's part in the case should be investigated not only by the Federal authorities, but by the Florida Bar Association.

We recommend that the probe be followed. It should prove to be a practical lesson to those interested in the workings of American government.

★ ★ ★ ★ ★

Placement Office Inadequate

At a crucial time for graduating seniors trying to obtain employment, the Job Placement Office was jerked out of its Westcott offices and offered temporary quarters in what was formerly the Day Student Lounge of Longmire.

ALTHOUGH THE move was only temporary, we have no idea how soon the placement office will be assigned new offices, where they will be located, or how adequate.

Right now the facilities are completely inadequate.

The former placement office consisted of a large reception room and several smaller offices for job recruiters. The recruiters are interviewing students for position at the present time on the fourth floor of Longmire, quite an isolated place. The main office is in a state of chaos.

AT THIS TIME a good many important interviews are being scheduled. Representatives of various companies will be on campus to interview potential employees and convenient facilities would help in making a good impression.

Seniors are certainly concerned with the situation as it is now. Because this office deals with the very important problem of employment for these graduating seniors, we suggest that better facilities be found for the job placement office in the near future.

The Pontificator

More Dramas Needed At FSU

By EMMETT JARRETT

Last Wednesday an FSU audience was privileged to hear a reading of "The Tempter Scene" from T. S. Eliot's "Murder in the Cathedral," presented by the speech department. It was given as the closing event of Intelligent Faith Week."

ELIOT'S PLAY is a liturgical drama concerning the temptations of Thomas Becket, archbishop of Canterbury in the twelfth century. Becket, who had been chancellor to the king, Henry II, was made archbishop, and thereafter left his life of luxury and political intrigue for the work of the church.

In defending the rights of the Church of England he came into conflict with the king, and was forced to flee to France, where he remained for seven years. The play opens with Thomas' return to Canterbury, the king having been forced to receive him by the Pope and the French monarch.

THE QUESTION has arisen as to what Thomas' position will be in relation to the king Eliot presents three tempters, who offer him, respectively, the friendships of the "good old days," the chancellorship, with the chance to serve the public, and the leadership of the barons in an attempt to subvert the royal power, and bring freedom to England. Thomas rejects these temptations with ease, having given up the life of the world to be a true Christian and ecclesiastic.

But there appeare a fourth tempter, unexpected by Thomas, and this temptation is the one which is most severe. The fourth tempter offers Thomas more than all of the others He offers him the satisfaction of his great pride in martyrdom. Through this out Thomas will not only conquer king and barons, but he will conquer history.

HE WILL also receive the highest gift that there is to any human ego, a place with the saints before the throne of God. But Thomas questions his own motive. His problem is to avoid doing the right thing for the wrong reason. Eventually he succeeds in conquering his pride, and accepts martyrdom as his duty, and not as a prideful act. It was good indeed to see this drama performed on campus. The cast was one of excellent choice, and the play was performed as a liturgical drama, which it is Jackson Lee Ice played Thomas, and we confess, he looked the part.

HIS READING was on the whole good, although in places be minded us of a lecturer. However, in the last speech, he rose to the demand of the words, and rendered an inspiring and inspired (who wouldn't be?) reading.

Playing the fourth tempter, next to Thomas the most powerful part in the scene, was Allan Thomson, who, in our opinion, rendered the best reading of the evening. Thomson was completely up to the part, and was a pleasure to watch and hear.

THE ARRANGEMENT of the chorus was novel and well-received, and the other performances were of good quality. Ell Ask, as the second tempter, was the best of the three who were expected by the archbishop

But most important of all, we were exceedingly pleased to see this play done on campus at all, let alone as well as it was. FSU needs more of such presentations, and the performance of Wednesday evening proved that we can do it. Perhaps if a little money was pilfered from the school of football .

Battin' The Breeze

Ike Like 'Mad'—What, Me Worry?

By JACK PEACOCK

Secretary of Agriculture Ezra Taft Benson may soon become the "man without a party," and the Eisenhower administration's new "fall guy."

WITH OFF-YEAR elections coming up, no one in the Republican party wants any part of the controversy that Secretary Benson has been stirring up.

It seems that not only has he been making the farmers mad with his politics, but there is a little case of some seven billion dollars increase in the budget of the Department of Agriculture.

Ex-Secretary of Agriculture Charley Brannan operated the department on a budget of $850.000.000 in 1952, his last year. This year Benson has increased that same budget to $7 400.000.000. An increase of about 750 per cent.

WE'RE NOT making any insinuations, but how can anyone increase a budget 750 per cent and yet be doing less for the farmers? Bureaucracy seems to be part of the answer and the Democrats are beginning to rumble.

It seems that Rep. Ray Mattox of Polk County has realized the futility in his trying to make a stink over Dr. Strozier's inaugural address.

Rep. Mattox hasn't made any further comment since receiving Dr. Strozier's letter and a "personal" copy of the speech.

ISSUED IN A bulletin by White House News Secretary James Hagerty, concerning President Eisenhower's condition after the extraction of a tooth, last week:

"Within an hour after the extraction, the president was sitting up in bed reading a western novel."

Frankly I think that "western novels" aren't what you would call appropriate reading material for the President of the United States Maybe Ike has the Mad Comics attitude, "What, Me Worry?"

I WONDER JUST how long it is going to take the political bigwigs of the Democratic party to pickup on the current FCC investigations and start yelling, "Look what the Republicans have been allowing to go on under their noses."

AND ALABAMA Receives Another 'First' (at least in 56 years!) A Negro, Perry L. Thompson of Bessemer, has qualfied to run for the office of lieutenant governor in the May 6, Alabama Democratic Primary

Wonder who "Big Jim" is going to give the "hatchet job" to? There will be weeping wailing, and the gnashing of teeth!

IT CERTAINLY appears that U.S. Air Force General John "Ack Ack" Ackerman has overstepped himself this time.

Ackerman, who was 13th Air Force commander in the Philippines, was relieved of his command last week and ordered back to the states to face charges that he misused Air Force funds to build himself "plush" living quarters.

General Tom White, the Air Force's Chief, has ordered Ackerman to the Pentegon on March 5. Gen. White said that he would decide Ackerman's "fate" at that time. . . . and another "eagle" laid a "goose egg" it appears.

A Letter

Minority Opinion Needs Expressing

TO THE EDITOR:

I have been pondering for some time on Mr Rowland's letter in the February 28th **Flambeau**. No matter how I read the second paragraph, I seem to come up with the same meaning He says, "I simply object to the use of the **Flambeau** as a mouthpiece for a college type which I believe is not in a majority position" Skipping over his bafflingly vague expression "college type," he seems to be saying that he objects to the expression of a minority opinion.

IF THIS IS what he means—and I cannot seem to get any other meaning out of the above quoted sentence—this is the most shocking, un-American statement that I have ever seen expressed in such a bold form by any American anywhere

CERTAINLY the freedom of speech guaranteed us in the Bill of Rights in our Constitution does not apply to majority opinion—majority opinion has never needed any guarantee of freedom. The Cavaliers who harassed the Puritans out of England needed no such guarantee, nor did the Puritans need it when they harassed the Quakers out of New England. Most certainly it is the American press which formulated and championed this ideal of freedom of speech—the proud heritage to which the **Flambeau** is successor, and which Mr. Rowland will have us abrogate.

After this initial shock to our national ideals it is difficult to proceed further into Mr. Rowland's letter, but I am proud of my open mind.

I DO NOT KNOW how far into anthropology Mr. Rowland has gone to find the benighted heathens where he finds "the weak stepped on, ad infinitum"—a somewhat wearing task for the most determined oppressor, I am sure. Certainly he can find this sort of thing among the Dobu Islanders of the far Pacific today, or in Christian England in the Middle Ages, or in any other cultural backwater anywhere. He will not find the sort of organized uncharity he describes in the precepts of any advanced civilization. He will, in fact, find the non-Christian Confucius preaching charity, forgiveness, and brotherly love 500 years before Jesus; he will find the non-Christian Hindu so concerned with the sanctity of life that he will not knowingly kill the meanest fly—and finds the Christian slaughterhouse utterly shocking.

AS TO THE question of how many "Christians" there may be among the student body, I have no intention of trying to settle in a "letter to the editor" a question about which so many of our finest minds have written so many thousand words Certainly Western society is not Christian, because (if they were accepted) the words of Jesus quoted in the 40th verse of the fifth chapter of Matthew would close every court in the land, and the 42nd verse would put every bank out of business. That some people may choose to call it a Christian civilization is a simple matter of semantics.

I CONSIDER myself an intensely religious person, and have enough trouble as it is in getting on in a society which condones banks, lawyers, police courts, armies, prisons, and executioners without making extra trouble for myself by professing a creed which will bring me into hopeless conflict with the world around me. I have too much respect for my word and my honor to make any declaration which is not strictly true. I am not a skeptic, and the existence of God to me is not mere belief but very certain knowledge. I live with my God on a full-time basis, 24 hours a day. But I have regretfully come to the conclusion that I cannot make professions of creed on one day which I would be forced to break—by my society called Christian—on the following day. In a fairly full life, I have met few intelligent, thoughtful, religious individuals who do not at least in part share my beliefe.

I believe that Reader Jarrett is entitled to his opinion, and that I am entitled to mine.

Respectfully,
LAWRENCE A. PERKINS

LITTLE MAN ON CAMPUS By Dick Bibler

Charity Not Limited To Only Christians

LETTERS to the EDITOR

TO THE EDITOR:
AN OPEN LETTER TO FRED ROWLAND:

Sometimes, Mr. Rowland, ignorance is an excusable failing, but ignorance in print can result in serious consequences. I write this letter to you, Mr. Rowland, in the sincere hope that you may receive the stimulus necessary to begin the painful process of developing, in the future, if not wisdom, then at least, tolerance.

THE RELIGION that you belong to, Mr. Rowland, is undoubtedly a great, and proud one. But there are older, there are larger, there are more learned, and there are more tolerant. These others are also great and proud. Are we then heathens, Mr. Rowland?

You mentioned in your letter, "heathen but civilized countries" oppressing their peoples "because the prevailing religion does not call for a display of charity.' This letter is not intended as a history lesson, Mr. Rowland, but perhaps in your intensive search for knowledge you have happened upon the name of a nation called Israel, only eleven years old, but one of the most progressive free countries in the world today. In what condition was the United States at age eleven, Mr. Rowland?

MAY I QUOTE another outstanding passage from your letter?

"I believe if you have the opportunity to study at first hand, as I have, a people whose religion is other than Christian you will understand my point. Such a people will lack one virtue of the Christian faith so obvious in this country—CHARITY" Forgive me, Mr. Rowland, but though my name is not Emmett Jarrett I do not understand your point. Allow me to illustrate my viewpoint with the aid of something I searched in vain for in your letter—facts

THE FIRST NAME that comes to mind is that of Haym Solomon, (a heathen name, would you say?) who was instrumental in financing the American Revolution, out of his own pocket, and also loaned money, without recompense, to several delegates to the Continental Congress, among them James Madison (do you recognize the name, Mr. Rowland?) Because of his immense patriotism and generosity he died penniless—he was cited by Congress in 1846 and 1850 for his patriotic devotion and CHARITY.

The second of the few among many I wish to name is Judah Touro, a great New Orleans philanthropist who, among many other acts of charity, once purchased a debt-ridden Christian church in New O[r]leans and leased it back to [the] congregation, rent-free

THE LAST case-history th[at] I would like to mention is [that] of a man by the name of Ju[lius] Rosenwald, of Chicago, w[ho] offered to build YMCA bu[ild]ings and public schools for N[e]groes of any community [that] would raise a certain amo[unt] toward the building and gu[ar]antee maintenance. Up to [the] year 1930, over 4000 South[ern] schools were built as a res[ult] of his philanthropy. The sa[me] man also donated millions [to] the University of Chicago

In your letter, Mr. Rowla[nd] you illustrated charity w[ith] a very fine example—a d[ime] in a poor-box. Did you kn[ow] Mr. Rowland, that the sa[me] Julius Rosenwald donated [in] one lump sum, one million d[ol]lars to the war-stricken peo[ple] of Europe after World War [I]. That single donation wo[uld] provide dimes for ten mil[lion] poor-boxes, with perhaps e[ven] one left over for you, Mr R[ow]land.

MANY OTHER NAMES c[ome] out in passing, from every w[alk] of American life; names su[ch] as Rebecca Gratz, reputed [to] have been the original of [the] heroine in Sir Walter Sco[tt's] *Ivanhoe*; David Emanuel G[ov]ernor of Georgia in 1801, J[u]dah P. Benjamin, Secretary [of] State of the Confedera[cy]; Emma Lazarus, whose immo[r]tal words are inscribed u[pon] the base of the Statue of Li[b]erty (you have heard of th[at], Mr. Rowland?); Mischa Elma[n]; Yehudi Menuhin, Ernest Bloc[h]; Artur Rubinstein, Ge[orge] Gershwin; Sigmund Rombe[rg]; Oscar Hammerstein; Irv[ing] Berlin; Louis Untermeyer, J[os]eph Pulitzer; Edna Ferb[er]; Fannie Hurst; Bernard B[a]ruch; Henry Morgenthau, [ad] infinitum.

IN CLOSING, Mr Rowla[nd], let me say that in 1930 the[re] were as many national Jew[ish] philanthropic organizations [in] the United States as there w[ere] religious groups.

I suggest to Mr. Jarrett th[at] if he is disappointed with h[is] society, that he should inde[ed] look around. There are wonde[r]ful things to see.

I should like now to reaffi[rm] my opening statement: [...] ignorance is excusable B[ut] you, Mr. Rowland, are not.

Sincerely,
STEVE KLEID

Writer Disagrees With Rowland

TO THE EDITOR:

Writer Fred Rowland apparently thinks he holds firm Christian beliefs, yet he is willing to ardently criticize "heathen" countries because "charity" is not shown in them. Is that censorious tone one which a God-fearing and forgiving Christian would use, a Christian who loves his enemies and fellow man as his brother?

A SINCERE and conscientious Christian would instead look more closely for reasons why social conditions in another country are not as good as they are in "Christian" America; that "economic lack" in those countries is not easily brushed off with a few words. Furthermore, it would seem that, according to the Bible, it is not an act of CHARITY for a Christian to unleash his personal feelings about poor social conditions unless those words are constructive—and I somehow fail to note any constructive suggestions in Mr. Rowland's thoughts.

I firmly agree with Mr. Rowland that the vast majority of Americans and students on th[e] campus are Christians—in nam[e] that is. However, it is regret[table] that the vast majority of Chr[is]tians make only half-hearted [ef]forts to act that way, if any[—] other than to show up in churc[h] on Sunday—and do not live [up] to that name.

WE NEED NOT look bey[ond] the borders of Florida to [find] "people starving on the streets" (Immokalee and other migra[nt] worker camps), "the sick dy[ing] for want of medicines, the hel[p]lessly poor suffering uncoun[ted] harassments, the weak steppe[d] on, ad infinitum." I hope M[r.] Rowland hasn't forgotten: o[ur] economic failures of allow[ing] the subsistence-level and belo[w] existence of some rural and u[r]ban Floridians; and our politic[al] failures where our system h[as] encouraged the numerous revo[lt]ing and embarrassing (even [to] such an uncharitable heathen [as] I) positions of humility suffere[d] by our Negroid population. Cou[ld] all this really happen in a Chr[is]tian, "but civilized country"?

A SINISTER VOLTAIREA[N]

Bareheaded Prexy An Integrationist?

TO THE EDITOR OF THE FLAMBEAU:

I have written your president Robert Strozier the following letter, which you will want to print in your paper, where the voters among the students will see it

DEAR PRESIDENT STROZIER:

In your inaugural address you used a phrase that has caused me concern. You said "Let us work to make Florida State University a greater University."

I was curious about the meaning of the word "greater" Does it mean that you are opposed to the segregation of the races? You are a Georgia "cracker." Will you explain to me in plain simple "cracker" language what the word, greater, means?

I have also heard that you go around the campus bareheaded. Now the Negroes in my county don't have any hats and go bareheaded too. Does your going around without a hat mean that you have come down here from North where you have lived to integrate the races in our University and were made president for that reason?

The voters in my county whom I represent in the legislature have a right to know and I who look after their interests want to know. Don't bother to mail your reply to me: just send it to the newspapers. I have no desire to prolong this controversy. I only want the people of the state of Florida to know who is right in this segregation question, you or me.

Yours truly,
MAY RAT-TOX.

arry Block

Top Foe Selection

asketball is over here at Florida State and the entire cage n is drawing to a close throughout the nation. The ending s with it two things.

The first is the selection of the all-Americans for 1957-58, d the other the post-season tournaments, namely the NIT and AA.

Three all-American teams and a host of honorable mentions soon be picked and in this writer's opinion the names of n Seminole opponents will be on it.

Chances are that the first team may consist of five Negro ers and to my knowledge it would be the first time it has pened.

Four spots on the dream team seem assured. Put them in any r you like, but they'll still come out as Seattle's Elgin Baylor, has to score over 30 points a game to rank as the country's scorer, the fabulous Mr. "O," Cincinnati's Oscar Robertson, se 30 points a game isn't enough, Wilt Chamberlin of Kansas, giant and Temple's court wizard, Guy Rogers.

Rogers is the only senior.

That leaves only one spot remaining. Leading candidates m to be Kansas State's Bob Boozer, and Notre Dame's John ...

Dark horses are Bailey Howell, Mississippi State, Jerry West Virginia and Red Lee of Yale, just to mention a few.

...T BY POSITION

The selection of the nation's best in previous years was done position, two forwards, one center and two guards.

However, of late, only the best regardless of which position play are selected.

About a week ago we asked the Tribe's 18 regular players to an all-opponent team consisting of their 10 choices as first and second teams.

The votes were tallied by awarding 10 points for first team five for second. Here are the results.

Most favorite choice and top point man was West Virginia's, center Lloyd Sharrer, who was a demon under the boards in ...town.

Second was Marshall's 6-3 guard, Hal Greer. Greer had a point night against the Tribe and was excellent defensively.

Third and fourth places went to Jerry West, leader of the ...ameers and Loyola's Pete Gaudin, who sparked his team victories over FSU.

The last spot on the all-opponent team ended in a tie be- Memphis State's Orby Arnold, (who Seminole fans should ember quite well) and Joe Viviano of Xavier. Both had 60 in the voting.

...CKADAY PICKED

Rounding out the top 10 were two more Memphis Tigers, Spud Hays and forward Jim Hockaday. The 6-6 Hockaday not play here in Tallahassee, but was the Tigers' sparkplug 21 points when the Tribe lost a close 59-56 decision in ...phis.

Florida's ball club Joe Hobbs, always a thorn in the Seminoles' ...ag others) side, received 45 points and Oklahoma City ...'s Hub Reed with 25 completes the top 10.

Other opponents receiving votes were Herb Merritt of Ten- Tech the other half of Marshall's scoring attack, forward Bird, Furman's big gun, Dick Wright, Gene Stage of Miami, Dick Wherry of the Citadel.

Also with one vote apiece for second team were Dalen ...ster, Tennessee's pivot man; 5-10 Kenny Sidwell of Ten- Tech, which incidentally won the Ohio Valley Conference this year, Dick Besemer from Rollins and Loyola's Jim ...ghlin.

Quite an array of basketball talent.

...YBE NEXT YEAR

If you're a real dyed in the wool basketball fan as some are on campus, you kind of hate to see the cage season end

It wasn't exactly a happy one for Seminole followers as better were expected from the team.

True the schedule was tougher, but the players also were ...ed to be better

Perhaps things will improve next season, and with only one graduating the team should be a smoother working unit playing together over a season.

Sophomore Jim Savage seems to have the best chance to into the starting lineup, but may be pushed by Charlie ...ey, the leading scorer of this year's frosh team.

...aley stands 6-5, and is pretty tough under the boards and hurt you with his short jump shot. He could very well be only frosh to move up to the varsity

From all indications next season's slate could be even tougher, if that's the case the team will have to work all the harder come up with a winning record.

Gymnasts Cop Eighth Straight SIGC Crown

For the eighth consecutive year, Florida State's gymnasts copped the Southern Intercollegiate Championship at Hattiesburg, Miss. Saturday.

The Seminoles won eight first places out of ten events to bring their season's record to four dual wins and three championships.

Larry Malmlin was the top scorer for the Tribe as he picked up a total of 1,620 points. The stocky Swede took top honors in the parallel bars and the still rings.

FREE EXERCISE

He tied his teammate Chick Cicio in the free exercise event, which proved to be the most exciting event of the match.

Cicio was second best in total points as he gained 1,541 points for FSU. He took first place on the long horse besides the tie with Malmlin in free exercise.

Fernando Lecuona was third high man for the Seminoles with 1,479 poitns. Lecuona took first on the side horse.

Laird Anderson was the only gymnast to win two events. He took top honors on the flying rings and the rope climb

Still undefeated in his specialty, the trampoline, Don Preisser took this event by edging Pensacola's Jim Zipperes.

Gym coach Hartley Price said the "entire group showed up very well

"I was especially pleased with the improvement of Fernando Lecuona."

Georgia Tech captured second place in the match with a score of 48. Behind the Engineers were the Pensacola Naval Air Station with 34 and Mississippi Southern with eight

FSU's places in the match:

Parallel bars: Malmlin, 1; Lecuona, 2; Cicio, 3.

Horizontal bar: Malmlin, 2; Cicio, 3; Lecuona, 4.

Free exercise: Malmlin, Cicio, tied for 1; Webb, 3

Trampoline: Preisser, 1.

Rope climb: Anderson, 1; Rosansky, 5

Side horse: Lecuona, 1; Malmlin, 4; Cicio, 6.

Flying rings: Anderson, 1.

Tumbling: Cicio, 2; Preisser, 3; Webb, 4.

Still rings: Malmlin, 1; Lecuona, 2; Cicio, 3

Long horse: Cicio, 1; Malmlin, 4; Lecuona, 5.

Howser, McCarron Diamond Captains

All-American shortstop Dick Howser and centerfielder Owen McCarron were named captains of the Florida State baseball team for the 1958 season.

Howser, hit .364 last season and became the only FSU ball player ever to make all-American

McCarron, a switch hitting centerfielder, may be placed at second base this season to take up the slack left by Pfil Hunt who signed with the Dodgers.

The baseballers open their season March 19 against the Auburn Tigers here

Flambeau Pho. Dick Parks

UP AND OVER. George Smith, freshman track man from Miami, is caught in this unusual triple exposure photo as he takes his turn in the high jump.

PDT Captures 'Mural Grid Championship

After a long delayed game, PDT won the Greek Intramural Touch football championship. Meeting SN for the third time in the playoffs, PDT squeezed by SN Sunday afternoon on the merit of the "first down" ruling.

Going into the last minute of the game PDT was trailing 20-13, when they managed a touchdown and a extra point, thus tying the score 20-20.

When the first downs had been tallied, PDT had racked up 10 to SN's six, therefore PDT was declared winner and the new Greek Intramural Touch Football Champions.

It was SN all the way until PDT's fateful TD changed the story. SN jumped off on the first play from scrimmage and tacked up their first tally and extra point.

SN COMES BACK

PDT culminated a long hard drive with a touchdown, but were unable to make the point. The score stood 7-6. SN bounced back and widened their markin with another TD and point. With only two minutes left in the first half saw SN lead 14-6.

PDT took the kick and started a "razzle dazzle" routine and carried the ball across the line complete with a markee. Halftime score read, SN 14-PDT 13.

Early in the third period SN made their third and final TD but were unable to make that all important extra point. The score stood at 20-12.

With the game going into the last minute of play, PDT started a drive that ended with the ball across the goal and as the clock ran out they kicked the point.

BOWLING

In the Dorm-Independent Bowling competition, BSU is still undefeated with the finals being played this week.

Penthouse Gang met the Veterans Club last night and the winner of that game will meet the Newman Club on Wernesday night. The winner of this match will meet BSU for the final match on Friday night.

In the Greek division of Bowling, PDT and LCA were undefeated until last night when they met to decide who would enter the finals from the Winner's bracket of the double elimination tournament.

The loser's bracket is incomplete at the present and undecided as to who will meet the loser of last night's game between PDT and LCA. The final match of this tournament will be played Thursday evening at 5:00.

VOLLYBALL

Tha first week of play in the Dorm-Independent Volleyball schedule ended with Senior Hall, Veterans, and Majors Club tied for first place.

Newman, BSU, and Penthouse Gang are tied for fourth with one win each.

PEK, Magnolia, and Playboys are still trying for their initial wins.

Over in the Greek division of the Volleyball tournament, the first week found SPE and TEP dropping out of competition.

PKT is leading the pack with three wins KA, SN, TC and PDT are all tied for second place. DTD, PKA, SC, and SAE are tied for sixth place with one win each.

A book on the "History of Physical Education," written and published in Peru, South America, has been dedicated to Florida State gymnastics coach Hartley Price.

At ACC Meet

Track Team Loses Title To VMI, 25-17

By BEN BALSER
Assistant Sports Editor

The Florida State tracksters lost their non-conference crown in the Atlantic Coast Conference Indoor Relays as they were outscored by Virginia Military Institute, 25-17.

Although the Cadets took only first in one event, the 60-yard dash, they racked up enough second places to dethrone the Seminoles. This was the first meet of the year for the FSU thinclads and their performance showed promise of things to come.

The 60-yard dash was won by Sam Horner of VMI and Jack Terwilliger of FSU came in fourth. Terwilliger, a senior dashman, was slowed by a strained leg muscle.

FSU's senior miler, Mike Conley, won that event by turning in a time of 4:27.5. Conley holds the school record for the mile at 4:18.8.

Doyle Ruff, who holds the school mark in the half mile, placed second in that event. The fact that the races were run inside may have had some effect on the showings of Ruff and Conley, since it is harder to run on the boards then on the cinders.

The Seminoles gained first place in the mile relay event. The men running in this event were Conley, Terwilliger, Ruff and Jim Casteel.

Casteel, who holds the school record in the 440, placed third in the low hurdles. Claude Grizzard also ran in the hurdles and placed fourth in the high jump.

GEORGIA 3RD

Behind the Seminoles in scoring was Georgia with 10 points. Furman was next with eight points and The Citadel tied Richmond for fourth place with seven points apiece Davidson and Georgia closed with two and one points respectively.

Maryland won the main ACC Conference after building up an early lead and holding it during the whole meet.

On Saturday, the Seminole thinclads will journey to Tampa where they will stage a one-day track clinic. Their next meet will be March 15 when they compete in the Coliseum Indoor Games at Montgomery, Ala.

Only three times in the history of FSU's basketball teams has 500 points been scored by one man during the season. Jim Oler did it during the 1954-55 season, while he was a junior and again as a senior, when he hit for 743 points. Hugh Durham, junior guard on this year's team, scored 509 last year as a sophomore.

Dennis Midgette, Florida State freshman pitcher of last year's team became the second Seminole to sign with the Los Angeles Dodgers. Veteran infielder Pfil Hunt was the first.

Tankers Win 9th As Georgia Falls

Florida State's swimmers went on the warpath again Saturday night as they took full advantage of the Georgia Bulldogs to rack up a 55-31 victory.

It was the eleventh straight win over the Bulldogs and it brought the Tribe's record to nine wins against one loss and a tie.

The FSU tankers gained an early 26-9 lead and coasted the rest of the way. The Seminoles gained six firsts and seven second places in the victory.

ABBOTT STILL HOT

The Tribe kept up its dominance in the short freestyle events in the form of senior Ken Abbott. Abbott, a native of Birmingham, won the 50 and 100 yd. freestyle events. He holds the school record in the 50 with a time of :32.2 He swam it against Georgia in the time of :23.3.

Senior Joel Jacobs nabbed first place in the 200 yd. breaststroke in 2:35.5. He holds the school record in that event at 2:35.4.

This marked the third straight meet that Jacobs has captured first in this event.

Bob Weber, sophomore diver, took first in the diving. This was the fifth straight meet that Weber has placed first for the Tribe. Bill Simpson of FSU placed third.

The Seminoles 400 yd. medley relay team composed of Jim Wentworth, Jacobs, Jerry Glancy and Howard Fillmore, nabbed first place in that race.

GLANCY FIRST

Glancy copped a blue ribbon in the 200 yd. backstroke. Tom Metz finished second in the 220 and 440 freestyle swims for the Seminoles.

Jim Bankston, the Bulldogs ace freestyler, swept to first in the 220 and 440 freestyle events.

The Seminole's only loss this season came at the hands of the Southwestern Conference champs, Southern Methodist University. The tie was placed on the Tribe's record last week when they came from behind to tie the Florida Gators, 43-43.

Coach Bim Stult's swimmers are idle now until March 15, when they close out their dual meet schedule with a return meet against the Gators at Gainesville.

The summary:

400 medley relay—1 FSU (Wentworth, Jacobs, Fillmore, Glancy). 2. Georgia, 4 18 7

220 freestyle—1 Bankston, (G) 2. Metz (FSU). 3. Teschke (FSU) 2.18.4.

50 freestyle—1. Abbott (FSU). 2. Ray (FSU). 3 Tyre (G), :23.3.

Three-meter diving—1 Weber (FSU). 2 Tillman (G). 3 Simpson (FSU). 132.3 points.

200 butterfly—1. Bondurant (G). 2. Koeth (FSU). 3. Ellis (G). 2 48 8

100 freestyle—1. Abbott (FSU). 2. Hammond (FSU). 3. Tyre (G). :52.5.

200 backstroke—1. Glancy (FSU). 2. Stoffregen (FSU). 3 Blakeley (G). 2.23.3

440 freestyle—1. Bankston (G). 2. Metz (FSU) 3. Drydahl (G) 5.04 4

200 breaststroke—1 Jacobs (FSU). 2 Koeth (FSU) 3 Bell (G) 2 35 5.

400 freestyle relay—1 Georgia (Houston, Tyre, Tillman, Bankston). 2. FSU. 3.40 5.

In the eight year history of FSU's swimming team there had been only one tie. That is until Saturday night's thriller with Florida The other tie came in 1952 against the University of Georgia.

Golfers Host Moody AFB

Florida State's golfers will try to regain their winning form Tuesday when they host Moody Air Force Base of Valdosta, Ga., in a warmup for the 72-hole Florida Intercollegiate tournament.

Seminole golfers will be after their third straight Florida Intercollegiate golf championship which is being staged at Ocala's Country Club beginning on Thursday.

The FSU linksters so far this year have defeated Wisconsin 20-7 and lost to Florida, 19-8.

ONE RETURNEE

Bob Shave, the lone returnee from last year's foursome, is the leading Tribe golfer this year. Shave shot a four-under-par 67 against Florida while Dan Torppa, a sophomore, shot a 69 against the Gators.

Other golfers being counted on to retain the Florida Intercollegiate golf championship are seniors Dink Wise, Dave Morris and Bill Shelton.

Moving up from the frosh squad along with Torppa has been Wayne Timberman and he is also expected to lend help in retaining the crown.

Besides losing three of last year's leading golfers, the Tribe also lost its golf coach, Don Veller. But Veller has been replaced by Bill Odeneal, former head volleyball coach.

Odeneal is also used to winning as he coached FSU's crack volleyball team to two national championships before the sport was withdrawn from the athletic program.

Local Works Displayed

Gallery Exhibit Keys Modern Art

People who like modern art or who would like to understand it better have the opportunity of seeing the 30 art works, all locally owned, which will be exhibited until March 31 in the Art Gallery at Florida State University.

Sponsored by the university's department of art, the exhibition is free and open to the public. Conducted tours can be arranged for groups by calling the curator, Miss Ellen Mary Jones, at extension 74301.

23 ARTISTS

Twelve paintings, nine prints, seven drawings and two pieces of sculpture are shown, by 23 foremost modern artists. Probably the most valuable work included is a collage in cubist style by Picasso. It was even framed by the artist.

Picasso is a member of the Paris School which is also represented in the exhibition by Braque, Leger and Metzinger. Others represented who show the powerful influence of Picasso are Klee, Jack Levine, Marc Chagall and Gaudier-Brzeska

Camille Pissarro, one of the founders of the earlier Impressionist School in Paris, is represented by a print. The Impressionists tried to show what they saw as light instead of what they knew as form. Influence of this school in Germany is seen in the drawing included by Max Liebermann, one of the founders of the Berlin Secessionists in 1905.

TOULOUSE-LAUTREC

A pencil drawing included is a self portrait by Toulouse-Lautrec, executed when the artist was a young man. He later developed a style of painting which falls in the Post-Impressionist movement, a reaction from impressionism.

The group of artists in Paris centered around Matisse, produced highly experssionist work, colorful and executed with dynamic brushwork. A color lithography by Vlaminck and an aquarelle by Marquet are typical. A work by Pechstein, who was representative of expressionism in Germany, is also included.

FORMER STUDENT'S WIFE PUBLISHES NEW NOVEL

A new novel by Marianne Hauser, "The Choir Invisible," was published recently by McDowell, Obolensky Inc., and is receiving national recognition.

The author, who resided in Tallahassee in 1956-'57 while her husband earned the first doctor's degree in music ever awarded at Florida State University, is known in private life as Mrs. Fred Kirchberger. The couple lived on Meridian Street here, and their young son, Michael, attended Kate Sullivan School.

It was during her residence in Tallahassee that Mrs. Kirchberber wrote this book with its setting a small town in Missouri, such as the one she had lived in and returned to from Florida.

She discussed the book and some of her writing problems last year as an English Coffee Hour speaker. As an active member of the Faculty Wives' Book Club, she addressed a number of literary organizations in the area.

The book concerns a family man, bank clerk and choir master, Floyd Walker, who learns that he will probably die of leukemia within six months. At the end of the book Walker is no nearer death than at the beginning although he becomes a major concern of his whole town. His reaction to the predicament makes for the story because he becomes almost hysterically freed from the routine of his life in realizing it is more deadly than the disease. He sets out on a Quixotic journey in search of love.

Mrs. Kirchberger is an Alsatian who has lived in this country for 20 years. Her earlier novel, "Dark Dominion," was favorably reviewed, and her short stories have appeared in a number of national magazines.

Straziers Entertained By PE Department

Dr. and Mrs. Robert M. Strozier were entertained by faculty members of the physical education department of men and women last night.

The faculty members entertained the Stroziers with a steak dinner at the Reservation.

Journalists Join Two National Groups

The Florida State University School of Journalism has accepted membership in two national associations in journalism education, Dean Laurence R. Campbell announced recently.

Unanimous approval was given its application for membership in the American Society of Journalism School Administrators. The organization has fifty-six members.

The school meanwhile notified the American Association of Schools and Departments of Journalism, organized in 1917, that it would accept an invitation to affiliate received some weeks ago.

HIGH STANDARDS

High standards are a prerequisite to membership in both organizations, Dean Campbell said. Important factors are program, faculty, and facilities. Research and service also are stressed.

The FSU School of Journalism is one of the two schools in the state with an accredited program. Founded in 1949, it had 97 undergraduate students in 1950. At the close of the 1957 fall semester it had 163 undergraduate students.

Freshmen in journalism made the top scores in entrance placement tests last fall, according to the Office of Education Research, Dr Campbell said. Since 1949 both the number of courses and semester hours to undergraduates have been reduced.

Students enroll as editorial, advertising, or television-radio majors, Dean Campbell said. Instruction also is provided for those interested in photojournalism, public relations, magazine work, teaching, and other fields.

EXTENSIONS

Extension courses either in television-radio or in advertising have been offered in Pensacola, Tallahassee, St. Petersburg, Orlando, Fort Lauderdale, West Palm Beach, and Jacksonville by the journalism faculty.

West, Magnolia Elect Governors

John Van Beck was elected governor in West Hall elections last week. Van Beck also serves as a Student Senator from West Hall.

Elected Lt. Gov. was Carl "Bud" Jolly John Reynolds was elected Secretary and Bob Owens, Treasurer.

John Cummer, dorm counselor, announced that the Inaugural Ball at which the new officers will be formally installed will take place Saturday evening, March 22.

The dorm government will meet tonight to discuss the ball and to organize for the coming year.

Unit mayors selected were Dave Pemberton and Don Pickett.

Election day in Magnolia Hall returned with Bill Spain as governor, Bartow Stone, lieutenant governor, Randy Ray, secretary, Lamar Brock, treasurer, Bob Fountain, social chairman, and John Leaff, athletic chairman.

Dame's Club Sets Fashion Show

The annual fashion show sponsored by the Florida State University chapter of Dame's Club has been scheduled for March 12, according to Pat Dorsey, chairman of the event.

The show will be held in Opperman Music Hall at 8 p.m., and is co-sponsored by Mendelson's Department Store, with hair styles by Alice Beauty Center.

Models will be members of the Dame's Club and their families. "We will even have some men and children as models," the chairman said. Maternity wear will also be modeled

Emcees will be Norma Ragsdale and Tlazel Ramos.

Other committees and chairmen include publicity, Jackie Showerman; and entertainment, Yvi Fernandes.

Eight door prizes will be awarded. The public is invited to attend.

Wing Commander

Hosford New AFROTC Head In Mid-Year Command Change

Florida State University's AFROTC unit has affected its mid-year change of command. Now heading the corps is Cadet Col. Laurie H. Hosford, Wing Commander.

This change of command is held at the beginning of each semester and gives the Junior and Senior Cadets a chance to become familiar with more than one phase of ROTC duties.

This change of command is held at the beginning of each semester and gives the Junior and Senior Cadets a chance to become familiar with more than one phase of ROTC duties.

WING STAFF

The Wing staff consists of Cadet Lt. Col. George H. Peacock, deputy wing commander, Cadet Lt. Col. Zack H. Shelley, Jr., operations officers, Cadet Lt. Col. William H Benner, Jr., personnel officer, Cadet Major Bernard L. Kelly, assistant personnel officer, Cadet Major Homer T. Harris, adjutant, Cadet Lt. Col. Willie G. Gardner, Jr., inspector Wing information services officer is Cadet Major Richard K. Walker.

Other student officers now taking important positions under the rotation are Cadet Lt. Col. Harold Cummings, Group I commander and Cadet Lt. Col. Robert M. Johnson, Group II commander

Deputy commander for Group I is Cadet Major Wade H. Crews, Jr. His assistants are: Cadet Major Thomas H. Hafner, operations officer, Cadet 1st Lt. Bobby E. Tyre, personnel officer, Cadet Capt. Carmine J. Monteleone, adjutant.

Group II Staff is: Cadet Major Don R. Lewis, deputy commander, Cadet Major Donald D. Preisser, operations officers, Cadet Capt. Robert G. Braun, personnel officers, and Cadet 1st Lt. Fred L. Rowland, adjutant.

Squadrons are headed by the following Commanders: Cadet Major Douglas C Greene, Cadet Major Harold D. Powell, Jr., Cadet Major F. Rago, Cadet Major James R. Bell, Cadet Major Frank J. Sattler, Jr.

Other Squadron Commanders are: Cadet Major William A. Grow, Jr., Cadet Major Joel P. Jacobs, and Cadet Major Robert K. Sikes.

Cadet Major David N Reams is in charge of the Drill Team and Cadet Capt. Lester A. Yeomans, Jr. is band leader.

This mid-year reorganization policy gives a greater variety of leadership experiences by rotating the command responsibilities among the Junior and Senior Cadets.

In this system of rotating the Advanced Corps, a cadet may serve in as many as four different positions during his last two years of ROTC.

Accident Injures Two Students

Two FSU students received minor injuries when the Volkswagen in which they were passengers overturned Sunday morning about five miles south of Crawfordville.

Marshall LaCombe received head cuts and Reggie Ivory, cuts and bruises. Both were admitted to Tallahassee Memorial Hospital and are listed in "good" condition.

Three others in the car were Bill Shultz, Ted Dudas and Rick Hollister. Schultz and Dudas sustained minor cuts and bruises, while Hollister suffered a fractured spine and head injuries.

Hollister, station announcer at WTAL, was driving the group back to Tallahassee from the coast when the accident happened at 12:50 a.m. at the intersection of the Crawfordville highway and U. S. 98

Trooper Joe Henderson of the Florida Highway Patrol said that Hollister, apparently traveling at an excessive rate of speed, took the wrong lane in attempting to turn onto the Crawfordville road. When he tried to cross over into the other lane, the car overturned.

The car was listed as a total loss and Hollister was charged with speeding

Third Sports Season Going For Women's Intramurals

The third sports season of the school year has just begun, with sororities and dormitories competing in basketball, table tennis, and badminton.

This season will last until March 19, with finals being played off during the week of March 14. Twenty-five teams have entered the basketball competition, divided into four sorority leagues and two dorm leagues.

LEAGUES

In Sorority League I are Alpha Delta Pi, Kappa Delta, and Delta Delta Delta. Sorority League II: Kappa Alpha Theta, Alpha Xi Delta, Delta Gamma, and Zeta Tau Alpha; Sorority League III: Chi Omega, Alpha Omicron Pi, Alpha Gamma Delta, and Gamma Phi Beta; Sorority League IV: Pi Beta Phi, Alpha Chi Omega, Sigma Kappa, and Phi Mu.

Dormitory League I includes Broward, Jennie Murphree, Landis, and Reynolds; League II: Baptist Student Union, Florida, Bryan, Cawthon, and Gilchrist

Darlene Fordham is sports manager for basketball, Ella Mae Miller for badminton, and Merline Johnson for table tennis.

OTHER WINNERS

Winners of previous sports seasons this year include: volleyball, Broward; bowling Gilchrist; horseshoes Delta Zeta, shuffleboard, Landis; and deck tennis, Alpha Xi Delta.

The Women's P Club is presenting an Overall Winners Trophy in May, which will be awarded to the team with the most points. Each team receives a certain number of points for participation.

Campus Notices

Student Party Reception Set

STUDENT PARTY. Those interested in serving as day student delegates may attend a meeting Thursday in the Day Student Lounge of Longmire at 4 p.m., according to Student Party Chairman Mattox Hair.

SIGMA TAU DELTA will hold a business and social meeting at 7.30 p.m. tonight in the East Parlor of Landis. The guest speaker will be Karl Norbeck, a Rotary scholarship holder from Norway.

THE MONTHLY meeting of the Mathematics Teaching Club will be held at 7:30 p.m. Thursday in Room 226 of the Music Building. Election of next year's officers will be held. The activities committee will present interesting mathematical puzzles and refreshments will be served.

THE FSU JOURNALISM CLUB will hold its monthly business meeting tonight at 7 p.m. in the Student Lounge of Longmire.

All members are encouraged to attend and anyone else who may be interested in joining the club and its activities.

Plans for the next Discussion Topic will be made at this meeting and other very important business will be covered

JOB OPPORTUNITIES representatives will be on campus on the dates indicated to interview interested seniors

Tuesday, March 4, Pepsi Cola Bottling Company, (interested in students with a background of chemistry, food technology, bacteriology and allied sciences) Proctor and Gamble.

Wednesday, March 5, College Life Insurance Company.

Thursday, March 6, Army Ballistic Missile Agency (interested in chemists, physicists and mathematicians), Ernst & Ernst (accountants).

For an appointment with these companies, please contact the placement office, temporarily located in room 8 of the Longmire building

Apathy 'Devastating' At U. New Mexico

UNIVERSITY OF NEW MEXICO: Apathy on the Uni[versity] of New Mexico campus is "devastating," says the UNM Lobo[...] that apathy has crept into student government, thinks [...] Danny Zeff.

Student Body Prexy Jack Little takes an "admittedly id[...] viewpoint: the student body should be the motivating force in student government."

Little concedes "there isn't a jigger of motivation" in UNM's 6,000 students, that issues and causes cannot be created out of thin air.

"Apathy is a poor excuse for inactivity," concludes the Lobo. It's a poor excuse for anything, except stupidity"

BOWLING GREEN UNIVERSITY: Bowling Green News writer Ray Danael suggests the United States adopt phonetic spelling. Says he:

"Woodent it bee grate if sumbudee wood dreem up a noo langwidge, spokn and ritn as it sowndz? It shurlee wood make thingz eezier for sumbudy from a forun nashun whoo tyrz to lern Inglish. . . .

"Thinga wood bee beter al arownd, if each leter had onlee wun sownd. . . .

"But it seemz as if nobudee will ugree to this alterashun so I wil take my thots elseware too mor xeptubul feeldz uv mentul ndever."

SOUTH DAKOTA STATE COLLEGE: Those who say their goodnights in the women's dormitory at South Dakota State College will no longer have any trouble knowing when it's time to leave, says columnist Marlene Longwood in the South Dakota Collegian.

The house mother, wondering why the fellows didn't go when the lights went out, took a survey one night and learned that everyone's eyes were shut so they could hardly tell when the room was darkened.

Now she rings a little dinner bell at the evening's close.

Also of interest from South Dakota State is the fact that the college has one dormitory for both men and women—and the house mother is a college junior

Explanation: The dormitory is an off-campus home housing ten coeds and two men [...] who are also caretakers [...] housemother took a "vaca[tion]" 26 years between her sop[homore] and junior years to [...] family."

UNIVERSITY OF M[INNE]SOTA: A U. of M. profes[sor ...] qualify for the all-time [...] minded" title.

The Minnesota Daily's Tower magazine tells this as reported by their spy [...] faculty dining club.

Florida 'Man-Of-Year' Award Given Strozier

Award Goes To Non-Gator For 1st Time

The Florida Alligator announced today that Dr. Robert M. Strozier, President of the Florida State University, has been named Florida Man of the Year.

It is the first time the five-year-old award has not gone to a person from the University of Florida..

CONTRIBUTES MOST

The Man of the Year, sponsored by the Alligator, is awarded each year in order to honor a person who has contributed the most to the University of Florida and to higher education.

Students, faculty members, and alumni are eligible for nomination by the entire student body.

Alligator Editor David Levy told the Flambeau that Dr. Strozier was chosen Tuesday night by a vote of the editorial staff.

The reason for his selection, Levy said, was because of "his forthright leadership and ability to meet the educational problems of our day. He has contributed not only to FSU but the principles of higher education throughout Florida."

Dr. Strozier will be featured in a full page in the Seminole, the Florida yearbook. He will also receive a citation from the Alligator at a later date.

MENTIONS

Honorable mention in the contest was awarded to Steve Sessums, former president of the University of Florida service honorary, Blue Key, George Bayless, leader in student organizations and activities, and Rae Weimer, director of the School of Journalism and Communications.

Previous winners of the award were Don Bolling, editor of the Seminole, 1954; Dr. John Allen, acting president, 1955; Dr. Joseph Weil, dean of the Engineering College, 1956; and Dr. George Harrell, dean of the medical college, 1957.

The Man of the Year was originated in 1954 by former Alligator Editor George Bayless, who received honorable mention this year.

'MENAGERIE' SCENE. Eli Ask, who plays Tom Wingfield, and Isa Cohen, portraying Amanda Wingfield, in a scene from "The Glass Menagerie."

Speech Production

'Glass Menagerie' Begins Next Friday

Beti Seay, Eli Ask, Isa Cohen, and Bryant Simms will star in Tennessee Williams' "The Glass Menagerie" next Friday, Saturday, Monday and Tuesday, at 8:15 in Augusti Conradi Theater.

Richard Fallon, assistant director of theater at FSU, will direct this group, all the members of which have had extensive dramatics experience.

Tickets for reserved seats for the four performances will go on sale Wednesday at the Westcott Ticket Office. Tickets will also be available at Conradi Theater before each performance of this third community production of the season.

Fallon, who states the play "is Williams' masterpiece because in this first New York hit he was most successful in expressing his poetic ability in the dramatic form," is a personal friend of Eddie Dowling, director, producer, and narrator of the Broadway production of "Glass Menagerie."

In discussions of the play, Dowling and Fallon examined Tennessee Williams' production suggestions, many of which weren't used on Broadway. Dowling's evaluations of the ideas he did use were also discussed with Fallon, who now plans an interpretation of the play, based on the original script, which will be unique.

Particularly re-interpreted will be the characterization of Laura, to be played by Beti Seay, portrayed by Julie Haydon on Broadway.

Director Fallon states of Laura, "The symbol of Laura is analogous to the glass figures she treasures. She is the symbol of the fragile, pure, radiant beauty which is perhaps that beauty that is the ultimate which we all seek."

CAN'T GET ALONG

He continues, "Because of this fragile beauty of human understanding and love, she can't get along in the world in which we have compromised these things. She's forced to live in the world of these glass figures."

This interpretation of Laura wasn't clear in the Broadway show, in which Laura appeared weak in comparison to the stronger characterizations of Amanda, the mother, and the Gentleman Caller.

Assistant Director of the play will be Walter Saric.

Barbara Chambers will be stage manager, with Sandra Beskind, Jane Seymour, Judy Willis, and John Venables on the stage crew.

Marlene Matouk will be Control Operator, assisted by Pat Wilson and June Sillay.

OTHER HELPERS

The lighting crew, Linda Mould and Sue Powell, will be headed by Byron Nichols.

Frank Plencner and Stan Cheren will direct sound, which will include the mood music used on Broadway, composed for the play by Paul Bowles.

Set in St. Louis tenement in the 1930's, the play is narrated flash-back style by Laura's brother, Tom, to be played by Eli Ask. This was Eddie Dowles' role on Broadway.

'Halls-A-Way,' 'Florida Lane' Suggested As Street Names

An act to name the campus streets was introduced in Student Senate at its Wednesday afternoon meeting.

Senator Pat Mickler, chairman of the committee to name the streets, explained that suggestion boxes had been placed at various spots on campus and that "most of the names came from the suggestion boxes."

The act, introduced by Senators Mickler, Lewis, and Moreno, provided two names for each street and would ask the Board of Control to choose between them.

The bill was referred to the committee and will be taken up again next week.

The bill would name the streets accordingly:

"HALLS-A-WAY"

The street running in front of the freshman women's dorms would be known as "Halls-a-Way" or "Happy Hunting Grounds." The street in front of Landis Hall would be called "Florida Lane" or "Wig Wam Lane."

The street running from the Jefferson St. gate by the History and Science buildings and around to the Education School would be either "University Lane" or "Council Circle."

INDIAN NAMES

"Seminole Way" or "Pow Wow Way" would be the name of the street running along the east side of Landis Green, while the west side street would be known as "Collegiate Way" or "War Path Way."

The newly constructed road running from the Men's Gym by West Hall would be called "Ivey Road" or "Chieftian Way." The road running around Magnolia Hall and the Women's Gym was termed "Varsity Way" or "Scalp 'em Place."

Third Party Formation Now Underway Here

A third campus political party was formed this week to run candidates in the April 1 general election.

The party, which will be called the University Party, held an organizational meeting Tuesday night in 222 History. Gene Caruthers of Pi Kappa Phi was selected as temporary chairman.

Caruthers said that the new party was formed by students who are dissatisfied with the present party set-up. It is composed of both Greeks and independents.

OPPOSITION

"We want to serve notice," Caruthers said, "to the Student and Collegiate parties that no candidate will be elected without opposition."

Lucius Williams, a member of the new party's steering committee added, "They think they are going to have another shoo-in election. But not if we can help it."

Party officials emphasized that they were appealing especially to the students who have been heretofore inactive in student government. "There are enough students on this campus who have never voted to win any election," Williams said. "With their support the University Party can elect a slate of candidates."

Caruthers announced that the party convention has been tentatively set Thursday, March 12. He added that the party would qualify according to the student government rules right after the convention.

NO CANDIDATES YET

When asked who the possible candidates would be, Caruthers said that he did not know yet, but added that a slate would be filled at the convention. He added that the party was especially interested in nominating a candidate to oppose Art Moore for student body president.

Caruthers indicated that the party already had a large block of votes and would actively seek more. A strong party organization will be built up, he added, which will help every candidate running on the University Party slate. Only when this is done, he concluded, will the present situation of apathy and virtual one party rule be remedied.

HARD WORK

"It will take a lot of hard work to put it over this election," Caruthers added, "but with the help of those heretofore inactive in student government and those who are displeased with the present situation, we can have a government of the students and not of a select group."

Caruthers added that he thought the people dissatisfied with the present set up are numerous.

Mattox Hair, chairman of the Student Party, said of the University Party's formation, "I think it's good. It will increase interest in student government."

Caruthers said that anyone wishing information or wishing to participate in the University Party could reach him at 2-1706.

Editor Applications Due By Wednesday

Applications for the positions of editor of Tally-Ho, The Florida Flambeau, and Smoke Signals are due by Wednesday afternoon, announced Ruth Pritchie, chairman of the board of publications.

Students may file application with Dr. Reid Montgomery, 18 Longmire; or Miss Pritchie, North Cawthon Hall.

Honor Poll Set Sometime This Month

The much-discussed honor poll, which will ask student opinion on the honor system, will be held sometime in March, Secretary of Honor Joyce Weatherup announced this week.

Although no definite date has been set as yet, Miss Weatherup indicated that the poll would be held in the not too distant future, polling a selection of 500 students.

AT RANDOM

The students, who will be chosen at random from the student body, will be quizzed personally on their availability and given a pre-arranged form to fill out at the time they are available.

The form, which will be filled out anonymously, will include a test on the honor system in order to evaluate the forms on the basis of knowledgeability.

The explicit purpose of the poll will be to determine student opinion on the honor system itself, so that revisions may be made if necessary.

JUST A FEW?

Miss Weatherup said that the poll would also be used to find out whether a large segment of students was dissatisfied with the honor system, or whether the expressed dissatisfaction was among just a few.

She urged that all students think over the honor system seriously in the next few days, so that if they are called upon to register opinion in the poll, the answers will be thoughtful.

The dates of the poll will be announced in the near future.

Student, Professor Get Leading Roles

Leading roles in the Tallahassee Little Theater's production of "Dial M for Murder" will be taken by Wallace Yeager, FSU senior, and Richard Joel, professor of advertising.

Also in the cast is James Masson Gunn, formerly of the Music School faculty.

Frederick Knott's melodramatic hit will be presented Saturday, Monday and Tuesday at 8:15 p. m. in Alfriend Hall. Student tickets are 50 cents if ID card is shown at the door.

Yeager, who is president of the Cavaliers, will be making his first appearance on any stage. He will play the part of a hired assassin who fails to get his victim.

Joel is cast as the aging tennis star who tries to plot the perfect crime. He has appeared with the Little Theater in "Angel Street" and "Light Up The Sky," and was director of "The Little Foxes."

Gunn, in the role of a TV writer, will be making his debut with the Little Theater, although he has acted with the FSU faculty drama group. Since leaving the university faculty, he has been devoting his time to fiction writing.

2.8639 Average

Kappa Alpha Theta Tops Sorority Grades

Kappa Alpha Theta maintained the highest scholastic overall average among the sororities for the fall semester with a 2.8639, Miss Elizabeth E. Lynn, assistant dean of women, announced this week.

This is the second consecutive semester the Thetas, who this fall were selected "Sorority of the Year" by Delta Tau Delta fraternity, have achieved the scholastic honor.

2.9622 FOR ACTIVES

The sorority's 51 members had a 2.9622 average, in comparison to the 16 sororities' average, 2.664, and the undergraduate women's average, 2.5744.

Thetas have been in the upper third scholastically for the past three years, Miss Lynn pointed out.

Second place overall average was won by Zeta Tau Alpha, with a 2.8278. The Zetas were also second in the '57 spring semester.

PI PHI'S THIRD

The Pi Beta Phi's jumped to third place, 2.8069, from ninth position in the spring semester. Pi Phi pledges had the highest fall scholastic average of all the sororities with a 2.6840.

Alpha Gamma Delta, who held the highest overall average position for five consecutive semesters prior to the '57 spring semester when they dropped to third position, placed fourth during the fall semester with a 2.7602.

SK IMPROVES MOST

Scholastically, Sigma Kappa improved their status most, rising from 15th to eighth place, Miss Lynn commented.

Overall averages of the other sororities are: Alpha Xi Delta, 2.7551; Chi Omega, 2.7390; Delta Gamma, 2.7157; Sigma Kappa, 2.6785; Kappa Delta, 2.6604; Delta Delta Delta, 2.6251; Alpha Omicron Pi, 2.6066; Alpha Chi Omega, 2.5915; Phi Mu, 2.5690; Delta Zeta, 2.5079; Gamma Phi Beta, 2.4494; and Alpha Delta Pi, 2.3851.

ELEVEN BETTER

Eleven out of the 16 sororities had better averages than that of the undergraduate women's average, 2.5744. All but two active memberships maintained better than 2.5744, but only three of the pledge groups, besides Pi Beta Phi, Zeta Tau Alpha and Alpha Gamma Delta, were better than the undergraduate women's average.

According to Nancy Terry, president of Panhellenic, a scholarship banquet will be held for the Greeks on April 15. Three trophies will be awarded at this time.

TROPHY TO MOVE

The highest overall average trophy, presently in the possession of Alpha Gamma Delta, will be awarded to Kappa Alpha Theta.

Pi Beta Phi will be awarded the highest pledge average trophy, which the Chi Omegas now have.

The Alpha Xi Deltas will have to give up the most scholastic improvement trophy to Sigma Kappa.

Sorority house mothers and a faculty committee on sorority affairs will be guests at the banquet. Members of this committee are Dean Katherine Warren, chairman; Dr. Sara Lou Hammond, Mrs. Agnes Gregory, and Dr. Grace C. Matsen.

Women who had the highest average in their individual chapters will be honored by the city Panhellenic, later in the spring. Mrs. Leila Venable Hager, president, will be in charge of the event.

PLACEMENT OFFICE MOVE 'LIKE MOVIES'

By VIRGINIA DELAVAN

In what is termed "probably the fastest move ever made on campus," the staff, furniture, and papers of the Placement Office were whisked from 203 Westcott to their present Longmire location last Thursday.

The purpose of the switch was to provide office space for Dr. Charles Davis, newly-appointed Dean of Faculties.

OUT TO LUNCH

James C. Hardy, placement officer, says he learned the movers had come while on his noon lunch hour. By 5 p.m. the transferral was complete.

"We thought the move would be made on the weekend. This would have given us at least a day to get set up," he explains.

As the stream of workers moved furniture out, seniors were arriving for interviews with business recruiters. The ensuing confusion was "like the movies. I couldn't believe it was actually happening," Hardy says.

The present and temporary quarters of the Placement Office are in the basement of Longmire next door to the Soda Shop. This was the former Men's Day-Student Lounge.

Hardy, the three secretaries, and brochures and other printed

Movable partitions separate Hardy's desk and interviewing area from the general work area.

This arrangement is unfavorable as "no student wants to talk over his personal problems, such as salary, where the secretaries and other students can hear."

NO ROOM

There is also no room for students to read the information provided by the office and interviews must be held on the fourth floor of Longmire.

According to Hardy, both the businessmen and students are having trouble finding the new office.

"It was just getting to the point where they knew where our Westcott office was, when we moved," he says.

One recruiter with scheduled interviews came in at 9:30 a.m. yesterday after searching 25 minutes for the office.

CONCERT PERSONNEL. Manley R. Whitcomb (l) discusses one of the compositions to be played during the University Symphonic Band Concert March 11 with Charles Carter (center) and Richard D. Mayo. Mayo, who has just returned from 16 months in Germany with the 8th Infantry division band, will be guest conductor on one number and one of Carter's compositions will be premiered.

Lowry Now Asks Prexy To Explain

Sumter L. Lowry, former Florida gubernatorial candidate, asked Florida State University President Robert Strozier this week to explain his remarks about Florida and the South which were made in his inaugural address February 21.

Lowry joined State Representative Ray Mattox of Polk County, who asked for an explanation of the remarks previously. The university president said in a letter to Mattox that he thought that his remarks were clear provided the full text of the address was read.

Lowry, who ran for governor of Florida on the single platform plank of maintaining segregation in the public education system, asked that Strozier answer three questions.

"1. Are you in favor of the segregation of the races in the public schools and institutions of higher learning in Florida?

"2. Will you take a public and open stand against the integration of the races in the Florida State University?

"3. Will you publicly exercise your influence at the Florida State University to inculcate in the minds of the students their responsibility to uphold the Constitution of Florida which prohibits the mixing of the races in the public schools of the State of Florida?

Pow-Wow Staff Slates Meeting

There will be a meeting of all persons interested in being on the Pow Wow staff, Tuesday, March 11, at 4 p.m. in the Longmire auditorium.

Students requested to attend this meeting are: Mary Ann Adams, Elaine Hyers, Sue Massey, Valerie Moloney, Peggy Pafford, Carolyn Reeves, Jack Ryder.

Charlotte Stoker, Margaret Wirk, Gina Gaskins, Valerie Rohs, Gary DuBois, John Ray and Fehmi Zeko. All other interested students are invited to attend.

Make Lecture Series Class Gift

A committee of students just returned to campus from Chapel Hill highly excited about an event which is to take place there in a few weeks.

THE EVENT is "Symposium Week" to be held March 16-23. Their enthusiasm is easily understood by the prominent speakers who will participate in the program.

Sen. John Sparkman of Alabama, Sen. Henry Jackson of Washington, Dr. Sidney Hook of New York University, Victor Reuther of the United Auto Workers, Reverend Julian Hart, Governor Luther Hodges, Dr. Katherine McBride, Harry Ashmore, editor of the Arkansas Gazette, and Sergi Striganov, counselor to the Russian embassy in Washington are among the more outstanding persons to appear.

THE GENERAL theme of the Symposium is "The Dimensions of Survival: American Culture in World Focus" which is broken up into areas such as physical survival, cultural survival, and American values in crisis.

The program presents a clash of ideas in all fields. The panel method is stressed although the speakers visit fraternities, sororities and other groups to give talks. Even professors exchange classes for the week to offer new, fresh ideas to the students.

THE FSU CAMPUS certainly doesn't match Chapel Hill intellectualism, however, we think this is a goal to which this university should begin striving.

Even the University of Florida is ahead of us in some respects. The **Florida Alligator** points out that that institution has a University Lecture Series Committee which receives $5000 yearly for speaker's honorariums and expenses.

Although the **Alligator** says this is not enough to support a program such as North Carolina's Symposium, it is as much or more than the Tar Heels spend.

THE SYMPOSIUM at Chapel Hill is financed by student contributions. Some of the speakers pay their own expenses, while honorariums are paid to others.

Florida State offers even less than Florida in the way of distinguished visiting lecturers and panelists. Intelligent Faith Week is perhaps the only organized event of the kind, although various departments may sponsor programs such as "Fashion Day" and "Career Day".

THE COFFEE HOUR is a regular event engaging discussions on topics, but it has been limiting its speakers to campus personalities. The only other lecture series of which we can think is the American Studies Series, a course offering speakers from various parts of the university.

In the way of progress in this area, President Strozier has helped to stimulate the intellectual desires of the student body by assisting the Artist Series to book Dr. Harold Urey, famous physics instrumental in the Manhatten Project, and Mr. Frank D. Moore contributed to bring outstanding lecturers here.

THIS IS A good start. But we could add even more funds to support a program of appeal and interest to the entire student body.

As a beginning, the **Flambeau** suggests that as its class gift the Senior Class of 1958 contribute to the endowment of such a program. This proposal has been brought up and criticized as "not tangible".

IN REALITY, last year's Senior Class had to wrack their brains to come up with a "tangible" idea—the flag pole in front of Westcott—and money was still left over that no one could think of how to spend.

Money to sponsor a "week" of discussion on crises, problems, and thought-provoking topics of the day isn't so "intangible" as some students think. It is a gift of an educational experience.

Alligator Chooses Well

The awarding of the **Florida Alligator's** "Man of the Year" award to FSU President Robert M. Strozier is encouraging for two reasons: it symbolizes a growing awareness in the student mind of the need for forthright and progressive educators, and it moves a little further down the road from the narrow provincialism that has marked relations between the two universities in the past.

In selecting Dr. Strozier for the award, the Alligator stretched a point, modifying the previous selection policy so as to include people who had contributed to higher education in general in the state; previously the award had gone only to those within the university family.

They have chosen well. And they have done their choosing at a time when the new president needs the support of the entire student population of the state universities.

Calling The Card

Lowry Loses Appeal Of Fla. Press

By JIM McINTYRE

It looks as if General Sumter Lowry, guardian of states' rights and southern womanhood, has sort of lost his appeal

GENERAL LOWRY last week noticed someone else on the Florida scene stealing the segregation spotlight from him and decided to act in order to maintain his self-appointed leadership in the field.

The intruder was Representative Ray Mattox of Polk County, who acted with haste quicker than Lowry has ever managed to muster, in questioning the remarks made at the inauguration by Dr. Robert M Strozier.

THE GENERAL, being the man he is decided not to be outdone. If Mattox could attack Strozier for talking about "Southern justice, Southern education and Southern democracy," then he would find something else in the speech that would eventually lead the state down the gloomy road of amalgamation, miscegenation, mongrelization and like that.

Strozier had said that "We in Florida should not be an island of dreams in a sea of practicalities."

OBVIOUSLY THIS meant that Dr. Strozier was in favor of intermarriage, for don't they intermarry sometimes in the islands of the Carribean? Also, everyone knows that these damn integrationists are always talking about being practical.

Ergo: Strozier is subversive.

"I'll write him a letter," Lowry thought. "And I'll be twice as pointed and twice as direct as the critic from Polk County. Who does he think he is, anyway?"

AND HE DID write a letter In it he asked the FSU prexy three questions.

1) Are you in favor of the segregation of the races?

2) Will you take a public stand against integration in the Florida State University?

3) Will you publicly exercise your influence at FSU to inculcate in the minds of the students their responsibility to uphold the Constitution of Florida which prohibits the mixing of the races in the public schools?

ACCORDING TO the general's logic, Strozier is unfit for the position he now holds, unless he agrees to run around buttonholing students, faculty members, et al., telling them to be segregators.

Strozier will be obviously unfit, since be spends his time doing such unimportant things as trying to make FSU into a great university. He also wastes a lot of time doing administrative work and making decisions and stuff like that.

BUT THE amazing thing about the entire affair is not Lowry's attack; that was more or less expected

The surprise lies in the fact that the Florida newspapers have evidently gotten tired of the man's haranguing outbursts.

The story did not make the **Tampa Tribane**, was buried in the **Tallahassee Democrat**, and was a tiny five-incher on page two, section two of the **Florida Times-Union**.

Battin' The Breeze

Publicity Bad For Holland Now

By JACK PEACOCK

It looks as though the Republicans are going to try and pull a switch with the FCC Investigations.

Florida's two senators, Holland and Smathers, and Sen. Estes Kefauver of Tennessee are being tapped to appear before the House Sub-committee for questioning in the alleged FCC "payoffs."

All three of these senators are Democrats and anything that can be uncovered could prove quite fatal, since one of Florida's senatorial seats will be available in the next general election.

I doubt if there is a chance of a Republican getting the seat, but some of the top contenders may use the FCC as political ammunition against Sen. Holland.

• • •

In President Eisenhower's Press Conference Wednesday, he refused to comment on the FCC Investigations. Word has it that Mamie's brother-in-law may be called to testify.

• • •

The Constitutionality of Ike and Nixon's "gentlemen's agreement" on the president's disability is receiving much comment.

Rep. Sam Rayburn (D-Tex.) has already gone on the record with a contention that the agreement is illegal. Ike asid that Atty. Gen. Rogers is checking on the matter.

Frankly, I think that it is "high time" that Congress should go ahead and get that amendment passed on the disability of the president. It has been pigeon-holed for several years.

• • •

Bernard Schwartz, the man that got the FCC Investigations started, has now started opening more closet doors. This time in the CAA Civil Aeronautics Administration)

Sherman Adams, chief White House aide, has been mentioned in connection with the renewal of some North American Airlines contracts.

Schwartz says that if Adams had not talked with a CAA official the contracts would not have been approved and NAA would have gone out of business.

• • •

The Democrats, with Senate Democratic Leader Lyndon Johnson leading the "pack" have come up with their solution to the present "recession" that we are having. It is a Public Works Administration plan.

"Shades of the New Deal Era!" The only thing that seems to be interfering is that the Republicans are trying to beat the Democrats to the act.

I think that it is going to prove interesting as to just "who" will get the cussing this time. FDR took it last time.

• • •

State-wise—You can look for much to be said concerning the new Florida Constitution that is to be ratified in the forthcoming general election.

Several people are trying to get the reapportionment clause separated from the rest of the document. Others, want the whole constitution separated so that each article may be ratified separately.

Under the present situation the "package deal" type ratification could prove fatal to the whole document, since so many people disagree with the Reapportionment Clause.

• • •

Sumter Lowry, candidate for governor in the last election has joined Rep. Ray Mattox in questioning "just what Dr Strozier meant in his inaugural address."

First, this was expected. Second, Lowry is just trying to get in on the free publicity.

Recent Letters

Grandiose Display Of Indignation

LETTERS to the EDITOR

TO THE EDITOR:

Appreciation is the main point of this letter: my grateful appreciation for the antics of your recent letter-writers. Such a grandiose display of righteous indignation I have not seen for quite some time, and these particular examples have afforded me a welcome interlude of laughter.

FIRST, THERE was Jarrett's column, which was only an individual's expression of a current moral theme: God is dead, western civilization has burst apart and let us raise it again, greater and more thoughtfully constructed than before: the theme of many of Jarrett's contemporaries Not a majority of Americans today agree with his ideas, but if this campus contains no others of his type, then I would consider it the less-stimulating for that lack.

Then there was Rowland, the archetype of the current majority, even agreeing with American political mores in limiting the freedom of speech of "damned heretics" like Jarrett.

THEN KLEID, the most righteously indignant of all with his attempts to show Rowland that Christianity has no monopoly on charity: "you see, Rowland, there are lots of **other** do-gooders". And Perkins, who deplored Rowland's indignation that Jarrett could speak as he did and not receive his rightful condemnation. Perkins must not have noticed the overt encroachments on personal liberty present throughout this frightened nation, e.g., Communists cannot speak out without official retribution.

It is simply the fate of the minority in any society to be continually ostracised in one way or another. Only superb idealists such as Kleid and Perkins could actually see the situation magnified to such proportions.

But, as I said, this is only a letter of appreciation. Mr. Jarrett, please continue dissenting with the Christian majority on this campus; I enjoy their rancor, and the sputtering replies you receive.

Joyfully,
GEORGE HICKS

Rowland Answers Critics Again

TO THE EDITOR:

To my chagrin, it appears that the debate between Emmett Jarrett and me concerning religion versus agnosticism has been completely misinterpreted by several readers, notably Mr. Steve Kleid, Mr. Lawrence A. Perkins, and "A Sinister Voltairean". (Any kin to the Grand Dragon?) The reason appears obvious: these gentlemen did not follow the several arguments from the beginning. My letters were written in defense of religious beliefs in general and certainly contained no attack against specific faiths.

It is especially unfortunately that Mr. Kleid applied the term "heathen" to the Jewish faith. I do not believe his term is considered applicable to the Jews by the Christians, at least I have never heard it so applied. Mr. Kleid demonstrates an over-defensiveness certainly not typical of the Jewish people.

I do not believe the "Sinister Voltairean's" letter obligates me to answer, in as much as it contains several very obvious untruths. His allegations that people are starving in Florida are obviously ridiculous and can readily be disproved by statistics easily obtainable from the Office of the Secretary of State here in Tallahassee. Also, my previous letters contained no defense of segregation and I have neither the time, the inclination, nor the ability to debate this issue or any of the other half-dozen superfluously introduced to this debate.

As I have previously stated, Mr. Perkins, I certainly have no quarrel with anyone's religious philosophy. Also as previously stated, the original debate concerned agnosticism vs. religion, only. As for freedom of the press, that was what I was implicitly asking for when I used the term "mouthpiece". The meaning was, and I believe it was clear, that the **Flambeau** was not giving sufficient space to those collegians who do hold religious beliefs, just as most campus sheets do not.

Perhaps before these gentlemen enter another discussion they will inform themselves as to what the argument is about.

YOURS TRULY,
FRED ROWLAND.

SENATE . . .

(Continued From Page 1)

to make it read "nine absences" in any semester. The resolution would not be retroactive, Godin added.

Vice President Jan Kaminis said that in her opinion the resolution would have no effect this semester and that it would not be binding on next year's Senate.

No final action was taken.

MINOR MATTERS

Covering minor matters, the Senate:

Approved Art Albrecht for the Board of Publications and received the appointments of Tom Willard and Elinor Thompson.

Heard Senator Don Lewis report that no new mailboxes would be placed on campus in the near future.

Passed a resolution to look into the campus bus service. A committee to do this is composed of Senators Edwards, Williamson, Holt, Edgar, and Youmans.

Set up a committee to promote student government. It is Senators Bighnam, Black, Kirby, and Maon.

Asked the Day Student Senators to look into the possibilities of replacing the Day Student Men's Lounge, now being occupied by the Placement Office.

Canon Shots

Battle Of Natural Bridge Relived

By BUCKY CANON

Raise the stars and bars! Strike up the band! Every... sing Dixie!

WHY, YOU ASK? Why, Suh, yesterday was the 93rd ... versary of our last great victory over those Yankee scala...

That's right suh, we beat them right good at Natural B... when those no good Yankees tried to sneak up and ca... Tallahassee, the last unoccupied Confederate capital ea... the Mississippi.

THE BATTLE of Natural Bridge was fought on Ma... 1865. At it a hodge-podge group of Confederate soldie... pelled a group of hodge-podge Union soldiers who were att... ing to capture and occupy Tallahassee.

The battle, while not very noteworthy compared to ... gigantic struggles as Gettysburg, Vicksburg, and Chickam... is a source of pride to citizens of battle-starved Florida.

TALLAHASSEE and all of North Central Florida was hampered during most of the Civil War except for sp... guerilla fighting. Late in the war, however, the Federal ... mand at Cedar Keys decided that the capture of Talla... would help to cut off the beef and salt supply going to the ... resisting Confederate armies in Virginia and North Carol...

Consequently a force composed of a few regular ... soldiers, some Negro recruits, and Union sympathizers ... Taylor and Lafayette counties was landed at St. Marks ... house on March 4, 1665 (the same day as President Lin... "malice towards none" speech) and began to move tow... Tallahassee.

WHEN THE NEWS of the Yankee lending reached T... hassee, a group of defenders was hastily assembled. It was ... posed of furloughed soldiers, young boys, old men, and c... from the West Florida seminary (now FSU).

Led by Col. Newton of the Confederate army, the defe... rode the train to a point near Newport and prepared to d... the Natural Bridge which they rightly figured the Ya... would have to cross.

THE BATTLE began at dawn of the 6th. The Un... made several morning charges, but the rifle fire of the de... ers, ringing in a circle around the bridge, drove them back.

The Yankees tried another charge in the afternoon th... trying to come around the bridge by going upstream. Heavy ... fire repulsed this attack also.

THAT EVENING the Yankees retreated. They were c... for a while by the elated Floridians, but because of the ... woods and coming dusk, they escaped.

A victory train carried the jubilant Southerners ba... Tallahassee where they were honored with genuine coffee ... social by the women of the capital.

TWO MONTHS later on May 10, 1865, Union General Ed... McCook marched into Tallahassee with 4,000 men and ... the flag of the United States above the statehouse. The ... was over!

But Floridians can be proud of Natural Bridge. Thou... small battle (casualties didn't run much above 75), it s... Tallahassee from occupation and possible destruction.

Could It Be?

Tension Indicates Leadership Lag

By NANCY GENE BROWN

"So, first of all, let me assert my firm belief that the ... thing we have to fear is fear itself."

IT'S PRETTY hard for most of us to imagine the impact of these bold words, spoken by Franklin D. Roosevelt 25 years ago, upon the morose population of our country during the "hard times."

Anyone under 40 has to rely on second-hand information about the depression years; they say you can't imagine how tough it was. But if what we hear is true, then it stands to reason that Roosevelt's words brought a tremendous lift to broken spirits.

THERE ARE records of other cheery phrases promising impending prosperity, but nothing co... was offered. Officials seemed to be sitting back with a bi... cigar, waiting for "natural causes" to bring back a hea... national economy.

But FDR's words had a ring of validity, a promise that so... thing would be done. People across the nation could look ... ward to the future hopefully, instead of dreading even gr... economic disaster, on both the individual and national leve...

AND BIG things did happen. The administration too... dynamic lead, and Congress took the necessary action to ... the entire structure of government to meet the threat of c... plex new national problems.

Without this daring follow-through, Roosevelt's words w... have proved meaningless: the free-enterprise system would ... wiggled awhile, then died.

LOOKING AT the present, it seems that we're in a sim... situation, despite the highest living standards ever

The similarity is another crisis—this time, though, ... international tension. There's insecurity, uneasiness, and ... disquieting thought that the problem might be solved if we ... placed indecision with the utilization of the resources and b... at our disposal.

THE PRIMARY difference in the two crises seems to be ... lack of administrative action, the need for inspiration to ... store the people's confidence and to stimulate Congress to ... decisive leadership despite the traditional awkwardness of ... mass action.

Courageous action—now—could end this fear, from w... fear itself grows.

The Pontificator

Best Not Shown In Art Exhibit

By EMMETT JARRETT

We have just seen the University Art Gallery's exhib... entitled "Modern Art Tallahassee," and our reactions are mi... There is pleasure at seeing the works of some of the mo... masters on campus, and disappointment at the works the... selves, because they are not among the best of the respe... artists.

WE REALIZE THAT it is unlikely that a Tallahassee cit... would have been able to purchase and retain "Les Demois... d'Avignon," or "La Danse," but it is definitely within the rea... of possibility that the gallery could obtain works of this sta... on loan. It was interesting to observe that the most import... works in the exhibition came from the collection of Karl Ze...

Although the Picasso collage drew from us the revere... which the grand old man's work generally receives, we w... most impressed with the Leger. The work is of large prop... tions, and, unlike some of the works of the other artists re... sented, looks like a Leger. "City Character" by Jack Levine ... also a fine work, which we were grateful for the opportunity ... viewing.

IT SEEMS to us that the paintings at the exhibition m... have been selected on the basis of the name of the artist ... not the individual merit of the work itself. If this is the c... we regret it, if not, we can only deplore the fact that Tallahas... citizens are not more wealthy. Perhaps this is the function ... the leisure class in Tallahassee—to purchase works of art ... the poorer members of the society to view.

At any rate the show was appreciated by some of us ... campus and we hope that it will be seen by as many stude... as can make it over to the Seminole Club. We also fervent... hope that the exhibitions in the future will continue to impr... as they seem to be doing at this time.

Georgia Game To Jacksonville

Ben Balser

Track Strength In Running Events

The 1958 track season opened last week, and from all appearances Coach Mike Long may have one of the best teams he has had since becoming Florida State's head track coach in 1955.

The key to success in the coming season will lie in the strength that FSU has in the running events, especially the distance runs.

Four of the school records in the running events are held by men on this year's squad. Mike Conley, one of the best distance men in the state, will compete in the mile and two mile events for the Tribe.

Conley holds the school record in the mile run with a respectable time of 4:18.8. He also set the school standard in the grueling two mile event with a 10:08.5.

Doyle Ruff, a speedy junior, holds the school mark in the half mile with a 1:57.1 performance last year. Another entry in the half mile this season will be a promising sophomore, Jerry Nye.

In 1954 a frosh trackman named Jim Casteel set the school record in the quarter mile at 49.4. At the end of that year, Uncle Sam called Casteel. This season the record is still 49.4 and the man who set it is back.

Long expects Casteel to be better than before he entered the service. He came back to school last year, but was ineligible for varsity competition.

To keep in practice, Casteel entered the Florida AAU last season as an independent and ran the 440 in 49.8. Watch him closely this season.

Ted Keen, a versatile sophomore from Atlanta, should help give the thinclads considerable depth. As a freshman last season, he competed in five events.

Against the Florida frosh, Keen won all five events he entered. Long asserts that in order to develop into a top flight varsity man Keen will have to specialize in one or two events.

As it looks now, Keen will compete in the pole vault, the javelin throw and possible the 100 yard dash.

Another man to watch this year is the Seminoles' senior dash man Jack Terwilliger. Terwilliger has been a consistent high scorer in the 100 and 220 besides being anchor man in the mile relay.

While on the subject of the mile relay we might add that this year's team has already set a new school record. The team composed of Conley, Ruff, Nye and Terwilliger broke the old record in a pre-season meet at the Sugar Bowl in January.

The old record was 3:20.8 and the new record was set at 3:.. "This is the best mile relay team I have ever had and I'm expecting big things from them" said Long.

The Tribe lacks experience in most field events except the pole vault where the school record holder, Jack Elwood returns. Elwood vaulted 13-2 last year to set the mark.

"I'm hoping that the sophomores and a few of the late starters will help us in the field events," stated Long.

The late starters Long spoke of are football players Bob Nelson who will throw the discus, Bill Musselman and Floyd Lawrence who will put the shot.

Definitely weak spots this season are the high and low hurdles. Charles Watson, ace hurdler in the highs and the lows has graduated. This means Long will have to rely on sophomores to develop some other men for these events.

At the present time, Casteel is working on the lows, and according to Long is coming along alright.

Claude Grizzard is the most promising soph that is currently working out on the highs.

On Campus with Max Shulman

(By the Author of "Rally Round the Flag, Boys!" and, "Barefoot Boy with Cheek.")

SCIENCE MADE SIMPLE: NO. 2

Though this column is intended solely as a vehicle for well-tempered drollery, the makers of Marlboro have agreed to let me use this space from time to time for a short lesson in science. They are the most decent and obliging of men, the makers of Marlboro, as anyone can tell from sampling their product. Only from bounteous hearts could come such a lot to like—such filter, such flavor, such flip-top box. The filter works, the flavor pleases; the box protects. Who can resist such a winning combination? Surely not I.

Medicine can be fun!

Today let us take up the science of medicine, which was invented in 1066 by a Greek named Hippocrates. He soon gathered around him a group of devoted disciples whom he called "doctors." The reason he called them "doctors" was that they spent all their time sitting around the dock and shooting the breeze. In truth, there was little else for them to do because disease was not invented until 1477.

After that, doctors became very busy, but it must be admitted that their knowledge of medicine was lamentably meagre. They knew only one treatment—a change of climate. For example, a French doctor would send all his patients to Switzerland. A Swiss doctor, on the other hand, would send all his patients to France. By 1789 the entire population of France was living in Switzerland, and vice versa. This later became known as the Black Tom Explosion.

Not until 1924 did medicine, as we know it, come into being. In that year in the little Bavarian village of Pago-Pago an elderly physician named Winko Sigafoos discovered the hot water bottle. He was, of course, burned as a witch, but his son Lydia, disguised as a linotype, made his way to America where he invented the Mayo Brothers.

Medicine, as it is taught at your very own college, can be divided roughly into two classifications. There is internal medicine, which is the treatment of interns, and external medicine, which is the treatment of externs.

Diseases also fall into two broad categories—chronic and acute. Chronic disease is, of course, inflammation of the chron, which can be mighty painful, believe you me! Last summer my cousin Haskell was stricken with a chron attack while he was out picking up tinfoil, and it was months before the wretched boy could straighten up. In fact, even after he was cured, Haskell continued to walk around bent over double. This went on for several years before Dr. Caligari, the lovable old country practitioner who treats Haskell, discovered that Haskell had his trousers buttoned to his vest.

Two years ago Haskell had Addison's disease. (Addison, curiously enough, had Haskell's.) Poor Haskell catches everything that comes along. Lovable old Dr. Caligari once said to him, "Son, I guess you are what they call a natural born catcher."

"The joke is on you, Doc," replied Haskell. "I am a third basemen." He thereupon fell into such a fit of giggling that the doctor had to put him under sedation, where he is to this day.

But I digress. We were discussing medicine. I have now told you all I can; the rest is up to you. Go over to your med school and poke around. Bring popcorn and watch an operation. X-ray each other. Contribute to the bone bank . . . And remember, medicine can be fun!

Cagers Dump Bulldogs, 85-77 In Hoop Finale

Florida State's cagers made their final 1957-58 court appearance a winning one when they downed Georgia's Bulldogs, 85-77 Monday night.

Led by team scoring leader, Burt Deckel, the Seminoles had to come from behind to notch their ninth win against 16 losses. It was the Tribe's eighth win at home.

Georgia got off to a good start. Led by Henry Cabaniss, Gene Edmondson, and Bill Ensley, all of whom hit for double figures the Bulldogs built up a 44-36 halftime lead.

Then in the second half the Seminoles switched from their zone defense to a man to man defense and outscored the Georgians by 16 points.

Deckel and Hugh Durham started hitting and the Tribe started to roll. Deckel combined nine field goals with a 9-11 mark at the free throw line for 27 points.

Durham hit for an amazing percentage from the field, dropping in nine of 11 shots for an .818 percentage. Last year's leading scorer wound up with 22 points.

Larry Strom and Tommy Garcia who finished up their basketball playing days for FSU, against the Bulldogs, hit for a combination of 21 points. Strom dropped in 12 and Garcia nine.

Danny Boltz turned in another fine night under the boards grabbing 15 rebounds. The rugged center also broke into double figures by hitting for 12 points.

Coach Bud Kennedy now awaits next year's season as he has four of his five starters returning, Boltz, Deckel, Durham, and Jim Liteky.

FLORIDA STATE BASKETBALL STATISTICS
(Final Summary)

	FG	FT	Pts.	Avg.
Burt Deckel	163	99	425	17.00
Hugh Durham	172	124	368	15.73
Jim Liteky	96	76	268	10.72
Larry Strom	101	50	252	10.08
Danny Boltz	81	32	181	6.16
Tom Garcia	22	28	82	4.18
Jim Savare	25	15	65	2.60
Joe Westhafer	8	7	23	1.44
Bob Casteel	6	8	20	1.05
Joe Williams	5	8	16	0.94
Fred Woodward	2	2	6	3.0
Others	8	0	6	8.0
FSU TOTALS	621	447	1689	87.56
OPPONENTS	897	434	1848	73.92

Golf Tourney In 2nd Day

The Florida State golfers enter their second day of play in the 72 hole Florida Intercollegiate Golf tourney which is being held at Ocala.

The Seminoles are defending champs and have won the tourney the past two years. Today 36 holes will be played and the final 18 will be played tomorrow.

The Tribe has a six-man entry, but only the low four totals will count in final team standings. The Seminoles also have a four man entry in the freshman division.

Besides the FSU linksters, representatives from University of Florida, Stetson, Florida Southern, Rollins and Miami are competing in the tournay.

The Seminoles won last year's event with a four man total of 1,120, 18 strokes under par. Bunk Berry, now graduated, fired a 16 under par to cop individual honors last year.

The golfers nabbed their second victory Tuesday when they topped Moody Air Force Base 24-3 at the Tallahassee Country Club.

FSU junior Mel Fleisher won medal honors with a three under par 69. Sophomore Don Torppa fired a 70 for the Seminoles.

Dick Wise and Rem Noble shot identical 74's to aid the Tribe in the win. Dave Ren was low man for the Air Force with a 74.

OF COURSE...A *Lacoste*

ONE FOR STROM. Playing in his last game for the Seminoles, captain Larry Strom picked off a rebound and starts to head upcourt. Waiting to offer assistance is Burt Deckel (33).

Coach Pleased With Gridders

Florida State's sophomore-laden football team ends its third week of spring training today.

Following Wednesday's practice, coach Tom Nugent said he was "pleased" with the progress of the team, and expected an exhibition of clean hard football in the annual Garnet and Gold intra-squad game on March 20.

"They're really coming along okay," stated Nugent.

This year's edition of the Tribe will pin its hopes on a fast rising core of sophomores.

"Of the 59 players on the team, 33 are sophomores," said Nugent. "Eighteen of the first 33 are sophomores. And to bring it down even closer, 14 of the first 22 players are sophs. Of the remaining eight, five are seniors and three are juniors."

SIX TOP SOPHS

Six sophomores are currently on the first team: John Slaton, end; Bob Swoszowski, center; Royce Bryan and Joe Verbinski, tackles; Tony Romeo, end; and Ronnie Hinson, halfback. Slaton replaces Bob Fountain, who suffered a knee injury in practice.

Other first team members are: Leo Baggett, guard; Vic Prinzi, quarterback. Al Ulmer, another guard; Bobby Renn, halfback; and Floyd Lawrence fullback.

Noted by Nugent for his outstanding progress during practice was Bud Whitehead, a flashy sophomore, who was recently converted from halfback to fullback.

Whitehead now alternates with Floyd Lawrence at the power position, and at 178 pounds, has good speed and can hit hard.

Kennedy On Scouting Trip

Ivory hunting will be the main point of Basketball Coach Bud Kennedy's scouting trip to the various tournaments being held in the midwest.

The Seminole mentor, who left Tallahassee Wednesday, is seeking a tall center from one of the junior colleges along with the hope of rounding up some of the country's promising high school cagers.

Kennedy was in Madisonville, Ky., yesterday to watch the Kentucky Regionals, will be in Columbus tomorrow for the Ohio Regionals, and in Lawrence, Kansas for the first round of the NCAA.

On March 18, he will attend the National Junior College Tournament at Hutchinson, Kans., and will complete his trip at Louisville for the NCAA finals, on March 21 and 22.

This season's track schedule includes a dual meet with the Florida Gators at Gainesville. The FSU track team has met the Gators three times before. In 1955 the Seminoles beat Florida at the Florida AAU meet by a score of 51 5/8-47¾. In 1956 the Gators beat the Tribe in Gainesville 90-41 and in '57 the Gators won here 67-64.

Despite Difficulties

Baseballers Seeking Another NCAA Title

Florida State University rode a 19-8 record into the College World Series last year and if the Los Angeles Dodgers are willing, the Seminoles are determined to repeat.

Florida State won three of four games in capturing the District 3 NCAA crown at Gastonia, N.C., but fell to Penn State and Connecticut in the NCAA series at Omaha.

Earlier in the spring, Coach Danny Litwhiler remarked "there's no reason we can't be just as successful again this year — if we get the right breaks."

Then on successive "wrong breaks" the Los Angeles Dodgers professional baseball organization snapped up infielder Pfil Hunt for a figure in excess of $15,000 and signed sophomore pitcher Dennis Midgette for another nice sum.

In between those signings, sophomore outfielder Neil Martin broke an ankle and was ruled out for most of the coming season.

TWO PLATOON

However, extraordinary depth at almost every position remains an unusual feature of the FSU squad despite the losses. Litwhiler speaks in terms of a baseball "two platoon system."

"We can start a team on which every player bats right handed or one on which every player bats left handed," he said. "We could use the right handed team against a left handed pitcher and vice versa."

Pitching is the Seminoles' strongest point. The staff numbers eleven with a nucleus of five seniors who won 13 and lost only four during the regular season last year.

The five seniors are Jack Bristol (8-1 last year), Tom Garcia (3-0), Frank Slusser (2-1), Rudy Eigle (1-0), and Fred Kennay (1-2).

The stellar newcomer is sophomore Jerry Hohne, a 6 - feet, 5-inch giant who serves up a fast ball with an unusual amount of control.

With the exception of second and third base, the Seminoles have a regular returning at every infield position, including all-America shortstop Dick Howser.

Howser batted .364 and led FSU in total bases last year. He was named to the NCAA's first team all-America squad after his performance in the College World Series.

FIRST BASE BATTLE

At first base, senior Gerry Philip is back, but he'll have to work to play more than Charlie Rogers, a 6-feet, 4-inch sophomore who hit .458 with the freshmen last spring. Philip had a .356 average.

Hunt, a senior who hit .307 last season, was slated to go at second base. His loss gives centerfielder Owen McCarron and utility infielder Gene McCormick shots at the position.

McCarron, a senior who hit .353 in 24 games during 1957 and better than .400 in 1956, heads a fleet of returning outfielders that are rated better than ordinary. He may play both positions.

Dale Koch, a hard swinging right hander who batted .353 last season, and Mike Copps, who hit .292, are leading contenders in the scramble at third base.

Several sophomores including .500 hitting Bob Irwin are expected to develop as the season progresses. The two-team system Litwhiler wants will depend a lot on their development.

Florida State annually opens its season with the FSU Invitational Tourney which it has never lost. The tourney, held over the Easter vacation period, includes Notre Dame, West Virginia, Wisconsin and FSU this year.

The Tribe will meet Auburn March 19.

Thinclads Partake In Tampa Clinic

Representatives from the Florida State track team and head coach Mike Long will travel to Tampa tomorrow to take part in a track clinic sponsored by Hillsborough High School.

Eight men from the FSU team will discuss techniques involved in their individual events and then will explain how they work out. This will be followed by a question and answer period.

Jack Tarwilliger will demonstrate and speak on sprint events and Mike Conley will discuss his specialty, the mile.

The clinic is an annual affair which invites all who are interested in track and field to attend.

Both Universities Split Gate Evenly

By ALAN WHITMARSH
Flambeau Managing Editor

The athletic committee announced late Wednesday night that FSU's Oct. 11 football game with the University of Georgia will be played in the Gator Bowl in Jacksonville.

The game originally was scheduled here, as the Homecoming game.

The announcement climaxed several months of rumors that such a switch would be made. These rumors had just recently been denied by both FSU head coach Tom Nugent and athletic officials.

According to the committee, the game was shifted to Jacksonville for financial reasons. The original agreement called for Georgia to receive a $30,000 guarantee to play in Tallahassee.

SHARE EVENLY

Under the new agreement, both schools will share the Gator Bowl net receipts 50-50. The Gator Bowl has a seating capacity of 42,000, while FSU's Doak S. Campbell Stadium seats 19,000.

"Since the athletic committee made the decision, I am accord with it," Nugent said. "It presents an opportunity for us to show our football team to Florida State's ever-growing group of alumni and friends in the Jacksonville area."

Nugent pointed out the new agreement "still provides for five home games in Campbell Stadium, which allows our fans and student body their usual number of games in Tallahassee."

5 HOME GAMES

The five games slated here this fall are Tennessee Tech, Furman, Virginia Tech, Wake Forest, and Tampa. On the road, the Seminoles meet Florida, Georgia Tech, Miami, Tennessee, and Georgia.

The probability is that the Wake Forest contest will become the Homecoming game, though no official announcement of that nature has come forth from the athletic committee.

The only other game around the dates usually planned for Homecoming weekend is Virginia Tech, but since that game corresponds with Homecoming at the University of Florida, such a selection seems unlikely.

The game marks the first appearance of FSU in Jacksonville since 1948, when the Seminoles met Stetson there.

Newman Cops Bowling Crown

By JACK PEACOCK

Burning the alleys in the final two matches, Newman Club came from behind to win the Dorm-Independent Intramurals Bowling Title.

Newman Club outrolled a tough BSU team to win the title Wednesday night. BSU had won all matches in the tournament including a first round match with Newman.

After being dropped by BSU in the early rounds, Newman made a gallent comeback and outscored all other teams, including the strong Veterans.

Newman was handicapped by the lack of a man at the beginning, but was able to recruit Pat Remich to fill out their trio. Joe Gusic and Joe Faris were the starters.

Gusic wound up the tournament with the individual high game honors at 212. He was followed by Jim McFatter of the Veterans Club with a 203 high game.

GREEKS

Over in the Greek Bowling tournament, PDT is favored and met SN last night for the Greek title. Marv McClean is top scorer in the Greek league with a high of 206.

Softball is the next sport on the agenda and a meeting will be held Monday at 4 p.m. to decide on schedules and starting dates for the two divisions.

All Intramurals representatives are requested to be at this meeting.

VOLLEYBALL

Volleyball is now in the process of taking a mid-season break. Action will resume next Tuesday night.

Only one night of play was seen in the Greek Division this week. On Tuesday night SAE defeated PKA, PDT overpowered SC, SN found an easy win over TEP, PKT edged TC, and PKP racked another win by taking KS.

One night of action was cancelled in the Dorm Independent division and is re-scheduled for March 19. Wednesday night did find games being played, but forfeits ran high.

Majors defeated Newman Club. Senior Hall took a forfeit from Playboys, Vets gained a win on a BSU forfeit, and PEK forfeited to the Penthouse Gang. Magnolia was inactive.

'Good Earth' Closes

Audience Double For Movies Here

The final showing of the oscar-winning MGM movie, **"The Good Earth,"** will take place tonight at 7:30 in Wescott auditorium.

The movie, based on the prize-winning novel by Pearl Buck, will star Paul Muni, Luise Rainer, and Walter Connolly. The dramatic story concerns China's teeming millions, their struggles and hardships, and one man and his family living in a province of China.

Attendance at campus movies this year has doubled, increasing from 2535 students first semester of last year to 4821 students this year, primarily because movies are now being shown in Westcott as well as the four dorms, Florida, Landis, West, and Senior Halls

COOPERATIVE

Despite equipment trouble in Westcott and the fact that drinks, food, and smoking are prohibited, "students have been most cooperative in taking care of the auditorium, thereby showing their appreciation," said to Miss Marie Williams, Florida State University Social Director.

"Easter Parade," starring Fred Astaire and Judy Garland, will be shown the week of March 17. The black and white Irving Berlin MGM musical will feature top songs and dances. The story involves the breakup of a dance team, the male partner finding a new girl, and finally fame and fortune.

The number of movies each semester is limited by various campus activities and vacations. Although open to all students and student and faculty families, the shows are not for the general public.

Scheduled for the week of April 14 is the heart warming story of a prizefighter and his little son who idolized him, entitled "The Champ," starring Wallace Beery, Jackie Cooper, and Irene Rich.

"The Grand Hotel," another oscar-winning movie, featuring Greta Garbo, John Barrymore, Joan Crawford, Wallace Beery, and Lionel Barrymore, is coming April 28 for a week.

Within tha hustle and bustle of the famous Grand Hotel in Berlin, a dancer, a clerk, a businessman, a secretary, and a Baron spend a portion of their lives.

All movies, ordered by Miss Williams during the summer, have been classed in the top ten category. Previous to ordering, students may look over the available list of movies and request any they particularly wish to see.

The final movie of this semester, to be shown only one night because of expense, is one of the greatest pictures of all times, "All Quiet on the Western Front," featuring Lew Ayres.

The picture, which received two academy awards, will be shown May 13 in Westcott. It is a grim saga of war as seen through German eyes. Seven young boys, who enter the Imperial Army in 1914, learn fear filth, and destruction, but never losing the humor common to all armies.

STUDENT ARTIST SERIES MAY GET NEW NAME

The possibility of changing the name of the Student Artist Series, which is frequently confused with the Artist Series, was discussed at a recent Student Senate meeting.

'Many students think the two programs are one and the same," asid Sylvia Kearson, secretary of atudent events. "In reality, they are two separate functions."

In explanation, she said that although both are supported by student activity fees, the Artist Series is designed to be cultural in nature, while the Student Artist Series is based on enjoyment alone.

Programs in music, drama, and dance, such as last year's visit by the Roger Wagner Chorale, the "Best in Steinbeck" company, and the National Ballet of Canada are representative of the Artist Series, while the Fred Waring concert was a Student Artist Series presentation.

Students are urged to submit suggestions for a change in the name of the Student Artist eSries to something more distinctive by contacting Miss Kearson or any senator. Suggestions will be brought up at the next Senate meeting.

Psychology Club Symposium On Science Slated Tonight

A symposium on the unification of science will be presented by the Psychology Club at their meeting tonight at 7:30 in the Longmire auditorium.

Participating panelists will include Dr. Werner Baum of the meteorology department; Dr. Lloyd Beidler, physiology; Dr. Joel Greenspoon, psychology; Dr. Robert Miller, philosophy; and Dr. Hale Smith, anthropology. Dr. Howard Baker will moderate.

Points to be discussed include:

Is the unification of science aither possible or profitable? If so how could this best be achieved?

Would there be serious problems of communication between fields, and if so, how and by whom could they best be bandled?

What are the problems common to all scientific disciplines?

What would the effect of unification of science be on your particular field (to be discussed by each panelist)?

Give reasons, if any, why atudy of the represented fields might be propaduetic to the formulation of a unified science.

A discussion will follow the formal presentation by the panel members.

The public is invited by club officials to attend. Refreshments will be served.

Grant Enables Research Progress

The University announced today a grant from the Alfred P Sloan Foundation to enable faculty member Ernest M. Grunwald to continue his researches in physical chemistry.

The fellowship of $6300 a year for two years, beginning next September, will enable Dr. Grunwald, professor of chemistry, with the aid of assistance, to continue his studies of the mechanism of chemical reactions.

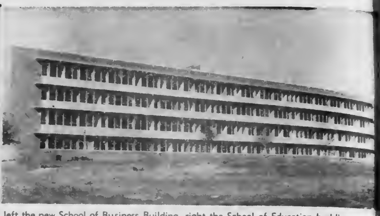
Dr. Grunwald, who joined the faculty in 1949, taught previously at Columbia University and the University of California at Los Angeles.

The grant is one of 102 being made by the Sloan Foundation to faculty members of 44 colleges and universities this year. The grants total $800,000.

Spring Fashions Keys Dame's Show

Spring fashions, with beige and apricot dominating the color scheme, will grace the Opperman stage Wednesday night, when the Dame's Club presents its annual fashion show

Chosen at a style preview Monday evening, the outfits will be modeled by Dames Club members. Fashions for the show have been donated by Mendelson's Department Store, and Alice Beauty Center is in charge of hair styles



SET FOR SPRING OCCUP ANCY are two more additions to the FSU skyline, left the new School of Business Building, right the School of Education building.

Crisis Series

Slump Has Good, Bad Signs, Speaker Tells AS Meeting

Is the present economic recession going to get worse or will business return pretty much to normal?

Dr. Robert Clarence Earnest, professor of management and finance, says that there are both good and bad signs about the present slump, but the good seems to outweigh the bad.

"It seems to me," he said in an American Studies lecture Wednesday night in Library Lecture Hall, "there probably will not be a rapid build up of the economy this year, but I feel there will be a stop to the decline."

"SHORT-RUN" PROBLEM

Appearing in a series of "Crisis 1958" lectures, Dr. Earnest spoke on challenges facing business and industry and said the most evident "short run" problem is the recession.

"Basically, it is too early to tell whether the recession is a minor one like those of 1948-49 and of 1953-54, or whether it will become a major one," he said.

"The statistical evidence so far from most indexes points to a similarity to these recessions, except that the decline has been somewhat swifter and there does not seem to be a booming segment of the economy."

An increase in unemployment of about 2,500,000 in less than six months is among the indications of the recession, but total unemployment at the moment "is probably not too significant" as a measuring atick, be asid.

Some of the "good" signs are slight indications of increased orders, increased construction by federal and state governments, the presence of "built-in stabilizers" like old age insurance and savings, business confidence, increased defense spending, stimulation of the bousing market and the fact that many firms are increasing product research.

LOSE CONFIDENCE

Bad signs include the fact that as of mid-February, the recession was still worsening "and if that keeps up there is a possible loss of confidence." The serious overcapacity in certain industries and the fact that while inventories have been reduced, they are atill high in certain lines, are also bad signs

Dr. Earnest mentioned also several "long run" problems facing business and industry.

Among them are inflation, which exists even while there is a recession, world trade and aid to under-developed countries; "big versus little government"; distribution of industry and population between regions of the country; labor-management, small business, the shortage of qualified personnel, and "the philosophy toward business, which has been a favorite whipping boy of politicians, some intellectuals, labor and other units of society"

RETARDS SHIFTS

One of the effects of inflation, said Dr. Earnest, is that "it retards desirable shifts of resources from one section of the country to another.

Company X might want to mova to Florida because of the climate and availability of resources, but it might be forced into a decision not to move because of the costs involved in a new plant and new organization."

The problem of qualified personnel probably is a greater one for business and industry than it is for science, where so much is heard about a shortage of personnel, he declared.

The shortage is blamed by some on the educational system and by othera on "the outlook of the individual, whose interest primarily is security, not responsibility, in leisure time more than overtime," he said.

Herndon To Discuss Poetry For Coffee Hour Gathering

Although many people think of the 18th century as an age of prose, it was also an age of poetry.

Dr. Sarah Herndon of the English faculty at Florida State University will discuss some of the "most highly regarded and widely read poetry" of the era in England at the English Coffee Hour this afternoon, beginning at 4 p.m. in Westminster House.

The professor will read selections from Pope, Swift, Cowper, Thomson and Gray in making some of ber points, and she will also point out differences between English poetry of the 18tb and 20th centuries

"Poetry was like the conversation of the age in showing restraint. It was not emotional orgies as it often is today," she said.

Dr. Herndon said that 18th century poetry was intended for an audience, and not for an individual to take off in a corner by himself. She stressed that the now dead poets were gentlemen, and began writing for a small aristocratic audience which soon grew.

In writing poetry two centuries ago, the literary men were primarily concerned with "good taste", just as they were in conversation, according to the professor, and in writing to please their audience they presented stories and character studies, sometimes narrative poems. "They also complimented a friend or commented on a bappening in poetry."

The 18th century poets were interested in genaralities instead of the unusual, in normal people, sometimes types, but not odd-balls, and they were objective rather than aubjective, said Dr. Herndon.

The public is invited to this social-literary bour.

Placement Office Interviews Slate

Placement Office Senior Job Interview Schedule for Week of March 10th through 14th:

Monday, March 10 — Royal Globe Insurance Group.

Wednesday, March 12 — Citizens and Southern National Bank. Interested in interviewing both men and women who want to make banking a career in one of the banks throughout Georgia.

Shell Oil Company. Interviewing Sales and Accountants

US Immigration and Naturalization Service. A representative will be in the Placement Office at 2 p.m. for a group meeting. He would like to talk with anyone interested in Border Patrol.

Thursday, March 13 — Shell Oil Company. Interviewing Sales and Accountants. Uarco, Inc. Sales Representative for Business forms. Arthur Andersen and Company. Accountants.

Friday, March 14—Uarco, Inc. Sales Representatives for Business forms Arthur Andersen and Company. Accountants.

Davison-Paxon Company interviewing students who will receive degrees in retailing, marketing, home economics, business administration and liberal arts.

Board of Education of the City of Atlanta Teaching positions

Shorts Committee Stresses 'Taste'

The fact that "there is no regulation or law at FSU which prohibits women students from wearing bermuda shorts" was the chief point of the committee to study the bermuda issue's report in the Senate Wednesday.

Senator Ronnie Clark, who made the report, said however, "there is a well established standard of good taste" which states that the bermudas should only be worn for sports or recreational events.

Clark stated that women who violated the standard were not aubject to a penalty or loss of freedom, but that they failed to represent the university at its best.

Broward Sets Tea

Broward Hall has announced its annual faculty tea. The tea is scheduled for next Thursday, from 4 30 'til 6 p.m. in the parlor of Broward.

The faculty tea committee under the direction of Deanna Morris, social chairman, is made up of Susie Blackburn, Noel Richards, Rita Garnet—tea committee chairman, Helen Monrose and Mary Ann Adams. These girls and their committees have been busy preparing for this occasion.

Miss Morris announced that the Broward girls cordially invite all members of the faculty and their friends to attend.

Traffic Group Seeks Control Of Entrances

The atudent-faculty traffic committee, concerned with congestion on campus, Tuesday beard a plan presented for controlling campus entrances.

Dr. R. R. Oglesby, dean of students, attended the meeting to give a special report on the controlled entrance plan. He said that under this plan several entrances would be controlled by a policeman, with only those with special permits being allowed on campus.

"One such area would possibly be the Westcott entrance," he said, and added that several universities which he bad visited operated under such a plan and found it very successful.

Among these were The University of Kansas, The University of Texas and The University of Oklahoma.

The committee announced that it would consider this plan as a possible aolution to the traffic problem, but would like to study similar plans in otber universities before any decision was reached

Special problems concerning the reserved parking spaces for the handicapped were discussed.

Mr. Jerry Jones, director of auxiliary units, advocated elimination of two color stickers for members of the same group. However, the committee made no decision on this.

The next meeting of the traffic committee will be in two weeks at which time members will discuss Dean Oglesby's suggestion.

Oswald Wanders

Lost—one pet frog. Reward—$150—for the return of a frog which answers to the name of Oswald.

Description — green, splotchy, slimey and he croaks loudly when irritated. Owner claims he jumps 3½ feet.

If located, contact his owner for the reward. See the poster on the Post Office bulletin board for further details.

Starting March 18

Interviews Schedule[d] For Counselor Posts

Camp directors will be on FSU campus to interview men [and] women students who are interested in aummer positions [as] counselors, starting March 18, according to Dr. Mary V. A[lex]ander, director, FSU Camp Placement Service.

CAMP INKY

Camp Inky, a Girl Scout Camp near Pensacola, will have a representative here March 8, and will begin interviewing women at 9.30 a.m. Students interested ahould sign up on the camp placement bulletin board in the women's gym.

Men students who would like to be interviewed for a position at Camp Sequoyah, Meaverville, N. C., should also check the bulletin board in the women's gym. C. Walton Johnson, director, will be here on March 21 and 22.

The director of Camp Nebagamon for Boys, Lake Nebagamon, Wisconsin, will be here March 31 and April 1 to interview men for camp positions.

These camps are seeking atudents to fill the position of business manager, unit leader, unit counselor, waterfront director, canoeing instructor, and cook

Military Ball And Tarpon Show Highlight Weekend Activities

By RUTH FRITCHIE
Flambeau Society Editor

The biggest social events on campus this weekend are the Military Ball and the Tarpon show, but there are also a number of smaller events to keep the social merry-go-round whirling.

The Arnold Air Society, Air ROTC honorary and Scabbard and Blade Army ROTC honorary, will turn the Men's Gym into a land of enchantment for the annual Military Ball. The Dorsey Band will furnish music for the members of University ROTC and their guests.

Tarpon Club's annual production is based on Mexirama theme this year. The water festival, which is sold out for tonight and tomorrow night, will be presented also Monday and Tuesday evenings at 8:15 p.m.

• • •

The twenty new initiates of Pi Beta Phi were honored at a banquet Monday night. Kay ... was named best pledge and presented with a sterling bracelet. Yvonne Olliphant received the pledge scholarship award for a 3.7 average.

Now wearing the Pi Phi arrow are Linda Coston, Jane Pamelee, Cynthia Tichenor, ... Newsome, Helen Traylor, Karen Shanor, Lynn Williams, Majorie Blackenship, Judy McMillan, Brenda McCampbell.

Also Judy Clair Milton, Jo Ann Sory, Carol Poppengor, Marilyn Wiseheart Litle, Mary White, Kay Wright, Glenda Powers, Pris Wand, Kitty Wade, and Yvonne Olliphant.

• • •

The KAs were hosts to the Pi Phis at a spaghetti supper last night. The KAs were pleased to have Mr Geoffry O'Hara, a prominant composer, as their guest at a Saturday morning practice session before Campus Sing. Mr. O'Hara entertained the group with several of his songs, and gave helpful hints which aided the KAs in reaching the Sing finals.

• • •

Recently the AOPi pledge class surprised the actives with a "retribution night." The actives exchanged statues with the pledges for the evening, performina skits suggested by the pledges as well as regular pledge duties.

The Alpha Xi Deltas have been enjoying several parties recently. Among these was a party with the Kappa Sigmas. The Kappa Sigs entertained the girls with a skit, a take-off on a Shakespearian theater.

Wednesday night the Alpha Xis attended a Supressed Desire party at the **Sigma Chi** house. Costumes ranging from models, airline hostesses, clowns, cigarette girls, painters, tourists, and even a devil were in attendance.

Music by the Devilaries rounded out the fun-filled party.

Mrs. Texas Campbell, national president of **Kappa Delta** was a special guest of the Kappa Alpha chapter of Kappa Delta last Tuesday.

A pledging service for nine girls from Valdosta State College, Valdosta, Georgia, was the occasion of Mrs. Campbell's visit. VSC has had a colony in the past and their petition for a **KD** charter was recently approved.

Kappa Alpha chapter at FSU was asked by the National Council to conduct the pledging service for these girls. Mrs. Campbell assisted Nancy Key, local president, in the ceremony and presented the new pledges with their first degree pledge pins.

Flambeau Photo by Alan David

STUDENT PARTY Chairman Mattox Hair and Student Senators Diane Godin and Ronnie Clark chat at Student Party Reception Wednesday. Over 250 students were in attendance.

Church News

Many Groups Choose Officers

By ANNETTE McINTOSH

The **Wesley Foundation** plans to initiate its new officers and council members at the 11 a.m. church service on Sunday.

Congratulations are in order for the following people: Barbara Essey, president; Dottie Hatton, vice-president; Nancy Worrall, recording secretary; Mary Louise Edwards, attendance secretary; Carl Oakley, treasurer, and Jack Geisler, recording treasurer.

The old and new officers will depart from the Foundation on Saturday at 9 a.m. for a day at Wakulla Springs, one which will include evaluation of office duties, as well as luncheon, swimming, and sunning.

• • •

The **Lutheran Student Association** also announces election of new officers, as follows: Susan Fields, president; Martha Fesperman, vice-president, Nancy Matylas, recording secretary; Angela Ambrosini, Lutheran student action secretary; Harriet Anderson, treasurer.

At this same meeting the by-laws to the Constitution were also passed.

On Sunday a panel discussion on the subject, "What Is A Christian?", will be led by Nancy Matylas. Devotions will be conducted by Martha Anderson.

• • •

At the Catholic Student Center election of next year's officers will take place on Sunday at 7 p.m.

Nominations are as follows: Pat Mullen, president; Dick Fenton and Bill Westendick, first vice-president; Cree Ann Kearns, Barbara Toney and Barbara Fappiano, second vice-president; Jim Seaglione and Pat Packler, treasurer; and Pat Packler and Beth Mueller, recording secretary.

Georgiana Jaynes and Charlotte Beckley, corresponding secretary; Pat Batal, parliamentarian; Herb Gould and Anna Claire Flynn, freshmen adviser. The floor will be open for further nominations Sunday evening.

A St. Patrick's Day Dance will be held at the Catholic Student Center on Friday, and all are invited to attend and bring friends.

Plans are being made to attend the Southeastern Province Convention, which will be held at Columbia, South Carolina, from March 21-24. Anyone interested in attending may contact the Catholic Student Center to inquire about transportation.

• • •

Mr. Richard Fallon will speak Sunday night to the Canterbury group at **Ruge Hall** on "The Religious Significance of Contemporary Drama," and will lead a discussion following his talk. Canterbury Hour begins at 6:15 p.m., preceded by Evening Prayer at 6.

Sunday morning services in the Chapel of the Resurrection this week are as follows: 8 a.m., Holy Communion; 9:30 and 11, Morning Prayer and sermon.

• • •

The **Westminster Fellowship** will observe its regularly scheduled services this week: Sunday—9:45 a.m., Sunday school; 11 a.m., church; 5:45 p.m., supper and fellowship at the First Presbyterian Church. Tuesday—9:30 p.m., devotions at the Westminster House. Thursday—5:30 p.m., Theology Hour at the Westminster House.

• • •

Gamma Delta, Lutheran Student Organization, will hold a regular business and topic meeting following a cost supper at 5 p.m. at the Epiphany Lutheran Church.

John Leese will lead a discussion continuing the Gamma Delta study of the "Bible in a Scientific Age."

The **Inter-Varsity Christian** Christian Fellowship will hold its meetings at a new time: members eat at the Seminole Club at 6 p.m. on Tuesday, then meet in the small lounge, second floor, Longmire, at 7 p.m.

ENGAGEMENTS

GAY-ROPER

Evelyn Gay, a home economics major from Lakeland, is engaged to H. Lee Roper, an accounting major at Louisiana Polytechnical Institute.

Miss Gay and Mr. Roper, from Tallulah, Louisiana, both seniors, are planning a summer wedding.

MAY-WARD

Jean May, a junior education major, is engaged to a former FSU student, Charlie Ward.

Miss May, from Miami, is a member of Pi Beta Phi sorority. Mr. Ward, who presently is employed with Home Insurance Co., Atlant, is a member of Sigma Alpha Epsilon fraternity.

Illness Postpones Collins Recitol

The Richard Collins' recital scheduled for tonight has been postponed indefinitely due to the baritone's illness.

Social Calendar

FRIDAY, MARCH 7

12 noon-5 p.m. Future Business Leaders of America Convention. Trophy Room and Geology Auditorium.

3 p.m. Concert. The Dorsey Brothers Band. Westcott Auditorium.

8 p.m. Tarpon Production. Pool, Women's Gym.

9 p.m. Military Ball. Men's Gymnasium.

SATURDAY, MARCH 8

6:30 p.m. FBLA Convention Banquet. Speaker will be Dr. R. R. Oglesby, Dean of Students. Suwannee Room.

8 p.m. Tarpon Production. Pool, Women's Gym.

Why People Wear Clothes

By ELINOR THOMPSON

Two difficult questions, according to Dr. Lewis M. Killian, professor of sociology, are the question of why we wear clothes at all, and why our taste in clothes changes constantly.

Dr Killian discussed these questions among others in a talk initiating Fashion Day yesterday morning in Longmire auditorium.

"Women are slaves to fashion for two reasons," Dr Killian quoted from **Fortune** magazine. "The reasons are first, because they want to look like other women, and second because they want to look different from other women."

REASONS FOR CLOTHES

However, he pointed out that the most obvious reason why we wear clothes at all—for protection and modesty—are assigned little importance by students of the psychology of clothing.

"Biological protection does not seem to be the fundamental motive for wearing clothing," Dr. Killian said. He explained that although we claim to wear clothing for protection, many primitive peoples, just as human as we are, wear virtually no clothes.

"The case for an innate sense of modesty as an explanation for wearing clothes can easily be demolished also," he brought out.

Standards of modesty are matters of social definition, not of biological impulse, according to the professor.

FOR ORNAMENTATION

Clothing originated as a form of ornamentation," Dr. Killian said. "And although we know very well that clothes do not make the man, we still judge the man or the women by the clothes," he said.

"Differentiation, the achievement of individual and group distinction, is the essential dynamic force involved," he explained. Explaining the differences between fads and fashions, Dr. Killian noted, "The fad can best be differentiated from fashion on the basis of its origin in groups with lesser prestige, lower socio-economic status, than the groups which originate fashions.

MOTIVES OF CONSUMERS

Dr. Killian analyzed the motives of consumers as being utilitarian, aesthetic, and prestige, the motives of the producers being economic, and the motives of designers being principally aesthetic. "In the last analysis," he said, "the designer is an educator who teaches us what to regard as good taste."

Other speakers during the day were Mrs Jane Stewart Denton, manager of the Public Relation Department of E. I. duPont de Nemours and Company; Frederic Bohrman, art director of Rich's Inc. in Atlanta, and W. J. P. Smith, former general manager of Ohrbach's.

Special interest seminars were conducted by Miss Ann Kirn, William R. Slaughter, and Dr. W. G. Shover.

Sharp Chosen Sig Ep Prexy

Newly installed Sigma Phi Epsilon officers for the coming year are: Larry Sharp, president; Fred Korzan, vice president; Ralph Mazur, comptroller; Glenn Scambler, historian; Dennis Nickle, secretary; John Heaton, senior marshal; Rudy Signorelli, junior marshal; and Dick Hutchinson, guard.

Initiation was held last Sunday. The newly initiated members include Vern Goaney, Richard 'Dick' Hutchinson, and Glenn Scambler.

New pledges of Sigma Phi Epsilon fort his semester are: Bob Bergen, John Davis, Tommy Goodwin, Travis Hankins, J. B. Halley, Roy Johnson, Raul Robles, and Leslie Swain.

FSU School Inspected

J-School Evaluations May Bring Consolidation

By CHARLES GUTHRIE

A consolidation of the Florida State University School of Journalism and the University of Florida School with the one school to be located in Gainesville, may be a possible result of an evaluation recently made of the FSU school, says Myron Blee of the Board of Control Office.

The evaluation, made of the FSU school and now being made of the Journalism School at the U of F, is being made at the request of the Board of Control.

MEETING NEED?

The study being conducted is to see if journalism education in Florida universities is meeting the needs of mass media. "Do the schools have as many courses as needed," and "do they have too many," are two of the questions being analyzed by the evaluating committee.

Making this evaluation are three prominent men in the journalism field. They are:

Dr. Ralph D. Casey, retiring director of the School of Journalism at the University of Minnesota; Herbert Brucker, writer of several articles for the "Saturday Review of Literature" and editor of a daily newspaper in Hartford, Conn.; and Dr. N. N Luxon of the School of Journalism at the University of North Carolina.

SELECTED BY BOARD

These men were selected from nominations received from deans of accredited schools of journalism over the nation. The nominations were submitted to the Board of Control and voted upon.

No conclusions have been reached by the evaluating committee, as they are at present studying the University of Florida's journalism program. A report will be made to the Board in their April or May meeting.

SCHOOL AT TAMPA?

Speculation that a School of Journalism, consolidating both the FSU and the U of F schools may be established at the new University of South Florida at Tampa, is not valid for the foreseeable future, says Blee.

"It will be a number of years before the new University will be ready to establish a School of Journalism," Blee said. The new university site is thought to be an ideal place for a consolidated school if there is to be only one in the state.

Herbert Brucker of the investigating committee has been invited to India, along with other prominent newspaper men in the United States, to study that country's economic situation. The trip will be next November or December.

NATURAL BRIDGE 'WAR' TO BE COMMEMORATED

A ceremony commemorating the Battle of Natural Bridge which was fought on March 6, 1865, will take place Sunday at 3 p.m. in the Natural Bridge Park.

A select group of Army and Air Force ROTC cadets from Florida State University will mark the antics of 25 of their forebearers, cadets of FSU's predecessor, West Florida Seminary, as they assisted in the defeat of Union forces.

UDC SPONSORS

The Anna Jackson Chapter of the United Daughters of the Confederacy is sponsoring the Sunday program which is to include advance of the colors by the Army and Air Force ROTC color guard, the pledge of allegiance and salute to the flag, led by Kappa Alpha fraternity; invocation, quartette by the KA's remarks by Col. Howard J. Withycombe, professor of air science at FSU; laying of a memorial cross by Susan Hayden for Children of the Confederacy; Honor Guard and taps and salute by Army and Air Force ROTC cadets.

Last year's FSU ROTC units were presented with battle streamers for their colors for the services of their predecessors. The presentation was made by Governor Leroy Collins and Secretary of State R.A. Gray.

On March 5, 1865, the 25 cadets of the Seminary, accompanied by Brigadier General William Miller, proceeded to Natural Bridge on the St. Marks River and assisted in the successful resistance of a Union force in their attempt to cross the river on March 6.

The force was repulsed after repeated attacks and finally retreated to their ships near St. Marks Light and re-embarked.

SCHOOL SPIRIT?

In his report of the engagement, General Miller states: "I cannot too highly commend the spirit with which the Militia, from boys of 14 to men of 70, came to the defense of their country and bore with patient endurance a long night's march. Their bravery needs no comment."

Yeager Elected Cavaliers Prexy

Wallace Yeager was elected president of Cavaliers, campus dance organization, at their last meeting.

The group announced that beginning next Tuesday, it is offering free dance lessons, starting at 8 p.m.

The lessons will be held every Tuesday and Thursday night for four weeks.

Other officers elected were Jim Gilliard, vice-president, Arnold Abramson, secretary, Tom Ramsey, treasurer, Jack Hurley, social chairman, and Richard Bynum, librarian-historian.

Latin-American Meet Opens Here Today

Florida State University will be host this weekend to university representatives from all over the Southeast for a two day discussion of Latin American Studies.

According to Dr. Charles Arnade, assistant professor of history at FSU and chairman for the fifth annual meeting of the Southeastern Conference on Latin American Studies, the discussions will be held in the Lecture Hall of the Library today and tomorrow.

MERITS AND PROBLEMS

The topic of the discussions will be "The Merits and Problems of Teaching Latin American history." The public is invited.

The program will open with this morning's session at 9:30, which will be led by Dr. Donald Worcester of the University of Florida with Dr. Ethel Marshall of Alabama College as discussant.

Also featured on the panel are Dr. John Saunders of Mississippi State College (sociology), Dr. Graydon Deland of FSU (Portuguese), Dr. Philip B Taylor of Tulane University (political science), Dr. Stogan A. Bayitch of University of Miami (law) and Dr. Delbert Sterrett of Florida (music).

CAMPBELL LEADS

Friday afternoon's session, beginning at 1:30 will have Dr. Margaret Campbell of FSU as chairman and Dr. Richard Surdoch of University of Georgia as discussant. Also taking part in the afternoon session will be Dr. Bierch of University of North Carolina (history), Dean Hubert Mate of University of Alabama (Spanish), Dr. David Ross of FSU (economics), Dr. Ralph Boggs of Miami (folklore) and Dr. James Swain of University of Tennessee (literature).

Speaking at the banquet Friday night in the Student Center will be Dr. Harry Stark of the University of Miami. Dr. Stark has just returned from a Fulbright grant study of Argentina and will speak on "The Economic Problems of Post-Peron Argentina."

LAST EVENT

Winding up the discussions at the 8:30 Saturday morning session will be Dr. Alfred Thomas of Alabama as chairman and Dr. Walter Payne of Florida as discussant. Also participating are Dr. Emilo Willems of Vanderbilt University (anthropology), Dr. Raymond Crist of Florida (geography), Dr. Benjamin Rogers of FSU (history of the Americas) and Dr Adam Szaszdi of Inter-American University in Puerto Rico (Latin American studies in Puerto Rico).

Pat Mickler, Diane Godin

Two Women Senators To Attend IAWS Meet

Florida State University's distaff side will be represented at the Southern Regional Conference of the Intercollegiate Association of Women Students March 14-17, in Dallas, Texas.

Pat Mickler and Diane Godwin were selected by vote of Women's Senate to attend this meeting of Southern college and university women who are participants in campus government.

AT SMU

They will fly to Dallas, where Southern Methodist University will be hostess school for the three day meet.

Purpose of the conference, according to Senator Mickler, is to share information with other groups and to get more women interested in student government.

Senator Mickler says that FSU's women student group ranks as one of the best in the South in its influence on university affairs and its activeness.

"Women at FSU have a lot to say in student affairs and hold many important jobs on campus, as this year, student body vice-president, and newspaper and yearbook editorships," she explains.

The same three-fold goal of "informing, inspiring and interesting" is the aim of the State IAWS meet, to be held on the FSU campus, currently in the planning stage.

15 SCHOOLS

FSU's women senators have invited some 15 Florida schools to send delegates to Tallahassee April 11 and 12.

They hope to "sell" these delegates on active participation in government on their own campus and in this intercollegiate group.

Senator Ada Leigh Wall heads the committee planning the overall program of discussion groups, workshops, speakers, and entertainment.

Women's Senate is in the process of suggesting revision of "Knowledge for College," a booklet which sets forth University regulations in regard to women students.

MICKLER TO EDIT

Senator Mickler is in charge of next year's publication. She has written to 20 co-ed institutions of about the same size as FSU, including the Universities of Southern California, Miami, Minnesota, Georgia, Florida and Kentucky for information on their women's rules.

All of these schools, Senator Mickler said, have respo... and some asked for such ... about FSU.

This will give the group ... sidering revision of wom... rules a picture of how ... are done elsewhere, an a... evaluating the present FSU ... tems.

POLITICAL CONVENTION SLATED NEXT WEEK

Several battles for party nominations should make the St... Party convention Tuesday evening most exciting, Mattox ... party chairman told the **Flambeau** in an interview.

An especially close race is expected between Diane Godin ... Ada Leigh Wall who are vying for the nomination for Women's Vice President.

Both women are student senators and both have been actively rounding up the support of the delegates all week, Hair said.

A three way battle for the Men's Vice Presidential nod is shaping up, Hair announced. The three candidates are Ramon Arnold, Sophomore Class president, Jim Apthorp, student senator, and Don Ramsden, former Theta Chi president.

DELEGATES CHOSEN

Almost all of the delegates to the convention have already been chosen Hair told the **Flambeau.** Fraternities, sororities, and dormitories have already selected delegates and the day students are in the process of doing so now.

The day student delegation, with 20 votes, will be a powerful factor in convention voting. Next largest is West Hall with 11 delegates. Jim DeHaven and John Van Beck head the respective delegations.

Approximately 125 voting delegates are expected at the convention, Hair said He added that he expected twice that number or better to marke the total attendance

The convention will be Tuesday in 124 Science.

A loyalty banquet will precede the convention, Hair said. It will be held in the Suwannee Room at 6 p. m. Tickets are $1.25 apiece and can be purchased at the Westcott ticket booth.

A prominent speaker will address the banquet, Hair tol... Flambeau, and Student ... President Arnold Greenfield ... keynote the convention.

CHAIRMEN DISCUSS PLANS. Gerry Gordon (right), outgoing chairman of the Collegiate Party, discusses future plans with Tichenor, who will be elected vice-chairman at tomorrow night. Bruce Brown is in line for chairman.

Ten Seniors Named To Hall Of Fame

Ten seniors have been chosen by a student-faculty committee for membership in the Hall of Fame, it was announced today.

The ten are Joyce Weatherup, Bouder, Barbara Chambers, "Torchy" Briscoe, Martha Grizzard, Linda Broderick, Jan Kaminis, Arnold Greenfield, Bill Fullom, and Bob Johnson.

Serving on the Hall of Fame committee were Dean of Women Warren, Dean of Men Loucks, Dean of Students R. R. Oglesby, and six students Gerry Gordon, Pat Fin-, Barbara Eissey, Dessie Pickard, and Evie Morris, with Knight as chairman.

The selections were made on the basis of outstanding participation in several areas of student activities, including organizations, athletics, drama, music, and scholarship. These were divided into major and minor classifications, with points awarded on the basis of participation.

All the women chosen are members of Mortarboard and Garnet Key, women's honorary. Miss Weatherup has been active in Student Government, and is Secretary of Honor in the cabinet of the student body president.

Miss Bouder, who has achieved an outstanding scholastic average, has also participated actively in the Home Economics honorary.

Miss Chambers has taken part in dramatic productions. Miss Briscoe is active in the Presbyterian student group, and also has high scholastic achievements.

Miss Grizzard, who is president of her sorority, is also serving as chairman of Judiciary. Miss Broderick is active in the University Recreation Association.

Miss Kaminis, who has held various student government positions, is presently serving as vice president of the student body.

Greenfield, the student body president, has taken part in university forensics, as well as being a member of Omicron Delta Kappa and Gold Key.

Fullom, also a member of Gold Key, is president of ODK, and has been active in student government and varsity athletics.

Johnson's selection was on the basis of military and student government work. He is presently secretary of organizations in the president's cabinet, and is a member of ODK and Gold Key.

Ticket Sales For 'Yankees' Open Friday

Tickets for "Damn Yankees" go on sale this Friday at 8:30 a.m. in the Westcott Ticket Office.

According to Director of Special Events Kathryn Vernon, tickets will be available to students for $2 with activity coupon 15. The performance of the current Broadway musical comedy is set for Thursday night, March 27 in Westcott.

"Damn Yankees" is being brought to FSU by the Broadway Theater Alliance, Inc., the same group which presented "No Time for Sergeants" last month. The story stems from the grudge of a Washington baseball fan for the New York American League ball team called the Yankees.

The story is taken from Douglass Wallop's novel, "The Year the Yankees Lost the Pennant." The comedy tells of the deep grief of a middle-aged real estate man everytime the Washington Senators lose a game.

As in the old Faust legend, Lucifer offers the man a chance to become a young man again, not for Faust's romantic reasons, but so he can lead the Washington Senators to a pennant over the hated Yankees. When the fellow accepts the Satanic offer, he gives up his own soul.

"Damn Yankees" has been named "Best Musical Comedy of the Year" and the production with the "Best Musical Score." Many hit tunes are featured like "Whatever Lola Wants," "You've Gotta Have Heart," and "Two Lost Souls."

MILITARY BALL QUEEN Rita Nelms, named at the annual affair last Friday night.

Three Parties Slate Meets This Week

The first of three party conventions to be held this week, that of the Student Party, will begin at 7 p.m. tonight in 124 Science.

The House chamber of the State Capitol will be the scene of the Collegiate Party's convention tomorrow night at 7.

Officials of the newly formed University Party announced yesterday that their convention definitely would be held Thursday night at 7 in 120 Geology.

Dr. Robert M. Strozier, president of the university, will be the guest of honor at the Student Party banquet preceding the convention. The banquet begins at 6 p.m. tonight, party chairman Mattox Hair said Tickets are $1.25 apiece.

Several close battles for the party's nomination are expected to mark the Student convention. Chief among these are the races for men's and women's vice president.

Women's vice president candidates are Diane Godin and Ada Leigh Wall Men's veep candidates are Ramon Arnold, Don Ramsden, and Jim Apthrop.

Art Moore, independent candidate for president of the student body, has said that he will seek both Student and Collegiate endorsements. Both party chairmen have said that they expect Moore to receive their endorsements, barring last minute developments.

Buck Bryan, following an Honor Court tradition, will seek the endorsements of the two parties for his candidacy for chief justice of Honor Court.

Ronnie Clark is expected to succeed Hair as Student Party chairman and Jackie Soud is expected to be elected vice chairman, a party official said yesterday.

A motorcade, beginning at the Westcott Building and heading to the Capitol, will precede the Collegiate convention. Chairman Gerry Gordon announced The motorcade will begin at 6:30 tomorrow evening.

Gordon said that he expects a "full house" attendance. Gordon is slated to get the Collegiate nomination to oppose Hair for student body vice president. Bruce Brown and Kip Tichenor are probable designates for the party chairmanship and vice chairmanship.

"The delegates themselves will select the nominees of our party," Gene Caruthers of the University Party said in answer to numerous queries as to who the party would run.

Deadline Next Tuesday

Candidates Should Begin Filing For Student Body Elections

Candidates for office in the coming student body elections should begin filing their applications today, according to Sandra Rosenberg, student secretary of elections.

The declarations of candidacy, which must be made by next Tuesday, may be filed with the Elections Committee in 208 Longmire Forms for the declarations may be obtained at the Longmire Director's office.

APRIL FOOLS

The elections, which will be held on April 1, will be for offices elected by the student body as a whole Class and senatorial races will come later in the spring.

All candidates must file expense estimates with the Elections Committee by Tuesday, March 25 at 5 p.m. Only those who are elected will be required to file final expense accounts after the elections.

All candidates for major offices will be required to have achieved a 2.3 scholastic average for the semester preceding their election, or else have maintained a 2.3 overall.

Candidates for president of the University Recreation Association, the only minor office at stake in the first election, are required to have maintained either a 2.0 overall or 2.0 for the preceding semester

ACTIVE CAMPAIGNS

Active campaigning will begin March 25 at 5 p.m. Election posters are to be placed only on designated bulletin boards, with a limit of one poster per side. Posters are limited to 15x17 inches in area.

A candidate may withdraw his declaration of candidacy at any time prior to noon, Thursday, March 27. After that time his name will be put on the ballot.

Any student wishing to change the office for which he would like to run must do so by 5 p.m. March 18, according to Miss Rosenberg. No student may declare candidacy for more than one office at any given time.

LIST OFFICES

Offices which will come up for election will be: student body president and vice-president, men's vice-president, women's vice-president, secretary of Senate, chief justice of Honor Court.

Clerk of Honor Court, chairman of University Court (judiciary), chairman of Traffic Court and three members of the Board of Student Publications.

Anyone desiring additional information on the coming elections may contact Miss Rosenberg in 208 Longmire from 2 to 4:30 p.m. on Tuesday or Thursday afternoons.

BAND CONCERT TONIGHT FEATURES CARTER PIECE

Tonight's Symphonic Band concert, to be held in Westcott at 8:15 p.m., will feature a composition of Charles Carter, who teaches on the faculty of FSU's School of Music.

Manley Whitcomb will conduct 85 pieces in eight numbers, one of which will be the debut performance of music instructor Charles Carter's "Concert Piece for Band," an unpublished composition.

Carter has had several pieces for high school band work published, among them "Motet for Band," "Classical Overture," "Metropolis," and "Little Corral and Fugue."

FOR COLLEGE BANDS

He has also composed music for college band use, "Tension Overture," "Symphonia," and "Concert Piece for Band." These works are in manuscript form.

Carter has arranged music for the Marching Chiefs for the last five years.

Other music programmed is also of recent composition, making the concert what Director Whitcomb terms "experimental."

"March With Trumpets," by William Bergsma, will lead off the program. Commissioned in honor of the late Dr. Edwin Franko Goldman, once director of the Goldman Band of New York City, the composition was completed in 1957. Bergsma has also written an opera, two symphonies, and several other varied works.

1932 SCOTCH

Next on the program will be Ottorino Respighi's "Huntingtower Ballad," inspired by castle in Scotland where the composer spent some time. It was written for the American Bandmasters' Association in 1932.

Carter's composition will be played next, followed by Joseph Willcox Jenkins' "American Overture for Band," a featured work of Major Whiting's Army Field Forces Band since its completion in 1955.

After an intermission, Vincent Persichetti's "Pageant" will be performed, directed by Richard D. Mayo, guest conductor. This work, completed in 1953 for the American Band Masters Association, opens with a slow horn composition which is repeated often throughout the piece. This theme is later brought to a climax with a snare drum "parade" motif.

"Hill Song No. 2," by Percy Grainger, comes next. The composer made the following comment in introducing this work at a public concert: "I never could stand civilization. I have always preferred the wild people of the hill countries."

FOLK REFLECTION

"Shoonthree," the number scheduled next, was written by Henry Cowell, considered a pioneer in the field of American concert band music. Cowell uses a great deal of folk music in his compositions, as can be distinguished in "Shoonthree," which reflects Irish folk music.

A symphonic tone poem in four sections, "Tulsa," by Don Gillis, will close the program. Written originally for orchestra, this work was transcribed for band by Maurice Ford.

"Tulsa" tells of early pioneers settled in the West.

This program will be broadcast over WFSU-FM on Thursday at 8:15 p.m.

Musician's Work Will Be Played At SFC Meeting

Harold Schiffman, candidate for the doctoral degree in the School of Music, has received word that his musical work entitled "Ninnerella Variety" will be played at the Ninth Annual Southeastern Composers Forum at the University of Alabama April 18-20.

A distinguished group of composers, conductors and guests from southern states will hear the work performed by the University of Alabama orchestra under the direction of conductor Roland Johnson. The final session will feature the performance of the three best works submitted to the Forum as selected by a special committee.

This year 19 compositions were chosen to be heard on the Forum.

Wallingford Riegger, New York City, will be guest composer at this year's Forum. Often called the dean of American composers, Riegger's Third Symphony will be played at the final session of the University orchestra.

Guest critic will be Dr. E. William Doty, Dean of Fine Arts at the University of Texas.

The orchestra will be conducted in the reading sessions by eight guest conductors from southeastern orchestras.

Two Showings Tonight

Film Club Offering To Be 'Umberto D'

Umberto D. directed by Vittorio DeSica and based upon a script written by Zavattini and DeSica, will be shown to FSU Film Club members tonight at the University School Auditorium, at 6:30 and 8:40 p.m.

The film is dedicated to DeSica's father, a modest, middle class employee who spent his entire life in a struggle which barely enabled him to support his family. Just how much, if any, of the film is biographical is conjectural.

ELDERLY PROTOTYPE

Umberto, the film's main character, is the prototype of all pensioners—elderly, poverty haunted, lonely and loved only by his dog. For this role, the director did not select a professional actor, but an Italian college professor, Carlo Battistini.

Maria Pia Casilio is cast as the young housemaid who is Umberto's only friend. Her life is complicated, as she is in love with two soldiers at the same time; however, she finds time to talk to Umberto and to listen to him.

The pensioner's landlady, who is a constant threat to whatever security he has, is played by Lina Gennari. She utilizes his room for others and threatens to evict him since his rent is overdue

LIKES HOSPITAL

When Umberto becomes ill, the hospital is a sanctuary to him. He would very much like to prolong his stay since he can save a little bit of money he ordinarily would spend for groceries; however, he is too honest to feign continued illness

During his hospital stay, his rooming house is remodeled, and upon his return, he cannot locate his meager possessions. Everyone is busy and none has the time to interest himself in the old man who becomes disconsolate

EARLY FLOP

Umeberto D was not successful when first shown in Italy in 1951, yet this film by DeSica has achieved acceptance with American audiences. It is quite likely that **Umberto D**, characterized by stark reality and tragedy, was presented to Italian movie-goers too soon after the termination of World War II.

Umberto D is not a picture of war or the aftermath of war; its tone is somber and its subject tragic. It is the melancholy story of the hard lot of the aged, surviving with inadequate finances and lonely beyond belief.

The style of the entire film is plain and almost documentary. There is an emphatic lack of symbolism—realism prevails throughout; thus, it is an effective sociological view of those who have lived, but now exist, in anticipation of nothing but the release of death.

Student Poll On Ga. Switch Shows Most Haven't Heard

As a result of the switch in game sites for the Georgia-FSU game this fall, the **Flambeau** conducted a poll this week to find out just how irate the students are after being robbed of a home game Twenty-two students were polled.

The results were astounding. Twenty students liked the idea, one disliked it, and one thought it was both good and bad.

The indication of how popular football in general is on campus was found in the attitudes of the other 18, however. Not one of them was aware that the game had been switched.

Some didn't even know that Georgia was on the schedule.

SOME COMMENT

Among those students who were aware of the change of locale, several had comments to make. Senior Bill Grow, said, "Many FSU students will be going over for the game. The Gator Bowl holds more people than Campbell Stadium and lots of people in the Jacksonville area will turn out for the game It will increase our following in that part of the state and it will be good for the morale of the team to have good support at an out-of-town game."

MORE MONEY

Jane Salley, junior, said, "It's a good idea because it helps us get more money so we can have a better football team. However, I fear that this shall become a policy rather than an exception, and that would completely deter the student body interest in football at FSU."

A graduate student, Ed Donovan, pointed out, "Football games should be primarily for the students rather than for the monetary aspect."

Senior Phyllis Shaddick, commented, "There are things to be said for both sides. There are a large number of alumni and friends in the Jacksonville area and it will build up FSU's following in that part of the state. However, there are many students who will not be able to make the trip to one of the best games of the season."

Symphony Concert Reset Monday

The University Symphony concert, originally slated for Friday, has been rescheduled for Monday, March 17. The concert will be held in Westcott Auditorium at 8:15 p.m.

The program will consist of, Brahms Concerto No. 2 in Bb Major, Op. 83, for piano and orchestra; "March to the Gallows," from Fantastic Symphony, Op. 14 by Hector Berlioz; and "Romeo and Juliet," Suite No. 2, Op. 64b by Serge Prokofieff.

The piano soloist will be Paul Parmelee, a doctoral student in piano literature from the studio of Edward Kilenyi. The Symphony will be conducted by Ernest Von Dohnanyi.

All are invited to attend the concert, which will be given free of charge.

Pow-Wow Staff Meeting Today

Candidates for this year's Pow Wow staff will meet at 4 p. m. today in the Longmire Auditorium.

Plans for the 1958 edition will be discussed and assignments will be made. All interested students are requested to attend.

Guidance Tests Set Twice More

The office of coordinator of counseling-guidance, 301 Westcott, anounces that there are two more sessions of vocational guidance interest testing to be conducted this semester.

These sessions will be Wednesday, March 19, and Tuesday, April 15, 7:30 p.m. in 303 Westcott.

This "test", or inventory, is available to any interested FSU student. Since only a limited number can be accommodated each evening, students must register on the bulletin board outside 301 Westcott.

Interpretataion of these scores will be made at a later date by members of the staff of the office of coordinator of counseling-guidance.

This inventory should be of assistance to those persons undecided as to academic or vocational goals, if this indecision is due to lack of interest clarification.

Knowledge of interests, combined with knowledge of aptitudes and opportunities, serve to make vocational and academic goals more realistic and more satifying according to Miss Valde Mock, counselor.

Registratison is open at present for the March 19 testing.

Bureau Needs Speakers For Spring Slate

The Student Speakers Bureau, which offers expense-paid speaking trips throughout the state to students, is badly in need of speakers for this spring's program.

The Bureau, sponsored by Student Government, sends FSU students throughout the state to explain various functions of the University and to speak on the campus highlights

NO SWEAT

The speakers, usually a man and woman, are sent to Rotary, Lions, Optimist, Kiwanis and similar organizations upon request of the groups The students are assigned to areas in which they will spend their school holidays, so that they may not suffer any inconvenience

The organizations sends letters to all prominent members in student government, honoraries and similar organizations, asking them to participate in the program.

Any student interested in speaking in behalf of FSU, however, is urged to contact Joyce Combs at the student body's presidents office in Longmire any time between 3 30 and 5 p m. Monday through Friday.

Although response has been good to requests for speakers, the Bureau is in need of approximately 70 students to fill positions throughout the state. To date, 35 civic clubs have requested speakers from the University.

The students will speak to clubs in their area, just before, during and after Easter vacation.

ADS To Initiate Five Thursday

The Elon Borton chapter of Alpha Delta Sigma advertising fraternity will initiate four new members Thursday night at 6.30.

Those to be initiated are Frank Bulzoni, Walter Reardon, Ken Bowes, and Charles Soter Their initiation will include the wearing of sandwich boards around campus, sponsored by Tallahassee business firms

An Outstanding Pledge Award will be presented at the banquet in the Trophy Room following initiation.

Alpha Delta Sigma, with 21 active members on campus, is a bridge between advertising in education and advertising as a profession. The members are either majors in advertising or in marketing, and must maintain a 2.0 average.

The fraternity was organized here in 1953. Their advisor, Mr. Richard Joel, professor of journalism, is national ADS president.

Award-Winning Sculpture Bought

A sculpture by Edwin Walter of the Florida State University faculty which won an honorable mention in the current all Florida exhibit at Sarasota and Bradenton has been purchased by Walter P Chrysler of New York City.

Called "Canaveral," the sculpture was an entry in the exhibit sponsored by Associated Florida Sculptors. Walter is an instructor in the Department of Arts Education at FSU.

Since coming here a year and a half ago his works in glass, enamels and sculpture have received several awards in exhibitions over the Southeast.

THE UNIVERSITY SYMPHONIC BAND

Cavalier-Cotillion Dance Saturday

Cavalier - Cotillion, campus dance organization, will sponsor an informal dance this Saturday night, from 8-12 at the Student Center.

The Starlighters will provide the music.

State's Best Editorial Page 1957

Students Silent On Game Issue

It comes almost as a shock to us that so little comment has come forth from the student body about the switch of the Georgia football game this fall to Jacksonville.

THERE SEEMS to be a general lack of opinion on either side forthcoming from the students, apparently because of complacency on their part, or because of a lack of interest in football.

The last alternative seems rather unlikely—particularly in the south, the hotbed of football—so we must assume that the students are not sufficiently interested to comment.

IN ANY CASE, this game will likely present numerous problems to the students.

First of all, students will undoubtedly have to pay a "nominal fee" for tickets to the game. The Gator Bowl Association has in the past charged Florida students $1.20 a ticket, and a similar charge will probably be put on FSU students.

Secondly, if the game is a night game, and this seems probable in view of the prospects for a larger crowd, late permission will have to be granted for female students making the trip.

THIS WILL not set a precedent, for similar permission was granted in 1954 when quite a few students drove to Auburn, Ala. for that game.

Third, transportation will be a slight problem. It is possible that busses will be chartered sponsored by some school organization, as they will probably be for the Florida game November 22.

Fourth, it leaves FSU without a Homecoming Game until the athletic committee makes a decision.

THERE ARE three possible dates for Homecoming—October 4 with Wake Forest, October 18 with Virginia Tech or November 1 with Tampa.

The October 18th game with Virginia Tech may be just about deleted as a possibility at the start. That is the same date of the Florida Homecoming, and since large numbers of FSU students usually go down for that week-end, it would produce considerable conflict.

Choosing between Wake Forest and Tampa as a prospective Homecoming opponent, Wake Forest would certainly be preferred, except for the date, October 4.

THIS IS LESS than two weeks after school starts (September 22). Such a Homecoming date would most certainly raise a howl from fraternities and sororities, who would hardly have time to complete rush and get their groups organized, much less think about floats and decorations.

The other alternative is Tampa, a desirable Homecoming opponent only from the point of view that traditionally you're supposed to win the Homecoming game for the alumni, etc.

TURNING AWAY from the students' problems to the athletic committee's point of view, it seems apparent that the move was made not by choice but by necessity.

The financial condition of intercollegiate football here is and for some time has been shaky.

The strongest home schedule in school history last year failed to draw the large crowds the athletic department had hoped for, and instead of helping football's financial condition, probably worsened it some.

THE FACTS ARE that FSU stood to make at the most a $5,000 or $6,000 profit by playing Georgia here. In Jacksonville (with a 50-50 split of the gate), the profit may go as high as $30,000 or $40,000.

Playing games on neutral sites in cities with larger stadiums appears to be one of the major ways the school can solve its financial difficulty as regards football.

GEORGIA, for instance, plays only two or three home games a year and Florida has added Miami to its Jacksonville schedule next year.

Until Doak S. Campbell Stadium can be enlarged and there is evidence of larger prospective crowds here, it may be the only way FSU can stay in major-college football.

Strong Candidates Needed

A third party has been born and is struggling for existence on the FSU political scene.

ITS SUCCESS rests much on the showing it puts forth Thursday night and whether it can live up to its desire to "put capable candidates on the slate to run against unopposed candidates".

And this is a big job to undertake.

THE UNIVERSITY Party was formed last week in almost the same manner the State Party, renamed the Collegiate Party, was formed a few years ago. In both cases a small group met together to organize in protest against the lack of opposition offered by the established party.

The main objection expressed by backers of the new party is that no one is planning to oppose Student Body Presidential candiate Art Moore. Moore, attorney-general in the cabinet and once State Party chairman, will run independently but will be endorsed by both parties.

AS UNIVERSITY PARTY spokesmen have said, "In a university of almost 8,000 there must be more than one candidate who is capable of holding such an important job." Few people disagree with this point, but where is the candidate?

As of yet no one has expressed a desire to seek the office. And word from the Moore camp is that competition is most welcome.

IT SEEMS THAT the only opposition shaping up in the coming election is the keen competion within the Student Party. There are several capable candidates seeking the coveted Student Party nomination for the same major offices.

The losers of the party nomination may of course seek office as Independents, but we doubt if they will try for one of the other party nomingtions. If these candidates decide not to run without the Student Party nomination, little opposition may be offered by the rival parties for some of the important SG offices.

SO IT LOOKS like any opposition offered will have to come from Independent candidates and the minor party nominees. But how strong will this be?

We can't know for sure until after the party conventions which will be held tonight and tomorrow night, winding up Thursday. The biggest opposition will probably be between the Collegiate Party chairman and the Student Party chairman, Gerry Gordon and Mattox Hair, for the office of vice president.

THE UNIVERSITY PARTY has promised to offer a full slate of candidates for all student government offices. So has the Collegiate Party with the exception of president, but this is a very ambitious task if the candidates are to be most qualified for the office they are seeking.

The **Flambeau** admires the students in back of the new University Party. With great odds against them they are trying to rally to their cause portions of the student body who rarely take an interest in student government.

STUDENTS WHO have not taken an interest previously in the functioning of student government are becoming interested in it. Apathy may be lessening.

But we would like to warn those wishing to furnish opposition that they are up against experienced and capable candidates. Candidates of the same caliber must be offered by the challengers if they are to be successful.

Anthropomorphic God Not Needed

By EMMETT JARRETT

For the last few weeks an argument, apparently of our precipitation, has raged in the Letters to the Editor section of the **Flambeau**. We have remained unconcerned, except for one instance, due to the misconstruance of the issue which we had hoped to raise.

WE HAVE NOT "attacked" the Christian or any other religion. We have not pitted our own intellectual position — agnosticism—against any religion. That would be absurd, for religion is much more than the intellectual belief or disbelief in God.

Let it be understood that the sole contention of the existence or non-existence of an anthropomorphic deity cannot be a religion or a religion substitute (although some foolish atheists have become veritable cultists occasionally). We do not believe that belief in an anthropomorphic deity is even necessary to a religion.

ALFRED NORTH Whitehead has said that "Religion is what a man does with his solitude."

It is our belief that when a man considers (1) himself, (2) the cosmos, and (3) his relation to the cosmos, he is engaging in religious thought. And when a man has arrived at a satisfactory relationship, intellectually and emotionally, to the cosmos, he has begun to have a religion.

But even this is not all that there is to religion. Religion extends, necessarily, into the realm of human conduct.

FOR IF A man has established a relationship with the cosmos in general, he has thereby defined his relationship (and/or its basis) with other men, and it is incumbent upon him to act in accordance with the nature of his religious relationship in this most important specific case. This is the moral side of religion, which is not only personal but corporate, and which must express itself both individually and socially.

For many rational thinkers of this generation, the Christian religion does not provide a satisfactory relationship between the individual and the cosmos. It does not, therefore, give to the individual, or the society in which he lives, an adequate basis for the moral life.

WE BELIEVE, however, that man is a religious animal. We too are religious, and so are many people who cannot accept the belief in the existence of a deity created in the image of man, and that of man three thousand years ago.

But this is not the important issue, for we have stated that religion does not require the existence of an anthropomorphic God. The issue is that which is the problem of our generation. We have no satisfactory relationship with the rest of the universe, or the cosmos, and hence have no basis on which to determine our own value, or the value of those around us. Until we find this we are doomed to the consequences of a decadent society. Christianity can no longer provide the answer. Man must be free to find it for himself, and, perhaps, within himself.

Fla.-Russian School Survey Is A Farce

By BEN BALSER

Last week, Fred Turner and Miss Sara de Keni, consultants for the state Department of Education, released the results of a survey they conducted which compared the school programs of Russia and Florida.

Their analysis stated that the school program in Florida is just as good, and in some courses better, than the program of Russia.

THIS SURVEY does not seem reliable and in some instances does not seem valid. Many fallacies could occur in the analysis because of the way the survey was conducted.

In the first place, this survey was taken from evidence observed over a two-year period. When comparing such a large area as a school program, the observation period, in order for the evidence to be valid, should be at least five years.

SECONDLY, to compare a large complex educational system of a country as large as Russia to a smaller and less complex system such as Florida's hardly seems like a fair or logical comparision. It's like comparing the circulatory system of a mouse with that of an elephant.

Many terms are used in the analysis which are not clear and very general in their meaning. For instance, the survey stated that the Russians received courses in chemistry, but that they were broader than the Florida chemistry courses. The meaning of a broad course in chemistry is anyone's guess.

FINALLY, the information about the Russian educational system came from the US Office of Education survey made in 1955-56. Because of this, the information might tend to be biased.

The results stated that the Russian student attends classes six days a week, ten months a year and graduates in ten years. The Florida student attends classes five days a week, nine months a year and graduates in twelve years. Thus, so says the survey, the Florida student spends more time in school. Agreed, but the survey does not show how much the student actually spends with subject matter and how much he spends in assembly, etc. Neither does the survey show how much knowledge is crammed into the Russian student during the time he is in class.

ANOTHER FACTOR along this same line, is that the Russiann education is more personalized. In Russia there is one teacher for every seventeen students as compared to one teacher per tweoty-seven students in the U. S. The average for Florida is near this one per twenty-seven also.

In 1955, the average Russian high school graduate had five years of physics, five years of biology, ten years of math, four years of chemistry and one year of astronomy. In the graduating classes in the U. S. in 1955 only one third of the graduating seniors had a year of chemistry, only one fourth had studied a year of physics and less than one seventh had a course in some type of advanced math. The Florida graduate would probably run close to this U. S. level since Florida schools are not noted for their high scholastic average anyway.

THE FLORIDA courses may be the same as the Russians, but it can be plainly seen that the Florida students do not get the same training the Russian students do.

The main reason Russian training is better is that the training starts young. For instance, algebra and geometry are taught in the sixth grade. In the ninth grade the Russian student studies trig and introductory calculus. Find any Florida school where the students of the same grade level as the Russians, are taking the same subjects.

Considering the factors given above, it can be seen that the Turner-de Keni survey in terms of a true evaluation and comparision of the Florida and Russian school systems, is a farce. The headline and the content of the results may produce a feeling of pride in any American and Floridian. But to an American who thinks logically and is cognizant of the things going on in the schools around him, the survey represents a false impression.

Phi Tau Elects

Philip Kemblowski has been re-elected to the presidency of Phi Kappa Tau.

Others chosen to serve as officers for the coming semester are Charles Savage, vice-president; Sheldon Fretwell, Jr., secretary; Donald Talmon, treasurer; Al Zyla, pledgemaster; and Neal Morar, house manager.

LITTLE MAN ON CAMPUS — By Dick Bibler

"UP HERE NOW MISS BREWSTER — IT SEEMED MORE PRACTICAL TO SEAT THE CLASS ALPHABETICALLY."

Student Writes To Sumter Lowry

LETTERS to th
EDITO

AN OPEN LETTER TO
MR. SUMTER L. LOWRY
TO THE EDITOR:

I am highly inclined to think that you are out of order in asking any of the questions which you put to Dr. Robert M. Strozier. I do not mean to say that your right to freedom of expression should be curtailed; nor do I intend to imply that it is not the prerogative of the people to know what men in high office think on certain matters of public concern. However, I am strongly of the opinion that any such questions should be objectionably stated, primarily because a slanted question asks only for confirmation of the point of view of the interrogator.

May I take each question individually and attempt to give reason for disagreement in each case?

YOUR FIRST QUESTION:

"Are you in favor of segregation of the races in the public schools and institutions of higher learning?"

Isn't this a rather pointless question, sir? You are asking a man to express his personal views as an official statement—views which he could very conceivably never have occasion interpose in any matters of administration relating to this extremely complex problem. You are also asking for a direct yes or no (to judge from the way in which you have worded the questions) which a man who is a conscientious thinker might not want to answer in this way. There are too many points which demand qualification. And if the answer should be no, Mr Lowry—What then? Would you wish to silence him? Would you wish him removed from office?

No one has as yet tried so to silence you, Mr Lowry.

YOUR SECOND QUESTION:

"Will you take a public and open stand against integration of the races in the Florida State University?"

Do you ask a man of conscience to declare himself on such a matter as this is? Do you respect conscience and integrity, sir, or only your own opinion?

And had you considered that this question was, if nothing else, tactless? Mr Lowry, there are already students of more than one race here on the campus at Flordia State. How should students of another race feel if the president of the university took such a sta[...] you request?

Once again I cannot [...] feeling that you are o[...] order.

YOUR THIRD QUESTIO[N]:

"Will you publicly e[...] your influence at the F[...] State University to inculc[...] the minds of student[...] responsibility to uph[...] Constitution of Florida [...] prohibits the mixing o[...] races in the public scho[...] the State of Florida?"

"Inculcate into the m[...] students—" Could there be [...] thing more revolting to [...] of any true educator? P[...] only the more commo[...] for your proposal—br[...] ing. Are we to be robo[...] Mr. Lowry; following o[...] dictates of a tradition? A[...] to be void of reason an[...] power of choice? Sir, th[...] pose of education has [...] been to inculcate anyth[...] anyone's mind: only to [...] available to the stude[...] raw material from wh[...] draw his own knowledge [...] reason and concious d[...] Dr. Strozier was right. T[...] no "Southern" education [...] if there is, are we not [...] pitied above all creat[...] Excluded from that w[...] universal and bound to [...] which is decadent?

Now, Mr. Lowry, this pr[...] of intergration is a slow [...] ing, painful one, and wil[...] ably continue to be so [...] chances are very grea[...] integration is ever a fu[...] ity, you will not be h[...] see it. Now consider car[...] Is it your prerogative to [...] upon the minds of the suc[...] ing generations your own [...] ion, or is this not the e[...] of dictatorship? Is that [...] cordance with either th[...] stitution of the State of F[...] ida or the United State[s]?

No, Mr. Lowry, I cann[...] feeling that you are ou[...] order.

Sincerely yours,
JOHN L. BRACEWELL.

'Cut Out Garbage'

TO THE EDITOR:

I have been an ardent follower of the editorial page of the Flambeau since I have been at FSU. I like the editorial page because of the thought and presentation of subjects expressed, but with the so called "debate" between "Religion versus Agnosticism". I think that Mr. Fred Rowland, as well as anyone else who argues this point, is just trying to wage a one man war against society today. One or two articles on any one subject is enough but to hash over the same idea week after week is just a waste of time, ink and the students money.

I think I speak for a number of people on this campus "cut out this garbage." It isn't proving a thing except that a few people can write, and put something of interest (?) in this "wasted space". I, along with others have forgotten there is an editorial page and we just read the rest of the paper. Every week we know that there is going to be another rehash of [...] has already been sa[id].

In conclusion, I would jus[t] [...] to say "that if you change [...] editorial page, to say some[...] of importance of the day y[...] the newspaper will rega[...] ple's attention to the e[...] page which lately has bee[n] [...] throughout this present b[...] of words".

ARTHUR LAVOR[...]

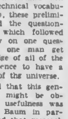
(The policy of the Flambea[u] [...] Letters-to-the-Editor colum[n] [...] to act as a forum for stu[dent] [...] opinion and we feel that [...] letters contributed, which [...] almost always intellect[ually] [...] stimulating, serve our pu[rpose] [...] well. However, we feel at [...] time we must discourage [...] overemphasis of debates [...] tween the same individ[uals] [...] when they are prolonged fo[r] [...] long period of time. Perh[aps] [...] the gentlemen in question co[uld] [...] get together over a cup [...] coffee in the Soda Shop a[nd] [...] hash things out?—Ed.)

Faculty Panel Should Be Kept

By NANCY HANNAFORD

The unification of science was discussed by a distinguis[hed] faculty panel last Friday evening in Longmire auditorum.

The program, moderated by its organizer, Dr. Howard Baker of the Department of Psychology, was launched with a series of short talks (essentially declarations of positions on the subject) given by the members of the panel: Dr. Joel Greenspoon, Department of Psychology; Dr. Lloyd M. Beidler, Department of Psyiology. Dr. Werner Baum, Department of Philosophy.



GAUGED to the layman language-wise (Dr. Baum stated at one point in the discussion that two advanced scientists in closely allied branches of chemistry could talk only a short time before they ceased to understand each other due to technical vocabulary differences), these preliminary talks and the question-answer period which followed centered mainly on one question: can any one man get enough knowledge of all of the branches of science to have a useful concept of the universe.

It was agreed that this general knowledge might be obtained, but its usefulness was questioned. Dr. Baum in particular contended that research has progressed to such a point that science can only be aided through more and more intense specialization.

DR. MILLER was the main advocate of the opposite v[...] point, shared by most of the [as]sembly, that although a mass [of] [...] details might be usef[ul] [...] specialized research, it was o[f] [...] tle value to society in gener[al].

Neither alternative, a [...] shallow knowledge, or a [...] deep one (to use Dr Ba[ker's] analogy), seemed the answe[r to] the question. At this po[int a] member of the audience [...] a pertinent question: by "[...] cation" does one mean that [...] man have a general know[ledge] of all the fields of science [or] does one mean that the diffe[rent] fields of science work out a c[om]mon means of communicat[ion?]

Unfortunately the discus[sion] was closed almost immedia[tely] after this area of inquiry [was] opened.

ALTHOUGH THE ques[tion] wasn't probed too deeply, [the] panel discussion was very wo[rth]while, showing the inquiring [po]tential of FSU's excellent sc[ience] department. Discussions of [this] nature have great possibili[ties;] the Psychology Department a[nd] Dr. Baker have come up with [a] winner.

Let's hope the panel is[n't] dropped, but is scheduled r[eg]ularly to discuss such quest[ions] as the possibility of communi[ca]tion between different fields [of] science, the relationship [of] science and philosophy, the p[ossib]le benefit of specialized r[e]search, the effect of mode[rn] science on the individual, wa[ys] that science can be used to u[n]derstand the individual, and [the] metaphysical basis of science.

FSU Trampolinist Having Good Year

By MIKE PLATTIS

One of the most exciting events to gymnastics fans the trampoline, and FSU's trampolinist, Don Preisser, placed his assortment of tricks before Seminole fans the past three years.

Preisser, a 21-year-old senior Florida State's well known gymnastics team, is at the moment in the midst of another successful season.

A native of Denver, Colorado, won letters in football, swimming, and gymnastics while in high school, was named to all-state in gymnastics his junior and senior years. As a senior placed third in the Colorado diving finals.

Denver University offered the athlete a four-year diversified scholarship, which he was to accept, when a combination of a bad ear infection watching Florida State win 1952 NCAA gymnastics crown Boulder, Colorado turned his attention to FSU.

After writing to gymnastics coach Hartley Price, Preisser received his scholarship enrolled here in 1954.

During his sophomore year on varsity he was number two on the trampoline behind FSU's time National AAU champion Bob Elliot.

BECAME REGULAR

However the following year took over as the Tribe's trampolinist, and has been consistent winner in regular competition ever since.

Winning a fourth place on tramp at the 1957 National in Chicago has been perhaps his single greatest achievement, though he won the Southern Intercollegiate trampoline title as a sophomore, and his crown back at the SIGC meet at Hattiesburg, Mississippi last Saturday.

When asked who contributed most to his gymnastics career, Preisser noted that "Dr. Price has certainly given me my chance to compete in the NCAAs, National AAUs, and in our regular season competition and to gain the experience which comes only from competing.

"However, Dick Gutting, FSU's 1952 NCAA trampoline titlist taught me most of the tricks I use."

PRICE PRAISES

Preisser's coach, Dr. Price, was high in his praise of his ace trampolinist, and added that, "Don has matured to the point where he realizes that he has to stick with a set routine, which he has done this year. The results are evident. He hasn't lost this year."

A physical education major, Preisser has by no means limited his extra-curricular time to the gym.

He is a member of Sigma Alpha Epsilon, Gymnastica, secretary of Phi Epsilon Kappa, the physical education honorary, Arnold Air Society, and is a distinguished military student.

With it all, he still has managed to maintain a 3.4 overall average—not bad for a busy guy.

Charley Tinsley, an all-city choice in Miami last year, paced Florida State's freshman basketball team to 5-3 mark this season with 126 points for a 15.8 average.

Linksters Meet Jax Navy Here

Florida State's golf team renews its series with Jacksonville Navy here today for the first time since 1952.

The linksters and Sailors have split the four previous matches with the Tribe looking for win number three of the current campaign.

Friday they take on another service team, Pensacola Navy here at the Capital City Country Club.

The Seminoles stand at two victories as against one defeat, the loss coming at the hands of Florida, 19-8 in Gainesville. The two state schools tangle here in Tallahassee March 22.

Wisconsin lost to FSU 20-7 and Moody Air Force Base bowed, 24-3.

LOSE TITLE

The linksters lost their Florida Intercollegiate title to Florida over the weekend by seven strokes. The Seminoles had won the championship for the last two years.

Junior Tommy Aaron of the Gators copped top individual honors with a 282 score, two strokes under par. Top man for the Tribe was veteran Bob Shave with a score of 285 and third place.

Miami finished third with 1180, seven strokes behind the Seminoles. Others were Rollins, Florida Southern, Florida (number two team), Miami (second team) and Stetson.

Don Boltz, FSU's giant center, set a dubious school record during the last basketball season. Because of his aggressiveness, he had 102 personal fouls called on him. The old mark was 100 which was set by Bud Scott in 1951.

Dick Howser, the shortstop on the Seminole baseball team who made all-American last year has a unique twist in his success story. Howser never played an organized game of baseball until he was a junior in high school in West Palm Beach. But, he moved fast and during his senior year he was named captain.

SN Captures Bowling Crown

Coming up from the loser's bracket in the Greek Intramurals Bowling tournament, SN rolled away with the crown over PDT, last Thursday night.

SN out-tallied PDT by about one hundred pins and won two out of three matches, for the championship.

Marv McClean and Paul Morgenthal rolled for the winners while Tom Overstreet and Tommy Thomas represented the Phi Delts.

Despite contrary reports, Lambda Chi took top honors in the "high individual" scoring department with Steve Shacoski's high game of 216.

Before the Bowling results is figured in, PDT leads the Greek division in total Intramural points with 669.66.

Magnolia Hall leads the Dorm-Independents with a total of 616.49 points.

Kentucky Five Possible Foe

There is a very strong possibility that Florida State University's basketball team will schedule a game with the famous Kentucky Wildcats for the forthcoming season, announced Athletic Business Manager Ed Cubbon.

Negotiations are now in progress, but the contracts have not as yet been completed. The game will probably be played sometime in December at Lexington, home of the Wildcats.

Kentucky, perennial Southeastern Conference basketball champions will represent the SEC in the NCAA again this year when they meet the Big 10 leader, Indiana.

The Seminoles have also received a bid to the Louisiana Invitational which will be held in December 29, said Cubbon. The host team is Centenary College.

READY TO GO. Jim Casteel holder of the school record in the quarter mile gets set for the 1958 track season. Casteel, a service returnee set the mark at 49.4 in 1954 before he entered the service. Casteel is a member of the mile relay team and it is possible that he will compete in the low hurdle event this season.

Conrad, Whitehead Spark Spring Drills

A couple of versatile sophomore backs who played side-by-side in high schoo headlined practice-field developments as Florida State's young football squad pass ed the halfway point in spring drills this week.

Bobby Conrad and Angus (Bud) Whitehead, who had North Florida fans abuzz with their football heroics at Marianna, Fla., High School in 1956, produced the week's outstanding surprises as Coach Tom Nugent shifted some attention to offense. The Seminoles had been devoting 85 per cent of their practice time to defense prior to this week.

Less than two weeks remain before the Seminoles pair off for their annual Garnet and Gold game, scheduled for Campbell Stadium Thursday night, March 20.

A touch of flu may have given Whitehead his grandest chance since his arrival at Florida State last fall. Normally a halfback, Whitehead was given a shot at fullback this week when the No. 1 fullback candidate, 206-pound Floyd (Dink) Lawrence, was sidelined with flu.

Whitehead, a powerful runner who weighs but 178, was right at home. He showed great promise all week.

"It looks right now like Whitehead could break into our starting lineup," Nugent said today. "I'm impressed with his driving type of running. He's our only power runner who can go all the way when he's in the open. This fellow may be the surprise of our entire squad," Nugent commented.

Whitehead had a banner season with State's freshman team last fall, carrying 54 times for a 5.1-yard average.

Conrad, an All-America high school quarterback at Marianna, joined Whitehead in winning praise from Nugent. "Conrad has been sharp all week," Nugent said. "He's coming fast."

A pin-point passer and capable runner, Conrad is the only State quarterback candidate who can punt. The promising triple-threater who completed 28 of 51 passes as a freshman last fall has tightened the quarterback scramble. Senior Vic Prinzi and junior Joe Majors are running one-two at quarterback, with experience being the major factor.

Experience is State's most limited commodity. A half-dozen sophomores are leading in scraps for starting roles and 14 of the first 22 players are first-year varsity candidates. The squad numbers 33 sophs among 59 candidates.

Only three 1957 starters—left guard Al Ulmer, tackle Jerry Graham, and left half Bobby Renn—are back. Renn played most of last season at quarterback and Graham is out this spring because of a leg operation.

"The end position suddenly has become the most difficult to fill," Nugent said. Letterman Bob Fountain of Crestview, a leading end candidate, injured a knee this week and may miss the rest of spring practice.

After devoting the first two weeks solely to defense, the Seminoles began working on offense this week. "We'll split our time 50-50 between offense and defense from now until the spring game," Nugent added. Passing drills also were initiated this week and Nugent said "all the quarterbacks are throwing well."

THE COLLEGE SURVEY
ANNOUNCES
SUMMER EMPLOYMENT 1958

THIS YEAR IN TWO COMPLETE GUIDES

Each including extensive listings of openings and addresses, information on their pay, responsibilities and necessary application forms.

MARITIME & GOVERNMENT EMPLOYMENT $1

Deck hands, wipers, stewards, messmen on ocean liners, dredgers, freighters, tankers, and sail or motor yachts. Fire control aids, guides, technical assistants, laborers, and others in national parks and game refuges.

CAMP AND RESORT EMPLOYMENT $1

Counselors, life guards, instructors, and directors in camps. Waiters, waitresses, bartenders, lifeguards, etc., in mountain and sea resorts and dude ranches.

EMPLOYMENT IS GUARANTEED only to those students in the several colleges where announcements of The College Survey appear who are able applicants and have their account number registered in our files by APRIL 3, 1958. Account numbers and our special application forms are given only to recipients of both guides. Those purchasing only one guide must exploit the sources therein without the guarantee of employment through our placement facilities.

Fashion Styles To Be Previewed

Spring styles for every occasion, modeled by members of the Dames Club and their families, will adorn the Opperman Auditorium stage tomorrow night, as the annual fashion show is presented beginning at 8 p.m.

Styles to be worn on campus this spring will be previewed, according to Pat Dorsey, chairman for the event. Included will be fashions for Sunday, "after-5" and weekdays, as well as maternity and sportswear.

The Dames Club, an organization of the wives of university students, received an assist in sponsoring the event from Mendelson's Department Store, who provided the outfits to be modeled. Hair styles will be done by Alice's Beauty Center.

EASTER

With an eye toward the Easter season, cool bright fashions will be emphasized—for example, a red linen sheath trimmed in white, featuring a red duster with white rayon lining.

Full and sheath cottons—with beige and apricot the most popular choices—will be shown in the Sunday division.

In the "After-5" department, a white lace cocktail dress, featuring tiers of the lace on the sheath skirt and fitted bodice, will be modeled.

Several variations of the new chemise, as well as the barrel-line skirt with front panels or inserts, will also be seen.

Matching "family" beach outfits, a white sailor-style maternity bermuda shorts set, and the loudest of all—orange an' yellow print walking shorts with matching straw hat featuring a yellow sunflower—will be featured in the sportswear department.

Emcees for the evening will be Norma Ragsdale and Tlazel Ramos. Jackie Showerman is publicity chairman, and Yvi Fernandes is in charge of entertainment.

Eight door prizes will be awarded. The public is invited to attend.

LOST AND FOUND

Will the girl who picked up a red corduroy Debutog raincoat by mistake at the ATO house last Saturday night please contact Emily Jopling at the Alpha Gam house (2-5367). She has a red corduroy raincoat which she would like to return to its rightful owner in exchange for hers.

THREE OF THE models for tomorrow night's Dames Club Fashion Show will be Mrs. Max Williams, left, Beth Wright, and Mrs. Ken Dewey, right.

Proposed Street Names Criticized

"How do you feel about the new street names for the Florida State University campus?" was asked eight FSU students in relation to the article in last week's Flambeau. Three-fourths of the answers reflected a great dislike for the names.

"I just don't like them," commented Barbara Schnackenberg, "especially 'Happy Hunting Grounds' and "Halls Away." I like the idea, but the names should stay dignified, such as 'Collegiate Way' and 'Ivey Road.' The Indian names should be left out."

SHE LIKES THEM

Taking the opposite view was Rita Garnett, who said, "I think naming the streets is a very good idea, especially clever in keeping up tradition of Seminole. The choices for names in front of the men's and women's dorms are especially good. I really like 'Happy Hunting Grounds', 'Wigwam Lane,' and 'Council Circle.'"

"Although naming streets is good, the suggested names sound rather Mickey Mouse," reflected Nancy Bild. She added, "Some names are much too long for common use."

Maryl Thompson agreed that naming streets is a good idea, but she "really believes some of the names could be improved."

MEN DISLIKE THEM

With the exception of Dave Carmol, all the men thought the names should be chanegd. In answering how he felt about the new street names, Dave said, "Street-naming is different for a college campus, but a good idea. I think such names as 'Happy Grounds' are comical but fitting. Most suggestions are pretty good."

Sticklers!

WHAT IS THE MAN WHO KEEPS THE CIGARETTE MACHINES FILLED WITH LUCKIES?
(SEE PARAGRAPH AT RIGHT)
CIGARETTES

THE REALLY GREAT MEN of history are forgotten men. Who *did* throw the overalls in Mrs. Murphy's chowder? Is Kilroy still here? Does anyone remember Dear John's last name? No, friends, they're all (Sob!) forgotten. So right now, let's pay homage to the greatest of them all—the man who keeps the cigarette machine filled with Luckies! Let's honor the guy who supplies the one cigarette that's packed end to end with fine, light, good-tasting tobacco, toasted to taste even better. Let's salute (Fanfare!) the *Vender Tender!* Touching, isn't it?

Sophomore R.O.T.C. Students:

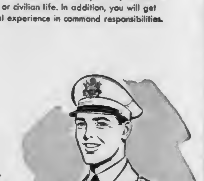
MAJOR IN LEADERSHIP

with the Advanced ARMY R.O.T.C. *course*

If you are a sophomore Army R.O.T.C. student, there are three important reasons why you should accept the challenge of applying for the Advanced R.O.T.C. course. As an advanced R.O.T.C. student, you will:

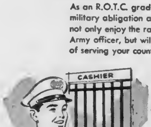
1. Learn to Lead

With R.O.T.C. you can actually take a course in Leadership—a course that will prepare you to think on your feet for an executive position, whether in military or civilian life. In addition, you will get practical experience in command responsibilities.



2. Attain Officer's Rank

As an R.O.T.C. graduate, you will fulfill your military obligation as an Army officer. You will not only enjoy the rank, pay and privileges of an Army officer, but will also have the satisfaction of serving your country in an important capacity.



3. Receive Extra Income

With the Advanced R.O.T.C. course, you will qualify for a subsistence allowance which comes to around $535 for the two-year course. You will also be paid $117 for your six-week summer camp training and receive a travel allowance of five cents per mile to and from the camp.

'Mickey Mouse'?

Reapportionment Is Back! Senate Ponders New Setup

By BUCKY CANON
Flambeau Associate Editor

The long dead ghost of reapportionment came to life in the Senate chamber Wednesday as the Senate voted to establish a committee to study possible reapportionment.

The Senate, which reapportioned itself on the present dual basis of class and living unit representation two years ago, heard Senior Senator Don Lewis ask for the committee.

Lewis, admitting that reapportionment was a "touchy" subject, told the Senate that many students are dissatisfied with the present set-up and that there was a "need for improvement."

"MICKEY MOUSE"

When asked on what evidence he based his opinion, Lewis replied that he felt that there is a widespread feeling among the students that "Senate is 'Mickey Mouse' now" Lewis added that there was a prevalent feeling that the 1956 reapportionment did not live up to its expectations.

Lewis was made chairman of the committee. Others on it are Senators Manning, Edwards, Barber, Mickler, Atwater, and Murray.

A resolution describing seven absences as "non-feasance in office" passed the Senate unanimously. The resolution, first introduced by Senator Diane Godin two weeks ago, had been amended considerably by a special committee.

The resolution became retroactive to the beginning of present semester. It made it incumbent upon the chairman of the Judicial and Rules Committee to initiate impeachment proceedings against any senator missing seven meetings who did not resign.

AWARDS AND BOARDS

Several motions of a special committee to promote student government were heard and sent back to the committee for further study.

Senator Sally Highnam, chairman of the committee, moved that awards be given to outstanding persons in student government, that a student government bulletin board be placed on Landis Green, that something be given out at the polls, and that a safety campaign be inaugurated

Several senators protested the motions West Hall's Senator Van Beck said that "there is already reward enough in the many honoraries for student government officials and the Flambeau gives our activities the necessary publicity"

Don Lewis reported that be had talked with officials of the business office about the complainis of undue profits at the bookstore.

He said that be had been told that the profits from the bookstore went to paying off the debt on West Hall and the eight university owned fraternity houses.

He added that he had been told that if bookstore prices were lowered, rents would have to be raised.

Lewis also moved that a separate budget be set up for Senate. This was passed unanimously.

OTHER STUFF

In other actions, the Senate:

Heard chairman Jan Kaminis report that Dean of Students R. R. Oglesby will set up a student-faculty committee to work on improving the "horsecollar" rule.

Heard Senator Edwards report that nothing can be done about increasing bus service on campus. She further said that the possibility of running a bus to the reservation on Saturdays is "still in doubt."

Heard Senator Kissinger say that Dean Oglesby is working on the possibility of another men's lounge to replace the one taken over by the Placement Office last week.

Voted to have the campus Christmas sing on December 16, 1958 on Landis Green.

Postponed the naming of the streets.

Received the appointment of Pat Hendry to replace Allen Howell as precince senator.

Approved the appointments of Ann Stickler to the Senate and Ann Key to judiciary.

SAE CAPTURES FIRST IN FRATERNITY GRADES

Sigma Alpha Epsilon took number one position on the fraternity grade average "totem pole" with a 2.3255 overall average over the fall semester, according to Hal Smith, fraternity counselor.

Following the SAE's were the Theta Chi's with a 2.2312 average and Alpha Tau Omega, third and last years leader, with a 2.2275 overall grade average.

The combined fraternity grade average totaled 2.1351 as compared to the overall men's students average of 2.2133.

SMART PLEDGES

The highest pledge average went to Theta Chi with a 2.083, followed by Sigma Phi Epsilon with a 2.0544 pledge average.

SAE also had the highest active average with a 2.6264 mark. Following a close second were the ATO actives with 2.5799.

Theta Chi ranked as the most improved fraternity, jumping from number 12 for the spring semester of last year, to second place.

Only two of the fifteen fraternities improved their record over lsts year. They were Sigma Phi Epsilon and Theta Chi. The remaining thirteen fraternities averages dropped slightly.

OVERALL ORDER

The fraternities in order of their overall averages are:

Sigma Alpha Epsilon, 2.3255; Theta Chi, 2.2311 Alpha Tau Omega, 2.2275; Pi Kappa Alpha, 2.2133; Sigma Chi, 2.1501; Kappa Sigma, 2.1338; Phi Delta Theta, 2.1151; Delta Tau Delta, 2.1139.

Tau Epsilon Phi, 2.1098; Phi Kappa Tau, 2.1021; Sigma Nu, 2.0895; Lambda Chi Alpha, 2.0851; Kappa Alpha, 2.0745; Sigma Phi Epsilon, 2.0288 and Pi Kappa Phi, 1.9594.

Only 3 pledge classes maintained a 2.0 or better average over the fall semester. These were: Theta Chi 2.0838; Sigma Phi Epsilon 2.0544; and Pi Kappa Alpha 2.0377.

Sigma Alpha Epsilon will now take over the cup held by Alpha Tau Omega from spring semester of last year as fraternity grade leader.

Symphony Concert Monday To Feature Colorado Professor

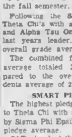
Paul Parmelee, a doctoral student from the studio of Edward Kilyeni, will be featured as soloist for a Brahms Concerto, the first number the University Symphony will present at its concert, Monday night, at 8:15, in Westcott.

Brahms Concerto No. 2 in B-Flat Major, Op. 83, will be played by the orchestra along with "March to the Gallows," from Fantastic Symphony, Op. 14, by Hector Berlioz, and, "Romeo and Juliet," Suite No. 2, Op 64b, by Serge Prokofieff.

DOHNANYI CONDUCTS

Dr. Ernest von Dohnanyi will be guest conductor. Assisting him will be Robert Sedore, who is conductor of the University Symphony.

Parmelee, an associate profes-



sor of piano at the University of Colorado on leave of absence, holds a bachelor of music degree and performer's certificate in piano from the Eastman School of Music and a master of music degree from the University of Colorado.

PARMELEE

Parmelee has also had previous musical training at the American Conservatory of Music in Chicago and Julliard School of Music in New York.

Prokofieff's Suite is his first "Soviet" ballet and had its debut performance in Moscow in 1935. Prokofieff found himself faced with adapting his creative work to the "artistic trends" of his country, when he returned to Russia following an absence of 15 years.

COMPOSER'S VIEW

He himself states, "Music in our country has truly come to belong to the wide masses. Their artistic taste, the demands they place upon art, are growing with incredible speed. . .That is why I feel that every attempt at simplification on the part of the composer is a mistake."

The portions of the Second Suite that will be played Monday night were first played in this country by the Boston Symphony Orchestra on March 25, 1938, with the composer conducting.

—Flambeau Photo, Warren Gerard

CONCERT REHEARSAL. Dohnanyi ponders a point during a rehearsal for Monday night's symphony concert.

Lecture Slated On Ad Design

Howard N. King, widely known consultant on typography, will give an illustrated lecture on advertising design, Tuesday March 18, at Florida State University.

The lecture will begin at 7:30 p. m. in the geology building auditorium, and is free and open to the public. It is being sponsored by the FSU chapter of Gamma Alpha Chi, national advertising honorary for women.

Two Parties Endorse Moore For President

Collegiates Name Gordon For Veep

About 60 Collegiate Party delegates met in the historic House of Representatives Chamber Wednesday to endorse Art Moore for president and nominate Gerry Gordon for vice president of the student body.

Gordon, whose race was termed the "red hot" one of the coming election by Bruce Brown, accepted saying that he work for the day "when the two parties will be equal."

Moore, an independent candidate for the presidency, told the convention that they shared with him "a deep interest and care for good student government."

Bruce Brown, president of the Freshman Class, was unanimously elected party chairman for the coming year. Kip Tichenor was selected as vice chairman.

Several vacancies were left on the party's slate and no nominee or party officer met any opposition from within the party's ranks.

The office of party whip was created with Herb Schmuck being elected to fill it.

The party nominated Tom Hale and Bob Meir for the Board of Publications. Judy Ramsey was endorsed in her campaign for clerk of the Honor Court and Buck Bryan was endorsed for chief justice of the Honor Court.

Cappy Archibald was endorsed in her race for president of the University Recreation Association.

Other party officers selected were Nancy Denham, recording secretary; Charlotte Stoker, corresponding secretary; Kay Lloyd, treasurer; and Gail Nelson, publicity chairman.

Representative Mallory Horne of Leon County keynoted the convention. He talked to the convention about the youth of America and the future it faced in creating a better government.

Wesley Players Set Spring Play

Alpha Nu chapter of Wesley Players will present their spring play, "Gramercy Ghost" by John Cecil Holm, March 20, 21, and 22 at the Wesley Foundation, at 8:15 p. m

Sandra Reese plays Nancy Willard who inherits, not a fortune, but a ghost by the name of Nathaniel Coombes: George Goldstein takes the part of the ghost.

Others in the cast are Bea West as Margaret Collins, Reggie Ivory as Parker Burnett, and Virgil Austin as Charlie Stewart. Seven other comical charatcers are included in the play.

"Gramercy Ghost" is concerned with a woman who inherits the ghost of a Revolutionary soldier who was ambushed and killed in 1776. Complications arise when the ghost falls in love with her for she is already engaged to Parker Burnett. Nancy, the young woman, also meets a newspaperman, Charlie Stewart, who becomes interested in her.

Through Nathaniel's help, Nancy's problems are solved with the last act giving a surprise ending.

Each year the Wesley Players present a full length play in order to buy theatrical equipment and present their other plays free of admission charge. Admission for the play is 60 cents per person. It will be held at 706 W. Jefferson St. at the Wesley Foundation.

GLASS MENAGERIE PLAYERS. Bryant Simms, as the "gentleman stranger," pleads with Betti Seay in this scene from "The Glass Menagerie," which opens tonight in Westcott.

Tonight In Westcott

Four Veterans Star In 'Glass Menagerie'

Four veteran thespians will star in the Speech Department's production of Tennessee Williams' "Glass Menagerie," scheduled for tonight, tomorrow night, Monday night, and Tuesday night.

Eli Ask, Isa Cohen, Beti Seay, and Bryant Simms form the cast of this play, which will start at 8:15 in Augusta Conradi Theater.

Eli Ask, seen recently as Ali Hakim in "Oklahoma," will star as Tom, the poet-narrator. He has also taken roles in other FSU plays and numerous professional plays: "Vief from the Bridge," "Tevya and His Daughters," "Oedipus the King," "Aladdin and His Wonderful Lamp," "The Skin of Our Teeth," "Lilliom," "The Rainmaker," "Down in the Valley," and "Twelfth Night."

PRO STOCK

The senior music therapy major has also had three years of professional stock company experience in and around New York.

Amanda, the mother who lives in the past, will be portrayed by Isa Cohen, a graduate student at FSU. Miss Cohen, who directed "No Exit," a successful experimental speech production presented last November, has had much professional experience.

She is from New York, where she studied with Stella Adler. For a while she was head of the workshop of Vanessa Brown's American Acting Company. In that capacity she coached such young stars as Lloyd Bridges, Ricardo Montalban, and Beverly Michaels.

Miss Cohen has also appeared in television shows in both Hollywood and New York.

Beti Seay will portray Laura, a gentle, sensitive young girl who can't, or won't compete in a world of selfish ambitions.

Miss Seay, a junior transfer student from Jacksonville University, has been in three FSU productions this year: "Amahl and the Night Visitors," "Caesar and Cleopatra," and "Sleeping Beauty."

Active in the Jacksonville Little Theater, she is a drama major and a member of the campus Theatre Dance Group.

The Gentleman Caller, personification of the outside world in conflict with Laura, will be played by Bryant Simms, also a transfer from Jacksonville University.

A drama major, Simms has played in "Rainmaker," 'Caesar and Cleopatra," and "Sleeping Beauty" He, also, was active in the Jacksonville Little Theater.

FSU Assistant Director of Theater Richard Fallon will direct "Glass Menagerie" He summarizes the plot: "The play concerns Tom, narrator and actor, who returns home to St. Louis after traveling, having learned what he'd been seeking, as a poet, for many years.

'What he'd learned was the true value of his sister Laura, who had always represented to him the pure beauty he hadn't found in life"

Tickets can be obtained at the Westcott Ticket Office or, before the performance, at the box office at Conradi Theater.

SECOND DONATION DATE SET AT BLOOD BANK

The newly-enlarged Florida State University blood bank program will continue Tuesday, March 25 with the second donation date; donors will be accepted from 1:30 to 4 p.m at the University Hospital.

Approval, health, and age requirements have been announced, as set up by the hospital staff. According to Hospital Administrator Hinton F. Bevis, the prospective donor must be in general good health and be between the ages of 21 and 50 years. A health check will be made before the donation.

PERMISSION

Donors between ages of 18 and 21 will be accepted if they are married or in the Armed Services. Others under 21 must have permission from parents or guardians. Parental permission forms may be obtained at the hospital reception desk and must be presented, signed, at the time of donation.

Bevis said that donors are urged to eat as much of the following foods as they wish before giving blood: coffee or tea with sugar (if desired) but no milk or cream; fruit or fruit juices; carbonated drinks, toast with jam or jelly, but no butter, plenty of water. The donor should not eat foods with fat, or dairy products, for at least 4 hours before the donation.

Bevis stated that the student blood bank and the faculty-staff blood bank, which are separate, have replaced an average of 8 to 10 pints of blood per month.

FACULTY-STAFF

The faculty-staff blood bank, also undergoing expansion, will have its first donation date on April 8 from 1:30 to 4 p.m.

With increased supplies of blood available in the two banks, it will be possible for any FSU student, faculty, or staff member, and their families, to obtain blood in an emergency.

Regardless of where the student is at the time of the emergency, blood can be obtained at a very small price by contacting Bevis or Dr. Edwin Hartz, university chaplain. The only stipulation is that the recipient must secure donors to replace the blood he uses.

Two Contests Provided At Student Meet

Contests for the women's and men's vice-presidential nominations provided the only real competition in Tuesday night's Student Party convention.

The convention, held in 124 Science was marked by a series of single nominations, with Art Moore being the only candidate for the party's endorsement as student body president.

In the women's veep race, Ada Leigh Wall won over Diane Godin by a vote of the conventioneers of 55-33. Miss Wall was nominated by the present women's vice-president, Polly Atwater.

Joyce Weatherup, secretary of honor in the student body president's cabinet, made the nominating speech for Miss Godin.

The only other contested race, that of men's vice-president, saw Sophomore Class President Ramon Arnold receive the nomination over Soph Senator Jim Apthorp.

Arnold polled 54 votes to Apthorp's 29 Arnold served as senator for the Freshman Class last year

In other action, the Student Party nominated Party Chairman Mattox Hair for the student body vice-presidential post by acclamation. Hair yielded the chair to Campaign Chairman Jackie Soud during his nomination.

OTHER OFFICES

Other offices included secretary of Senate Joyce Combs, by acclamation; chief justice of Honor Court: Buck Bryan, endorsed by acclamation, clerk of Honor Court: Judy Ramsey.

Chairman of the University Court: Nancy Worrall, nominated by acclamation; president of the University Recreation Association: Cappy Archibald, endorsed by acclamation; and Bob Wolfenbarger, Board of Publications, nominated by acclamation.

In preliminary actions, the party chose Sophomore Senator Ronnie Clark as party chairman for the coming year. Clark, with no opposition, was elected by acclamation.

Jackie Soud, former campaign manager of the party, was given the post of vice-chairman, also by acclamation.

The offices of recording secretary and corresponding secretary drew nominations of two people for each.

For recording secretary, Brenda McCampbell edged out Rita Garnett by 50-41. Miss Garnett was also defeated in the corresponding secretary election, this time by Ann Easterday, 47-39.

Clarice Conk, the only nominee for treasurer of the Party, was elected by acclamation, and Barbara Bryan was elected campaign manager by the same method.

The office of publicity chairman, the only other office to draw two nominations, saw Sandra Lambur edge Lynne Williams by a vote of 49-37.

University Bigwig Foresees Finish For Collegiates

Cartell Williams, a member of the steering committee of the new University Party, said that he believed that the University Party has replaced the Collegiate Party as the major second party on campus

"It is evident to us that the Collegiate Party has now folded. When a party can nominate only one candidate for a major office, it ceases to be a major party," Williams said.

Williams added that this made the University Party the Student Party's major opposition.

Taking a blast at the Student Party, Williams said, "It is obvious to all that the Student Party convention was fixed. They have nominated a slate of hand-picked candidates"

Williams emphasized that the University Party would have a full slate of candidates

He added "We believe that those students who are not in the operating clique of the Student Party will support our movement."

At Flambeau press time, Williams was considered the leading candidate for the University's nomination for president of the student body.

Williams comes from Chipley, Florida, where he was a candidate for the state legislature two years ago. He is a veteran.

Speakers Bureau Greater Success

The response received by Joyce Combs, chairman of the Student Speaker's Bureau this year is the best indication of the tremendous good will job being done by this student government organization.

UNDER HER direction, the Speaker's Bureau has doubled its size and scope and will send students to over 50 civic clubs during the Easter holidays to represent FSU. Eighty will participate in the program which is financed by student government on a $1200 budget.

Many clubs requesting speakers were turned down because of lack of funds. With a larger budget the program could have reached over 100 clubs which requested speakers.

TO THOSE unfamilar with the Bureau, it sends students, usually a man and women, to Rotary, Lions, Optimist, Kiwanis and similar clubs upon their request to talk about FSU. Students are assigned to address groups in their home community over Easter weekend.

There is no set speech for the participants to use. They are encouraged to give their own account of the university, of campus life in general, and their own activities in particular.

PUBLIC RELATIONS is not the only function of the Bureau, however. Besides informing citizens around the state of the progress and functions of FSU, the students gain valuable experience and contacts in their hometown.

They will also do a great service to the university by emphasizing in their talks the need for private endowments for scholarships and loans—a suggestion urged by student government.

FSU has much to gain in the way of future students (sons and daughters of the civic club members), financial help, and recognition throughout the state by the outstanding promotion methods of the Speaker's Bureau.

★ ★ ★ ★ ★

Senate-Or High School Council?

The Student Senate narrowly escaped relegating itself the rank of a high school student council Wednesday.

IN THE closing moments of a long and heated session a week ago, a suggestion that the Senate do something to promote student government, resulted in the appointment of a committee to study ways and means to do this.

This week they brought their suggestions back to Senate. They were: 1. That awards be given to outstanding participants in student government. 2. That a bulletin board be placed on Landis Green to publicize the activities of student government. 3. That something be given out at the polls on election day.

TO US THESE suggestions sound like something a high school student council would do. Not the Senate of a large state university. We think that if the Senate has little better to do than promote itself and student government, then it has no legitimate reason for existence.

The Senate does have a reason for existence, however. It exists as a forum for expression of student opinion and to regulate and coordinate in some measure the activities of the students.

ONLY WHEN they do this, do they fulfill their purpose.

Fortunately the Senate postponed final consideration of these suggestions. We hope they postpone consideration indefinitely.

Student government cannot be promoted by bulletin boards or "outstanding participation" awards. Nor can giveaways at the polls really help it.

ONLY WHEN the actions of student government promote the interests of all the students, will student government be promoting its own improvement.

When the Senate realizes and promotes student welfare and desires, the Senate is promoting itself as well.

Are Bohemians Intellectual?

One of the truly great functions of any university has always been to serve as a haven for original and creative thinking Thus in addition to teaching and pure scientific research universities have been centers of culture providing forums for discussion of the most advanced streams of critical and analytical thought.

IT IS GOOD that men should have a common meeting ground wherein they may discuss among themselvee the issues that may be troubling or perplexing them. It is also quite true that this sort of dialectical process can result in revolutionary doctrines and philosophic innovations of every nature Thus it is unfortunate that young men can too often be caught up in the intellectual process to the extent that perspective on life is lost.

For every original thought promulgated by many of the self styled "intellectuals" around any campus there is a great body of material bantered about by these individuals that is as trite, dull, lifeless and lacking in value as the society which they are so prone to criticize. It will ever be thus; but, this fact in itself is no source for condemnation of the worshipers of non-conformity at any price.

IT IS WHEN those who cry out against the superficial life become superficial themselves that we are most prone to criticize them. All too frequently the externals of appearance and dress are taken as evidence of human worth by these "deep thinkers." Thus anyone who likes to discuss avant garde matters may be recognized as a true genius merely by neglecting to shave, or bathe, or get a haircut. The theory seems to be that socially unacceptable behavior is excusable for this breed of the intellectually "elite," because in their not so humble opinion society's standards are all wrong anyway

BECAUSE WE LIKE to think of the Flambeau editorial page as a proper outlet for student opinion of all shades, we are inclined to be quite tolerant of transgressions of the norms of behavior and appearance by anyone who desires to contribute his thoughts to our readers. In short we do not think it is wrong in itself to be radical or not to be very Ivy League.

Where we do raise our voice in criticism, however, is when disregard for the norms is used as a cloak for shoddy thinking, amateurish attempts at "self expression," and an actual pride accruing to the individual from saying something he thinks is original.

VERY OFTEN emotional mouthings, supposedly laying bare the soul of the anguished would-be thinker, are really items all Freshmen are exposed to in Humanities or Social Sciences. Such displays of overworked catchwords and warmed-over ideas, when stated in an emphatic enough manner and in the company of egomanic colleagues, succeed only in making the would be philosopher appear ludicrous to the outside world.

The conclusion may be drawn that those who so love to indulge in these attempts to be original externally are too often victims of the delusion that they are necessarily above the high school level in thought merely because they are below the elementary school level in behavior.

Politician Must Play Politics?

By JACK PEACOCK

Richard A. Mack, former head of the Federal Communications Commission, has left Washington a defeated, dejected and jobless man.

In leaving Washington on Wednesday, he made a final statement to the House Sub-committee that is investigating the FCC.

Mack said, "It is hard to slam the door on old friends."

This in its essence means, whenever a man attains a position in the federal government, he is constantly plagued by his old friends and associatee for personal favors.

True, it is hard to tell the people that helped you to your successful position "no", but sometimes it is the best policy.

Mack did what he thought was necessary, but to his sorrow it was wrong.

My question is just what a man is to do, if he doesn't repay political favors, he doesn't get anyplace; if he does repay these favors, he stands to lose everything.

This brings to mind a statement by an ex-governor of Florida, "You can't take Politics out of Politics."

I'm not advocating corruptness in politics, but asking a realistic question. How do you take the politics out of politics?

• • •

With Civil War raging in Indonesia-Sumatra area, the question can be asked, what position is the United States going to take in this "incident"?

There are several U. S. owned businesses and industries in that area and they have been seized by the rebels.

Is the U. S. going to protect American interests and possibly get us into a real shooting war, or are we going sit back and try to negotiate "after the smoke clears"?

Something to be thinking about at any rate . . .

• • •

And explain this if you can Five of the twelve districts in the Florida Congress of Parents and Teachers have refused to accept a plank that the PTA will support the United aNtions.

The plank was to read: "We advocate conscientious support of the United Nations and its agencies; believing the United Nations to be an outstanding instrument for world peace."

• • •

In a very dramatic 47-47 tie in the two roll calls of the Senatae, Vice President Nixon broke the tie in favor of a Republican supported bill to raise the interest rates on G I. Loans.

This action by the Senate has now gone to the House for its approval. The new bill will raise the interest on G. I. Loans from the present 4½ percent to that of 4¾ percent.

This is good????

• • •

The Florida Parole Board has refused to let Nathan Leopold, former convicted "thrill-killer", live and work in the state.

Raymond Marsh, member of the Florida Parole Board, said that the board had decided against supervising Leopold in his plans to live and work in Orlando.

Apparently the board is afraid that Leopold is still a dangerous man at the age of 53 and after over thirty years in prison.

LETTERS to the EDITOR

Understanding Needed Of Man By Mam

TO THE EDITOR:

Mr. Emmett Jarrett believes that it is the obligation of man to "establish a relationship with the cosmos." He further states that through establishment of this relationship man "thereby defined his relationship with other men."

I wonder exactly what Mr Jarrett means when he speaks of "relationship." He flaunts this subjective term which is, without his definition, a mere patticism.

Is it necessary that an understanding of the cosmos by man is requisite to his understanding of other men? Let us accept Mr. Jarrett's principle of understanding the cosmos Realistically, it is obvious that any understanding is achieved by the efforts of many men.

Man, as an animal, must strive for existence. Also by his nature he must depend on other men. (Herd instinct or gregariousness if you like.) It is only through the understanding of man by man will any other human understanding come about. It is that, Mr. Jarrett, which is requisite to "cosmic relationship."

DOUGLAS TAYLOR

Modern Man Conforms; Loses Individuality

By PAUL SMITH

Man in America is in a predicament. Whether the predicament is of his own making or not is irrelevant. But the fact that our mass culture has robbed man of his individuality, except in isolated cases, is certainly a modern predicament.

The puzzling thing about the entire situation, however, is not that the situation exists, but that it is being propagated in the society by various disciplines within academic communities where the emphasis on the individual should be the greatest.

The aim of most modern analysts is to adjust the potentially creative "neurotics" to conform to the society in which they live. They turn out well-adjusted vegetables. Psychology is enabling man to become part of the well-adjusted mass. They are causing him to loose the potentially creative ability of the Renaissance man, and enabling him only to become a skilled robot, or cog in the wheel of a one-track society; to change the metaphor, one mass pre-frontal lobotomy.

Accompanying this, we find the fatalism of the multitudes in which the individual finds himself so surrounded that his opinions, he feels, are of no importance, and he therefore does nothing. "Why vote?" he reasons. "My vote is insignificant."

As the artificial **Gesellschaft** replaces the natural **Geminschaft**, we find the individual moving from the family, or "in group," to the larger, less personal "out group," thereby bringing about the de-individualization of man.

Mass media and slovenly educational methods all help to reduce mankind to an undifferentiated mass. Yes, the Zeit Geist condones the loss of identity. Sheep are more easily herded in mass.

Nothing is bright and sharp, just dull, warm and comfortable; man has become so submerged that he never sees the light; the pit is deep, and there is too much company to feel alone. Onemust feel aloe and appreciate being alone in order to look within himself.

We have wrapped ourselves in a cloak of conformity, and when we are pierced, we do not bleed, but trickle into the cloak of superficiality. Rip off the cloak, the protection; feel the heights and depths; create; become man.

Education Changes To Be Panel Topic

The public is invited to attend a discussion of the topic "What changes are needed in American education?"

The panel will include among others Allan Thomson of the Humanities Department. The discussion will be held in Room 206, History Building on Wednesday, March 19, at 7:30 p.m.

"PROF SNARF MUST HAVE A TERRIFIC MEMORY—75 IN MY CLASS IN HISTORY AN' HE NOTICES EVERY TIME I SKIP."

Band Concert Best Attended, Pleasing

By DALE JENSEN

The University Symphonic Band Concert given in W last Wednesday was the best attended formal concert group that we have yet witnessed. This was fortunate program selected was also one of the most pleasing that we have heard.

One of last year's critics for this publication lamented that the concert band was handicapped by a paucity of really fine literature. If Wednesday's concert was any indication of the quality of contemporary writing for this medium, the critics may rest his fears; the concert band has come of age.

Equally gratifying is the apparent fact that Manley Whitcomb, the conductor of the 85-piece ensemble, has a really marvelous organization, well capable of doing justice to the works performed. The result was an outstanding concert.

The program opened with William Bergsma's very modern-sounding, **March With Trumpets**, which was composed in 1957. Respighi's rather slow-moving but lyric **Huntingtower Ballad** followed.

The premiere performance of Charles Carter's **Concert Piece For Band** was the high point of the first half of the program. Mr. Carter, who is on the FSU music faculty and who arranges all the music for the Marching Chiefs, is a fine craftsman, musically speaking We feel that his serious writing tends to reflect the field band power too much, and that there are finer contracts to be had in sound textures and dynamics, but the fact remains that he has a definite gift for band writing.

We look forward to hearing more from Mr. Carter in the near future Closing this portion of the concert was the **American Overture For Band**, by Joseph Jenkins, another very rec but in a lighter vein. T ture absolutely bounces effervescent humor that this critic to break into a smile at every hearing.

After the intermission Mayo took the podium ducted Vincent Pe **Pageant**. Mayo is a grad dent, returned to the camp a two years' tour of du seas, and is perhaps membered for his fine Drum Major of the Chi proved himself a sensit conductor this week, as he molded music in his inte of this contemporary wor

Mr. Whitcomb returned a small, select group Grainger's charming Hill 2, and provided a mos demonstration of the ca of the wind ensemble mostly high woodwinds. G number completely r common concept of a mas wieldy style of writing represent a band. Henry **Shoonthree** was another delicate, folkish idiom Don Gillis, is aptly desc subtitle to the work, **A Sy Portrait In Oil**. Gillis m sess a well-developed humor, for his writing with it. The most ep audience demanded and encores, the **Beguine For B** Glenn Osser, and Sousa **and Stripes Forever** march a wonderful evening O and congratulations to M comb and the Symphonic

Also thanks to WFSU announcing, on the pro several recent concerts, and time for rebroadca is of interest to many the performers involved.

Students Can't Rite No Good English

By ART ALBRECHT

One of the worst problems of which students on this c face is the inibility to write good english. That is, the know how to use correck speling, or, puncuation, or just good enough grammer, so we are told.

Now between you and I this here is a very awful situation The English dept. has said that this is something of which they get many comments from busness leeders. These people in busness complain that the english we learn here ain't so very much good. They have the nerve to be writing letters to our dept and saying that FSU students can not even writ good letters of aplication for job with them.

And, more so, they state emfaticly that some FSU grads are fired because of atrocous english used in business correspondance and et cetera.

Usage of bad english by college students is not an new inovation. Its the sort of a thing that's been going on along time. And we keep on going on like them before us.

The reason isn't because we ain't tought better. Neither is it because of the fact that our teachers sometimes use bad spoken english Its either because we are lazy, or we think it is unimportent to speak and writ good english, or because of the reason that we don't want to because we'll seem sno we don't sound like other when they use terrible

Now this kind of should be stoped regardles cause it makes the Englis people look horrible wh use those kinds of g which is unintelligant whom wants to loose a jo ly because of making a fect with using wrong

We should realy try our best. And, I don't kn what you and I couldn' diferantly than we do if ed.

Actualy I don't wory a about my english And even worry pretty muc the studant bodies engl they stopped giving Jr examinnations

Some people literally up when they heard th exams were over wit said that it made it se tho we were all excele our english because of th son that we don't no longe a test And they thaugh this weren't true

Personaly, I'll take the of the dept, that our s and, puncuation, and g is good enough. If they that most of ourselves awful with english, the s of the exam was justyf if english 101 and 102 m good grammerarians, tha of okay with 1.

The Critic's Corner

Two Juniors Present Notable Recitals

By DIXON REDDITT

Martha King and Billy Alton, both juniors in the Scho Music, presented an outstanding certificate recital last M in Opperman.

Both performances were marked by evidence of extreme talent and great fluency of execution. Alton opened the program with a thoroughly delightful rendition of two "Ancient Airs for Lute", arranged by Respighi. There is practically nothing that Alton cannot do technic-wise on the piano, and the rest of his program amply demonstrated the above thesis. To say that many difficult passages were played with seeming ease in the true virtuosic tradition would be an understatement.

Alton's last group, the Chopin "Etudes, op. 25," numbers 7, 10, 11, and 12, were so phenomenally brilliant that the usually staid recital audience interrupted the group several times with prolonged applause.

During the second part of the program, Alton accompanied Martha King, with an almost self-effacing finesse and control. We would like t heard a little more pian during Miss King's song perhaps a little more c in the preceding turbulen ano works.

Miss King has a rema soprano voice, and used especially in the Boito "L notte in fonde al mare" she seemed perfectly at stylisticolly. We look fo to hearing her as Mimi in coming production of heme".

Miss King's Mozart was with clarity and grace, a too charmingly for its so text.

Elgar's "Sea Pictures" very effectively done. owing to their low tes made Miss King almost a to. We would have like to heard Miss King sing glorious soprano range often.

It was altogether a mos pressive recital. We enjoyed

Swimmers, Gators At It Again

Larry Block

The Road Back

On Wednesday the tennis team opens its segson here with match against Georgia. And from all indications the netters on the road to recovery.

Last year Coach Keith Pitchford's crew had one of their seasons winning only six of 17 matches, but Pitchford says, year will be a different story."

We were sorry to see that the University of Miami was dropped from this year's slate as any match involving the Hurricanes is always worth seeing.

Their tennis team could be termed the Kentucky of collegiate tennis.

Even though the Seminoles would lose, any tennis fan got a from just wgtching some of the best young talent in the nation.

But tennis matches here in Tallahassee draw very poor crowds, even far a tegm like Miami. Probably the best attraction of this year will be Georgia Tech.

The Yellow Jackets have as good a sophomore netter as you'll find at any college in the person of Ned Neely. He will probably be the number one man.

That's not bad considering last year's top player is still around and might be the number three man on the squad.

HESTER BETTER THAN EVER

Last year's big gun Lex Hester is back and "is looking better than ever," says Pitchford. "He's been out on the courts at every opportunity, and has improved in every aspect of his game."

He was the Seminoles' top man last year and had to face the best the opposition had to offer. And he more than held his own.

Just as in any athec sport it takes practice and lots of it to become good, especially if a person lacks some of the natoral physical endowments.

In tennis, height is such an advantage. Along with that will usually be g longer arm stretch and a longer running stride. Being able to cover a lot of ground with as few steps as possible prevents g person from tiring as quickly.

A sumber of years ago I had the pleasure of becoming acquainted with Tony Trabert, former National Amateur Tennis Champion and Davis Capper.

He was above average height, standing a good 6-1 and "was I'm over six feet. Tennis is unlike most sports, in a singles match in that you're the only one on your team. There's no one there to help you if the going gets rough.

BRAINS IMPORTANT

Tennis isn't just brawn, and a hard serve, while it doesn't hurt the game has to be combined with savvy. You have to use your head in a game like this.

Out thinking your opponent can win as many matches as strength," he explained.

Behind Hestec could very well be service ceturnee Jim "He'll definitely help us," said Pitchfard.

Frank Bryan is back again this year, and with g full season of competition under his belt, the former South Carolina junior is in line for a good year.

However, Fred Serrett number three man did not return to school and the team would have been that much stronger with him.

Both Jackie Crew and Jim Maddock have looked good in practice and will prabakly be in the top six.

That leaves one spot remaining with about four men in contention for it.

This could be ona of Florida State's best years at the net game.

On Campus with Max Shulman

(By the Author of "Rally Round the Flag, Boys!" and, "Barefoot Boy with Cheek.")

FOR BETTER OR FOR WORSE

The first thought that comes into our minds upon entering college is, of course, marriage. But how many of us go about seeking mates, as I like to call them, in a truly scientific manner? Not many, you may be sure.

So let us today make a scientific survey of the two principal causes of marriage—personality oeed and propinquity.

Personality need means that we choose mates because they possess certain qualities that complete and fulfill our own personalities. Take, for example, the case of Alanson Duck.

As a freshman Alanson made a fine scholastic record, played varsity scrabble, and was president of his class. One would think that Alanson was a totally fulfilled man. But he was not. There was something lacking in his life, something vague and indefinable that was needed to make his personality complete.

Then one day Alanson discovered what it was. As he was walking out of his class in Flemish pottery, a fetching coed named Grace Ek offered him a handsome red and white pack and said, "Marlboro?"

"Yes!" he cried, for all at once he knew what he had been needing to round out his personality—the hearty fulfillment of Marlboro Cigarettes, the soul-repairing mildness of their fine tobacco, *the easy draw of their uaparalleled filter*, the ease and convenience of their crushproof flip-top box. "Yes, I will take a Marlboro!" cried Alanson. "And I will also take you to wife if you will have me!"

"La!" she exclaimed, throwing her apron over her face. But after a while she removed it and they were married. Today they live happily in Baffin Land where Alanson is with an otter-glazing firm and Grace is a bookie.

Propinquity, the second principal cause of marriage, simply means closeness. Put a boy and a girl close together for g sustained period of time and their proximity will certainly ripen into love and their love into marriage. A perfect example is the case of Fafnir Sigafoos.

While a freshman at Louisiana State University, Fafnir was required to crawl through the Big Inch pipeline as part of his fraternity initiation. He entered the pipe gt Baton Rouge and, alone and joyless, he proceeded to crawl north.

As he passed Lafayette, Indiana, he was agreeably surprised to be joined by a comely girl named Mary Alice Isinglass, a Purdue freshman, who, oddly enough, had to crawl through the Big Inch as part of her sorority initiation.

When they reached the Vermont border they were going steady

Chatting amiably as they crawled through Ohio, Pennsylvania, and New York State, Fafnir and Mary Alice discovered they had much in common—like a mutual affection for licorice, bobsledding, and the nonsense verse of Arnold Toynbee. When they reached the Vermont border they were going steady, and when they emerged from the pipe at Boothbay Harbor, Maine, they were engaged.

After a good hot bath they were married and today they live in Klamath Falls, Oregon, where Fafnir is in the weights and measures department and Mary Alice is in the roofing game. They have three children, all named Norman. © 1958 Max Shulman

• • •

Propinquity is sure to mean love when you put yourself close to a pack of Marlboros, made for your pleasure by the sponsors of this column.

Tracksters At Montgomery In Indoor Games

By BEN BALSER
Assistant Sports Editor

Eighteen teams, including six from the SEC, will provide the competition for Florida State's track team tomorrow at the Coliseum Indoor Games at Montgomery, Ala.

Head coach Mike Long will take a f2 man squad of Seminoles to the meet in which the Florida Gators are the favorites. Last season the Tribe finished fourth behind LSU, Alabama and Auhurn.

LSU will not be at Montgomery to defend its title beeause of a confliot in its schedule. That means a new champ will emerge from the meet.

Alabama gnd Auburn are also highly favored and Coach Long said "some of the toughest competition we will get all year will be gt this meet, but I feel sure we will be in contention."

IN GOOD SHAPE

"The men are in good shape for the most part and we did get some experience bebind us at the ACC meet."

For many of the teams, including the Gatnrs, it will be the first mret of the season.

One of the most exciting events should be the 60 yd. dash. Ellis Goodloe, the Florida dashman who holds the SEC record in the 100, will compete against some of the best sprinters in the south. Running in this event for the Seminoles will be Jack Terwilliger and Jim Casteel.

Terwilliger and Casteet are also members of the FSU mile relay team which set a new school record this season. Tha other members of the relay team are Doyle Ruff and Charley Nye.

Nye and Ruff will run in the half mile for the Tribe Mike Conley the senior distance man for the Tribe will match his ability in the mile and two mile. Tom Keeney, a soph from Miami, will glso run for FSU in the distance events.

Casteel will run in the low hurdles along with Claude Grizzard a promising soph.

HIGH HURDLES

Tom Chivers, g atandout junior who was one of the hest trackmen in the Miami area during his high school days, will be the Seminoles' only entry in the hiah hurdles.

Dick Elwood, who holds the school pole valoe mark at f3-2, will represent the Tribe in that event. Also pole valutina will be Ted Keen, a versatile soph from Atlanta.

The high jump will be handled by Jim Browning and Tom McDonald. McDonald, along with Casteel, will compete in the broad jump.

In their first meet of the year, the Atlantic Coast Conference Indoor Relays, the Seminoles finished second behind VMI.

1958 FLORIDA STATE UNIVERSITY TRACK SCHEDULE

March 1—Atlantic Coast Conference Indoor Championships, Chapel Hill, N.C

March f5—Coliseum Indoor Games (Limited entry), Montgomery, Ala.

March 27—Furman, Tallahassee.

March 29—Florida Relgys, Gainesville.

April 2—Roanoke College, Tallahassee

April f2—Florida, Gainesville.

April 19—Kansas Relays (Limited entry), Lawrence, Kans.

April 26—Alabama or Penn Relaya (final approval pending.)

May 1—Miami, Tallahassee

May 3—Florida AAU, Gainesville.

May 24—Georgia AAU (Limited entry), Atlanta.

June 7—Meet of Champions (Limited entry), Houston, Texas

June 13-14—NCAA (Limited entry), Barkley, Calif.

PASSING THE BATON. Jack Terwilliger, (right) hands the baton to teammate Mike Conley in a practice held this week. Trackster compete at Montgomery tomorrow in the Coliseum Indoor Games.

Second Base, Outfield Slot Still Unfilled

Florida State's baseball team entars its last week of practice with aecond base and left field still wide open to all contendera.

The Semtnoles' head coach, Danny Litwhiter, figures to have his starting lineop ready for Auhurn after tomorrow's scrimmage game.

Five of the regular positions have been nailed down. Dick House, all-America shortstop, will open at his award winning post while co-captain Owen McCarron gets the starting nod in center field.

ROGERS ON FIRST

Charlie Rogers who batted better than .450 for the freshman will handle the first base duties for the varsity. Dale Koch is expected to open at third base while Johnny Sheppard draws the starting catching assignment.

Litwhiler expects to be ahle ta name his starting pitcher iar the first game after he sees the Saturday scrimmage. Litwhilec already plans to use Joha Bristol in the second game.

The head mentor related that Bristol has a conflicting schedule that doesn't enable him to pitch in the first game.

KEYSTONE BATTLE

Jerry Donaway and Ray Bazzell continue to battle it out for the second base job made available by Pill Hunt.

Litwhiler pointed out that the right filed post will probably be handled by Jerry Couch, but Couch is atill involved in the left field problem.

Gerry Philp, Buddy Cash and Charlie Pinkermaa besides Couch are in contention for the left field opening.

Litwhiler commented that he thought the team was ready gnd that practice is now back on schedule. Rain gnd cold weather had previously played havoc with the practice schedule.

Game Thursday

Prinzi, Conrad Lead Garnet-Gold Squads

Vic Prinzi and Bob Conrad have been named by Head Coach Tom Nugent as rival quarterhacks for the Garnet and Gold intrasquad football clash on Thursday night.

Conrad, a sophomore, replaces Joe Majors, who injured his knee last Saturday. Nugent said that Majors will miss the game.

"His doctors advised that he not play in the game as it will be two weeks before he is fully recovered. We don't want to take aoy chances."

"Before his injury, be was even with Prinzi for the starting quarterback position," said Nugent.

McCORMICK SECOND

Working behind Conrad will be Gene McCormick who was one of the big surprises in last year's game. McCormick missed last season with a broken ankle.

Prinzi will be backed by Frank Springer, a sophomore.

Another first team maa probably lost for the game is Ronnie Hinson, sophomore, who injured his haek la Tuesday's scrimmage. Moving np to fill his place at right half is Jack Espenship, also a sophomore.

"Espenship and Hinson had been just about even before Hinson hurt himself," said Nugent. "Wayne Shewey is now the number two man at right half."

WHITEHEAD AT FULLBACK

One of the outstanding players of spring practice, Bud Whitehead, has been promoted to the top spot among the fullbacks. "Floyd Lawrence is running number two and is followed by Bob Douglas and Terrell Teague, who also are looking very good."

Nugent, who promises "a red hot game" Thursdgy night, plans to divide the team into the Garnets and the Golds following tomorrow's practice. "Captains will be alected and the starting lineups named. I can safely say right now that the game is going to be an excellent one."

Linksters Face Rollins Here

Florida State's golf team goes after its fourth win of the season here tomorrow against Rollins at the Capitol City Country Club.

The Tars, always one of the state's better teams, finished fourth in the receat Florida Intercollegiate Tournament behind Florida, FSU and Miami.

The linksters were supposed to tangle with Pensacola Navy today, but the match was cancelled.

PARKER TOPS

With junior Dick Parker leading the way with a three-under-par 69, the Seminoles had little difficulty downing Jacksonville Navy, 27-0 here Tuesday for their third dual win.

Parker, from Niagara Falls, N.Y., playing his first competitive college match, teamed with Phil Fagan and easily downed the Navy duo of Gorrell and Peters, 9-0.

Other winners for the Tribe were Bob Shave, 73, and Mel Fleischer, 72, Don Torppa, 7f, and Dick Hanscom, 74.

Other victories came at the expense of Wisconsin and Moody Air Force Base.

Durham All-Stater

Junior guard Hugh Durham was named to the first team on Florida's all-state basketball squad in a poll by the Florida Times-Union.

Burt Deckel, the Seminoles' top scorer made the second team while Larry Strom, Don Boltz and Jim Liteky received honorable mentions.

Florida Has Edge At Home—Stults

By TOM HALE

The FSU tank team closes another successful swimming season tomorrow night when they meet arch-rival Florida in a pay-off match in Gainesville.

With the rivalary deadlocked at 2-2-f, the Tribe will be out to better the 43-43 tie suffered earlier in the season against the Gators in Tallahassee.

Boasting a 9-1-1 recard, the FSU tankers are better on paper than theic Florida counterparts, but as Seminole coach, "Bim" Stults said, "Florida will have the advantage on their home pool, it makes a lot of diffecence when you have 1,000 people cheering for you, and I wisk we could kave some FSU fans down there cheering for as, it makes a world of difference."

Former world butterfly record holder, Phil Drake, has been the mainstay of the Florida team which has a compiled four victories and two losses in addition to the FSU tie. Army and North Carolina, the two conquerors of the Gators, are considered by many among the top tank teams in the nation.

SEC CHAMPS

Last week the Gators aplashed to the SEC championship as they racked up more than twice as many points as their nearest competitor.

The Tribe's only defegt came at the hands of Southwestern Conlerence champs, SMU, as they setback the Seminoles 51-34 in their second outing of the season. Since then, the Tribe has dunked Georgia twice, Georgia Tech, Rice Miami, Birmingham Southern, Kentucky, Oberlin College, and Ohio University.

Headiog the Tribe is veteran Ken Abbott. In the Miami meet Abbott topped two school recards in the 50 and 100 yard freestyle events. His times of 23.2 in the 50 and 51.3 in the 100 qualify kim as one of the best freestylers in the country and may win him all-americaa honors.

With Abbott, Ryan Ray, Paul Hammond, and Glen Thatcher, the Seminoles have strength in the sprints. Florida, with SEC champ Dave Calkin leading the way, will be slightly stronger in the distant freestyles. FSU's Tom Metz will be out to better the second place he received in the 220 in the last Florida meet.

A good battle is expected in the 200 yd. backstroke with the Gator's Bill Ruggie placed against FSU's Jim Wentworth. Wentworth has had better timea than Ruggie, hut has yet to defeat the Florida flash in two years of competition.

LEWIS IN RELAY

Don Lewis is the key man for FSU's chances in the 400 yd medlay relay. Out for a semester, Lewis wasn't in top condition in the last meet and has come along rapidly since then. Stults said, "If we can take the medlay relay we ought to win the meet, but we'll

just have to wait and see."

Entering his last dual meet, senior Joel Jacobs rates as a top man in the Tribe's chances tomorroy night. Jacobs, holder of the 200 yd breaststroka school record, will face his toughest competition against Florida's Tom McConnell. Jacobs beated McConnell by g scant yard last month and since then McConnell has had times better than Jacob's beat efforts.

Bob Weber and Bill Simpson head the list of FSU divers in a deciding event. Weber placed first in the previous Florida match and Simpson finished third. Bob Woods of Florida came in second and may well do better Saturday night. "It's alwaya tougher to place high in diving wheo you are away from home", commeated Coach Stilts.

For seniors Lewis, Jacobs, Abbott, Ray and Graham Teschke, the Saturday night clash with Florida will close out their collegiate swimming careers.

Gymnasts Vie For AAU Title

Seminole gymnasts invade Florida Southern College tomorrow seekina its ninth straight Florida AAU title.

Coach Hartley Price has entered two teams. The first is his NCAA varsity squad plus the Florida State Gymkgna comprised of freshmen and graduate students.

Price said that, "altho there will be competitors fcom the Miami area, St. Petersburg, tha University of Florida, and Florida Southern, the main competition will come between our varsity and the Gymkana teams."

Competing for the varaity will be Chick Cicio, Fernando Lecuona, and Larry Malmlin in the all-around; Don Preisser on trampoline and tumbling; Laird Anderson, rope climb and flying rings gnd Roger Webb in free exercise and tumbling.

The tenative Gymkana lineup will feature former National AAU all-around champion Jack Miles, graduate student Bob Murray, and three promising freshmen, Beodus Baker, Jack Ryder and Bill Beavers.

Thus far this year, Florida State's aymnasts own a 4-0 dual meet record, and have copped both the Southern Intercollegiate team title and the Kentucky AAU championship.

Three Candidacy Declarations Filed

As of yesterday only three students had filed their declaration of candidacy forms to run for student government positions

Art Moore, independent candidate for President of the Student Body, who has been endorsed by the Student and Collegiate Parties; Mattox Hair, Student Party nominee for vice president of the student body; and Ramon Arnold, candidate for men's vice president on the Student Party ticket.

Students wishing to run for office in the April 1 elections must have filed their declarations of candidacy by Tuesday, March 18.

These forms may be obtained from the main desk of Longmire, and must be turned in to Sandra Rosenberg, acting secretary of elections, at either 209 Longmire or tthe Kappa Alpha Theta house.

Information pertaining to filing candidacy forms may be obtained from the secretary's office.

Tentative Dates Set For Recitals

The School of Music announces tentative dates for pre-Easter recitals.

The forthcoming programs by date are:

March 21: Graduate Recital, Anne Verran, piano and Merrimon (Mike) Hipps, trumpet. Friday night 8:15 Opperman Music Hall.

March 24: Senior Recital, Beverly Brown, soprano, Monday night 8:15 Opperman Music Hall.

March 26, Graduate Recital, Ruth Mat Suda piano, Wednesday night 8:15 Opperman Music Hall

March 31: Senior Recital, Christine Bryan, alto Monday night 8:15 Opperman Music Hall.

April 2: Faculty Recital, Franciszek Zachara, Wednesday night 8:15 Opperman Music Hall.

Two Apply . . .

(Continued From Page 1)

business manager of the **Flambeau**, Claude Grizzard for advertising manager of **Smoke Signals** and Philip J. Kemhlowski for assistant advertising manager of **Tally-Ho**.

Student members of the Board of Publications are Ruth Fritchie, chairman, Jane Salley and Art Albrecht Faculty members include Dr Earl Beck, Dr. Richard Joel, and Dr. Elston Roady.

Two student members have been appointed recently, but will not vote since their appointments have not been confirmed by Student Senate.

'Donkey' Baseball Game Scheduled

A donkey-back baseball game between the Senior and Junior Classes will be held Saturday, March 22, Phil Knight, junior class president, announced this weekend.

The game will feature men from different fraternities and independent organizations playing baseball while riding donkey back. It will take place at Centennial Field downtown.

Several committees have already been appointed, Knight added, and help from all interested juniors will be welcome.

Tickets will be 65 cents per person and will be sold in fraternities, sororities, and dorms one week before the game.

This is the first Junior Class activity this year.

Campbell To Head Education Group

Dr. Doak S. Campbell, retired FSU president, left recently for Washington where he will head a National Education Association committee which will undertake an evaluation of elementary and high school education.

The committee will attempt to find the answers to supply a guide for evaluation of school curriculums in filling the needs of modern society. It will also study the ability of the present program in the United States to provide an education for all people.

The work of the group will continue through May. In addition to collecting and evaluating data for the project, Dr. Campbell will coordinate preparations for a seminar on educational evaluation scheduled for late April at the NEA headquarters.

PKT Celebrates Founder's Day

Gala things are afoot at the Phi Kappa Tau house this weekend Kicking off their fifty-second Founder's Day, the Phi Tau's are planning a formal banquet this Sunday afternoon.

Included in the guest list are: Dr. Robert Strozier, Dr. R. R. Oglesby, Mr. R. G. Brewer, and the featured speaker of the afternoon, Richard J. Young, national secretary of the Phi Kappa Tau fraternity.

A business meeting will be held Sunday afternoon prior to the banquet for residence counsel and alumni. Saturday there will be a combo dance in honor of the alumni, celebrating the 52 years of Phi Tau fellowship.

Lex Hester Cops Debate Honors

L. A. Hester, senior political science major, was named the highest ranking debater in the Magnolia Speech Tournament at the Mississippi State College for Women last weekend.

In the individual events, Hester received a superior rating in original oratory, Graham Stikelether received a superior in extempe and after-dinner speaking, and John Webb received a rating of excellent in extempe.

Interested . . .
in living a life of luxury and contentment as many Flambeau Staffers are now doing?
If you are an Advertising or Business major the opportunity is now knocking at your door!
Large amounts of experience and cash are waiting for YOU through the advertising department.

Campus Sororities Announce Initiations, New Officers

New officers of Chi Omega for the coming year are: Bonnie Tapley, president; Karen Kane, vice president.

Pat Hendry, secretary Rochelle Reynolds, treasurer; Mary Jane Johnson, pledge trainer.

Sally Snare, rush chairman; Betty Bucklew, social chairman; and Dana Bally, activities chairman.

Last weekend Chi Omega initiated Dana Ball, Betty Backlew, Roslyn Anderson, Willou Copeland, Sheila Coldwell, Carol Dorman, Peg Hannah, Lynn Corbly, Patty Pachler.

Linda Hobbs, Cat Johnson, Julie MacDowell, Gayle McWhirter, Sandy McWhirter, Bonnie Robinson, Jane Tyree, and Laura Virginia Wilson.

THETA INITIATES

The Kappa Alpha Thetas have fifteen new faces in chapter meeting now. The youngest actives, who were initiated last Saturday, are Mattie Guinand, Grace Taylor, Judy Magnell, Natalie Hobbs Marcille Duke, Nancy Gross

Also Bebe Parks, Shirley Ferriss, Abbie Fain, Linda Potter, Rita Garnett, Martha Lee NeSmith, Mary Anne Vickery, June Roberts, and Barbara Bennett.

SIGMA KAPPA

The closed sign appeared on the Sigma Kappa House Saturday as the following girls became active members: Nancy Alexander, Barbara Coppins, Elaine Eisenger, Kay Fouts, Liz Geasler, Shirley Kelly, Judy Leham, Dixie Mackin, Patty Mickey, Sheila Nichols, Jackie Owens, Pressy Parkins, Charlotte Stoker, and Betty Wheeler.

Following initiation the annual Pearl Banquet was held for the new initiates now wearing the Sigma Kappa triangle.

Taking the Sigma Kappa gavel in hand is Eleanor Cain. Other officers are Jackie Soud, first vice president; Linda Hill, recording secretary; Alice Turnbull, corresponding secretary; Marilyn Johnson, treasurer; and Dixie Mackin, social chairman

TRI DELT LEADERS

Tri Delt officers for the coming year are June Lasseter, president; Sara Clardy, vice president; Mary Anne Benedict, chaplain; Ellen Catron, marshal; Mary Anne Coleman, recording secretray.

Judy Dekle, rush chairman; Jackie Parker, social chairman; Pat Starnes, corresponding secretary. Linda Sherman, treasurer; and Ann Frick, house president.

DELTA GAMMA OFFICES

Delta Gamma has elected Barbara Mentzer to be their president for the coming year. Dian Orr and Barbara Joy Mueller are first and second vice presidents.

Other officers are Delane Vincent, recording secretary; Bettie Jane Cook, treasurer; Jan Dawson, rush chairman.

Peggi Gross, social chairman; Deanne Guthrie, house president; and Bobby Ann Stang, corresponding secretary. Jane Dale, public relations chairman Susan Knight, rituals chairman, and Betty Ingalls, Historian.

--Flambeau Photo Warren Gerard

NO, THEY'RE NOT working their way through college. They're pledging Alpha Delta Sigma, national professional advertising fraternity. Left to right: Walt Reardon, Frank Bulzoni, Charlie Soter and Ken Bowes.

Church News

Newman Club And BSU Elect

Two more of the student religious houses have completed their spring election of officers for the coming year. Holding an office means, as one retiring president has put it, "a little bit of glory and a great deal of responsibility and just plain hard work."

At the Newman Club: Pat Mullin, president; Bill Westendick, 1st vice-president; Barbara Toney, 2nd vice-president; Dick Fenton, treasurer; Beth Mueller, recording secretary; Charlotte Beckley, corresponding secretary, Margaret Toney, freshman advisor; and Art Powell, parliamentarian.

INSTALLATION SUNDAY

The installation ceremony will be held on Sunday at the Catholic Student Center at 6.30 p. m.; all are urged to attend and stay for the St. Patrick's Day Party immediately following

There will be two cars going to the Southeast Province Convention, one leaving early Friday morning, March 21, and another at noon that day. Anyone interested in attending the convention, to be held in Columbia, South Carolina, should contact the Catholic Student Center for further details.

• • •

The Baptist Student Union would like to announce the election of the new BSU Council, who are as follows: Richard Brown, president, Leanne Reetz, vice-president; Judy McMillan, enlistment chairman; Barbara Bevic, social chairman, Joan Peaden, devotional chairman; Pat Lambert, stewardship chairman; James Baird, promotional chairman; Linda Claville, publicity chairman; Earnest Stoutamire, music chairman

Louise Andrews, secretary; Ralph Russell, Training Union director; Hilda Campbell, Sunday school superintendent; Wayne Westmark, married student chairman; Dan Driscoll, graduate chairman.

Isabel Johnson, Inter-Faith representative; Bethany Blumer, overseas representative; Charles Prescott, BMOC president; Nancy Alexander YWA president.

Also, Dodie Zeller, Link editor; Henry Lewis, Baptist Player's director; Phyllis Stephens, librarian; Adrian Lovell, intramurals (men); Rile Edwards, LSB president; Ken Watkins, extension director; Bill Jenkins, house chairman; and Elaine Smith, intramurals (women).

• • •

Gamma Delta, association of Lutheran students, will have a social meeting this Sunday. Rides will leave South Cawthorn at 4:30 p. m. for a picnic at Killearn Gardens. All members and friends are invited.

• • •

The Episcopal center, Rage Hall, announces that services this Sunday at the Chapel of the Resurrection will be: Holy Communion at 8 a. m. and 9:30 a.m., and Morning Prayer at 11 a. m.

For Canterbury Hour Sunday night, Mr. Richard Fallon will present the third and final discussion and talk on "Modern Drama and the Predicament of Man." Evening Prayer is at 6 p. m., followed by supper and Mr. Fallon's talk in Rage Hall at 8:15 p. m.

At the Wesley Foundation we find excitement and anticipation, as 60 students prepare to attend the State Methodist Student Movement Conference, to be held this weekend at the Leesburg, Florida, camp. Two Greyhound buses will leave Tallahassee at 1 p. m. today, taking with them those lucky Wesley-Ites who registered . . . to miss Fri. afternoon and Sat. classes?!

Financially, the Foundation has assumed $300 of the $700 transportation cost, with the remainder being paid by those attending, at $10 each.

Students from over 10 Florida colleges and universities will attend the conference, which is scheduled to last till noon Sunday.

Platform speaker for this year is Dr. James S. Thomas. Other resource persons attending the conference will be Bishop John W Branscomb, Bishop J. W E. Bowen, Dr Harvey C. Brown, Miss Dorothy Nyland, and all district superintendents of the conference.

In addition to addresses by the platform speaker, study seminars will be held on such topics as "Christian Witness on the College Campus," and "The Battle for Men's Minds."

In the coming week, the Wesley Foundation will hold the third meeting of those interested in part-or full-time Christian service at 8 p.m. Wednesday inside the lounge.

Townsend, Rogers Slated To Speak To English Interns

The Florida State University interns in the secondary English field and a number of teachers and professors in the area will attend a banquet at the Cherokee Hotel Tuesday evening, at 6:30.

Dr F.G. Townsend, head of the English department, and Dr. W. H. Rogers will give short talks, and there will be a panel discussion on "The Problems of the Intern."

PANEL ON PROBLEMS

The panel will be composed of persons who have been in direct contact with the new teacher and his problems.

Next year's prospective interns in the Language Arts field are also invited. The banquet will constitute the culmination of work done by students at the University before they go to various counties to do intern work, beginning March 24.

EPSILON CHI MEETS

Epsilon Chi, the Junior Affiliate of the National Council of Teachers of English, will hold its next meeting Wednesday at 7 p.m. in Longmire Auditorium.

The program will be a demonstration of creative dramatics by Mr. DuBois, assistant professor of education at the University Demonstration School He will use second-grade children to demonstrate the techniques of creative dramatics on the elementary level.

All persons interested in the teaching of the Language Arts are invited to attend.

Pledges 'Sell Souls'

If you saw an otherwise sane looking guy carrying an "Eat at Joe's" sign around his neck the past few days, he wasn't earning his eats, but pledging Alpha Delta Sigma, professional advertising fraternity.

The ad fraternity requires each prospective initiate to "sell his soul" for two days to a local merchant. The pledge sells the sandwich board advertising idea to the merchant, designs the ad, and carries it for two school days.

EARN PLEDGE FEES

The money collected for advertising in the novel media helps to cover fraternity initiation fees.

The sandwich board idea is not exclusive with FSU's Elon Borton Chapter but something of a custom with the national fraternity. Actually, the local chapter has only been using the sandwich board as a pledge project for the past two years

How does it feel to make a spectacle of yourself by carrying three or four feet of gaudily lettered flapping cardboard around your neck for a couple of days?

"LOT OF FUN"

"Not as bad as I expected," one pledge volunteered. "I thought I'd feel like the village idiot, but, as long as you laugh with the crowd, it's a lot of fun."

According to Pledge Master Bill Pace, local merchants are generally enthusiastic about buying space on the pledge boards. "You have to admit," he explained, "they attract an awful lot of attention for the business."

CAPTIVE AUDIENCE

Most pledges leave their boards on the chalk rail or in some other prominent position during classes to gain what the ad profession labels a "captive audience."

So don't laugh too quickly at the guy with the crazy sign. Maybe it's not such a bad way to earn a buck (or a pledge fee) after all.

Dance Lessons

Cotillion and Cavalier Clubs will continue a four week dance lesson series every Tuesday and Thursday night from 8 to 9:30 p. m. at the Student Center.

The lessons are free and everyone is invited to attend

Tryouts for new members of Cavalier and Cotillion will be held at the close of lessons.

Pi D Phi Initiates

Pi Delta Phi, national French honorary, initiated nine new members last Monday evening. They are James Anderson, Carolina Clark, Marie Davis, Alan Knight, Marie Salgado, and Joan Sparling, as regular members, and John Eddins and Alice Lentz as special members.

Faculty sponsor for the group is Dr. Albert Leduc, and the president is Kathleen Pilcher. Membership includes faculty, students, and townspeople.

French Honorary Initiates Six

Six outstanding students of French at Florida State University have been initiated into Pi Delta Phi honorary society.

They are James Anderson, Caroline Clark, Julia Conkling, Maria Davis, Alan Knight, Maria Salgado and Joan Sparling.

The students to become members must have maintained a grade point average of 3.0 in all subjects and an average of 3.1 in French and must have completed at least one French literature course on the junior level.

The local chapter of the honorary also inducted these special members this week:

John Eddins of Tallahassee, Alice Lentz, a former student who is on the faculty of Leon High; and Daniel Troeme, a French student studying at FSU.

AXO Adds 15

Fifteen new members were initiated into Alpha Chi Omega last Thursday night.

They are: Ann Clements, Suzanne Dunn, Yolanda Harris, Nancy Henderson, Janyce Hobkirk, Wanda Hood, Elaine Hyers, Carol Jane Maas, Marianna MacNichol, Carol Othen, Drena Pekks, Linda Roberts, Barbara Lee Simmons, Roberta Warren, and Judy Yavornik.

Monday night the customary initiation banquet was held at the house after which trophies were awarded. Ann Clements received the scholarship trophy and the activities cup was presented to Roberta Warren.

Yesterday, the AXO's greeted their National Panhellenic representative, Mrs. Darrel Nordwall. On her arrival, a tea was given in her honor in which all sorority pledges were invited. Following this, last night a reception was held in Longmire Lounge given by Panhellenic and hostessed by Alpha Chis.

Campus Appearance In May

Color In Flight Keynote Of 1958 'Flying High'

Color in flight will be the keynote of Florida State University's "Flying High" Circus performance to be presented May 2, 3, and 4 in Campbell Stadium for students and parents.

According to Coach Jack Haskins, "The show will feature many new costumes, scenery and backdrops, and lighting effects; and many new acts will make their debut in this year's show."

COMBINES WEEKENDS

Combining the annual Dad's Day and Circus Weekend, Spring Homecoming will have a variety of festivities and shows for FSU students, parents, and alumni.

Planned to be on time to visit the campus, the weekend will feature the Circus, the Tarpon Club water ballet, and the Freshman baseball team in action.

Three trophies will be awarded to the sorority, fraternity, and dormitory group with the highest percentage of parents attending Spring Homecoming.

"Tickets to the Circus may be purchased in advance to insure the best seats," Eddie Cubbon, athletic business manager, said this week and "students are urged to purchase tickets as soon as they make definite plans with their parents."

The all-new clown acts promise a change of program from past circus shows. Even the old standby, the "man who will rise and float through the air," has retired.

"Jackie Fortune kept the self-rising flour," clown Jim Reese explained. The super-dooper 30 Second Baby-Wash will give laundry service to the youngest members of the audience, free.

PICTORIAL PROGRAM

A 16-page circus program will contain a pictorial layout of the show's acts. Eight of the color pages are being prepared in advance. They will be mailed to all parents and alumni, inviting them to Spring Homecoming and the Circus.

A load of new costumes with plumes, sequins and colorful satin will accent the action in 5 big rings. Haskin says, "We will use 3 times as many costumes this year as were in last year's production."

"More aerial acts will be starred in this year's show," Coach Jim De Sosmo told the Flambeau.

"We will work three rings at once," he said, "and more nets have been ordered for the new show plans."

De Cosmo explained that "concentration of acts will reduce the actual show time and add to audience interest."

ACTS PREVIEW

A quick preview of a few acts: "A Scene in Hades" stars the Peddling Devils' bicycle team, the Swirling Skters will do a highland fling on wheels wearing the traditional Scots' plaid, and dancers will be featured in a Show Boat routine.

"A picnic for everyone and a water ballet by Tarpon Club are planned at Lake Bradford on the Reservation," Spring Homecoming Committee chairman, Laura Cheek said.

"Also to welcome parents, groups are urged to put up Circus Theme decorations."

"There will be no contests," but decorating 'for the fun of it,' to add to the festive atmosphere."

This weekend the Circus troupe will travel to Moultrie and Valdosta, Georgia, to present the Flying High show. Other trips planned for this semester are to Marianna and Crestview, March 28 and 29, and Blakely and Albany, Georgia, April 11 and 12.

'Oedipus Rex' Showing Set

A film version of Sophocles' **Oedipus Rex** will be presented at 8:15 p.m., Thursday, March 20 in Westcott Auditorium. Tickets will be 50c per person, and will be on sale at the ticket office.

Produced by Dr. Tyrone Guthrie, the film is Canada's first feature-length motion picture. It stars the internationally known Douglas Campbell in the title role. The cast will be composed of the Stratford Ontario players.

The story of Oedipus was legendary in Sopchocles time. It concerns a man who has killed his father, and married his mother. The play deals with his reactions to this knowledge.

Oedipus blinds himself, and leaves Thebes, the city of which he has become king. His mother-wife, Jocasta, commits suicide. The consequences of Oedipus action bring this horror upon himself and his city-state.

The actors will wear the traditional Greek masks as they perform, and the hero will have the largest pair of elevator shoes in the world. Raised shoes was the Greek method of making their heroes of "heroic size."

Critics agree the movie is a great one. Noted playwrite and author Thornton Wilden says of the movie: "A distinguished production and a revelation of new possibilities in the motion picture."

"This production of a supreme work of art is in itself a work of art. Douglas Campbell's unbelievable voice makes his Oedipus a shattering experience," says Clifton Fadiman, New York critics, author and humorist.

Working on the presentation of this movie for the Tallahassee showing are members and pledges of "Les Jongleurs," university drama honorary, including Marlene Matouk, director, Sue Powell, Stan Cheron, John Venables, June Sillay, Sandra Reese and Reggie Ivory.

Program Seeks To Rebuild Clam Industry In The State

A scientist arrived by air from Connecticut Wednesday, his briefcase bulging with 360,000 hardshell clams which will be planted in the Gulf of Mexico.

The clams will be used in an experimental program, arranged by the U.S. Fish and Wildlife Service and Florida State University, looking toward rebuilding of the clam industry in Florida.

Dr. Victor L. Loosanoff, biologist with the Wildlife Service, was met at the airport by Dr. R. Winston Menzel of the FSU Oceanographic Institute.

They immediately drove to the Institute's marine laboratory, 43 miles south on the Gulf of Mexico, where the teeming thousands of clams were placed in tanks of running seawater.

For a week, the two scientists will be busy placing the pampered clams on selected bottom areas of the Gulf near the Alligator Harbor marine laboratory and at Panama City. Thereafter, Dr. Menzel will keep a close watch on their survival and growth rates through the year for clues as to where they prosper best and why.

The clam industry is of little economic value in Florida today, but in the past it has been of importance, especially on the Gulf coast. If the present experiment on clam transplanting proves successful, it may furnish the means for rebuilding a profitable industry in the state.

Dr. Loosanoff, who is director of the Shellfish Laboratory of the U.S. Fish and Wildlife Service in Filford, Conn., has successfully raised hard shell clams from the egg to adulthood. His laboratory is equipped with warmed seawater, so that he can breed clams throughout the year. The clams flown to Florida are some of his "incubator babies."

Dr. Menzel expects that the young Connecticut-born clamse will show rapid growth in the warm waters of the Gulf, where they can feed the year around. In more northern areas, hard shell clams hibernate during part of the winter, thus slowing their growth.

There are a few native clams in the Alligator Harbor area, where the FSU marine laboratory is located. However, young clams are seldom seen there, and the ones taken are usually of extra large size—about five or more inches across.

One suspected cause for the scarcity of clams in this region is the presence of large numbers of shellfish enemies, such as the big conch, Busycon.

The Oceanographic Institute scientist will place some of his baby clams in wire-covered boxes side by side with unprotected clams, to see if there is a marked difference in the survival of the protected individuals.

While at the Oceanographic Institute, Dr. Loosanoff will give a seminar on problems of the biology of clams and oysters Monday at 7:30, in the Conradi Building Lecture Hall. The public is invited to attend.

Debate Topic Is 'Sputniks'

Resolved: "That this house (audience) should lose no sleep over the Sputniks," will be the topic of the International debate next Wednesday.

The debate, which will be held in Opperman Music Hall at 8 p.m., will feature two outstanding Scotch debaters who are currently touring the United States.

The Scotchmen, who will oppose the resolution, are Leonard Mackenzie Turpie and Ronald Bernard Anderson. Both are members of the Glasgow University Conservative Club.

Turpie, who has received a masters degree from Glasgow, is 23, and was a candidate for the Glasgow municipal council from the Covan ward last year. He is a student in the law faculty.

Anderson has received his masters degree in classics, is a student in the law faculty, and is 25.

Dr. Gregg Phifer said that the Florida State debaters have not yet been selected.

Placement Office Lists Interviews

The University Placement Office has posted the following interviews for the coming week

March 17: A representative of the DeKalb County Board of Education, Decatur, Georgia, will be interviewing elementary and secondary education majors

Dade County Schools, Miami, Florida, will have a representative interviewing elementary education, librarian, and guidance majors.

Atlas Auto Finance will be recruiting men and women. The men will start as field representatives and work toward Branch Manager positions. Women are to start as assistant cashiers.

March 18: United States General Accounting Office will interview accounting majors.

March 19: Crawford and Company will have a representative interviewing Liberal Arts and Business Administration majors with management capabilities.

March 20: Prudential Insurance Company will be looking for Liberal Arts and Business Majors with a straight "B" average

Anyone interested in the interviews should contact the Placement Office in the lower floor of Longmire.

Blanket Permission Unlikely For Jax

Blanket late permission for Florida State University women will probably not be granted for the Fall football game with Georgia in Jacksonville, according to Dean of Women Katherine Warren.

Miss Warren added, however, that under certain circumstances, such as groups going in chartered buses or special groups, late permission will undoubtedly be granted.

No official action has been taken on the matter by university officials as yet.

PRE-CONVENTION POLITICS. Student politicians discuss strategy prior to Tuesday night's Student Party convention.

Return May 16

Interns Leave March 24

Thirty-three Florida counties and the state of Georgia will receive education interns from Florida State University March 24. The interns will return to campus May 16.

The interns, by counties, are:

ALACHUA: Mary Ann Rykard.

BAY: Sibbie Brinson, William Donalson, Leslie Frazier, Rosemary Grow, Gloria Hannon, Shirley Gay Jackson, Elinor Newman, Reba Rehwinkel, Eleanor Lilly Rogers, Kathryn Sanchez, Mary Sweeting, Martha Baggett, Betty Jo Bush, Sally Ford, Mary Beth McDonald, Ann Mayfield, Audra Rowe, and Sylvia Warren.

BROWARD: Betty McMillan, Dorothy Yeoman, Edward Boyack, Janice Jarrett, Helen Sparling, and Joanna Anita Sproul.

CALHOUN: Imogene Edenfield.

DADE: Jacqueline Ann Bird, Ann Margaret Kelly, Marie Dianne Latimer, Marilyn Mantyk, Dorothy Jean May, John Bryan, Alma Cisneros, Hope Davis, Ruth Fritchie, Evelyn Ruth Gay, Edward King, Shirley McLendon, Ardyce Jo Napier, and Nancy White.

DUVAL: Kay DeCubellis, Mary Birdie Howard, Rose Johnson, Diane Steagall, Jennie Lind Williams, Eleanor Bilinski, Mary Ann Bryant, Gail Allen Byrd, Frank Freedman, Namcy Gayle Gardner, Dale Jensen, Gerald McCall, Patty Ann Marley, Ann Marsh, Edmarie Munitz, Joseph P. Westhafer, and Elizabeth Wrenn.

ESCAMBIA: James Matson.

FRANKLIN: Mrs. Dorothy Matthews Hodge.

GADSDEN: Clarence Boynton, Barbara Brooks, and Elizabeth Herring

GEORGIA: Jane Faulk Manning, Marian Baum, Joe Goodspeed, Sara L. Hobbs, and Mary Jane Oliver.

HARDEE: Sarah Jane Griffin.

HIGHLANDS: Cecillia Ann Norris.

HILLSBOROUOH: Doro Carolyn Carlton, Genevieve DeReus, Elizabeth Graham, Barbara McCartney, Edith Ann McConnell, Mary Virginia Sale, Maxine Smith, Patti Elizabeth Wiehrs, Jane Claire Anderson, Patricia Arrants, Jacqueline Bouder, David Byars, Cherrylene Corbin, Carolyn Davis, Freda Anita Haas, Sarah Frances Hukle, and Ruth Marie Shuman

INDIAN RIVER: Nancy Jean Crooks

JACKSON: Bobby Nell Crutchfield, Vivian Moates, William Johns, Johnnie Pippin, Shirley Hope Racheis, and Betty Jo Watford.

LAKE: Sonya Rogers.

LEE: Jane Leone, Cora Manning, Sarah Elizabeth Prather, and Sylvia Lynn Willis.

LEON: Ann Reeves Williams, Mrs. Catherine Williams, Martha Burt, Mrs. Debra Wyatt, Patsy Yon, Mrs. Cornelia Elz, Mrs. Ruth J. Fountain, Betty Sue Graham, Edna O. Holton, Patricia Ann Howell, Mrs. Juanita McElwain, Henry Williams, Mrs. Maralyn Wynn, Mrs. Jacqueline Andreen, Mary Futch, Olive Belvin, Mrs. Barbara W. Hale, Leewood Shaw, Thomas Garcia, Robert L. Lewitt, Mrs. Margaret Oler, Paula Parsons, Lois Steinberg.

Reeves Dean, William Dixon, Mrs. Sharon Moran, Robert Ray Nellums, Elizabeth Parker, John Roberts, Arlene Sargent, Karen Felton, Loretta Jean Fussell, Richard Martin, Mary J Moran, and Gretchen Thompson.

MADISON: Marilyn Cole

MANATEE: Elinor Marie Hager, Carolyn Steele, and Ann Verran.

MARION: Mary Finley, and Betty Joan Swartz

OKALOOSA: Helen D. Dunn, and Doris Evelyn Pulliam.

ORANGE: Eunice Brewton, Patricia Chapman, James Matthews, and Paul Jackson Meador.

OSCEOLA: Nina Sue Crowell, and Theordore McGonigal.

PALM BEACH: Jackie Hailey, Mary Ann Lassiter, Ione Louise Perry, Jacqueline Allen, and Thomas Mills.

PASCO: Evelyn Rooks.

PINELLAS: Peggy Louise Edwards, Jane Estelle Grogan, Miriam Waddell, Patricia Ann Witman, Carlene Berry, Barbara Jeanne Card, Nancy Ann Carson, Doris Hustin, Hattie Nann Kinsey, Margaret Morris, Lilian Olsen, Mary Margaret Rose, Elizabeth Schmitt, Sandra Smith, and Carolyn Ann Shepherd.

POLK: Alice Vernon Benton, Carolyn Byrd, Sarah Sinclair, Warren Barrett, Beverly Capps, and Ruth Ann Ivey.

PUTMAN: Agnes Nearing, and Phyllis Ann Shaddick.

ST LUCIE: Mrs. Marion Hackett Williams.

SARASOTA: Martha Nell Belcher.

SUWANNEE: Modena Avery and Barbara Jean Dozier.

VOLUSIA: Selby Pauline Allen, Kay Janette Bishop, Mary Bowen, Faye English, Celestina Gifford, and Lois Mae Johnson

WAKULLA: Rodney Ratcliffe.

WASHINGTON: Merle S. Jones, and Willis Avery White.

Honor System 'Not Foolproof'; Interest Growing, Students Say

By SUE MASSEY

What do students at FSU think of the honor system? This is a much discussed topic and will be the subject of a 500-student poll later in March.

In order to obtain some idea of what the trend of the answers on this poll might be, four people were interviewed at random this week.

GLAD FOR COURT

One student, a senior girl, replied, "I'm very glad that Honor Court is made up of students and not just of faculty members." She was referring to the fact that cases go to the Faculty Review Committee after Honor Court has covered them.

This same senior also said that the court "seemed more effective each year, and that student interest in it seemed to be mounting." To her, the system can be improved only if students participate more because of a sense of obligation to the system

A junior student believes that the system is ineffective as it is now. He observes that most everyone seems to sign the pledge automatically, without thinking of the meaning behind their action.

He adds, "It's such a long, involved, drawn-out ordeal to get somebody convicted, and the punishments seem so severe. There seems to be too much beating around the bush."

PERSONAL THING

This student concludes, "Honor is a personal thing and any improvement in the system must be camous wide—in every classroom with all students and faculty cooperating. The system cannot be strengthened by cracking down with harder punishments."

When approached by the interviewer, another junior said she was "glad to have the honor system." She says it isn't foolproof, but doesn't think there could be a foolproof system of honor.

"Our honor system doesn't stop cheating, but it certainly doesn't encourage it," she replied to further questioning

She too believes that every person must take it upon themselves to improve the honor system.

HARDLY HEARS OF IT

One sophomore complained that she "heard so very much about the honor system the first week of school and since then I hardly hear of it except during finals."

She said she has never cheated, so consequently has never really thought much about it. This girl also added, that plans seem very good, but need to be accepted by everyone."

From these four interviews, it is evident that there are many different and conflicting opinions about FSU's honor system. No student stated that the system should be abolished

On the contrary, all four of them would like to see a more effective honor system at FSU. The 500 student poll should prove beneficial in studying the honor system problem.

Doyle Current Chairman

Faculty Fellowship Seeks Bible Key

"A teacher affects eternity; he can never tell where his influence stops." (Henry Brooks Adams).

A group of faculty and staff members, recognizing the val[...] of Adams' observation, three years ago formed the FSU "chap[...] of the Faculty Christian Fellowship.

The FCF is a national organization under the National Council of Churches, and has branches on many campuses across the country.

Its purpose is to "hold meetings of faculty and staff members to study the Bible, to help in interpretation and understanding of it."

Dean Wilson Doyle of the School of Public Administration, this year's FCF chairman, says of the group, "All those who attend feel we need to bring more emphasis on the Christian faith into what we are doing."

BIBLE TOPICS

To accomplish this end, bi-monthly Bible discussions on pre-determined topics are held at the Westminster House. One person serves as leader, with members contributing freely to the discussion.

Faculty members of any Christian church may attend. Active membership numbers about 20-25. Usual attendance at the Bible discussions is 12 to 15, a good number for group participation. Miss Marjorie Judy, secretary, is the only other officer of the group, which Dean Doyle says is "not over-organized."

During Intelligent Faith Week, FCF sponsored three luncheons, with a total of 313 faculty members attending

LENT DISCUSSIONS

For the March Pre-Lenten season, four weekly discussion meetings relating to the crucifixion have been scheduled

The March 4 topic was "The King Enters His City." References in Matthew, Mark, L[...] and John to Jesus' entry [...] Jerusalem were studied by m[...]bers before the meeting

Thursday the group disc[...] "The King Priest Teache[...] His Temple"; March 18 topic will be "The Master [...]pares His Disciples."

The series will wind up March 27 with "The Son [...]complishes His Mission." (Cr[...]fixion and Resurrection)

A high point of the year [...] be a luncheon April 10, with Marjorie Reeves as guest sp[...]er. Dr. Reeves, professor of [...]tory and lecturer at Oxford [...]versity of England, will a[...] in Tallahassee March 31 [...] spend some 10 days visiting [...] touring Florida.

Shortly after this, the [...] will begin organization for [...] year's activities.

Newman Book On Correction[s] Is Published

Sourcebook on Probation, [Pa]role and Pardons, a 334-p[age] compilation of articles in [the] field edited by Charles L. N[ew]man of Florida State Univer[sity] was issued this week by Cha[rles] C. Thomas, publisher of Spr[ing]field, Ill.

Written for persons enga[ged] in or preparing to work in [the] correctional field as probat[ion] or parole officers, administra[tors] and board members, the b[ook] was described by the publisher [as] the first in the field to co[ver] extensively such subjects [as] probation supervision and tre[at]ment, investigation and select[ion] in probation, and education a[nd] training of probation and pa[role] officers.

The editor, who joined [the] FSU faculty three years ago [as] assistant professor in the depa[rt]ment of corrections and cr[imi]nology of the School of So[cial] Welfare. Currently he is pre[si]dent of the Florida Probat[ion] and Parole Association

He is the author of Man[ual] For Foster Parents (1953). B[e]fore coming to FSU he was [on] the faculty of the Univers[ity] of North Dakota and served [as] consultant to the North Dak[ota] State Training School and [to] the North Dakota Public Welfa[re] Board.

Newman says in the introd[uc]tion of the new book: "The [as]sumption is carried through[out] this book that probation a[nd] parole are a part of the co[r]rectional cycle, which be[gins] with the arresting officer a[nd] ends with the final release fr[om] prison or from parole, and [...] community.

"The obvious conclusion [...] then, that neither probation [nor] parole will be any more effect[ive] than the weakest element in [the] cycle."

The eleven chapters conta[in] 41 articles covering a wide ra[nge] of subject matter. They inclu[de] articles by two other memb[ers] of the School of Welfare sta[ff] Howard W Borsuk and Albe[rt] E Quade.

Vogel New Dean At Daytona JC

Fred J Vogel, who received a doctor's degree in education Feb. 1 at Florida State University will be dean of students at the new Daytona Beach Junior College, effective March 15.

The college will go into operation in September, serving both Volusia and Flagler counties. Dr James Snyder is president, and it will incorporate both the campus and program of the existing Mary Karl Vocational School.

A native of New Orleans, Dr Vogel taught mathematics and science, also served as coach, for eight years in Louisiana public schools. He had additional experience as principal of St Charles School in Lafourche parish, and as lieutenant in the navy air corps, seeing action in the Pacific during World War II

Having earned his AB and MA degrees at Louisiana State University, he joined the staff at FSU as counselor for men in 1952. He later became director of the student activity program, resigning in the fall of 1955 to work full time for his doctor's in education administration.

Dr. Vogel is married to the former Nell Varnado of Baton Rouge who has served three years as executive secretary of the Leon County Red Feather organization and has also taught at Leon High School. They have two sons, Fred, Jr. and Eric, both students in the University School.

The new dean will leave immediately for Daytona Beach, his family remaining in Tallahassee waiting until June to join him

[W]illiams-Moore [S]eek Student [B]ody Prexy

[C]arthell Williams and Art [Mo]ore will oppose each other [in th]e April 1 elections for [pres]ident of the student [bod]y.

Moore, an independent [can]didate, has received the [endo]rsement of both the [Stud]ent and Collegiate par[ties]. Williams was nominat[ed] by the new University [Par]ty at their convention [Thu]rsday night.

Moore, a junior, has been ac[tive in] campus politics since his [fresh]man year when be served [in the] Senate This year he is serv[ing] as Attorney-General in Pres[ident] Greenfield's cabinet.

FORMER CANDIDATE

Williams has bad much politi[cal] experience off campus. In 1956 [he w]as a candidate for the Flor[ida] House of Representatives from [his n]ative Washington County. Be[fore] coming to Florida State, Wil[liams] served as administrative as[sist]ant to Bob Sikes, congressman [from] Florida's third district.

[A] veteran, of three years serv[ice], Williams served as president [of] the student body in Chipola [Junior] College in Marianna.

[A] public administration major [from] DeFuniak Springs, Moore is [a m]ember of the Sigma Chi fra[tern]ity and several honoraries in[clud]ing Gold Key.

[Tw]o candidates, Gerry Gordon [and] Mattox Hair, are seeking the [vice] presidency Gordon, nomi[nate]d by Collegiate Party, is a [juni]or political science major He [has s]erved in Senate for two years [and a]s chairman of his party for [...]. He is also a Sigma Chi.

Hair, who also served as his [part]y chairman, is serving his [...] year in Senate He bowed [into] campus politics when he was [elect]ed president of his fresh[man] class in 1956 A sophomore. [he i]s a member of Kappa Alpha.

BRYAN UNOPPOSED

[J]ack Bryan, presently an [Hon]or Court member, seems to [be u]nopposed for Chief Justice [of] Honor Court. Bryan, an inde[pen]dent is a junior Both Stu[dent] and Collegiate Party have [endo]rsed him

The Student Party has nomi[nat]ed Ada Leigh Wall for Wo[men']s Vice President and Ra[...] Arnold for Men's Veep. [The]re no Collegiate Party nomi[nee]s, but the University Par[ty n]ominated Ed Mason to op[pose] Arnold

Two candidates, defeated for [the] Student Party nomination, [are] expected to run as inde[pen]dents They are Diane Godin [for] Women's Vice President and [...] Apthorp for Men's Veep.

[Ju]dy Ramsey and Cappy Arch[...]d have received endorse[men]ts from the Student and [Coll]egiate parties in their cam[paig]ns for Clerk of Honor Court [and] President of URA respec[tive]ly The University Party has [ann]ounced that they will give [no] endorsements.

Joyce Combs is the only can[did]ate for Secretary of Senate. [She] is s Student Party nominee.

BOP NOMINEES

Board of Publications nomi[nee]s are Bob Wolfenbarger for [Stu]dent Party and Tom Hale [an]d Bob Meier for Collegiate.

Another Student Party candi[dat]e running unopposed for [Chai]rman of the University [Cou]rt. is Nancy Worrall.

The steering committee of the [Uni]versity Party told the Flam[beau] that they expect to nomi[nat]e several candidates for of[fice]s who will run on the party [tick]et

Deadline for filing a candidacy [for] office is 5 p.m. today.

Active campaigning will be[gin] one week from today.

Panel Discussion Keys MENC Meet

A panel discussion will high[ligh]t the Music Educators' Na[tion]al Conference meeting to[nig]ht, to be held in room 222 [of] the Music Building at 7 p.m.

The MENC program will con[sist] of reports from the fall [mus]ic education interns who [hav]e interesting experiences to [rel]ate.

The public is invited to attend.

Collegiate Party Slates Reception

The Collegiate Party will hold "Meet the Candidates" recep[ti]on this afternoon at 4. Bruce [B]rown, party chairman an[n]ounced.

The reception will be held in [t]he large lounge of the Long[m]ire Building. All students are [c]ordially invited. Brown said. Refreshments will be served.

MOST SCHOLARLY FRESHMAN—William Stuart, freshman music major, made the highest scholastic average of freshman men for the first semester, 3.9. He is shown with Dr. Donald Loucks, dean of men, left, and Dr. Charles S. Davis, dean of faculties.

Honoring Van Assenderp

Political Scientists Initiate Loan Fund For Students

A fund to provide loans to deserving students was initiated last week by members of the Political Science Department as a memorial to Dr. Andre Van Assenderp.

Dr. Van Assenderp. who was a member of the Political Science Department from 1949 until this year. passed away recently.

Dr. Marian Irish, head of the Political Science Department, announced the loan fund establishment at Wednesday's Faculty Senate meeting, adding that the fund will be established as a general "Faculty Memorial Loan Fund."

ANY PROFESSOR

Under this title, the fund will be a memorial to any professor in any department whose friends, relatives and colleagues wish to honor him.

Dr. Irish, in her statement to the faculty, said that as the fund grows, it may be converted into a student scholarship fund, rather than just a loan fund.

The administration of the new fund will be handled by the University Committee on Scholarships, Loans, and Student Employment, and will be lent in varying amounts.

Money will be granted on the basis of the size of the fund, the need of the student and the policies of the committee. Interest and service charges will be determined by general policies already established.

Undergraduate and graduate students in financial need, of good citizenship, and of satisfactory academic standing will be able to receive aid from this fund.

DONATIONS

Miss Irish said that any money donated to the fund should be sent to the Committee on Scholarships and Loans, with any checks being made out to Florida State University with the notation that it is for the Faculty Memorial Loan Fund.

The name of the donor and that of the person to be honored should be included.

Acknowledgement of the contribution will be sent the donors, and, whenever possible, the family or close relatives of the deceased faculty member.

Dr. Irish's announcement was "not a plea or request for action." It was simply the opening up of a memorial fund for one man to include other faculty members whose friends and relatives would like to honor him.

Dr. Van Assenderp is the first faculty member to be listed on the memorial fund.

Tickets Still Being Sold For 'Yankees'

Tickets went on sale Friday morning for the March 27 campus performance of the original Broadway productioo, "Damn Yankees"

The tickets, whicb are being sold on a first-come, first-served basis to students and townspeople alike, will be sold to students at two dollars apiece and to the public at four dollars.

ONE SHOW

Sponsored by the Student Artist Series, the one performance is slated for 8:15 p.m. in Westcott Auditorium. Mail orders are being taken for tickets now through the Westcott office.

Over 800 of the tickets will be reserved for the public at the four dollar price.

The production is on tour, direct from two years and over 1,000 performances in New York. George Abbot is director and the tour is under Broadway Theatre Alliance, Inc.

BALD REALTOR

"Damn Yankees" tells the amusing story of a balding middle-aged real estate agent in Washington, D. C., who makes a pact with the devil. The realtor is rejuvinated and becomes a great baseball player to wrest the pennant from the Yankees for his home team, the Washington Senators.

A knowledge of baseball is not needed for enjoyment of the comedy whicb includes sucb musical hits as "Whatever Lola Wants," "You Gotta Have Heart," and "Two Lost Souls."

It was adapted from Douglass Wallop's best-seller, "The Year the Yankees Lost the Pennant" by George Abbot and Douglass Wallop.

Reed Featured In Education Probe

A discussion on "What changes are needed in American education" will be held tomorrow night at 7:30 p.m. in Room 208 History.

Dr Homer Reed of the Psychology Department will be the featured speaker. Dr. Reed will replace Allan Thomson of the Humanities Department, who was originally scheduled to appear, but was called out of town on family matters.

The public is invited to attend.

Jack Rallow

New Housing Head Former Harpur Dean

Florida State University's housing problems ars now under the new management of Dr. Jack Rollow.

Tackling FSU's biggest housing problem at the moment, Rollow said, "Married students are a permanent fixture now and on hte increase. By the fall of 1960 at the latest, new housing units for them will be available here."

MARRIED STUDENTS

Fortunately the construction of special units designed to meet the needs of married students go much faster than a residence hall once the original plans have been completed and a loan has been secured.

The increase in these facilities are also designed to encourage the attendance of graduate students.

Rollow came here three weeks ago from a post as assistant dean at Harpur, a New York state college. During his six years of teaching there, he became increasingly interested in administrative work in the field of student housing. After a visit on campus over Christmas vacation, he was asked to his present position.

Although concerned now extensively with student housing, Rollow has not lost sight of the over-all college picture. "The things facing us in education are going to be radically changed," he mused. "More and more a college graduate is expected to have a collection of knowledge, analytic and synthetic thinking, and an all encompassing polish."

ENHANCE LIFE

"Our aim in housing is to enhance the state of college life and plan as to meet the specific needs of students, particularly toward studying efficiency."

Rollow, a native Texan, and his wife are glad to be back in the South again. Already a frequenter of WFSU-FM, he is anticipating quail hunting this fall with his 11 year old son, David. Eight year old Jane, their daughter, is also quite happy — especially with her new dachshund.

Rollow met his wife, Majorie, at Texas Christian University, where he received his BA English literature and history. After the war, he completed his schooling with an MA and MA and PhD at Cornell, majoring in old and medieval English, history, and Latin. He then assumed a teaching post at Harpur.

University Keynoter Hits At Monopoly

Carthel Williams, a political science major from Chipley, was designated as the newly - formed University Party's nominee for student body president at the Thursday night convention.

The convention, beld in the Geology Building Lecture Hall, beard former UF Student Body President Bill Daniels deliver a keynote address urging "the right to choose betweeo candidates for any office."

HAS RUN BEFORE

Williams, wbo ran unsuccessfully for the state legislature in 1955, served as an assistant to U.S. Congressman Bob Sikes prior to coming to FSU.

A small, but interested group of students was present for the nominsting of the party officers, establishment of a platform, and cboosing the incomplete slate of nominees.

The platform, which was accepted by the party convention, included:

1. A clear-cut investigation of the Honor Court and the Honor System.

2. Abolltion of the' 'borsecollar" rule.

3. Raising of the grade average requirements for the office of student body president.

4. Investigation of the absences of student seoators from sessions of the Student Senate.

5. A re-vamping of the present precinct system, so that more people will bave representation.

Blasting forth in traditional campaign style, Daniels, keynote speaker for the convention, said, "It should be the ideal of every student on this campus, to bave the rigbt to choose between candidates for any office."

He went on to say, "Anytime the students of a university are not allowed to cboose between officers, 'I get fighting mad'."

Danieis contended that just such operations were going on to the campus of FSU. He accused a csmpus party of just such actions, saying, "some of my friends are in control, and I do mean in control, of this party, but I don't condone it."

Daninels applauded the members of the University Party for their interest in "placing the student government back into the hands of the atudents" and said that as long as students bad this interest, democracy would never die.

In closing, Daniels pointed to the Battle of Natural Bridge and the incident of the Tallahasseeans who single handedly stood off a Unioo sttack.

Old Bill was the soldiers name. In latter years be would take people to the spot saying, "this is where I stood." After old Bill's death s marker was placed on the spot with those words carved into the stone.

Daniela and, "If the members of this party win, lose, or draw, they can proudly say, 'This is where we stood'."

17
SPALDING

COMING HERE—Ralph Lowe seems thoroughly enticed by the devil (Devra Korwin) in this scene from "Damn Yankees." The road show version of this Broadway hit will be presented in Westcott, March 27.

Tomorrow Night

Scots Vs. Seminoles In 'Sputniks' Debate

Two Scottish law students fly into Tallahassee today to debate the Florida State University team on the proposition "This House should lose no sleep over the Sputniks."

The debate, which will take place at 8 p.m. tomorrow in Opperman Music Hall, is the ninth anual appearance of a team from the British Isles on the FSU campus

SCOTCH DEFENSE

The Scotsmen will be defending the proposition, holding that the assembled group should not be too worried over the advent of the Russian satellites.

Jean Bleichner, senior debate manager, will be debating for FSU, along with Sophomore Dave Hortin.

The Scottish debaters are on a tour of the eastern, southeastern and midwestern atatea that lasts from the middle of February till the end of April.

They have already devated the "aputnik" question at least five or six times, it being one of five topics they are debating on their American tour.

The debaters, Leonard Mackenzie Turpie and Ronald Bernard Anderson, are both students in the law faculty of Glasgow University, Scotland.

BOTH MASTERS

Both have attained the Master of Arts degree and both are members of the Glasgow University Conservative Club.

Anderson, whose master's is in classics, was graduated with honors in that field.

So far on their American tour, the Scotsmen have debated against William and Mary, Wake Forest, Duke, North Carolina, and Furman.

They will come to Tallahassee from the University of South Carolina in Columbia. From here they will go to Howard College in Birmingham, Alabama, and the University of the South in Sewanee, Tennessee.

WESLEYITES OFFER GHOST PLAY THURSDAY

Inheriting a ghost almost sends a young business woman to the "bunny bungalow" in the comedy, "Gramercy Ghost," which the Wesley players will present at the Wesley Foundation Thursday through Saturday.

The curtain will open on the comedy, written by John Cecil Holm, and directed by Walter Saric, at 8:15 p.m. Tickets may be purchased at the door for 60c per person.

TOMBS FOR COOMBES

The ghost is a Revolutionary soldier, Nathaniel Coombes, who was killed by six Johnny Bulls while on his way to take an important message to George Washington. Because of his failure to deliver the message, Coombes is doomed to remain on earth.

The business woman, Nancy Willard, portrayed by Sandra Reese, inherits the ghost, played by George Goldstein, from ber deceased landlady.

Reggie Ivory plays Miss Willard's fiance, Parker Burnett, wbo believes that she is going crazy and tries to get her sent to the "bungalow."

LOVE AGAIN

Meanwhile, a young newspaper reporter, Charlie Stewart, falls in love with Miss Willard while trying to help ber prove that the ghost exists. Stewart is played by Virgil Austin.

When Coombes takes the plunge, Nancy is thoroughly confused and doesn't know whicb way to turn. "Gramcercy Ghost" ends with a "cute twist," according to the star, Miss Reese.

Others in the cast are Bea West, Betsy Coleman, Robin Brown, Ben Baldy, Pat Teague, Linda Mould, Byron Nichols and Edith Hansen.

Techoical director is Clem Pennington with Caran Cravey as stage manager.

Proceeds from the presentation will go for new lighting equipment. The Players also hope that with this financial backing they will be able to present religious dramas free of charge next year.

Speakers Needed By Bureau–Combs

Joyce Combs, chairman of the Student Government Speaker's Bureau Program, announced yesterday that the Bureau is still in need of speakers, especially in certain areas of the state.

Miss Combs said that there is a special need for speakers in the Pensacola, Lakeland, Ft. Myers, Lake City and Clewiston.

She urged any students interested in speaking in these cities to get in touch with her at the Student Body President's office between 3 and 5 p.m. each weekday.

The talks will be made at the approximate time of Easter vacation, Miss Combs said, and will allow students to speak while missing a minimum of classes.

Campus Movie Is 'Easter Parade'

This week's campus movie "Easter Parade" will feature the musical dancing team, Fred Astaire and Judy Garland.

The picture will be presented through Thursday in the resident dormitories. Friday, at 7:30 it will be shown in Westcott Auditorium.

The Westcott projector is now in good working condition. Last week a total of over 1,000 people viewed tha movia "Good Earth"

Precedents Set In 'Peppery' BOP Meet

Bucky Canon, Ron Hamm, and Dessie Pinckard were chosen editors of Florida State University's three publications in a peppery Board of Student Publications session Friday afternoon.

Canon, who was opposed by Bob Wolfenbarger, was elected editor of the **Florida Flambeau** for 1958-59 Hamm was elected **Smoke Signals** editor over two other applicants, Mark Austin and Jack Peacock Miss Pinckard was unopposed for **Tally-Ho** editor.

In the lengthy, precedent-setting meeting, extensive debate over technicalities and constitutionality was heard.

Taking the publications on an alphabetical basis, the **Flambeau** selection was first on the agenda.

Letters of application from the two candidates were read by the Board chairman, followed by interviews of the candidates themselves. Questions concerning editorial policy, experience, and qualifications were reviewed at great length.

An innovation in Board of Publications election procedures occurred, after some discussion, concerning the endorsement of candidates by persons present at the meeting.

Five speakers for each candidate were alliowed to present endorsements in speeches limited to two minutes each. More controversy was heard over whether or not the Board would accept letters of recommendation; the decision was negative.

Following Canon's election by secret ballot, letters from the three **Smoke Signals** hopefuls were read. Questions involving the constitutionality of the applications — lack of the necessary experience on university publications and a question in reference to one applicant's grades — were waived, and the three were considered on their merits alone.

In further action taken by the Board, Miss Pinckard's application was reviewed and she was awarded the position of **Tally-Ha** editor without opposition.

Plans were made for the Board to meet again tomorrow afternoon in the Senate chambers. At that time, business managers for the three publications will be chosen and the publications budget will be reviewed

Members of the Board are Huth Fritchie, chairman, Jane Salley, Art Albrecht, and faculty members Dr. Elston Roady, Dr. Earl Beck, and Dr. Richard Joel. Ex-officio members are Dr. Reid Montgomery, publications advisor, and the three present editors of campus publications.

14 Frosh Eligible For Honorary

Fourteen freshmen men made a scholastic average of 3.5 or higher, B plus, for their first semester, making them eligibla for Phi Eta Sigma, national scholastic honorary.

William Stuart, a music major, has the highest average of the 14, with a 3.9.

Ten of the men are enrolled in the College of Arts and Sciences. They are John Boyd, Ardis Hartsfield, Karl Holschuh, Donald Marshall, Michael O'Connor, Dale Shaw, William Brogden, Hilton Carr, Stephen Peyton, and Carl Butler.

The School of Social Welfare claims two of the scholars, Edwin C. Bowers, and Darold Askeland.

Bernard J. Abbott is enrolled in the School of Business.

These men, along with other freshmen men who made who the Dean's List, were honored at Honors Night, last week Dean Charles Davis spoke to the group, followed by Lonnie Keene who sang a solo.

A trophy was presented to the "Play Boy" unit of West Hall for having the bighest scholastic average per capita. Sigma Alpha Epsilon received the trophy for the fraternity having the highest average.

Refreshments were served by Miss Joan Guthridge, foreign student advisor and Miss Marlene Campbell, residence counselor at Broward Hall.

Lost And Found

LOST One pair of glasses, in a brown leather case with the name of Dr Thompson, Daytona Beach, Florida, imprinted on the front of the case.

If found, please contact Jim Rogan at the Men's Gym, Intramurals office, or call 2-4772, after 5 p.m.

Poll Needs Informed Students

Sometime this month 500 students will be called upon to take an honor poll designed to measure student opinion on the honor system.

THE POLL IS a good one. It is designed to test students on their knowledge of the system as well as to discover to what extent they are dissatisfied with it. The poll does not, however, assume that revisions are necessary; rather, it will query students as to whether or not they think revisions are necessary.

This is not a poll to decide whether or not to do away with the honor system. The committee will merely make recommendations for improvements in the present system based on the outcome of the poll.

WE BELIEVE there is room for improvements in our honor system. The honor code should not be held in reverence such as phrases like "motherhood" "democracy" and "the American Way of Life." It is a system instituted by students for the benefit of students and should be subject to criticism by the students who are subject to it.

We think that an enlightened cross-section of the students taking an intelligent poll will uncover some of the kinks in the honor system. For example, because of a requirement that honor cases must be tried 48 hours after being reported, it is necessary for the Honor Court to hold trials until 2 and 3 a.m. if a lot of cases occur at once.

ALSO, IT SEEMS that students tried by Honor Court are subject to procedures formulated by the court. Surely an improvement here would give students the opportunity to challenge the court if they thought an injustice was done them.

Students who might take the poll should take time out to study the honor system and the Honor Court thoroughly as the results will depend upon an informed student opinion.

'Daisy Chain' Illegal Gimmick

The controversial "daisy chain" revision plan of the Florida Constitution goes on trial today. A hearing to air a suit filed by Miami lawyer Rafael Rivera-Cruz which is attempting to block the proposed legislation, will be held in Tallahassee.

"DAISY CHAIN" is the nickname given to the proposed revision of the Constitution which ties various articles of the program into a single package. The main issue, of course, pertains to the reapportionment amendment.

Because of the "daisy chain" the reapportionment amendment cannot be voted upon separately from the other revised articles. And it is feared the long over-due changes badly needed in the Constitution will be turned down by voters who don't favor the reapportionment amendment.

SEN. VERLE Pope of St. Augustine also filed a suit of the same nature this week. He charged that the "daisy chain" is illegal because it is actually a general revision which can be acted upon only through a Constitutional convention after a vote declaring that revision is necessary and that a convention should be called.

We heartily support Senator's Pope's stand and hope it is accepted by the Court. If the "daisy chain" is ruled illegal voters will be able to judge each article by its merits. They will not need to be tempted to heed Governor Collins' urgings that the good be accepted with the bad.

FLORIDA'S NEED for a revised Constitution should not be hindered by the selfish desires of legislators who do not in reality want a better and more fair reapportionment plan. They are using the need for a revised Constitution as a smoke-screen to push through a reapportionment plan which is not as advantageous as the present one.

If the Florida voters are not offered the opportunity to turn down the reapportionment proposal, they will be justified in turning down the entire plan.

Sources Need Recognition

In today's Coca-Cola culture, the average man scurries from place to place constantly hounded by pressure from groups which seek to get something out of him.

DRIVING FROM home to office, he is confronted with all manner of hucksterism—billboards, car radios, even sky-writing. At work, pounds of form letter propaganda pour cross his desk. And at home, he is met with new preachments at every twist of a dial.

Through necessity, he has developed evasion tactics. He has become slippery and elusive, distrustful of all hand-me-down messages and reluctant to swallow the straight sales appeal. As a voter, he ignores all discussion of "facts" and chooses the candidate he feels he can trust.

YET NOBODY can run forever. Even modern man must have something to believe. How then, does one know where to stop, look at a statement, and say, "this is truth?"

In some fields, such as advertising, there is practically no firm basis upon which to form an opinion. In others, such as politics, the discerning observer finds himself able to arrive at truth by judging all information by certain standards.

PROBABLY THE most important of these standards is a knowledge of what propaganda is—certain selected facts put together to form a point. Most of today's "information" is just that—propaganda.

To sort out the good from the evil in this constant flux of information, it is extremely helpful to know the exact source of any particular statement. When the source is known, the possibility of bias often becomes apparent.

YES, IT IS important to know the source of your opinions. But few people realize the tremendous, though mostly invisible, effect of propaganda on their own reasoning. How many people know why they favored Mr. Eisenhower in the last Presidential election? Or Mr. Stevenson? Again, why does a person dislike labor unions? Socialism? Political parties? The Supreme Court? People have opinions on these things—but did they arrive at them through their own thinking or by acceptance of hand-me-down opinion?

A MAJORITY of today's opinion is derived from mass media of communications—newspapers, radio, television, magazines—and other propaganda sources. Few would dispute this. But how many realize the extent to which men of wealth control these mass media? Numerous surveys have proven that men of wealth are, as a group with a similar interest, able to get their point of view before the public much more than are groups with less money to spend.

EVERYBODY "KNOWS" that labor has too much power, that it is led by a bunch of power-crazed thugs and that its strikes are against the American way of life. Does this sound familiar? It should—it is the message of organized finance. Printed frequently in large newspapers, condensed into fluently-worded magazine articles and spread over the air waves, it has become quite accepted as dogma.

If its true source were recognized, however, those who accept it might realize that finance has something to gain by creating an unfavorable opinion of labor.

Sense can be made of today's pressurized society only if the sources of information and possible resulting gains of the interest distributing the information are clearly recognized.

Don't Belittle First Bohemians

By EMMETT JARRETT

There has been some controversy recently about the group of people on campus who designate themselves, or are designated by others as "bohemians." Last Friday this group was attacked from the editorial page of the Flambeau. We agree with the editorialist, and make a difference between the "true" bohemian, such as the artistic and intellectual leaders of the twenties in America, and that group which we have for some time designated as "pseudo-bohemians." If this distinction is not made, one is placed in the uncomfortable position of condemning Ernest Hemingway, Hart Crane, e. e. cummings, Horace Gregory, James Joyce, Picasso, Braque, Matisse, and a number of other such incontrovertibly important artists.

The "true" bohemian, whom we have already equated with the "lost generation" of the 1920's, was a man who was separated from his society, not by his own choosing but by the character of the society itself. His country was puritanical, he was pagan, his culture was complacent, he was continually searching for something, he knew not what, and emotionally and intellectually disturbed by the search He was an agitated person, a person who was not at home in this world. His society cast him out from his childhood. He was "lost," in the most religious sense of the term.

And yet he did not glory in this fact; he regretted it, and went about doing what be could to find himself, and to define his relationship to society. One of the most important theoretical questions of this decade was that of the position of the artist in society And in the course of this search the bohemian produced Ulysses, "The River," "The Sun Also Rises, "La Vie," and many other of the greatest works of art of this century

But the "true" bohemian died in the early thirties. Malcolm Cowley, in **Exile's Return**, a book which we recommend to any person desiring first-hand knowledge of this era, points with mixed feeling to the end of this time.

Now to the pseudo-bohemian This is the person who imitated the outward and superficial signs of the earlier type. He wears a beard, levis, long hair, dirty clothes, lives in a garret, **to no purpose.** Bear in mind that doing these things or not doing them does not affect the character of the individual. But the person who does them for the purpose of being different **and this purpose alone,** is one of the most repulsive persons in our times.

The "true" bohemian of the twenties wore his hair long because he could not afford a haircut. He met in cafes to talk with his fellows because he lived in a cold-water flat which could not accommodate them, and he lived there because he could afford nothing better. This is the difference between the "true" and the "pseudo-" bohemian. The other is different because he is the victim of compulsory conformity. He is insecure, unsure of himself, and is not strong enough to stand on his own two feet.

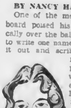
So the **Flambeau** editorialist, we hope, was attacking the pseudo-bohemian. The memory of the men of the twenties has been defended. We have nothing but reverence and respect for those brave, desperate men and women who struggled through "the dark night of the soul" and came to one of two conclusions—suicide or triumph.

What Gives Here?

BOP Needs Some Changes Made

BY NANCY HANNAFORD

One of the members of the board poised his pencil frantically over the ballot. He started to write one name, then crossed it out and scribbled another name on the paper. His vote was passed over to Dr. Reid Montgomery, advisor to the Board of Publications, who announced a 3-2 "majority" vote for one of the two candidates for the editorship of next year's **Flambeau.**



Voting for **Smoke Signals** was also done by this small, five-man group, working in a crowded room under intense pressure.

This is obviously unfair to board members, especially those who take their great responsibility seriously. Also, choices of editors can tend to be unreasonable Since written publications like newspapers, magazines, and annuals are representative of Florida State on other campuses, the entire university can suffer from a poor method of selecting publication heads.

Our system could definitely use some revision.

(1) There should be a time allotted after the presentations of cases and before the voting for the board to talk over candidates, exchanging information, ideas, and impressions.

Under the present system the voting comes directly after the open meeting interviews, in full view of everyone present. This puts a tremendous strain on board members, who, with all eyes upon them, must draw objective conclusions from all of the information presented over a fifty-or-so minute period. A logical, well-founded conclusion can't be drawn under such conditions.

This was evidenced by the fact that although all five of the members of the board had foremost in mind the appointment of the most qualified student for each position, the votes still came out with 2-3 margins. One different split decision could change the nature of a publication for an entire school year.

(2) The board should be larger, to compensate for error in judgment on the part of any single member. When one vote can make all the difference in a choice of this importance, any single prejudice or distorted impression can carry too much weight.

(3) Requirements for board members should be revised. Each of the publications should have a voting representative on the board. It's one thing to have taken a journalism course, quite another to have actually worked on a student publication, and first-hand experience with the candidates up for positions can give the board a more accurate give the board a more accurate tions.

(4) Lastly, qualifications for candidates should be less general, more geared to the specific office a student is applying for. It might be wise, for example, to have candidates for **Smoke Signals** present their ideas for magazine format at the meeting **Flambeau** candidates could write an editorial on some current issue to give the board an idea of his cognescence of school affairs, editorial policy on them, and his writing ability.

Anyone who attended last Friday's Board of Publications meeting will testify that voting in many cases depended more on personal impressions, prejudices, and downright guessing than on an objective evaluation of qualifications.

BETER ESKIMOS

(ACP)—Girls make better Eskimos than men, the Western Reserve University **Reserve Tribune** announced recently.

Why? Because they can get along with less clothing, says the newspaper. Editors weighed the winter clothing of one coed and one male student — everything from unmentionables to cuff links—and learned the girl wore 8 lbs., 12 ozs. of clothing.

The boy wore 15 pounds, 3 ounces: almost double.

LITTLE MAN ON CAMPUS — By Dick Bibler

POLITICAL SCIENCE ASSIGNMENT:

"SAY SOMETHING NICE ABOUT DEMOCRATS—I HAPPEN TO KNOW HE FLUNKED 23 KNOWN REPUBLICANS LAST TERM."

Christianity Only Answer To Problem

LETTERS to the EDITOR

DEAR MR. JARRETT,

Every man to his own beliefs, but I must honestly disagree with your statement that "Christianity can no longer provide the answer" to man's problems in the areas you mention, namely (as I interpret them): 1. Harmony in man's relationships and activities and 2. Self-discovery in all its fullness. If this were true then what would Christianity be the answer to? You don't leave us with very much. May I therefore give you two reasons why Christianity is the **only** answer to man's delimma.

1. Outward conflict is the direct result of inward conflict. Christianity does not deal with outward conditions as much as it does the real cause of "chaos in the cosmos"—which is merely the outward manifestation of the "warfare" that rages in the hearts and minds of men.

2. Man cannot "find himself" until he finds his true relationship with God.

Let me briefly tell how Christianity deals with these basic facts when one is willing to give up the role of the casual on-looker.

FIRST it recognizes the source of discord — a will in conflict with God's will, which Christ compared to darkness. The light is God's will and when you walk in the light there is no occasion for stumbling in the darkness (in relationships and activities.) When man first chose to disobey God he stepped into the darkness.

THEN CAME JESUS . . . proclaiming that he was light of the world" and through faith in him ability, being the son to do what he said he do) a man could find h back into God's will, a following the example before them—stay ther

SECONDLY it pres Christ as the only me between God and man— he becomes not only a into God's will but a " to make God a spiritual in a person's life. Prov say? That is like ask one to taste ice cream then prove to you it is Every man must prove himself. A Christian o lieves he has eternal it gives him hope, b knows as surely as he that God is a spiritual which brings harmony life of confusion with his ence.

At best the first step step "into the dark" one loses himself Ho once the step is truly m finds that he has really out of the darkness an the light . . . and found self.

Sincerely,
JAY GREEN

Education Survey Is Propaganda Device

TO THE EDITOR:

I read Mr. Balser's excellent piece on the Dept. of Education survey which purports to tell the citizens of Florida that our schools are better than the Russians'. His logic is fine: he shows the inconsistencies of the Turner-De Kening survey. But why must he end by calling it a FARCE? These bureaucrats obviously mean this seriously.

If not to misinform the people of the state, then why did they (a) use an obsolete and biased report by the US Office of Education published in 1956 when the same agency published a full, 200-page, unbiased report on the Russian schools in 1957? (b) distort statistics such as the ones which show that since TWO (2) high schools in the state offer integral calculus, while all Russian 10-year schools **require** differential calculus, Florida is ahead in mathematics. (c) fail to mention foreign languages at all, since the Russians require all students to take 6 years of man (40%) English French, Latin, etc. (20

This is not a Farce, blunt PROPAGANDA SIVE, designed to safeg jobs of the educational crats who control (a) t Dept. of Ed. (b) The UF Schools of Education FEA, most powerful lob Capitol & (d) The Gov visory Committee on Ed

THIS IS THE techniqu BIG LIE. The people re for our schools' ineffe hope to escape the blam them by denying that an lem exists.

Anyone who wants the T about Russian schools go third floor of the librar ments Section, and ask f CATION IN USSR You find it in reports written cational bureaucrats solely by naked self-inter

SINCERELY YOURS,
MARION SMITH

Archaeological Club Has Lecture Series

TO THE EDITOR:

I applaud your editorial of March 7, and wish you all success in the campaign to bring more, and more outstanding, lecturers to the campus.

THERE IS however one series, now in its second year, that you have overlooked. This series is sponsored by the Tallahassee Society of the Archaeological Institute of America, and though not officially connected with the University, all of our meetings have been held on the campus, and announced in 'This Week' — and occasionally in the Flambeau!

More important, they have been well attended by students, faculty, and townspeople. In fact our opening lecture, last October, by Homer Thompson —an archaeologist of international reputation — more than filled the New Library Lecture Hall, and some would-be-v ers of the documentar "The Ancient World: Gr even had to be turned a

ALL OF OUR meetings open to the public, but Archaeological Institute a needs and welcomes mem Students may enjoy full m bership at a reduced rate details may be obtained Miss Edith West, the secre of the local Society, or the undersigned (advt.)

Incidentally, the next le by Professor James V McD ough, of our own faculty be on March 25, on "The M ing of Medieval Art" (illu ed). Come and bring yo friends!

Yours truly,
FRANCIS R. WALTON,
President
Archaeological Institute of America

Spend Less Money For Football Team

TO THE EDITOR:

The Flambeau, in the March 11 issue, announced that a poll of FSU students indicated a lack of determined opinion, one way or another, over the switch of this year's Georgia-FSU football game from here to Jacksonville. Well, well, just as we've always suspected Maybe President Strozier and the remainder of the Administration will keep that fact in mind while doling out appropriations in the next school budget. Possibly the football Frankenstein will then rightfully get only enough money to support a team taken from the student body.

WHO GIVES a good hoot whether we play either Auburn or Tampa? Football's function at FSU seems to be that of a social affair; thus what difference does the quality of the teams on the field make?

The money cut from the gulping football vortex could used in manifold ways to b a "name," or "reputation," receive publicity more wor while instead.

THE IDEA OF pressure f the alumni is negated by short history of FSU as a ed school. But it is possible the masculine-minded Sta Legislature can't see the d ference and this is the rea for a "bigger and better" fo ball team.

Just why does this "mod living" concept of twent century leisure have to c tinue? Can you imagine w kind of Artist Series (this only an example an acade department might be a be one) we could have if a la percentage of the money sp on football were spent on it stead? I suppose I'm just a ther disgruntled tax-pay though.

The First Time

must give a person a great innar feeling of satisfaction to good the first time he is called upon to perform.

The first time a baseball player comes to bat and connects home run, a quarterback completing a pass for a touchdown first attempt, or a hockey player that scores a goal the time he appears on the ice.

Such events are unt forgotten, nor should they.

Last Tuesday such an event took place here at Florida State. golf team met Jacksonville Navy here, and Coach Bill Odeneal the name of Dick Parker in the starting lineup for tha

The 5-7, junior from Niagarg Falls, N.Y. has been a member golf team since his freshman year of 1955, but he saw all during practice sessions.

He wasn't an outstauding golfer when he first eame here; average was in the high-70s. For a friendly game of golf a aice score, but it waan't good enougb to break into the lineup.

when FSU had men like Jack Veghte, Bunk Berry and Steve, just to name a few shooting par or below.

There's only one way to improve and that a with practice. a lot of the Capitol City Country Club last year and this Three hours every time ha played the 18-hole course.

He also played a great deal this past summer and finally paid off.

Parker did was to lead the linksters that day with a under-par 69, in his initial college competition.

And as any professional, amateur or duffer will tell you, really playing golf.

Dick was three under-par after the first 12 holes, but took a bogey on the 13th. However, he birdied the 14th and holes and played par tha rest of the way.

Whether Coach Odeneal will use the fair-haired New Yorker matchea is a moot queation. There are about 10 men roster this season, but any man that can shoot below par deserves anothar look.

"I'm sure tke team will have a good seasou," said Parker, I talked to bim this weekend. "And I feel confidant that take the Gators on Saturday."

But whether he plays again or not, it couldn't have hap- to a nicer guy.

TCHING ROTATION UNSETTLED

looks like John Bristol will draw the nod as tha Seminoles' pitcher after all tomorrow afternoon as the baseball sea- into action.

Earlier Coach Danny Litwhiler was going to open with either Kenny or Frank Slusser.

It seems southpaw Bristol has a class Wednesday after- However, thiuga didn't work out too well as Kenny eame with a blister on his pitehing hand and Bristal has a fieid a one of bis elasses scheduled on Thursday.

So Litwhiler's tentative plans have been aidetracked.

Who will start Thursday is still undecided. It could be either or Tom Garcia, but Litwhiler has not made up his mind.

"I believe that school work is the mast important thing in and sports has to take a backseat to studies. If a playee a class the day af a homa game I will not ask any instructor excuse kim from it.

He can come out to the game after his class, and that goes anyone of my players," he said.

The afternoon games begin at 3 30. They were arranged that so that more people have a chance to coma out and watch team, both students and faculty alike

Auburn, the Tribe's apponent in its opener, is supposed to be class of the Southeastern Conference this year, and they'll probably give Florida State a couple of taugh ballgames.

At least that's the opinion around here.

Garnets, Golds Meet Thursday

By PHIL ROYCE

Football pokes its rugged head upon Florida State's sporting scene Thursday night when the Garnets square sway against the Golds in the annual spring intrasquad game.

Lineups for the game, set to begin at 8 p.m., were announced by Head Coach Tom Nugent following Saturday's scrimmage "The teams are even in power, both offensively and defensively We look for an exciting, close game," said the Tribe Chief.

"We've interchanged the backfields and the lines. From the spirit the players bave shown in the practices, I would say this will be the hottest game wa've ever kad," Nugeat stated.

Rival quarterbacks are Vic Prinzi for the Garnets and Bobby Conrad for the Golds. Prinzi, a senior, sat out last season while recovering from an operation. Playing behind him will be Frank Springer, of Miami, a sophomore

Conrad was a 1956 All-American high school selection and completed 28 of 51 passes for the Baby Seminoles last year. Another Miami product, Gene McCormick will back up Conrad. Gene passed 23 yards for the winning touchdown in last year's tussel. He completed all four of his tosses

MAJORS OUT

Two top-rated players who will not see action are Joe Majors of Huntland Tenn. and Ronnie Hinson of Waycross, Ga. Both are out with injuries.

Named to direct the Gold squad were assistant coaches Bob Harbison, Frank Toomey, Paul Odom and Herb Hughes Leading the Garnet team are Hugh Adams, Charlie LaPradd, Lee Corso, and Bobby Fiveash.

Standouts in Saturday's practice were Conrad, who connected on several lang keaves, and Tampa's Tony Romeo, touted by some as a future All-American at end. Romeo snared every pass thrown in kis direction with ease to spare.

However, it was the fullbacks that particularly bad Nugent grinning Dink Lawrence aod Bud Whitehead, rival starters for Thursday's night game, both tore up the middle for a number of large gains Terrell Teague, Bob Douglas and Pappy Rozman also ran with power during the drills

Defensively, guards Al Ulmer and Leo Bagget, along with tackles Royce Bryan and John Craig, were standouts.

The Garnet and Gold squads are:

GARNETS

Left ends — Herman Brown Jim Daniel Left tackles — Joe Verbinski, John Craig Left guards — Al Ulmer, Ramon Rogers Center — Bo Davis, John Ball, Jack Hardy Right guards — Leo Baggett Tony Barona, Joe DeFrancesco Right tackles — Clare Bagnall, Don Cook Right ends — Tony Romeo, Bob Stewart Quarterbacks — Vic Prinzi Frank Springer Left halfbacks — Carl Meyer, Bobby Carnes. FSU Golfers Drop Second To Rollins

The Florida State golfers absorbed their second loss of the season Saturday wheu the Rollins College linksters copped a 16-11 victory.

Dick Diversi shot a two-under-par 70 to lead the Tars. The Seminoles' best score was a one-under-par 71 which was carded by junior Mel Fleischer of St. Petersburg.

The loss brought the Tribe's overall record to three wins and two losses. Coach Bill Odeneal's crew met Georgia Tech yesterday. They face Florida here Saturday.

Win Coliseum Relays

Conley Wins Twice To Pace Tracksters

Distance man Mike Conley captured two first places and set two records as the Florida State track team won the Coliseum Indoor Relays Saturday in Montgomery, Ala.

The Seminoles totaled 28 points to gain first place and were followed by Alabama with 23½ and Florida with 18. Only three events in the total of 23 that were run Saturday failed to see old marks broken and new ones established.

Conley won the mile and the two mile event and broke the meet record in both events while at the same time breaking the school records in both events.

The old school mile mark of 4:18.8 fell as Conley ran it in 4:18.1. The senior from Gainesville ran the two mile in 9:50.3 which passed the old standard of 10:08.5.

CASTEEL PLACES IN 4

Versatile Jim Casteel competed in four events and placed in all four. He nabbed a second in the 60 yd. dash, third in the low hurdles and fourth in the broad jump.

He was also anchor man on the mile relay team which set a new meet record. The other members of the relay team were Conley, Doyle Ruff and Jack Terwilliger.

Ruff captured second in the 880 in time that was well under the meet record. Terwilliger placed fourth in the 60.

Dick Elwood took third in the pole vault with a jump of 13-2 which marks the second time he has tied the school record.

Jim Browning and Tom Mc- Donald tied for fourth in the high jump. The Seminoles were rated as dark horses behind the favorites Florida, Auburn and Alabama.

Stadium Seating

"Pick your team and cheer for them," says Athletic Business Manager Eddie Cubbon, Thursday night for the annual Garnet-Gold football clash in Doak S. Campbell stadium at 8 p.m.

All students will be admitted free of charge after presentation of their I.D. card. All others will have to pay a charge of $1.

The band will play for both teams, said Cubbon and will be seated in aisles 12 and 13. Students rooting for the Garnet team should sit in aisles 11 and 12, while those favoring the Gold should occupy aisles 13 and 14.

Netters Face Georgia Here

The University of Georgia provides the opposition here tomorrow as Florida State's tennis team opens its 1958 season.

The netters will try to improve over last year as they finished with a 5-11 mark.

Coach Keith Pitchford will use Lex Hester, service returnee Jim Berry, Frank Bryan, Jackie Crew and Jim Maddock as his top five singles players.

The remaining singles position, which is still wida open, will be filled by any of three men: Russ Rollinger, Howard Levy or Alex Sutor.

Pitchford foresees a close match with the Bulldogs, and "if the bottom of the lineup comes through we will have a better chance of winning."

Number one player for Georgia is Linsey Hopkins III, whom Pitchford rates as one of the top netters in the south.

Bristol To Pitch Against Plainsmen

By FRANK RAMOS

Florida State's Seminole baseball team opens its 1958 season tomorrow afternoon at 3:30 in the first game of a two-game series with the highly touted Auburn Tigers at Seminole Field.

The Tribe will go with lefty Jack Bristol tomorrow and either Frank Slusser or Fred Kenny on Thursday Bristol was th Seminoles' top pitchar las year with a 6- record.

Slusser

Florida Stat will have powe at the plat this season according to head coach Danny Litwhiler Charlie Rodgers up from a spectacular season with the freshmen, will bat in the cleanup spot following all-American shortstop Dick Howser.

Owen McCarron is slated to lead off and will be playing the centerfield position. He is co-captain with Howser.

Auburn kas practically the same team that compiled a 16-10 record last season. The Seminoles beat the Tigers three out of four games last yeae.

With such standouts as first baseman Lloyd Nix who last year made the all-SEC squad, and who will be remembered by Seminole football fans as Auburn's quarterback and Rex Frederick, who also made all-SEC and hit .360, the War Eagles have been tabbed as pre-season favorites in the Southeastern Conference.

CROUCH SWITCHED

The Tigers have switched hard hitting Jack Crouch from third to second this year and have moved Gerald Owens to third.

The shortstop problem in the Auburn lineup finds four men battling for the starting berth with Don James having the most experience.

L. F. Lanier, a .372 hitter and Frederick patrol Auburn's outfield with the other slot being filled by Jackie Burkett.

The Plainsmen have twa experienced catchers on hand, and either Pat Duke or Morris Savage will get the starting nod.

The pitching staff finds itself in a good position with fiva returnees Either Quineth Roberts or Alan Kiely, both righthanders, is expected to start.

BAZZELL AT SECOND

Dale Koch has drawn the opening call at third base and Johnny Sheppard will handle the catching duties. Ray Bazzell will start at the second base post which was wide open at the beginning of the year.

In the FSU outfield along with McCarran will be Mike Coppe and either Gerry Philp or Jarry Coach. Litwhiler said it will depend on whether a lefty or a righty opens on the mound for Auburn.

After the Auburn series, the Seminoles take a rest before competing in the third annual FSU Invitational Tournament. Students will be admitted to the game free of charge by showing their ID cards at the gate.

TOURNEY FOES

The teams competing in this year's tourney will be West Virginia, Notre Dame, and Wisconsin. All three of these teams competed in the first Invitational Tourney in 1955

Notre Dame finished fourth that year and its coach, Jake Klein, vowed he would not return for another tourney until he had a top notch team.

"Since he agreed to come down for the tournament again this year, you can be sure he has a good team," said Litwhiler.

Wisconsin always has one of the best baseball squads in the midwest. The Mountaineers of West Virginia field a team that is a pre-season choice for top honors in the Southern Conference

This is the third annual tournament and FSU has won or tied for first all three years.

RICHARD MONTMEAT is a 1947 Industrial Design Graduate of Pratt Institute, Brooklyn, New York. He joined General Electric's Television Receiver Department in 1948.

"A company that plans far ahead gives me the chance to work out my future"

"Pleasing design is no accident," says 32-year-old TV set designer Richard Montmeat. "It takes creative planning. At General Electric, we're constantly developing new product designs — including some for products which won't be on the market for several years. Ever since joining General Electric, I've had the opportunity and challenge of working toward the designs of the future. As I see it, a company which plans ahead gives me the chance to work out my own future, too."

• • •

The creative accomplishments of Richard Montmeat have already brought him widespread recognition. He was awarded design patents in 1950 and 1955; he won the Industrial Designers Institute Award in 1955; and his design for the 1958 General Electric 17-inch portable television receiver was selected for showing in an international design exposition in Milan, Italy.

Progress in pleasing design — making appliances more enjoyable to own and use — is an important factor in our nation's growing use of electricity and in our constantly rising level of living. Planning now to satisfy future customers is important not only to the continued growth of the electrical industry, but to individual progress as well. Opportunity for long-range planning is part of the climate for self-development which is provided for General Electric's more than 29,000 college-graduate employees.

Progress Is Our Most Important Product

GENERAL ELECTRIC

While In Germany

Auto Accident Delayed New Astronomer's Arrival

An automobile accident on the road between Kiel and Hamburg in Germany almost cancelled Florida State University's plans to have the services of Japanese-born Dr. Satoshi Matsushima but he is here now teaching courses in astronomy and physics.

Matsushima was approached last year to come to FSU's physics department while he was serving for a year and a half as visiting astronomer at the Observatory of Paris, France. His work there was under a grant from the International Astronomical Union.

VISA TROUBLE

Visa troubles prevented his coming to Tallahassee immediately and in September, 1957, when he was to go to FSU be went instead to the University of Kiel where be joined the research staff temporarily. Then one day in December he received word that his visa was ready if be could get to Hamburg by 8 a.m. on Dec. 10.

The 34-year-old scientist packed his family (his wife Reike and 2 month old son Ohichi) into their Volkswagen and hit the road early in the morning for Hamburg, 60 miles away. Snow began to fall and the road became slick.

As a result the Matsushima car and a truck were involved in a head-on collision and the astrophysicist thinks he and bas family were lucky to come out alive.

Dr. Matsushima came out unconscious and with some severe head cuts which required a stay of 40 days in the hospital. His wife received lesser injuries but a couple of broken bones and the baby escaped unhurt. The scientist still has a scar on his forehead to remind him of the narrow squeak.

Finally arriving with his family in Tallahassee, Dr. Matsushima now is teaching a course in elementary astronomy and one basic course in physics, along with two advanced courses, one in laboratory physics and one in physical measurements.

MORE ASTRONOMY

Next year FSU plans to activate astronomy courses and Dr. Matsushima will teach these. One will be a junior course in intermediate astronomy and one a senior course in mathematical astronomy. Still a third course will be a graduate course in advanced astrophysics.

Dr. Matsushima's research has been principally in the broad fields of stellar atmospheres and in solar physics and bis approach is theoretical, using a pencil and paper and published research instead of a telescope.

"One of the most delightful surprises I have had since coming here has been to find that the University soon is to have an IBM 650 computor and I'm looking forward to using it on some of the calculations which are needed on some research which I began in Paris," be said. "I did not find a computor of the sort either in Paris or Kiel."

PULSATION THEORY

The French studies were of the pulsation theory of Capheid type variable stars. He expects to utilize the computor or "electronic brain" after it is delivered and installed in the School of Business building in May.

The newcomer to the faculty is happy also that he will be able to meet again and bear Dr. Harlow Shapley, the world renowned astronomer who is to lecture three times at FSU Thursday and Friday.

Matsushima knew Dr. Shapley, then retired as director of the Harvard Observatory, while studying at Harvard University between 1952 and 1954. Five years of the Japanese's study, teaching and research bave been in this country.

A native of Fukui, Japan, in the central part of Honshu, Matsushima attended the University of Kyoto from 1943 to 1946 and got his master of science degree in astronomy there. He came to the States in 1950 and for two years studied at the University of Kyoto but served there only six months before he received the appointment as visiting astronomer potntment as visiting astronomer at Paris.

The young scientist's research publications in theoretical astrophysics already number 13.

SENIORS DUEL JUNIORS IN 'DONKEY BASEBALL'

"Play ball" will be the cry heard as the Junior Class takes on the Seniors in a baseball game Saturday afternoon. This game, however, will be different from most. It will feature the players atop Morovian donkeys.

The Donkey Baseball game, as it is being called, will begin at 1:30 at Ben Bridges softball field Saturday. Phil Knight Junior Class President announced yesterday. The Ben Bridges field is located directly west of Centennial baseball park downtown.

The teams of the two classes will feature prominent students on the teams, Knight added. The game will follow regular baseball rules except that all players will be required to ride around the diamond atop a donkey. All defensive players will also ride donkeys.

Tickets will go on sale this week, Knight said. Bob Kansky, chairman of the ticket sales committee, said that junior class members would sell them in fraternity and sorority houses and in the dorms. Tickets are also on sale at the Westcott ticket both.

Price of admission is 60c.

Bill Bunker, class veep, is in charge of recuiting the Junior Class team and Senior class president Bill Weaver is enlisting members of his team.

Knight said that be expected a good attendence and emphasized that everyone could expect plenty of laughs due to antics of the donkeys and their riders.

TWO GYMNAST TEAMS FINISH 1-2 AT AAU

Split into two teams, gymnasts from Florida State University finished one-two to deliver FSU its ninth consecutive Florida AAU gymnastics crown here Saturday night.

State's intercollegiate entry, sparked by Larry Malmlin and Chic Cicio, racked up 77½ points to edge a Florida State Gymkana group, which finished with 72 points.

Gymkana's Jack Miles, 1955 national AAU all-around titlist, proved he still has the stuff by taking five first places. But overall depth gave the Seminoles the decision.

Talented Laird Anderson established a new state AAU rope climb record, hustling the distance in 3.6 seconds. Coach Hartley Price's Seminoles entertain Mississippi Southern and Pensacola Navy in dual meets at Tallahassee this weekend.

The summary (FSU and Gymkana places only):

FREE EXERCISE—1. Cicio, FSU. 2 Malmlin, FSU 3 Miles, G
SIDE HORSE—1 Miles G 2. Lecuona FSU 3 Malmlin, FSU.
ROPE CLIMB—1. Anderson, FSU. 2. O'Conner, G.
PARALLEL BARS—1. Malmlin, FSU. 2. Miles, O 3. Cicio, FSU.
TUMBLING—1. Rider, G. 2. Cicio, FSU
TRAMPOLINE—1 Rider, O
HIGH BAR—1 Miles, G. 2. Malmlin, FSU. 3. Cicio, FSU.
LONG HORSE—1. Cicio, FSU. 2. Malmlin, FSU 3. Miles, O
STILL RINGS—1 Miles, O 2. Malmlin, FSU, 3. P Lecuona, FSU
FLYING RINGS—1. Miles, O. 2. Anderson, FSU.
ALL-AROUND—1 Miles, G 2. Malmlin, FSU. 3. Cicio, FSU.

Verran, Hipps Give Recital Friday

Anne Verran and Merrimon Hipps will be presented in recital Friday night at 8:15 in Opperman Music hall.

Miss Verran, piano student from the studio of Robert Glotzbach, will play selections by J. S. Bach, Brahms, and Chopin. She is a senior from Cairo, Georgia, and a music education major.

Miss Verran has been a majorette in the Marching Chiefs, has played clarinet with the University Symphonic Band, and has appeared as piano soloist with the Symphonic Band.

She holds membership in several professional and honorary musical organizations, including Pi Kappa Lambda

"Concerto for trumpet" by Joseph Haydn, "Suite for Trumpet and String Orchestra" by Orlando Gibbons, "Concerto by Vittorio Giannini, and "Concert Etude" by Alexander Goedicke will be played by Mr. Hipps, a trumpet student.

Hipps is a junior and a music education major from Newton, North Carolina He has participated in the Marching Chiefs, Symphonic Band, Symphony Orchestra and Brass Choir.

At the present time he serves as President of Phi Mu Alpha, national music fraternity.

Hipps is from the studio of Robert Braunagel.

Independents Open Softball

The intramural Softball season opened yesterday afternoon with action in the Greek Division. Dorm-Independent nines open this afternoon at 4 p.m.

Fifteen Greek teams bave entered that division and 11 Dorm-Independents bave entered. Among the D-I teams, a newcomer, the Psychology Club, bas fielded a team.

The intramurals office bas announced that anyone interested in officiating softball games, should contact that office. A wage of $1.50 per game will be paid to officials.

Volleyball is drawing to a close and at the present three Dorm-Independent teams remain undefeated.

Veterans Club bas registered a 5-0 slate, Majors Club stands with a 4-0 slate and Senior Hall bas a 3-0 record.

Over in the Greek division SAE leads its group with a 510 record, SN leads its group with a 5-0 record and PKT leads group C with a 6-1 record.

Forfeit games are not counted into the above records and they will be added at the end of the season. Several teams bave dropped out of competition in both divisions.

Christine Prexy Of Math Club

Elections were held at the monthly meeting of the Mathematics Teaching Club recently. The new officers are. Don Christine, president; Barbara Johnson, vice president; Anne Nicholson, secretary, Sandra Stewart, treasurer, and Bill Cartwright, parliamentarian.

In the process of formation is a Math Club at the University School to stimulate the interest of the students there in Mathematics. Meetings are held each Monday at 3:15 p.m. and all are invited to attend.

Two More Programs

WFSU 'Psychology' Series Near Finish

"Psychological Frontiers" is the title of a series of WFSU-FM radio lectures, which concludes Sunday, March 30.

The lectures, broadcast every Sunday evening at 6 p.m., have been presented in cooperation with the National Association of Educational Broadcasters, of which WFSU-FM is a member. This affiliation permits the local station to present programs produced at about 130 other colleges and universities in the nation.

TWO MORE

Five lectures in the series have already been presented. Two more are scheduled. On March 23, Joseph Banks Rhine, professor and director of the Parapsychology Laboratory at Duke University, will speak on "Extra-Sensory Perception."

On March 30, "Human Relations in America" will be the topic of F J. Roethlisberger and Wallace Brett Donham, professors of human relations at Harvard University.

The hour-long programs are tape-recorded.

"This is a great opportunity for psychology majors to hear experts in the field who can only be brought here via the tape-recordings," according to Dr. Raymond Cheydleur, assistant director of the University Broadcasting Service.

2-10 DAILY

WFSU-FM broadcasts Monday through Friday from 7 to 6 a.m. and daily from 2 to 10 p.m. On the news front, in addition to regular news and news analyses, the station presents detailed foreign news from England, France and Canada.

On each day's musical agenda are the London Hour, Best of MGM, Treasured Music, Capitol Hour, and Columbia Classics.

"Paris Star Time" is aired at 6 p.m. each Monday, Wednesday, and Friday; "French Masterworks" at 5 p.m. Sunday; and "Music from Germany" at 8 p.m. Friday.

Continuing through April 20 on Sunday evenings at 7:30 is "Prison Document," which is produced by the staff of WFSU-FM under a grant from the Educational Television and Radio Center.

West Hall Sets Inaugural Dance

John Van Beck, new governor of West Hall, will be inaugurated Saturday night at the annual formal Inaugural Ball, held from 9 to 12 p. m.

Other ceremonies include election of the West Hall Sweetheart, recognition of all new hall officers, and presentation of the outstanding resident and scholarship awards.

Entertainment will be provided by Sandy Beskin, vocalist, and Stan DeHart, comedian. The Devilaires will furnish dancing music.

Proper dress for the occasion for men will be tuxedos, white dinner jackets, or dark suits. Dress for women will be formal.

Refreshments will be served in the lobby of the dormitory by Mrs. Gretchen Nahrstedt, West Hall hostess. A committee of residents will assist Mrs. Nahrstedt.

Posters will be placed throughout the residence hall to advertise the dance by the publicity committee, consisting of Virgil Nipper, chairman, Harry Scott and Mickey Jackson.

Proposal Fails

(ACP)—A proposal passed Iowa State's student senate "that the college offer credit for both sectarian and non-sectarian religious courses" failed to receive full approval from pastors of campus churches, says the Iowa tSate Daily.

Some commented there was a need for such courses, but questioned whether students would have time to take the courses and whether qualified teachers were available.

They asked that the word "sectarian" be clearly defined. They mentioned the principle of separation of church and state.

One minister said, "The church student center should be the place for such courses to be offered."

Ratio Misleading

(ACP)—The three to one ratio of men to women on the Colorado State University campus is misleading—from a dating standpoint, that is.

Excluding the married students, the ratio is brought down to almost two to one.

Wentworth Leads Way

Seminole Tankers Nip Florida, 45-41

Led by backstroker Jim Wentworth, the FSU swimming team closed their season Saturday with a 45-41 upset win over Florida in Gainesville.

Wentworth, who had not been able to beat SEC champ Bill Ruggie in two years of competition before Saturday, provided the winning points for FSU in the meet with his 200 yd. backstroke win,. Ruggie finished third as FSU's Jerry Glancy placed behind Wentworth.

UPHILL BATTLE

Coach Bim Stults' swimmers staged an uphill battle to overtake favored Florida with a pool record smashing effort in the 400-yard freestyle relay, the final event.

It was the first time the Tribe bad beaten Florida in their home pool and gives the Seminoles a 3-2-1 edge in the heated series.

The victory was a fitting climax to FSU's 12-meet dual season that resulted in 10 triumphs against a single loss to SMU and a tie, 43-43, with Florida last month.

The Seminole victory came only a week after Florida had monopolized the Southeastern Conference swim meet with a record 26 points. The two teams will meet again in Gainesville Saturday when the Seminoles defend their Florida AAU championship.

SEVEN RECORDS

Seven meet records fell during the afternoon. Along with Wentworth's new mark of 2:18.6 in the 200 yd. backstroke, Ken Abbott established a new mark in the 50 yard free style as the only double winner of the afternoon with another first in the 100 yard freestyle

The summary:

400-yard medley relay—(Ruggie, Wiedemann, ... Wenz) 4:03.5 (meet record)
220-yard freestyle—1 ... Fla. 2. Metz, FSU 3. Tesch... 2:15.5 (meet record)
50-yard freestyle—1 ... FSU 2. Ray, FSU 3. Bo... 23.2 (meet record)
Diving—1. Henne, Fla. 2 ... FSU 3. Woods, Fla.
200-yard butterfly—1 ... Fla. 2. Drake, Fla 3 Co... 2:32.4
100-yard freestyle—1 ... FSU 2. Hammond, FSU ... ganne, Fla. 52.4
200-yard backstroke—... worth, FSU 2. Glancy ... Ruggie, Fla. 2:18.6 (meet record).
440-yard freestyle—1 ... Fla. 2. Calkin, Fla. 3 Metz ... 4:55.8 (meet and pool record)
200-yard breaststroke—1 ... FSU 2. McDonnell, Fla 3 ... mann, Fla. 2:35.2.
400-yard freestyle relay—(Thatcher, Ray, Hammond, Ab... bott) 3:32.3 (meet and pool record).

Senate's Resolution Seeks Signals End

Postpones Action Until Next Meeting

By BUCKY CANON

A bombshell resolution which would virtually abolish **Smoke Signals** highlighted a long student Senate meeting Wednesday.

Vernon Edgar, graduate student senator, introduced the resolution which proposed that "Senate go on record as recommending to the Board of Publications and the Budget Committee that no funds be allocated for the use of **Smoke Signals** next year."

Edgar further proposed that all unencumbered funds in this year's **Signals** budget be returned to the Budget Committee.

ECHO EDGAR

Several other sena'ors echoed Edgar's sentiments on the floor. Due to the late hour of the resolution's introduction, action was postponed until the next meeting

Edgar, pointing out the failure of **Signals** to produce more than one issue so far this year, declared that he saw no reason to give them an appropriation next year as student government was already "tight as far as money went."

Smoke Signals receives an annual apropriation of almost $5,000.

On a motion by Ronnie Clark, the Senate created a standing Committee of Student Events.

The committee's creation followed a long discussion on the Student Artist Series. Dissatisfaction with the lack of complete information was expressed by several senators.

PREXY ON FLOOR

President Arnold Greenfield took the floor and told the senators that "not one dime of profit has been made by the student Artist Series."

Greenfield explained that student government has given the Series $2,000 for the past two years and that these appropriations have made it possible for students to see such shows as "Damn Yankees" at their present prices

A bill providing that vacancies in class offices would be filled by a majority vote of the remaining class officers passed unanimously It was proposed by Senator Gerry Gordon.

The bill also provided a similar method for filling temporary vacancies due to internships.

Senate passed 19-9 several recommendations to promote a better turnout in elections proposed by the committee to promote student government.

The recommendations provide that (1) Senators use personal contacts to promote voting. (2) Music be played over the Westcott loudspeaker on election day; (3) A car with a loud-speaker remind students of the approaching elections; (4) Announcements be made at forthcoming student events; and (5) Through the **Flambeau.**

In other actions the Senate:

Received a report from the committee to name the streets. After discussing a petition from Magnolia Hall residents asking that the street in front of their dorm be named Magnolia, the matter was referred back to committee

Approved the appointment of Pat Hendry as a precinct senator.

Discussed the campus bus situation Senator Edwards reported that it "was almost impossible" to receive more funds for bus transportation. Senator Van Beck warned that the present bus was at times overloaded and that this constituted a safety violation

Heard Senator Sink announce that the Honor poll was underway Five hundred students would be interviewed, he said.

Heard Senator Kissinger say that Mabry Heights rents were substantially lower than those in town and report that any profit made there went into reducing the indebtedness of West and Florida Halls.

During this election the sen... class will be voting on per...ent class officers, Miss Rosenberg announced. Bill Weaver, ...ss president, is currently ac...ting nominations.

Awards Key Inaugural Ball At West Hall

The West Hall outstanding ...dent and scholarship awards ...ll be presented by Dean of Men ...onald Loucks at the annual ...augural Ball, held tomorrow ...ht from 9 to 12 p.m.

The governor, John Van Beck, ... reign over the dance. Other ...ficers recently elected were ...d Jolly, Lt. governor; John ...ernolds, secretary; Bob Owens, treasurer.

The present sweetheart, Pat ...arnes, will crown the new West Hall sweetheart during intermission at about 10:30. The sweetheart will be chosen from three finalists: Diane Godin, Sue Fisher, and Angel Alonzo, who were selected from a semi-finalist group which included Annette McIntosh, Liz Van Arsdale and Charlene Andrews.

The dance will be held in the main lounge and the theme for decorations is "Springtime," with a fountain of mist as the climax

Entertainment will be provided by Sandy Beskind, vocalist, and Stan De Hart, comedian, with the Devilaires furnishing the music for dancing

Mrs Gretchen Nahrstedt, West Hall hostess, will be in charge of the refreshments with a committee of residents to assist.

Formal dress for the occasion is required with tuxedos, white dinner jackets, or dark suits for boys, and formals for girls.

'Susannah' Author Returns In Fall

Carlisle Floyd, whose opera "Susannah" won the New York Music Critics' Award last season, will return to teaching here this fall.

Floyd will offer seminars in composition of libretti and music for operas, available to both undergraduate and graduate students for at least a two-year period.

Flambeau Photo Warren Gerard.

FSU DEBATER Dave Hortin congratulates Ronald Bernard Anderson of Glasgow University as Leonard Mackenzie of Glasgow and Jeannie Bleichner of FSU look on. The Scotsmen won the "Sputnik" debate held Wednesday night.

Scotsmen Impressed By 'Flying High'

"That this house should lose no sleep over Sputniks" was the motion of the ninth Annual International Debate held Wednesday night in Opperman Auditorium.

Taking the affirmative for the controversial issue were two Scottish law students, Leonard Mackenzie Turpie and Ronald Bernard Anderson from the University of Glasgow.

TAKE NEGATIVE

Defending the negative approach and taking a defensive stand that the U. S. should feel a concern over the launching of Sputnik I and II, were Jean Bleicher, a speech major in her junior year, and David Hortin, a sophomore. This was Hortin's first debate although he has had much experience in speaking.

Turpie and Anderson are presently engaged in a 10-week tour of the United States where they visit and debate at various colleges and universities. The tour is under the Department of State and is promoted for international education.

This is the two Scotsmen's fifth week in the U. S. and FSU is the eighteenth campus on which they have held debates.

Both Turpie, 23, and Anderson, 25, have already received their master of arts at Glasgow University and are presently working towards a Doctor's degree.

On an extended leave of absence from school, the visitors are thoroughly enjoying their "all too brief" stay in the U.S.

LIKE CIRCUS

When asked their impressions of FSU, both Turpie and Anderson stated they were "very happy to be here". The Scotsmen were most impressed with the "Flying High" circus. "The school has a tremendous gymnastics program," said Turpie.

"Also quite interesting to us," he continued, "is the fact that of all the universities visited thus far, this is the first we've seen done in modern architecture instead of Gothic or Roman."

Neither of the students are married. "Married college students at Glasgow" said Anderson, "are literally unknown. This is due to both economic conditions and tradition. But," he continued with a smile, "we do get married in Scotland, same as in America."

Both Turpie and Anderson are experienced debaters, although debating at the University of Glasgow is considered an extra-curricular activity. The men in their ten-week tour debate a total of seven different topics.

Flambeau Photo Warren Gerard.

GATORS AFOOT. Margaret Sue Hooten and Hank McCann survey one of the red "U of Fs" which appeared in various parts of the campus Sunday afternon.

Crisis Series

Southern Liberal In Dilemma, Killian Tells AS Lecture Group

The "southern liberal," according to Florida State University sociologist Lewis Killian, is in "the most difficult dilemma of all" as a result of the Supreme Court decision on school segregation.

In a Wednesday night American Studies lecture on American crises, Killian told an audience that "a special sort of wrath is reserved by the segregationists for the white man who accepts the principle of desegregation as a valid one, one on which practice should be based

IN-GROUP THREAT

"They know that he, a member of the in-group, represents the greatest threat to the continued existence of segregation. Therefore he recognizes that if he acts on, or even expresses, his beliefs he may be ostracized, subjected to economic reprisals, physically attacked, or denounced as a communist."

Dr. Killian, a native of Darien, Georgia, graduated from the University of Georgia and received his masters and PhD from the University of Chicago

Called upon often for professional advice in racial relations and other areas of sociology, he was coordinator of research for the attorney general of Florida in preparation of the desegregation brief filed after the May 17, 1954 decision of the court.

This decision, Dr. Killian told his audience, "did not create a new problem: it did not create a dilemma which had not existed before" But he said the decision brought into public consciousness "a situation in which men are compelled to make different choices. This is an era of crisis in race relations."

SLAVERY PROBLEM

The problem of the Negro minority has come up again and again in American history, he said, first as the problem of slavery.

"It is one of the tragedies of our national history," he said, "that men in the South who asw the evils of slavery and men in the North who saw the practical difficulties involved in its eradication could not prevail.

"Instead, the manner in which the issue was to be resolved was determined by the raucous voices of those who furiously and blindly defended the institution as a positive good and of those who refused to take into account the problems which such a difficult adustment would entail, no matter how it were accomplished."

The idea of "white supremacy" as we know it, he declared, emerged only after the bitter political battles of the 1880s and 1890s and in, 1896 the Supreme Court in a split decision laid down its "separate but equal" decision.

"The doctrine of 'separate but equal' as practiced in this century particularly as it applies to education, seems to carry in it the seeds of its own destruction," said the sociologist. "Yet in Mississippi, the staunchest defender of segregation, improvement of the Negro schools goes on apace in the midst of a massive attack on segregation."

NEGRO DISSATISFIED

The Negro, he said, long has been dissatisfied with segregation and "the notion that Negro dissatisfaction with the system is a product of frenzied agitation during the past few years is pure fiction."

Going back to the 1954 decision Dr. Killian said:

"It did not create the problem and it certainly did not solve it. It merely created a crisis in that it forced the long dormant dilemma to the surface of public consciousness. It created a crisis that will endure until the conflict of values involved in this dilemma is resolved.

"It revealed in inescapable

GRODZICKI'S 3.972 MARK TOPS FROSH WOMEN

Florida State University freshman women were led academically last semester by Lynne Mary Grodzicki, with a 3.972 average, Dean Katherine Warren announced Tuesday night.

At this time freshman women and their junior counselors who made a 3.000 or better average were honored by Miss Warren, members of her staff and the faculty at a reception in Longmire.

157 WOMEN

Out of 956 freshman women enrolled at FSU, 157 made a 3.000 or above. Fourty-six juior counselors achieved this record.

Alpha Lambda Delta, freshmen women's honorary, announced 39 new members, women making a 3.5 or better average. Six of these women broke the 3.9 mark.

In addition to Miss Grodzicki, they are Agnes Loraine, Gwynn Marie Collins, Mary Elizabeth Dickson, Patricia C. Guthrie, and Dorothy Anne Cronin.

Scholarship awards to the outstanding junior and sophomore women were presented by a representative of Mortar Board. Ada Leigh Wall, junior, received a trophy in recognition of her 3.934 overall average. Joan Blake, with a 3.876 received the sophomore plaque.

OTHER 33

The remaining 33 initiates of Alpha Lambda Delta are: Marilyn Gail Anchors, Joyce Lamb Baxter, Virginia Lou Bell, Susie Ann Blackburn, Mary Lee Bone, Mary A. Brotherson, Nancy Sarah Cash, George Ann Cook.

Vivian Anne Dozier, Jamie C. Cook, Martha Ann Dreadin, Charlotte A. Goodman, Patricia Y. Grigsby, Marcia Ruth Hamm, Edith Hansen, Nora Nell Hardy, Leslie Ann Lowell, Judith Ann Magnell, Marilyn Martin.

Patricia E. Miller, Deanna I. Morris, Leora Y. Olliphant, Jan Marie Pearce, Linda L. Potter, Patricia A. Senn, Susan Ann Shoaf, Janet E. Trask, Chloe Linda Upshaw, Martha A. Veverka, Katherine R. Wade, Carla Jean Westphal, Joyce S. Wolfgan, Marlyn Zibell.

Shakespeare Film Slated For 'Hour'

A condensed film version of Shakespeare's "Antony and Cleopatra" will be featured this afternoon at the English Coffee Hour in the Westminster House at 4.

The film runs 36 minutes and is a faithful account of the play, presented by professional actors.

Seniors Vs. Juniors

Donkey Ball Game Top Sporting Event?

The top sporting event of the weekend, a donkey baseball game between the juniors and the seniors, will begin tomorrow afternoon at 1:30.

Ben Bridges softball field on South Adams street will be the scene of the duel which will see prominent members of both classes play a ball game while riding Moravian donkeys.

ATOP DONKEYS

The game will follow standard baseball procedure except that all players are required to be atop the donkeys while on the field. It will probably be a seven-inning game, Phil Knight, Junior Class president said

"The junior team is in shape and ready to go," said Bill Bunker, captain.

"We'll see about that!" replied Bill Weaver, senior captain. "There are a lot of sluggers on the senior team."

Tickets are available at the Westcott ticket booth and will be sold at the gate. Price is 60 cents.

Knight said that buses would leave Bryan Hall at 1:15 tomorrow to transport students who do not have rides. They will return after the game is over.

Ralph Godfree of Crescent, Okla. is providing the donkeys and equipment. The freshman class will run the concession stand.

OFFICIAL ROSTERS

Members of the senior team are Bill Weaver, Bill Roche, Bob Johnson, Laird Anderson, Carmen Battaglia, Sonny Casca, Arnold Greenfield, Ron Schomburger, Jim Webb, Hank McCann, and Bob Nellums.

Junior team members are Bill Clendinen, Art Moore, Gerry Gordon, Joe McGee, Phil Knight, Floyd Lawrence, Bob Moran, Stuart Keith, Jim Liteky, Scott Harpe, Bo Davis and Don Reedy.

Knight said that he expected plenty of antics and laughs for those who attend.

SENIOR PLANS NEAR COMPLETION—WEAVER

Senior class officers have practically completed all plans concerning senior events, according to Class President Bill Weaver.

Among the necessary preparations for graduation are the ordering of invitations and caps and gowns, filing for degrees, and the election of permanent class officers.

"The important and traditional senior events also are already well organized by committee chairmen," said Weaver.

Chairmen of the various committees are Senior Vice President Bill Roche, election of permanent officers; Secretary Barbara Chambers, class gift and class history; Social Chairman Linda Broderick and Advisor Dr. Grace Fox, class day, and Kate Ramsey, dance.

"There are many deadlines the Seniors must meet and we will appreciate the class's full co-operation in carrying them out," the president said. (see other story for deadline dates)

One of the improvements made by the Senior Class officers is the early election of permanent class officers. They will be elected this year along with candidates for student government offices on April 1.

Class Day is set for Westcott beginning at 7:30 May 21. Featured on the program will be the announcement of the permanent officers election and the presentation of the Senior Class Gift and honoring of Hall of Fame winners.

President Robert Stromer will make a short speech and will present certificates to winners of the Hall of Fame. Also on the program is the traditional Junior sister and brother ceremony.

Two dances are on the schedule of events The big one is the Spring Formal, fomerly the Jr.-Sr Prom The dance will still be given by the Juniors in honor of the Seniors, but other students may attend. The formal will be held from 9 p. m. to 1 a. m. in the Men's Gym The orchestra has not been announced

A semi-formal dance will be held the night before graduation in the Student Center. It will be the last social gathering for the class Dancing will be to the music of the G-Bach Quintet and will begin at 9 p. m.

Sponsors of the Senior Class, Miss Laura Lee and Dr. Lewis Killian, are serving in advisory capacities, Weaver said.

SENIOR DEADLINES

FILE FOR DEGREES—deadline passed. Seniors must file with Registrar as soon as possible.

ORDER INVITATIONS — interns should order their announcements today. It interns neglect to order before leaving they should order from Mr. Wheeler at the Student Center The mail orders should include the following information: type of card, number desired, check for full amount of invitations plus 3 per cent for sales tax. April 10 is the final deadline.

CAPS AND GOWNS—May 10. A $15 deposit is required.

DIPLOMA FEE—$5 fee must be paid to Registrar before May 1.

SENIOR EVENTS

ELECTION OF PERMANENT OFFICERS—April 1. Nominations may be made to Bill Weaver.

SPRING FORMAL—May 17.
CLASS DAY—May 21.
BACCALAUREATE—May 25.
SENIOR DANCE—May 30.
GRADUATION—May 31.

Cheering Tryouts Scheduled Friday

Florida State University Cheerleaders will start their practice sessions for the 1958-59 season on Monday.

Practice sessions will be held Monday through Thursday from 4 to 6 p.m. on Landis Green. Tryouts will be held Friday at 4 p.m. in the ampitheater.

Jim Julian, 1957-58 head cheerleader, said that there are more vacancies this year, than ever before.

It is advisable, though not necessary, to attend the practice sessions before trying out. All girls attending are requested by Julian to wear shorts.

During the practice sessions three basic cheers will be called for all candidates, the same three cheers will be used for the tryouts, Friday.

Contestants will be judged in three areas: execution of cheers, enthusiasm and pep, and personal appearance.

Flambeau Photo Dick Parks

HIGH SCHOLASTICALLY. These four women, being congratulated by Dean of Students R. R. Oglesby and Dean of Women Katharine Warren, were four of the six freshmen women who made a 3.9 average or better last year. Seated: Patricia Guthrie and Ruth Loraine. Standing: Lynne Grodzicki and Dot Cronin.

Tally-Ho Delivery Planned May 17

Tally-Ho, the Florida State University yearbook, should be delivered on or about May 17, annual staff members announced today.

The last section of the **Tally-Ho** is to be mailed to the publisher today. This includes the index section of the annual.

Staffers stated that a later announcement will be made informing students of the stations which will be set up to distribute the annual.

'Signals May Go Up In Smoke'

Senator Vernon Edgar threw the fate of **Smoke Signals** once again into the limelight with his resolution to end the spotty publication of the campus magazine.

WITH MUCH deliberation, we feel we must second Sen. Edgar's proposal.

We do this with one reservation; that a substitute be found as an outlet for the expression in print of student creative writing.

IN A DECEMBER editorial the **Flambeau** expressed its concern for the success of the magazine in spite of the format it might choose. A humorous publication often is not humorous and in confronted with teetering on the verge of obscenity. A literary format interests too limited an audience, and the contents of a general magazine risks being a little worse than books available at the nearest newstand.

The '**Signals** staff chose a general feature format and came out with good results. However, the second issue, due in January, is still at the printers and is due any day now. The staff promises that two more issues will come out by the end of the semester, making a total of four this year.

ALTHOUGH CRITICS may oppose '**Signals** because its irregularity of publication, that is not the main reason for our concern. The staff has had its problems of building up a magazine without much support and is just now getting on its feet.

The main reason is financial. A less expensive publication printed to allow for the creative works of the student would be one alternative.

We hope other suggestions come from the Board of Publications and the newly appointed **Signals** editor.

Parties Should Promote Voting

Last week we warned the Senate of their narrow escape from the ranks of high school student councils. This week the Senate went ahead and joined those ranks.

A RESOLUTION providing the most "Mickey Mouse" means to encourage voting passed the Senate Wednesday. Space does not permit their listing here, but they can be found in Senate news story.

We doubt that even a high school council would stoop to such trivia.

ONLY NINE senators voted against the resolution. They were Senators Clark, Godin, Barber, Hayes, Sink, Stickler, Kansky, Van Beck, and Edgar. We commend them in their efforts to keep the Senate above a "Mickey Mouse" status.

Again we would like to remind Senate that the only way they will increase interest in student government is to do something which will arouse the interest of the students. If they merely beat their own drum, they are helping no one.

LOOK AT OUR state and national government. These governments do not spend time and money to promote voting. This is left to parties and interest groups that are concerned with government actions.

It should be the same way here. If no one is concerned with student government actions here, perhaps it is because student government does things which concern very few.

We would like to remind Senate, "You can lead a horse to water, but you can't make him drink." Senate may lead voters to the polls, but it will take more than that to improve the quality of student government.

Continuous Communicability

*Editor's Note: The **Flambeau** gladly reprints this week's **Saturday Review** guest-editorial. It was written by Dr. Louis Shores, dean of the FSU Library School, in commemoration of National Library Week which ends tomorrow.*

On our living room mantel there is on occasion a photo of the dean (myself) in soldier uniform. When students come to visit they invariably ask "Which war?" in such a way that I am encouraged to say Spanish-American, if not Mexican. But the truth is that although I served in the Second, I can recall the First World War quite well. And of all my recollections of the 1914-1918 struggle none has remained with me so persistently as a certain French general's definition of death.

IN WAR as in probably no other human experience the sudden transformation from the living to the dead ponders the question "What is death?" To this question the French general replied. "Death? Death is sudden incommunicability."

Sudden incommunicability. Somehow that definition of death has remained with me through all these years. Not because it defines death, but because it has given me a definition of life. For if death is sudden incommunicability, then life must be communicability. And this definition of life all at once gives meaning to the past, present, and future of the book.

TO BEGIN with, I understand the term book in the same generic sense as does the president of the American Library Association. To me, as to Ralph Shaw, the book comprehends all the media of communicability through which mankind gives evidence of life The term book includes hard covers and soft covers, periodicals and pamphlets, pictures and maps, films and filmstrips, tape and disc recordings, broadcasts and telecasts, and perhaps two score or more classes of formats. In terms of this definition I confidently answer the question "What is the future of the book?" with all the assurance of the French general. Why, the future of the book is the same as the future of life. As long as the book lives there is communicability: there is life. Whenever the book ends we will have sudden incommunicability; we will have death.

THE IMPLICATIONS of this bit of personal-professional philosophy extend beyond the sort of Maginot Line some publishers, booksellers, librarians, and authors have been attempting to excavate ever since another Frenchman, Maurice Duhamel, in 1938 doomed the book To paraphrase a contemporary of Duhamel's who may already have begun to collect his perspective from history, there is nothing to fear but fear. The book is in no greater danger than life itself.

Whatever this new "Battle of the Books" may be, its elements are very little different from its Swiftian precursor. In the Lilliputian essavist's day the threat to the book appeared to come from quality and quantity. About the former Swift wrote sardonically, "It is with libraries as with other cemeteries . . . that a certain spirit hovers over the monument till the body is corrupted, and turns to dust . . . which to some may happen in a few days. . . ." The future of such books is short, and rightly so, but hardly representative of the book as a whole. The book of quality has indubitably proved it can survive with life itself.

AS FOR QUANTITY, the doomsday prediction is almost as old as printing itself. Barey a century after the invention, Martin Luther wrote "The multitude of books is a great evil." Yet for four centuries since, book production has increased in almost geometric ratio. Concern, therefore, about either quantity or quality as a threat to the book has proved to be thus far no more than a concern.

Nor is the imagined threat from technology any more potent. From the standpoint of information or research Ralph Shaw has proved statistically that gadgets are too stupid to be able to store, retrieve, or disseminate knowledge as nimbly as the printed book. What is more, as automation releases semi-skilled humans from assembly-line drudgery, higher and higher IQ's such as are attained from reading books are needed to run automation. And as for recreation, David Mearns has put it deftly: "Can you imagine any one curling up in bed with a microfilm?"

FINALLY, THE debate over audio-visual materials is occasioned by the failure of some of us to recall our own professional history. Librarianship has never been and is not now basically a profession of formats. We have always prided ourselves on our mission of conservation and dissemination of the world's best ideas. In various ages we have carried on our work with clay tablet, with papyrus roll, with illuminated manuscript, with printed book, with pressed disc, with celluloid film. Each new format has been resisted by some fine old bibliophile. Listen to this from Vespassiano's life of the illustrious fifteenth-century Italian Duke Federigo of Urbino:

"IN HIS LIBRARY all the books are superlatively good, and written with the pen, and had there been one printed volume it would have been ashamed in such company." Of which of us librarians shall it be written some centuries hence that we were ashamed to have good books in the library unless they were printed?

Books are books in whatever quantity or quality, in whatever order or format. Individually they are symbols of individual consciousness. Collectively in libraries they represent what humanity to this point has been able to comprehend of that mysterious universal consciousness.

As long as there is life man will try very hard to communicate with man, and even harder to communicate with God. This continuous communicability inherent in human life insures the future of the book.

Performance Rare Musical Treat

By JOHN KNOBLOCK AND CHARLES ROWDEN

"Maturity" and "musicianship" are two virtues frequently extolled as desirable in performances, and generally lamented as not being present. Unfortunately, critics seldom give more than an ambiguous and frequently ambivalent definition of these key terms. Such a situation is distressing, but, nevertheless, critics, audience, and performers instinctively recognize the presence of these nebulous "virtues."

ON THESE occasions, everyone enjoys an experience of rare musical fulfillment, not a common occurrence on even the best of college campuses Such an occasion was Monday evening's concert of Brahms Second Piano Concerto with Paul Parmelee, pianist, and the University Symphony under Dr. Dohnanyi.

The concerto is a work of gigantic proportions and incredible interpretative and technical difficulty. The piano must challenge the full orchestra and must rival it in both facility and power; the orchestra must respond with lightning phrases and delicate balances between solo instruments. Both soloist and orchestra fulfilled to a high degree the demands of both technique and interpretation.

AFTER A hesitant beginning, the rolling commentary of the pianistic answer to the initial horn solo provided a firmer basis upon which to build. Only in the extremely difficult and demanding passages of the piano obligati did the unusually slow tempi mar the effect. Ocassionally one felt that the piano was strangely restrained in contrast to the more relaxed playing of the orchestra.

Some moments troubled the listener by calling for greater intensity, others for more dynamic expression. Nevertheless, the total impression was beautifully sustained, and the return of the initial horn motive, transformed and enobled, followed by the reply of the piano, climaxed the movement with an interpretative brilliance which overwhelmed the listener.

THE SECOND movement, Allegro appassionato, allowed no relief from the tension of the epic first movement The opening piano melody is impassioned, dynamic, full and is answered by a tranquil, singing orchestral reply. The opportunities of this movement were more completely realized than those of the first movement. The slower tempi heightened the effect, and Mr. Parmelee's more relaxed playing elevated the interpretation.

As the technical demands of the first movement are great, so it is interpretation which predominates as the primary difficulty of the slow third movement, Andante. Here it is the orchestra which must meet most of the challenge. Dr. Dohnanyi succeeded admirably in welding the movement into a convincing whole with an orchestra which would have been not completely adequate.

ONE IS REMINDED that the string sections greatly need augmenting by the encouragement of new violin and cello students. Nevertheless, the strings gave us their full expressive power. The cello solo which opens the movements and its repitition were beautifully accomplished. Mr. Parmelee was at the height of his powers with carefully restrained and beautifully unified playing

The concluding movement, Allegretto grazioso, contains difficult octave passages, swift arpeggios, and incredible displays whose brilliance is an exhausting demand. The orchestral playing provided a sonorous background and complement to the piano's brilliance. Undoubtedly the orchestra responded most successfully to this movement, and Mr. Parmelee's playing was only slightly inferior to the high level maintained in the second and third movements.

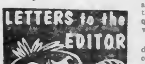
ONE CANNOT praise performances of this merit on a college campus too highly; the mistakes and technical and interpretative difficulties not successfully handled were sufficiently negligible not to detract from the excellent total impression of the performance.

The remainder of the program, the Fourth Movement, March to the Gallows, from the Symphonie Fantastique, op. 14, of Hector Berlioz and the Romeo and Juliet Suite No. 2, op. 64b, of Serge Prokofieff, proved to be a mild anti-climax to the brilliance of the first half of the program.

THE BERLIOZ, taken from its context in the symphony, suffered from being frequently unintelligible, musically. Romeo and Juliet, was a greater success. The solo passages in the brass and woodwind sections were met with considerable facility but, the total impression was distinctly inferior to the Brahms, although frequently the orchestral playing was better.

Performances such as Monday evening's should be encouraged and welcomed, but should also set standards which, in the future, must be met again. If the University Symphony and Mr. Parmelee continue to meet such standards, one can look forward to considerable successes in the musical future of FSU.

Party Needs New Ideas For Platform



TO THE EDITOR:

Thursday night I attended the University Party Convention where I attended as a representative of my group.

I came with open ears and open mind. I wanted to hear something to inspire me.

What I learned was far from that. I wanted to hear about a new platform and what did I hear?

The same old problems—the investigation of the day after holidays (the yoke), the investigation of the Student Senate and to raise the average of the presidential candidate's grades.

The third party should know the facts of life in politics. If not, I would like to refresh their memories.

A political party rules by votes that are not cast at all, then by the votes that are cast.

The Student Government has no actual power, but merely a "please do this" and we can't expect our parties to have actual powers.

The workings of the Student Party and the Collegiate Party, as they were stated at the meeting. I can only say that they are a part of our democracy.

If we had a true democracy, the practices of parties would be destroyed.

Since we do not live in a true democracy, the practices of parties, no matter how unethical, have existed since the beginning of organized party controlled government.

While at times I admit the many policies of various parties look b'ack, they do work.

To reiterate, the basis of any party is not the candidates, it is the party platform.

What I want from any party is something to fight for. New and radically different ideas. Do this and I shall fight with you.

Glass Menagerie Is Good Occasionally

By EMMETT JARRETT

Having attended the Speech Department's presen... Tennessee Williams' **The Glass Menagerie**, we hope to ... down a worthwhile comment on the play, its perform... interpretation.

WILLIAMS' drama is a powerful one, one which should leave the audience feeling sick inside. It has been characterized more than once as "a kick in the guts." We believe that an audience should leave the theatre asking themselves (1) why the Wingfields had to be separated from the rest of the world, (2) which is the preferable existence, that of Laura, or that of the "gentleman caller," (3) why, in our society, any meeting of the two types of existence must inevitably result in the destruction of Laura, and (4) which is the manner in which they live themselves?

LAURA IS "blue roses," the delicate and fragile beauty which is "not of this world" Tom is the poet who appreciates Laura, and yet realizes that her type of life is not his, for he is a man with an instinct for action, while she is the contemplative beauty who "just satys here."

The Friday performance was excusable due to 'first night jitters." The second rendition was better, and the Monday night performance was good college theatre. Unfortunately, for one reason or another, the last performance, which we had hoped would be the best, was a fiasco. The audience laughed heartily at lines which should have put them in tears, or made them grind their teeth in anguish.

IN ALL except the last performance the cast was well integrated. On that evening, however, the four actors were apparently playing four different shows. There was little or no unity in their performing

THE STUDENT COUNCIL AND HOW IT GREW

Today let us investigate a phenomenon of American college life laughingly called the student council.

What actually goes on at student council meetings? To answer this burning question, let us reproduce here the minutes of a typical meeting of a typical student council.

Meeting scheduled for 8:30 p.m. at Students Union. Called to order at 10:63 p.m. by Hunrath Sigafoos, presiding. Motion to adjourn made by Louis Bicuspid, freshman representative. Motion ruled out of order by Hunrath Sigafoos, presiding. Hunrath Sigafoos called "old poop" by Louis Bicuspid, freshman representative. Seconded by Delores Wheatgerm, sophomore representative. Tabled by Hunrath Sigafoos, presiding.

Minutes of last meeting read by Zelda Pope-Toledo, secretary. Motion to accept minutes made by Hunrath Sigafoos, presiding. Motion defeated.

Treasurer's report not read because Rex Mercredi, treasurer, not present at meeting. Rex Mercredi, treasurer, impeached and executed in absentia.

STUDENT COUNCIL

"I move hard liquor be sold in the school cafeteria..."

Motion made by Louis Bicuspid, freshman representative, to allow sale of hard liquor in school cafeteria Seconded by Delores Wheatgerm, sophomore representative. Motion tabled by Hunrath Sigafoos, old poop.

Motion made by Booth Fishery, fraternity representative, to permit parking in library. Motion referred to committee.

Motion made by Dun Rovin, athletics representative, to conduct French conversation classes in English. Motion referred to committee.

Motion made by Esme Plankton, sorority representative, to allow hypnosis during Rush Week. Motion referred to committee.

Motion made by Pierre Clemenceau, foreign exchange student, to conduct Spanish conversation classes in French. Motion referred to committee.

Observation made by Martha Involute, senior representative, that in her four years on student council every motion referred to committee was never heard of again. Miss Involute was tabled.

Motion made by Louis Bicuspid, freshman representative, to allow sale of hard liquor in Sociology I and II. Seconded by Delores Wheatgerm, sophomore representative. Motion tabled by Hunrath Sigafoos, presiding, crossly.

Refreshments served—coffee, cake, Marlboro Cigarettes. The following resolution adopted by acclamation:

"WHEREAS Marlboro is milder, tastier, and more pleasing to smokers of all ages and conditions; and WHEREAS Marlboro is contained in the crushproof flip-top box which is the slickest, quickest, neatest container yet devised for cigarettes; and WHEREAS Marlboro, that most commendable of smokes in the most admirable of wrappings, is graced with the exclusive Selectrate filter; therefore BE IT RESOLVED that it is the sense of this meeting that Marlboro is far and away the best cigarette on this or any other campus."

Meeting adjourned with many a laugh and cheer at 11:74 p.m.

© 1958, Max Shulman

• • •

The makers of Marlboro, who bring you this column, herewith move that Marlboro is the finest cigarette ever. We know you'll second the motion.

Big Ten Schools May Drop Baseball

[illegible] obvious that the Florida State baseball team was not the [illegible] college team hit by the practice of major league scouts luring [illegible] away before they graduate.

[illegible]oughout the past two months, sports pages all over the [illegible] have been filled with stories of top college players in their [illegible] junior and even sophomore year who have dropped out of [illegible] accept large bonuses to sign with major league clubs.

In the midwestern universities which make up the Big Ten, [illegible] practice has stirred up so much resentment that several [illegible] have announced plans to drop baseball from their ath[illegible] program.

[illegible] was here in the Big Ten that an unusual incident occured [illegible] connection with the signing of a player. The University of [illegible] was counting heavily on Frank Haller to pace their diamond [illegible] season

[illegible] a scout from the San Francisco Giants offered him so large [illegible] he could not resist. Haller figured he owed the school [illegible] for all it had done for him and he felt some token of [illegible] was in order.

NOBLE GESTURE

[illegible] Haller stipulated in his bonus contract that $2500 was to [illegible] to the school's athletic department to repay the money [illegible] given him in the form of a scholarship. This was a [illegible] gesture but it is unlikely that many other players will [illegible]

[illegible] Universities cannot be blamed for acting in a manner [illegible] many people, at first glance, say is radical. The baseball [illegible] for any school is always costly. True, the expenses for [illegible] team are not as high as those for a football team, but [illegible] to see the baseball games.

According to the heads of many colleges, there are only two [illegible] for maintaining a baseball program. One reason is to give [illegible] who do not compete in track and football a chance to [illegible] in a varsity sport.

The second, and perhaps the most important reason, is to [illegible] players for the major leagues.

[illegible] simple to deduct that the major leagues are cutting their [illegible] by taking men from college before graduation.

[illegible] the college trains a man for two or three years and then [illegible] gobbled up before graduation, it is likely they will not [illegible] in having a team at all and will probably follow the [illegible] of the Big Ten schools.

[illegible] if none of the colleges have teams, many of the aver[illegible] baseball players that are developed into big league material by [illegible] coaching, will never find their way into the major leagues.

Plainsmen Nip Baseballers 4-3 In First Game

The Auburn Tigers pushed across one run in the top of the ninth inning to eke out a 4-3 victory over the Florida State Seminoles, in the first game of a double-header yesterday.

This game was the season's opener for the Tribe Going into the top of the ninth, the score was tied 3-3. With one out, Tiger outfielder Tommy Lorino, slapped a double to centerfield

Bob James, the next batter, was walked intentionally and the Plainsmen pitcher, Fred McDuffie struck out.

L. F. Lanier, Auburn left fielder, then hit a clean single to drive in Lorino and give the Tigers their winning margin. Soph Jerry Hohne replaced Jack Bristol and retired the side.

The Tribe loaded the bases with two out in the bottom of the ninth, but could not push across the needed tally

TIGERS SCORE FIRST

The Plainsmen drew first blood in the fourth inning when they scored two runs on two hits and an error. Singles by Jack Crouch and Gerald George opened the inning. A hit batsman loaded the bases and Pat Duke hit a sacrifice fly to drive in one run

Florida State tied it in the sixth when Owen McCarron singled and Gerry Philp drew a walk. Dick Howser, FSU's all American shortstop, then hit a screaming double to drive in both runners.

An unearned run in the eighth inning enabled the Tigers to pull ahead once more. In the bottom of the eighth, Charlie Rodgers hit a single with one out, and Gerry Philp on first.

Mike Copps, Tribe outfielder drew a walk to fill the bases. Dale Koch, FSU third sacker, then hit a long fly which enabled Philp to tag up and score

Howser was the top hitter for the Tribe as he got three hits in four attempts. Two of the hits were doubles. McCarron, Seminole lead off, man went two for five. Howser also had two RBI's.

Bristol took his first loss of the season while giving up eight hits in eight and 2-3 innings McDuffie was the winner for Auburn.

Gym Teams Meet Southern

Florida State's unbeaten gymnasts wrap up their dual meet schedule today and tomorrow when they meet Mississippi Southern and Pensacola Naval Air Station.

Both meets are return engagements, with the Seminoles on the long end of overwhelming victories. Earlier in the season, Southern bowed 94-31 and Pensacola was topped, 89-39.

To date, the Seminoles have won every meet they've entered, including the Southern Intercollegiate, the Kentucky AAU and the South Florida Championships.

To sharpen the competition tonight, Coach Hartley Price has entered the FSU Gymkana team comprised of freshman and graduate students.

Last week the Gymkana team and the regular team finished one-two in the Florida AAU. So for this season, Lennart Malmlin and Chick Cicio have been the top point producers for the Tribe gymnasts.

VETERAN GYMNAST Chick Cicio will be one of Florida State's competitors as the gymnasts open a two-match home stand against Mississippi Southern and Pensacola NAS.

Shutouts Open Softball Tilts

Two shut-outs inaugurated the Intramurals Softball Season on Monday. ATO slammed over PKP, 10-0 and KA showered PKA, 10-0.

TEP blazed to glory over a promising SPE team, 12-8. SN handed LCA a 9-6 defeat, PKA powered over KS, 13-3 and TC gave DTD a 14-6 bombing.

SAE, SC and PDT were idle on the opening day of the 1958 season. Rain and mud cancelled all Greek games scheduled for the rest of the week.

Dorm-Independents opened their season on Tuesday and Ron Green pitched a one-hitter for Penthouse Gang as they defeated the Veterans Club, 12-1.

NEWMAN WINS

Newman Club grand-slamed over the Playboys in a 17-4 hit-happy melee. Magnolia gained a win on a forfeit by Senior Hall

The Psychology Club drew their first win on a forfeit also by the AF ROTC.

The Physical Education Majors Club was idle.

Netters, Tech Vie Here; Beat Georgia

With one win under their belt, Florida State's tennis team turns to meet a strong Georgia Tech squad here tomorrow afternoon on the varsity courts.

The Yellow Jackets dropped their opener to the always powerful Miami Hurricanes, 9-0

Wednesday the Seminoles rallied in the doubles to pull one out, 5-1 over Georgia's Bulldogs. Both teams divided the six singles matches.

The singles winners for FSU were Hester, 4-6, 6-3, 6-2; Crew, 2-6, 7-5, 6-1; and Maddock, 6-3, 6-0.

Golfers Meet Gators At Home Tomorrow

Seeking their fifth win of the season, the Florida State golfers play host to the University of Florida Gators tomorrow.

This will be the second meeting of the year between these two teams. Florida took full advantage of the Tribe in an early season match and gained a 19-8 victory.

Expected to pace the Gators is Tommy Aaron who shot a five-under-par 66 to lead Florida in its first victory over FSU. Aaron carded a six-under-par 65 against the Gators most recent victim, Georgia Tech.

Skip Stigger and Pete Trenham have also been consistent below par men all season and should help pile up the points for Florida

Bill Odeneal's Seminoles will counter with veteran linkster Bob Shave who is the only returnee from last year's foursome Shave shot a four-under-par 67 against Florida in the first match.

Dan Torppa, a promising sophomore, and Mel Fleisher, a junior from St. Pete, will also represent FSU. Dick Hanscom, Dick Parker, Dave Morris, Dink Wise and Rem Noble will also be on hand to aid the Seminoles in an attempt for a revenge win.

The most recent mutual opponent for both squads has been Georgia Tech. The Gators topped the Engineers 22-5 in Gainesville while the Seminoles racked Tech 21-6 here on Monday.

TECH FALLS

Shave carded a neat four-under-par 68 to lead the Tribe in the victory over Georgia Tech. In fact, all six Seminoles came in ahead of their opponents to give the Tribe its fourth dual win in six starts.

So far this season, FSU has notched wins over Wisconsin, Moody Air Force Base, Jacksonville Navy and the Engineers. The Seminoles' losses have come at the hands of Rollins and the Gators

In the Florida Intercollegiate golf tourney, the Tribe lost their title to Florida, but still pulled up a close second.

Tomorrow, the Florida Gators will also bring the freshman golf squad which will clash with the FSU frosh. The two freshmen teams have also met once this year with Florida coming out on the long end of a 12-6 score.

Co-Favorites With Fla., Coral Gables

By TOM HALE

Florida State's swim team looms as co-favorites as they go after their fourth straight Florida AAU title in Gainesville today and tomorrow.

Florida and the Coral Gables Swimming Association are expected to battle the Seminoles for the State crown, as the diving event gets under way today with the other events scheduled for tomorrow morning and afternoon.

NINE-TEAM ENTRY

Nine teams are entered in the meet with Florida and FSU entering two teams apiece. Other teams competing are the Ponte Vedra Surf Club, the Miami Beach Recreation Department and the University of Miami in addition to the Coral Gables Swimming Association.

"We have some fine competition ahead of us and it will take another effort like we had last week down in Gainesville if we want to win", stated "Bim" Stults, FSU tank coach.

FSU's points should come in the short freestyle events, with school record holder Ken Abbott leading the sprinters. Abbott has posted times of 23.2 in the 50-yard freestyle and 51.3 in the 100.

The Seminoles' 400-yard freestyle relay team composed of Ryan Ray, Glen Thatcher, Paul Hammond, and Ken Abbott will be out to better the pool record they set last week in Gainesville.

FSU's Joel Jacobs is favored in the 200-yard breaststroke, as the school record holder he has beaten every man in previous meets that he faces tomorrow.

The key event in the meet could well be the 200-yard backstroke.

The lone entry for Miami in the title meet tomorrow is former Olympic star Jack Nelson.

Judging Wednesday

Magazine Seeking '10 Best Dressed'

Sororities and residence halls may enter as many candidates as they want for **GLAMOUR'S** 1958 "10 Best Dressed College Girls in America" contest.

These applications and a photograph (or snap-shots) of them in a campus outfit, a date dress (full or cocktail length) or an off-campus daytime outfit, must be turned into Nancy Gene Brown at the **Flambeau**, 213 Longmire, by Wednesday noon.

Candidates should be dressed in Sunday clothes for the judging which will be held Wednesday, at 3 p.m., in Longmire Auditorium.

They will be judged on the following criteria: good figure—good posture; clean, shining, well kept hair; and carefully used makeup (not overdone).

Also, good grooming—not just neat but impeccable; imagination in managing a clothes budget; a good over-all wardrobe plan; appropriately dressed according to the customs of her campus; unmistakable individuality in color, accessories, looks; and a real understanding of her fashion type.

The "best dressed" FSU woman chosen will be entered in **Glamour's** contest. The magazine editors will choose the "10 Best Dressed College Girls in America" the first part of April from the winners' photographs.

The winners will be photographed on their respective campuses and in June will be flown to New York as **Glamour's** guests.

During their visit to New York, they will stay at the Waldorf Astoria, will participate in **Glamour's** College Fashion Show and will be interviewed and entertained by **Glamour's** editors.

Science Fellowships Granted To Five

Five Florida State University students have been granted fellowships by the National Science Foundation for graduate studies here or elsewhere during the 1958-59 school year.

They are: Richard Pittman, Herman Brockman, Stewart Strickler, Milton Forbes and Alvin Wagner.

547 More Men

Spring Enrollment Totals 6,757, Shows Decrease From Fall

By VIRGINIA DELAVAN

The spring semester University enrollment, fixed at a 6,757 total shows a dip of 446 students under the fall total of 7,203, according to information from Charles Walker, registrar.

A breakdown of this current figure lists 3,652 men and 3,105 women, 547 extra males. There are 1549 students classified as freshmen, 1347 sophomores, 1323 juniors, 1347 seniors, 243 special students and 946 graduates.

Four of these categories showed a decrease from the fall. Seniors held even and graduates increased by 58.

According to Walker, this decrease is not unusual, is in fact, expected. "Each year all schools have a smaller enrollment second semester than first."

THREE REASONS

The reasons for this, he says, are: (1) the large graduating class at the end of the first semester (2) slim enrollment of new students during the year (3) large number of drop-outs first semester because of marriage, poor grades, service obligations, etc.

However, Walker says, "We have had a slight increase each year in the fall over the previous fall and in one spring over another. The college-age population in Florida is steadily growing larger."

He went on, "Every year we gain two or 300 students, but two things have limited our growth to this small number. Our biggest problem is housing. We can manage to squeeze more people in classrooms, or build new ones, but if there aren't enough rooms, we have to turn students away."

The second deterrent is entrance requirements and admission procedures.

JUNIOR COLLEGES

The crop recorded in freshman and sophomore entrances under both last fall and spring '57 figures may be attributed in part to the new junior colleges being built around the state.

Next year there will be several junior colleges opening, including those at Panama City, Madison, Bradenton, Daytona and Ocala. These institutions will continue to have an effect on FSU enrollment, said Walker.

With the decrease in enrollment has come improved housing conditions, according to Miss Edith McCollum, assistant housing director.

Women students, especially, have been moved out of temporary quarters, such as recreation rooms, into permanent rooms.

"This semester we have extra space in all the residence halls," Miss McCollum said.

NEW POLICY

The housing office has adopted a new policy this year which should prove beneficial to both students and housing officials, Miss McCollum stated.

Each student who lives in residences will pay a $10 room deposit. This money will not be applied to room rent, as previously, but will automatically serve as registration for as long as the student stays in school.

It will be refunded on graduation or withdrawal from FSU.

This will do away with the "long lines of people waiting to pay room deposits every spring," Miss McCollum said.

Total room fee, $90, must be paid by August 1 or the $10 will be forfeited. This means students will be relieved of paying all fees in a lump sum in September.

Also Miss McCollum points out, "We are assuming that almost everyone who pays the $90 will definitely come to school and we won't have such a large group who fail to claim their rooms in the fall."

As a result of this change in procedure the housing office expects to make few temporary room assignments next semester.

Verran, Hipps Offer Recital In Opperman

A certificate recital will be presented tonight by Anne Verran, piano, and Merrimon Hipps, trumpet, in Opperman Music Hall at 8:15 p.m. Beverly Brown, soprano, will present her senior recital Monday evening in Opperman at 8:15.

Miss Verran is a senior and a music education major from Cairo, Georgia. She is a pupil from the studio of Robert Glotzbach. Her program will include works by Bach, Brahms, and Chopin.

Miss Verran has participated in many campus activities while at the University. She has been a majorette in the Marching Chiefs, has played clarinet with the Symphonic Band, and has also appeared as piano soloist with the same group. She is a member of Pi Kappa Lambda.

Mr. Hipps will be assisted by Lynnie Cavin, and his program includes works by Haydn, Gibbons, Giannini, and Goedicke. Hipps, a junior and a music education major, is from Newton, North Carolina.

At the present time Hipps is serving as president of Phi Mu Alpha, national music fraternity. He has been a member of Marching Chiefs, the Symphonic Band, Symphony Orchestra, and Brass Choir. He is from the studio of Robert Braunagel.

Beverly Brown, a senior voice major from Atlanta, Georgia, will present her senior recital Monday night. Miss Brown is a pupil of Edith Campbell Kaup. Her accompanist for the recital will be Raymond Liebau.

Miss Brown has appeared in the lead of several musical productions, playing the lead role in "South Pacific" and the role of "Ado Annie" in "Oklahoma." Last summer she did summer stock in Massachusetts, and she was guest soloist with the University Symphony for their fall concert.

LIBERAL . . .

(Continued From Page 1)

terms that segregation is indeed the fundamental point at issue in the racial problem, and it lent the sanction of law to the old argument that enforced segregation is discrimination. Even if, by some miracle, the court were now to reverse itself and say that its decision was legally improper the crisis would not end. The fundamental question of the morality of segregation has been made a burning issue, and the debate will rage on."

Various kinds of crises are posed for people with different shades of belief by the court decision, Dr Killian said.

Soon after it was handed down, he said, "it became evident that a host of value conflicts had been created." He called attention to attempts to preserve segregation by such measures as private school plans, to pronouncements of the major religious denominations which "put the segregationist in the position of defending a principle which had been officially declared 'unChristian'" and to the conflict involving law and order in Little Rock.

Ducats Go Fast For 'Damn Yankees'

Tickets are selling rapidly for Thursday night's production of "Damn Yankees," Secretary of Student Events Sylvia Kearson announced this week.

Miss Kearson urged all those interested in attending to get their tickets as far in advance as possible.

OCEAN TO OCEAN ACROSS SOUTH AMERICA—AND BACK—IN 41 HOURS!
CHEVY'S NEW V8 LEVELS THE HIGHEST, HARDEST HIGHWAY OVER THE ANDES!
To prove the durability of Chevrolet's radical new Turbo-Thrust V8,* the tremendous flexibility of the new Turboglide transmission,* the incredible smoothness of Full Coil suspension, we tackled the most challenging transcontinental road in the world — the 1,000-mile General San Martin Highway. To make it harder, the Automobile Club of Argentina sealed the hood shut at Buenos Aires — no chance to add oil or water or adjust carburetors for high altitude.
So the run began — across the blazing Argentine pampas, into the ramparts of the forbidding Andes. Up and up the road climbed, almost 2½ miles in the sky! Drivers gasped for oxygen at 12,572 feet — but the Turbo-Thrust V8 never slackened its torrent of power, the Full Coil springs smothered every bump, the Turboglide transmission made play of grades up to 30 percent. Then a plunge to the Pacific at Valparaiso, Chile, a quick turn-around and back again. Time for the round trip: 41 hours 14 minutes — and the engine was never turned off!
*Extra-cost option.
Air Conditioning—temperatures made to order—for all weather comfort. Get a demonstration!

The sure-footed Chevrolet purrs past a road sign that says "danger"—and ahead lies the toughest part of the perilous Andean climb!

Insurance Day Set Tomorrow, Features Larson As Speaker

"I" (for Insurance) Day will be sponsored on the Florida State University campus Thursday by the Insurance and Real Estate Society of FSU and the Florida Chapter of the Chartered Public Casualty Underwriters.

Unprecedented at any other college, "I" Day is to become an annual event, according to officials of the sponsoring organizations.

Ted Smith, president of the university Insurance and Real Estate Society, stresses that all students interested in any phase of the industry may attend the day's events. This includes the fields of economics, mathematics, engineering, stenography and journalism.

PANEL AT 9:30

Activities will begin at 9:30 a.m. in Opperman Music Hall with a panel presentation on the subject of "Career Opportunities in Insurance." The panel will feature outstanding men in the insurance field, including J. Edwin Larson, insurance commissioner of the State of Florida.

Following the panel, a job seminar will be held from 2 to 5 p.m. Personnel from various insurance companies will be present at that time for job interviews. Students interested in attending such interviews should sign up in the Placement Office.

Concluding the day's events, the annual banquet of the Insurance and Real Estate Society of the FSU School of Business will begin at 6:30 p.m. Student tickets for the banquet can be obtained from any Insurance and Real Estate Society member.

CLASS EXCUSES

Students from the School of Business attending "I" Day activities will be excused from classes, according to Dean Charles Rovetta.

Included in the discussion of "Career Opportunities in Insurance" will be the following:

"What is this Business of Insurance?" Hugh W. Donovan, President, Florida CPCU, "Life Insurance Career Opportunities," T. R. Miller, Gulf Life Insurance Co. of Jacksonville.

"Property and Casualty Company Careers," Victor E. Bonander, CPCU assistant secretary; "Career Opportunities as an Insurance Producer," John A. Weichel, owner, Weichel Insurance Agency of Bradenton.

OPPORTUNITIES

"Career Opportunities in the Public Service," J. Edwin Larson, State Treasurer and Insurance Commissioner; "How to Sell Yourself to your Employer," R. Millard Oliphant, Gulf Life Insurance Company of Jacksonville; and the concluding question and answer period.

Schedule for the remainder of "I" Day: 1 p.m., luncheon; 2 p.m., job-getting seminar and student interviews with insurance company executives in the library auditorium; 5 p.m., adjourn; and 6:30 p.m., banquet in the Suwannee Room.

Thurston To Speak To Journalists

George Thurston, Tallahassee radio and television newsman, will be the guest speaker of the FSU Journalism Club, tonight in room 202 of the Graduate School Building at 7:30 p. m.

Thurston's lecture will be of particular interest to all radio and television majors, but everyone interested in mass communication is invited.

This is the fourth in a series of lectures that the Journalism Club is bringing to the FSU campus for the benefit of mass communication majors and other interested persons.

The lecture will center around the possibilities of careers in the field of radio and television, with a question and answer period at the end of the lecture.

BLOOD BANK DONATIONS REQUESTED TODAY

Florida State University's blood bank continues its expansion campaign today with the second scheduled donation day.

Donors will be accepted from 1:30 to 4 p.m. at the University Hospital. Accoring to Hinton F. Bevis, hospital administrators, the prospective donor must be in general good health and be between the ages of 21 and 59 years. A health check will be made before the donation.

Despite the age minimum of 21 years, those between 18 and 21 will be accepted if they are married or in the Armed Services. Others under 21 must bring to the hospital a signed statement of permission from their parents or guardians. Forms for securing parental permission have been available at the hospital reception desk.

"We can't over-emphasize the importance of enlarging the blood bank," Bevis said. "An adequate supply of blood is necessary in case of emergencies involving university students or their families."

The faculty-staff blood bank, also undergoing expansion, will have its first donation date on April 3 from 1:30 to 4 p.m.

With the two facilities enlarged, it will be possible to provide emergency blood supplies to any student carrying three semester hours or more, and the wives and children of students, to faculty and staff members, and their families also.

CALL BEVIS, HARTZ

To obtain blood, it will be necessary only to contact Dr. Bevis or Dr. Hartz, university chaplain. Blood can be received at a much lower price, through the university hospital, than would be demanded by other hospitals.

The only stipulation is that the recipient must secure donors to replace the blood he uses.

Bevis said that donors are urged to eat as much of the following foods as they wish before giving blood: coffee or tea with sugar (if desired) but no milk or cream; fruit or fruit juices; carbonated drinks, toast with jam and jelly, but no butter; plenty of water. The donor should not eat foods with fat, or dairy products, for at least four hours before the donation.

Williams Asks Open Debate With Moore

Art Moore, independent candidate for student body president, was challenged to an open debate yesterday by his opponent, Carthell Williams of the University Party.

Williams, in an open letter to Moore, proposed that the subject of the debate be: "Resolved, that student government has reached an all-time low on the Florida State University campus.' Williams left the choice of time and place to Moore.

WEDNESDAY NIGHT

Moore, in accepting, chose Wednesday night at 7:30. He added that he had secured the Longmire auditorium for the affair. At **Flambeau** press time, Williams could not be reached for comment.

Williams told Moore in his letter, "In that you have received the endorsement of the two political parties under which student government reached this low level, I submit that you argue the negative point of this resolution."

"I think student government is on a very high plane and I will be glad to debate Carthell on this point," Moore told the **Flambeau**.

ON BALLOT

In another political development, Phil Kemblowski was placed on the ballot as the University Party designate for vice president. According to Sandra Rosenberg, acting secretary of elections, Kemblowski had qualified before the deadline and then had withdrawn.

He later decided to re-enter the race and is within his rights to do so, according to Miss Rosenberg.

Kemblowski is president of his fraternity, Phi Kappa Tau, and was recently selected business manager for next year's **Tally Ho**.

He will be opposed by Mattox Hair of the Student Party and Gerry Gordon of the Collegiate.

Miss Rosenberg announced that expense estimates are due at 5 p.m. today and urged all candidates to turn them in. "If any candidate does not file one by the deadline, he or she will be disqualified," Miss Rosenberg said.

Active campaigning begins today at 5 p.m. also.

Speakers' Bureau Meeting Slated

There will be an important organizational meeting for all those who are participating in the Speakers' Bureau tomorrow at 9 p. m. in Longmire Auditorium.

The speakers will receive materials to aid them in preparing their speeches. Other important information regarding the program will be explained by Joyce Combs, director of the Speakers' Bureau.

All those who plan to participate are urged to attend.

One Disagrees

Keep Football Big, Students Say In Poll

By GLENDA POWERS

Football, talked about on any college campus, is a rather controversial subject among students at Florida State University. When asked, "Do you favor football as it is presently adopted at FSU?" answers constituted a variety of opinions.

The thing most students mentioned was whether or not FSU should play the larger and more powerful football teams.

Although answers varied, the majority of students favored the present football system.

GIVES INCENTIVE

One of the most common opinions was expressed by Abigail Fain, who stated, "I think playing bigger teams and being able to strive for higher goals helps to give the team incentive. Also, I think Tom Nugent has done a great deal in helping to develop the football program at FSU."

Agreeing that the present system is good, Nina Green added, "Playing larger teams will help the FSU team to increase in wealth and power and better able to offer scholarships to more highly skilled players."

Nancy Harbett favored next year's schedule and commented, "Playing in Jacksonville will help the reputation and financial status of the team."

Of the ten women interviewed, only one really disliked the present set-up. Diane Walker stated in answer to the question, "No, I don't think there's enough interest because we play teams far out of our league. We should play more teams over which we could win in order to build the team's morale."

Two other women, Judy Evans and Pat Lord, agreed that we should take a little more time to prepare for the stronger teams. "However," added Judy, "I'm glad we're playing the University of Florida."

Barbara Eissey and Ken White were in full agreement in saying, "Big-time football or none at all."

Football player Bill Weaver said he was in favor of playing the larger teams.

Head Drum Major Terry Johnson answered the question, "If we play bigger schools, we face bigger bands, creating more competition and school spirit for the team and band."

The general attitude of the men may be summed up by Greg Smith's answer, "I definitely favor the present football system mainly because FSU is coming into big time in other sports, and in order to maintain its ranking as a large university, it should keep its football system on a large scale. Also big teams draw larger crowds, creating more revenue."

Business Office Finds Two Bikes

Two bicycles have been recovered but not claimed, according to Assistant Business Manager Gerald Jones.

Jones said that the bicycles could be picked up after proper identification had been made in his office, 104 Westcott.

Problems Not Understood, Editor Says

Lack of money and lack of contact with the magazine's problems were named as the reasons behind the Senate resolution to cut off its funds, the **Smoke Signals** staff said yesterday.

"We must protest in the strongest of terms the proposed curtailment of our operational funds to the point of termination of publication," a staff statement said.

Accusing the Senate of being "in dire need of funds," the **Signals** staff asked that an inquiry concerning all allotments be made. "A general economy move could benefit students more than the elimination of a student agency," the staff statement read.

NOT WORTH IT

Senator Vernon Edgar, author of the curtailment resolution replied, "I've been here six years and have yet to see a year where the magazines have been worth their appropriation. Certainly an expenditure of $5,000 is not justified by this year's record of publication."

Arlieda Reis Simmons, editor of this year's **Signals**, said that "indifference to the magazine's problems paved the way for this resolution." She added that to her knowledge no senator had contacted her or her staff to talk over the situation before its introduction in Senate.

The staff statement added that they had faith that the majority of Senate would "not go into any action so serious as the suspension of **Smoke Signals** without a thorough hearing at which all parties would be given opportunity to express themselves."

Ron Hamm, editor elect, will probably speak in defense of the magazine.

One senator said, "**Signals** can be judged by its output this year. The proof is in the pudding."

To this Mrs. Simmons replied, "A poll would show that everyone has enjoyed something in **Smoke Signals** this year. **Smoke Signals** has made tangible progress and the student body is entitled to some accounting for the reasons for the apparent attempt to censor the magazine."

BEGINS TO ROLL

An enthusiastic and growing staff is with **Signals**, Mrs. Simmons added, and the magazine's production is beginning to roll. The second issue is at the printer's and the third one is being lineotyped, she said.

"Ron," she said referring to Ron Hamm next year's editor elect, "will not have any problem organizing a staff. He will inherit a staff twice the size he needs. Contributions are coming in without our seeking them out."

Mrs Simmons pointed out the interest in **Signals** shown when three applicants competed for the editorship. She felt that the remainder of this year and all next year would be productive for the **Signals** if it remains in business.

THIS IS BASEBALL?

OBVIOUS DIFFICULTIES beset members of the senior and junior teams who "attempted" to play a "donkey baseball" game Saturday at Ben Bridges Softball Field.

The Florida Flambeau

State's Best Editorial Page 1957

Florida Flambeau editorials represent only the views of tha student members of the staff. Signed columns on this page represent only the opinions of their authors. Any student may suomit either editorials or columns for consideration.

Supplement The Answer

The **Flambeau** in its last issue came out in favor of finding a substitute for the long-suffering **Smoke Signals.** We think it is possible to publish a magazine of more interest to the students, at a less expensive, more reasonable price, and still serve the purpose of supplying an outlet for student writing.

SMOKE SIGNALS. in its present form, is not satisfactory because of its cost and because, in our opinion, students do not get the fullest benefit from it.

Columnist Art Albrecht, who is also a member of the Board of Publications, argues for keeping the **Smoke Signals** on this page today. The **Flambeau** thinks the facts should be known by the students, the Board, and the Senate before drastic action is taken abolishing the magazine, therefore we are attempting to present both sides of the question.

THE PUBLICATIONS at FSU receive their funds from Student Government which in turn receives its funds from a certain percentage of student activity fees determined by the number of students enrolled. Student government is therefore faced with the problem of fitting the needs of its various organizations with the budget it is given.

With no signs of enrollment increasing the SG budget is not going up. (An expanded enrollment is not likely because of lack of housing and the advent of junior colleges around the state.) According to the Dean of Students R. R. Oglesby, Student Government will receive approximately $80,000 for 1958-59. The **Flambeau** and the **Tally-Ho** are requesting an increase of almost $7,500; the **Smoke Signals** is requesting its last year's figure, $4,605.

ALTHOUGH THE publications have to allow for a substantial increase because of rising printing costs, the student government budget remains the same. It is obvious to see that in order to balance the budget, it will be necessary to cut some activity, and the likely choice is **Smoke Signals.**

The controversial publication has been under fire for several years. First it was criticized for printing risque material, then its format was questioned. The outcome was the general interest type of magazine which has come out once this year.

WE CONTEND that this type of magazine is not desirable. Besides its imposing cost, only a small number of students receive a copy of it and certain limitations narrow its contents.

The printing of **Smoke Signals** by another method, that of off-set, cannot be the answer. Because of its low circulation, the cost of printing **Smoke Signals** by commercial off-set would not be any less than by the present method.

THE FSU Duplicating Department, if allowed to do so by the state legislature and the powerful Florida printing lobby, could only better the present printing costs by about $100 per issue.

It is our opinion that **Smoke Signals** is the obvious place to make a cut in the budget, simply because it is not as essential as the other items which need money.

HOWEVER, as we stated previously, we do feel that there is a way to provide an outlet for some type of student creative writing. Our alternative would be to publish a magazine supplement to the **Flambeau.**

This idea would solve many of the dilemmas now facing the Senate and the Board of Publications. First, the cost would be extremely less. Periodic supplements would run about $300 an issue. Four a year would only total $1200 as compared with the $4,605 figure **Smoke Signals** will need.

SECONDLY, the supplement would provide an adequate outlet for student talent. It could resemble various Sunday supplements which run in regular newspapers. It could include cartoons, fiction, features, pictures, and anything else **Smoke Signals** could publish.

Thirdly, the newly chosen editor of **Smoke Signals** would merely take over as Magazine Editor of the supplement. He would not be excluded in any drastic move to do away with **'Signals.**

MUCH MORE thorough study is needed to determine exactly how a supplement could be run, but as far as we can ascertain, this sounds like a possible satisfactory solution. It was also the suggestion last year of Board member Dr. Earl Beck.

The Board should reconsider this proposal to determine its feasibility and submit their conclusions to the Senate. We feel the Senate should co-operate with the Board before making any quick decisions to kill all outlets for student creative writing on campus.

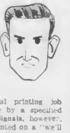
Senate Should Keep 'Signals

By ART ALBRECHT

Senate's proposed resolution to abolish **Smoke Signals** seems to be in line with several other proposals this year. It rates a four column headline around election time but shows little thought.

The main reason for the resolution seems to be "the failure of **Signals** to produce more than one issue so far this year."



Possibly Senate would do better to find out why the printer who has the **Smoke Signals** contract is able to take weeks to print the magazine. A regular commercial printing job has to be done by a specified date. **Smoke Signals**, however, seems to be printed on a "we'll do it when we get around to it" basis.

There's a tendency on campus to drop traditions after a couple of bad years. It happened with Sandspur and apparently the axe is now out for **Smoke Signals.** All I can say is that Tom Nugent better not have losing seasons two years in a row or we'll probably be without a football team.

Irregularity of publication has been a recurring problem for **Signals** the past two years and something should be done about it. Abolishment, however, does not seem to be the only solution. One of the principal questions asked of each candidate for the position of **Signals** editor this year was "Will you be able to get out each issue on time?" All three candidates indicated that they would.

Ron Hamm, who won the appointment, went so far as to promise to put out an issue during Orientation Week. Furthermore, there is a great deal more interest in **Smoke Signals** this year than in the past few years. Mark Austin, a candidate for the **Signals** editorship, indicated that he contacted approximately forty students who are willing and eager to write and draw for next year's edition.

A **Flambeau** editorial seconded the proposal to end publication of the campus magazine with the reservation that a substitute be found. This is ridiculous! We could change the name of **Smoke Signals** but our only alternative would still be a campus magazine. The **Signals** staff puts out a general feature publication — a little humor, some literary efforts, photo stories, et cetera. What else could a substitute university publication put out which would appeal to the majority of students?

There is some agitation on campus for an annual literary publication in place of **Smoke Signals.** Last year's single literary issue of **Signals** should offer sufficient evidence that there is little demand for a magazine of this type. Personally I'd like to read some good literary works produced on campus; however, I feel confident that **Smoke Signals** could set aside a page or two to print all the good material written.

The **Flambeau** editorial also suggested that we could print a less expensive publication as an alternative to **Signals.** This was based on the idea that our current campus magazine cost too much.

Signals is probably the only only campus publication which could pay for itself if there wasn't a brake put on the amount of advertising it can accept. The general theory in Tallahassee is that this is the most read publication on campus and, as such, most merchants would like to advertise in it. However, **Smoke Signals**, apparently due to a misunderstanding, doesn't take more than $350 in advertising per issue.

Extra pages increase the cost of a magazine, but, I feel sure that if the misunderstanding was cleared up and the false ceiling lifted, enough advertising could be sold to make **Smoke Signals** come close to paying for itself.

If **Signals** is to go up in smoke, I think all the facts should be brought out before any action is contemplated. And, I think that a student body poll should be taken before Senate submits its proposal to the Board of Publications and the Budget Committee.

A petition is now being circulated around campus stating that "the undersigned fully agree that the publication **Smoke Signals** meets a definite need of the students of Florida State University and feel that any abolishment of said publication would be detrimental to this need."

Battin' The Breeze

Benson's Quotes Get No Votes

By JACK PEACOCK

"As ye sow, so shall you reap," shouted Secretary of Agriculture, Ezra Taft Benson, to an audience in Minneapolis, as he took to the road to recruit backing for his farm policy plans.

BENSON, an apostle and member of the Council of Twelve of the Mormon Church, carried his missionary zeal into his work as secretary of agriculture.

Trying to gain badly needed support for his farm policies and re-gain some of the lost mid-west farm vote, Benson pounded on his basic policy that:

"FARMERS should assume more initiative to solve their own problems."

Benson also stated that under Democratic administrations from 1939 to 1952, prices paid by farmers had more than doubled.

Since 1952 under the Eisenhower administration, he said prices paid by farmers have gone up only 6 per cent. Also, that farm assets have increased over farm debts.

OFF HAND this looks good and sounds very good, but Mr. Benson said nothing about the 750 per cent increase in the Department of Agriculture budget since the Eisenhower administration took over.

Nor did Mr. Benson say anything about the decrease in the profit the farmers are making and the increase in the profit of the middlemen, since he removed the farm parity prices.

NATURALLY the farmers, assets are gaining over their debts, as they are afraid to borrow more money to expand. They know that they can't go into debt if profits are going down.

Another fallacy in his speech was the point that farmers should do more to handle their own problems.

Now this is a very classic remark on Benson's part. It is very easy to see the farmers bargaining for better prices, or passing acreage controls and enforcing them.

SINCE WHEN did the farmers get to be an organization that can argue with the meat packers and other farmstuffs buyers? They never have and I seriously doubt if they ever will.

The Populist Party was a flop and that was the only time in history that the farmers have tried to organize on a national basis.

IT APPEARS that if Benson is going to regain those lost votes, he had better start helping the farmers, by straightening out some of the complicated policies that are holding the farmers back.

Why should farmers support plans that don't help them? His biblical quotes are very good and show that he is acquainted with the Bible, but it doesn't prove that he is qualified to be Secretary of Agriculture.

The Critic's Corner

Dual Recital Distinguished

By DIXON REDDITT

Can a music program be enjoyed and appraised by the same person? This question seems to us to be fundamental in the logic of writing reviews. Therefore we should like to go on record as being strongly opposed to that "school" of reviewing which follows the score during the performance.

This type of approach, with its emphasis on the number of correct notes per minute, has a justification, perhaps, at a state music festival for high school music organizations, but no real parallel function at Florida State University.

In addition, there seems to be a strong tendency for music reviewers to write in as obtuse a style and as technical a language, as possible. Despite evidence to the contrary we are also opposed to this concept.

Anne Verran and Mike Hipps gave a recital Friday night that was one of the most distinguished performances we have heard here.

Miss Verran, a music education major and piano student of Robert Glotzbach, played the music. (Can there be higher praise?) To be more specific, there was no pianism, i.e., sheer technique, for its own sake.

Miss Verran is sensitive to the true capacity of the piano in respect to colors and sonorities. This capacity was exploited in really remarkable ways during her performance. She compelled us to hear phrases and nuances in the Brahms, "Rhapsody in G minor" for instance, that we always suspected were there but have rarely heard demonstrated.

After hearing Hipp's near virtuoso performance and being impressed with his thoroughly musical approach to the instrument (he is a trumpet student of Robert Braunagle), one question pushes itself to the fora in our consciousness. Why has Hipps been allowed to play a fairly insignificant role in the various music organizations for the past three years?

Hipps' playing showed clearly that he knew what he wanted to do with the music, and was doing it.

The specific sound of the instrument is, among players of wind instruments, at once the most difficult and the most rewarding problem. It was a pleasure to hear in Hipps, someone who is on the way to solving his problem.

Lynnie Cavin, Tipps' accompanist, provided a brilliantly satisfying solution to the eternal dilemma facing the pianist who must play an orchestral transcription.

"THIS MUST BE A REQUIRED COURSE—MY ADVISER KEEPS TELLING ME I'D BETTER TAKE IT IF I EVER EXPECT TO GRADUATE."

Give AP Criticism

LETTERS to
EDIT

TO THE EDITOR:

Before someone makes a fool of himself may I inform the readers of some facts?

Fact one: It is evident that Ben Balser and Marion Smith had not, at the time they wrote their criticisms, read the Turner-deKeni report. I can make this statement without hesitation because of the nature of the alternative. The complete report has been recently released in the State Department of Education publication, **The Florida School Bulletin** for March 1958. It is available on request if they should, at this time, like to read it.

Actually, the "farce" and "big lie" at which they are hacking is a **summary** of the study as reported by the Associated Press. The AP version warrants the criticism, but it **alone** warrants it.

To answer some of the question raised by Mr. Smith:

Fact two: The "full, 200 page, unbiased report on the Russian schools in 1957" was used. In addition, they called on material from Koral's book, **Soviet Education For Science and Technology** (Massachusetts Institute of Technology—John Wiley and Sons, Inc ... Count's book, **The Chall... Soviet Education** (M... Hill, 1957), and Benton... phlet, **The Voice of the ... lin.** (Encyclopedia Brit... 1955.)

Fact three: Accordin... survey now underway ... some of the larger cou... to be counted) there ... schools offering a t... classes in functional ... matics IV, which in ... tegral calculus. Not TW... as Marion Smith has s...

Fact four: The repo... mention foreign languag... the maturity of int... these "educational b... crats" have, he reall... need to propagandize ... to hold a job.

Senate Worthwhile

Last Friday's edition of the **Flambeau** contained an article in the editorial section lambasting the Student Senate as the "Mickey Mouse Club."

It is becoming fashionable to fix this label on the Senate. The student body tends to agree somewhat with this pronouncement without knowing the entire facts.

As a spectator in the Senate last Wednesday, I witnessed the proceedings. The Senate carried on their session with much more order than the U. S. Senate. They also brought up some very good points. 1.) The abolishment of funds for the **Smoke Signals**: and 2.) The looking into the finances and problems of the Student Artist Series. These two actions alone justify the Senate's existence.

There is somewhere between seven and ten thousand dollars of the students' money involved in these two issues. According to the Senate committee on the series, it is looking for help and advice. The Senate can give it.

Now we have a problem dealing with the apathy of the student voter. Perhaps a majority of the Senate did get a little overzealous in trying to install citizenship in the students. Maybe they are to blame for wanting the whole student body to take an active part in their government. Perhaps they did go about it in the wrong way. I agree with Miss Godin and the ... on their vote against th... tion. However, to cond... Senate on the basis of ... relegate it to the rank ... school student council, ... surdity.

These people that re... the students are more ... intelligent, and responsib... any high school council, a... have a lot more pow... many of the college g... groups that I have seen.

Agreed, the Student ... doesn't have an absolute ... but it can accomplish th... other group on campus c... approach doing!

To label the Senate ... Mouse" is the privilege ... speech for anyone, but ... gate this without ever ... meeting, or having a... knowledge of the Senate's ... accomplishments or w... just joining the ranks ... ignorant.

Party Speaks Up

DEAR FRESHMEN,

This letter is being written to you because we feel that you, as a class, honored us by making us your officers. With that honor came a responsibility—a responsibility of informing you on campus issues with which we come in contact.

One of the main issues right now is politics. Why be interested in politics? If we should be interested, which party should we join?

Well, we too had to answer the question of parties. Maybe it was easier for us because as your leaders we came in contact with the other political officers on campus. We looked at the parties carefully (with ... to our political future ... decided we could do our c... and ourselves the most g... joining the COLLEGI... PARTY. This is a party ... the future!

Recently we have hea... rumors being started ... that this party was dead. B... us—we know this is untru... plans and ideas of the C... Party are very much a... party is truly "workin... serve you"! So we hope ... join us and GO COLLEGI...

'Baby' Needs Chance

DEAR SENATORS,

Indications are that Seminole smoke signals are warning you to tred carefully. You're about to get out on a limb over their fire.

A baby is not criticised for consuming time as he takes his first steps. Smoke Signals is also a baby.

This year the magazine has had a face-lifting, with a new type of magazine as the result. It takes time to re-vamp such a publication.

Stumbling over this time block, **Smoke Signals** is one issue late. Would the editors have been wiser to publish a lower-caliber edition on time? Be fair.

As far as abandoning the magazine for monetary pur... this seems rather foolish ... spend the time and m... quired to throw out wh... have and replace it wi... thing else? Would it not b... ter to concentrate on keep... same format and reducing ... cation expenditures?

Smoke Signals has a ... balanced issue of greater ... to the student body. L... unbalance it with a r... all "humor" or an attem... all literary.

Be sure that you re... those who elected you ... fire could get a little hot ... now.

Sincerely,
LANE GOURLIE...

Support Dunbar

DEAR STUDENTS:

The purpose of this letter is to convince a very worthy student that she should enter the race for the Board of Student Publications. For some weeks now my friends and I have been urging Miss Mary Jacque Dunbar to commit herself as a candidate.

Unfortunately, because she is a new student on campus (having recently transfered from Oxford University in England), she does not feel that she is suffiently familiar with the Florida State publications, even with her experience on these publications. This experience is infinitely significant considering that she was a correspondent for the **N. Y. Times** while at Oxford.

Let this letter serve as a call to the many friends of Mary Jacque to endorse ... thus convincing her she s... commit herself as a cand...

Sincerely,
TOBY TERRELL

Baseballers' Opener Was Not Typical

The Florida State baseball team didn't play a typical opening ... Thursday when they were beaten in both ends of a double ... by the Auburn Tigers. It was only the second time in the ... year history of FSU baseball that the team lost the season's opener.

The first time it happened was back in 1954 when the Tribe ... edged by Jax Navy, 2-1. The Auburn loss was the first time ... Seminoles have lost an opening game since Danny Litwhiler ... came coach in 1955.

But, as in most losses, the score could have been reversed ... a couple of breaks had come in the direction of the Seminoles. Inexperience and first game jitters could have been the cause ... the Seminoles' losses. In the first game, Jack Bristol, the Tribe's ... hurler scattered eight hits throughout eight and two thirds ... but two of Auburn's four runs came on errors.

The FSU batters blasted ten hits off of three Auburn pitchers ... but the Tribe could not seem to hit at the right time and stranded 13 men on base.

In the second game, the Seminoles had six errors with two ... making two apiece. Fred Kenney, senior righthander, ... the game with a sore spot on his finger where he had ... a blister earlier last week.

It may have had some effect on his pitching, because the ... dependable righthander allowed three runs on three hits ... innings.

Frank Slusser, another senior righthander, came in and managed to strike out three men in two innings but the other ... men got hits to drive in another run.

Then Litwhiler dug deep in his bullpen and pulled out two pitchers who allowed six more runs in the next three innings. ... good thing the game was only set for seven innings because ... Tigers sure had their hitting shoes on.

From here it looks as if the Seminoles will get some very ... practice between now and the beginning of the Florida Invitational Tournament starting April 4.

There were some bright spots in the losses however. Dick ...er, the Seminoles' all-American shortstop, continued where ... left off last season, by blasting three hits in four times at the plate in the first game.

Soph Hal Bazzell showed up well as he came through with ... Mike Copps a soph outfielder went hitless the first ... but got two hits and batted in two runs in the nightcap.

ROUGHER DAYS AHEAD

Since Thursday some events have taken place which may ... to predict that rougher days are in store for the baseball ... before the season is up.

After leaving here with two wins under their belts, the Tigers ... to Gainesville where the Florida Gators swept a two game ... from them.

From all preseason talk and their showing so far this season, ... have one of their best baseball teams this season.

The Seminoles meet Florida April 11 and 12 in Gainesville. ... Fuller, the Gator coach, has a good number of returnees ... a top sophomore crop.

Included among the returnees is Bobby Barnes who made ... and had the best batting average in the SEC in ... when he hit .417. He did not play last season because he ... his leg at the beginning of the year.

He will be back at his favorite position behind the plate after ... the '56 season in centerfield.

The Seminoles split two games with Florida here last season. ... can be sure that the two games FSU plays in Gainesville ... season will be a lot tougher.

Track Team Faces Furman Here Thursday

With one team title and a second place under their belts, Florida State's track team opens its dual meet season here Thursday against Furman.

The meet begins at 3 p.m at the Florida High Field.

According to Coach Mike Long, Furman has a well balanced team, with good distance men.

The Seminoles will be strengthened in the field events by the addition of Dink Lawrance and Dan Boltz who will throw the shot.

Jerry Henderson and Jim Liteky will compete in the javelin event, with Liteky also slated to see action in the broad jump.

Mike Conley, who recently set new school records in the mile and two-mile, will compete in those events for the Seminoles. Tom Keeny will also run the distance events.

Doyle Ruff, holder of the school record in the 880, will run in that event along with soph Charley Nye.

The Tribe mile relay team which also set a new record in that event this season, is comprised of Jack Terwilliger, Conley, Nye and Jim Casteel.

Casteel is the school record holder in the 440 and will also run in that event. Terwilliger will compete in the short sprints.

The hurdles will be handled by Claude Grizzard, on the lows, and Tom Chivers in the highs. Casteel may also compete in the low hurdle event.

Volleyball Playoffs Open

Greek volleyball teams entered the final playoffs last night, with six teams participating.

SAE, SN, PDT, PKT, TC, and KA are vying for the intramurals championship in this five night, single round robin tournament.

Dorm-Independent volleyball teams finish up their regular season tonight.

SOFTBALL

One day of action was seen in the Dorm-Independent circuit.

The Psychology Club defeated the Feds 15-4.

Penthouse took a forfeit by the Majors. AFROTC gained a 1-1 record by a forfeit from Senior Hall.

The Veterans and the Playboys suffered a double forfeit as neither team was present at game time.

Magnolia kept in the undefeated ranks by taking the newly organized "400" Club, 10-1.

Newman Club and BSU remained idle for the day.

Gymnasts Trounce Southern, Jax Navy

Florida State's gym team won their fifth and sixth straight dual meets last weekend when they trounced Mississippi Southern and Pensacola Navy.

Coach Hartley Price entered two teams against Southern. One team was the regular varsity team and the other was the Gymkana team made up of freshmen and graduate students.

The varsity team racked up 62 points and the Gymkana squad got 54½. Southern was only able to total 11½.

Pensacola Navy fell Saturday by the lopsided score of 100-26. Malmlin again was high man as he captured four first places. The Seminoles swept all eight first places.

WHO GOT IT? Neither of them. Vic Prinzi (10) knocks down a pass intended for Bob Kavanagh (81) in Thursday's spring game. The Garnets, (Prinzi's team) won.

Garnets Take Spring Game

Vic Prinzi passed for two touchdowns to end Tony Romeo and fullback Dink Lawrence ran for one to pace the Garnets to a 20-16 win over the Golds Thursday night.

The game was a climax to four weeks of spring drills for Tom Nugent's Seminoles. It showed that the Tribe, though green, is going to be one of the most spirited teams ever to play for FSU.

After a scoreless opening quarter, the Garnets hit paydirt on an eight yard toss from Prinzi to Romeo. Johnny Sheppard converted and the half ended with the Golds trailing, 7-0.

Lawrence opened the second half on a thrilling note when he raced 81 yards on the kickoff to push the Garnets in front 13-0.

The never-say-die Golds followed with a TD of their own. Sparked by the passing of Bobby Conrad, the Golds moved 77 yards to the Garnet's two yard line.

Bobby Renn scored from there on a romp off left guard. Renn then outfoxed the Garnets by faking a placekick, and running the ball over for two points to cut the Garnet advantage to 13-8.

A 25 yard Prinzi-to-Romeo pass gave the Garnets their final TD. Romeo twisted high into the air to snare the ball on the 10 yard line and then bulled his way through three defenders to score. Sheppard's kick made the score read 20-8.

The Golds refused to give up and scored late in the final quarter on a five yard shot from Conrad to Bob Kavannugh. Renn passed to Kavanaugh for the final two points.

Netters To Clash With Spartans Here

Florida State's tennis team turns its eyes on Michigan State here Thursday as the Seminoles try for their second victory of the young season.

Saturday, a strong Georgia Tech squad which is a definite threat for the Southeastern Conference crown had little difficulty downing FSU's netters, 7-2.

YER' OUT. At least he was after this picture was snapped. Charlie Rodgers, soph first baseman, is about to put the tag on an Auburn player in the second game of Thursday's doubleheader.

GOLFERS HOST GEORGIA

Fresh from a victory over the Florida Gators, the Florida State golfers play host to the Georgia Bulldogs today and Spring Hill on Thursday.

Senior Bob Shave paced the Seminole linksters to a 17½-9½ win over the Florida team here Saturday. The win brought the Tribe's record to 5-2.

Shave carded a two-under par to take medal honors for the match. The Gators had defeated the Seminoles twice already this season.

Florida beat the Tribe in an early season dual match when three Gators shot sub-par rounds. FSU also lost its State Intercollegiate crown to the Gators last month.

The Florida State freshman golfers also won a revenge match in the preliminary as they downed the Baby Gators, 13-5. In the first meeting of the two frosh squads, the Gators won 12-4.

The varsity summary:

Bob Shave and Dave Morris FSU, defeated Tommy Aaron and Tony Baker Fla 3½-½.

Mel Fleischer and Don Torppa split with Skip Stigger and Pete Tronham, Fla 4½-4½.

Dick Hansome and Rem Nobla FSU, split with Willie Turne and Al Buhame, 4½-4½.

Tankers Win Florida AAU

By TOM HALE

The Florida State swimming team will be represented by soph diver Bob Weber in the NCAA championships at Ann Arbor, Michigan March 27-29.

Saturday, the tankers swept four of five events to capture their fourth straight Florida AAU title in Gainesville.

The Tribe totaled 90 points, drowning runner-up Florida by 17 points. Coral Gables Swim Club finished third with 36 points. Florida State's Freshmen, paced by Bucky Hiles was fourth with 31.

Other point makers were the Florida freshmen with 10, Miami Beach Recreation 8, and the University of Miami 7.

The Seminoles won 10 dual meets this season, including a 55-41 victory over Florida less than a week after the Gators had stacked up a record 206 points in winning the Southeastern Conference championship at Athens, Ga.

STULTS PROUD

Following the meet, Stults called his 1958 squad one of the best in FSU history. "I don't think we've ever had a team with better morale and better effort. I'm proud of these boys."

Every first place FSU won in the meet was a new Florida AAU record, and two of the Tribesmen set new school standards.

Ken Abbott, FSU's brilliant freestyle from Birmingham bettered his own school mark by churning the 50-yard freestyle in 23.1 seconds. Tam Mats finished sixth in the 200-yard freestyle event, with his 2:06.3 time.

Five seniors made their final varsity appearance. Abbott, a double winner when he also took the 100-yard freestyle along with the 50 yard sprint, Ryan Ray, Don Lewis, Graham Teschke, and Joel Jacobs, who holds the school mark in the breaststroke event, won't be back again next season.

FROSH STARS

But Stults can count on several veterans and Hiles, an Atlanta freshman who showed off things to come as he easily outdistanced the field in both the 200 and 400 yard freestyle events. Both times he outdid Florida's Dave Calkin, the SEC champ and record holder in those events.

The summary:

400 medley relay—1 Fla. (Drake, Ruggie, Wene, Weidemann) 2 FSU 3 Coral Gables 4. FSU Frosh 4:06.5.

200 Freestyle—1 Hiles, FSU Frosh 2 Calkin Fla 3 Thompson Tallahassee 4 Patterson Coral Gables 5 Joseph, Coral Gables 6 Mets, FSU 2:00.4.

50 Freestyle—1 Abbott FSU 2 Ray, FSU 3 Katz Miami Beach 4 Korn, Fla 5 Thatcher FSU 6 Fitzsimmons, Coral Gables 23.1.

1-meter diving—1 Martin unattached 2 Weber FSU 3 Gendera, FSU Frosh 4 Henne Fla 5 Woods, Fla 6 Simpson 444.8 pts.

200 butterfly—1 Nelson Fla 2 Drake Fla 3 Teteigh Fla 4 Carrera, Coral Gables 5. Creighton Fla 6 Koeth, FSU.

100 freestyle—1. Abbott, FSU 2 Hammond, FSU 3 Katz Miami Beach 4 Ray FSU 5 Creel Coral Gables 6 Fitzgibbons Coral Gables. 52.2.

200 backstroke—1 Wentworth FSU 2 Ruggie, Fla 3 Glaney FSU 4 Ladhe Coral Gables 5 Sompayrac, unattached 6 Epperson, Coral Gables. 2:18.8.

400 freestyle — 1 Hiles FSU Frosh 2 Calkin, Fla 3 Drake Fla 4 Thompson, Tallahassee 5 Patterson, Coral Gables 6 Carrera, Coral Gables 4:23.8.

200 breaststroke—1. Jacobs, FSU 2 McDonnell Fla 3 Cole, FSU 4 Weidemann, Fla 5 Newell, FSU 6 Magruder, Coral Gables 2:34.7.

400 freestyle relay—1 FSU (Ray, Hammond, Thatcher, Abbott) 2 Florida Frosh 3 Coral Gables 4 Florida 5 FSU Frosh 3:38.1.

Baseball Team Loses Twice

Auburn's Tigers out-slugged and out-fielded Florida State's Seminoles in the second game of a doubleheader Thursday to make a clean sweep of the two-game series, and spoil FSU's baseball debut.

The Tigers took advantage of sloppy fielding by the Tribe to take the first game, 4-3 and the nightcap, 10-7.

Sophomore left fielder Mike Copps, proved to be the only bright spot for the Seminoles in the second game. Copps rapped out two hits and drove in two runs in four appearances.

Auburn got off to a good start against righthander Fred Kenney taking advantage of his wildness to push across three runs in the first two innings.

FSU got one of the runs back in the second on Ray Bazzell's single to center and Neil Martin's two-out single to left.

SCORE ON ERROR

The Plainsmen added a single tally in the fourth inning on singles by L. F. Lanier and Gerald George plus an infield error.

The Seminoles picked up a run in the fifth and both teams pushed across five runs in the sixth.

Rex Frederick, Auburn's left-fielder slammed a 360-feet home run over the right-center fence to finish the game's scoring in the seventh.

Danny Litwhiler's crew now faces a two-week lay-off before seeing action in the FSU baseball tournament.

Sticklers!

WHAT IS A MAN WHO BLOWS SMOKE RINGS?
(SEE PARAGRAPH BELOW)

SMOKE RINGS come in all shapes and sizes. Like 4-sided smoke rings for squares. Sturdy smoke rings for windy days. Even invisible smoke rings for people who aren't ostentatious. As any competent smoke ringer (*Vapor Shaper* in Sticklese!) will tell you, the best way to start one is to light up a Lucky. It's best mostly because a Lucky tastes best. A Lucky gives you naturally light, wonderfully good-tasting tobacco, toasted to taste even better. Why settle for less? You'll say a light smoke's the right smoke for *you!*

DON'T JUST STAND THERE...

STICKLE! MAKE $25

Sticklers are simple riddles with two-word rhyming answers. Both words must have the same number of syllables. (No drawings, please!) We'll shell out $25 for all we use—and for hundreds that never see print. So send stacks of 'em with your name, address, college and class to Happy-Joe-Lucky, Box 67A, Mount Vernon, New York.

100 Chosen

Junior Counselors Named For 1958-59 School Year

One hundred sophomore women have been selected to serve as junior counselors next year, according to Miss Elizabeth Lynn, assistant dean of women.

Selection of this group was made by staff members in women's residences and sorority houses and a committee of five senior women who last year served as J. C.'s. These women are Willa Schmit, Glenda Briscoe, Barbara Jean Little, Joyce Weatherup and Jeri Bradfield.

CHOSEN FROM 160

The 100 final choices were drawn from a list of 160 who had expressed an interest in the program and had been recommended for it. Recommendations were submitted by women's residences and campus organizations.

Of this group, 73 J. C.'s will live in freshman dormitories, 17 will guide transfer students and 10 will serve as day student counselors. A ratio of one counselor to approximately 12 students will be preserved.

Miss Lynn states the qualifications for junior counselors as: (1) a "C" academic everage or better (2) being able to stay with the program a full year (3) good personal citizenship record (4) interest in the program (5) previous experience in working with groups.

The slate of new junior counselors, which has been approved by Women's Senate, will receive training during April. Miss Lynn and a committee of four present J. C.'s (one from each freshman dormitory), Doris Burr, Ann Duncan, Betty Henderson, and Sandra Rosenberg will conduct these sessions.

J. C.'s LISTED

The junior counselors are:

Freshman Counselors: Catherine Archibald, Dina Ayala, Katherine Ball, Peggy J. Blalock, Caryl Ann Bodine, Jacquelyn Boyd, Evelyn Bradshaw, Lynn Brantly, Judy Chambliss, Valerie Chase, Sandra Jean Clendenon, Joyce Combs.

Clarice Cook, Nancy E. DeFore, Ann Drunagel, Anne Easterday, Sunshine Eddy, Mary Louise Edwards, Anne Elvery, Susan Fehlberg, Molly Flesher, Darlene Fordham, Margie Fraser, June Garrett, Monty Gilham.

Molly Gladding, Lane Gourlle, Barbara Halliday, Gerri Hancock, Marilyn Harris, Barbara Ann Harrison, Dottie Hatton, Pat Hendry, Karin Herz, Harriett Hiers, Sally Highnam, Natalie Hobbs.

Dorothy Holland, Kay Hufford, Yolanda Huszty, Julie Ingram, Merry June Jackson, Jean Johnson, Nancy Rae Jones, Sheila Kennedy, Twyla Kent, Alice Lupo, Annette McIntosh, Patricia McRae, Pat Mickler, Sylvia Miller.

MOORE

Yvonne Moore, Pat Nathe, Carrie Lea Pallicer, Mary Esther Powell, Judy Ramsey, Kay Ready, Gail Roberts, Ann Ruffin, Judy Scott, Elva Sears, Ruth E. Skacil, Rosemary Slacks, Virginia L. Spearing, Phyllis Stephens.

Maralyn Teare, Karol Thompson, Mary Louise Toth, Faith Weiss, Ann H. Willams, Jean Williams, Marjorie Williams.

Transfer Counselors — Jane Barr, Sandra Beskind, Elaine Bogue, Virginia Bowser, Helen Clark, Sandra Davis, Marguerite ette Harris, Lamerle Hart, Esel Mary Giella, Diane Godin, Lyn-Marie Howard, Judith Larsen, Janet Ray, Margaret Ann Smith, Rachael Wimberly, Sandra Wentz.

Day Stadent Counselors — Martha Costin, Jan Dawson, Anne Folsom, Patti Hackett, Susan Korst, Sue Massey, Jane Scott Megahee, Shiela Nichols, Judy Walters, Amelia White.

SHAPLEY TAKES GROUP ON 'TOUR' OF GALAXIES

Two full house audiences heard Dr. Harlow Shapley, noted Harvard astronomer, lecture here Thursday and Friday evenings.

"Wandering through the Galaxies" was the subject of the 72-year-old scientist's Thursday evening lecture. Friday evening he spoke on the origin of the planets.

THEORIES CONFLICT

Expanding his Friday lecture to the theory of the creation of matter, Shapley told his audience of the conflicting theories now prevalent.

One is the primeval atom theory, Shapley explained. According to this theory all matter comes from the explosion of one large original atom.

The other theory explains matter as gradually being created from nothing, Shapley said. According to this theory, creation is a continuous process.

In his Thursday evening speech, Shapley took his audience on a "tour" of the galaxies, in which he elaborated on the theory of the expanding universe.

Referring to the present race to reach the moon, Shapley said, "I don't know why anyone would want to reach the moon, but if the Russians are going to send a man there, I know one man I'd like to see them send."

ON TOUR

The world famous astronomer, on a tour of the Southeastern states, was director of the Harvard observatory for 31 years until his retirement in 1952.

Shapley received his AB at Missouri and his Ph.D. in astronomy from Princeton. He has been connected with the Mt. Wilson observatory in California and the Harvard observatory in South Africa.

He has done notable work in the fields of stellar and nebular photometry, stellar spectroscopy, variable stars, eclipsing binaries, cephid variables, and cosmogony.

The lectures were sponsored by Sigma Xi, national scientific honorary, and the Astronomy Club.

Lafayette Slates Table Tennis Meet

The Lafayette Park Community Center is holding an open Table Tennis Tournament Saturday, March, 29, at 2 p. m.

This tournament is open to all who wish to enter and there will be no entry fee.

Registration deadline is Friday afternoon and anyone interested in entering should contact Sue Herndon of Jim Harkins at 2-3330.

There will be women's singles, men's singles, men's doubles and mixed doubles. Awards will be given to the winners.

This is the first in a series of tournaments that are being scheduled by the Lafayette Community Center staff.

Dancing is being offered each Monday night from 7:30 until 10:30 and any one that wishes may receive dancing instructions at this time.

The Community Center is located at the corner of Ingleside and Cherry Streets.

Matsuda Sets Grad Recital

Ruth S. Matsuda, a native of Honolulu, Hawaii and graduate of Florida State University, will present her graduate piano recital tomorrow night at 8:15 in Opperman Music Hall.

Miss Matsuda received her Bachelor of Music degree last May and is working in the studio of Franciszek Zachara for her Masters in piano.

PROGRAM

Her program will include Bach's **Chromatic Fantasy in Fugue; Sonata Op. 81 A** by Beethoven; Liszt's **F Minor Etude; Grande Polonaise Brilliante, Op. 22** by Chopin, two etudes by Zachara, and Prokofief's **"Devilish Inspiration."**

Miss Matsuda, who has lived in Honolulu all her life, saw the continental United States for the first time when she entered FSU. She chose FSU, she says, because of the good music school in general and the caliber of the piano faculty specifically.

Her parents, horo in Okinawa, immigrated to Hawaii in the 1920's and were naturalized "a few years ago"—after World War II.

KIDS SCATTERED

The children of the family are "scattered around the world," according to Miss Matsuda. Of her three sisters, one is in Milwaukee, one in Germany and one in Hocolulu. A brother is in California and the other is in high school "back home."

Miss Matsuda says she has not found the United States much different from her home. Since the war, native language schools have been done away with in Hawaii, and English is the "national language." The major difference was in climate—it doesn't get as cold in Hawaii.

After getting her Master's, she plans to teach piann privately in Honolulu.

Cheering Tryouts Scheduled Friday

Head cheerleader Jim Julian announced this week that cheerleading tryouts will be held Friday at 4 p.m. in the Music Building Amphitheatre.

Julian said that there were more positions open this year than ever before and a large turnout is beeing expected for the tryouts.

Practice sessions are now being held on Landis Green from 4 to 6 p.m. each afternoon. Persons who wish to try out for the cheerleading squad are urged to attend these sessions.

Prospective cheerleaders will be judged on execution, general appearance, enthusiasm and pep. Anyone who will be returning to school in the fall is eligible to try out.

Three cheers will be taught to each of the contestants by the old cheerleaders. They will be judged on these cheers exclusively in the finals Friday.

Flambeau Photo: Jo Ann Overstreet

NEW SWEETHEART of West Hall is Sue Fisher (right), shown accepting the trophy from 1957 Sweetheart Pat Starnes. Behind them are the runners-up, Diane Godin and Angela Alonso, escorted by Joe Messing and Bud Jolly.

First Met In Trophy Room

Coffee Hour Originated Here In Fall Semester Of 1953

By NANCY GENE BROWN

The fall semester of 1953 saw the institution of a consistently beneficial literary function—the English Department's weekly Coffee Hour.

Originated by Dr. W. H. Rogers, then head of the department, the Coffee Hour first met in the Trophy Room in the Student Center. "This was none too satisfactory, because of the noise of the band practicing outside," Dr. Rogers said.

So when the Presbyterian student director, Miss Miriam Wilson offered the use of the Westminister House, Coffee Hour officials gladly accepted the invitation. "The atmosphere of this place was so appropriate to our purpose that, on their invitation, we have remained there ever since," Dr. Rogers said.

4 O'CLOCK FRIDAY

The meeting hour, too, has not varied. Four o'clock Friday has prevailed. Another non-variable has been the serving of coffee—"never tea," Dr. Rogers emphasized.

During the first year of Coffee Hour's existence, Dr. William Randel served as chairman of the programs. The purpose of the organized hour was to introduce the English staff to the students, and the programs consisted of varied staff presentations—sometimes a reading, sometimes an address.

In 1954-1955, when Mrs. Olive Cross and Dr. Russell Reaver served as Coffee Hour chairmen, a "Meet the Author" series was initiated. Each week, a prominent Florida author spoke to the Coffee Hour audience. Among them were Dr. Robert Cotterill, Andrew Lytle, John D. MacDonald, Leon Odell Griffith, Mrs. Ernst von Dobnanyi, Mrs. Mary Alfriend, Edwin Granberry, Frank Slaughter of Jacksonville, and Philip Wylie of Miami.

WESTMINSTER

"Every Coffee Hour has been held in the Westminster House," Dr. Rogers said, "except the Slaughter and Wylie talks, which filled Westcott Auditorium."

During the year 1955-1956, Alan Thomson served as Hour chairman. Dr. Rogers took over for 1956-1957, and is still acting in the capacity of chairman.

The topics for discussion have traditionally included high-level talks on "various intallectual subjects," Dr. Rogers said, as well as personal-experience travelogues accompanied by projected pictures, book reviews, and the like.

A trademark of the Coffee Hour have been the consistent support it has received from both audience and the sponsoring English Department staff. Each week, a committee of six staff members is responsible for preparing and serving coffee, and for the after-coffee clean-up.

The expense of Coffee Hour is borne by a contribution each month by each member of the staff.

The title of this Friday's Coffee Hour program is "Instructional Materials in the Field of English." This will be illustrated and discussed by Dr. Otis McBride, audio-visual director.

Reservation Needs More Life Guards

The Reservation is in dire need of Life Guards that are qualified in swimming and in small crafts.

Present plans are that the Reservation will open the second weekend in April. Hours will be 11 a.m. to 5 p.m. on Saturdays and 2 to 6 p.m. on Sundays.

Anyone interested and qualified are urged to see Jack Chevrette at the Men's Gym on Mondays, Wednesdays and Fridays between the hours of 10 a.m. and 12 noon.

If you are unable to see Chevrette at these hours, call 2-2212 for an appointment.

A wage of 75 cents per hour will be paid to personnel qualifying for the jobs.

Honor Poll Ready To Go Tomorrow

Five hundred persons have been selected to participate in a poll of student opininn on the Honor System, to be conducted tomorrow and Thursday.

The 500 persons, whose names were selected arbitrarily from Registrar's Office enrollment records, are asked to appear either tomorrow or Thursday, between 11 a.m. and 1 p.m. in the Senate Chambers, second floor Longmire or between 4 p.m. and 7 p.m. in the Honor Court Room, fourth floor Longmire.

"Be honest in your answers," urged Joyce Weatherup, Secretary of Honor in the President's Cabinet. "We won't know who you are; but we are depending on your honest answers.

"By all means, take the poll," Miss Weatherup continued. "Answer the questions, whether you're bitterly opposed, avidly in favor, or completely nil in your reaction to the Honor System."

Special arrangements can be made for those students who are unable to take the poll during the appointed hours. Answering of the poll questions should take 15 or 20 minutes at the most, Miss Weatherup emphasized.

Respondents of the poll are requested to use the special pencils provided, and should not fold the IBM sheets on which their answers will be recorded.

'Medieval' Lecture Changes Rooms

Contrary to former announcements, the lecture, "The Meaning of Medieval Art," by Dr. James V. McDonough, will be held tonight at 8 p.m. in the Science Lecture Hall (124 Science Bldg.) instead of the Library Lecture Hall.

High School Journalists

FSPA Conference Opens Thursday

The annual Florida Scholastic Press Association [conference will be held this coming weekend, March 2]7-29 at Florida State University.

Registration will begin at 6 p.m. Thursday[.] [...] conferences will be held throughout Friday and Saturday. A banquet is planned for Friday night, and the closing session will be at 11 a.m. Saturday.

There will be three general sessions held on various student publication fields. These will include career discussions, advisors' sessions, an "on-the-spot" tourney, and a "how-to-do-it" discussion.

President Robert M. Strozier will open the conference with an address Friday morning at 9 a.m. Mr. Thomas Bailey, state superintendent of public instruction, will open the 1 p.m. session.

The speaker for the closing session, 11 a.m. Saturday, will be George Beebe, editor of the **Miami Hearald.** At this time, new officers will be elected and installed, and awards will be given.

Dr. Ellsworth Chunm, director of education for the Southern Region of the Natinnal Association of Manufacturers will speak on "Careers and Publications."

The speaker for the Advisors' Breakfast, Saturday morning will be Dr. James Thornton, professor of education.

Out of town and local guests will include George Drew, assistant editor of the Journal of Florida Education Association; Mrs Harry Wood, Florida development commissioner; Mrs. Francis McIntyre of the **Atlanta Journal**; Malcolm Johnson, executive editor of the **Tallahassee Democrat**, Otto Quale, director of publications of the American Yearbook Company, Don Mieklejohn, capital representative for the Perry new[spaper] chain; and members of the [...] of journalism faculties from [...] and the University of Florida.

According to Laurence Ca[...], dean of the School of Jo[urnalism] and executive secretary [of the] Conference, approximate[ly ...] students and advisors are e[xpected] to attend the two-day ses[sion].

Vespers Concert Scheduled Sunday

The annual Easter [...] Concert, sponsored by P[...] Alpha and Sigma Alpha [...] music honoraries, will b[e held] this Sunday afternoon at [...] in the amphitheatre.

The choral program [...] sung by members of th[e or]ganizations, will include [...] from Johann Sebastian [Bach] and George Friedrich H[andel]. Miss Betty Jane Grimm w[ill con]duct the group.

[W]illiams Fires [At] 'Low Level' [Of] Government

By BUCKY CANON

[At]tacking what he called, [the] 'low level of student [gov]ernment," presidential [candid]ate Carthell Williams [took] the offensive in debate [with] his opponent Wednes[day n]ight.

[Art] Moore, independent can[didate] for the presidency en[dorsed] by both Student and Col[legiate] parties, pointed to many [of the] student government ac[compli]shments in answering Wil[liams'] challange.

[The] debate, held before a [crowd] of over 100 students in [the la]rge Longmire auditorium, [was on] the issue, "Resolved: that [student] government has reached [an all-]time low on the Florida [State] University campus."

[Earl]ier in the week Williams, [Unive]rsity Party candidate for [preside]nt had challenged Moore [to a] debate on that issue. Dr. [...] Piccard of the political [science] department served as [modera]tor.

[Bas]ing a large part of his [argum]ent on the drop of voting [from] 47 per cent of the stu[dents i]n 1955 to 38 per cent last [year], Williams said that the [use of] county voting machines [would] reverse this trend.

[Moo]re pointed out that voting [machi]nes cost more than the [presen]t electrographic method of [voting]. He added that he did [not fe]el voting machines would [solve] the apathy problem stu[dent] government faces.

[Moor]e pointed to the increase [...] of the Speakers' Bureau, [...] of the sophomore car [...] the establishment of a stu[dent in]firmary board, and the [...] Homecoming as some of [this ye]ar's outstanding student [govern]ment accomplishments.

[Besi]des referring to the lower [percentage] of students voting, [Willi]ams based his stand on [what h]e alleged was the trend [towar]d a one party system, the [lack o]f candidates seeking of[fice, t]he expressed dissatisfac[tion o]f students with student [govern]ment and the popular term[ing of the S]enate as "Mickey Mouse."

[Willi]ams also repeatedly attack[ed what] he termed "suppression" [by Stu]dent Party members of po[tential] candidates to oppose Moore [and o]thers. Moore replied that, ["This] too is news to me I'd [like to] see some evidence."

[The qu]estion and answer period [followi]ng the debate was marked [by bitt]er charges and counter[charg]es in which the main sub[ject of t]he debate was left.

[Willi]ams, whose party has said [that the] Collegiate Party is "dead," [answere]d a question by Gerry Gor[...]. "One party will have to give [way, re]ferring to University and [Collegi]ate. A three party system [can't] survive. We don't think [it] will be our party."

[Sever]al spectators questioned [the de]mocracy of the University [Party], accusing them of running [a rigg]ed convention. University [Party] members buried the ac[cusation] back at the Student Party. [Answ]ering, Moore said, "If student [govern]ment is at a low level now, [it must] have been a mighty power[ful org]anization two years ago."

[Willi]ams summed up his argu[ment b]y saying that there has al[ways b]een a lag in interest in [student] government, but that it is [lower n]ow than ever before and [laid th]e blame at the feet of the [present] administration.

Slated May 2–3

Final Planning Completed For 1st 'Family Weekend'

By MARTHA VEVERKA

Final planning and scheduling of events have been completed for Family Weekend, to be held May 2-3, according to Laura Cheek, general chairman.

Family Weekend, the first event of its kind, has been planned for the purpose of having parents of Florida State University students and alumni tour the campus.

"The climax of the whole weekend will come Saturday night with the performance of the FSU Circus," Miss Cheek said.

FLYER TO FOLKS

An eight page flyer of the Circus programs along with a schedule of events, hotel and motel accommodations and a post card have been prepared for parents of every student. The brochure is to be mailed this weekend.

The chairman stressed that students urge their parents to fill out the post card with the requested information and return as soon as possible.

"It is very important for us to have this information." Miss Cheek said, "so we can make adequate preparations for the picnic and hotel reservations."

First event of the weekend has been scheduled for Friday night, May 2, at 8 15. At this time a starlight concert will be held in the Music Building Ampitheatre. The concert is to be directed by Manley Whitcomb.

Following the concert at 9 30 p m., all dormitories, sororities and fraternities will have open house.

On Saturday, May 3, visitors are urged to take independent tours of the campus. All buildings will be open with members of Family Weekend Committee on hand to supply information and serve as guides.

CHICKEN PICNIC

At 12.30 p.m. a picnic will be held at the Reservation. Buses will leave the men's gymnasium at 12. Tickets are $1 00 for the box chicken luncheon which will be provided. A water ballet will be presented in Lake Bradford by members of Tarpon.

Following the picnic at 3:30 a baseball game between the FSU freshmen and University of Florida freshmen will be played on the varsity baseball diamond.

The climax of the days' activities will be Circus to be presented at 8 15 p.m.

"All seats are to be reserved for students and their families, on Saturday night," said the chairman. The townspeople are being asked to attend on Friday night.

All dormitories, sororities, and fraternities are urged to decorate for the occasion. Each group should not spend more than $10. Prizes of $10 for the most outstanding decorations will be awarded each of the groups. Judging will be held Friday afternoon, May 2. Dean R. R. Oglesby, Dr. A. J. Karl and Jim McIntyre will serve as judges.

Several Tallahassee merchants are also going to decorate their stores in the Circus theme.

TROPHIES, TOO

A trophy will be awarded to the dormitory, fraternity and sorority with the greatest number of families present for the activities. The decision will be made on a percentage basis.

Tickets will be on sale two weeks in advance for both the picnic and Circus program.

"This is the first time FSU has had a Family Weekend," said Miss Cheek, "and from all indications of the progress up to now, it should be a big success."

Special chairmen for the event include: Priscilla Moss, programs Bob Johnson, transportation Lois Charlesworth, picnic; Kay Desmond, registration and awards; Karol Thompson, posters Joyce Combs, Speaker's Bureau and Martha Bedell, Freshmen Flunkies.

'LAUDERDALE READIES FOR EASTER INVASION

More than 10,000 students from over 70 colleges and universities, including many from Florida State University, will visit Fort Lauderdale during the college spring vacation season.

According to Mr. John V. Russell, Mayor-Commissioner of Fort Lauderdale, all existing ordinances will be strictly enforced.

SOME WERE BAD

In the past, said Russell, "the vast majority of college students who have spent their spring vacation in the city have conducted themselves in a manner that reflects credit on them and their schools. A few have not."

In instances where existing ordinances are not adhered to, detailed reports will be sent to the deans of the colleges and to the parents of the students involved. Offenders will be dealt with as any other citizen.

"Because of the many students anticipated," said Russell, "there will be a greater impact than usual on the city's facilities and accommodations."

C OF C TO HELP

As a means of assisting students in finding accommodations the Chamber of Commerce, 307 East Las Olas Boulevard, plans to act as a clearing house for housing information. It is suggested that the students contact the Chamber of Commerce upon their arrival.

Students are encouraged to report any instances of unfair treatment during their stay in the city to the Better Business Division of the Chamber of Commerce.

Students planning to visit Fort Lauderdale should have sufficient funds to cover their housing, meals and other expenses.

Sleeping in automobiles and on the beach as has been in the past, will not be permitted.

Candidates Asked To Check Ballot

"All candidates are asked to check the sample ballot today which will be posted on the student government bulletin board, second floor Longmire," Sandra Rosenberg, acting secretary of elections, said yesterday.

Miss Rosenberg explained that if there were no complaints from the candidates, the regular ballot would be printed exactly as the sample one.

Any complaints on spelling or party affiliation listing must be made today, Miss Rosenberg said. The ballots will be printed over the weekend.

Record Turnout For Cheerleading

[A r]ecord turnout of 85 candi[dates] highlighted practice sessions [for t]he 1958 cheerleading squad [this w]eek, according to Head [Cheerl]eader Jim Julian.

[Of t]he 85 hopefuls, only eight [were] men but Julian indicated [this] was the largest turnout of [men on] record.

[The] number of openings on the [cheer]leading squad was not dis[closed], but reliable sources re[veal t]hat there will be more va[cancies] to fill this year than [...].

[The] final judging will be held [this a]fternoon at 3 p. m. in the [Music] Building Ampitheatre, ra[ther t]han 4 p. m. as originally [annou]nced.

[The] contestants will be judged [by th]e incumbent and retiring [cheerl]eaders on execution of the [...] cheers taught at the prac[tice] sessions.

[Ju]dging will be done on the [basis] of enthusiasm, pep and gen[eral] appearance.

[The] student body is invited to [atten]d the judging. The winners [will b]e announced in Tuesday's [issue] of the Flambeau.

Plans Underway For Chest Drive

Plans are progressing for the 1958 Campus Chest drive to be held after the Easter Holidays, announced Chairman Beth Bowen this week.

Due to a recent Student Senate ruling, the Campus Chest drive will be concentrated into a one week campaign. There will be no money-making projects undertaken, but every University student will be personally approached to make a donation to the Chest.

Door-to-door solicitation will be made in the residence halls, sorority and fraternity houses, and student houses in order to make it more convenient for the students. Organizations such as sororities and fraternities may make a group donation rather than an individual one if so desired.

Further information will be provided concerning the forthcoming drive.

The committee urges everyone to co-operate to make the drive a successful one by exercising this opportunity to help those who are not as fortunate.

SENATOR RONNIE CLARK pleads in favor of keeping Smoke Signals at Wednesday's Senate meeting. The crowd overflowed the regular Senate meeting room and the meeting was held in Longmire Auditorium.

Senate Saves 'Signals By Nixing Abolition

Activity Fund Requests High, Taylor Reports

Approximately $10,000 more of student activity funds is being requested than can be appropriated, Jack Taylor, secretary of finance, told the **Flambeau** Wednesday.

Over $90,000 has been asked for by organizations which receive money from the student activity fees. Taylor explained that next year's budget will total only slightly over $80,000.

"Student government has never run into a problem like this before," Taylor said. In the past there have been deficiencies of $2,000 to $3,000, but they were always handled easily, he explained.

"The budget is directly proportional to the the enrollment of students," the secretary said. He went on to point out that no significant increase in enrollment was expected for next year.

Taylor said that about $12.26 per student was allocated to the student activity budget each year. "This is not done on an exact per capita basis due to the fact that we must estimate the following year's enrollment," he said.

One of the main reasons for the rise in estimated expenditures is the increased cost of printing that the publications must meet, Taylor told the **Flambeau.** Publication budgets compose 60% of the total amount.

The student budget committee will take up the task of cutting the budget right after Easter. "Every organization will have a chance to justify its estimate of next year's expenditures," Taylor said.

The student budget committee is composed of Kathy Powers, chairman, Keith Harp, Milton Petty, Gayle Gardener, and Taylor.

After the student committee trims the budget, it will be reviewed by the faculty-student budget committee. Final approval will be given by Senate. The process will take until about the middle of May, Taylor said.

Rehearsals Progress For Puccini Opera

Rehearsals are now in progress for Puccini's opera, La Boheme, which will be presented by the School of Music May 16 and 17 in memory of Puccini's birth 100 years ago.

Richard Collins will direct with Robert Sedore conducting the University Symphony Orchestra. Both are professors in the School of Music.

The chorus will be provided by the Choral Union under the direction of Herman Gunter and Miss Betty Grimm.

Technical director is Max Estes and stage manager is Sidney Kennedy, both graduate students. The sets will be designed by Pat Wolfe.

Mrs. Edith Kaup of the faculty and Ralph Nolen, graduate student will serve as music coaches for the production.

Admission for the opera will be $1 with a special price of 50 cents for Florida State University students upon presentation of their activity books. It will be held in Westcott Auditorium.

The cast will be announced at a later date.

Flambeau Photo Jo Ann [illegible]

TWO OF THE soloists for the Phi Mu Alpha-SAI concert Sunday are Margaret Yeats (left) and Marilyn Swingle. Accompanist Carol Terpening is at the piano.

Annual Easter Sing Slated This Sunday

In recognition of the Easter season, Phi Mu Alpha and Sigma Alpha Iota, men's and women's music honoraries, will present a program of sacred music Sunday afternoon.

This annual Easter Vespers will begin at 5 p.m., not 4 as previously stated elsewhere, in the amphitheater.

The choral program, including works from Bach and Handel, will be sung by members of the two sponsoring organizations. Miss Betty Jane Grimm, voice instructor, will conduct the group.

Bach compositions to be performed are: "Break Forth O Heavenly Light;" "Jesus, Priceless Treasure;" "Now Let All the Heavens Adore Him," "Bleed and Break" from St. Matthew Passion (Margaret Yeats soloist).

Handel selections are from the immortal Messiah—"Despised," soloist, Marilyn Swingle; the chorus "Surely He Hath Borne Our Griefs;" "I Know My Redeemer Liveth," Ruth McLester, soloist.

The program will conclude with the stirring "Hallelujah Chorus."

Carol Terpening and Raymond Liebau will provide accompaniment for the vocal offerings.

The invocation and benediction will be given by the Rev. Austin E. Hollody.

WOMEN'S SENATE SEEKS REGULATIONS CHANGES

A bill recommending changes in women's regulations as stated in the "Knowledge for College" handbook was passed in Tuesday's session of Women's Senate.

The bill, now awaiting approval from Dean Katherine Warren's office, would alter rules concerning men's visiting hours and signing out after 7.30 p.m.

Section I, in final form, would change men's visiting hours in women's halls and sorority houses to 12 noon until closing hour during the week. Saturday-Sunday hours would continue (10 a. m. to closing).

Section II would require all students, including seniors to register all activities (within a five-mile radius) starting or extending later than 7:30 p. m.

Previously seniors had been exempt from following this regulation.

Currently men may visit in parlors and recreation rooms of both women's halls and sorority houses from 2 p. m. till closing during the week.

The bill as originally introduced by Senators Mickler, Wilmon, Hustzy and Youmans, would have let calling hours begin at 10 a m. in residence halls and remain at 2 p. m. in sororities, Monday through Friday.

The women senators decided in extended debate against this precedent-breaking move, on the grounds that sorority and non-sorority women should continue to be governed by the same rules.

It was felt that differences in regulations might lead to disharmony between the groups.

Easter Egg Hunt For Tribe Papooses

Tomorrow has promise of 30 dozen brightly colored Easter eggs hidden throughout President Strozier's yard.

Children of Florida State University faculty and students will have from 10 a m. until noon to find the Easter bunny's secret hiding places during the annual Easter egg hunt being sponsored by the Graduate Club.

Dr. and Mrs. Strozier with 14-year-old Chuck and 10-year-old Ann will be present to informally greet the people as they come.

With refreshments for both young and old, there will be games and entertainment after the egg hunt as planned by recreation major Lynn Brautty and physical education major Minnie Castro.

When asked how he felt playing Easter bunny, Ray Marvin, Graduate Club social director, said, "It's fine, but I've been out for days trying to find 30 dozen eggs and get them boiled."

Response Poor For Donor Day

The response to the second "Donor Day" at the University Blood Bank was very poor, according to Mr Hinton Bevis, hospital administrator. Only twelve students offered to give blood and of these only five were accepted.

Of the two "Donor Days" held to date, eight pints of blood have been given to the Bank.

"The students just don't stop to realize how important it is to belong to a blood bank of this type," says Bevis. "If they would just understand that unless they have blood in a blood bank it is difficult for them to obtain it without paying the high price required and having to have blood they use replaced by additional donors."

The donors that have given blood so far are students that have given blood before, and give blood periodically. "We want a balance of students giving to the bank, and not the same ones giving all the time," Bevis said.

The next "Donor Day" will be held Tuesday, April 29. This will give students enough time, if they are under 21, to get their parents permission.

A faculty and staff donor day will be held April 8, the first Tuesday after Easter holidays. "If any students that missed giving blood this past time want to give on that day, they may do so," Bevis said.

"The Blood Bank Committee would also like to express their appreciation to those students that gave their blood or attempted to do so," he concluded.

Largest Crowd Ever Watches Surprise Move

By BUCKY CANON

In a surprise change of atmosphere, the Senate saved **Smoke Signals** from virtual abolition by a 18-10 vote Wednesday.

The largest crowd to attend a Senate meeting in recent years heard bitter charges and accusations hurled by both sides in the hour's debate preceeding the vote.

Many observers were surprised by the margin of the vote. At the introduction of the abolition resolution last week not a single voice was raised in the **Signals'** defense.

Senator Vernon Edgar, author of the resolution, led the attack on **Smoke Signals.** In an 18-minute speech, he charged the magazine with being "a repeated failure" and a "disgrace."

RAILROAD CHARGE

"Railroad!" charged Senator Ronnie Clark, who accused proponents of the resolution of "trying to push something through here."

The resolution, if passed, would have cut off next year's **Signals** appropriation and confiscated all unencumbered funds in this year's budget.

Meeting in the large Longmire lounge because of the large number of spectators, the Senate took the **Smoke Signals** resolution, No. 18, up as its first order of business.

Edgar, leading off the debate which was limited to an hour, pointed out how tight the budget was going to be next year because of rising costs and steady enrollment.

"**Smoke Signals** is the least important publication," he said. "Every student activity should merit its expenditure," he added and charged **Signals** with not being worthy of its expenditures."

TRADITION AT STAKE

Clark, leading the defense of the magazine, said that he felt there was more than just financial policy at stake here. "The tradition of the magazine is being decided here. It's not something to be decided quickly," he said.

Ron Hamm, editor elect of next year's **Signals**, spoke to save his publication. He charged the supporters of the resolution with being only interested in getting the student government finances for themselves. Hamm said that he would have an issue to go Orientation Week next year. "I have 15 or 20 manuscripts and many persons have approached me about working next year," he said. He did not think that the staff would have difficulty putting out four issues on time.

Both Hamm and Senator Gary Kissenger who spoke against the resolution termed Edgar's descriptions of the **Signals** as "great big value judgments." "**Smoke Signals** is being made a financial scapegoat," Kissenger charged.

Vice President Jan Kaminis read a letter from the Student Body Cabinet which put them on record as unanimously favoring passage of Edgar's resolution.

Expanding on his after the meeting, President Greenfield said that while he disagreed with the Senate's decision, he was pleased that the "Senate could take up important matters such as this with thorough and complete deliberation."

ISSUE NOT DEAD

Greenfield added that the Senate vote was only one stage of the **Signals** discussion. "Something is definitely wrong there," he said "and the matter will be brought up again."

Hamm was subject to extensive questioning after his defense. Answering them, he said that he thought $2,000 worth of advertising could be sold in next year's **Signals** and that no budget increase would be necessary.

He also said that over 1,200 students had signed petitions favoring the retention of the magazine. Answering a question concerning the lack of issues this year, he said that three issues would come out before school ended.

"POOR TASTE"

The lengthy debate was marred by threats of retaliation at the polls and accusations of subtle political pressures. Senator Bob Kansky called these out of order and "in poor taste."

Several Senators said that they thought an hour was not enough to decide the fate of the magazine

Bermudas For FSU--19??

While FSU coeds are asking approval to wear bermuda shorts on Saturday, the University of Florida Women's Student Association is proposing the wearing of bermuda shorts everywhere and anytime on the campus.

OUR WOMEN'S Senate wouldn't think of asking for such a daring and liberal plan, but the Gator girls want to wear bermudas in the classroom, library, cafeteria, and Student Service Center.

When Senate probed this deep problem again for the third or fourth time, it was pointed out that there is no rule against wearing such apparel. Rather it is a matter of "good taste" as defined by the FSU social regulations.

IT SHOULD seem that women would be allowed to judge when the shorts are in good taste and when they are not. But woe to the brave coed who tries to use her own discretion as to the proper time and place to choose such an outfit.

House counselors have been known to get quite upset with women leaving the dorm in bermudas—even when they are dressed for an automobile trip home. Coeds then are sometimes forced to sneak out and feel guilty about their alleged lack of judgment of when it is and is not "good taste" to wear bermudas.

REDEFINING the etiquette problem of good taste about a certain social custom is a process which takes place over a long period of time.

We can't help wondering what University of Florida coeds will be wearing when Bermuda shorts are accepted here without criticism.

But bermuda shorts will probably not be in style then.

★ ★ ★ ★ ★

SG Totem Pole Not So Low

Although the debate is over, we can't help adding a few comments on the topic chosen by Presidential candidate Carthell Williams. The debate, of course, was held Wednesday between Williams and his opponent, Art Moore, with Williams taking the affirmative.

THE TOPIC was "Resolved: that Student Government has reached an all time low."

Now Mr. Williams did a fine job in bringing out some facts that have been disturbing for the past few years, that is, a decline of student body interest in student affairs. We agree with Mr. Williams, that increased interest in student government, especially from heretofore unrepresented groups is a desirable goal for which to strive. And we applaud students from these groups who finally do take an interest and seek experience and offices.

..**HOWEVER**, in spite of our criticisms of the Student Senate, we certainly do not think student government has reached an all time low. And we do not think Senate to be worthless, unthinking, irresponsible or to possess any such charactertics.

OUR CRITICISMS of Senate revolve around the belief that its perspective is too narrow, that it has powers it does not use, and instead of spending most of its time on matters of utmost concern, it spends its time arguing over items of little or no significance.

In pointing up places where Senate could be improved (and what public organization should not receive constructive criticism when it is needed?), we have perhaps neglected to applaud the good efforts which come from that group. Certainly the **Smoke Signals** debate was an example of Senate broadening its perspective.

But Senate is only a part of student government. Taken as a whole we contend that FSU has a highly developed, well informed and very good student government which concentrates its efforts toward better benefits for the student body.

A topic with which we would more readily agree with the affirmative is "Resolved: that not enough students take an active interest in student government by showing up at the polls."

Certainly, with three active parties on campus and bigger and better projects of benefit to the students, the facts show an all time high in politics and in student government.

The Critic's Corner

Brown Shows Musical Showmanship

By MIKE HIPPS

In any active music school, there is a great deal of talk about that nebulous, lofty thing which we call "the professional standard". Just what qualities characterize a "professional" performance? What is the spark that enables one young hopeful to make the "big time", while another, equally young and equally hopeful, never makes it past the Friday Night Musicale at the Ladies' Garden Club?

WHEN CONFRONTED with these questions, the average student is likely to reply that a "professional" is one possessing unusual native ability and a thorough mastery of his particular medium of expression. Although "talent" and, certainly, technical perfection, are vital to any performer's success, we don't think these virtues in themselves can insure this success. There must be something more, and that "something" is quite intangible. We might call it an attitude—a determination to "sell a tune", to make the audience experience something of what you experience as you become envolved in the music. On Broadway they call it "showmanship"; this reviewer prefers to think of it, in serious music, as the very essence of musicianship.

IT WAS THIS type of musicianship which we witnessed Monday night in a Senior Voice Recital by Beverly Brown, a pupil of Mrs. Edith Kaup. Miss Brown was more than a lovely girl with a lovely voice (which she certainly is) she became a musical personality on the stage. And the personality was as varied as the program she sang. We could not help but feel the fervent longing of the Bach "Come Sweetest Death", the irresistible rhythm of the de Falla, and the delightful humor of "George Washington Comes to Dinner."

DESPITE SOME rather serious vocal problems brought on by a throat infection, Miss Brown never gave the audience any hint that there was any difficulty in singing the highest notes, or in executing technical passages with the utmost ease. It is this ability to maintain a high standard of performance under less than ideal conditions that marks Miss Brown's kind of musicianship, and leads us to believe that she is well on her way to attaining that coveted level which she may truly call professional.

Raymond Liebau turned in a pure, sensitive performance at the piano. His fine awareness of his partner's attitude toward the music, and his feeling for line and nuance mark him as an extraordinary accompanist. Miss Brown was also assisted by Richard Joiner, organist.

Calling The Card

Keep Football For Students

By JIM McINTYRE

It's just about time for someone to re-evaluate the role of the football monster before it either becomes the primary focal point of campus life or becomes completely separated from the student bod

It's moving in both those directions, and it is not up to the students directly to control the policy in these matters.

FOOTBALL COULD become the main point of interest on the university campus quite easily. A team that wins is usually something that conjures up feelings of pride and loyalty in the hearts of even the most cynical of collegiate types.

And a winning team at Florida State University could have precisely that effect on the student body at a time when the school is in dire need of an academic pride in the record of the institution in the more scholarly areas of endeavor. When the game of football becomes something that relegates the academic pursuits to a subordinate role in the scholastic spectrum, then it creates a position for itself that was never intended in the collegiate community.

COLLEGE FOOTBALL should be for the students. It should also be played by the students. As it stands now it is neither.

Not only does it threaten the more scholarly endeavors, as it is being conducted now, but it also fails to fulfill its function as a student activity for two very definite reasons.

1) It is not played by the people who are primarily students and who came here to be students. It is played by a group of men who are primarily athletes and came here to be athletes. Their scholarships take notice of academic standing only to the extent that they must be able to pass entrance exams and manage to stay in school.

TRUE ENOUGH, there have been some capable students who have come here on scholarship, but the number has been small in comparison with those who, indoctrinated with a primary allegiance to the grid community, have drifted through three, four or five years at the expense of students and the Florida race tracks.

Regardless of scholastic standing, the fact remains that football players are primarily athletes, came here to be athletes, and leave little room for the student who would like to participate in that phase of intercollegiate athletics.

2) The other reason the football monster fails to fulfill its function as a student activity, even on the spectator angle, is that it is no longer even played for the students.

There is, ostensibly, a five game "home" schedule. But when one just casually glances at the schedule, he sees that two of the games are played before school starts and one is played at night in Jacksonville. The three games played during the school year at home are the only real justifications for the spending of student activity fee money.

Is this really a justification? President Strozier has gone on record as favoring football if it is kept in its proper perspective in relation to the academic curriculum.

With this we would agree. It must be pointed out, however, that football at FSU is not kept in the proper perspective to the curriculum.

It has lost its perspective almost completely and as it exists now, has no place in the college community.

The Pontificator

Artists Obligated To Their Society

By EMMETT JARRETT

In the spotlight recently were Britain's "Angry Young Men," who take their name from John Osborne's play "Look Back in Anger," currently on Broadway. The ranks of the young men were broken in a brawl in a pub outside the Royal Court Theatre in London, which revealed the basic split in the group.

IT IS DIVIDED on the issue of whether or not the artist should contribute to the "salvation" of society by exertion or by example. Led by Colin Wilson, author of a collection of quotations called **The Outsider**, half of the movement believe that the artist must search his own soul first, and be more especially concerned with his personal redemption.

The other half, which is led by Osborne and drama critic Ken Tynan, are the exertionists, who declare that the artists should "take an interest in social environment — and that means politics." They are active in the drive to ban the production of atomic weapons in Great Britain.

THE BRAWL was over a play written by one of the Wilsonites, and, after Tynan and his wife walked out of the theatre in the middle of the last act, Wilson and his followers came upon them and engaged in actions which were definitely not exemplary. Osborne exclaimed, when he heard of the fight (which, incidentally, Wilson may be said to have won), "Terrific! A row like this is just what I've been looking for."

We are inclined to agree with Osborne, for at least such actions indicate that these are not just school-children talking about high-flown concepts. But the important issue has been raised as to whether or not the artist should engage in an active political life within his society.

IT IS CONTENDED in some quarters, especially in America, that the artist should be an isolated personality, separate from the rest of society, and commenting on either it or his own Ivory Tower thoughts from without. This is the essence of the Wilson position.

We cannot agree with this. It is a basic fact that the artist, like any other human being alive, is involved in the social context in which he was born. This is an inevitable involvement, and it has for centuries been the problem of the artist to be involved in life enough to be intensely concerned with it, and at the same time to be separate enough to be able to express his truth, that is, the significant thing which he has to say about life and living, which he has gained from his intense perception of it.

MANY ARTISTS at this University take the isolationist position. We hereby espouse the position that the artist, being a human being and a member of society, has, due to his position in society as an artist, an obligation to engage in the activities of society, especially politics. We take this somewhat partisan position in order to encourage thought about and arouse discussion of this important problem of the artist and of the society in which we live. Criticism and debate are welcome and invited.

Two Party System Here To Stay

By BUCKY CANON

Tuesday is another student body election. If we can [...] from the past, only about one third of the students wil[...] enough interest to vote.

FOR THE PAST three elections slightly above 2,500 votes hav been cast in each election. And the population of the university has stayed at somewhat less than 7,000.

The Student Party has emerged victorious from all the past elections. Sometimes, as two years ago when they won the presidency by only 185 votes, their margins have been narrow. More often they are wide—as last year when Greenfield won by about 600 votes.

BUT ALWAYS they have won. Not only the presidency, but nearly all of the other offices. A Student Party victory was usually a safe prediction.

This year's election has several characteristics which differentiate it from past ones. Many persons are wondering if these new factors will make this year's outcome different.

FIRST, A NEW and, seemingly active, party has sprung up to voice its dissatisfaction with the present student government. This is the University Party. Their candidates charge that student government "has sunk to an all time low" under the present administration.

Having taken up the unpleasant task of bucking the entrenched Student Party, the University Party now must find support. They have declared that they will find it in the usually apathetic voters.

THIS THEY will have to do, for the Student and Collegiate Parties show no signs of losing much support from their reservoirs of strength. (Collegiate and Student, remember, have joined forces in the presidential race.)

University Party will [...] fall with this election. I[...] can get out enough of the [...] disinterested voters with [...] to make a fair showing the[...] be able to make good the[...] of replacing Collegiate Pa[...] the traditional opposition [...] it is unlikely that they w[...] amount to anything politic[...]

THE LARGE number of [...] pendent candidates is a [...] factor which makes this [...] unusual. Formerly it was [...] individual who dared to r[...] dependently. This year [...] the 24 candidates are inde[...] of party.

Independents are run[...] bigger offices, too. A ca[...] for president is independe[...] there are independent seek[...] the men's and women's vice [...] idencies.

IF INDEPENDENTS w[...] win election to these la[...] fices, however, one wonde[...] how much their victory [...] affect Student Party powe[...] the vice presidents have v[...] duties (men's veep has [...] do-nothing job this year [...] they are not really muc[...] ferent than senators.

Just what these new [...] mean is hard to say. Som[...] that we are seeing the [...] of a breakdown in our tw[...] system. Others say tha[...] merely a realignment w[...] causing the differences [...] election.

Predicting the future [...] easy, but it seems that th[...] party system is here on [...] to stay. Student Party w[...] main dominant for the f[...] able future and its oppos[...] consolidate behind one pa[...] another.

Matsuda Triumphs Over Critical Cliche

By JOHN KNOBLOCK and CHARLES ROWDEN

It is a standard critical cliche in music that a woman c[...] play the piano with force and determination and must, the[...] restrict herself to the more fanciful music of Schumann [...] controlled delicacy of a Mozart, rather than the "unpia[...] vehemence of Brahms or the titantic impulses of Beethoven, or the powerful religiosity of Bach.

MISS MATSUDA, Wednesday, demonstrated the falsity of this proposition. She selected a program which included both Bach and Beethoven. That is was a virtually unqualified success, is a great triumph over a prejudicial cliche.

The program opened with Bach's Chromatic Fantasy and Fugue. Miss Matsuda's interpretation of the Fantasy was a highly colored version which brought out the improvised qualities of the Fantasy, something a steely, cold interpretation could not have succeeded in doing so well. The fugue, in contrast, could have benefited from a steadier sense of timing, demonstrating a more intellectually controlled sense of unity.

THE BEETHOVEN, Sonata in E-flat, No. 26, Op. 1a, "Les Adieux" was played with a calm, restrained style which one would not have expected after the comparatively "emotional" Bach. She drew from the piano a deep, rich sonority which supplemented the greater control and interpretative insight of the second and third movements to build a superb monument.

Banality and virtuosity are the trademarks with which one usually associates Franz Liszt. In the hands of Miss Matsuda the Liszt Etude in f minor became an example of sober, clear, subtle playing, depending on a linear movement rather than tonal nuances to sustain the effect. The banal, the virtuosic for virtuosity's sake wer suppressed and molded by the excellent balance between voices a[...] accompolished sharing of [...] melodic line.

ONE FINDS the sam[...] marks hold for the Chopin [...] Polonaise Brillante, Op[...] Again linearity shows a [...] ed influence in contrast [...] more usual tonal-pedal s[...] ch. Thinclads Seek Gainesville Title

The Kentucky 'Baron' Brings Home Another

Jan Whitmarsh

The house lights darkened in mammoth Freedom Hall. The spotlight fell on the University of Kentucky band, then the American flag. Some 18,000 voices raised the "Star Spangled Banner."

Down on the floor, two groups of six men stood in the lime-light, five men and the coach of what were assumedly the two best college basketball teams in the nation.

This was the scene before the NCAA championship game between Kentucky and Seattle. Afterwards—bedlam.

Seeing the NCAA championship was a thrill—one which those 18,000 fans, and over 100 sports writers and photographers will never forget.

And, it was quite a ball game.

For 27 games, rival teams had tried to find a method of stopping or at least slowing down Seattle all-American Elgin Baylor. His 33 point-a-game average at game time indicates they had little success.

If anybody could find a way to slow up Baylor, it would be Kentucky coach Adolph Rupp, probably the dean of current college coaches.

Rupp found a way—beat him on defense.

As a result, Baylor picked up four fouls in the first 23½ minutes of the game. In the last 16½ minutes, he was all but useless on defense.

The story was over—Kentucky went on to its fourth national championship.

Held down or not, (he still managed 25 points) Baylor is one of the greatest shots I have ever seen. He has a touch when he shoots which seems to guide the ball in like radar.

But he wasn't enough.

And again, a team basing it's offense mostly on one man failed to cop the national title—as Kansas with the amazing Wilt Chamberlain failed last year.

According to pre-season reports, this was to be one of Rupp's worst teams at Kentucky. So, all it could do was win the national title.

It's true, thought, that the 22-6 record hung up by this year's Wildcats was one of Rupp's worst records. Of course, the worst the "Baron" ever did was, 17-8.

Kentucky had no all-Americans—just five guys who made honorable mention. The victory just adds more prestige to Rupp's reputation as one of the greatest, if not the greatest, coach in the land.

Then, there was the consolation game.

In both halves, it was a one-sided contest. The first half belonged to Kansas State—the second half belonged to Guy Rodgers.

The Temple "quarterback" took charge with Temple trailing by ... points at the intermission, and five minutes thereafter the Owls had pulled ahead.

Anything that has ever been said about any all-American goes double for Rogers as far as I'm concerned. He's the greatest ball handler and passer I've ever seen.

He only got 17 points, but the other guard Bill Kennedy, a fine player in his own right, got 23—most of them from Rogers' passes on the fast break.

LOUISVILLE BRIEFS. The FSU delegation besides myself and sports editor Larry Bock included basketballers Hugh Durham and ... Deckel (who lives in Louisville), coach Bud Kennedy and business manager Eddie Cibbon . . . Temple was the only team without cheerleaders represented. . . . Even Seattle had a set of cheerleaders and a few fans, despite the tremendous distance . . . Before the game, the Chieftains boasted of a "stuffed wildcat" for the second straight night, having beaten Kansas State's Wildcats in the semi-finals the night before.

K-State incidentally was a tremendous disappointment . . . . Despite the play of all-American Bob Boozer, the Wildcats seemed outclassed both nights . . . There was some 400 coaches in town for the NCAA coaches meeting . . . **Freedom Hall** is the largest auditorium in the country with no posts to block vision . . . If it hadn't been for the fire laws, they could have drawn another 5,000 people for Standing Room Only.

Among the famous personages wandering through the crowd was former Minneapolis Laker great **George Mikan**. . . . Mikan has put on considerable weight since his playing days—looks like a typical retired businessman.

It's interesting to note that **FSU** has Kentucky on the prospective basketball slate for next year slated December 1 in Lexington, Ky. . . . Since the Seminoles met NIT champ **Xavier of Ohio** this year it means both national champions will be met over a ... month period. . . . Not bad for a school still growing in the sport.

Howser Top Amateur Athlete

Dick Howser, Florida State's all-American shortstop, was named the Amateur Athlete of the Year (1957) by the Florida Sportswriters Association last week.

Howser was the first collegiate baseball player in Florida to receive this honor. A senior from West Palm Beach, Howser is now playing his last year of baseball for the Tribe.

Last year, the scrappy infielder became the first Florida State athlete to receive an all-American baseball title. The "mighty mite," as he is tagged, stands only 5-9½ and tips the scales at 150.

As a sophomore in 1956 Howser batted .422 Last season the Seminole baseball team faced some of the toughest competition and Howser blasted the ball at a .364 clip.

He also led the team in almost every batting department. Howser made his opening game a success this season when he collected three hits, including two doubles, and driving in two runs as the Tribe lost to Auburn.

The award is given to the state's top amateur and professional athletes every year. Dick Mayer outstanding golfer in the state was selected as the top pro athlete of this year.

Gymnasts Seek Ga. AAU Title

Florida State's unbeaten gymnasts go after their seventh straight Georgia AAU title at Atlanta tomorrow.

The Seminoles have won six straight dual events this season in addition to numerous team titles, among them the Southern Intercollegiate. They've whipped Georgia Tech twice.

The Georgia AAU meet will serve as a Seminole warmup for the National Collegiate Association championships at East Lansing Mich., April 11-12.

Six Seminoles expected to provide the biggest boost in the Georgia AAU meet are Lennart Malmlin, Chick Cicio, Fernando Leeuona, Don Preisser, Laird Anderson and Jack Miles.

Malmlin, a former member of the Swedish Olympic team, has been FSU's top point producer this spring. Cicio, of Brooklyn, N.Y., has been right on his heels.

Miles is a former National Flying Rings champion.

COMPETING FOR Florida State tomorrow at Gainesville in the Florida Relays are thin clads Jerry Henderson, (left) javelin, and Doyle Ruff, (right) half-miler and mile relay.

Bob Weber In NCAA Diving

Bob Weber, highly touted Florida State diver from Charleston, W. Va., begins competition today at the NCAA swimming and diving championships in Ann Arbor, Mich.

Considered by many as the top collegiate diver in the South, Weber will represent Florida State in both the one and three-meter diving events during the tourney.

LOST ONLY ONCE

Defeated only once during the regular dual meet season, Weber placed second to former Florida star Chuck Martin in the recent Florida AAU'S.

One of the few sophomores competing for the NCAA crown, Weber is considered by Coach "Bim" Stults to have "great potential." Stults went on to say, "In order for Bob to bring himself up to top-flight form, he must dive against the best competition in the nation."

Next weekend Weber will travel with freshman diving star Curtis Glenders, Ken Abbott, school record holder in the 50 and 100 yard freestyle events, and Joel Jacobs, record holder in the breaststroke, to the NAAU championships in New Haven, Conn.

18 Teams Entered At Florida Relays

By PHIL ROYCE

Polevaulters Dick Elwood and Ted Keen and javelin man Jerry Henderson will lead Florida State's track team as it competes against a field of 18 teams in the Florida Relays tomorrow in Gainesville.

"These boys have strong chances of placing in the meet," said Seminole track Coach Mike Long.

Elwood has vaulted 13-2 this season, tying the school mark he set last year. He tied for second last year. Keen, a promising sophomore, has a 12-6 mark to his credit thus far this season. "And he can do better than that," said Long.

COMPETITION HEAVY

Elwood and Keen can expect plenty of competition from the rest of the field. "An Alabama man has done 14' this year and one from Kentucky has done 13-6," stated the Tribe coach.

Though no team is officially declared the winner of the Relays, great prestige comes to the college compiling the most points. FSU, already the winner of the Indoor Games at Montgomery, plans to make an all-out effort to cop the mythical championship.

"We're entering all the events except the distance medley relay," stated Long. "We're in pretty good shape and everyone has worked as hard as the weather has permitted."

Main competition for the Tribe's 20-man team will be provided by LSU and Maryland. Alabama, Florida, North Carolina, Duke, South Carolina, Clemson and Kentucky can also be expected to give the Seminoles trouble.

If a team is to fare well in the Relays, it must have strong relay teams in such events as the 220, 440, low hurdles and mile run are not scheduled.

Just how good are the Seminole relay teams? "We're entering the two-mile, mile, 440, and sprint medley relays and we should place in most of them," Long commented.

The two-mile relay team is made up of Charley Nye, Ben George, Doyle Ruff and Mike Conley. Members of the 440 squad are Jack Terwilliger, Gary Butner, Ted Keen and Jim Casteel. The only change in this lineup for the sprint medley team is the insertion of Conley for Keen.

MILE RELAY

Members of the mile relay team, school record holders in the event, are Terwilliger, Ruff, Conley and Casteel. They will be among the favorites to win the event.

Other Seminoles rated a good chance to place in individual events are Terwilliger and Casteel in the 100. Terwilliger placed third last year. They will face a star-studded field that includes Duke's Dave Sime, coholder of the world's record with a 9.3 clocking.

The shotput will be handled by two men who are better well known as the Tribe's star fullback and the first string center on the basketball team. They are Dink Lawrence, the fullback, and Dan Boltz, the center.

"This is the first year Boltz has competed in track. Lawrence has had experience in the event. Both are coming along fine," noted Long.

Other Seminole entries in the Relays are:

100 — Keen. High hurdles — Claude Grizzard, Bob McDonald. Two mile—Tom Keeney. Pole vault—Don Ayres. High jump—Jim Browing, McDonald. Broad jump—Casteel, McDonald, Jim Liteky. Javelin — Keen, Liteky. Discus—Rod Fields, Bob Nellums.

Here June 12–14

Erdelatz, Daugherty Headline Grid Clinic

Five of the nation's outstanding football coaches will headline Florida State's fifth annual football clinic here June 12-14.

In announcing the three-day clinic Florida State Coach Tom Nugent said four college and one professional coach would conduct the clinic which has drawn national attention in recent years.

Nugent listed the coaches as Alabama's Paul (Bear) Bryant, Michigan State's Duffy Daugherty, Minnesota's Murray Warmath, Navy's Eddie Erdelatz and the Los Angeles Rams' Sid Gilman.

They will be supplemented by Nugent and his own seven-man staff.

COACH OF THE YEAR

Daugherty, college football's "Coach of the Year" in 1955, is the only returnee from past Florida State clinics. He was a member of the 1955 staff which also featured Oklahoma's Bud Wilkinson, and Notre Dame's Terry Brennan.

Nugent first drew national attention in 1954 when his "passing fancy" was a great success. It was "football carnival" in 1955 and the 1956 and 1957 sessions were called "coach of the year" clinics.

Bryant visited Florida State at the peak of the 1957 clinic and said he'd like to be a part of one of these clinics." He described Tallahassee then as the "summertime football capitol."

Highlight of the clinic will be actual on-the-field demonstrations by the clinic staff. In addition, there will be panel discussions, lectures and movies of outstanding colleges and pro games.

Cost of the entire clinic for each "student" will be $20, which includes housing in State's 11-story men's dormitory, West Hall.

Last year's clinic, with Wilkinson, Georgia Tech's Bobby Dodd, and Kentucky's Blanton Collier, drew 759 coaches and players from throughout the nation. Some students came from as far as Cuba and Mexico.

The 1955 clinic drew one coach from Hawaii.

"The success of our first four clinics make us believe this one will surpass the others," Nugent said. "We think we have a modern clinic that answers the need of any coach and his players." Florida State's clinics, arranged and directed by Nugent, feature the latest trends and newest ideas in football.

Golfers Battle Sailors Today

The up and down golfers of Florida State will tangle with the Jacksonville Navy team today in Jacksonville.

This will be the second meeting of the season between the two teams. The Seminoles took an early season match here by the score of 27-0.

The FSU linksters hold a 5-4 edge over the Sailors in a series which dates back to 1952. The Seminoles entered yesterday's match against Spring Hill with a 5-3 mark for the current campaign.

Making the trip to Jax for FSU will be Bob Shave, Mel Fleischer, Dinh Wise, Dick Hanscome, Rem Noble and Dick Parker.

In the first meeting of the Tribe and the Sailors, Parker led the Tribe by shooting a three-under-par 69. Tom Gorrell and Dan Peters have been the Navy's top point-getters this season.

LOSE 16-1

Georgia's Bulldogs, the defending SEC Champions, put a halt to the FSU win streak Tuesday when they beat the Seminoles, 16-11.

Bob Mosar and Cobby Ware carded sub-par rounds for the Bulldogs and FSU's Shave and Hanscome shot even-par 72's. It was the fourth win of the season for Georgia against one loss.

The loss was the third of the season for the Tribe, the other two coming at the hands of Rollins and Florida. Thus far this season, the Seminole linksters hold victories over Wisconsin, Moody AFB, Georgia Tech, Florida and Jax Navy.

A second best score in the Florida Intercollegiate golf tourney lost the crown for the Seminole golfers, who had held the title for two straight years.

The summary of Georgia match:

Hugh Royer (72) and Bob Moser (70), Ga. defeated Bob Shave (72) and Dave Morris (76), FSU, 8½-2½.

Cobby Ware (71) and Davis Adams (74), Ga., defeated Mel Fleischer and Don Torppa (80), FSU, 8½-½.

Dick Hanscome (72) and Rem Noble (76), FSU, defeated Frank Eldridge (78) and Sam Mays (77), 8-1.

TOP NETTER junior Lex Hester of Neptune Beach, will be in action today against Jacksonville State and Monday against Howard.

Tribe Netters Face Jacksonville State

A series that began in 1953 will be resumed again this afternoon when Florida State's tennis team meets Jacksonville State, of Alabama here at 2:30.

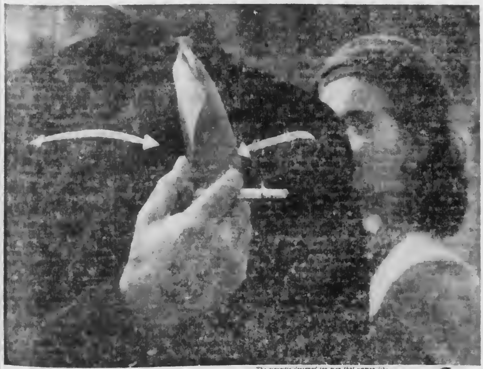
The lone meeting between the two schools provided an easy win for the Seminoles, 8-1. Monday the netters face Howard College on the varsity courts.

Yesterday the Tribe opposed Michigan State of the Big-10 conference in hopes of picking up victory number two of the current campaign.

The Seminoles stand 1-1, having defeated Georgia, 5-4, with the loss coming at the hands of Georgia Tech, 7-2.

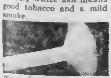
Coach Keith Pitchford is expected to use his usual lineup of Lex Hester, Jim Berry, Frank Bryan, Jackie Crew, Jim Maddock and Howard Levy.

Where there's a Man… there's a Marlboro



The cigarette designed for men that women like.

A long white ash means good tobacco and a mild smoke.



The "filter flower" of cellulose acetate (modern effective filter material) in just one Marlboro Selectrate Filter.

Mild-burning Marlboro combines a prized recipe (created in Richmond, Virginia) of the world's great tobaccos with a cellulose acetate filter of consistent dependability. You get big friendly flavor with all the mildness a man could ask for.

HIS OWN MUSIC. Ernst von Dohnanyi listens to one of his own musical compositions on one of the records from the WFSU file.

Then To FSU Lab

Bread Mold To Test Effects Of Radiation

Bread mold prepared in a Florida State University laboratory will be airlifted 20 miles high within a few weeks to test the lethal effects of cosmic radiation.

After it has been exposed to 50 hours of radiation above Minnesota the bread mold will be placed under observation in the laboratory again by Dr. A. Gib DeBusk, a geneticist with the FSU Department of Biological Sciences.

AIR FORCE GRANT

The scientist, working under a new $14 600 contract with the Air Force, is interested primarily in the effects of radiation on heredity. But the information he gathers may be applicable to the problem of man's ability to survive space flight.

The bread mold will be carried by an Air Force balloon in a continuing series of tests which thus far, according to Dr. DeBusk, indicates "considerable damage" to the living cell aod its genetic system from the relatively light cosmic radiation at this height.

Going up 20 miles is about what is needed, the scientist said, to get a fairly good jolt of cosmic radiation, something whose effects are little known. There's a lot of testing to do to determine whether cosmic rays are "something to worry about" in genetics.

Samples of his bread mold carried in the 20-mile balloon ascent of Maj. David Simons several months ago showed "no perceptible genetic mutations." Twenty miles, incidentally is about as high as present methods allow you to take the bread mold and have a recoverable sample.

The material being used in the experiments is a fungus called Neurospora crassa, a yellow mold found frequently on aging bread. A hundred million cells of the mold can be exposed at one time in 12 small test tubes and one mutation in a million cells can be detected.

Some time within the next few weeks—the date has not yet been set—DeBusk will pack 18 carefully prepared test tubes of bread mold into his grip and fly to Minneapolis. Twelve of the test tubes will make the balloon ascent and six will remain on the ground. Six others, for control purposes will remain in the FSU laboratory.

In this and another research project, for the National Science Foundation, Dr DeBusk is probing into mutations which result from radiation and into the chemistry of heredity.

WFSU–FM Began In 1947

Campus Radio Station Was Almost Skating Rink

By NANCY GENE BROWN

(Ed. Note: This is the first of two features on the University Broadcasting Service. The second installment in Tuesday's Flambeau will cover the total scope of the service's activities.)

Once upon a time, a sleepy little women's college in a sleepy little Florida town went coed.

The college wasn't sleepy any more, and the town wasn't quite as sleepy.

All manner of repercussions resulted. New dorms were built. New coursea were introduced. And Florida State University (formerly Florida State College for Women) got a radio station.

This all began to come about in 1947. After the war, University of Florida's male atudents overflowed, and the surplus entered a U of F "branch" at FSU.

NO ACTIVITIES

While at U of F, these deported gentlemen had paid student activity fees. When they reached FSU, there were no activities in which they could participate.

So they asked that the fee money be used for some purpose to benefit the student body. Their request was granted, and the fees — amounting to a tidy sum around $3.000 — were there for the using. What for?

This disturbing question was brought to a vote. Two factions held the lead — those who favored the construction of a skating rink, and those wanted an FSU radio station.

Members of the two factions called a mass meeting of the student body to present their cases. Skating rink advocates delivered solemn speeches — but those favoring the radio station won the bearts of the audience with a minstrel show.

So a radio atation it was. An advisor was needed for the crew of amateur broadcastera. Mr. Roy Flynn, who was at the time directing a radio station in Montgomery, Alabama which was owned by the state universities of Alabama, accepted the position. He arrived at FSU in December, 1948

WIRED WIRELESS

Numerous difficulties were encountered by the untrained but enthusiastic radiomen who banded together to produce the first WFSU. They were operating what Flynn refers to as a "wired wireless," a kind of radio station that can be heard on the regular AM radio band but, unfortunately, cannot be licensed by the Federal Communications Commission.

But the FCC will allow such stations to exist, with the atipulation that radio aignals must not be transmitted more than 200 feet from the atatioo property. This brought trouble.

In the first place, unorthodox methods must be employed to transmit via this transmitterless station. WSFU relied on things like the university's power system. The hitch is that the steel construction of FSU dorms, in many places, prevented WFSU radio waves from entering at all.

At the same time, the signals were picked up by city and county power lines. "We had more listeoersi n Wakulla than on campus," Flynn reflects.

Despite its drawbacks, this catch-as-catch-can set-up operated for three or four years from cramped atudios on the top floor of Longmire .

Theo havoc broek loose. Ooe night about 7 as WFSU was peacefully broadcasting, in walked an FCC examiner.

OFF THE AIR

He looked around a few minutes, as WFSU radiomeo held their collegiate breath. "I'll give you 30 seconds to get offt be air," be anoounced.

Power was cut off in the middle of a record.

Nobody was happy about WFSU's untimely death; something had to be done. FCC recommended that the atation's facilities be converted to the FM frequency, and the idea was set in motion.

It took several months to revamp the station's programming to adjust to a city-wide, instead of predominantly campus, audience. This changed the whole broadcasting concept to professional university production, instead of the previous student-run operation.

About the time the new FM station went on the air, a fortunate (but unexpected) thing took place: the advent of the high-fidelity era. This made possible a growing audience demand for hi-fidelity radio. And WFSU-FM is the only true hi-fidelity station in the area.

However, support from local radio dealers has not always been what it could be. Dealers hesitate to encourage buyers to purchase FM receivers, aince signals weren't always dependable at any distance from the campus from WSFU-FM's ten-watt transmitter

ANOTHER BOOST

More good fortune struck the station, however, when permission to increase power from ten to 1.000 watts was recently granted by the FCC. "This increase isn't designed to give more distance to our broadcasting area," Flynn says, "but to guarantee more dependable reception to listeners in Tallahassee and adjacent areas."

WFSU-FM broadcasts at 91.5 on the radio dial, from 7 to 8:30 a.m. five days a week, and from 2 until 10 p.m. seven days a week. The station's schedule conforms to the university calendar; it doesn't broadcast on holidays.

"FM receivers are available in the parlors of all the dorms," Flynn noted.

Five full-time staff members are employed to keep the station functioning, working with a fluctuating crew of atudent assistants which "averages around ten students," Flynn said.

The full-time men are also responsible for university TV and film production and related activities, in addition to cooperating with the school's educational program. They frequently do guest lecturing in various organizations and classes.

EMPHASIZE MUSIC

"We endeavor to be university-level in our content and style," Flynn said. "Our emphasis is on good music, and we present selected programs from the National Association of Educational Broadcasters, of which we are a member, as well as ouo own live programs," he continued.

In programming musical shows, an effort is made to have the student announcers "convey the feeling that they've acquired some LP records and have invited some friends in to listen," in Flynn's words.

WFSU-FM boasts of contracts

Campaigners

Vice-President

DEAR STUDENTS,

We who are personal friends of Gerry Goroon KNOW from the experience of working with him that Gerry is the ONLY candidate for the office of Vice President of the Student Body. Because we DO know his past accomplishments so well and because we have such extreme confidence in all that he undertakes we are asking you to look at PROOF of what we say . . . Gerry's record! But in excess of his actions which are recorded for everyone to resd are Gerry's qualities of untiring effort, sincere friendliness, and genuine interest in student government. Give Gerry Gordon the opportunity to CONTINUE to work for you!

Barbara Chambers, Floyd Falany, Joe Westhaver, Bruce Brown, Kip Tichenor, Georgia Ort, Claire Brightwell, Elvia Garcia, Sue Shives, Carolyn Jones, Leonard Dorsey, Marilyn Miller, Kate Ramsey, Winnie Mae Douglas, Ginger Connor, James Davis, Nellie Manda, April Lee, Bob Murray, Al Ulmer, Jan Kaminis, Helen Lebo, June Sillay.

TO THE STUDENT BODY:

A high degree of student interest in student government means a stronger and more effective government. Every university that I have visited that has strong student government, (Cornell, Auburn, Syracuse, Colgate) also has two or more almost equally strong political parties. The strength of these student governments is derived from participation in a party, and on competition between the parties. The elections in these schools are not decided in the nominating conventions of one party.

This year a new political party has been started at FSU. It is the University Party. The primary purpose of this party is [illegible] offer competition to the es[illegible]lished parties and to encour[illegible] student participation in government.

According to the Constitution of the Student Government, The Men's Vice-President is responsible for co-ordination men's activities on campus and presiding over the Men's Senate. This position calls for a person with experience in supervising and working with people. I acquired experience in this area as Student Council President in High School, a sgt. in Army Intelligence, and an officer in my fraternity.

When you go to the polls next Tuesday to make your choice of candidates go as an informed voter.

Sincerely,
ED MASON

Women's Veep

DEAR STUDENTS,

Personal contact elected me to my past two years of Senate, and this contact with you and your problems has led me to represent you to the best of my ability on such projects as:

1. The infirmary investigation, leading to the creation of a student-faculty grievance committee.

2. Scholarship promotion through the Speaker's Bureau.

3. Off campua food conditions.

4 Traffic problems around campus.

Women's Senate has given me further opportunity to represent you in a national organization's regional meeting, the AWA's receot Dallas convention, where I was a voting delegate.

You as students have elected me in the past to be your voice in student government and I have tried to represent you with interest and initiative. Your vote is your voice, may my voice be your choice.

Sincerely,
DIANE GODIN
Candidate for
Women's Veep

DEAR STUDENTS,

Elections come up Tuesday and I hope each one of you are seriously considering the candidates you wish to vote for to represent you in Student Government in the coming year. The office of Women's Vice-President, the one I am seeking, is an important one—one by which the women of this university are represented among other students and to the faculty and the administration. I am completing the end of my third year here at FSU and during this time I have participated in many campus activities—working with both students and the administration. This past year I have represented the Junior class as a class Senator and feel that my experience here helps to qualify me for this position. In Women's Senate I am Chairman of the Committee on the Intercollegiate Association of Women Students and am Chairman of the State Convention which Women's Senate is sponsoring for all schools in Government. In Student Senate I am Chairman of the Committee which is making a study of the Food Services on Campus. This Committee is still working on this, acting as a laison between the atudents and Morrisons. Besides working on various other Senate committees, I am representing the Senate on the Faculty-Student Committee to study the penalties for absence before and after holidays.

I would like for you to allow me to represent you as Women's Vice-President next year. Thank you very much.

Sincerely,
ADA LEIGH WALL
Candidate for
Women's Vice-President

BOP

TO THE STUDENT BODY:

The Board of Publications is a vital influence in the production of the **Flambeau**, **Smoke Signals**, and **Tally-Ho**, which represent you, the students of FSU, both bere on campus, and through exchange copies, to other universities throughout the nation. Thus, you must consider carefully the qualifications for the three elected Board members who will represeot you and your views through the campus publications.

I feel that a basic knowledge of the principles of good writing, typography, page makeup, photography, and advertising is essential for a member to serve you wisely and fairly.

My three years at FSU have beeo devoted to journaliam atudy, and besides a thorough background in the elements involved in the production of publications, both tbrough extensive classwork and work on the **Flambeau** last year, I have developed an enthusiasm for the field of journalism and a spirit of dedication to the right of every student to express his views, and to have his say through campus publications.

It is because of my stroog desire to serve in the interests of FSU publications that I have declared my candidacy for the Board of Publications. I know within myself that I am well qualified for the job, and am eager to serve you as a member of the Board of Publications, and I will appreciate your confidence and support.

ETHEL CALHOUN

TO THE EDITOR:

Having seen Mr. Terrell's letter to the **Flambeau** we, the undersigned, would like to add our endorsement of Miss Mary Jacque Dunbar as a write-in candidate for the Board of Studeot Publications.

We have reviewed Miss Dunbar's qualifications carefully and find that with her experience as Oxford correspondeot for the **New York Times** she has gained a wealth of experience far greater than any candidate now in the running.

It is for this reasoo that we would like to urge the student body to write-in the name of Mary Jacque Dunbar for the Board of Student Publications in the coming atudent body election.

Sam Skogstad, Stan Alford, Phil Knight, Al Neuman, Allen Howell, Arnold Greenfield, Nathan Leopold, Bob Johnson, Eugene V. Debs, Max Weber, Jim McIntyure, Pete Lewis, Ben Arnold.

Priscilla Moss, Neil Gatewood, Thomas Wolfe, T. Stearns Elliott, David Byars, Tom Westhafer, Waldo Emerson, Hank Thoreau, Bucky Canon, Lucan Cross, Charlie Brown, Martin L. King, Emmett Jarrett, Emmett Till.

Emmett Kelley, Ken Bowes, Beo Balser, Bill Hendrix, Amos Alonzo Stagg, Gerald L. K. Smith, H. P. Long, Al Whitehead, Bert Russell, John S. Mill, Jerry Bentham, Bill Bennett, F. A. Kerr.

(Editor's Note: This is for real?)

TO THE SEMINOLE TRIBE:

From the land of the Seminoles deep in the mud of Tallahassee, drums throb and smoke signals billow their tale of ao uprising.

They tell of an Indian maiden on the warpath. Big Chieftess Lane is ready to scalp ataleness in publications. Her war cry echoes, "Gain with Lane!"

Her tomahawk is Experience. It's been sharpened by: **Mademoiselle** College Board, Vice-Pres FSU Journalism Club, **Tampa Times** Correspondent, Student Assistant in FSU Public Relations Dept., **Flambeau** past-columnist, and work as a journalism major.

That tomahawk, if given a chance, would clear the way for **Smoke Signals** to blaze forth from its fresb flamea, under the leadership of a new warrior Chief. **Flambean** would beat the drums of more of the Seminole Braves.

Remember to Gain with Lane at the polls Tuesday.

LANE

TO THE EDITOR:

May I add my applause to the Senate ruling on the controversial **Smoke Signals** resolution that failed in it's effect to abolish the funds allotted to the campus magazine.

By so doing, the Senate delegated the responsibility of governing the magazine to the Board of Publications which, to use the expression, "has it's work cut out for them".

There is no doubt in my mind that any change in the publications' atatus would be for the better. If the Board of Publications could get bebind the **Smoke Signals** and give it the push it oeeds, there is no reason to believe that the magazine couldn't live up to tbe high atandards that govern FSU publications.

The monetary problem that the Finance Committee faces is only secondary, the real question is whether the **Smoke Signals** will be worth the money speot on it.

The All-American rating of the **Flambeau** and the **Tally-Ho's** first class ranking were obtained by hard work and dedicated service. With effective leadership from Editor Ron Hamm and with the backing of an efficient staff along with a few changes in editorial policy, the **Smoke Signals** could very well take an equal place among our other fine publications.

TOM HALE

TO THE STUDENT BODY:

The present Smoke Signals controversy has focused a great deal of attention on the duties of the Board of Student Publications. The Board, composed of three professors, two appointed atudent members, and three elected student members, is and should be of foremost importance to you, the student body

LETTERS to the
EDITOR

For it is this Board which selects publication editora, reviews publication policy, votes on their budgets, and reviews the Smoke Signals issues. I believe then that you should select a person for membership on the Board who has had experience on various campus publications and in journalism.

I am running for the Board of Student Publications because I feel I meet the qualifications for membership. I have worked three semestera on the Flambeau as a member of the news and sports staff, two semesters as sports editor of the 1957 Tally Ho, end am majoring in journalism.

If elected to the Board, I will try to represent you and your ideas ond will be glad to discuss Board decisions or policy with you. I will appreciate your support in this election.

Sincerely yonrs,
BOB WOLFENBARGER

Thanks Senate, Student Body

TO THE EDITOR:

Smoke Signals has won another round in its long atruggle for survival. For this vote of confidence from the Senate and student body is due the entire **Signals** staff's aincere thanks and appreciation.

Thanks are also in order to those of you in the Senate who carried our fight so vigorously; to all those who worked for **Signals** to continue and to over 1200 of you who expressed your faith in us and Signals by your signatures on our petitions.

A man laboring in the shadow of extinction can never do his best work; neither can a group of persons engaged in a creative endeavor such as **Signals**.

Signals has won another round —we hope the fight is over.

We of the staff sincerely hope and believe that the necessity for another threat to **Signals** will never manifest itself again.

Next year's Signats, we believe, will so meet with the combined favor of both the Senate and student body that a vote of confidence will be spontaneous and never again have to be solicited.

RON HAMM

Political Revolution Underway Here?

TO THE EDITOR:

Slowly but surely, there is a political revolution transpiring within the ranks of the Student Body at this University.

Students have long been shackled by the tentacles of a one-party octopus, which has as its nucleus a clique comprised of components of the student body bent on working for the aggrandizement of their own selfish interests. But the long-suffering Student Body is commencing to emerge from its shell of apathy. In an effort to regain its rightful heritage—control of the Student Government.

Into this battle arena has walked the University Party, a "King Arthur" who promises to place Student Government back into the hands of the Student Body. Leaders of the Party assert that they will marshall and galvanize the hitherto apathetic, non-voting element (which is in the majority, of the Student Body into action and thereby provide their candidates with the margin for victory in each election.

Despite the seeming failure of the new party at its first convention, its leaders have since worked laboriously to secure candidates to fill its almost empty and bleak alate.

That the incumbent clique views with fear and apprehension the acitivitles of the University Party is manifested in the small number of delegates that attended the initial convention; there were only about 13. In fact, members of the Octopus Party constituted the largest body of students present at the affeir.

Apparently the clique thinks that the near fiasco of the convention is the signal sign of defeat, but the Octopus is incontrovertibly wrong! For even though the University Party e[illegible] counters setback after setba[illegible] it will continue to assault [illegible] Bastille of the Octopus un[illegible] besieged walls come tumb[illegible] down. Then will the cause [illegible] justice be victorious, and the [illegible]rant vanquished

The writer deeply sympath[illegible] with the little people within [illegible] Student Body who have n[illegible] had a voice in student pol[illegible] and affairs. And with this sta[illegible]ment he formally allies hims[illegible] with the University Party, [illegible] share with it frustration, tri[illegible] and tribulations. Then wheth[illegible] its endeavors are successful [illegible] abortive, the writer can proud[illegible] say: "This is where I atood"

Sincerely yours,
BOB DUKE

English 'Pointers' Coffee Hour Topic

Students and teachera of E[illegible]lish at all levels will be giv[illegible] some pointera "on the fun [illegible] learning the subject" at the E[illegible]lish Coffee Hour this afternoo[illegible]

Dr Otis McBride, director a[illegible] professor of FSU's audio-vi[illegible] center, will give an illustra[illegible] lecture on instructional materi[illegible] available in the field at the ce[illegible]ter. The public is invited to t[illegible] program, set for 4 p. m. in Wes[illegible]minster House.

The director plans to use [illegible] overhead projector and perha[illegible] an opaque projector, and [illegible] various slide-overlaya in prese[illegible]ing the beauty of seotence st[illegible]ture He will probably show a [illegible] entitled, "Fiddle-Dee-Dee", [illegible] the educational amusement of [illegible] audience.

CAP AND GOWN DEADLINE IS NEAR

Only 100 students ha[illegible] ordered caps and gowns [illegible] spring graduation ceremon[illegible] Mr. Harry Wheeler, manag[illegible] of the University Booksto[illegible] announced this week

The deadline for orderi[illegible] caps and gowns is May 1. The[illegible] is also a deadline of April [illegible] for ordering invitations.

Mr. Wheeler urged spr[illegible] graduates to take care of the[illegible] orders immediately.

At Banquets

Greeks Honor Scholarship

By GEORGIANA FRY

It pays to make good grades many sororities found out last week at their scholarship banquets.

"Angels" ate steak or chicken, according to their average, at the Pi Beta Phis annual scholarship banquet which was in the form of a heaven and hell party last week.

The "Devils," whose averages were 2.7 or below, had to eat hamburgers and hot dogs.

Sara Jane Griffin and Marilyn Little won the big and little sister scholarship award with Mary Lea Finley winning the bracelet for the most improved. Ann George was announced as the active having the highest grade average for the last two semesters.

• • •

At the Gamma Phi Betas annual scholarship banquet Tuesday night, the sisters were served meals to fit their academic averages. Those who made 3.0 or above feasted on T-bone steaks, those with 2.5 and above ate fried chicken.

Two-pointers were served hot dogs for dinner, and girls failing to make their grades got a gastronomical treat—beans.

Kathy Sanchez was awarded a trophy for the highest average and Barbara Stoutamire received a bracelet for biggest improvement.

• • •

Along with scholarship banquets, students have been initiated into honoraries based on scholarship and leadership.

Fourteen women, chosen on the basis of high scholarship and a desire for training in future business leadership, were recently pledged to Alpha Rho Chapter of Phi Chi Theta, national women's business fraternity.

The women, all of whom are registered in the School of Business and working for a four year degree, are the following: Sybil Birch, Rachel Arbuthnot, Lynda Baker, Nona Carpenter, Margaret Simmons, Erin Feigin, Janyce Reed, Marilyn Jones, Cree Ann Kearns, Kathy Knops, Sarah Markette, Susan Nuber, Amelia White, and Marlene Willett.

Phi Chi Theta has 88 collegiate and a large number of alumni chapters in the U. S. Alpha Rho Chapter, its youngest and biggest group, was chartered on the FSU campus in May 1957.

• • •

Omicron Nu, home economics honorary, initiated 12 last Tuesday, including Dr. Mildred Morgan, faculty member and Lee Vera Pepin, graduate student.

Students initiated were Sally Lou Carlson, Ruth Fritchie, Jeani Kitchens, Annette Peel, Carolyn Bell, Jania Kelley, June Lasseter, Cynthia Lawrence, Lois Charlesworth, and Mary Ann Coleman.

Membership is based on scholarship and potential leadership qualities.

A dinner honoring the new initiate was held immediately following the initiation.

• • •

The Tallahassee Dining Room was the scene of the Sigma Chis scholarship banquet which was held following the chapter's initiation Saturday night.

Steve Dunlap received the "Best Pledge" award, a plaque, while Rebel Bellamy was awarded the "Dick Meriman" pledge scholarship award.

Bob Temple, FSU alumni, who is presently in Emory seminary, was guest speaker.

Pledges who were initiated are as follows: Larry Brock, Bud Dyer, Jack Ryder, Ken Loehr, Steve Dunlap, Rebel Bellamy, Dave House, J. D. Williamson, Buddy Bannerman, Warren Arthur, Phil Scheffsky, and Frank Butterfield.

Alpha Omicron Pi new initiates are the following women: Susan Nuber, Mary Betts, Carolyn Clar, Lynette Harris, Louise Martin, Gretchen Bartlet, Marjorie Echinger, Marlene Heinz, Nancy Cellon, Skeety Burks, and Jean Williams.

• • •

Nora Nell Hardy was awarded the "Outstanding Pledge" award at a banquet last week honoring the Zeta Tau Alpha initiates at the Tallahassee Dining Room.

Seventeen initiates were honored at the banquet. They were: Cora Hargrove, Rosanne Kalil, Elaine Greiser, Texie Larson, Judy Freudenberg, Alice Lipthrott, Sandra Jackson, Claire Brightwell, Joyce Baxter, Barbara Youmans, Patty Miller, Margie Gegenshatz, Kay Warren, Judy Gernhard, and Susie Blackburn.

Party Column

The Devilaires provided music for the annual Alpha Xi Delta Rose Formal which was held last Friday night at the American Legion Hall.

Saturday the Alpha Xis and their dates had a coast party at the summer cottage of Mr. and Mrs. A. L. Nelson. A bonfire and entertainment followed a steak fry, rounding off the evening's fun.

All Alpha Xis and their dates attended church together Sunday morning followed by a buffet luncheon at the Alpha Xi Delta house.

• • •

The Kappa Sigs crowned Joan Offerle, Delta Zeta, as their 1958 Sweetheart last Friday night during the Black and White Formal, which opened their weekend.

In Miss Offerle's court were Betty Jean Brown and Lynn Colley, Tri Delt.

The Kappa Sigs' house was turned into a circus tent for their dance Saturday night, with clowns, peanut vendors, and tightrope walkers, who, according to one member, "looked very much at home."

A coast party on Sunday wound up the weekend.

• • •

At the Rose Ball during Alpha Omicron Pi weekend, Gayle Gardner was presented as the outstanding AOPi of the year. Also honored were Joan Smith, elected Rose Girl by the pledge class as the senior most deserving of their tribute, and Bob Lansford, Lambda Chi, the AOPi Man of the Year.

• • •

An Easter Party for underprivileged children will climax this weekends party plans.

An Easter party for about 30 underprivileged children will be given by Phi Kappa Tau and Alpha Omicron Pi members Sunday at the Phi Taus house.

FRESHMAN FLUNKIES undertake the enormous job of folding the thousands of notices to the Flying High Family Weekend. Left to right: Glenda Powers, Betts Dehart, Judy Smith, vice president, Nancy Bates, and Jo Lee Blondheim.

Religious News

Church Youth Groups Travel

By ANNETTE McINTOSH

At the 25th annual Southeastern Newman Province Convention, held last weekend at the University of South Carolina, three FSU delegates were elected to province offices.

Bill Westendick took the highest office, that of Province Chairman, succeeding Ella Jo Bilinski, also an FSU student. Georgia Joynes was elected Corresponding Secretary, and Pad Mullin received the unanimous vote for State Chairman.

The convention was highlighted by several outstanding workshops on leadership, cooperation with the club, and the importance and work of the national federation; nominations, campaigning, caucuses, elections; and finally the climaxing installation banquet and dance held on Saturday evening.

LARGEST DELIGATION

FSU had the largest delegation at the Convention, consisting of: Ella Jo Bilinski; Mary Lou Snook, past Province Treasurer; Pad Mullin, Georgia Jaynes, Bob Pittlekaw, John Guernsey, Herb Gould, Margaret Toney, Barbara Toney, Charlotte Beckley, Anne Nicholson, Gloria Bryant, and Bill Westendick.

The Club is now in the process of making plans for Catholic Faith Week, to be held in the near future.

Two weeks ago, the Irish came out strong at the Newman Club's annual St. Pat's Day Party, for which all donned their green bow ties and shamrocks.

IRISH BROGUE

Jack McAneny, with his Irish wit and authentic brogue, acted as emcee for the evening's program and presented the entertainment. This consisted of Georgia Jaynes, singing "A Little Bit of Heaven," Nettie Black, playing a medley of songs on the accordian, and Jerry Karol, singing "Katie" and accompanying himself on the guitar. Tom Parker was an added attraction at the piano. A cake raffle was held following the entertainment, and dancing was enjoyed by all.

Before the party, installation of officers took place at the Catholic Student Center, and the annual awards to outstanding Newmanites were presented by Mary Lou Snook. Bill Westendick received the John Cardinal Newman Honor Key, the highest award to be presented to a member of a local Newman Club. Receiving John Cardinal Newman Keys were Barbara Ulrich, Pad Mullin, Bob Schlitt, and Fran Patee, for their contributions to the club in the past.

• • •

Following the regular cost supper Sunday evening, Gamma Delta, Lutheran Student group, will hold its business meeting and continue study of the topic "The Bible in a Scientific Age." Transportation to Epiphany Lutheran Church will be provided from in front of South Cawthorn at 5:40 p.m.

SEE PASSION PLAY

This student group traveled to Lake Wales the past weekend to take in the local attractions. As guests of the Lake Wales Lutheran Church, they were housed by members of that congregation and visited the Bok Tower, the Great Masterpiece, and the Passion Play performance.

Leaving Saturday morning by car, they arrived in Lake Wales for lunch and did some sightseeing during the afternoon. Saturday night they saw the famous Black Hills Passion Play in the Lake Wales Amphitheater and attended Sunday morning worship services before returning to Tallahassee Sunday afternoon.

• • •

The Baptist Student Union installed its new council Sunday night in the First Baptist Church.

On Saturday the YWA will sponsor a box supper, delivering boxes to the dormitories upon request. This is in conjunction with the Hobo Project, which the BSU sponsors every year to send out Student Summer Missionaires.

• • •

Buck Bryan heads the slate of newly-elected officers for Westminster Fellowship's coming year. Backing him will be Judy Chambliss, vice-president, and Grace Taylor, secretary.

Activities at the Fellowship this week include: Sunday — 9:30 a.m., Sunday school, program by Betty Coutant; 11 a.m., church; 5:45 p.m., supper, followed by program by Phyllis Williamson. Tuesday—9:30 p.m., devotions, given by Judy Chambliss. Thursday—5:45 p.m., Theology Hour.

• • •

Members of the Wesley Foundation's '58-'59 council, long-ago installed but certainly deserving of recognition, are the following: Program Promotion — Cade Ritchie, affiliations; Jesse Branscomb, publicity; Jo Ethel Sewell, public relation; Twyla Kent, church-campus; Nancy Frazier and Tom Gregory, freshmen; and Annette McIntosh, monthly paper.

Program Execution—Spiritual Life—Ada Leigh Wall, Sunday School; Lois Charlesworth, Forum; Marilyn Harris, Vespers; Martha Dredin, Martins, and Billy Schuster and Sally Highnam, visitation.

Intellectual Life—Gerri Hancock, firesides; Nancy Heacock, World Christian Community; Linda Hunt, social action; and Clinton Logan, publications.

Social Life—Patsy Winters, hospitality; Kay Hall, recreation; and Janet Person, food. Service — Leonard Dorsey, house committee and Pat Sipes, deputation.

Engagements

HOLLER-POWELL

Jan Holler, a junior from North Miami, is engaged to Gene Powell, also a junior from North Miami.

Miss Holler and Mr. Powell, both education majors, plan an August wedding.

Pi Omega Pi Initiates 8

Spring initiation of new members highlighted a recent Pi Omega Pi business education fraternity meeting.

Mrs. Luella Kellogg, head of the Department of Business Education at Leon High School was initiated as an honorary member. After the initiation she spoke to the group on the topic "Hints to the Beginning Teacher."

The initiation program was conducted by offices of the organization including: Doris Hustin, president; Ann Mayfield, vice-president; Helen Sparling, corresponding secretary; Betty June Bishop, secretary-treasurer; and Elmer L. Schick, sponsor.

Student initiates were: Helen Blackburn, Gail Geuther, Janiece Andre, Rosanne Kalil, Madlyn Coupland, Sandra Hancock, Joyce Fralic, and Nancy Jo Alexander.

Seminole Society

Panhellenic Forms Sub-Committee

The Inter-sorority Social Committee, a sub-committee of Panhellenic, was formed recently.

Their new constitution states: "The purpose of ISC shall be the promotion of good social relations among the sororities of this campus; in co-operation with Panhellenic, the Inter-fraternity Council, and the University Social director; for the regulation of sorority functions."

Officers of the organization are president, Mary Jane Will; vice-president, Betty Bucklew; secretary, Jackie Miles, and treasurer, Jackie Parker.

"We are now in charge of the exchange dinners and hope to include all sorority social functions in the future," said Mary Jane Will.

Plans are also being made for a complete file of all parties given by the sororities, which will include details for decorations, entertainment, refreshments and estimated costs.

These files will be open for student use in the University Social Director's office. The sorority receiving the Best Hostess Award will have their file kept permanently.

The committee is holding open meetings the first and third Tuesday of each month in the Women's Lounge in Longmire with reports being taken back to Panhellenic on alternating weeks.

The group composed of social chairmen of each sorority will meet on the third Tuesday with the social chairmen of all fraternities.

Social Calendar

Social events of interest for the weekend include:

Friday, 4 p.m. English Coffee Hour: Dr. Otis McBride, "Instructional Materials in the Field of English." Westminster House.

Saturday, 8 a.m. Florida Scholastic Press Association Breakfast, Trophy Room.

10 a.m. - 12 noon, Easter Egg Hunt for children of the students and faculty, sponsored by Graduate Club. President Strozier's lawn.

9 to 12 p.m. Florida Hall Formal.

Sunday, Attend the Church of Your Choice.

4 p.m. Easter Vespers, sponsored by Sigma Alpha Iota and Phi Mu Alpha. Ampitheatre. (Opperman Music Hall in case of rain.)

Lost And Found

A ruby stone ring with Fair Forest High School 1954, and the initials WCT inscribed has been lost in the vicinity of the golf course.

If found please return to Martha Martain at Landis Hall or the Lost and Found Department in Longmire.

RADIO STATION . . . .

(Continued From Page 4)

with every record company which puts out "good m... using Flynn's term. "This is an elastic term which includes symphonies, Broadway show tunes—always music with substance and skill," Flynn explained. The station receives a special educational rate on the records it purchases, which makes record expenditures comparatively very smell.

LOCAL TALENT

In addition to recorded music, local talent is aired as well. All the concerts and recitals from the School of Music ere broadcast. The same musical events are tape-recorded during the original presentation and can be heard again two nights later. This makes it possible for the performers, or those who attended the performance, to hear it again, if they wish.

Now in its eighth year on WFSU-FM is "Repeat Performance," a local production, which is also used by around 50 other stations around the world — Florida, the Virgin Islands, Japan, etc.

Last year the station received a grant of $2,500 to produce the "Prison Document" series in cooperation with the School of Social Welfare. This is now heard on WFSU-FM, WMEN in Tallahasse, and 33 educational stations.

"I'd like to say that there is still plenty of money for grants —up to $7,000—for anyone who is interested in doing graduate work in the field of radio or television," Flynn pointed out. This can be obtained through the station from the Educational Television and Radio Center and the NAEB.

Some dramatic series from the British Broadcasting Company are used, and more will soon be available from the Canadian Broadcasting Company. In addition, British, Canadian, and French news broadcasts are utilized. Local news treats stories in more depth than the usual commercial "news headlines," with research being done into events of importance to better inform the radio audience. The Radio-TV Workshop of the School of Journalism serves as the news, sports and special events department for WFSU-FM.

WFSU-FM is part of the total University Broadcasting Services of which Flynn is director. The total university radio-TV program is divided into two parts: education for radio, and education by radio.

Coordinated by Tommy Wright, Director of Radio-TV Instruction, the first aspect is interdivisional, with the Schools of Speech, Journalism, Audio-V... Mus..., and Business co-operating. This instructional area is designed to prepare students for radio-TV careers.

The second aspect, education by radio-TV, is a university extension to the public. They work closely with radio-TV students, making their facilities available for use as labs.

A more general picture of the University Broadcasting Service and its functions will be given in the next edition of **The Florida Flambeau.**

SENATE . . .

(Continued From Page 1)

and attempted to gain an extensioo of debate The action, made by Kansky, was defeated 13-17.

The following is the vote of the Senators on the roll call. Favoring the abolition resolutioo were Senators McGowao, Jennings, Barber, Edwards, Stickler, Williamson, Edgar, Kansky, and vice presidents Atwater and Murray.

The eighteen senators opposing the resolution were: Lewis, Teschke, Wall, Manning, Clark, Godin, Mickler, Apthorp, Hayes, Highnam, Hendry, Kissenger, Kirby, Mann, Roberts, Williams, Youmans, and Ramsey.

After the vote the great majority of spectators left the auditorium as Senate continued its business for another 45 minutes.

AND THE CAMPAIGNERS DID ADVERTISE ...u Photo Warren Gerard

Campaigns Going Strong

Mecca Asks No More Posters

Active campaigning began officially at 5 p.m Tuesday for the candidates seeking offices in the election coming up April 1.

Campus bulletin boards and the interiors and exteriors of popular campus bangouts were literally covered with posters, pictures, slogans, and lists of candidates' qualifications in every size, shape, and description.

Active campaigning has been going on in the dormitories and fraternity and sorority houses also this week Bulletin boards and doors in some of the dorms are covered with posters and handbills.

The Mecca has asked that in the future students refrain from putting up posters there because of the damage to the walls and the extra work for the employees, who must take them down.

Posters on campus which are outside and not on the special bulletin boards provided for them, will be taken down under university regulations. This could cause the disqualification of a candidate.

Six voting stations have been set up for Tuesday's election: the first floor of Westcott, the rear of Westcott, the lobby of the Seminole Club, Student Center, Landis Green near the library, and in the West Hall lobby (this station will only open until noon.)

Students must have their I.D. cards in order to vote, and a student may vote only once. Any politicing done within 50 feet of the polling station is illegal.

Father and Son Both Make List

One fether with a son at Florida State University has no grounds for criticism of his son's grades.

The son, Walter Cory, is a freshman who made the Dean's List with a 3 1 grade average for the first semester.

The father, Paul Cory, a retired Civil Service worker, received his degree in business during the same semester and was also on the Dean's List.

His average: 3.1.

Men Against

Students Opinions Split On Language Necessity

"Do you think two years of foreign language should be a requirement for graduation at Florida State University?" was asked FSU students in a public-opinion poll.

Among women answers reflected an almost exact 50-50 split attitude toward taking a foreign language as a graduation requirement, while with men a slight majority were against language as e requirement.

A common negative answer was Connie Brown's, who stated, "No, because after taking a language in high school, I don't feel the necessity of studying one further."

Agreeing with her answer, Priscilla Wand added, "There are enough required subjects at FSU without having to take a language again."

Judy Smith answered negatively in saying, "In many fields of study a language is unnecessary, so I don't think it should be required "

ANSWERS YES

Affirmative enswers included Cecilia Martin's, "Yes a foreign language should be required because it lends a cultural background to people and is an asset in perfecting the English language "

"Since universities in Europe require a number of different languages, we should require at least one, making us a more cultured nation and giving us a better understanding of other countries," stated Judy Magnell.

Kay Fouts expressed the attitude, "Any College graduate should certainly be familiar with at least one foreign language."

NOT NECESSARY

Marvin Gerhard's objection to taking a foreign language was, "I feel two years of a foreign language is not necessary in all fields that a person may go into, especially business occupations."

"Most people will never put a foreign language to practical use," was Pete Pylant's argument against a language requirement for graduation.

"Because most people take at least one year of language in high school, I think one year would be enough to require in college," said Charles Austin.

George Demetree answered the question, "From a professional viewpoint, no, I don't think a language should be required, however, personally yes. A language also helps one fully appreciate English.

GOOD FOR ALL

Answering affirmatively was Melvin Peters, who stated, "Two years of a language would be good for anyone, although the present policy of having a language course correspond to one's major is a good idea."

Definitely in favor of language as a graduation requirement was Alfred Bryant who answered, "It would be most advantageous for travel. Also, it would broaden students' outlooks and make them appreciate culture more. Language breaks down carriers and tends to make one more world conscious."

(Continued on Page 4)

WILLIAMS

DEAR STUDENTS:

Today is election day and it becomes your duty to elect those students who shall head your student government next year.

Due to the efforts of the University Party you will have a selection to make. The opportunity to choose is a basic democratic right and it is for that idea that we of the University Party have been working.

In making this selection there are many things to consider. In order to be an effective public servant one must be concerned and interested. He must possess qualities of leadership and have experience in government to the extent that he knows the "ways and means" of accomplishing specific problems.

LITTLE QUESTION

I think there is little question but that I am interested in student government and concerned about its future. The mere fact that I dared to oppose the present regime indicates that.

Even though I have campaigned as hard as possible, I still haven't reached all of the students. Yet, I can safely say that as a result of my efforts, and the efforts of the University Party, there is more interest in student government than before. Students are again willing to take a stand on the candidates and the issues. This is a good indication that our views conform to those of other students.

I feel that my wide experience in government has qualified me for the office of Student Body President. Some of these experiences are. President of Chipley High School Student Body; Assistant to Congressman Bob Sikes for two years; Served three years in the U. S. Army Intelligence service; President of the Golden Arrow Scholastic Honor Society, Chipola Jr. College. Candidate for the State Legislature in 1956, political science major at FSU.

BROAD PERSPECTIVE

This experience in the various phases of government (school, state, and national), gives me a broad perspective of governmental problems and the knowledge of how I may cope with them. It is this experience and my studies in political science that qualify me to serve you as president.

However, I believe that the question that presses us today is not necessarily those of qualifications but those of ideas. Do you want to have a choice in your elections? Do you want a student government for all the students? Are you ready to assume the responsibility of voting and preserving our democratic ideals? If you can answer these questions with a "yes," then vote "University Party."

I find that we are fighting for principles rather than the election of any individual to an office. If you subscribe to the principles of a free democratic society then vote for me and the candidates of the University Party. Let us have a better University through the University Party.

FINALISTS IN THE "10 Best Dressed College Women" contest are Priscilla Moss and Dorothy Goodwin. The winner is to be selected by the judges today and her pictures sent to the nation contest, sponsored by **Glamour magazine.**

Chairmen Urge Participation In Vote Today

Chairmen of two of the campus' three parties, issuing election eve statements last night, urged student participation in today's balloting.

Gene Caruthers, chairman of the month old University Party said that his party was "formed to try to improve student government. We feel that we have been successful in propagating our ideas."

Of his party's candidates, Caruthers said, "They are well qualified and pledged to work for an improvement of student government."

Urging students to "think first, then vote," Bruce Brown, Collegiate Party chairman said that his party "wants to see the best men and women in student government at FSU."

"We only hope that the right decisions are made at the polls today," Brown added.

Ronnie Clark, chairman of the Student Party, running eight candidates, issued no statement to the **Flambeau.**

1958 Homecoming Set For Nov. 1

Homecoming, 1958, has been set for October 31 and November 1, university officials announced yesterday.

The highlight of festivities will be the FSU-Tampa football contest to be played Saturday, Nov. 1.

Dr. Lewis N. Killian has been named chairman of a joint student-faculty committee which is currently working on the overall decoration theme for the week-end.

Another Poll

Students Extoll Merit Of Political Parties

By GLENDA POWERS

"I definitely think they help!" was Mary Charlotte Miller's immediate answer to the question, "Do you think political parties help or hinder student government at Florida State University?"

In furthering her answer, Mary, a freshman majoring in advertising, stated, "Competition usually brings out the best."

In a public-opinion poll concerning FSU political parties, almost 100 per cent of the students interviewed were in favor of at least a two-party system, agreeing that political parties help rather than hinder student government.

ARE HELPFUL

Freshman Bill Robinson, a pre-med student, answered, "I think they are helpful in promoting good government. You should always have a party in any system of government so that you may have a choice of candidates."

"Because parties tend to promote enthusiasm and spirit, they are good for government," stated Adrian Ann Whittle, senior business major. She added, "Political parties are actually a part of dirty politicing, it could probably never be stopped regardless of the disbandment of parties."

Taking a slightly opposite view of the significance of political parties in relation to student government was John Combs, a sophomore majoring in political administration, who stated, "I think parties do very little for politics because the average student takes little interest in a candidate because of his specific party affiliation. However, parties are a 'fine excuse' for getting together and having a good time."

IN FAVOR

Much in favor of political parties was Virginia Delavan, freshman journalism major, who answered the question. "I think they help government because competition keeps both parties on their toes and helps each to try and find the best qualified candidates and also to lay issues of the campaign before students."

"Political parties both help and hinder campus politics," was Nellie Manda's feeling. "They are good because they stir up interest and give people things to do, such as gaining experience by holding party offices and working in the party. Often, though, they 'hot-box' people who are really capable, and discourage them from running. A strong one-party system would definitely be bad for government.

Sometimes a party system does not elect the best qualified persons because students disregard capabilities to vote in blocks for certain candidates supported by specific parties."

Stating a relatively common viewpoint was Mary Lou Campbell, a sophomore music education major, who answered, "If used in the right way, political parties do tend to promote good government, and the FSU parties seem to produce a beneficial effect."

Convocation Slated For Frosh Women

A compulsory convocation will be held for all freshmen women Tuesday, April 6th at 7 p.m. in Westcott Auditorium.

This meeting will deal with Sophomore Council, according to spokesman Betty Jean Price.

Zachara Offers Faculty Recital Tomorrow Night

Franciszek Zachara, a long time faculty member in the FSU School of Music, will present a recital tomorrow night in the Opperman Music Hall at 8:15 p.m.

Polish born Zachara was a child prodigy and presented several concerts at an early age. After extensive study in Poland he attended the St. Petersburg Conservatory in Russia where he was awarded the Gold Medal.

Following his training at the conservatory he concertised throughout Europe and the United States. He taught in New York and Georgia before coming to FSU. While in Georgia he presented the complete works of Chopin in a series of radio recitals.

The recital Wednesday night will open with some of his own recently composed preludes and several popular selections of Chopin. The works of Chopin will include: Gb Impromptu," "Waltz in Eb," and Ab Polonaise, Op. 53."

The conclusion of the program will consist of such selections as: "2 Poems from Op. 32" by Scriabine, "Elegie in Eb Minor" by Rachmaninoff, "Reflections in the Water" by Debussy, "Nocturne" and the "2nd Hungarian Rapsodie" by Liszt.

Phi Beta Kappa Taps Fifteen

Thirteen students-in-course and two graduates were recently elected to membership in the Alpha of Florida Chapter of Phi Beta Kappa, Valda Mock, secretary, announced Friday.

The national honorary scholastic society elected the following students: Rita Ann Bailey, Thomas Peter Bennett, Glenda Louise Briscoe, Patricia Jane Dolores Cale, Edward Myers Dolan, Sallye Delle Ganey, Marie Matilde Hume, and Barbara Jane Johnson.

Also, Joan Jones, Janice M. Kaminis, Mary Katherine McKeown, Joe Neggers, and Robert Sawyer Meigs.

The recent graduates elected on the basis of their undergraduate work were Dianne Carrow Roe and Anise Celeste Webb.

Phi Beta Kappa is the oldest Greek letter fraternity in existence. Founded in the College of William and Mary on December 5, 1776, it has in subsequent years become the outstanding form of recognition for intellectual achievement in undergraduate college life.

Alpha of Florida was established in 1935.

Tourney Tickets Currently On Sale

Tickets for the annual Invitational Baseball Tournament, this year featuring Notre Dame, Wisconsin, West Virginia, and FSU, will be priced at 50 cents per game for students.

The tournament begins Friday, extends over the Easter holidays, and ends April 10.

Faculty, staff, and other fans will pay $1 per game, according to Ronald Melton, assistant athletic business manager. A tournament ticket can be purchased for $5 at the athletic business office, he said.

Regular game tickets can be bought at the gate.

Polls Open 9-5; 13 Offices Open

Thirteen offices in next year's student government will be filled by the voters in today's general election.

Polls will be open from 9 a.m. until 5 p.m., according to acting Secretary of Elections Sandra Rosenberg. Students must have their ID card in order to vote.

Chief interest is focused on the race for student body president. Art Moore, an independent candidate endorsed by the Student and Collegiate parties, and Carthell Williams, University Party nominee, are the contenders.

24 CANDIDATES

Twenty-four candidates are competing for the thirteen offices. Four are unopposed in their races.

Breakdown by parties shows eight candidates on the Student Party ticket, five on the University, and three Collegiate Party candidates. Eight are seeking office as independents.

In three of the races a runoff is possible. There are three candidates for student body vice president, men's vice president and seven for the three seats on the Board of Publications.

In case a runoff is necessary, it will be held Tuesday, April 15.

The results of today's primary election will be posted on the fourth floor of the old Education Building early this evening, Miss Rosenberg said.

Students may vote at any of six polling places on the campus. They are located in Westcott, in front of Bryan Hall, in the Seminole Club, in front of the Library, at the Student Center, and in West Hall.

SOPHS RUN POLLS

The Sophomore Council is authorized to run the polling places, Miss Rosenberg said. Any student who attempts to vote more than once will be subject to Honor Court penalities.

Candidates are:

President of the Student Body: Art Moore (ind.) and Carthell Williams (University).

Vice President: Gerry Gordon (Collegiate), Mattox Hair (Student), and Phil Kemblowski (University).

Men's Vice President: Jim Apthorp (ind.), Ramon Arnold (Student), and Ed Mason (University).

Women's Vice President: Diane Godin (ind.) and Ada Leigh Wall (Student).

Chief Justice of the Honor Court: John Brown (University), and Ben "Buck" Bryan (ind.).

Secretary of Senate: Joyce Combs (Student).

Clerk of the Honor Court: Judy Ramsey (ind.).

Chairman of the Traffic Court: Judy Dekle (Student).

Chairman of the URA: Cappy Archibald (ind.).

Board of Publications (three seats), Ethel Calhoun (Student), Lane Gourlie (ind.), Tom Hale (Collegiate), Peter Heagerty (University), Delores Lafferty (ind.), Bob Meier (Collegiate), and Bob Wolfenbarger (Student).

All seniors were reminded by Miss Rosenberg that they will vote for permanent class officers along with the other offices.

Former Prexy Keys MENC Meeting

Lilla Belle Pitts, former national president of the Music Educators National Conference, will speak at an open FSU MENC meeting tonight which will be held in room 222 of the Music Building at 7 p.m.

Presently a guest professor of music education at FSU, Miss Pitts comes here from Columbia University, where she was a professor emeritus of music education at Teachers College, in New York City.

Having just returned from the National MENC Convention in Los Angeles, California, Miss Pitts will speak on the highlights of the convention.

The musician has written various books on music education and a series of books for the elementary, junior high, and high school music program.

Miss Pitts, known for her outstanding leadership and service within the MENC, has had much to do with publishing educational recordings with RCA Victor for music programs. She has also served as a music consultant, conducting workshop services from coast to coast.

Among Miss Pitts many achievements are the chairmanship of the MENC Golden Anniversary Commission and the chairmanship of the MENC Study Committee on the Purposes and Goals of Music Education.

Eight Debaters Will Attend TKA Meeting

Eight FSU debaters will drive to Lexington, Kentucky, Tuesday to attend the Golden Anniversary conference of Tau Kappa Alpha, national forensics honorary.

Accompanied by Debate Coach Gregg Phiffer and Graduate Assistant Tom King, the members of this group will participate in debates, discussions, public speaking and a student congress.

BIG BANQUET

The group will also attend a fiftieth anniversary banquet Friday night and a performance of the Robert Wagner Choral Thursday night.

Debating affirmatively on the national question "Resolved: that requirements of membership in labor organizations as a condition of employment should be illegal." will be Sophomores Patsy Baird and Rosa Castro.

Junior Jean Bleichner and Freshman Pat Batal will debate the negative side of the question, and Junior Ben Bryan and Sophomore Linda Arnow will debate both sides of the question.

EDUCATION TOPIC

Discussing the question "How can our colleges and universities best meet the increasing demands for higher education?" will be Freshman Art Danart and Junior Dave Hortin.

Enrolled in the public speaking section, in which Arnold Greenfield placed first two years ago, will be Patsy Baird, on the topic of insanity, and David Hortin, on Sputniks.

This is the biggest delegation FSU has ever sent to the national debate tournament, according to Phiffer, who states the 700-mile trip will be made by two cars.

Founded in 1906, Tau Kappa Alpha will be drawing over 60 schools to this golden anniversary tournament. FSU has been a member of this honorary since 1951.

New Computer To Be Installed

Students and faculty this week will have an opportunity to learn about some of the capabilities of the big IBM 650 electronic computor which is to be installed and in operation by June 1.

A seminar has been set up for Thursday and Friday, according to Robert B DesJardins, manager of the FSU Computing Center. Faculty and students will be able to learn some of the arithmetic and logical abilities of the 650 and its application to university problems, operating speeds and other information.

The sessions are scheduled in the Geology Building auditorium and 9 a. m. to 4 p. m. Friday, from 1 to 5 p. m. Thursday and Representatives of International Business Machines will explain operations of the machine, which will be installed in the new School of Business building.

DesJardins, who obtained his Master of Science degree in meteorology at FSU in 1954 has been at the University of Arizona the past 3½ years as a meteorologist. He worked with a similar computer while there.

Dr. Werner A. Baum, director of university research, said the Computing Center is being set up to provide computational assistance and machine facilities to faculty members whose research requires such aid and to serve as a demonstration laboratory in connection with data-processing and computing courses.

Dr. H. C. Griffith, associate professor of mathematics, will serve as computing mathematician at the center on a half-time basis.

CORRECTION

A story that appeared in Friday's Flambeau saying that the proprietors of the Mecca, a local restaurant, wished no more election posters placed in that establishment was in error.

The managers of the restaurant wish to announce that no such pronouncement was either made or inferred.

AINSWORTH NEW HEAD OF CHEERLEADERS

Five new cheerleaders for '58-'59 were chosen from a field of aspirants Friday afternoon.

Martha Douglas, Maralyn Teare, Charlene Bevis, Ronnie Davis and Don Russell were selected for the posts by an eight member student-faculty committee. Dick Ainsworth will serve as head cheerleader, it was announced prior to the trials.

EXECUTION AND PEP

Three new members were chosen on the basis of execution of cheers, general appearance, enthusiasm and pep.

According to Jim Julian, outgoing cheerleader, an almost full "house" watched proceedings in the amphitheatre.

The yell squad will consist of six upper classmen and two freshmen, one male and one female, to be picked next fall. Members are chosen for a one-year period.

AT ORIENTATION

The group's initial performance together will be at the first night of freshman orientation next September.

The selections committee members were Dr. Donald Loucks, dean of men; R. G. Brewer, assistant dean of men; George E Fortin, university comptroller; Miss Joan Guthridge, foreign student advisor.

Tommy Waits, past head cheerleader; Nancy Fowler and Charles Johnson, present cheerleaders; Julian and Ainsworth.

Blood Bank Needs You!

It was a bright, sunny day as Jimmy Jones rolled his shiny convertible onto the highway. Jimmy, senior student at FSU, was in a hurry—he was late leaving school for the holidays.

THE HIGHWAY was crowded and our classmate too anxious. A loud crash signified the end of Jimmy's shiny convertible and almost the end of Jimmy.

Carried to the nearest hospital far away from both his home and school, our unfortunate student needed a blood transfusion. The fact that he had no money to pay the high expense of the transfusion was no problem.

BECAUSE OF the FSU Blood Bank it was only necessary for Jimmy to have someone call university officials in order for him to benefit from the blood donations students contributed throughout the year.

Of course this story never happened, but it could easily occur. This small story illustrates the purpose of the blood bank.

NO MATTER where a student is sick or in an accident requiring blood, he can obtain it by only paying the cost of administering it. But in order for the bank to function it is necessary for donors to replace the blood which has been used.

There have been two "Donors Days" at the infirmary and the response is disheartening. Of twelve persons who offered blood, only five were acceptable. Only a total of eight pints of blood have been given to the bank, mostly from regular contributors.

NEXT MONTH another Donors Day will be held. Students under 21 will need their parents' permission to participate.

We urge all eligible students to plan now to give blood. Our FSU Jimmys cannot benefit from a bloodless blood bank. But if we fill our bank to capacity, we will be ensured as our fictional Jimmy was in his emergency.

Keep Senior Privilege

Senior women are not aware of it, but Women's Senate is recommending a bill to the Dean of Women's Office which is contrary to their interests. In fact, if more students knew about it, we wager the reactions would be quite uncomplimentary.

THE BILL TO which we are referring recommends in its second section that all students, including seniors, be required to register all activities off campus starting or extending later than 7:30 p.m.

Senior women are now exempt from this regulation.

THE PROPOSAL is based on the notion that the reason for the sign out rule is to enable officials to know the whereabouts of each woman student in case she must be reached in an emergency. Advocates of the bill say to be consistent, it is just as important for the whereabouts of seniors to be known as it is for underclassmen.

And what of the men students? Wouldn't it be just as necessary to know where to reach a male student in case of an emergency as it is to know where women students are? Yet luckily there are no rules and regulations of that sort pertaining to men students.

THE SECTION of the bill in question is reactionary and should not be passed. If there have been no cases where the rule as it now stands has failed to work, why should the Senators pass a resolution to change it? Once it is changed, the bill will be difficult to amend again.

Instead of requiring seniors to sign out, the Senate should try to get the signing out rule abolished. This follows that if it isn't necessary to keep tab on seniors' activities, it isn't necessary to know where underclassmen are at a certain time.

IF WOMEN'S Senate cannot pass progressive legislation relating to women's regulations, they shouldn't pass any at all.

It takes too many years to gain privileges for the Senate to nonchalantly relinquish them.

Vote Today

Today is student body election day. It is a day in which you are given a chance—even urged and pleaded with—to participate in our student government.

THERE IS a large amount of apathy on this campus concerning student government and the issues and candidates in today's election. This is unfortunate.

Yet we are heartened by the number of candidates offering themselves for positions today. It is the largest ever. The existence of three parties, all showing a healthy interest in student government, is encouraging too.

BUT IT takes more than parties and candidates to make a good student government. It takes you! The intelligent and concerned voter is the backbone of any responsive government.

Student government, though we disagree with them at times, has aims and functions which are useful and necessary to the students of this university.

FIRST OF all student government handles a large budget of your money—over $80,000 a year. Surely, as this is your money, you should be interested enough to take part in the determination of its expenditures and the selection of stewards.

Student government is your only organized voice in such matters as the food service, infirmary practices, traffic regulations, and publication management. Student government is the only path through which these much discussed matters can reach the plane of action or redress by the proper officials.

So, whether you are satisfied with the present student government or not, we urge you to be a good student and vote.

Everyone Likes 'Yankees'—In Play

For those of us who favor a better balance in the American League, the recent road performance of "Damn Yankees" provided, for approximately 150 minutes, a relief from reading that the Yankees continued in their winning ways.

Judging from the reaction from the near capacity crowd, the Student Artist Series is certainly to be commended for bringing one of the finest Broadway musicals to Tallahassee.

An exceptional road show cast gave the audience an evening to be remembered for a long time to come. It was well worth the two dollars.

Calling The Card

Boosters Boost—Players Suffer

By JIM McINTYRE

An explanation is perhaps in order for some of the remarks made in this column in Friday's Flambeau.

FIRST, the article was not intended to slander anyone on the basis of ability, inability, or anything else.

Also, it was not meant as a criticism of college athletics per se, but only of big-time college football and the attendant evils it brings.

LET US look for a moment at one of the more apparent disadvantages of the big-time mania. That is the disadvantage at which the football playing student is placed in the classroom by the overemphasis of football.

The coaching staff has a job to protect. The members of the staff are family men who wish to keep on supporting their families. Their right to do this no-one will deny.

BUT THE pressures from various professors, deans, department heads, alumni groups and Seminole Boosters make it impossible for them to produce a de-emphasized football program.

Therefore, they have to produce a team capable of competing with other professional college teams that are under the same kind of pressures from the same kind of professors, deans, department heads, alumni groups and boosters organizations.

IT'S A never-ending continuum that sees one school follow when another school leads. The only trouble is that many schools have led in the wrong direction. And FSU is rapidly following in that direction, much to the chagrin of those who are concerned with the university's academic future.

Once the wheel starts turning in any university it is awfully hard to stop. It starts with those who have no direct interest in football other than as spectators and businessmen.

IT CONTINUES right on down the line to the player, catching the coach in the middle.

And, as we have indicated, no-one can blame the coaches for wanting to keep their jobs. But the pressure on the football player himself is the end result of the process. And here is where the process really becomes harmful.

ALTHOUGH there are some football players who do not wish to be good students, it is safe to say that a large number do wish to excel academically and participate to a larger extent in normal campus life.

But they are denied this by the rigid restrictions placed on their time and conduct by the system that says "Win in the big time or else." The long practice sessions, the movie sessions, the skull session, and the between-seasons workouts cut so heavily into the players' time that little is left for concentrated study or participation in other activities.

THE FOOTBALL-PLAYING student, however alert he may be, is placed at a definite disadvantage in the classroom through this invasion of his time. He may, as many have done, exceed the efforts of many of his classmates, but, at the same time, he is not able to develop his academic life nearly to the extent of the student whose time is more his own.

It is the football players' burden, of course, and one they accept as a condition of their scholarships.

But it is a tragedy when the lust for success among certain power groupings starts a wheel of commercialization in motion that robs football-playing students of a normal college life.

Campaign Letters

Vote University Party

DEAR STUDENTS:

Today is Election day. Today we must decide who is to run our student government for the next school year. This is no small task and deserves everyone's consideration and participation.

In recent years our student government has been run by the same party year after year. This year we have a chance to get a new party with new ideas for a better student government. In order to do this we must get out and cast our ballot for the people who will best represent the students of FSU, and who will work the hardest for a better Student government.

The party in power has had more than an ample opportunity, but has failed to produce. Let's give someone else a chance. Let's go out and support, with our vote, the UNIVERSITY PARTY. A vote for the UNIVERSITY PARTY is a vote for better student government.

Sincerely,
CLYDE WELLS

Apthorp For Men's Veep

TO THE EDITOR:

We would like to endorse the candidacy of Jim Apthorp for Men's Vice President. Jim has the qualifications, interest and ability which are so necessary in the important office he seeks.

Jan Kaminis, Polly Atwater, Priscilla Moss, Lee Corso, Bob Johnson, Cynthia Lawrence, Laird Anderson, Dot Mann, Gary Kissinger, Pat Manning, Don Reedy, Sally Highnam, Don Lewis, Joyce Nuckolls, Vernon Edgar, Ronnie Bue.

Senator Runs For Veep

DEAR FRIENDS:

It has been a pleasure to have served as a class Senator this past year. I hope that accomplishments have been made that will benefit each of you.

This year I have decided to run for Vice President of the Student Body and I am now seeking your vote and support again.

There are many problems that face our University now and in the future. Your Senate may be the deciding factor on these problems and therefore, we must have capable leadership.

After serving as a past class President and a Senator, I feel that I can understand and recognize these problems which might confront us.

I believe that our university has the potentiality of becoming one of the best in the nation, and I would like to have a part in undertaking this challenge.

A Friend,
MATTOX HAIR

LITTLE MAN ON CAMPUS — **By Dick Bibler**

—AN' WHY NOT A 'BIG HEAD'? I CRAMMED ALL NITE FOR THIS TEST!

Art Symposium Slated In April

The Sarasota Annual Art Symposium is scheduled to be held April 21 through 28 this year, Monday through Saturday.

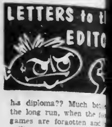
Everyone is invited to travel to Sarasota for this event, which has been held since 1908.

Departmental approval must be obtained for the trip, for which transportation and accommodations will be arranged.

Private cars are charging $8 per round trip and buses will be asking half of regular rates. Lodgings will be arranged for a maximum of $2 a night.

Other details will be published after the Easter holidays.

Raise Scholastic Level On Campus



TO THE EDITOR:

"How about our scholastic level here at FSU."

Naturally, a State University has many problems in admitting those students with the best records and rejecting the mediocre and poorer student high school records. However, in the interest of brevity, the forthcoming will omit a more subjective analysis having to do with state politically imposed requirements for admission, and the importance of social life while attending college.

SOME, or most, graduated high school students would rather attend a college that has national athletic recognition than one whose academic standing is the University has already done portion of their time for study. Why is this? There are of course any number of answers e.g., home training, teachers, and lazy students. A lot has to do with getting the diploma at a diploma factory and then one can call himself a college graduate.

Aside from the many things the University has allready done to raise the academic level—raising the enrollment standards, raising the class average, hiring exceptionally good professors and teachers—what else can and should be done to lift the scholastic level to more attractive standards and consequently bring to FSU students who want to study and not watch a football game.

WOULDN'T it really be much better for the student if he were to come to a college that really made him study, rather than to one that considers a "C" average, attaining this and getting his diploma?? Much be[...] the long run, when the [...] games are forgotten and [...] calling upon what he has [...] to better his place in [...] and achieve his philosop[...] success.

To those who have the[...] sight clouded by juvenile [...] sions and the desire to [...] good time first, and stu[...] ond, is one of the contri[...] reasons for the scholastic [...] age we now have.

BUT WITH faculty me[...] coming from such adm[...] schools as the Univers[...] Chicago, Northwestern, [...] bia and others, there is [...] constructive innovations [...] the scholastic level up. [...] comparatively young co[...] tional University. This [...] ult only in attracting the [...] high school students and [...] transfers) to FSU for sch[...] reasons, rather to watch a [...] ball game to satisfy the [...] expenditures spent for su[...] vities to gain national re[...] tion for FSU.

I hope twenty years [...] when I graduate this [...] can look to FSU as a sch[...] monument to be proud [...] than hear them say "FSU [...] good athletic department [...] sadly walk away.

Thank you
EUGENE STRIEG[...]

Strong Govt. Needed

TO THE EDITOR:

We are writing this in reply to Barry Silverstein's letter-to-the-editor that appeared recently in the **Flambeau**. You attended a political party convention expecting to hear something to inspire you because you think that student government at FSU has no real power. The convention you attended was of a newly formed party and you expected to hear new and radically different ideas. All you heard was the same old washed out, hashed up political "boopla" that has been thrown in and out of senate meetings for the last couple of years resulting in little or no action.

Mr Silverstein, you have our sympathies. You have discovered how student government appears to one who is truly interested in finding out what makes the wheels go 'round. The purpose of student government as defined in Article I, Section 4 of the Student Body Constitution has not been exercised to the fullest by any means.

Student government officers have been, and still are, trying to make FSU a more progressive and modern university, but to little avail. Why? . . . Because you and possibly a thousand other s[...] are all that are really inte[...] in our investment in stude[...] ernment. For actually we [...] vestors. This past semester [...] student body, invested $8[...] student government. How [...] of us realized this? We dar[...] not many.

You want to see student [...] ernment functioning as a p[...] institution. So do we and [...] our friends. We want [...] flourishing student gov[...] acting as a medium betwe[...] the student body, and the a[...] istrators of this universit[...] this goal is reached, [...] only then, can a health[...] ship exist between the [...] body and the administrat[...] **the only way for a democratic [...] ernment to be strong is to [...] the people solidly behind it.**

Mr. Silverstein, we are [...] you something to fight fo[...] cause a stronger studen[...] ment will mean a greater F[...] State University.

Your truly,
BRUCE BROWN, College
Party Chairman
HERB SCHMUCK, College
Party Whip

Change Tax Laws

TO THE EDITOR:

With income tax time upon us, we find ourselves in the agonizing position of having to figure deductions, compute our tax, and then raise the money to pay it. In the process of figuring our deductions, we have come across one large, non-deductible item, common to all students on campus. That is educational expenses or tuition. Such an expense is currently non-deductible since it represents an attempt at self improvement for the individual.

If it were possible for the average student to deduct only the expense of tuition and supplies, the resulting saving in income tax could amount to as much as $50 per year. In view of the rising costs of living and the comparatively low wages paid to working students, such a deduction would be of immeasurable aid. Fifty dollars represents at least one half of a months salary for most students and such an amount could conceivably be critical to a students remaining in, or leaving school.

With the current hue and cry for scientists, teachers, and other highly trained personnel, it does not seem unreasonable that tuition and similar expenses should be deduciable as a means of encouraging college attendance.

Rather than government [...] dization of education, such [...] duction would go a long [...] toward counterbalancing the [...] dent's growing living and e[...] tional expenses.

We heartily recommend [...] faculty, students and pa[...] students write to their con[...] men, proposing legislation de[...] ed to make educational ex[...] tax deductible. College stu[...] though few in number, yield [...] mendous power in the form[...] tion of public opinion. A [...] certed effort on our part [...] be the force necessary to [...] about such legislation.

We would appreciate [...] discussion, comment, and [...] gestions with regard to this [...] posal.

Sincerely,
ALDEN S. GILMORE

Journalism Class Sets Easter Show

"Easter 1958" presented by the Journalism 445 class, will be telecast at 2 p.m. today over WCTV—Channel 6.

The question for discussion is "Where are we and where are we going at this Easter Time of 1958?"

Members of the Florida State University faculty will be interviewed for the answers in their respective fields of science, philosophy, religion, economics, education, and the Armed Forces.

Producer for the show, **Patti Wisener**, is backed up by Director Rod Vaughn, Narrator Frank Kaney, Interviewers Lucy Hoskins, Ginger Connor, Pat Warner and Julian Bennett.

Faculty members are President Robert M. Strozier, Dr. Harvey Hall, Dr. Grace Cairns, D. Robet Miller, Dr. Paul J. Piccard, Dr. Victor Mamatey, and Col. Charles H. Calhoun.

Diamond Tourney Opens Friday

rry Block

The Irish Are Crying

anytime the University of Notre Dame starts waving that old ...g towel" you know you've got to watch out. And according ... recent sports publicity releases, the Fighting Irish are in ... bad year of baseball.

...minole fans were very proud of last year's team which went ... college world series and finished eighth in the nation. ... Dame, however, ended up the nation's number four team, ...also placed one man on the all-American first team.

All of this year's tournament teams competed in Florida ...s first diamond tourney in 1956, and Notre Dame coach ... Kline vowed that he would not return to Tallahassee unless ...team could make a better showing.

Well, they're back again this year.

Coach Danny Litwhiler rates the Irish as a slight pre-tourney ...e as "all the teams entered this year had personnel losses ... were about equal. For this reason, Notre Dame should still ... the edge."

The baseball tournament can be compared to the proverbial ... snowball, gathering momentum and stature as each year ...

...tendance has increased, and the number of professional ...attending has also substantially risen. Litwhiler expects the ... amount of scouts ever when the first pitch is thrown Friday ...noon.

...at's one of the prime reasons other colleges desire to be ... and their players want to perform before the scouts. The ...ament has everything to offer and nothing to lose.

The Seminoles have never lost; having won in 1956 and tied ... Michigan State and Duke last year. But the Seminoles' ...ces of winning this time are not as good.

... team that loses such outstanding personnel as Carlee ... Lee Corso, Jerry Boxer and Phil Hunt without having the ...ements to step into their shoes must be in a weakened ...

...cept for Dick Howser, the infield is new (Dale Koch played ...ly last year) and inexperienced, and only time and practice ... it that solid quality.

The team's victory over Knoxville of the Class A South ...e League could have provided the spark to carry them ... the tournament with that extra touch of team spirit.

...lege baseball is still rising in intercollegiate sports, and is ... to reach its peak. When that will be is anybody's guess.

In so far as Florida State is concerned, Coach Litwhiler, in ...w years as head man has made the Seminoles the top ...all team in the South.

... the team does slip a little, we're sure it won't be for long.

On Campus with Max Shulman

(By the Author of "Rally Round the Flag, Boys!" and, "Barefoot Boy with Cheek.")

A FRAT TO REMEMBER

Every year, as we all know, the Benevolent and Protective Order of Collegiate Fraternities awards a highly coveted prize to the fraternity house which, in its judgment, has done the most to promote and enhance the fraternity way of life. The prize this year—eight hundred pounds of putty—goes to the Alpha Hernia chapter of the South Dakota College of Dentistry and Renaissance Art.

The award this year is exceptionally richly deserved, for the Alpha Hernia house is the very model of all a fraternity should be. It is, first of all, a most attractive house physically. The outside walls are tastefully covered with sequins. Running along the upper story is a widow's walk, with a widow stationed every three feet. Moored to the chimneypot is the Graf Zeppelin.

...widow's walk with a widow stationed every three feet...

Indoors the house gives an impression of simple, casual charm. The chapter room is furnished in homey maple and chintz, with a dash of verve provided by a carp pool three hundred feet in diameter. A waterspout rises from the center of the pool with the housemother bouncing on the top.

Members' rooms are gracious and airy and are provided with beds which fold into the wall and are never seen again. Each room also has a desk, a comfortable chair, a good reading lamp, and a catapult for skeet-shooting. Kidney-shaped desks are available for kidney-shaped members.

Perhaps the most fetching feature of the house are the packs of Marlboros stacked in heaps wherever one goes. If one wishes to enjoy a fine filtered cigarette in any room of the house, all one need do is reach out one's hand in any direction and pick up a Marlboro. Then one rubs two pledges together, lights one's Marlboro, and puffs with sweet content the tastiest smoke the mind of man has yet devised.

The decor, the grace, the Marlboros, all combine to make Alpha Hernia a real gasser of a fraternity. But a fraternity is more than *things*, it is also *people*. And it is in the people department that Alpha Hernia really shines.

Alpha Hernia has among its members the biggest BMOCs on the entire campus of the South Dakota College of Dentistry and Renaissance Art. There is, for instance, William Makepeace Sigafoos, charcoal and bun chairman of the annual Stamp ... outing. Then there is Dun Rovin, winner of last year's All-South Dakota State Monopoly Championship, 135 Pound Class. Then there is Rock Schwartz, who can sleep standing up. Then there is Tremblant Placebo, who can crack pecans in his armpits. Then there is Ralph Tungsten, who went bald at eight.

But why go on? One can see what a splendid bunch of chaps there is in Alpha Hernia, and when one sees them at the house in the cool of the evening, all busy with their tasks—some picking locks, some playing Jacks-or-Better, some clipping Playboy—one's heart fills up and one's eyes grow misty, and one cannot but give three cheers and a tiger for Alpha Hernia, fraternity of the year!

© 1958 Max Shulman

* * *

And, if you don't mind, a rousing huzzah for Marlboro, cigarette of the year, whose makers take pleasure in picking up the tab for this column.

Mountaineers, Badgers Start

By BEN BALSER

Three classy, hard-hitting baseball teams, Notre Dame, West Virginia and Wisconsin, make their way south to clash with each other and Florida State in the third annual Florida State Invitational baseball tourney which begins here Friday.

West Virginia meets Wisconsin in the tourney opener at the Seminole Diamond on Friday afternoon, and host Florida State takes on Wisconson that night at Centennial Field in an exhibition game.

The Mountaineers of West Virginia posted a 12-8 record last season and will probably have the most experienced team in the tourney. They have seven returning regulars.

BEAT FSU

In the first invitational tourney in 1956, West Virginia competed and beat FSU, 13-12, although the Seminoles won the tourney.

Notre Dame, which is rated the slight favorite in the tourney, brings a team composed of six lettermen and some tough experienced sophs. Coach Jake Klein, has built his team around four solid performers from last season.

Symeon

Irish captain Bob Senecal and Bob Duffy who play left and centerfield respectively, were year and are being counted on heavily this season.

Senecal led the team in RBI's last season and batted over .300. Duffy, led the team in home runs, triples and hits and blasted the ball at a .333 clip.

The other two men who are returning starters are Chuck Syemon, a pitcher and Jim Morris, an infielder. The Irish won 16 and lost ten last season and advanced to the NCAA College World Series. They finished fourth in the country.

Symeon won five and lost one last season and posted an earned run average of 1.30. Morris, who will probably play first or third, led the team with a 386 mark last season.

Wisconson, who played in the first tournament, has only four lettermen to bolster its squad this season. Co-captains George Schmid, a pitcher, and Ron Nieman, a outfielder, lead the Badgers returnees.

First baseman Walt Holt and third basemen Ron Knoll are the other two lettermen.

Schmid compiled a 5-2 record last season along with a 2.47 ERA. Holt has hit over .300 the last two seasons, and is the mainstay of the outfield.

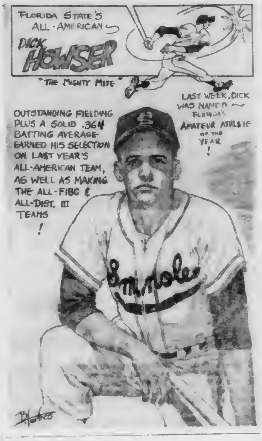
Stults Takes Four Tankers To NAAU

Bim Stults, Florida State swimming coach, will take four of his tankers to New Haven, Conn. to compete in the NAAU Championships Thursday through Saturday.

The four men representing FSU will be Ken Abbott, Bucky Hiles, Bob Weber and Curtis Genders. Abbott is a senior freestyler who holds the school record in the 100 and 50 yd. freestyle.

Hiles is an outstanding freshman freestler who showed up well in the Florida AAU meet. Weber is a soph diver who just recently returned from the NCAA Championships in Ann Arbor.

He finished 17th in a field of 28 in the low diving event and 16th out of 26 entries in the high board.



FLORIDA STATE'S

Seminoles

Sweep Florida Relays

Tracksters, Roanoke In Dual Meet Here

Fresh from its victory in the Florida Relays, Florida State's track team will go after its fourth straight win when it meets Roanoke College here tomorrow afternoon.

Not much is known about the Roanoke team. "They're bringing a team of 26 with them," said Seminole Coach Mike Long. "From the reports we have, we can expect to be provided with some good competition."

All of the events of NCAA order will be run in the meet, scheduled to begin at 3. The Roanoke team is from Salem, Virginia.

The Seminoles rocketed to the top of the list of Southern track powers last Saturday in Gainesville when they copped six firsts to easily outdistance a field of 18 colleges in the Florida Relays.

FSU piled up 39 unofficial points. Far back came Kentucky with $18\frac{3}{4}$, then Duke fifth 14 1/6 and LSU with $13\frac{3}{4}$.

The Tribe entered four relays, and won them all. Two of the relay teams had the overflow crowd buzzing over their record-breaking performances.

The sprint medley team of Jim Casteel, Gary Butner, Jack Terwilliger, and Mike Conley won in 3 minutes 24.6 seconds to top the old record of 3:29.5.

Terwilliger, Doyle Ruff, Conley and Casteel combined to run the mile relay in 3 minutes 14.4 seconds, bettering the old record by $2\frac{1}{2}$ seconds.

Other relay victories came in the 2 mile and quarter-mile relays. Charlie Nye, Ben George, Ruff and Conley ran the 2 mile in 7:50.9. Terwilliger, Butner, Dick Elwood and Casteel had a clocking of 42.7 in the quartermile.

Two Seminoles won firsts in field events. These men were Henderson who threw the javelin 207 feet and Casteel who leaped 22 feet 10 inches in the broad-jump.

In their last dual outing Thursday the Tribe easily defeated Furman 101 1/3 to 34 2/3. FSU copped first in every event except the 220 and shot put.

Elwood broke the school record in the pole vault, yet finished in a tie for fifth. Elwood cleared 13 feet 4 inches before going out on the 13' 8" mark.

Golfers Enter Miami Match

Florida State's golfers, along with nine other college teams, will participate in the first annual University of Miami-City of Coral Gables golf tourney which will be held in Miami, Thursday through Saturday.

For the second time this season, the linksters beat the Jacksonville Navy team by the score of $20\frac{1}{2}$-$6\frac{1}{2}$ Friday in Jacksonville.

Mel Fleischer and Rem Noble shot two-over-par 74's to tie for medal honors for the Tribe. Joe Van Vactor of the Navy squad shot an identical score to rank low man for his team.

SHAVE SHOOTS 67

Although veteran FSU golfer Bob Shave shot a sharp 67 Thursday, the Seminoles went down to defeat at the hands of Spring Hill, 15-12.

The Tribe won two out of three matches, but could not overcome Spring Hill's twosome of Bud Daily and Bill Prive.

The summary of Jax Navy match:

Fleischer and Dave Morris, FSU, defeated Larry Gorrell and Van Vactor, Navy, 5-4

Dink Wise and Rem Noble, FSU, defeated Buck Cater and Bob Peters, Navy, 9-0

Don Torppa and Dick Parker, FSU, defeated Barney Barnett and Bob Parsons, Navy, $8\frac{1}{2}$-$2\frac{1}{2}$

Netmen Oppose Indiana Tomorrow

Florida State's tennis team hosts Indiana tomorrow as they begin a four match home series in four straight days.

Thursday the netters battle interstate rival Florida, face Mississippi State Friday, and conclude the week' festivities against Louisiana State on Saturday.

Yesterday the netters opposed Howard College of Birmingham here seeking their fourth victory of the season as against one lost.

Tribe Stresses Defensive Play

By FRANK RAMOS

"We're going to have to depend upon our defensive abilities to get us through," stated Danny Litwhiler, Florida State baseball coach, while discussing the Seminoles' chances in the FSU Invitational Baseball tournament.

For the first time since the tournament's inauguration three years ago, the Tribe will enter its own tourney labeled as underdogs. Notre Dame's Fighting Irish have been tabbed as pre-tourney favorites.

After watching the FSU nine upset Knoxville's South Atlantic Smokies, 3-2 last Saturday, Litwhiler expressed belief that his pitching staff would be in good shape for the up and coming games.

Litwhiler has set up a tentative pitching rotation with Frank Slusser slated to pitch against Wisconsin in an exhibition contest Friday night at Centennial Field.

BRISTOL SATURDAY

Tournament action begins officially for FSU and Notre Dame Saturday afternoon at 12:30 at Seminole Field. Jack Bristol with an 0-1 record has drawn the starting assignment in the opener with Tommy Garcia expected to hurl the night game against West Virginia.

Litwhiler expressed a need for more timely hitting by the Tribe. "We've been getting our share of hits, but they haven't been coming at the right time and we're leaving runners on base."

Charlie Rodgers, who Litwhiler claims has been hitting the ball real hard in practice will open at first base.

The second base duties are slated to be handled by Ray Bazzell, while Dale Koch will be at third.

All-America shortstop Dick Howser will bat in the number three position. Howser is leading the team in hitting again and was applauded for his fine glove work against Knoxville.

SCRAMBLE IN LEFT

Neil Martin, Gerry Philp, and Buddy Cash will alternate in the left field post with Martin expected to see a lot of action now that his leg has recovered.

SN Captures Volleyball Title

Sigma Nu fraternity was crowned the Volleyball Champions in the Greek division of intramural sports.

Six Greek teams were pitted in a single elimination tournament, SN, SAE, PDT, TC, KA and PKT.

At the end of the tournament, SN, PDT and SAE had identical match scores, 4-1. In order to declare a winner, their season records were compared.

SN and SAE were still tied, so a board of coaches was selected and they declared Sigma Nu the champions.

In the Dorm-Independent division, the Veterans and Newman met last night for the championship match.

Four teams were selected to play in the tournament for this division: Newman, Veterans, Majors Club and Senior Hall.

Newman was undefeated going into last night's game, having beat the Veterans once. The Vets eliminated the Majors, after they had beaten Senior Hall.

17th Camp Slated

Expanded Summer Program Offered By Music School

A variety of concerts, music features and demonstrations will ring out at Florida State University during most of June and all of July when the School of Music offers "a greatly expanded summer program."

Dean Karl Kuersteiner of the school anticipates at least 1,000 teen-age music students on campus to attend the seventeenth annual Summer Music Camp, to be organized for a first time in six sessions. The general five-week music camp is set for June 15-July 18, and will be followed by two sessions of Twirling Camp, July 20-25 and July 27-Aug. 1, Ensemble Music Camp, July 20-Aug 1 and two sessions of Marching Band Camp, July 20-25 and July 27-Aug 1.

LEADERSHIP MEET

Leadership Conference in Music Education, June 9-14, is planned especially for all kinds of music teachers and church music directors. The dean said the conference is an alteration of the Southeastern Music Workshop, held in past summers at FSU

It will be sponsored by FSU, the State Department of Education, Florida Music Educators Association and Florida State Music Teachers Association. President Robert M. Strozier of FSU as well as teachers and leaders from the sponsoring organizations will make up the staff.

The leadership conference is slated for the interlude between the University's spring semester and the beginning of summer school. Those attending will have the opportunity of living in campus dormitories at low rates and taking private music lessons from highly recognized teachers in special fields.

ON CAMPUS

All campers will be housed on campus or at homes of friends or relatives in Tallahassee. Dean Kuersteiner expects about ,350 for the five-week session because that was its enrollment last year, all of teen-age. They came from all parts of the country, accepted on recommendations from teachers and principals in their schools.

Since the University summer school will be in session during the whole camp period, he said it may be necessary to limit some of the enrollments to the earliest qualified applications, mainly because of housing limitations.

An invitation to "bring the entire Band" is going out to a number of high school directors for the two marching band camps, and that could swamp the campus with young instrumentalists. Band, ensemble and twirling camps will accept students as young as 10 years old, but will not take high school graduates.

Ninth Grade Test Given By FSU

The University Test Service reported this week that 40,883 white and Negro ninth graders, about 70 per cent of the total number in Florida, have taken a new test being given to determine their ability and achievement as they start out in high school.

The tests are designed to aid teachers in counseling students early in their high school careers. A team representing FSU, the General Extension Division and the State Department of Education has just completed a series of eight conferences to help superintendents, guidance directors, principals and ninth grade teachers interpret and apply the results.

The new testing program, according to Dr. Kenneth McLaughlin of the University Test Service, was given to children in 303 of the 419 schools in the state with ninth grades. Pupils in the program came from 61 of the 67 counties.

School personnel totaling 391 participated in the eight conferences, held at Mayo, Palatka, Orlando, Lakeland, Ft. Myers, West Palm Beach, Tallahassee and DeFuniak Springs. The tests also were explained at a parent-teacher meeting in Orlando attended by 120.

Members of the team attending the conferences were Dr. Robert L. Fairing, Dr. Victor B Johnson, Dr. McLaughlin, Dr. Howard W. Stoker and Dr. Russell P. Kropp.

At FSU Journalism Meet

High Life, Lakeland Paper Win Awards

Tallahassee's **Leon High Life** and Lakeland's **Bagpipe** ran nip and tuck in top awards for 1957-58 news coverage in the Florida Scholastic Press Association tournament-by-mail.

Winners were announced this morning by Dean Laurence R. Campbell of the Florida State University School of Journalism, executive secretary of FSPA, at the annual conference of the organization, winding up a two day session Saturday at FSU.

The Tallahassee high school won in the general division in which FSPA makes no stipulations, and in this classification Lakeland's **Bagpipe** and Fort Lauderdale's **Navigator** placed second.

Lakeland's high school won in the special division, under FSPA rules, and Tallahassee's Leon **High Life** and Fort Pierce's **Green and White** (Dan McCarty High School) tied for second place

Both divisions are for coverage for the same six fields: news, sports, editorials, features, advertising and photography, and both divisions were judged by the same FSU journalism staff.

Last year Lakeland's **Bagpipe** was the winner in the general division and tied with Miami Beach's **Beachcomber** for first place in the special division. Tallahassee's **High Life** was a newcomer to first place in FSPA's mail-in tournament this year.

Two junior high schools in Pensacola, Crubb and Warrington, won first and second awards in both division for juniors. About 20 high school papers participated in the tournament.

High school journalists attending the conference competed in an On-the-Spot Tourney during their two days in Tallahassee as delegates from their school papers. They were given assignments in special interest sessions which will be judged by their leaders, and winners announced later in the conference by Dean Campbell.

Student Center Announces Hours

Hours for the Student Center during the Easter holidays were announced this week by Mr. W. H. Weldon, Student Center manager.

The Student Center itself will be open every day, including Sunday, from 7:30 till 10 a.m. for breakfast, 11 a.m. to 1:30 p.m. for lunch, and 5 to 7 for dinner.

The Seminole Club will close Thursday after lunch, reopening Tuesday morning The Soda Shop will be closed from Thursday afternoon until Monday morning.

The West Hall Snack Bar will close Thursday at 2 p.m. and reopen Tuesday at 7 a.m.

The Student Center fountain and grill will be open every day from 7:30 a.m. until 7 p.m.

Water Safety Course Slated

The Red Cross water safety instructor's course begins Wednesday, April 9, 8 p.m in room 304, Women's Gymnasium.

The course is open to those holding senior lifesaving certificates and water safety instructors who wish to renew their certificates.

Prof Softballers Set 2nd Practice

The "University Professors" will hold their second practice of the season at 4:30 this afternoon at Ben Bridges Field.

The "Professors," a slow-pitch softball team composed of FSU faculty and staff members, is being reactivated this season after a two-year lay-off

The team, under the sponsorship of the City Recreation Department, played from 1947 to 1955, until it was discontinued.

The group's first practice did not net a full team, but spokesmen say they are hoping for a better turnout this afternoon. The league opens April 14, leaving two weeks for practice.

Those wishing to obtain further information on the team should contact Dr. Harry F. Brubaker at 74631.

Edison Band Slates Concert Here Saturday

Miami Edison High School Orchestra, directed by Robert Lawrence and made up of 40 instrumentalists, will give a concert Thursday at Florida State University.

The concert is slated for 9:30 a. m. in Opperman Music Hall, and arrangements are being made for students at Leon High, Cobb Junior High and elementary schools to attend.

County school buses will provide transportation at Leon and Cobb. Younger children should have written permission to attend the concert from their parents who are asked to follow through on transportation arrangements.

The visiting orchestra will give an afternoon concert that day at the University School Auditorium. Students in Florida High will be hosts for the Miami students for the two nights they will spend in Tallahassee.

The Tallahassee concerts will climax a tour of North Florida for the orchestra which is called "an outstanding high school orchestra" by Robert Sedore, director of the University Symphony. He said that Lawrence is a past president of the Florida Orchestra Association.

... Bryan was elected Chief Justice of Honor Court by the largest majority any opposed candidate received. Bryan (ind.) got 1783 votes to 701 for John Brown (University).

Ethel Calhoun won one seat on the Board of Publications with 1373 votes. Two other seats will be run off between Bob Wolfenbarger (Student) 990, Pete Heagerty (University) 862, Tom Hale (Collegiate) 843, and Delores Lafferty (ind.) 831.

Lane Gourlie (ind.) 752 and Bob Meter (Collegiate) 645 were eliminated from the race.

Five candidates were elected without opposition. Joyce Combs (Student) was elected Secretary of Senate. Judy Deale (Student) was elected chairman of Traffic Court.

COURT CLERK

Judy Ramsey (ind.) became Clerk of Honor Court without opposition. Nancy Worrall (ind.) was elected Chairman of Judiciary and Cappy Archibald (ind.) won the presidency of URA.

Miss Rosenberg announced that today is the deadline for the expense statements of the winning candidates. If an expense statement is not turned in, the winner will be disqualified, she added.

All parties participating in the election also must turn in an expense statement.

Miss Rosenberg announced that declarations of candidacy for the class elections would be available Tuesday. Deadline for filing will be April 22. Class elections will be May 6.

All class offices, class senators, judicial, honor courts and traffic court posts will be filled then.

COFFEE HOUR FEATURES OXFORD SPEAKER TODAY

Oxford lecturer Dr. Marjorie Reeves will speak at the English Coffee Hour at the Westminster House this afternoon at 4 on the topic "English and American Ideas of Education: A Contrast."

Vice Principal and Fellow of St. Anne's College of Oxford, Dr. Reeves also lectures on a subject in which she has done extensive research, Medieval history.

FIRST-CLASS GRAD

A graduate of Oxford with first-class honors in the school of modern history, Dr. Reeves took her doctorate from the University of London, where she did special studies on the influence in the later Middle Ages often Abbot Joachim of Fiore. She has written several articles on Joachimism in scholarly reviews.

Dr. Reeves is co-author of a book on education, "Growing Up in a Modern Society," and author of the Hazen Foundation publication, "Three Questions in Higher Education."

In the "Then and There" series of history books for children which she edited, she has written the volumes on "The Medieval Village," "The Medieval Town," "The Court of Queen Elizabeth I," and, to appear soon, "The Medieval Monastery."

To the "Christian Scholar," Dr. Reeves has contributed articles on "The Christian College in the Western Educational World," "The Christian in Education," and "The Vocation of the Christian Teacher."

She is a member of the Central Advisory Council of the Ministry of Education, of the British Council of Churches Education Department, and of the World Council of Churches.

It was a delegate to a conference of the World Council of Churches that she met Miss Miriam Wilson, Director of the Westminster House at FSU. She has been visiting Miss Wilson since the end of March and they have been touring Florida.

Dr. Reeves was particularly pleased with the Florida sun and with the bathing beaches of Miami Beach. She stated that the hotels seemed as if they were cardboard backdrops and would just fall forward they were so unreal. Bok Tower was their favorite place, according to Miss Wilson.

Tomorrow Dr. Reeves will leave for Stetson and after lecturing there will return to England via New York.

Popular Music Keys Concert

A band concert of popular music will be offered to the public Tuesday night in Opperman Music Hall.

The 80-piece Concert Band directed by Robert Braunagel will present the program, slated for 8:15 p. m.

As guest conductor, Ramon Meyer, will have a new role since he is usually a percussionist in concerts. The graduate student in music from Erlanger, Ky., is an alumnus of the Cincinnati Conservatory.

Meyer will conduct the middle section of the program, consisting of selections from "My Fair Lady" transcribed for band by Robert Russell Bennett, March "On the Hudson" by Edwin Franko Goldman and an Original Suite (three movements) by Gordon Jacob.

Braunagel will conduct the opening numbers, March: "Under the Double Eagle" by J. F. Wagner, arranged by Paul Lavalle; Overture for the comic opera "Das Pensionat" by Franz von Suppe, arranged by Mathew Lake and Meditation from "Thais" by Massenet, arranged by A.A. Harding.

The band director will also conduct the final selections—March "The New Colonial" by R. B. Hall, waltzes from "Der Rosenkavalier" by Richard Strauss, arranged by Lucien Gailliet, "Music for a Carnival" by Clare Grundman, "Relax Ruba" by Paul Yoder and "Caribbean Fantasy" by John S. Morrissey.

NOVEL BATON. Robert Braunagel, director of the Concert Band, seems uncertain about what to expect as Ramon Meyer, a graduate student ,practices conducting with a bass drum stick. Meyer will be guest conductor for the band concert Tuesday.

Moore Thanks Students, Vote Record Set

"I am very thankful for the trust that has been placed in me by the students," Art Moore, victorious presidential candidate told the **Flambeau** yesterday.

Moore, a junior public administration major, added, "While the campaign was hard work, I fully realize that the real work lies in the serving of the students as their president."

Moore, who defeated Carthell Williams of the University Party by 767 votes, is the second in his family to run for the student body's highest office. In 1956 his brother, Jim Moore, was narrowly defeated by Dave Bachman for the post.

SUSGA PREXY

Moore served his freshman year in the Senate and is currently attorney-general in the cabinet. He is also president of SUSGA, an association of student governments in the South. Moore is a Sigma Chi from De-Funiak Springs.

Carthell Williams, his opponent, noting the increase in turnout from 38 per cent to 41 per cent said, "This is an indication that student government is now on the upturn and can, with hard work, become a responsible organization."

"Our vote indicated an interest sufficient to merit our continued efforts. We shall go on from here in the hope of building a better student government," Williams added, speaking for the University Party.

Williams, a senior political science major from Chipley, told the Flambeau that he wished to thank all who had voted for him and the University Party.

A new record of 2702 voters turned out election day. This is 135 above last year's total 2567, the old record.

HIGHEST MARGIN

Moore's margin of victory, 767, is the highest in three years, topping Greenfield's 595 last year and Bachman's 185 in 1956. Coyle Moore (no relation to Art) won with 974 in 1955.

Moore also received the highest percentage margin since 1955. His 65 per cent topped Greenfield's 62 per cent and Bachman's 53 per cent.

Student Party, generally successful in past elections, did not lose an election, though three of their seven candidates are in runoffs.

Four of the University Party's five candidates lost. The other, Pete Heagarty, is in the Board of Publications runoff.

One Collegiate Party candidate lost and two are participating in the runoffs.

Two independents lost, four won, and two are in runoffs.

Flambeau Photo Jo Ann Overstreet
NEW PRESIDENT Art Moore receives congratulations from Carthell Williams (right) after the results of last week's elections were in.

At Reservation

First IAWS Meeting Currently Going Here

Registration continues in Longmire this afternoon from 1 to 3 p.m. for the first Florida Intercollegiate Association of Women Students meet, sponsored this weekend by Florida State University's Women's Senate.

Invitations to attend the two-day meet have been issued to more than a dozen Florida and South Georgia institutions. The slate of activities, including speakers, discussion groups and informal entertainment will be held at the Reservation today and tomorrow.

NOT JUST SOLONS

Senator Ada Leigh Wall, chairman of the meet, emphasizes that participation is not limited to senators. "We urge all women interested in student government to participate, especially those who hope to seek campus governmental offices."

Senator Wall added that attendance at all sessions is not necessary, but registration should be completed. Cost of registration and three meals is $3.50. FSU women are asked to bring their own linens and wear sports clothes.

Buses, leaving Longmire at 3 p. m. today, will provide transportation to the Reservation.

The purpose of the meet, as stated by the senators, is to promote active participation in student government by women, both on their campuses and in intercollegiate groups. This is expressed by the overall theme, "Feet on the Ground, Eyes to the Future, the Women of Today Face Tomorrow."

ANNUAL HOPE

Senator Wall said, "We hope this meet will become an annual affair, though not necessarily sponsored by FSU."

Convention-goers will begin activities with a tour of the campus at 2:30 today, ending at the Reservation at 3.

After dinner, the opening session will feature a talk by Dean Katherine Warren, "Women's Place in the World in a Career."

Discussion will follow in groups led by Joyce Weatherup, Priscilla Moss, Barbara Eissey, Barbara Burkhardt, and Sandra Rosenberg.

At 8:45 there will be a short presentation of outlines of each school's governmental set-up. The evening concludes with recreation led by Linda Broderick and Mary Louise Edwards.

Tomorrow morning Miss Daisy Parker of the Political Science Department will speak on "Women's Place in the World as Citizens."

Miss Joan Guthridge, foreign student advisor, will explore the topic "Women's Place in Student Government" at 1:00. Discussion will follow both these sessions.

The final session at 3 p.m. is for evaluation and drawing together the ideas brought out during the weekend.

'Chest' Week Set May 7-14

Campus Chest Week will be held May 7-14, according to Beth Bowem, Campus Chest chairman.

All organizations and individuals are urged by Miss Bowen to be prepared and financially ready to make a contribution when directly approached during the drive.

"Cooperation from each individual will lend to the success of the drive. Recognition will be made to the individual or group making the largest donation," Miss Bowen said.

Detailed plans will be made next week by the Committee.

Last year, Camous Chest collected a total of $4850.84. Contributions were made to the following organizations:

The Japan International Christian University Foundation, Inc., $100.00; The American Leprosy Foundation — $100.00.

The American Cancer Society, Inc. — $277.24; The National Polio Foundation — $277.24; The American Heart Association — $277.24.

The Coordinating Council for Cerebral Palsy, Inc. — $277.24; The Leon County Tuberculosis and Health Association — $277.24;

The World University Service—$1883.96; and The Leon County Red eFather Drive — $27.24.

The Chest left $1103.44 on the campus to be used in the following manner:

Scholarship Fund — $300.00; Emergency Fund — $653.44 and Campus Chest Promotion—$150.00.

A&M Students On Probation; Spagna Absent

Leonard Speed and Johnny Herndon, two former Florida A&M students who were convicted with a former FSU student last year of violating Tallahassee's bus seating ordinance, were released from jail yesterday with suspended sentences.

SPAGNA NOT FOUND

The former FSU student, Joe Spagna, was sentenced with the two Negro students last year, but has not begun to serve his 60-day term. Tallahassee police have not been able to locate Spagna, who graduated in February.

City Judge John A. Rudd, who suspended the sentences of Herndon and Speed, told the Tallahassee City Commission that Spagna is expected to be apprehended shortly. His sentence still stands.

Herndon and Speed both surrendered themselves willingly during the latter part of March. Their case has been appealed in the Federal District Court but will probably be dismissed with Rudd's suspension of their sentence.

ARRESTED IN '57

Spagna, Speed and Herndon were arrested originally in January of 1957 for refusing to obey the Tallahassee bus seating ordinance which provided for seat assignment by the driver.

Their case ended in an original conviction in City Court and was subsequently appealed unsuccessfully in Leon County Circuit Court, the Florida Supreme Court and the Supreme Court of the United States.

Campus friends of Spagna indicated to the **Flambeau** that they have no knowledge of where he might be at present.

University Party Offers Full Slate

A full slate of candidates for the class elections to be held later in the semester, is planned for by the University Party. Candidates for the various class offices have not been selected as the Party convention has not been held. A date will be set soon.

Students who have ideas for planks in the party platform are urged to attend the convention and voice their proposals. Gene Caruthers, University Party chairman, asks that any student wishing to run for a class office to contact him at the Pi Kappa Phi house.

"We are working toward more interesting and better ways of campaigning on the campus in an attempt to diminish student indifference toward the elections," Caruthers said. "A new burst of life is need in the campaigns."

"I am not pleased with the results of the last election," Caruthers says, "but we are pleased with the number of students that voted for the University Party."

Car Wheel, Watch Among Thefts—Jones

By CHARLET POITEVINT
Flambeau Editor

The second wave of burglaries this year swept the campus this week.

Thefts reported to Assistant Business Manager Gerald Jones total several hundred dollars in cash and other expensive articles.

Unofficially the **Flambeau** learned five wallets were missing from the Music Building, one of which belonged to a professor.

CAR WHEEL

Thefts reported to the business office include a wallet containing $63, money from a purse in the Women's gym, a car wheel, contents from a pay phone in Conradi Building, and an instrument from the Music Building.

While the Notre Dame baseball team played FSU Tuesday night thieves broke into 10 lockers taking $99 in cash and a watch valued at $130.

The thieves jacked up a car in front of the Chi Omega house in order to steal the wheel.

The purse taken from the women's gym was found in a hedge with the money missing, although the other contents,, including an expensive watch, were left behind.

Jones said the university is doing everything possible in order to catch the offenders, but "little progress" is being made.

ALSO IN FEBRUARY

Early in February it was estimated that over $1,000 in cash and numerous articles and office equipment had been stolen from offices, dorms and classroom buildings on campus during the period of a few months.

Jones said at that time it was not known if FSU people were responsible for the thefts, but yesterday he said, "we have reason to believe the thieves are people on campus."

Although plants were made of marked money, the police have not been successful in finding the outlet for the stolen money.

Few of the items were recovered. Among the stolen goods were over 50 wallets, hub caps, car batteries, a watch, a typewriter, an adding machine, piano stools and a trans-Atlantic radio.

Recovered was a hi-fi set taken from the Student Lounge of Longmire. This case was handled by the Honor Court.

Boosters Ease Irish Losses

Thanks to the active interest of several Tallahassee citizens, the Notre Dame baseball team returned to South Bend yesterday with their financial resources intact.

The Notre Dame team, which lost to FSU Tuesday night on a ninth inning passed ball, returned to the Men's Gym after the game to find their wallets rifled and a watch belonging to losing pitcher Chuck Symeon missing from the lockers.

The total on the missing cash was $99. Symeon's watch was valued at $130.

When Seminole Booster President Weldon (Babe) Starry heard of the team's double misfortune, he contacted several other Tallahassee residents in an attempt to make restitution to the Notra Dame men.

Starry and several other local citizens made a collection for the team and managed to replace all the stolen money and local jeweler Lester Moon sold the group a duplicate of Symeon's watch at the cost price.

Both the money and the watch were given to the ballplayers yesterday morning by the group.

Collegiote Party Slates Convention

The Collegiate Party will hold its convention Thursday at 7 p.m. in 124 Science, Bruce Brown, party chairman, announced yesterday.

The convention will nominate candidates for the offices at stake in the spring class elections.

Brown urged all fraternities, sororities, and living units to select their delegates soon.

Mississippi State Editor Denied Freedom Of Speech

A college newspaper editor at Mississippi State wrote a front page editorial last month saying students should have the right to hear both sides of the segregation issue. This week he was fired by the student council.

THE EDITOR'S name is L. E. Miller and what he said in his editorial was simply a fact we hardly think any American can deny: that in a democratic nation we are supposed to be fair and we are supposed to have freedom of speech.

But he was not allowed freedom of speech or freedom of press.

WHAT HE SAID concerned a small college called Millsaps which had taken on a project similar to FSU's Intelligent Faith Week. Various religious groups sponsored a series of controversial discussion programs including one dealing with the "Christian In Race Relations."

The speakers invited to attend represented the Catholic, Unitarian, Presbyterian, and Christian Church. A sociology professor from a Negro college, a Methodist minister, and a lawyer from Jackson were asked to discuss race relations.

AFTER THE first talk on "The Negro Response to White Contentions," by the sociology professor, the second talk was cancelled because of "protest from the local Citizen's Council." The students never got to hear the rest of the race relations discussion or participate in an open discussion of the talks with the speakers planned afterward.

Miller commended the president of Millsaps for wanting to present the "full picture." He said, "we commend you for supporting the God given right of Freedom of Choice, the Freedom of Speech, and the right of the 'Other Side' to be heard."

AND THEN the courageous editor blasted the Citizen's Council. He said, "just because a person or a college listens to a man speak, does that mean that that person or college endorses what the speaker says; do you have the right to be a censoring agency for Mississippi and the great colleges in Mississippi; and do you have the right to tell Millsaps that they shouldn't listen to whatever they please?"

The Jackson Citizens Council apparently was influential.

Editor Miller asserted there was no freedom of speech in Jackson, Mississippi. We are led to believe there is no freedom of speech in any part of Mississippi, and that the citizens of that state disregard the rights guaranteed them in the constitution.

IT IS A sad day indeed when fear prohibits men from stating the opinion that there should be freedom of speech and that people should listen to both sides of a question, even when it concerns integration.

The **Flambeau** cannot be thankful enough that the situation on the FSU campus — although Florida law-makers have approximately the same attitude toward integration as those in Mississippi —holds high the ideas of freedom of speech and of the press.

AS WE WRITE this condemnation of the totalitarian tactics of the Student Government at Mississippi State, we are assured that such action will not result against us for saying it.

For a Southern university, FSU is a tolerant university, capable of being quite liberal minded, while at the same time carrying remnants of the "Southern" tradition.

THERE IS ROOM for all shades of opinion on this campus and the right to say them is not suppressed by a Citizen's Council, college president, or board of control.

This is the only way education can take place. The teaching of one side of an issue is not education, but propaganda which allows no independent thought.

Good Deeds Triumph Over Bad

Students who heard of the theft of $100 in cash and an expensive watch from lockers of players on the Notre Dame baseball team will be delighted to learn of the good will project taken on by residents of Tallahassee.

BABE STARRY, long time FSU friend and sports booster, organized a collection to replace the money stolen from the team members while they were playing FSU in the Florida State Invitational Tournament at Centennial Field this week.

After the hat was passed there was enough money to replace both the cash and watch.

WE EXTEND our thanks to the contributors who did a great deal to keep the good will and confidence of our visitors.

It is unfortunate that persons will stoop to such low deeds and blacken the reputation of our university. We hope these thieves get their just deserts.

Letters Policy Reviewed

The **Flambeau** thanks all students who take the time and interest to contribute to our letters-to-the-editor column. The number of letters we receive each issue has become so great, we are faced with the problem of getting them into a limited amount of space.

THEREFORE, we must insist that all letters be limited to 250 words or less. If the letters received are longer than the maximum amount we reserve the right to edit them to the size desired.

The second letters-to-the-editor policy we must stress is that all letters **must be signed.** We do not print unsigned letters. However, if the writer wishes his name withheld for a pertinent reason, we will do so. It is simply a protection for the newspaper to know the source of material printed.

OTHER policies remain the same; letters are judged for print on the basis of good taste and adherence to libel laws.

Chris Bryan Scores With Recital

By DIXON REDDITT

Christine Bryan, mezzo-soprano, set a rather high level of attainment in her recent senior recital. It is obvious to those who hear Miss Bryan sing, that she has the voice and the musicianship (this proves that these two factors are not mutually exclusive) to reach any goal she wishes in the field of vocal music.

The program was singular in that Miss Bryan gave a rather restrained performance as regards the emotional content of the music; rather, she allowed the music to speak for itself. This was especially noticeable in her Mahler song cycle (Songs of a Wayfarer). There is a great deal of emotion written into the music and it became even more poignant under Miss Bryan's artfully simple interpretation.

Dorsey Stuart, oboist, assisted the soloist in her selections from J. S. Bach's B minor Mass. Stuart impressed us with his sound musicianship and musical implication of more subtleties to come. There was a balance and depth of meaning in this number with Stuart that bespoke of quite a scholarly approach to the music, especially on the part of Miss Bryan. This feeling was strengthened by the rest of program.

Miss Bryan allowed herself more freedom in her group of contemporary songs. It is common place for contemporary composers to use the intervals which are "unhackneyed" that is, all the intervals that are easy to sing have been "over-used." So only the difficult ones are left. Fortunately Miss Bryan has a wonderful sense of pitch, and seemingly she had no problems. The songs of Roger McDuffie, a campus composer, were particularly striking. They are powerful, almost lusty songs, and Miss Bryan sang them powerfully and almost lustily. We are looking forward to tomorrow night's Campus Composers Concert when Miss Bryan will sing more songs of Roger McDuffie.

Player Defends Football Team

LETTERS to the EDITOR

TO THE EDITOR:

Constructive criticism is perhaps in order for some of the statements made in the article "Boosters Boast—Players Suffer."

THE AUTHOR OF that article criticizes the football players and the sport I think unjustly. First of all the players are accused of being denied a "normal campus life" because of the "rigid restriction placed on their time and conduct by the system."

It seems obvious that any extra curricular activities take time from the studies, but certainly it does not deny a person of a normal campus life. This is part of the college life, and without sports we would most likely reduce our campus life to the European system of education.

HAS FOOTBALL been over emphasized at FSU? Let us take note of only a few of the other varsity sports on our campus. I think we will find that Basketball, Baseball, and Swimming, also take their players on roadtrips the same as football, but which of these keeps the student player from the classroom the most? Football? I think not. What sport has a longer season than basketball, or more games and more road trips

It is truly a farce to try to compare a football ten game schedule with some of the above varsity sports on the basis of the disadvantage in the classroom through the invasion of their time. All major varsity sports have movie sessions, skull sessions, and long practices

ALTHOUGH football does require time and personal sacrifice, it also provides for study halls and a constant check on the players' grades. Coach Nugent has put into effect a rule that makes it mandatory for players to attend class or lose their scholarships. No other sport does this, or if so, only to a very slight degree.

Therefore, how has the player been denied? The only logical answer is that he has not. Many students here on campus have jobs, the **Flambeau** staff, for one, is constantly being kept from their studies to keep the next edition going, but has anyone cried stop I think not. And why? Because this is college, and activities are part of it.

LET US LOOK at the advantages of football as well as other sports. For most of the students on scholarship, this is the only means of securing an education. One must admit that everyone who is capable of attending college does not always have the means to do so. Therefore athletic ability provide for some a way by which education becomes possible.

Over emphasis of sports comes into play when scholastic standards are twisted and ignored by university officials, for the betterment of the sport. Thank God we have held firm against this evil.

CARMEN BATTAGLIA

Americans Should Support Castro

TO THE EDITOR:

Freedom-loving Americans everywhere should rally forthwith to the support of rebel leader Fidel Castro in his glorious revolt for liberty against the ruthless regime of Fulgencio Batista, self-styled dictator of Cuba.

IN A SERIES of moves since Castro started his fight for Cuban freedom, dictator Batista has gradually appropriated more and more power, until there aren't any rights left for the people of Cuba. Batista has cruelly and bloodily prostrated the poor, innocent masses of his country into submission in his counter battle against Castro and his insurrectionary forces.

During this crisis, the U. S. government has resolved to pursue a non-intervention policy. Although this sounds very noble from an international standpoint, still the writer is given to wonder just how long the policy will prevail.

For the fact is, Cuba is just beyond the doorstep of Florida, so shouldn't this country take an active interest in something crucial that takes place there? And after all, Batista has made it a totalitarian state—which is in direct opposition to democracy.

THEREFORE, the U. S government and the American people should marshal their energies to the task of succoring the heroic insurgents of Cuba in their fight for democracy. In this way the persecuted and oppressed in that embattled country will ultimately ascend into the sunlight of a better world filled with love, justice and freedom.

Standing between two worlds —the world of democracy and the world of totalitarianism— the American people must decide if they will continue to allow a nearby dictator to romp belligerantly and belicosely around, suppressing and trampling the rights of human beings in a state, which is the people; or if they will mobilize into combatants and carry the banner of freedom to an enslaved people, and free them from their painful shackles. This war for freedom must be prosecuted with all due speed, or, otherwise, the brave struggle may soon be lost forever.

SINCERELY YOURS,
BOB DUKE

Big Problems Should Concern Senate

TO THE EDITOR:

I must agree whole-heartedly with your editorial "Keep Senior Privileges" in the April 1 issue. I have heard some pretty foolish nonsense being proposed by the Senate, but the idea of having senior women register their activities after 7.30 p.m. is the classic. I wonder how the advocates of this idea will like the idea when they become seniors if it becomes effective.

OBVIOUSLY they are not seniors now. The idea upon which the Senators based their proposal—that the registering of activities was required in order that the Administration officials know where the stuednt is in case of an emergency — is hardly the real reason is the Senators would face the real reason they would ee how ludicrous their proposal appears.

Even if Student Government had the 100 per cent active support of every student on campus, it would not have one bit more influence with the Administration in changing disliked regulations than it does now unless it consistently brought forth proposals which concerned actual problems, the solution of which benefited a large group of students without going too far out-of bounds in the reasonable operation of a school.

INSTEAD OF concerning themselves with naming some street "Wampum Alley", or keeping a bus that carries 2½ passengers, or wondering why the students do not vote, or if we can save a dime at the movies, or if the Honor System is for real, or if we should play Christmas carols or rock-n-roll over the public address system, or ways to kill Smoke Signals, why do they not concern themselves with solving problems like how to get a drinkable cup of coffee on campus, a dollar's worth of edible chow for a dollar, or how can this campus have a humor magazine like every other campus has? Why must Student Government always take either the negative approach to a problem, or quit half-way through with a promise for an improvement in the future?

THE SENATORS better be careful. If they continue to concern themselves continually with small problems, and petty proposals the Administration is going to think they do not have anything better to do, and double up on their homework It is no small wonder that Student Government has little power or influence with the Administration. Who would listen to such proposals? Who has the time to waste to listen? Who has the time to waste dreaming up such proposals, except the Senators, and not all of them if last semesters attendance record is any indicator.

CORDIALLY YOURS,
JOHN G. DEAL

Stamp Out This Serious Music Evil

By LAWRENCE PERKINS

GREETINGS!

I spent my Easter holiday with the Augusta, Georgia of my family, and insidious forces were brought to bear

I first noticed it Saturday afternoon, when I tra strains of **Lucia di Lammermoor.** I examined the set carefully to make sure, and there was no little man with a record player hidden inside the chassis.

THE REASON why all of this was such a shock was that here in the dormitory I can't get anything but the local stations, and I have all the push-buttons on my car radio set to fringe area transmitters.

The demoralizing process was carried further Sunday when I flipped on the TV, and there was Cosi Fan Tutti! Without carrying this painful process of detailed description any further, I will go straight to the admission that it was with a real feeling of regret that I switched off Brahms' Second Symphony (Station WAKN, "Intermezzo" program) to hop into my car and head for Tallahassee.

I SAY DEMORALIZING, because I have realized why things are as they are on the waves here in Dear Old Tallahassee. Taking these weak moments of mine as a jumping off place, let us examine and explain the situation.

At first glance, it might seem that the size of the city has something to do with it Not so According to the 1957 **Rand McNally Commercial Atlas,** Aiken, S C. (with its single station WAKN) has a population of 11,000, Tallahassee (3 stations) has a population of 40,000, and Augusta (5 stations) has a population of 85,000. For the two larger cities, that works out to about 13,000 and 17,000 listeners listeners per station respectively. Tallahassee is intermediate both in population and in listeners per station. Obviously, then, figures are going to get us nowhere.

HERE IS THE whole secret of the thing: **enough culture is enough!** The main centers of activity in the Augusta-Aiken area are an H-bomb plant and an Army base. Obviously no painful surplus of culture there.

The bombs will explo rifles will shoot, just whether or not that s symphony ever gets It is entirely safe to b operas, symphony musicals, light music you will. No overload. N fuses. No danger.

Consider the entirely ent situation in Ta Here, as a glance in a window in town will p center of activity is versity. Thousands of and all those hours of ties, all that toil by th faculty, all those boo horrible if we had to lea to appreciate good mu **listen to it too!** To wh rors such a surfeit mig

I DO NOT know w sung genius first came conclusion, but how is! Sensing tragedy a to forestall it, our broa have decreed that we s rock and roll, hillb western, roll and rock western and hillbilly, and roll. Tune in an any time, and you wi (I have heard a rum one station, once a wee casts a half hour of s music. I hope that we this ugly story befor any harm) Quick to c the skillful builders tories have given th able Farraday sh to screen out that d stuff from out of to

The only flaw in is that certain bold a gerous spirits have procured their own rec ers and play **serious m** them, right in the do where we cannot help them. Think how muc ful planning, what a thought out program ing endangered by thoughtless souls wh neither of themselves To the barricades, me out this evil! Culture What is a university f how?

Disarmament Topic Of Student Talk

By EMMETT JARRETT

European universities have a tradition of student pa tion in the cultural, social and political affairs of the which they live In these centers of learning, students cerned, not so much with "adjustment" to the society them as with adjusting the society to their needs and desires.

THEY ARE MORE interested, we are told, in world affairs than in fraternity initiations and sorority sweethearts. In America lately, however, students have been silent about most of the current issues in public affairs. A look at the situation in Great Britain will indicate the sharp contrast.

Students of Oxford, Cambridge and other universities are up in arms about nuclear weapons, and are joining a large popular movement to "ban the bomb." British art and letters, far from taking a generally isolationist stand, as seems to be the position of artists in America, are in the throes of the controversy. We are pleased with this, for, as never before in our lifetime, are is becoming relevant to contemporary life.

A BRIEF SUMMARY of the situation which has caused this furor is in order. Last week, the Soviet Union announced that it had ceased its nuclear tests as of March 31, in the interest of world peace. President Eisenhower replied that this was merely another "propaganda move" on the part of the Russians. Soviet Premier Nikita Kruschev, speaking in Budapest, stated that the United States should try such "propaganda."

We can easily see from this that it is a combination of his own shrewdness and the stupidity of his opponents which has made him the powerful figure in world affairs that he is.

NOW, ON THE home-front, already beset by an economic recession (to use the preferred euphemism), the American government is being sued courts by Bertrand Russe nent British mathemat philosopher, Norman noted figure in Ameri ialism and Nobel priz physicist Linus C Paulin aim is to bring about mediate cessation of the facture, testing and sto nuclear weapons."

Late, as usual, but nevertheless, a move catching on in this cou the banning of nuclear w And a small group on c sensitive to the situati its importance, is attemp follow the lead of their c part on the other side Atlantic.

A MEETING WILL b Monday at 4:30 p m History for the discussio problem of American d ment and the ending of clear arms race as a ward world peace. Sever lty and students wil there, and all are invited tend this meeting on a of vital importance in c porary life.

A Sketch Of A Famous American—Alfred E. Neuman

By BUCKY CANON

What American today is more famous than John Foster Dulles, Pat Boone, or Joe Friday? Of course, you say, why it's Alfred E. Neuman.

Right you are! Alfred E. Neuman is known to millions of intelligent, intellectual, and cynical Americans everywhere. And also to that large segment of our population that reads comic books.

ALFRED MADE HIS debut to the American public in the fall of 1952 with the appearance of **Mad Comic Book.** At first, Alfred was an off stage character who was thrown into the sequence of the comic strip when an odd ball to play a bit part was needed.

But Alfred became noticed. Readers liked his serious face, discerning eyes, and neat haircut. Soon there were more pictures of Alfred E. Neuman in college men's rooms than there were of Dwight D. Eisenhower.

As Alfred became popular, the editors of **Mad** featured him prominently in their publication. They gave him a one line quote which is probably better known than any quotation fom the Declaration of Independence or Lincoln's Gettysburg Address.

"WHAT, ME WORRY!" went under the picture of smiling Alfred E. Neuman. And with that Alfred became a sort of national character for the sort of happy-go-lucky half idiot who walks around in a perpetually dim witted daze and expects the government to take care of him for the rest of his life. If such a person existed, probably the government would have to take care of him. No one else would.

The name of Alfred E Neuman became known. People throughout the country referred to themselves or their friends as Alfred E. Neuman. Alfred became more than a character. He became a symbol. To some, he became the common man.

OH, HE WAS FOUGHT by the various ladies' societies who are determined that such "trash" should not reach children (or anybody!) In some areas **Mad** was banned from the newsstands.

But the ladies fon only a temporary victory. Human nature and natural humor conquered. **Mad** changed from a comic which lampooned other comics to a magazine which lampooned everything and everybody. And Alfred was assigned bigger and better roles full page pictures)

WHAT OF ALFRED'S ture? No one can say. B fred's friends, the publish **Mad,** will not let us forget Why? Because they're m quite a profit off his popul Selling such items as Alfr Neuman charms, rings, pi and **Mad** magazine itself

One thing has always a source of wonder to Al friends, and readers, how That is, "What does the E his name stand for?"

Baseballers, Tracksters At Gainesville

Larry Block

Interesting Day Ahead

Tomorrow should prove to be an interesting afternoon at Gainesville when both the baseball and track teams tangle with friendly intrastate rivals—the Gators.

Needless to say there has been no love lost between the two schools in their previous seven (not counting yesterday's tennis match) dual encounters so far.

Florida has a shaky one win advantage which the Seminoles hope to do something about today and tomorrow. So far this year the Gators have victories in tennis, golf and basketball. Florida State's wins have come in golf and swimming. One swimming meet ended in a tie.

The track team has beaten the Gators twice—once at Montgomery and again in the Florida Relays.

Coach Mike Long is probably the most talked about track mentor in the South by virtue of FSU's tremendous showing in Gainesville.

But even Long concedes that tomorrow's meet will be very close. The Seminoles have a distinct edge in the track events, but the Gators are strong in field events with the possible exception of the javelin where Jerry Henderson is given the preference.

Everything seems to hinge on who can pick up those very valuable points for finishing second and third.

Observers have put the Tribe on top by nine points, but neither Long nor the tracksters themselves are taking anything for granted.

This time, though, the Seminoles should take them.

SOME RED-HOT GAMES

To my thinking, anytime the two schools' baseball teams get together it reminds me of the hard fought games between the defunct Brooklyn Dodgers and New York Giants.

The spirit shown by both teams is as high as you'll find anywhere. Anyone that saw either of the two games played in Tallahassee last year will attest to that.

Jack Bristol will probably open the two game set again as he did last year. But Bristol took it on the chin in that game as FSU bowed, 13-2. It was Jack's only loss of the campaign.

But the next day righthander Jerry Boaer's two-hitter turned the trick as the Seminoles won, 4-1.

The other pitcher to face Florida will be either Tom Garcia or Frank Slusser.

Florida has been beaten only twice this season, but records mean nothing—not when they know FSU will be the opponent. Anything can happen and usually does.

Two-Game Set Opens Today; Bristol To Pitch

By FRANK RAMOS

With hopes of gaining the lead in the fiery baseball series with Florida's Gators, FSU's Seminoles will travel to the Florida campus for a two-game series, today and tomorrow.

The Gators hold a 2-1 edge in the series winning the first meeting in 1956, 7-5 and splitting the series last year. Florida overpowered the Seminoles in the first of last year's games, 13-2 but the Tribe took the second game, 4-1.

Coach Dave Fuller has back practically the same team as last year except in the pitching department.

The Gators received a shot in the arm when Bobby Barnes, the 1956 Southeastern Conference batting champion, returned after having missed the 1957 season because of an injury.

PARRISH BACK

Expected to once again be a leading hitter for the Orange and Blue is second baseman Bernie Parrish. Parrish will long be remembered by FSU fans for his rough and tough play during last year's series.

Also back for the Gators are first basemen Bobby Geissinger, shortstop Russ Maxey, who was the leading Florida hitter last season, and outfielders, Don Fleming and Charlie Smith.

The Gators are currently in the midst of a six-game winning streak over Southeastern Conference teams and are 8-2 overall. After the Auburn Tigers squeezed past the Seminoles the Gators knocked the Plainsmen off twice.

Fuller has his pitching staff well rested for the FSU series. The Seminoles can expect to see the slants of Tim Twomey, Syd Smith and Bubba Williams sometime in the two games.

FSU Coach Danny Litwhiler plans to go along with the same lineup that copped the FSU Invitational Tournament which ended yesterday.

Litwhiler has chosen Jack Bristol to open Friday against the Gators and Tom Garcia to face them in Saturday's contest at Perry Field.

Flambeau Photo: Bob Meier

CHARLEY NYE, (l.) leads teammate Doyle Ruff in the half mile against Roanoke College. Ruff, however, won the event with a last minute spurt.

Beat Irish Twice

Seminoles Capture Own Tourney Title

By sweeping four straight games, Florida State's baseball team clinched the title in their third annual Invitational Baseball Tournament.

The Seminoles were supposed to meet Wisconsin last night weather permitting as the afternoon games were cancelled. The Badgers had a 2-2 record.

FSU carried a 4-0 tourney record.

The Seminoles emerged the sure winner Tuesday night as they squeezed by Notre Dame, 3-2. Wednesday's games were rained out.

Tom Garcia was the winning pitcher against Notre Dame. With the score tied at 2-2 in the bottom of the ninth, Garcia drew a walk after two men were out. Owen McCarron was hit with a pitch and then Charlie Pinkermen drew a walk to load the bases.

WILD PITCH

Chuck Symeon, Irish relief hurler, then uncorked a wild pitch which allowed Garcia to score. McCarron got two hits and stole two bases.

In the Tuesday afternoon game, Wisconsin racked out a 12-2 win over West Virginia who did not win a game.

Wednesday night, the Seminoles got seven hits and as many runs in two innings to down Wisconsin, 7 - 3. Jack Bristol was the winning pitcher and moved his record to 2-1.

George Schmid held the Seminoles hitless for seven of nine innings, but received his first loss of the season.

FSU did not leave any men on the base paths while the Badgers stranded six. Shortstop Bill Mallatt of Wisconsin was the top hitter with three hits including a triple.

In the afternoon game Monday, Notre Dame rallied for three runs to down West Virginia, 6-4. Symeon was the winner for the Irish and Paul Chuma was the loser. Errors cost the Mountaineers the game.

Gerry Philp hit his second grand slam of the tourney Saturday night to lead the Seminoles in a 14-7 romp over West Virginia. Garcia started the game, but was lifted in the fifth for Fred Kenney who received credit for the win.

Charlie Rodgers, FSU first baseman, hit a homer with one man on. Nick Zegrea slammed a four-bagger for the Mountaineers.

In the second game of a doubleheader Saturday afternoon, Notre Dame whipped Wisconsin 11 - 8. Southpaw Frank Carpin went the distance for the winners. Ken Walter drew the loss. Bob Seneca homered for the Irish and Ron Nieman did the same for Wisconsin.

Senior righthander Frank Slusser won his first game of the season as he pitched the Tribe to a 5-2 victory over Notre Dame in the initial game of Saturday's doubleheader.

Bristol was the winner in the exhibition game against Wisconsin Friday night when the Seminoles won, 12-4. Philp hit his first grand slam in this game.

Wisconsin opened the tourney with a 6-1 victory over West Virginia, Friday. Neiman hit his first home run for the Badgers and Schmid went all the way for the win.

SWIM STAR METZ INJURED

Tom Metz, Florida State's freestyler, was seriously injured in an auto accident Monday while returning to school from the Easter holidays in Dayton, Ohio.

Metz, who swam the 220 and 440 freestyle for the Tribe, received a concussion and a broken arm. He is in a hospital at Mount Vernon, Ky.

Coach Bim Stults did not know how long Metz would be confined or whether he will be able to return to swimming.

His grandfather was killed in the same accident.

More Sports, Pg. 4

Depth Key Factor—Long; Conley, Casteel Big Guns

By PHIL ROYCE

Florida State's track team will be out to revenge last year's loss to Florida when they meet the Gators tomorrow afternoon in Gainesville.

FSU has met Florida twice this year in multi-team meets and topped the Gator point total on both occasions. However, this does not assure a Tribe victory according to Coach Mike Long, as depth rather than a handful of individual stars is the main determining point in a dual meet.

Distance man Mike Conley and the versatile Jim Casteel will lead the Seminole attack against Florida. Conley is entered in both of his specialties, the mile and 2-mile runs.

Casteel will compete in four individual events, the broad jump, low hurdles, 440 and 220. Conley and Casteel also will run on the mile relay team.

Long says the meet will be "close." Long has good reason to be cautious. The Gators appear strong all the way down the line.

STRONG DASH MEN

"The Gators are particularly strong in the dashes," said Long, "with Ellis Goodloe, Bumper Watson and Don Lucey. They have four men who have jumped over 22 feet. Their high jumper, George Pennington, has done close to 6'4"."

The Gator list of stars also includes Ed Miebels who has run the high hurdles in 15.1, and Larry White who consistently runs the half mile under two minutes. Florida also has strength in the shotput, and low hurdles.

One of the key men for the Seminoles is shotputter Dink Lawrence. "If he can progress a couple more feet," Long stated, "he can pick up some valuable points for us." Lawrence hit 42' 10" last week, but holds the South Carolina record with a toss of 49' 10".

The only Seminole who appears to be an easy winner is Jerry Henderson in the javelin event. Henderson had his best throw to date last week when he hit the 202' 1" mark.

SEEK FIFTH WIN

If FSU downs Florida, it will be their fifth straight win of the year. Last Wednesday, the Tribe added Roanoke College of Salem, Virginia to their list of victims. The win snapped Roanoke's dual meet victory string at 37.

Casteel again led the Seminoles, copping firsts in the 440, broadjump and low hurdles, and a second in the 220. His 440 time of 49 seconds flat set a new school record.

The Tribe also had two double winners, Conley in the mile and 2-mile runs, and Jack Terwilliger in the 100 and 220.

Netmen, Mercer Meet Here

Florida State's off-again, on-again tennis team entertains Mercer here tomorrow as the tennis season moves into its final stages.

Yesterday the netmen faced the University of Florida in Gainesville, seeking a revenge win over the Gators. Florida upset the Seminoles here April 3, 8-1.

In other matches FSU blanked Howard College of Birmingham, Ala., 9-0, beat Indiana and Mississippi State by identical 7-2 scores, but were shutout by Louisiana State Saturday, 7-0 in a match shortened by rain.

Tuesday a strong Rollins team took five of six singles matches, and all the doubles to rout the Seminoles, 8-1. The lone winner for FSU was number two man Jim Berry.

Wednesday's match with Murray State was rained out.

On Campus with Max Shulman

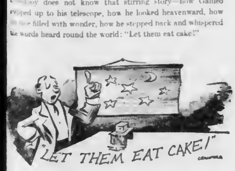
SCIENCE MADE SIMPLE: No. 3

Once again the makers of Marlboro Cigarettes, bless their tattooed hearts, have consented to let me use this space, normally intended for levity, to bring you a brief lesson in science.

They are generous, openhanded men, the makers of Marlboro, hearty, ruddy, and full of the joy of living, as anyone can tell who has sampled their wares. In Marlboro you will find no stinting, no stinginess. Marlboro's pleasures are rich, manifold, and bountiful. You get a lot to like with a Marlboro—filter, flavor, flip-top box, and, in some models, power steering.

The science that we take up today is called astronomy, from the Greek words *astro* meaning "sore" and *nomy* meaning "back". Sore backs were the occupational disease of the early Greek astronomers, and no wonder! They used to spend every blessed night lying on the damp ground and looking up at the sky and if there's a better way to get a sore back, I'd like to hear about it. Especially in the moist Mediterranean area, where Greece is generally considered to be.

Lumbago and related disorders kept astronomy from becoming very popular until Galileo, an unemployed muleteer of Pamplona, fashioned a homemade telescope in 1924 out of three Social Security cards and an ordinary ice cube. What schoolboy does not know that stirring story—how Galileo stepped up to his telescope, how he looked heavenward, how his face filled with wonder, how he stepped back and whispered the words heard round the world: "Let them eat cake!"



Well sir, you can imagine what happened then! William Jennings Bryan snatched Nell Gwynne from the shadow of the guillotine at Oslo; Chancellor Bismarck brought in four gushers in a single afternoon; Enos Slaughter was signed by the Hanseatic League; Crete was declared off limits to Wellington's army; and William Faulkner won the Davis Cup for his immortal *Penrod and Sam.*

But after a while things calmed down and astronomers began the staggering task of naming all the heavenly bodies. First man to name a star was Sigafoos of Mt. Wilson, and the name he chose was Betelgeuse, after his dear wife, Betelgeuse Sigafoos, prom queen at Michigan State from 1919 to 1931.

Then the Major Brothers of Yerkes Observatory named stars after their wives, Ursa and Canis, and Witnick of Harvard named one after his wife, Big Dipper, and soon all the stars were named.

Astronomers then turned to the question: is there life on other planets? The answer was a flat, unequivocal no. Spectroscopic studies proved without a doubt that the atmosphere on the other planets was far too harsh to permit the culture of the fine tobaccos that go into Marlboro Cigarettes . . . And who can live without Marlboro?

© 1958 Max Shulman

THIS IS a "moviola" machine, used fo r film editing.

TV Field Developing

WFSU Only One Segment Of Broadcasting Services

By NANCY GENE BROWN

University Broadcasting Services. That must be WFSU-FM, you assume. Right; but that's only part of it.

Florida State University's broadcasting services cover a wide range of activities in the field of communications. It includes film editing, production of tape-recorded radio broadcasts, and some television work.

Currently, the Services are in its eighth year of producing "Repeat Performance," tape-recorded campus concerts, which are used on about 50 commercial stations around the globe. Patti Wisener, a senior, is in charge of the production.

At present, "Repeat Performance" is the only series being produced by the Services, although others have been done in the past, according to Mr. Roy Flynn, director of the Services.

With the radio facilities of WFSU-FM, the Services are available for anything that's needed in the way of radio work. For instance, they've taken part in classroom experiments in the area, and have cooperated extensively with many university departments.

Special programs that are necessary for the university, to be released through commercial stations—like news and sports promotion—can be handled by the Services. These are done in cooperation with the Sports Publicity Department, the School of Journalism, and others.

TV ON THE WAY

Activities in the television field have been developing gradually. For six years a series produced here was presented on a commercial channel, WMBR-TV in Jacksonville. And in Tallahassee on WCTV-TV, a non-credit educational telecourse in Spanish was programmed.

Progress or segments of programs featuring FSU students on WCTV-TV have been kinescoped by the department, so that the performance may be studied in the classroom.

According to Flynn, "we're planing for developments that seem about to happen with facilities for educational TV on campus." However, acquiring the necessary funds for such a venture presents a problem

Flynn said that, "with the greatest economy possible," steps have been taken to obtain the necessary TV studio equipment, and it's "much closer to being on campus." Installation of the equipment, and converting the space into which it will go, poses the next problem.

WITHIN A YEAR

However, the advent of educational television on campus should come about within a year, he said. The new ETV facilities would be used to produce programs for on-campus use, televising instruction which will be received in the classrooms

Whether the televised material would provide the entire classroom instruction or be merely supplementary, is another question, probably to be determined by a faculty advisory group.

Also, the FSU ETV would serve as an originating point for televised instruction to be fed to the state network connecting the junior colleges, Flynn continued.

Another segment of the University Broadcasting Services work is film production. Werner Vagt is in charge of this area. They've done film clips interpreting campus news events. And their production of educational films has involved cooperation with various state agencies — the Florida Industrial Commission, State Treasurer's Office, Governor's Office, and the Home Demonstration Office of the Florida Agricultural Extension Service; as well as non-profit organizations such as the Florida Bar, Red Cross, and Florida Society for Crippled Children.

TYPICAL FILM

Typical of the type of film work done by the Service is one entitled "Encaustic by Karl Zerbe." The film, produced in cooperation with the FSU artist, has been purchased by several colleges, including Dartmouth, Arlington State, and Kent State.

Another much-sought-after product of the film editing lab is entitled "Danger: Roofers At Work," done in connection with the Florida Industrial Commission. Among its purchasers have been a long list of contractors, insurance companies, and safety councils across the United States. Last week the film received a top-prize placque in a film competition sponsored by the National safety council.

The film editing service has just completed a film on the Marching Chief's Homecoming

GYMNASTS SEEK THIRD NCAA CHAMPIONSHIP

Florida State's highly touted gymnasts team will seek the 1958 NCAA crown tomorrow evening at Michigan State's Jennison Fieldhouse in East Lansing, Michigan.

The NCAA title, considered the richest plum in collegiate competition, slipped from the Seminoles last year when Illinois and Penn State moved FSU to third place

OLYMPIC STAR

The Illini, with Olympian Abie Grossfeld, again look like the team to beat according to gymnastic coach Hartley Price.

Price pointed out that, "Penn State, with their well balanced team effort will probably be pushing Illinois along with Michigan State and Iowa.

"With 35 universities entered in this year's NCAA's, I'll be very happy with a fifth place. Anything much lower will be disappointing, though there are several teams capable of scoring high."

Tomorrow's meet will be the last collegiate competition for three seniors, as veterans Joe Gusic, Don Priesser, and Laird Anderson enter their third NCAA's for Florida State

GUSIC ON BARS

Gusic will work his usual parallel bar event, Priesser the trampoline and tumbling, and Anderson will be on the flying rings and the rope climb.

The stocky climber has scaled the 20-foot rope in 3.6 seconds in dual meet competition this season and last year placed fourth in the National AAU's in Chicago.

Price has named junior Chuck Cicio, and sophomores Larry Malmlin, and Fernando Lecuona to work all-around.

The tentative lineup: Rope Climb—Rosansky, Hicks and Anderson; Side Horse—Cicio, Malmlin, and Lecuona; Still Rings — Cicio, Malmin and Lecuona; Horizontal Bar—Cicio, Malmlin, and Lecuona; Parallel Bars — Gusic, Cicio, Malmlin, and Lecuona; Free Exercise—Lecuona, Webb, Cicio, and Malmlin; Flying Rings — Malmlin, Webb and Anderson; Trampoline — Rosansky, Powers and Preisser, Tumbling—Malmlin Cicio, Webb and Preisser.

Busy Schedule Set For Golfers

A busy schedule is in store for the Florida State golfers as they meet Moody AFB in Valdosta today, host Auburn Saturday, and face Georgia Tech in Atlanta, Monday.

The Seminole linksters will enter today's match with a 6-3 match for the current campaign. They also finished second in the Florida Intercollegiate and the University of Miami-City of Coral Gables golf tourney.

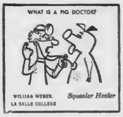
This will be the second meeting of the season between the Tribe and the men from Moody. In the early season match, the Seminole golfers trounced the Air Force, 24-3.

Over the Easter holidays, a foursome from the FSU team finished second in the first annual University of Miami-City of Coral Gables golf tourney.

The tourney was won by Rollins who garnered a 1,206 while the Seminole foursome finished second with 1,215. The individual honor was copped by Dick Diversi of Rollins.

FSU's top golfer, Bob Shave finished second with a 295 for the 72 holes. Diversi had a 293.

Sticklers!



WHAT'S AN OBSTACLE IN A CROSS-COUNTRY RACE?
Harrier Barrier

IN THE TWENTIES, up-to-date college gals wore raccoon coats, danced the Charleston and smoked Luckies. What's the rage on campus today? Raccoon coats. The Charleston. And Luckies! The conclusions are obvious. 1. Luckies were tops for taste in the Twenties and still are. 2. Smart smokers knew it and still do. So any gal who takes Luckies to a Roaring 20's party is a *Dapper Flapper!* And by George, the boy friend who sports 'em, too, is a Couth Youth! Prediction: In the 1980's, raccoon coats, the Charleston and light, good-tasting tobacco will still be in style!

Indians Costumes Featured On Television Program

By GEORGIANA FRY
Flambeau Society Editor

Colorful costumes, Spanish Music, and bullfighting defense were featured on Pan-American Day program over the Barbara Young Hour on WCTV yesterday afternoon.

The program, sponsored by the Spanish honorary, Sigma Delta Pi, was directed by Dr. Margaret V. Campbell, associate professor of Modern Languages.

... Clements played "Malagueña," a Spanish musical number on his harmonica to open the program. Clements, a public administrations major, was the only student in the program who was not a language major, or of Spanish ancestry.

OAS SAME AS UN

In a four minute resume, Gilbert Fernandez explained that the Organization of American States is to the Americas as the United Nations is to the world. The OAS's headquarters is in Washington.

Since it was impossible to introduce all 21 Latin American countries to the television viewers, only the three countries having "... Indian background" — Peru, Guatemala, and Mexico — were featured, Fernandez said.

GOLD COMES OUT

Metals such as gold and silver, ... of fruit come out of the horn of plenty featured on Peru's Coat of Arms, according to Vera Stahl.

Other features on the coat of arms are the llama, a beast of burden, and a cinchona tree, responsible for quinine.

Following the explanation on the coat of arms, Mary K McKeon, a Spanish minor, modeled an Inca (Pisac) costume which ... and black with embroidery work.

Immediate past president of the Spanish honorary and Spanish major, Jacquelin Wiggin told the viewers about the Coat of Arms of Guatemala.

A quatzal, a green bird is the only feature on the coat of arms. Ancient Mayan priests, wearing green feathers in their hair, worshipped the bird. The "quatzal" is now a money unit, the same as our nickel.

Claire Green, another Spanish major, modeled a two layered Mayan costume dress. A folded scarf of vari-colored stipes was wrapped over Miss Green's arm and she wore a yellow headdress.

A native Mexican, Maria Hume, informed Barbara Young about her country's coat of arms. The coat of arms features an eagle on a cactus bush, known as a nopal, with a snake clutched in its claws. Legend says that the Aztecs settled where they saw this bird — on an island in a crater, now Mexico City.

In Carla Westphal's four minute defense of bullfighting, she commented that Anglo-Saxon spectators suffer more from watching a bull fight than the bull itself. She pointed out that the bull's death is predestined in any fight.

Miss Westphal also described some cape passes.

Fernandez, president of Sigma Delta Pi, is an Inter-American major of Spanish ancestry. Fernandez's mother was born in Spain and his father in Cuba.

Miss Stahl is a candidate for a PhD degree in Spanish and has lived and studied in Peru.

Miss Westphal, an art major was the only freshman on the program. She did ballet dancing in Lima, Peru, while living and studying there.

Flambeau Photo: Jo Ann Overstreet

MODEL COSTUMES—Mary K McKeon, left, and Claire Green modeled these Indian costumes for a Pan-American program over the Barbar Young hour on WCTV yesterday afternoon. Miss McKeon is wearing an Inca costume and Miss Green a Mayan dress. The costumes belong to Dr. Margaret Campbell.

Panhellenic Elects Jean Hunter

Jean Hunter, a Phi Mu, was recently chosen the new president of Panhellenic. Jean was previously secretary of the organization, and according to the constitution, automatically took over after the resignation of the president, Nancy Terry.

Miss Terry felt that she was unable to handle the office because of her studies.

Formal Dance Keys Weekend For AGD's

"Dixieland Jubilee" is the **Alpha Gamma Delta's** theme for their weekend which will begin with a formal dance at the country club tonight.

The Devilaires will provide the music at the club which will be decorated to the theme, "Birth of the Blues."

At the dance, **Alpha Gams** man-of-the-year will be announced.

Tomorrow night, the **Alpha Gams** will have a costume - record party at their house, which will be decorated around the dixieland theme.

A dixieland band, consisting of **Alpha Gam** sisters, will pantomine a dixieland album. Diane Davis, Barbara Watson, and Barbara Keesler will give their interpretation of a dixieland dance.

Other entertainment on the program will be a song number, "Hard Hearted Hannah" by Donna Leto, followed by a comedy routine by Sylvia Hommer.

Mistress of ceremonies will be Bunny Swanson.

Sunday, the **Alpha Gams** and their dates will go to Mystic Lake where they will swim, eat and dance.

AGD-SX Host Easter Party

Twenty-five children from the Department of Public Welfare and the Crippled Childrens Commission were given an Easter party by **Alpha Gamma Delta** sorority and **Sigma Chi** fraternity at the **Alpha Gam** house on April 1.

The **Sigma Chis** brought the children to the house where the Easter Bunny, Jackie Rohrnack, led them on an Easter Egg hunt.

This Easter party is the **Alpha Gams** annual altruistic project, according to Donna Leto, social chairman. A different fraternity help the sorority every year, Miss Leto said.

MARRIAGE

WISEHEART-LITTLE

Marilyn Wiseheart, a member of Pi Beta Phi sorority, and Richard L. Little, stationed in the army at Fort Bragg, N. C., were married February 5, at Highland Presbyterian Church, Fayetteville, N. C.

Mrs. Little is a junior, majoring in elementary education. Both she and Mr. Little are from Miami.

Letters From Candidates

TO THE STUDENTS:

First I would like to thank all of you who supported me in the recent election.

A member of the Board of Publication has a duty to this university to help maintain the highest level in publications possible. These publications very often are a representative of Florida State University for those who have not visited on our campus.

I hope that in the run-off elections to be held next Tuesday that you will consider me as a worthy and capable candidate for the Board of Publications.

SINCERELY,
DOLORES LAFFERTY

TO THE STUDENT BODY:

The first test is over—I face an even stiffer test. I am in the runoffs for the two remaining seats on the Board of Student Publications against healthy competition.

I want to thank all of you who supported me in the first election, but I urge you to vote in the upcoming election as you did in the past election.

I would like to cite my experience and qualifications for your consideration when you vote in the runoff election.

1. Sports editor of the 1957 **Tally Ho**. 2 News and sports staff of the **Flambeau**. 3. Reporter on several metropolitan dailies 4 Journalism major with a 3.8 average in journalism courses. 5. An overall 3.1 average.

Once again I would like to ask your support in my behalf in the forthcoming election.

Sincerely yours,
BOB WOLFENBARGER

DEAR STUDENTS,

I would like to take this opportunity to thank all of you for your support in Tuesday's primary. Although I have exhausted all the money I was allowed to spend on my campaign, I would like to tell you this. I have on reserve in the bank of student government a large surplus of energy and desire which I shall gladly spend for you and good student government.

Sincerely yours,
GERRY GORDON
Candidate for Student Body Vice-President.

DEAR STUDENT:

We wish to endorse publicly the candidacy of Mattox Hair for Vice-President of the Student Body. We feel that Mattox deserves our whole-hearted support because we have recognized his ability through working with him, because he very earnestly and sincerely wants to serve in this position, and because, in only two years on this campus, he has moved to a position of leadership which usually requires three years.

Mattox Hair will serve FSU's student government for the most progress possible.

Sincerely,

Arnold Greenfield, Joyce Combs, Polly Atwater, Monty Gillham, Barbara Burkhardt, Margaret Sue Hooten, Jackie Soud, Sue Garwood, Martha Bedell, Barbara Bryan, Kay Davis, Jean Culpepper, Kay Wright, Joyce Holt, Brenda McCampbell, Barbara Youmans, Tom Hughes, Bill Strickland.

Diana Holyrod, Betty Faye Horner, Kay Jordan, Ken Abbott, Mike Hudgins, Ethel Calhoun, Ronnie Clark, Dot Emmett, Mike Young, Anne Easterday, Pat Ferguson, Sandi Beskind, Nancy Gene Brown, Ralph Chambers.

DEAR STUDENTS:

It was indeed gratifying to look over the returns of the first primary and realize the tremendous support I was given in the voting last Tuesday.

It is my sincere desire that this will be continued Tuesday. All I ask is that you give me the opportunity to serve you and FSU by electing me your Men's Vice-President.

JIM APTHORP
Sincerely,

DEAR STUDENTS:

I want to express my thanks for the wonderful support you gave me in the first primary last Tuesday.

I am giving my personal support to Jim Apthorp in the second primary Tuesday, and would like to ask that the people who supported me seriously consider Jim for the position of Men's Vice-President. I have become well acquainted with Jim in the past few weeks, and I feel that his experience and interest make him the best choice in the coming election.

Sincerely,
ED MASON

WFSU . . .

(Continued From Page 4)

halftime show. Another is in the planning stage, emphasizing the academic aspects of the university and featuring President Strozier as narrator.

FILM FUND

Anything left over from film productions (you might call it profits) is put back into a fund for other films for which cash might not be available, Flynn said

Winding up a complicatedly full schedule during the regular school year, the University Broadcasting Services' activities still aren't over.

During the summer session, drama and speech clinics come to the campus for several weeks' work. The Services help them in production and by making available the use of their facilities.

"This office is set up to make use of radio, television, and films in extending the university to the public," Flynn summarized.

Noting the Services' collection of activities, you might conclude the goal is accomplished pretty efficiently.

SUMMER SCHOOL
IN
MEXICO
Sponsored by F.S.U. at Monterrey Tec.

Ivy Look Fading Playboy Predicts

The Ivy Look is on the way out.

This is what Frederic A. Birmingham, Fashion Director of **Playboy**, the nation's foremost authority on men's fashions, says in the April issue of the magazine. Birmingham recently switched to **Playboy** after serving for 16 years as Editor of **Esquire**.

Writing on things-to-come in the smart men's fashion field, Birmingham warns that "these are gentle seismographic rumblings indicating the first cracking in the Ivy stratum. Taking its place will be the elegant, slim Continental style.

"OOZE ALONG"

This, Birmingham says, will not happen overnight "Men's fashions don't really move: they ooze along imperceptibly like a glacier covering a few yards every year" But a current attempt at what he calls "a kind of trousers so snug and tapered that the lads have a literally self-contained look," will result in a reaction against Ivy fashions.

What will the "new look" in men's fashions be? Says Birmingham: "The shoulders will be natural, without the definite attempt to squeeze, a la extreme Ivy (which too often results in a pear-shaped appearance), and there may even be a bit of padding in them, although never as much as the old swagger type carried.

"The suit will strive for a casualness, with a touch of the tailored look, which will probably cut a few inches off the long jacket which hangs low—in stern denial of any desire to suggest following a body line.

"The new suit will not be quite so deliberately unconscious of styling; the ultra-Ivy lapel will broaden a bit, and the top button of your jacket, which you may have expected to find right under your chin in about one more year, will relax and slide down a bit lower on your chest.

LEANER LOOK

"The shorter jacket will, of course, give your trousers a longer, leaner look European clothiers favor tapered trousers; these will undoubtedly stay with us. The more dashing versions will probably go in for fancy pockets or even Edwardian cuffs on the sleeves. The least you can expect is something of a nip-in at the waist"

TOMORROW'S DODO?

How permanent will this Continental style be? Says Birmingham "Fashion creates its own obsolescence; today's fine-feathered friend may well turn out to be tomorrow's dodo."

Tau Beta Sigma Installs Officers

Carol Terpening was installed president of **Tau Beta Sigma**, band sorority, at the sorority's weekly meeting Tuesday afternoon in the music building.

Other officers installed were Fedora Lewis, vice president; Alice Jean Christian, secretary; Helen Clark, treasurer, and Jackie Howard, chaplain.

The new oficers plus two members, Mannie Christian and Pat Turpin will leave FSU at 8 a.m. tomorrow to go to Gainsvilla where they will install a new chapter of **Tau Beta Sigma** at the University of Florida.

Fifteen women were initiated into the sorority during March. They are the following Betty Lou Booth, Mary Lou Campbell, Charlene Chevalier, Alice Jean Christian, Helen Clark, Sandra Davis, Frances Gray, Jackie Howard, Carol Lambrecht, Fedora Lewis Patsy Lieb, Rosalia Joy Pate, Ellen Taafe, and Olivia Warley.

To become eligible for **Tau Beta Sigma**, a student must be active in the band program two semesters, must have a 2.0 average, and must be outstanding on her instrument.

Visiting Baseball Players Note FSU's Friendliness

By MARCY SEITZ

The third Annual FSU Invitational Baseball Tournament ended yesterday with Florida State University in first place.

Players from the three visiting colleges: University of Wisconsin, Notre Dame, and West Virginia all seemed to take varied views of FSU.

Ron Nieman, left fielder, and Ron Steiner, third baseman from the University of Wisconsin felt "all in all, there isn't a great difference in the two universities, except in size and climate" Both men left snow and cold weather when they came south, and heartily welcomed Tallahassee's periodic sunshine.

PRETTIER CAMPUS

"FSU has a much prettier campus than "Wisconsin", said Steiner, "and very good facilities." Both men were impressed by the athletic program and attributed it to climate. Said Nieman, "It's tremendous for athletics."

As with most visitors to FSU, the men especially noticed the friendliness of the students on campus. "We had very cordial treatment, more so than at the other colleges we've visited."

The Wisconsin players seemed to feel that FSU was not quite as social minded as their own University. "We have," said Nieman, "what you might call a party school." He added, "Of course, it's a wet county up there."

One difference noted between the schools was the fact that students at FSU were allowed to park on campus. At Wisconsin only uppermen may have cars, but they are not allowed to park on campus.

Players Dick Selcer, second baseman, Chuck Symeon, pitcher, Bo Broemmel, right fielder, and Bud Trapp, shortstop from Notre Dame noted much difference between schools.

"We were especially impressed," said Selcer, "by the gym-set up at Florida State. We have no intramural program at Notre Dame, and you certainly have many more outdoor activities, which is probably due to climate."

The men all agreed their stay had been very pleasant. "We've had wonderful treatment," said Trapp, "both from the students and the people of Tallahassee."

The main difference noted by the Notre Dame players, beside the fact that FSU is co-educational, said Selcer, "by the gym set up at FSU. At Notre Dame upperclassmen must be in by midnight during the week, while a strict "lights out at 11 p.m." is enforced.

"You really haven't much choice about it," said Broemmel, "at 11 p.m. the master switch is thrown and you have to quit studying . . . I'll say one thing for the system, though, you get your studying done before midnight."

The men agreed with the students from Wisconsin that students from FSU had a "good break on driving and owning cars." According to the Notre Dame players, students at the school are not allowed to own or operate cars unless they are over 21 and not living at the University.

The visiting players left yesterday for their respective schools. All were on Spring Vacation or Easter Holidays while they were here as the northern schools were given April 1-14 free from classes.

ART GALLERY FEATURES BERKSHIRE PAINTINGS

Twenty-five paintings by graduate assistant Robert Berkshire are being displayed in the Florida State University art gallery.

The exhibit, which formally began Wednesday evening will run through April 19. The gallery will be open daily from 10 a.m. until 5 p.m.

FULBRIGHT FELLOW

Berkshire, who was given a Fulbright Fellowship to Rome, Italy, in 1955-56, is a graduate of the John Herron Art Institute, Indianapolis, Indiana and has been doing graduate work at F.S.U. for the past two years. He will receive his masters at the May graduation.

The Indiana native, who is studying here under Karl Zerbe, will return to teach at the John Herron Art Institute in the fall.

This exhibition is one of the requirements for a masters degree in the art department. The candidate must not only paint, assemble, and hang his pictures but must write a thesis on the exhibition, take an oral examination on the thesis and the exhibition, and be tested on art history.

Dr. James V. McDonough, head of the art department, said of him: "He is one of the very good students that we have had and we are very proud of him."

Berkshire has displayed paintings at the following exhibitions: Fifth Bradley University Print Exhibition: Wichita Art Association Print and Drawing Show: New York City Center Gallery, Exhibition Momentum, Chicago, Illinois.

Issac Delgado Museum of Art, New Orleans: Indiana Artists Painting Exhibition: "Spur" Art School Exhibition: Kansas City Art Institute: Fifth Annual Michigan Regional Exhibition, South Bend, Indiana

Fifty Indiana Prints: Schnieder Gallery Group Show, Rome: Exposition Palace Grp, Rome; and Explorations in Art, Sarasota, Florida.

Frosh Honoraries Slate Banquet

The Duval Hotel will be the scene this year of the annual Alpha Lambda Delta-Phi Eta Sigma Initiation Banquet, scheduled for Tuesday evening, April 22.

Dr. Kellogg Hunt of the Florida State University English Department will address members of the freshmen women's and men's scholastic honoraries during the evening. The banquet will follow initiation of new members into both organizations.

Honored guests at the affair will include Dr. Robert Strozier, Dean Katherine Warren, Dr. Lynnette Thompson, faculty advisor of Alpha Lambda Delta; and Dr. James Carr, advisor to Phi Eta Sigma

"All Alpha Lambda Delta members, past and present, are invited to attend," said Sylvia Miller, president of the women's honorary. Tickets may be obtained by contacting Sally Matthews at the Delta Zeta house.

Certificates will be awarded senior members of Alpha Lambda Delta who have maintained their 3.5 scholastic average during the last four years, and a book presented to the senior Alpha Lambda Delta with the highest average for her four years at FSU, according to Miss Miller.

Lake Bradford Facilities Open This Weekend

By VIRGINIA DELAVAN

After four years of virtual disuse, waterfront facilities at the Reservation will be re-inaugurated this weekend.

"The water was down for about four years and the Health Department judged it unsafe this fall," explained Dr. Hilda E. Tinney, assistant to the Dean of Students. "Weather permitting, we hope to get the waterfront open this weekend."

BOATING, TOO

Facilities will be available for canoeing and sailing as well as swimming, but because of a limited budget they can only be used from 12 to 5 p.m. Saturdays and 2 to 6 p.m. on Sundays. This schedule will continue until the end of school.

Miss Tinney said that a $1,000 budget was voted when the water was too low to permit extensive activity. From this sum must come student assistant salaries and repairs for the boats.

In order to use sailboats and canoes, appropriate tests must be passed. The first testing session will be held this afternoon from 3 to 5 and will continue tomorrow morning from 9 to 11 at the Reservation. Future testing times will be announced at a later date.

Jack Chevr . Miss Tinney's assistant, will be in charge of testing. Aiding him are Jack Davis, boating instructor, Dave Ackinson and Tom Willard.

BOATING CARDS

Those who pass the test will be issued cards entitling them to use boating equipment. No test is required for swimmers.

"The water at the Reservation is brown," Miss Tinney said, "because of the cypress roots and trunks in the lake. It has been checked by the Health Department and is safe. We will never open when the water is not safe."

She added, "I wouldn't advise girls to wear new white or light-colored bathing suits because it will stain them."

The brown color will make the lifeguards' job more difficult because they can't see people in the water, she said.

Six lifeguards will be on duty at all times. In addition to Chevrett, Ackinson and Willard, those qualified for guarn duty are Leonard Koeth, Tom Armer, Tom O'Connor, Mary Ann Reeves, Tommy Henderson, Frank Knight and Richard Mitchell

KNOW RULES

The FSU camp committee has passed regulations for the use of the waterfront which will be printed in full in Monday's "This Week"

Miss Tinney urges that students familiarize themselves with these rules. She stressed that children seven years old and under must be accompanied in the water by their parents. This also applies to children of all ages who cannot swim.

In the interest of safety, power boats of any kind will not be allowed to come alongside, to tie up or beach on FSU property at the Reservation.

Polichio Sets Senior Recital Monday Night

Marjorie Polichio, coloratura soprano from the studio of Anna Kaskas, will present her senior recital in Opperman Music Hall, Monday evening at 8:15 p. m.

Miss Polichio will be accompanied by William Alton and Diana Butler, flutist. The program will include works by Handel, Mozart, Brahms, Monsigny, Cherubini, Meyerbeer, Rachmaninoff, Moussorgsky and Schindler

FIRST YEAR

This is Miss Polichio's first year at Florida State. Her home is in Denver, Colorado, and she is a voice major in the FSU School of Music.

Wednesday evening the Women's Glee Club will present a spring concert in Westcott Auritorium at 8:15 p. m.

The Glee Club, under the direction of Miss Betty Jane Grimm, will present a program including "Magnificat in the Fourth Mode" by Palestrina, a selection from **Christmas Oratorio** by Bach, "A Mighty Fortress is Our God," "The Sixty First Psalm," by Larry Zingale, a doctoral candidate in the School of Music and several folk songs by Franz Peter Schubert

OTHER NUMBERS

Also included in the program are selections from **A Sketchbook of Women** by Thomas Pittfield, and selections from **Divertessements**, also by Pittfield. "Stormy Weather" and "Wunderbar," as arranged by George Roth, will be sung by the Glee Club.

"Symphony," written and arranged for women's voices by Thomas Wright of the Florida State School of Music faculty, will also be presented.

NEW TAPS for the Women's "F" Club are: 1st row (l-r). Elaine Smith, Helen Forrest, Roberta Boyce, Betty Hodges, Ginny Bell, Cynthia Woolson. 2nd Row (l-r): Jane Maples, Jean Kelly, Merline Johnson, Carolyn Rouse, Mary Jane Hodges, Carol Williams, Ginger Holland, Jill Jordan. 3rd Row (l-r): June Garrett, Gail McWhirter, Jo Sittleton, Bobbie Lou Jarrett, Amelia White, Pat Wells, Midge Presnell, Mary Buchanan, Arlene Sikora.

After Visit To Russia

Dodge Slates Three Talks On Soviet Education System

Dr. Homer L. Dodge, distinguished American educator who spent a month in Russia studying the Soviet Educational system, will speak at FSU today and tomorrow.

Dr. Dodge's appearance here is part of a national lecture tour sponsored by the physics honorary society, Sigma Pi Sigma. The education honoraries Kappa Delta Pi and Phi Kappa Delta, will sponsor Dr. Dodge's FSU talks.

At 2 p.m. today in the Demonstration School Dr. Dodge will present a talk, "Camera Lens on Russia," illustrated by color slides which he took in the Soviet Union. Only Demonstration School students may attend.

The remaining two sessions are open to all interested persons. Dr Dodge's main address is tonight at 8 in the Geology Auditorium. The theme: "Soviet Education: A Challenge to America"

Tomorrow Dr Dodge will answer questions on Soviet Education at a 10 a.m. coffee hour in the Student Center Trophy Room.

Dr. Dodge's trip has been called "the first and only thorough on-the-spot study of the (Soviet) educational system by an American since the war"

Accompanied by his son, Norton, who is a fellow in the Harvard Russian Research Center and speaks Russian fluently, Dr Dodge traveled Russia mainly on his own, unhampered by official escort.

This enabled the Dodges to talk freely with Russian people —men, women and children, farmers, office workers, students and laborers.

PERSONAL VISITS

Dr. Dodge's report on the Soviet educational system is based on personal visits to universities, engineering colleges, teachers colleges, technical schools and "ten-year" schools, roughly equivalent to our high schools.

Dr. Dodge says, "At each we spent several hours conferring with administrators and faculty members and visiting classrooms and laboratories. These institutions were in five different cities: Moscow, Kiev, Kharkov, Rostov and Stalingrad"

"Because of the standardization of education throughout the Soviet Union, a small sampling such as this gives many times the information one could obtain from similar visits in this country."

Some of the information gathered by Dodge was featured in four issues of **U.S. News and World Report**. Other material has been used in a report of the U.S. Office of Education and in a book on Soviet Education published by The Massachusetts Institute of Technology.

Plans For 'Family Weekend' Progressing; Brochures Out

Laura Cheek, general chairman for Family Weekend announced that plans for the events are progressing as scheduled.

Family Weekend, the first of its kind, will be held May 2-

"We are hoping that those planning to attend will soon send in hotel and motel reservations so they can be assured of rooms," Miss Cheek said.

All families of FSU students have received a brochure containing a complete list of Tallahassee motels and hotels with prices.

She also urged that students buy tickets for the picnic to be held Saturday, May 3. Tickets are now on sale for $1 at the Westcott ticket booth and in the men's gym.

"Even if a student's family is unable to attend," Miss Cheek said, "we hope that they will invite their relatives and friends."

The entire program is put on by students.

A general meeting will be held Wednesday at 4 30 in the Alpha Gamma Delta sorority house. A representative from each sorority, fraternity and dormitory should be present to receive instructions for the Weekend.

AIR FORCE
TR-837

GRADUATE THEN FLY

The Air Force pilot or navigator is a man of many talents. He is, first of all, a master of the air—and no finer exists. In addition, he has a firm background in engineering, electronics, astro-navigation and allied fields. Then, too, he must show outstanding qualities of initiative, leadership and self-reliance. He is, in short, a man eminently prepared for an important career in the new Age of Space.

As a college graduate, you will be given priority consideration for the Air Force Aviation Cadet Program. While openings are limited, you will be tested and advised *immediately* of qualification status. Find out if you measure up. Paste the attached coupon on a post card and mail it now.

U. S. AIR FORCE AVIATION CADET PROGRAM

MAIL THIS COUPON TODAY
Aviation Cadet Information, Dept. C-21
Box 7608, Washington 4, D. C.

Please send me details on my opportunities as an Aviation Cadet in the U. S. Air Force. I am a U. S. citizen, between the ages of 19 and 26½ and a resident of the U. S. or possessions. I am interested in ☐ Pilot ☐ Navigator training.

Horses Took FSCWers To Reservation In 1916

By NANCY GENE BROWN

"Located on the banks of Lake Bradford and far enough from towo to have a couotry atmosphere, the college camp may be called the fulfillment of a dream"

Sounds pretty corny, doesn't it? But if one were given to such journalism, this would be an apt description of the University Reservatioo Writteo in the January 18, 1929 editioo of the Flambeau, back in the good old FSCW days, the idea is even more appropriate oow.

Going out to the camp in those days—wheo it was Camp Flastacowo—was quite a chore, but it was all the rage. Judging from the camp's present appearance, the rage seems to be oo its way back in.

WAGON TRAILS

When funds wereo't available to purchase some for-sale land on Lake Bradford in 1916, Dr. Edward Conradi, who was president then, and Mr. Kellum, the busioess manager, made a personal investment and turned the land over to the women of FSCW. Later the Board of Control bought the camp. Horses and wagons from the university farm transported the feminine sports enthusiasts down clay roads to their new haven.

Soon the Women's Recreation Association on campus originated the idea of a Water Sports Day, with all sorts of aquacompetition. This event continued for many years Each year a prize was presented to the winning team — a canoe — and gradually a fleet was assembled.

The presence of canoes, and a sleeping house that was eveotually constructed, created the problem of visiting vandals. To halt the loss of the precious canoes, a fence was built and a permanent on-the-premises caretaker was employed.

HEAP BIG BLAZE

In 1942 another cabin was built, which made it easier to have over-night camping trips. But not long after that, someone got careless, and the original house burned down.

But this didn't stop the FSCW'ers. They swarmed out to the camp every weekend, cavorted in the forest, and had a ball in the water which was at a high level at the time. Sunburns were coveted possessions.

This, however, did not last long. By the fall of 1954, a prolonged lack of rainfall reduced Lake Bradford to a slightly muddy swamp. The dock was high and dry. It was an all-day trek through head-high weeds to find knee-deep water

The camp remained dormant for a few years, until heavy rains brought the water level back to normal last summer.

And with renewed invigoration, the university officials set out to make the Reservation "what it ought to be.' It's looking pretty good (see photos). Recent additions and changes have done a lot to provide a nice spot for relaxation.

For the pause that refreshes—take a trip to the Reservation.

ARTIST SERIES OFFERS TOUREL THIS THURSDAY

The Artist Series will present Jennie Tourel, widely acclaimed mezzo-soprano, Thursday night at 8:15 in Westcott Auditorium.

Tickets are now on sale to the public in the Westcott Ticket Office at $2 per person. Students may obtain a ticket at the Westcott office in exchange for activity coupon number 10.

Mrs. Kay Vernon, director of special events, said yesterday that there had been a mixup in ticket printing which ended up with the tickets having the date of Wednesday, April 16, on them.

Mrs Vernon emphasized that the performance would be held on Thursday night, regardless of what was printed oo the tickets.

Miss Tourel will open her program by singing "Well Thou Knowest" by Giuseppe Torelli, and will follow that with selections by Handel, Haydn, Brahms, Schubert, Grieg, Rossini, Gounod, Duparc, Berlioz, Liszt, Gretchaninoff, Rachmaninoff, Dargomijsky and Offeobach

John Wustmao will be her accompanist.

Miss Tourel was highly praised by New York critics after her Town Hall concert in April 1957.

NEW YORK TIMES

"When old fogeys debate whether singers are as they used to be, there occurs every now and then such an event as Jennie Tourel's Town Hall Recital to prove they are," said John Briggs in the New York Times.

"If there were an 'Oscar' or 'Emmy' for the season's best song recital, my vote would go to Jennie Tourel for her program in Town Hall", was ao appraised by Louis Biancolli in the World-Telegram and Sun.

Frances D Perkins of the Herald Tribune wrote, "Miss Tourel, as on many previous occasions, realized the expressive demands of what she sang by discerning and objective use of vocal and emotional color combined with artistry of phrasing"

Some of the orchestras Miss Tourel has appeared several times with are New York Philharmonic-Symphony, Boston Symphony, Philadelphia Orchestra, Chicago Orchestra, San Francisco Symphony, Dallas Orchestra and Indianapolis Symphony. Her festival appearances include Edinburgh, Berkshire, Ravinia, Prades and Dumbarton Oaks.

Phi Mu Alpha and Sigma Alpha Iota will sponsor a reception honoring Miss Tourel in the large lounge of the Longmire Building immediately following the concert.

FOR FAMILY WEEKEND. Cheryl Rose and Pete Haggerty polish up their "Tight Wire Bicycle" act for the annual "Flying High" presentation here in May, the feature of the Spring Homecoming festivities.

Male Student Pleads Guilty To Burglary

The first arrest in the current theft epedemic took place Friday night when Tallahassee Police and Asst. Business Manager Gerald Jones apprehended a male student.

The student, who admitted his guilt when confronted with the evidence, was traced through what Jones called "modern investigation methods."

The student was charged with petty larceny and arraigned in Tallahassee City Court yesterday morning.

PLEADS GUILTY

Pleading "guilty," he received a fine of $50 from City Judge John Rudd. The case was then turned over to the Office of the Dean of Men for administrative action.

Assistant Dean Robert Brewer said yesterday that, after conferring with Barbara Burkhardt, chief justice of Honor Court, the decision had been reached to turn the case over to the court for further action, rather than handle the matter through administrative channels.

Jones, who worked closely with the Tallahassee Police Department on the case, said that the theft took place that day in the locker room of the Men's Gym.

With the police leading the way, the suspect was found in his dormitory room Friday night and confronted with the evidence uncovered by the investigators.

Admitting guilt, he was asked by Jones if he had read Friday's Flambeau story saying that the police had been called in on the theft wave. The student indicated that he had read the headlines, but didn't think the story would be of any importance.

NOT CONNECTED

Jones said that the theft apparently had nothing to do with the theft of money and a watch from Notre Dame baseball players Tuesday night.

"That was one of the two cases of breaking and entering we've had this year," he said. "This was a clear-cut case of someone being careless about locking their locker with money in it."

Jones emphasized that most of the thefts have been due to students leaving purses, pocketbooks and valuables lying around, either in plain sight or in an unlocked locker.

Periodic checks of the Men's Gym showed that yesterday was the first time in weeks when money or valuables had not been left openly in unlocked lockers.

MUST COOPERATE

"If we are to lick this thing," Jones said, "everybody will have to cooperate to stop it."

Means of cooperation listed by Jones included being more careful about leaving pocketbooks, locking all gym or other lockers and keeping track of valuables and other articles at all times.

Jones said that "if these people who are doing the stealing keep on, they will be caught. The reputation of the university is at stake and we cannot afford to have it ruined by a handful of people."

Jones also said that any further arrests or news concerning the theft outbreak would be made known through the Flambean as soon as they broke.

Filing For Class Elections Begins At 5 P.M. Today

The race for the student body vice presidency between Gerry Gordon and Mattox Hair is drawing chief interest among the four positions being runoff in today's ele ction.

Gordon is the Collegiate Party nominee and Hair is representing the Student Party. Hair received 1,115 votes in the primary to 975 for Gordon A third candidate, Phil Kemblowski, was eliminated with 547 His supporters could well decide the election.

Jim Apthorp, an independent, and Ramon Arnold, Student Party, will compete for the Men's vice presidency in today's runoff. Apthorp received 945 votes in the April 1 election and Arnold 1080. Ed Mason, University Party candidate, was dropped from the race with 579 Mason has indicated public support of Apthorp to the Flambeau.

TWO SEATS

Two seats on the Board of Publications are also at stake today. Bob Wolfenbarger (Student), Tom Hale (Collegiate), Pete Heagerty (University) and Delores Lafferty (ind.) are the candidates.

Sandra Rosenberg, acting secretary of elections, announced that polls will be open from 9 a.m. until 5 p.m. Polls will be at the same places as in the primary election with the exception of the West Hall poll. It will close at 2 p.m.

Results will be posted in the 4th floor of the Education Building early in the evening.

In other political developments, Miss Rosenberg announced that the period for filing for offices in the May 6 class elections begins at 5 p.m today and ends at the same time next Tuesday

PARTY CONVENTION

The University Party will hold their convention tonight in the large Longmire Auditorium. Registration of delegates will begin at 7:30 p.m. according to Gene Caruthers, party chairman. Caruthers said that anyone seeking nomination should be at the convention. He also urged duly elected delegates to be present.

Bruce Brown, Collegiate Party chairman, said that his party's convention would be held Thursday night at 7 p.m. in 124 Science. A speaker will keynote the convention, he added.

Student Party will convene Wednesday evening in 202 Graduate School at 7 p.m. Ronnie Clark, party chairman, told the Flambeau that no fraternity or sorority members would be permitted to sit in the day student or dormitory delegations

Clark also said that because of the lack of time, nominating speeches for major offices would be limited to two minutes and to one minute for all other offices

Campaigning will begin April 29. The offices at stake are president, vice president, secretary, treasurer, and social chairman of the three classes; two women and two men senators from each class, three women and three men judiciary members from each class; two women and two men Honor Court members from the new junior and senior classes; and a traffic court member from the sophomore and junior class.

Set Friday

Four Aces' Concert Opens IFC Weekend

By VIRGINIA DELAVAN

The Four Aces, nationally known vocal quartet, and Tampa's instrumental ensemble, The Skyliners, will give a free concert in Westcott at 4 p.m. Friday, sponsored by the Inter-Fraternity Council.

The concert is part of IFC weekend activities and according to Hank McCann, president, no seat reservations or admission fee will be required.

HALF-HOUR EACH

Each group will perform for a half hour. Following this will be the introduction of IFC Queen candidates and the awarding of trophies for fraternity homecoming decorations, scholarship, intramurals, "Fraternity of the Year," and "Host Fraternity of the Year."

The Four Aces, a top singing group since 1951, is composed of Al Alberts, lead; Dave Mahoney, tenor Sod Vaccaro, baritone; and Lou Silvestri, base.

Their first song bit, "It's No Sin," topped the one-millioo record sales mark Since this, five other Aces' recordings have hit the magic mark, "Tell Me Why,' (a two-million seller composed by the group), "Stranger in Paradise," "Three Coins in the Fountain," "Love is a Many-Splendored Thing," and "Written on the Wind."

OSCAR-WINNERS

Both "Three Coins" and "Many-Splendored Thing" were Academy Award winners. The Four Aces are the only quartet to have performed at the Oscar ceremony, singing "Written on the Wind," at the '57 affair.

The group, which has traveled 700,000 miles in six years on club, auditorium and theatre dates, was the first and to date the only group to headline the Londoo Palladium. On this engagemeot in 1955 they played two shows a day to capacity audiences.

They were the winners of Cash Box's "Best Vocal Group" award for four years running—1952, '53, '54, and '55. A oationwide poll of 726 disc jockeys conducted by the United Press named the Aces '56 and '57's "Outstanding Vocal Group."

TV AND MOVIES

Their many television appearances include spots with Perry Como, Kate Smith, Jackie Gleason and Ed Sullivan. Two full-length movies, "Meet Me in Las Vegas" and "The Big Beat," and a short "The Four Aces Sing," are also among their credits.

Each of the members of the group was originally an instrumentalist. When they began recently to intersperse instrumental oumbers in their vocal concerts, they were amused to find that audiences though they bad just learned to play instruments.

Glee Club Sets Concert Tomorrow

The Women's Glee Club, directed by Miss Betty Jane Grimm, will present a spring concert tomorrow night.

The public is invited to the concert, slated for 8:15 p.m. in Westcott Auditorium. The diverse program will include selections from the 16th, 17th, 18th, 19th and 20th centuries, both sacred and secular music.

Thomas Wright of the music faculty will be accompanist for three numbers, "Symphony," which he wrote and arranged for women's voices, and for two arrangements by George Roth, "Stormy Weather" and "Wunderbar."

Miss Nancy Smith of the women's physical education faculty will be featured in a solo dance for the Blessed Damozel number hy DeBussy which will also present two student vocal soloists, Christine Bryan and Beverly Brown. Carol Poppenger and Henriette Morrill will be soloists for other numbers.

The program will open with a 16th century selection, "Magnificat in the Fourth Mode" by Palestrina, and will include Bach's "Hear! King of Angels," an arrangement of the 61st Psalm by Larry Zingale, a Tallahassee doctoral student in music, and folk songs by Franz Peter Schubert and Thomas Pittfield.

Counseling Period To Begin April 21

Dr. Melvene Hardee, Coordinator of Counseling, has announced that an "important period of academic counseling is approaching"

Students should acknowledge the program by planning to consider scheduling problems with their advisor early.

Advising for all students oo the 1958 Fall schedule, as well as for the 1958 Summer, will begin April 21 and continue through May 18.

In conference with the faculty advisor, students will complete the green schedule blank which is turned in thereafter to the Office of the Registrar. The Registrar will release more specific details on the registration procedures for summer and fall.

Students who are unsure of the name and office location of their faculty advisor should get in touch with staff in the Office of the Coordinator of Counseling, 301 Westcott Building.

Stray Gunshots Are Troubling Gator Police

Four or five shots were fired into the University of Florida police station early Friday morning in what appeared to be the beginning of harrassment campaign on that campus

Fired at approximately 1:30 in the morning, two .22 caliber bullets crashed through the window of the station, missing desk sergeant Louis Ennis by eight feet. Another bullet was found imbedded in the roof.

Ennis said that he heard four or five shots and then a car drive away.

Friday afternoon a youthful voice called the Tampa Tribune office in Gainesville and said that the shooting was the beginning of a harrassment campaign by an "organized group of students"

The caller, refusing to name himself, said, 'This campaign will be continued. When the momentum builds up, a statement of policy will be issued about what we want."

"We are a small organization now, but it will grow," the voice declared

"We think the police department should have the students' interest a little more at heart,' he finished

A similar call to a local radio station revealed that the group objects to the parking ban on campus for freshmen and sophomores.

A PANORAMIC view of Lake Bradford and dock facilities at the Reservation.

Carathers Speaker Far IFC Banquet

The Inter-Fraternity banquet will be held Thursday night at 8 p.m at the Suwanee Room as IFC week officially gets under way.

Dr. Milton Carothers, Dean of the Graduate School, will be the guest speaker for the dinner.

Price for the meal will be $1.00 per person.

Is The Truth Hurting?

Our high schools seem to be in danger of coming under a form of censorship which would cut out any criticism of themselves.

LAST WEEK THE National Association of Secondary School Principals sent out a letter to more than 20,000 senior and junior high principals urging them to cancel their school subscriptions to **Life** and **Time** magazines "as long as they have an attitude and policy inimical to education."

Many of us have seen and read the series of articles dealing with American secondary school education appearing currently in **Life**. In this series **Life** discusses at some length the shortcomings and neglect which they see in the teaching of science, mathematics, and foreign languages.

THE ASSOCIATION, which is a branch of the National Education Association, argues that the opinions and statistics of **Life** are "untruthful."

So now we have the schools deciding what is "inimical to education" and "untruthful."

AS TO THE charges of the articles' untruthfulness, we have yet to see the Association actually refute the contentions of **Life**. And who is to say what is "inimical to education?" Probably **Life's** criticism and suggestions are "inimical" to the educational methods of the entrenched school administrators. But are they really inimical to education in the broadest sense of the word?

That is a matter of opinion.

WE THINK that the students presently enrolled in our high schools have the right and obligation to read and discuss the criticisms of the puhlic secondary schools. For the schools exist for them. They will be affected by the shortcomings of education, if such shortcomings exist.

If, as the Association claims, **Life's** opinions and facts are "untruthful," won't the students in the high schools discover this due to their proximity to the school. However, we doubt, if all of **Life's** facts and opinions are untruthful. The high schools will be doing their students a real disservice by keeping criticisms of themselves from the minds of the students.

"THE TRUTH HURTS" an old saying runs. We think that perhaps the truth is hurting here and the Association doesn't want it to show.

We hope that principals throughout the state and nation will not abide by the Association and use economic threats to change the attitude of the Luce publlcations or that of any other publication.

Diversity of thought is as important to education as it is to politics. The Association should recognize its mistake and reverse its actions.

★ ★ ★ ★ ★

Turn Down Revision

So far Governor Collins seems to have no strong help from organized groups or other well-known Florida personalities in his fight to sell the proposed constitution to the people of the state before the November election.

THIS WEEK three fairly influential organizations turned it down: The State League of Women Voters, the Florida Federation of Republican Women, and the Florida Wildlife Federation. While not pretending to exert any influence over state politics, the **Flambeau** also turns down the revision.

Although attempts have been made to declare the proposed constitution unconstitutional because of its "daisy-chain" clause, it is due to come up in November for a referendum vote. Either the voters must accept all of the changes, including reapportionment, or reject the entire revamping attempt of the 1885 charter.

THE ADVOCATES of the revision claim the "daisy-chain" is necessary and logical since the intent is to amend the constitution as a whole, and since the adoption of only part of the article would create confusion and chaos.

However, we feel, along with many opponents of the revision that the voters are being given a snow-job by North Florida politicians who, in reality, do not want any revised constitution.

AS WE HAVE charged previously, these politicians are using the revised constitution as a smoke-screen for a token effort at initiating a fair reapportionment plan. If the constitution passes, however, the sparsely populated North Florida counties will enjoy no less representation than is called for in the present antiquated document.

In examining some of the proposals adopted in the revision, we cannot see that it offers any essential or imperative changes. In fact, it looks to us like a heavily veiled rehashing of the constitution passed in 1885.

THE MAIN CONTRIBUTION, perhaps, to a revision with substance is the creation of the position of lieutenant governor, but oddly enough the office seems to have no important duties other than succeeding the governor in case of death.

Another needed reform, method of enacting county ordinances, has been restricted hy the Legislature to such an extent it is douhtful how effective it will be.

THE CHANGE in reapportionment will still allow rural areas to decide what is best for urban areas and distribute tax money to their favor.

What better proves the dictatorial nature of these small county politicians than their refusal to submit a fair revision of the constitution to the people? The attitude that "we must accept the bad part of the revision in order to obtain some good" is quite disillusioning.

THIS MIGHT BE a quite "idealistic" view, but accepting an inferior document because lawmakers refuse to give the voters a fair one does not seem the thing to do. If the revision is accepted it will be many years before the lawmakers offer the people a better constitution.

Opponents of the revision should reject a proposal that does not meet the needs of the state, and send their representatives back to write one that does.

Educate Average Students Too

LETTERS to the EDITOR

TO THE EDITOR:

Sir, I would like to exercise the more fundamental of our two God-given rights. These rights may be classified as 1. freedom of expression (religious, speech and press) and 2. the right of improvement. I will use the first right to voice my opinion of the latter.

ON THURSDAY, April 10, 1958 there was a discussion between two of our faculty members before the PTA of Kate Sullivan Elementary School. This debate dealt with the question of whether or not to educate only the gifted students.

In my mind there is no problem here. Every man, woman and child in our present society has the right to improve himself. This inalienable right shouldn't be reguarded as a privilege to be distributed only to those with IQ's of more than 120.

IS IT A SIN to be average? If so, the great majority of the population of the United States is condemned to Hell. Should the average man be refused the chance to learn of the natural scieoces, the social sciences, the humanities, because he cannot graduate Phi Beta Kappa by our present standards? Should he, because of his average intelligence quotient, be forced to live a life of mediocrity? We must remember that in education the majority of the work of the intelligencia will rise to greater heights.

THERE SEEMS to be four theories of education today. Namely, educate the best, shoot the rest; educate the best, entertain the rest; pour it on (euspidor theory) and make it tough. The last two are not so drastic, but to agree with the first two one would have to adhere to mass murder or to the old cliche, "There's no business like show business." Let us hope today's educators do not suddenly become subscribers to "Murder, Inc." or to Variety, because either of these two alternatives will rob the average student of one of his God-given rights.

Sincerely,
BEN C. WITHERS.

Campaign Letters

Vice President

DEAR STUDENTS:

I sincerely thank you for the fine vote that was given to me in Tuesday's election. I only hope that I may be worthy of the confidence that you have placed in me.

Today is an important day in the future progress of our university because you must select a vice president who will meet important problems that one will be faced with in the future

I hope that you will consider me as your choice for this important position.

Sincerely,
MATTOX HAIR
Candidate for Student Body Vice President

TO THE STUDENTS:

Just a reminder! We who have been in a position to know . . . know that Gerry Gordon is the **Most Qualified Candidate for Vice President of the Student Body!** We whole-heartedly support him in the coming election.

Jan Kaminis, vice president student body; **Bob Murray**, vice president men's affairs; **Kate Ramsey**, acting secretary of senate, **Jerry Dye**, judiciary; **Al Ulmer**, governor men's dorm; **Elvia Garcia**, vice president women's dorm; **Jarry Williamson**, freshman class; **Joyce Nackolls**, vice president women's dorm; **Bruce Brown**, president freshman class; **Joe Westhafer**, fraternity president; **George Ort**, social chairman freshman class; **Kay Hall**, treasurer sophomore class; **Buck Bryan**, chief justice honor court; **Kip Tichenor**, vice president freshman class; **Linda Broderick**, social chairman senior class.

Men's Veep

DEAR STUDENT,

I would like to thank each of you who voted last Tuesday in the first primary. I was pleased with the number of students interested in securing good student government at Florida State.

You as a voter have a tremendous task of selecting the most qualified and interested persons to work in your student government. I realize that often the choice is a difficult one because you possibly do not have an opportunity to talk and work with all the candidates. Therefore, I feel that it is very important to consider a persons past record as an indication of his future interest and activity. I also feel that my interest in Florida State and student government is evidenced in my participation as Freshman Senator, Sophomore Class President, member of Alpha Council, Chairman Organizations Committee, Chairman Freshman Rat Program, Homecoming Committee, Chairman Sophomore Hop, Chairman Sophomore-Senior Buffet Supper, and member of the Spring Dance Committee.

I hope that you will consider my qualifications carefully and that you will allow me to serve you next year as Men's Vice-President.

Sincerely,
RAMON ARNOLD,
Candidate for Men's Vice-President.

BOP

DEAR FELLOW STUDENTS,

We, the undersigned, wish to endorse TOM HALE for the office of STUDENT BOARD OF PUBLICATIONS. We feel that Tom more than has the necessary qualifications for the office. As you know, the Board of Publications has the over-all responsibility of governing student publications and we feel extensive experience is necessary in all phases of publications to do an effective job. We submit his qualifications for your consideration.

1. Member of FLAMBEAU staff for three years.
2. Sports Editor of 1958 TALLY-HO.
3. POW WOW section editor.
4. Employment as assistant to Editor in the Attorney General's office.
5. Extensive experience on other minor student publications.

We hope you will consider TOM HALE when you cast your ballot for the BOARD OF PUBLICATIONS today

SINCERELY,

Art Moore, Bruce Brown, Evie Morris, Charlst Poitevint, Desse Pinckard, Juna Sillay, Bucky Canon, Linda Rollins, Priscilla Moss, Nancy Gene Brown.

Writer Mixed Up About Senate

TO THE EDITOR:

In response to a letter written by John G. Deal, about the activities that are proposals of our Senate, I would like to clarify the following points.

The first point, is the obvious fact that the writer doesn't know the difference between the Student Senate and the Women's Senate. The main complaint of his letter is about senior women students, being able to stay out after 7:30 p.m. without registering their activities, concerns Women's Senate. The portion of his letter concerning rather minor things done by Senate, pertains only to the Student Senate.

As far as his wanting to get a cup of good coffee, a dollars worth of food for a dollar, and a funny humor magazine, what is more Mickey Mouse for the Student Senate to do? Can't Mr. Deal just see a motion in Senate to provide for a good cup of coffee.

If Mr. Deal is really serious about his Mickey Mouse suggestions, I would like to give him his Senators names. I am sure that Senators: Don Lewis, Kate Ramsey, Betty McGowan, Gerry Gordon or Mattox Hair, would be glad to give him some help. Also it would be good for his own benefit to visit in the Student Senate at least once a year, if he can find time. I cannot recall seeing him in Senate meetings, and his Senators do not recall anyone asking them about investigating why you don't get a dollars worth of food for your dollar, or about not getting a good cup of coffee.

Also, on behalf of Polly Atwater, I would like to invite Mr Deal to attend Women's Senate meetings. Since I know that he is so concerned with our campus situations I will look forward to seeing him at these meetings.

Cordially Yours,
THOMAS HUGHES

Rain Created A Job For Gondola Owner

By LAWRENCE PERKINS

GREETINGS!

I THOUGHT that my readers might be interested i[n] delfcate little ode written by my roommate. Plutarch P[...] meter, during the first few weeks of the fall semester. [...] seems appropriate.

Ah!
O capital of land of lemon trees—
O blest of orange bud and ocean breeze—
O come to Tallahassee—come and sneeze,
And Sneeze
And wheeze
And freeze,
Ah!
Ah!
Ah-choo!

Actually, I don't see what all the fuss is about. This is the Sunshine State, isn't it? Well, a cursory examination of the license tags in any parking lot on campus will give you an idea of how many out-of-state students we have. I guarantee that when they finish this year and go back home, they will have a respect and appreciation for sunshine that they never dreamed of before.

THERE ARE other advantages; it's an ill wind and all that sort of thing Gaetano G. Garibaldi, an Italian exchange student, was doing a land-office business last Wednesday. It seems that for sentimental reasons he had brought a gondola along with him—sleeps with it under his pillow when he gets homesick—and he was charging twenty-five cents a trip for rides from West Hall to the parking lot. What a stirring sight it was to see him paddling along singing Neapolitan songs. He tells me that he made enough to eat at Morrison's all week.

ANOTHER RESULT of the rain was to restore the arable land extending from West Hall to the Student Center. This is a thick layer of rich silt, underlain by a concrete foundation which prevents excessive drying out of the soil. The resulting standing puddles would necessitate hip boots or some such similar attire on the part of the farmers, but that is a small detail. I only hope that the disaster of last March is not repeated. Just as the little seedlings had gotten a good start, some selfish fellows—apparently with the selfish idea of recovering the concrete foundation as a sidewalk — came and utterly destro[yed ...] land. Let us hope tha[t ...] thing does not occur a[...]

Composers Contest Has Best Talent

By JOHN KNOBLOCK

The annual Campus Composers contest, sponsored b[y ...] Mu Alpha Sinfonia Saturday, featured the works of bot[h ...] dents and faculty. Charles Rowden opened the progra[m ...] his Thema and Variations, a composition which won the Florida Composers League, student division, first prize. The composition was calm and subdued and used extended tonalities and free development of the thematic material. After somewhat uneven variations, Mr Rowden's work was concluded by a fugue of impressive skill and style.

Margaret Yeats, soprano, accompanied by Joyce Cavard, sang Miss Cayard's song based on a poem by Ranier Maria Rilke. One was amazed at the "intellectuality" of its content and dismayed at the abstrusity and obscurity which one does not associate with Rilke's verse. This song was followed by a Sonatina for Flute and Piano by George Newall. Miss Diana Butler, flute, accompanied by Dr. John Boda, gave an appropriate performance of this somewhat more conventional music.

"Song and Sigh," by Doris Strong, seemed too short to be performed alone, and could have used either an expansion or incorporation into a song cycle. Harold Schiffman's basically tonal "Four Songs," based upon the Chamber Music of James Joyce, proved to be the most advanced and accomplished student composition.

The performance of C[...] Bryan, mezzo-soprano, [...] panied by Billy Alton, pia[...] cessfully conveyed the [...] of both works. Miss Bry[...] formances duplicated [...] and facility the high st[...] of her previous perform[...]

Dr. John Boda, a me[...] the music school faculty [...] ed one of the two facu[lty ...] positions. It's Great To Win

As the saying goes, "It's great to be a winner."
And sitting down on the infield press box Saturday recording ...ushes of Florida State's track team against the Gators, one ... feel the enthusiasm mount among the track team.

When it was all over we were all smiling—especially Coach ... Long who was wearing a smile that stretched from ear to ...

For some it was the culmination of a long, long time without ... over the Gators, for men like Mike Conley and Jack Ter...ger.

Before the meet started I talked with both. Mike didn't like ...rack "Ours is better," he said. "I wish they had been able ...mplete their new one here."

For Jack Terwilliger it was the big meet. "I've been wait... four years to win; that's a long time to wait for anything. ...going to give it everything I have."

That's exactly what he and everyone else on the team did. It ... great team victory.

Florida had run up a string of 11 straight dual meet vic... before Saturday, and hadn't been beaten by such a margin ... 1949.

And the Gator supporters weren't very happy about the out...—that you can be sure of.

...SESSION TOO MUCH

The idea of beating Florida at every sport is getting to be ...ch of an obsession to most everyone, myself included.

Whenever any athletic event involving the Gators approaches ... increases, emotions become stronger and anticipation ...nts in fans and athletes alike.

We point to it as "the big one." And if we lose, and we've ... them six times this year, it's a bitter pill to swallow. ...more so than if we should lose to some other school.

Across from the track field, the baseball team was dropping ...second straight game, 8-1. The first, which they lost, 8-7, ...ding to observers of the game should have had a different ...ng.

...haps Coach Danny Litwhiler had the right idea when he ... Florida doesn't point to their games with us. To them we're ...nother ball club that they want to beat.

... seems our athletic teams want to clobber Florida, and ... wrong attitude. Of course I want to win, but what's ...ference in winning by one run or a score of runs? In the ...ooks it's still a win."

...nk Litwhiler has the right idea. It doesn't matter if a ...dges another by one point in track, one run in baseball or ... in tennis. At the end of the season it's still the total ... of victories as against the total number of defeats.

I realise it is an easy thing to say and write, but the tough ... is to get people to change their opinions and feelings toward ...ma things.

...e, we lost rather badly Saturday but we were beaten by a ...team. There can be no excuses—you can't win them all.

...MINOLE SLANTS. Everyone was mighty happy to see **Ben** ... finish third in the 880 run as he put on a last lap kick to ...ce Florida's runner and give the Tribe a sweep in that ... **Jerry Henderson** broke the javelin mark not once but ... His first throw went for 210' and came very close ot the ...box. Had us jumping. His winning heave was more to... the center of the field. Sports Publicity Director **Pal Hogan** ... if he had been lifting weights? . . . **Bernie Parrish** slammed ... on the plate after being fooled on one of **Jack Bristol's** ... and striking out. . . . The track team taped up some of ...ndows of the bus spelling out "We Won."

Baseball Team Loses Twice

By FRANK RAMOS

Bernie Parrish, Florida's hard hitting second baseman led the Gators to a double victory over Florida State's baseball team in Gainesville last weekend by scores of, 8-7 and, 8-1.

Parrish knocked out six hits including two home runs and drove in six runs to put on another terrific show against the Tribe.

The Gators received top-notch pitching Saturday from sophomore righthander Ray Oestricher. Oestricher allowed the Seminoles only one run and scattered seven hits.

Owen McCarron, FSU centerfielder, increased his batting average in the two game series by rapping out four hits.

In Friday's contest the Gators rode a disputed double play call in the third inning and Parrish's home run to whip the Seminoles.

In Florida's half of the third and a man on first the next batter tapped the ball back to Bristol who threw to Dick Howser who relayed the ball to Rogers for an apparent double lay.

But the base umpire called the man at second safe saying that Howser had missed the bag but admitted that he didn't see the play at first. When Litwhiler asked the plate umpire to call the play, he refused, saying that be hadn't seen the play either and therefore couldn't call the runner out.

BRISTOL SHOOK

This put Bristol in hot water because instead of having two out and nobody on he had two on and none out. The Gators with the help of Parrish's big bat sent six runs across the plate that inning.

McCarron started off the sixth inning by outlegging a bit to left field for a triple. After an out Howser walked and Philp continued his hitting campaign by doubling in the run.

Mike Copps then drove Howser across by grounding out shortstop to first. Philp scared the tie breaking run by coming in on an overthrow by Florida's third baseman.

Wrestling Starts In Intramurals

Intramural wrestling opened last Wednesday night in the men's gym.

This is the second season that wrestling has been sponsored by the intramurals department.

It is hoped that by holding intramurals matches enough interest can be developed to warrant a collegiate team.

Jack Chevrette is heading this season's matches and he would like for anyone interested to contact him.

In Wednesday's action eight classes were represented. Seven weight classes and one unlimited class.

SAE and LCA were leading in points at the end of the first night's action, according to Chevrette, official scorer.

At the end of the second night's action, Thursday, LCA was still leading in points, but PDT began to nudge SAE out of second place.

Thursday night saw seven weight classes and one unlimited class represented.

The semi-finals will begin tonight at 7:45 in the men's gym. A fourteen match card will be played.

Tomorrow night the semi finals will be finished and the finals will start. Thursday night is scheduled

(Continued From Page 3)

for the final night.

VOLLEYBALL

Newman Club won the Dorm-Independent Volleyball crown in a playoff game with the Veterans Club.

MIKE CONLEY SETS the pace in the mile run at Gainesville against Florida, Saturday. Florida's Mike Morgan follows Conley and FSU's Tom Keeney is on Morgan's heels. Conley won.

GOLFERS FACE GEORGIA

On a current road trip through Georgia, the Florida State golfers stop off at Athens today to tangle with the linksters from the University of Georgia.

The Seminoles carried an 8-3 mark into yesterday's match against Georgia Tech in Atlanta.

This will be the second match of the season between the Tribe and the Bulldogs. Earlier this season Georgia beat the Seminoles in Tallahassee, 16-11.

FSU won two matches last weekend as it downed Moody AFB for the second time this season and racked Auburn $25\frac{1}{2}$-$1\frac{1}{2}$.

UNDER-PAR ROUNDS

Two Florida State golfers fired three-under par 69's in the Auburn match. Bob Shave and Dink Wise shared medal honors for the Seminoles.

The team total for FSU was six under the par 72. Don Torppa fired a one-under par 70 and Rem Noble carded a 72 for the Tribe.

The FSU team holds victories over Wisconsin, Moody AFB (2), Jax Navy (2), Georgia Tech, Florida, and Auburn. The three losses came at the hands of Florida, Georgia and Rollins, who is undefeated for the season.

The summary for the Auburn match:

Shave (69) and Mel Fleischer (74), FSU, defeated Bryant Harvard (74) and Johnny Gross (74), $7\frac{1}{2}$-$1\frac{1}{2}$.

Noble (72) and Dick Hanscome (72), FSU, defeated V. C Lokey (78) and Jake Patterson (78), 8-0

Torppa (70) and Wise (69), FSU, defeated Roy Abell (83) and Henry Wheston (79), 9-0

Gym Team 6th In NCAA

After arriving 16 hours late, the Florida State gymnastics team finished sixth in the NCAA meet at East Lansing, Mich., Saturday.

Michigan State and Illinois finished in a tie for first place. The Seminoles garnered $20\frac{1}{2}$ points to grab the sixth spot behind Penn State, Iowa and Michigan.

Chick Cicio placed third in free exercise for the Tribe and teammate Larry Malmlin copped fifth in the same event. Laird Anderson finished fifth in the rope climb for FSU.

Coach Hartley Price said he was pleased with the team's showing since there were 35 teams entered in the match. Such teams as Army, Pittsburgh and Western Illinois finished below FSU.

The NCAA match was the last collegiate competition for three seniors on the FSU squad. Joe Gusie, Don Priesser and Anderson are the three men who will graduate in June.

The next action slated for the FSU gym team will be the NAAU Championships May 9-10 in Los Angeles, Calif.

TECH GAME CHANGED

Florida State's football game with Georgia Tech originally set for September 26 has been shifted to Friday the 25th at night. The Nationally televised game between Auburn and Tennessee was the cause of the change.

Frosh Baseballers Drop Doubleheader

The Florida State Freshman baseball team dropped a doubleheader to Troy State Teachers College Friday night, 15-7, 12-5.

The losses gave the baby Seminoles a record of 2-2 for the season. For Troy, it was the fourth straight win against no losses.

FSU outhit Troy in both games but errors—eight of them—proved to be the Seminoles downfall. In the first game the Seminoles knocked out 11 hits to the Teachers' eight. The Tribe picked up eight hits in the second game while Troy garnered seven.

First baseman Doug Walker was the big man in the FSU lineup as he blasted four hits for the afternoon. In the first game, he had a home run and a single and in the nightcap he collected a double and a single.

The baby Seminoles two wins came earlier in the season when they downed South Georgia Junior College and Hanover College. FSU will get another crack at the Teachers later this month when the Seminoles host Troy for two games on April 26.

THE FINAL Florida run is scored by Florida pitcher Ray Oestricher against the Seminoles in Gainesville Saturday. Bill Westendick is the FSU catcher.

Florida Tracksters Ripped By Tribe

By PHIL ROYCE

The feared Gator was rendered toothless Saturday in Gainesville as Florida State's track team downed Florida 74 1 15 to 56 14 15 to end a Gator 11-meet victory string.

Three individual stars plus unexpected depth from a handful of sophomores paved the way for the victory for the track team recognized in most quarters as the South's finest.

The trio of stars were Jim Casteel, Mike Conley and Jack Terwilliger. Casteel won the 440, was second in the 220 and broadjump, and third in the 220 low hurdles. He was the day's high scorer, collecting $13\frac{1}{4}$ points.

CASTEEL SETS MARK

Casteel's time of 48 7 seconds in the 440 set a new school mark topping his own 49 second effort against Roanoke two weeks ago.

Conley and Terwilliger were both double winners. Conley won his specialties, the mile and 2-mile runs, and Twig copped firsts in the 100 and 220.

The three Seminoles also ran legs on the winning mile relay team to figure in six of the nine blue ribbons captured by FSU as the Tribe won in far more convincing style than figured.

Other Seminoles who won as expected were Jerry Henderson in the javelin, pole vaulter Dick Elwood, and Doyle Ruff in the 880. Henderson's winning toss of 215 feet $8\frac{1}{2}$ inches broke the old school record of 205' $1\frac{1}{2}$'' set in 1955 by Ron Weaver.

SOPHS PROVIDE DEPTH

Sophomores provided much of the depth for the Tribe as well as the big surprises of the meet. Charley Nye and Ben George finished second and third respectively in the 880 behind teammate Ruff to insure the only sweep of the day.

The expected duel between Ruff and the Florida 880 star failed to materialize as the Gator was forced to eat the dust of all three of the Tribe's entries.

Another FSU sophomore, Herb Sigmund, tied for second in the pole vault with teammate Don Ayres and a Gator. Sigmond's second marked the highest finish of the year for the hard-working young Seminole.

Perhaps the biggest surprise of all was provided by sophomore miler Tom Keeney who finished second behind Conley beating Florida's ace, Mike Morgan in the mile run.

Keeney ran even with Morgan for the first 3 and ... laps and then outkicked his Gator opponent on the last 220 yards of the event. The smooth-striding Keeney, who came out for track last year on his own to see what he could do, also placed third in the 2-mile run, again beating Morgan.

Mile run—1. Mike Conley, FSU, 2. Tom Keeney, FSU, 3. Mike Morgan, Florida, 4:21 4.

440-Yard Run—1 Jim Casteel, FSU 2. Doyle Ruff, FSU. 3 Larry White, Florida 48 7

Pole Vault—1 Dick Elwood, FSU. 2 (Tie) Herb Sigmund and Don Ayres, FSU, and Dick Romi, Florida. 13 feet 1½

Netters Rip Mercer, Snap Losing Streak

Florida State's tennis team broke a three match losing streak here Saturday as they overpowered Mercer, 9-0.

It was the seventh win of the season for the Seminoles as against five loses.

The Tribe made fast work of Mercer as neither a singles nor doubles match went the full three sets.

Thursday the netters found the going a little rougher as they bowed to Florida in Gainesville by a 9-0 score.

Summary of the Mercer match:

Lex Hester defeated Sam Daniel 8-2 8-0. Jim Berry defeated Jim Hinson, 8-0, 6-1, Frank Bryan defeated Bernie Garwood 6-0, 8-0; Alex Sutor defeated George Thompson, 8-1, 8-3; Jackie Crew defeated Louis Norwell, 8-0 8-0 Howard Levy defeated Maurice Maxwell, 8-0, 8-0

Doubles Bryan-Maddock defeated Daniel-Hinson, 8-4, 8-4 Berry-Crew defeated Garwood-Thompson, 8-0, 8-2, Rollinger-Sutor defeated Norwell-Maxwell, 8-1, 6-2

Art Symposium Jointly Sponsored

The University of Florida will join Florida State University and the John and Mable Ringling Museum of Art for a first time in sponsoring the eleventh annual Art Symposium, April 21-26, at the Museum in Sarasota.

All lectures and special events planned for the six full days will be free and open to the public, according to Dr. James McDonough, head of the Department of Art at FSU. He is co-director of the program with Kenneth Donahue, director of the Museum, and Clinton Adams, head of the Art Department at the University of Florida.

MARTIN SPEAKS

Dr. A. B. Martin, vice-president of FSU, will make the welcoming address at the formal opening on Monday, scheduled for 9 a.m. Instead of having a general theme this year, experts in various fields of art will discuss their particular interests.

Included on the program will be two lectures on sculpture, renaissance and modern, by Dr. H. W. Janson, chairman of the Department of Art, New York University.

Brooks Stevens of Milwaukee, Wis., prominent American industrial designer, will lecture twice and Dr. Francis R Walton, head of the Classics Department at FSU, will give an illustrated lecture on Greece with color slides.

An exhibition of 50 paintings by graduates of FSU, U of Florida and U of Miami will be on display. Artist teachers of Florida will present a round-table discussion on the paintings. Participating will be Karl Zerbe of FSU, Adams, Clayton Charles of the U. of Miami and Ernest Briggs of the U. of Kentucky.

Three night events slated to begin at 8 30 are: Tuesday, concert by Faculty Woodwind Quintet, U. of Florida; Friday, piano recital by Edward Kilenyi, professor of music at FSU (works of Bethoven, Chopin and Dohnanyi); Saturday, Ben Johnson's play, The Alchemist, presented by the FSU Department of Speech, and directed by Dr James W. Brock.

The entire program will be held in the Asolo Theater (18th century theater transported from Italy) at the museum with the exception of the Kilenyi recital which is slated for the nearby John Ringling home. The theater will hold 400 and capacity audiences are anticipated.

Early registrations at FSU, U. of Florida and U. of Miami indicate that about 150 art majors from the three schools will attend the symposium.

Campus Movie Built Around Prize Fighter

"The Champ," an MGM production, will be showing on campus this week in the campus movie series.

"The Champ" is a heart warming story of a broken down prize fighter and his son who idolizes him. The 86 minute film stars Wallace Berry, Jackie Cooper, and Irene Rich.

Campus films are shown at 7:30 p.m. at the following places, Florida Hall, Monday; Landis, Tuesday; West Hall, Wednesday; Senior Hall, Thursday; and Westcott, Friday.

Students and University employes and their families are invited to attend free of charge.

The next movie to be shown on campus will be "The Grand Hotel," and will begin the week of April 28. The last picture to be shown this semester will be the two-Oscar winner "All Quiet on the Western Front". The Film stars Lew Ayres and will be shown only once at the Westcott Auditorium on May 13.

Tonight in the Library lecture hall, there will be four short films sponsored by the Botany department. The films are: "The Riddle of Photosynthesis," "Carnivorous Plants," "Learning About Flowers," and "The Growth of Seeds."

There will be a discussion and question and answer period conducted by Doctors Neilson and Greenly between the films. The program is scheduled from 7:30 to 9:30 p.m.

There is no admission charge and all are invited to come. Anyone wishing further information on the botany film showing may contact the Audio-Visual Department.

Mathematics Ace Slates Lectures

A distinguished mathematician from the University of Notre Dame, serving this year on the Mathematics Panel at Oak Ridge National Laboratory, will visit the FSU campus tomorrow and deliver two lectures.

Dr. Ky Fan, whose fields are functional analysis and topology, will speak in 213 History at 3:30 p.m. and in 120 Geoolgy at 8 00 p.m.

The evening lecture will be sponsored by Pi Mu Epsilon honorary fraternity, and will be of interest to advanced undergraduates in mathematics or related sciences: the afternoon lecture will be of a more specialized nature.

Dr Fan, born in China and educated in France, received his doctorate in Paris in 1941. He later spent two years as a member of the Institute for Advanced Study, Princeton, N J., and has been on the Notre Dame faculty since 1947

His topics will be, in the afternoon, "Some Convexity Properties of the Spheres in Normed Linear Spaces" and, for the evening talk, "Elementary Combinatorial Proofs for Certain Properties of the Spheres."

Dr. Fan's visit is made possible by the Oak Ridge Institute of Nuclear Studies

Light Compositions Key Band Concert

The Concert Band, directed by Robert Braunagel, will present a Spring Concert, tonight.

Members of the Concert Band have performed at the Garnet and Gold football game, and have prepared a program of pleasant light classics, marches and semi-pop tunes.

Featuring such familiar compositions as Goldman's "On the Hudson", and selections from "My Fair Lady" The Concert will be presented in Opperman Music Hall at 8:15 p.m.

There is no admission charge.

Signals Same

Board Requests Cuts For Flambo, Tally-Ho

The Board of Publications last week recommended cuts in the budgets of the **Tally-Ho** and **Flambeau** amounting to $2.845.

The Board voted to cut the **Tally-Ho** budget from $38.795 to $36.795, and **Flambean** budget from $30.845 to $30.000, in an economy measure encouraged by student government.

The **Smoke Signals** budget of $4.600 received no cut.

REQUEST INCREASES

The **Tally-Ho** and the **Flambeau** requested an increase of almost $7.500 to allow for rising printing costs, and in the case of the **Tally-Ho**, for improvements in the quality of the yearbook.

The Board recommended that the **Tally-Ho** reduce the number of pages devoted to features such as the Circus and Gymkana. Another suggestion was that only senior pictures be used.

The $845 cut in the **Flambean** budget is not expected to lower the quality of the paper by limiting the amount of pages each week. Where the cuts will come has not been decided yet.

NOT FINAL

The proposed hudzets have two more steps to go before being approved. The budget committee, headed by Jack Taylor, secretary of finance, will review the budgets after which they will be voted upon by the Student Senate

In other action, the Board elected Jane Salley chairman to fill the vacancy left by Ruth Fritchie who is interning.

In action last month the Board accepted by acclamation the applications for business manager of Philip Kemblowski, **Tally-Ho**; Claude Grizzard, **Smoke Signals**; and Don Talmon, **Flambeau.**

Political Honorary To Initiate Collins

Governor LeRoy Collins will be initiated as an honorary member into Pi Sigma Alpha, national political science honorary, Thursday night.

Along with the governor, the Florida State University chapter will initiate 16 students

Collins is the first person ever elected to honorary membership by the local chapter He was asked to join "in recognition of his ability and achievement in the field of political science."

Dr. Manning J. Dauer, chairman of the political science department at the University of Florida will speak to the group on "Recent Southern Political Theory" after the initiation.

Those to be initiated are: Sushila K Rangekar, Dewey C. Brock, Franklin Hunter, Bucky Canon, L. A Hester, Louis J. Brown, William Swigert, Carl Blackwell, Theodore V. Dooley, Robert Louis Ball, Barbara Chambers, Elizabeth Schmitt, Collis White, James Crouch, Calvin Wilson, and Maj. William E Bird.

Pi Sigma Alpha was founded in 1920 to promote "intelligent interest in the field of government."

Cavalier-Cotillion Tryouts Tonight

Cavalier-Cotillion tryouts will begin tonight at 7:30 at the student center, according to Ginny White, Cotillion president.

Students will dance to both slow and fast records at the preliminary tryouts. There will also be semi-finials and finals, Miss White said.

Miss White urges all students to register early for the tryouts.

FSU Switches To Gas Heat

Florida State University now is heating with gas.

The conversion from oil to natural gas was completed this week, but the heating plant maintains its oil-burning equipment also for occasional use.

The changeover was made in 1½ months by university forces, according to Ray Green Jr., assistant to the business manager. Spencer T. Kinard, mechanical superintendent, said FSU now is the one biggest user of gas supplied by the city.

Under an arrangement with the city, he said, the university will get four cents off the regular price of 40 cents per one thousand feet of gas until the sum of $30,000 is accumulated by this discount.

This means, he said, a city contribution of that amount toward the cost of the changeover, about $33,500. The university meanwhile will maintain oil and oil burning equipment which can be used when the city supply of natural gas is cut off. The city can do this on two hours' notice.

The saving in fuel cost for FSU, Kinard estimated, will be about $17,000 a year based on full use of natural gas.

One improvement for the campus and its surroundings while gas is being used is that there will be less smoke, he said.

Boston CPA Key Speaker At Honor Night

The managing partner in a Boston firm of certified public accountants, Maxwell A. H. Wakely, will speak here tomorrow night at an honors day banquet for outstanding students in principles of accounting.

The occasion, planned as an annual affair, will be at 7 p. m. in the Tallahassee Dining Room. The Accounting Department and the Florida Institute of Certified Public Accountants are sponsors of the event. One hundred and fifty invitations have been sent to honor guests and members of Beta Alpha Chi, accounting honorary.

Wakely, of the firm of Mount and Carter, is a member of the Committee on Federal Taxation and chairman of the Committee on Estates and Trusts of the American Institute of Certified Public Accountants. He is a consultant to the Bates College Small Business Conference.

Local arrangements for the Honors Day Banquet have been made by Maurice A Barineau for the Tallahassee chapter of FICPA and Prof. Edward D. Trembly of the Accounting Department.

Test Bureau Slates Quizzes

The University Test Bureau has announced the following tests to be given tomorrow in 124 Science Building: A. C. E Psychological Test at 5 p.m., California Personality Test at 6 p.m., and the General Culture Test at 7 p.m.

'Higher Education' Is Topic Of Stickler's 'Crisis' Speech

Dr. Hugh Stickler, director of Institutional Research and Service, is featured as the guest speaker in the Crisis Paper series, Wednesday night at 7:30 in the Library Lecture hall. His topic will be "Higher Education."

Dr. Stickler received his doctorate in education from Columbia University in New York City and his undergraduate degree in biological science.

After teaching in the public schools of Iowa and the Panama Canal Zone, he taught at Stephens College (for women) in Columbia, Missouri until 1947, at which time he came to Florida State University.

Beginning this fall, he will [illegible] courses in higher education [illegible] dition to performing his [illegible] duties in Institutional Res[earch] and Service.

Dr. Stickler is a member [of the] Committee of Measurement [and] Evaluation on the American [Coun]cil on Education. He is [a] member of the Association [for] Higher Education.

Next Wednesday

Senate Resolves To 'Call' Prexy

A resolution to "call" Student Body President Aronld Greenfield before them to answer questions pertaining to his administration passed the Senate unanimously at their Wednesday session.

The resolution set April 23, the next scheduled Senate meeting, as the date.

TOO LITTLE

Senior Senator Don Lewis introdueed the resolution saying that he felt that too little was known about the affairs of the executive branch of the government both by the Senate and the student body.

When asked by Men's Vice President Bob Murray whether the resolution was meant to put Greenfield "on the carpet," Lewis replied, "It could be."

"It depends on what he has to say," Lewis added.

President Greenfield told the **Flambeau** that he would be in Jacksonville on a Speaker's Bureau engagement April 23. He added, however, that he would be glad to appear before the Senate at another date to answer questions concerning his administration.

Very little debate accompanied the resolution's passage. Senator Bob Kansky of West Hall said that he felt the Senate had borne the brunt of attack this year while the executive branch had not suffered much attack due to lack of publicity.

Senator Lewis told the **Flambeau** that he was not entirely satisfied with the conduct of the administration this year. The cabinet had fallen down in several areas this year, he said, notably in the promotion of the "buddy system." The buddy system is a method of assisting foreign students begun by cabinet two years ago.

Lewis said that his resolution could be termed "unfriendly" to the administration.

HAIR TOPS GORDON FOR VICE-PRESIDENT

Mattox Hair edged by Gerry Gordon by a narrow 32 vote victory for vice-president of the student body in the second primary election Tuesday.

Hair, the Student Party candidate, received 988 votes to Gordon's 957. Gordon was the Collegiate Party nominee.

Political observers noted that this was the closest race ever run for a major student body office in the history of campus politics.

Hair, presently serving in Senate, was President of the Freshman class last year. He is a member of the Kappa Alpha fraternity.

A 1022 to 812 vote put independent candidate Jim Apthorp in the office of Men's Vice-President. Apthorp defeated Ramon Arnold of the Student Party.

Apthorp is a precinct senator, and a Sigma Alpha Epsilon.

Tom Hale and Delores Lafferty won the two seats on the Board of Publications. Hale, Collegiate Party nominee, received 1077 and Lafferty, an independent, 778. They defeated Bob Wolfeobarger (Student Party) 735, and Pete Heagerty (University Party) 658.

A breakdown of the final election results by parties shows that Student Party was successful in five of seven races. One of the three Collegiate Party candidates was victorious. None of the five University Party candidates won. Five of nine independents won their races.

This was the first year since party politics was inaugurated on this campus that the Student Party has not held the presidency. Apthorp's victory meant the first defeat of a Student Party nominee for the Men's Vice-Presidency since 1954.

Hair recaptured the vice-presidency for the Student Party held this year by an independent.

A total of 1968 voted in Tuesday's runoff.

Students Invited To 'Signals Meet

All persons interested in working on **Smoke Signals** for 1958-59 are invited to attend a meeting at 7:30 p. m. Monday in the **Signals** office, 410 Longmire.

Purpose of the meeting, according to Ron Hamm, editor of next year's **Signals**, will be for staff organization plus a discussion of next year's format.

All present staff members as well as any new persons who would like to serve in any capacity on the magazine have been urged to attend the meeting.

No staff positions for next year have yet been filled, Hamm stressed. All applications for editorial posts, including paid positions, as well as ideas and suggestions will be accepted at Monday's meeting, he added.

Manuscripts, art and picture layouts as well as general ideas may be brought to the meeting, he said.

Art Symposium Transportation Is Available

Students needing transportation to the Art Symposium in Sarasota Monday are requested to contact the secretary of the Art Department at 412 Westcott before 5 p.m. today.

Transportation will be by private car, leaving for Sarasota up until noon tomorrow from Westcott and returning Sunday, April 27.

Non-art majors are welcome to attend the Symposium, says James McDonough, head of the Art Department and co-director of the program, but must have permission from the head of their department in order to be excused from classes.

MUST ATTEND

Art majors are required to attend the symposium either in their junior or senior years. Graduate students are obligated to attend each year they are in school.

"A full program of topnotch events is provided, with ample attention given time for fun," said Rr McDonohugh.

Saturday night at 8:30 Ben Johnson's "The Alchemist" will be presented by the FSU Speech Department.

Directed by Dr. James Brock, the play will be presented in the Aslo Thaater, an 18th Century theater transported from Italy.

End Of Journalism School Is Recommended To Board

Top Priorities Expected For New Dorms

The Board of Control at its meeting this morning was expected to give top building priorities to Florida State University's proposed dormitories.

Funds totaling $955,000 for the men's and women's dormitories, duplicates of West Hall and Florida Hall, were released several weeks ago by the state budget commission.

The present economics building, a frame house at 814 W. Jefferson, site of the new women's dorm, will be auctioned off this month, the **Tallahassee Democrat** reported. Bids will be opened next month, for the projects, the paper said.

The Board was expected to set up a priority list of projects that should be built first, in order of importance. West Hall was the last dormitory to be completed on the campus, and there have been no new housing facilities built since its completion in 1953.

The move to reset priorities is necessary because of a 50 per cent curtailment of all proposed state construction. The cut is needed because the state's tax income dropped far beolw expectations as a result of heavy winter losses in the tourist and agriculture industries.

Uncommitted funds appropriated for building here total $4,433,451, including the amount released for the dormitories. Federal funds amounting to about $2,000,000 are available through government purchase of revenue bonds.

Other proposed FSU building projects whose priority were expected to be determined by the Board are: nuclear research building, $742,000; mathematics and meteorology classroom building, $1,065,520, stadium addition, $500,000; social sciences classroom building, $999,460, and additions to the Oceonographic Institute, $170,365.

Planning money, representing four per cent of the total, has already been released on all the projects except the social sciences building and the Oceonographic Institute additions, but this does not necessarily have any bearing on priority.

Planning money has been released on all the projects except for completion of the stadium.

The Flambeau was unable to obtain details of the priority question by deadline time.

THE FOUR ACES

At Concert, Dance

Four Aces, Skyliners To Perform For IFC

Today's 4 p.m. concert by the Four Aces and Skyliners in Westcott is the second event of a weekend of activities sponsored by the Inter-Fraternity Council.

The IFC banquet held last night with Dr. Milton Carouthers, Dean of the Graduate School as the guest speaker, opened the festivities.

The Skyliners, a Negro instrumental ensemble termed "terrific" by IFC spokesmen, has played at several campus fraternity functions. This is the Aces' first appearance at FSU.

PLAY TONIGHT

The two musical groups will also perform tonight at a formal dance in the Men's Gym from 8 to 12:30. At this time the new IFC Queen and her court will be presented.

Candidates for queen, one sponsored by each fraternity, are Pat Jean Ferguson, Pi Kappa Alpha; Linda Potter, Sigma Chi; Julie Milam, Sigma Phi Epsilon; Frances Spell, Sigma Nu; Barbara Hommer, Pi Kappa Phi; Charlene Bevis, Theta Chi; Joan Offerly, Kappa Sigma.

Rose Marie Tierce, Lambda Chi Alpha; Beverly Laurent, Sigma Alpha Epsilon; Katherine Ball, Alpha Tau Omega; Joyce Combs, Delta Tau Delta; Pat Starnes, Kappa Alpha; Rita Trucks, Phi Kappa Tau; Maralyn Teare, Phi Delta Theta. Paula Parsons this year's IFC queen will crown the winner.

The gym, according to Hank McCann, president of IFC, will be decorated with the "badges" or shields of the participating fraternities.

Tickets will be sold to the general public for $3 per couple at the door. Fraternity members can obtain tickets at their respective houses.

HOUSES CLOSED

"Fraternity houses will be closed until intermission tonight so that house mothers will be able to attend the dance," McCann said. "Also women students attending the dance will have late permission until 1 p. m.

Beginning last night IFC is holding workshop sessions to discuss problems fraternities have in common and how they can best be combatted.

The workshops, with one representative from each fraternity participating, will deal with such topics as public relations, scholarship, effective house management, social life, inter-fraternity relationships, effective rushing and driving safety.

These meets will continue this afternoon and tomorrow morning and afternoon. Tomorrow night each fraternity house will hold an informal open house, starting at 7.

THE MASTER has returned home in this scene from "The Alchemist" and the tables are turned on the three rogues: Dol Common (Isa Cohen), Subtle (Preston Everett) and Face(who is the Alchemist, played by Bryant Simms). The play will be presented as part of the art symposium in Sarasota.

Chest Week On Personal Basis Now

Plans are now underway for the annual Campus Chest Week to be held May 7-14 with a goal of $4,000 set.

"Because Senate ruled out money making projects by Campus Chest, this year's drive will be by personal solicitation only," said Beth Bowen, Campus Chest chairman.

"It was figured that last year the average student spent more than a dollar which will be the desired donation this year," she added.

Each dorm, student religious house, fraternity and sorority house will have a representative. On special nights during the week each group will be called upon to make their contributions. The schedule and representatives will be listed at a later date in the **Flambeau**.

Group Selects Gainesville; Legal Center Requested Here

By JIM McINTYRE

President Robert M. Strozier this morning agreed with a Board of Control report which urged abolition of the Florida State University School of Journalism and subsequently asked the board to consider making FSU "the state center of legal studies."

Strozier, speaking at the board meeting in St. Augustine, said that the report "is one which we accept with mixed feelings."

ONE SCHOOL

The report, which was made at the request of the Board of Control by a group of "distinguished consultants" in the field of journalism, recommended that there be only one state journalism school, and that it be located in Gainesville.

The report was filed by a three-man committee consisting of Norval Neil Luxon, dean of the University of North Carolina School of Journalism, Herbert Brucker, Editor of the Hartford **Daily Courant**, and Ralph D. Casey, director of the Journalism School, University of Minnesota.

Strozier, in his prepared remarks to the board, said "We wish we had been able to provide our School of Journalism with the kind of splendid physical facilities which exist at Gainesville.

"We are very proud," he continued, "of the able men who form our group, more than half of whom have their PhD degrees, since this is a larger percentage, I believe, than in any school in our region."

Strozier dropped a mild bombshell into the board meeting with his concluding remarks on the committee's report.

ASKS LAW SCHOOL

After having agreed with the report on having the only journalism school at Gainesville, Strozier called on the board to use "the same kind of objective thinking" as was used in the journalism matter and consider FSU as the center for legal studies.

"We hope that the same kind of objective thinking which led to such a logical step as making the Florida State University the state center of legal studies," he said.

Strozier pointed to the presence of the state government, ("a natural laboratory for lawyers") and the distinction of the FSU school of government as reasons for consideration of such a move.

NO ACTION YET

Although the FSU School of Journalism will probably be abolished as a result of the report, no Board of Control action was available for publication at press time.

Strozier said of the faculty of the present School of Journalism "As we make our plans for the future, we hope to retain on the faculty many of these men whose fields of competence relate to other areas as well as to journalism."

Courses in journalism will still be offered at the university, but whether or not a major program will be given is still unknown.

Strozier told the **Flambeau** that majors in advertising and radio-TV would still be offered. The advertising major will probably be offered in the School of Business.

The radio-TV program, which is offered jointly with the School of Journalism by the department of speech, the School of Music, the School of Business and the audio-visual department of the Library School, will be administered by the same agencies other than the School of Journalism.

The report of the evaluating committee will not be made public under the present policy.

Six Request Investigation Of Moore Win

Six students Wednesday appealed for an "immediate" Honor Court investigation of Art Moore's victory in the April 1 presidential election.

Moore, they charged, filed his expense statement after the April 11 "deadline" with the knowledge of acting Secretary of Elections Sandra Rosenberg.

The appellants are Julie Leonard, Clyde Wells, John Webb, Robert Hutchins, Bob Duke, and Robert Howes.

Moore told the **Flambeau** that there was no statute requiring a "deadline" by which expense statements must be turned in.

Barbara Burkhart, Chief Justice of Honor Court, set the hearing on the complaint for 8 p.m. last night. This came after **Flambeau** press time.

A statement in the **Flambeau** for Friday, April 11 was the basis for the complaint. It read: "Miss Rosenberg announced that today is the deadline for the expense statements of the winning candidates. If an expense statement is not turned in, the winner will be disqualified, she added."

Referring to the statement, the complaintents pointed out that Moore had not filed his statement until April 14. They further stated that according to 701-C of the Student Body status the secretary of elections has the power to "issue, amend, or rescind" the regulations.

The appeal made the conclusion that the Secretary of elections had violated the Honor Code.

The letter to the Chief Justice asked for no specific action, but merely read that, "this will be a test of strength and impartiality of the court system."

President-elect Art Moore issued a statement saying the "one and only basis for disqualification in regard to final expense statements lies in 705.3 of the student body statutes.

The statutes states that "no student shall be issued a certificate of election who does not submit to the secretary of elections a statement to the effect that he has compiled with the campaign expense limits." The statutes does not specify a deadline is necessary.

Moore said the basis for accusation (the **Flambeau** story of April 11) was not true. He said the **Flambeau** misquoted Miss Rosenberg as saying candidates who did not turn in expense accounts by April 11 would be disqualified.

He said, "Under the interpretation of this section (statute 705.3) a final expense statement is required only before a certificate of election is issued, or installation is made.

"Since there is no time limit other than the one previously stated, it is clear that Miss Rosenberg is in no violation whatsoever of the Honor Code."

CORRECTION

The statement made in the **Flambeau** of Friday, April 11 "If an expense statement is not turned in, the winner will be disqualified, she (Sandra Rosenberg) added," is in error.

Miss Rosenberg did not make such a statement to the **Flambeau**. The reporter, on the basis of past statements in similar circumstances, assumed that the same policy would be true in this instance. He was not familiar with the statutes and did not know that no legal deadline existed.

Oklahoma Histarion To Give Lecture

Dr Stephen F. Borhegyi of the Stovall Museum of Science and History, University of Oklahoma, will give an illustrated lecture on "Maya Civilization and Art," Monday evening.

The talk, which will begin at 8 p. m., is to be held in the Library Lecture Hall.

The public is invited to attend, according to Edith W. West, secretary-treasurer of the sponsoring organization, the Tallahassee Society of the Archaeological Institute of America.

Our Politics Are Clean

Politics at FSU seem mild when compared to politics at the University of Florida as reported in the **Florida Alligator**. And may we add that criticisms directed at the **Flambeau'a** alleged lack of objectivity dwindle to nothing when compared to the **Alligator's** reporting of political affairs.

THE CONCLUSION WE reach is that the University of Florida can have its excitement and its sensationalism. We prefer the Florida State variety of politics and journalism.

The incident in mind is the recent presidential election at Florida in which one candidate Tom Biggs, supported by the fraternity bloc and the Liberty "Party", knocked over underdog candidate Joe Rosier, an independent.

TACTICS USED IN the presidential campaign and campaigns for lesser offices included the use of "poop-sheets". Some of these emphasized the need to overthrow the much powerful fraternity bloc.

Rosier claimed that he was threatened to drop out of the race, to tone down his campaign, or to run the risk of having his friend lose his job, after the distribution to a poop-sheet by his supporters showing an "attempted rape."

THE ALLIGATOR's charming contribution to the election was a sensational type edition giving an hour by hour play of events including alleged kidnappings and hocus-pocus in smoke-filled rooms. In one "interpretive" news story, David Levy, editor, writes, "To Tom Biggs, it must have been a hollow victory. Although obviously better qualified for the Student Body president than Rosier, we are sure he would have preferred a race against Bob Graham, Harry Mahon, or some of the others previously under consideration."

FSU has no fraternity bloc. It has no single party, although the Student Party has long held the majority of positions in student government. In class elections, the State or Collegiate Party has outdone the Student Party, however.

SOME MEMBERS of the University Party who wish to bring elections of more consequence and competition to the campus have a point, but we hope no party here will succumb to the type of politics held at Florida and other universities.

There are peaceful, democratic, and legitimate ways of challenging alleged injustices in student politics. An example of fair protest and inquiry has been exhibited by the University Party.

This is the method to use in lieu o, name-calling, dirty insinuations, unfair politics, and yellow journalism.

Put Law School Here

The Board of Control was given an excellent suggestion by President Robert Stozier today. He requested that the Boaro give thought to transfering the law school at the University of Florida to Tallahassee.

The opportunities for study in the state capitol would be great. The Supreme Court and other important offices would serve as a "live" lab for the law students of Florida.

But we can already hear the gasps go out around the state as former University of Florida law graduates learn of the suggestion. To them it may sound like treason.

For if it is against these now influential Florida graduates that the Florida State College for Women—oops, Florida State University has had to struggle to obtain Schools and courses challenging to male students and yet ones which do not duplicate efforts at Florida.

The trade with Florida would be a good one for FSU—our School of Journalism for the Law School to be situated here.

While we regret to see the consolidiation journalism study at Gainesville, we realize the danger and undue expense of unnecessary duplication in any field.

Luckily, the engineering situation worked out fine. Florida kept its School of Engineering which offers courses stressing applied teaching of engineering science or basic engineering which stress mathematics and science to a greater degree.

Although the suggestion to move the Florida Law School to Tallahassee seems to be a radical one, we hope the Board gives it considerable thought keeping in mind Dr. Strozier's remarks that Tallahassee would provide the facilities for an ideal lab situation.

They Still Study Us

As long as we can remember, we have been studied.

OUR GENERATION has been scrutinized by every psychologist, sociologist and general quack who ever had the urge to sell a magazine article or write a book.

In our tortuous teens we first learned just how hopeless we were. By reading any good essay, we could learn, with wonder, of the devious and dreadful things of which we were capable. And, of course, we learned of numberless fears and frustrations we didn't even realize we had.

NOT TAKING the critics too seriously, and never understanding exactly why they were so concerned about us, our generation grew to college age without succumbing to any of the disasters our frivolity had foretold.

And now, as college students, we still find ourselves studied almost as much as we study. Students are asked to write their views of life for magazines and these views ultimately become small books. Every school we enter, every job for which we apply, we are asked to take multitudes of tests with questions designed to unearth the smallest details of our personalities. Countless polls are taken, to see what we think about everything from politics and potato soup to the tenets of religion.

WHOEVER HAS assimilated this material has come up with the term "Beat Generation" in describing us. They say we have become ultra-conservative, security-minded, and interested only in the easy dollar and the casual life. This is just what our fathers were chastized for NOT being when they were young in the reckless roaring and rowdy '20's.

We are different; of that there is no doubt. But in truth we are neither more promising, nor more hopeless than the generations before us. Some of us are good, some are bad. We will know success and a proportionate amount of abysmal failure.

AND THROUGH IT all our motives will be weighed, our actions subjected to study. We, too, will eye the next generation with a skeptical eye. We will study it and complain. But all we will learn is that we do not understand; and whatever opinions we pass may very well prove to be wrong.

Machine Age Perplexes Perkins

By LAWRENCE PERKINS

Greetings!

This morning the Coke dispenser in my dorm gave me a dead waterbug along with my four nickels change from a quarter, and started me thinking.

I STILL HAVEN'T quite analyzed this particular service. Perhaps the machine made the old mistake of confusing etymology with entomology, although I hardly think that the machine could have read much of the term paper on the development of the word my which I just finished.

While pondering on the waterbug (quite dead, poor thing), I did some thinking on the other services provided by the soda pop dispensers on campus, and realized how very ungrateful most of us have been.

ONE OF THEIR primary function is to replace the now-outlawed slot machine There is one machine in the Post Office—you can recognize it by its knowing leer — which occasionally sells you a drink for a nickel and a penny. This, however, is secondary, and probably serves no other purpose than to keep the campus police away. You drop your coin, breathe deeply, and press the handle. What will happen? There is a solemn grinding of gears. Maybe you even get a bottle of pop. No? Press again —with real vigor. Aha! Out drops a penny. What you put in was a nickel. Where did the penny come from? Quien sabe? For a while I was keepina score on this particular machine, but I lost count the day it gave me two bottles, four nickels, and seven pennies change for a nickel. I think it's ahead, though.

THEN, THERE is the rotating crank variety. Again, this machine occasionally gives a bottle for a nickel and a penny, and about as often engages in slot machine tactics, although not on so spectacular a scale. The real function of this machine is to provide exercise. You drop your coins and rotate the crank experimentally. Nothing happens. You try again. And Again. Andagain andagainandagain! Old timers who have seen a Model "T" Ford cranked on a cold morning know what a healthy sweat this sort of thing can bring on. Just as you despair, rattlerattle clank go the mysterious innards of the thing, and out comes the drink. If you didn't actually need one before, by now you do; this assures you that nothing will go to waste.

THERE ARE ALL variations on this theme. I have seen a machine which demanded that the nickel go in heads outside, tilted exactly 30 degrees from plumb. Machines of this nature on our campus, however, are reserved for doctoral candidates and are kept in restricted areas.

The principal function which these machines serve, however, is in providing an object against which a student can work off his frustrations. They are fixed not to give you anything, under any circumstances. A nickel is only a coin, but the management knows that there are more important things. Wilberforce Haltackle comes in after a bad day in class, finds he has no mail at the post office, and then gets stuck in the quicksand in the parking lot.

SEETHING AT every pore, he comea into the dorm, drops in his money, and gets no soda pop! His screams of rage, the reverberating thunder of his kicks and thumps on the machine reverberate all through the building. The later at night, the more reverberation, also at no extra charge. Finally, all of his aggressions and tensions vented, he creeps away exhausted but happy. The exact figures have not yet been released, but I imagine that each machine can replace at least five psychiatrists.

Oh, the psychiatrists? They work at the bottling plant now.

What Gives Here?

Stop H-Bomb Testting Says Student Group

By NANCY HANNAFORD

"Annihilation of the human race," "mass incineration," and "cultural exchanges" were discussed recently in a meeting dealing with banning of Hydrogen bomb tests.

AGREEING THAT few people realize the extent and immediacy of the problem of answering Russia's challenge to halt H-bomb tests, the group discussed the matter pro and con, bringing in the usual.

Since Russia seems to have done all the testina she feels necessary, and since, having anyway enough technical ability up on us to launch the first satellite, the idea of halting when we're behind at first seems ridiculous. When, at the end of the meeting, however, it was asked if anyone in the group was in favor of continuing tests, no hands were raised.

WHAT WAS brought out in the interim to make this the consensus?

The moral issue, always a primary one, was discussed by Alan Thomas, Enalish and humanities instructor at FSU.

Flambeau columnist Emmett Jarrett, who announced the issue in a column in Friday's **Flambeau**, stated at several points in the meeting that if nuclear testing doesn't stop soon a war and total annihilation will be inevitable. "All past arms races have ended in war," he said.

AT ONE POINT in the meeting the need of cultural exchanae between the U. S. and Russia was brought out. It was stated that we think of Russians as little red totalitarians who are out to conquer the world, and that they think of us as power-hungry capitalists who are out to conquer the world Understanding between the U.S. and Russia would seem to be imperative. One wonders, however, if a problem as immediate as halting nuclear testin gcould be solved on such a long-range basis as cultural diffusion.

Eli Ask summed up the situation quite realistically, this columnist feels. Both Russia and the U.S. have the power to destroy the world. Both know the other has this power. Neither, it rather goes without saying, desire the annihilation of the human race. Therefore it would seem that, barring accidents no kidding, "accidents," e.g. the atom bomb that fell out of an airplane in Florence, North Carolina, last month) neither side would like to start something to devastating as an atomic war

THEY CAN WIN much more easily with "clean" weapons like propaganda, limited warfare, and economic envelopment. (The differentiation between "clean" and "dirty" weapons seems rather absurd. 5ven reversed, as a matter of fact. As one boy pointed out, atomic weapons tend to be more or less the ultimate detergent.)

The propaganda value of having the supposedly Christian Western world continuing with the testing of mass incineration methods while the U.S.S.R. nobly fights to preserve the human race is tremendous. If the final conflict is a limited one, the backing of presently neutral Asian and Near Eastern countries will make all the difference.

Anyway, for one reason or another everyone who attended the meeting left feeling that the U.S. agree with the USSR to should halt nuclear testing.

LITTLE MAN ON CAMPUS By Dick Bibler

"I'M AFRAID WE'LL HAVE TO MOVE WILCOX BACK TO TEACHING THE *ADVANCED* GROUP."

FSU Women's Rules Are Mid-Victorian

TO THE EDITOR:

The situation confronting the women students at Florida State University today may be compared to the great problem tha' confronted the Mid-Victoriar women . . . the problem of equa rights.

IT IS assumed by many modern thinkers that college women have the intelligence to distinguish between rigbt snd wrong. Many liberals go so far as to state that these same women are able to choose the moral path they will follow for the rest of their lives. Other radical thinkers even advocate that college women be given this freedom of choice.

SINCE WE are assuming that women are buman beings and are capable of decisiong we may logically say that they deserve as many rigbts as men. The women on this campus are certainly not such fools that they are unable to think for themselves. What good does it do to cause those women students who believe in freedom of the individual to aneak around in order to live the life they wish?

The women who do advocate atrict rules and regulations such as signing out, "safe" bours, and limited weekends, are often insecure. They feel as thou[...] need these rules to protec[...] selves from themselves. I[...] aim of this university to t[...] insipid, frightened girls o[...] ture women?

I SINCERELY hope th[...] women of this campus w[...] together in pursuit of fema[...] dependence." The 20th c[...] arrived quite a number o[...] ago. It should arrive [...] FSU. Other colleges an[...] versities allow their wom[...] dents equal rights with [...] Why shouldn't we?

The women on this c[...] should consider the pr[...] equal rights very carefu[...] should fight for what the[...] lieve. Progress is never m[...] apathetic, lethargic acc[...] of bung-over customs an[...] out-dated traditions!

Sincerely,
CAY CRANFORD

Local Stations: Heed Classical Music

TO THE EDITOR:

"Stamp Out This Serious Music Evil" was an amusing but lamentably truthful account of the musical situation in Tallahassee. Much of it can be directly traced to the imagination on the part of the program directors of the local radio stations and the inability to grasp any form of music which is not popular enough to be listed on the Top Fifty compilations. But of course, they are influenced by our national ideals of moulding all people from a uniform matrix so that we all may eventually be united in the exalted brotherhood of conformity. Also, our culture lays a peculiar stress on the significance of adolescence and strongly endeavors to please those individuals who happen to be passing through that phase.

Somehow, rock and roll, rhythm and blues, etc., represen[...] enough common denomina[...] turally, and yet possess [...] remains of music rhythm[...] blance of a melody, appe[...] certain emotions to have a[...] ed a nation-wide commer[...] dorsement via radio and [...] well as record stores.

Serious music is rare [...] on AM radio in the Tal[...] area and the occasions w[...] is available usually ind[...] freak reception. While the [...] of people seem to prefe[...] and roll, there are ce[...] enough adherents of c[...] music in this area to w[...] some considerations for [...] preferences by the local ra[...] tions. It surely is not ask[...] much for the stations to s[...] ule a few hours a day of [...] able sound over the air-[...]

Thank You

DEAR STUDENTS,

It is a very difficult task for me to convey to all of you who took an interest in the Student Government of your campus, the debt of gratitude which I offer to you for your support, so freely given and in many instances at a cost to you in time lost from studies and sleep. But I give you my warmest thanks and say that though I did lose, the ideal which I and many others bave been working for since we came bere, has finally been achieved.

We came here and found a one party demagogery snd decided we would attempt to set up a strong two party system. We lost and bad many bardships true, but we kept on trying Of course when an election is lost by 32 votes, victory bas slipped from your grasp as surely as if it were 3200 votes.

However, the ideal has been accomplished which in itself is a far greater victory than mine alone would bave been. We have showed ourselvea and the students that there is more than one alternative to choose if they would seek an office on this campus. The Collegiate Party bas given me much both to work with a[...] work for. It has much to[...] you also and that is why [...] and write this letter.

Sincerely yours,
GERRY GORDON
A Member of The Colleg[...] Party

Polichio Gives Good Recital Performance

By CHARLES ROWDEN

The Senior Recital of Miss Marjorie Polichio Monday evening revealed a coloratura soprano of discrimination and excellent technical accomplishment

THE PROGRAM opened with Handel's Allurements The Dearest from "Alessandro," a somewhat boring composition rescued only by a sensitive performance which lacked only a completeness of precision. The Handel was followed by a pleasing, competent performance of Mozart's Ah se in ciel, benigne stelle.

The three Brahms songs, An dieNachtigall, Bei die sind meine Gadanken," and "Botschaft," were performed with a bell-like tone which seemed too small for the sobre, reserved lyricism. Her interpretation was sensitive to the Brahmsian spirit so alien to the florid excesses of French coloratura opera, demonstrated sound musical judgement, and conveyed a sense of style and mood seldom achieved by a coloratura.

THE HIGHLIGHT of the evening was unquestionably Giacomo Mayerbeer's Ombre legere from "Dinorah" Trills, glissandi, runs and darting intervals combined in a showpiece of flashing virtuosity, brilliance, show, and effect. The result was stunning, but lack of concrete musical values solidified the aria into a brittle antique which could be sustained only by the utmost skill, firmness, and control. Miss Polichio was successful in surpressing the ludicrous exhibitionism of Meyerbeer's work because of her comparative [...]straint and good sence

The closing song group [...]sisted of two songs of R[...]maninoff, "Before my [...]dow," and "The Sol[...] Bride," and Moussorg[...] "Evening Prayer" Althoug[...] same doubts as to their a[...]priateness for a colatura [...] appear as in the case of [...] of Brahms, Miss Polichio [...] able to project with vi[...] and sensitivity her sup[...] clear voice and adequate [...]zation.

IT HAS BEEN called to [...] author's attention that [...] Head for "In Search of M[...] read as "contest" rather [...] "concert." The authors [...] apologies to Phi Mu A[...] Sinfonia, wish to correct [...] unfortunate typographical [...]ror, which came from the [...]fusion on the part of a [...] between the Composers C[...]cert and the Florida Comp[...] League contest held betw[...] semesters.

Pow-Wow Meeting Slated Tuesday

A meeting of students in ch[...] of the various sections of [...] year's Pow Wow will be [...] Tuesday at 4:30 p. m. in the [...] Wow office.

Students requested to at[...] the meeting are: Charlotte [...]ker, Nancy Henderson, Gina [...]kins, Barbara Stoutamire, C[...] Stevens, Marilyn Knowles, V[...] Rohs and John Ray.

Staffers Name Yankees, Braves

As of Tuesday morning, the Washington Senators led the American League.

Nobody knows for sure at this juncture who will lead the American League (or the National) when the season ends in October, but most people are fairly sure it won't be Washington, traditionally "first in war, first in peace and last in the American League."

This is the time of year known as a "prognosticators paradise." The beginning of the major league baseball races always bring forth a great number of experts on the game, ready to offer their opinions on the probable finishes for the eagerly waiting readers.

Along with the trend, the **Flambean** annually offers its consensus opinion on the finish.

Last year, we hit 50-50 on the winners, calling the Yankees in the American (along with everybody else) and the Dodgers in the senior circuit.

Here's this year's concensus of the staff members' forecasts:

American League	National League
1. New York	1. Milwaukee
2. Chicago	2. Los Angeles (Tie) St. Louis
3. Boston (Tie) Detroit	4. Cincinnati
5. Cleveland	5. San Francisco
6. Baltimore	6. Philadelphia
7. Kansas City	7. Pittsburgh
8. Washington	8. Chicago

Here's a brief look at the clubs, in the order of finish last year: First in the American circuit, the Yankees certainly have not lost any of the push which carried them to their eighth pennant in ... years last season.

Mickey Mantle seems to be improving steadily (can he get much better?), and if Whitey Ford and Yogi Berra can make up for bad starts last season, it could be even more of a romp for Stengel's stalwarts.

The White Sox possess one of the finest pitching staffs in baseball, but the same can't be said for the rest of the club. They lack any real good sluggers and this may hurt them before the ...'s out.

BEST HITTER

The Red Sox have the best hitter in the game, one of the ...ngest outfields and that's about it. The infield is far from ...ain, and most of it below average. Unless they can find two ... winning pitchers to go with Sullivan and Brewer, their ...nant hopes are dim.

Detroit has terrific potential, has had for a number of years now. Lary, Foytack, Bunning and Hoeft make up a formidable pitching staff and Al Kaline ranks right behind Williams and Mantle among the league's hitters. If they ever jell, look out.

Baltimore made a surprise fifth place showing last year, but ... have hurt themselves by giving Larry Doby back to Cleveland. ... if they can develop a solid pitching staff they may give ...uble.

Herb Score is back and if he's anything like he was before he ... hurt, the Indians might become a threat again. His 20 vic... would have put Cleveland in the race last year. The Indians ... answer some other question marks before they can threaten, ...—particularly the age of hurlers like Lemon and Garcia.

It's a tossup for last between Kansas City and Washington ... the cellar, though the Athletics would appear to have a slight edge. Several Yankee castoffs have performed well for them, and they might go for sixth or fifth with a few breaks.

... Senators appear still ". . . last in the American League." ... Albie Pearson, obtained from Boston, may well solve an ... problem, but Cookie Lavagetto has too many other prob... to consider the Senators higher for the moment.

STRONG STAFF

...ning to the senior league, the Braves seem to have grown ... over the winter, if anything. The addition of Bob Rush ... promising newcomer Don Kaiser "stolen" from the Cubs, ... them possibly the best pitching staff in the circuit.

With men like Henry Aaron, Eddie Mathews, Del Crandall, Joe Adcock and Red Schoendienst still around, they might start a pennant monopoly like the Yankees have been carrying on in the other league.

The Cardinals have about the same team that finished second ... but may have difficulty staying that high. As long as ... hits, though, look out.

The Dodgers have a new name, but everything else is probably old. Men like Carl Erskine, Carl Furillo, Duke Snider are ... getting any younger. If Gil Hodges hits about 80 over that ... field fence in the Coliseum, they might win. Otherwise . . . .

If Kluszewski has a good season with the Pirates, the Red ... may be moaning before season's end. Ciney picked up two new pitchers over the winter, but traded away Wally Post in addition to Kluszewski. If their "murderer's row" slips, the new pitchers may not help much.

The Phils finished fifth despite Robin Roberts' worst season. Roberts claims he feels fine, and the Phils have some promising ...mers. Still, they don't figure first division material.

Like the Dodgers, the Giants are in a new home. Basically, they have a fairly sound ball club, but must solve some pitching problems or get a good deal more inspiration from surroundings in San Francisco than they did from the Polo Grounds.

Pittsburgh and the Cubs between them could probably make a good major-league ball club, even threaten for the first ...ion. However, half a team doesn't usually do too well.

QUESTION MARK

The Pirates are basing their hopes for improvement on the ...d of Kluszewski, but he's still a question-mark as the season ... They got a good promising pitcher in Don Gross from Cincinnati and Bob Friend still ranks with the best of them.

The Cubs have Ernie Banks and—they have Ernie Banks. If their two young aces, Drott and Drabowsky, should jell, they might cause trouble, that is if several other big ifs jell also.

Well, there they are. Throw them in a big basket, close your ... and pick a winner. Who knows, you might get lucky? Particularly if you choose Milwaukee and New York to return to ... World Series next fall.

And the series? The Yankees should return to the world 4-2

Netmen Battle Stetson Here In Home Finale

Florida State's tennis team hopes to assure itself of an even season in a dual match here tomorrow against Stetson.

The Tribe netters have a 7-5 mark with four matches remaining, the last three on the road against Georgia, Georgia Tech and Mercer.

Coach Keith Pitchford has had just one losing campaign in his four previous seasons. The current team has a chance of posting the best record since 1955 when the netters rang up a 13-6 mark.

Over the years, State owns a 7-2 advantage over Stetson. The two schools have not met on the court since 1955, when the Seminoles won, 6-1.

The key to Florida State's victory chances will probably lie in the singles matches, where the Seminoles have had the most success this season.

With ace Lex Hester of Neptune Beach leading the way, State has won 38 of 72 singles matches for a .528 winning percentage. In doubles, Pitchford's netters have won 15 of 34.

With Hester in the singles lineup will probably be Jim Berry, Frank Bryan, Jim Maddock, Jackie Crew and Howard Levy.

Intramural News

Intramural badminton opened Monday night with action in the Greek division. Tuesday also saw action in the Greek division.

Results of the matches: LCA over KS, SC over PKP, PKA tilted TEP, PDT over SAE, KA over ATO, SN over DTD, PKT over SPE.

On Tuesday, KS took a forfeit by PKP, TEP lost to SAE, ATO and DTD gave up a double forfeit.

Intramural wrestling finished up last night and the results will be reported on Tuesday. LCA went into the finals with a slight lead over all other contestants.

Greek softball was rained out on Tuesday and these games are rescheduled for next Tuesday. The intramural's office requests that Greek teams who have makeup games in softball, should play these games on Monday or Friday of next week.

Magnolia Hall is leading the D-I league with an undefeated slate at present. The Psychology Club is following close behind with only one loss.

Greek playoffs will begin as soon as the D-I's finish their playoffs, possibly the first week in May. Schedules and dates will be announced next week.

FRANK SLUSSER, senior righthander for the Seminoles will face Miami tonight.

Long Not Surprised At Keeney's Running

By BEN BALSER
Assistant Sports Editor

Last weekend in a hotly contested Florida State- Florida track meet, Tom Keeney, a slender soph miler for the Seminoles, surprised onlookers as he placed second in the mile ahead of all the Gator runners.

But it was no surprise to FSU coach Mike Long who said, "I knew that Keeney could beat all the Florida men if he had a fast mile."

Keeney did run a fast race, in fact he recorded his best time of the season, a respectable 4:24. Mike Conley, Seminole distance ace won the race, but Keeney was only three seconds behind.

Mike Morgan was rated as one of the Gators' top milers, but Keeney seemed to have little trouble staying with Morgan for three laps. In the last lap, the FSU soph put on a burst of speed which enabled him to finish ahead of Morgan.

Not long afterwards, Keeney placed third in the two mile run, again beating Morgan.

BEST EFFORT

Although this meet reflected Keeney's best effort so far this year, he has racked up many points for the well balanced State cindermen.

In the Furman meet the slim miler placed second in the mile and first in the two mile. Against Roanoke he finished third in both events and in the Florida Relays, Keeney placed fifth in a field of 30.

Keeney's story has somewhat of an unusual twist. When he was a senior at Miami Jackson High School, he decided he would go out for track.

He had never run the mile before, and he got a late start in practice because he was playing on the basketball team which ran into the track season.

Despite these factors, Keeney developed int the school's best miler and set the school record of 4:48 which he ran at the state meet.

Upon graduation from high school, he had letters in basketball and track, but had not decided where he would go to college. By the fall of 1956, Keeney had made up his mind to attend FSU.

NO SCHOLARSHIP

He came here without benefit of a scholarship but was given a chance on the freshman track squad. He was undefeated in the mile as a freshman and when he came here he had only six high school races under his belt.

As a freshman, the Miami speedster ran against varsity competition in the Florida AAU and finished second to Conley in the mile.

He was put on scholarship the second semester of last year.

When Long was asked of he thought Keeney could fill the spot left by Conley, probably the best collegiate miler in the state, who will graduate this year, Long replied that it was hard to tell now, but that he could say that Keeney is running at the same pace that Conley ran as a soph.

"Tom should be in top shape for the Florida AAU in a few weeks," said Long. "He really has a lot of potential."

Keeney expressed his views of the FSU track team in this manner, "I have never seen a team that cooperates so much and works for team success rather than personal glory.

From beneath his short cropped hair, Keeney smiled and said, "Coach Long has helped me more than I could ever thank him for, he has given me every break possible."

Tribe Nine, Miami In Two-Game Series

Slusser Opens Tonight's Fray At Centennial

By FRANK RAMOS

Florida State's Seminole baseball nine begin a crucial series that may decide the at-large entry in the District III NCAA playoffs tonight at 7:30 when they meet the University of Miami Hurricanes at Centennial Field.

FSU baseball coach Danny Litwhiler has nominated Frank Slusser and Fred Kenney to take the mound against the improving Hurricanes.

Slusser whose 1.35 ERA tops FSU's staff, will start tonight's game while Kenney (1-2) will pitch tomorrow afternoon's game at Seminole Field.

Expected to oppose the Seminoles for the Miamians in Friday's game are either Maury Guttman (2-0) or John Bartell (1-2), and in the afternoon game either Roger Newman (1-2) or Vic Stenson (6-1).

This year Miami comes to town with one of its best teams in years. The 'Canes have notched two wins over the Florida Gators who the Seminoles dropped two games to last weekend in Gainesville.

Going into a two game series with Tampa earlier this week the Hurricanes possessed a 10-5 mark. The improvement in the 'Canes can be contributed to the heavy hitting of first baseman Ed Contreras and the pitching of sophomore Vic Stenson.

SIX HOME RUNS

Contreras has hit six home runs and has a batting average just under .500. Stenson dropped the first game he pitched, and has since chalked up six straight victories.

Miami catcher Arnold Zimmerman is said to have major league scouts trailing him because of his sensational arm and long ball hitting.

Besides the improved hitting of veteran members and the sparkling play of its rookies the University of Miami has also added a new baseball coach.

Whitey Campbell took over the managerial reins and is said to have turned the Hurricanes into a hustling ball club.

Litwhiler is expected to go along with his regular starting lineup. Owen McCarron, who tops the FSU batters with a .390 mark, will open in centerfield and lead off. Charles Rogers will play first and follow McCarron.

Dick Howser, co-captain with McCarron, will play short and swing from the third spot in the batting order. Gerry Philp who leads the club in RBI's with also is slated for the clean-up slot.

Mike Copps will bat fifth and play right field and Dale Koch is slated to play third and bat sixth. Batting seventh and playing second base will be Ray Bazzell.

Johnny Sheppard will be behind the plate and bat eighth, and will be followed by Slusser in the first game and Kenney in the second game.

Linksters Oppose Tigers; Drop Two

For the second time this season, the Florida State golfers will clash with the Auburn Tigers Monday in Auburn, Ala.

Two weeks ago the Seminoles handed the Tigers a $25\frac{1}{2}$-$1\frac{1}{2}$ defeat in Tallahassee. In the match, the Tribe golfers shot their best golf of the season as they had a team average of six under par 72.

Wednesday the linksters dropped their fifth dual match of the season to Georgia $21\frac{1}{2}$-$5\frac{1}{2}$. Hugh Rover and Frank Eldridge of the Bulldogs fired one-over par 73's.

Monday, the Georgia Tech linksters slipped by the Seminoles, 14-13. The first time they met this season the Tribe was a 21-6 victor.

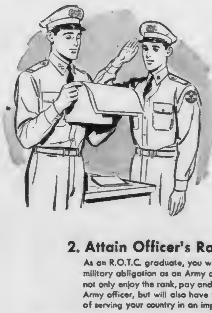
Sophomore R.O.T.C. Students:

MAJOR IN LEADERSHIP
with the Advanced ARMY R.O.T.C. *course*

If you are a sophomore Army R.O.T.C. student, there are three important reasons why you should accept the challenge of applying for the Advanced R.O.T.C. course. As an advanced R.O.T.C. student, you will:



1. Learn to Lead
With R.O.T.C. you can actually take a course in Leadership—a course that will prepare you to think on your feet for an executive position, whether in military or civilian life. In addition, you will get practical experience in command responsibilities.

2. Attain Officer's Rank
As an R.O.T.C. graduate, you will fulfill your military obligation as an Army officer. You will not only enjoy the rank, pay and privileges of an Army officer, but will also have the satisfaction of serving your country in an important capacity.

3. Receive Extra Income
With the Advanced R.O.T.C. course, you will qualify for a subsistence allowance which comes to around $535 for the two-year course. You will also be paid $117 for your six-week summer camp training and receive a travel allowance of five cents per mile to and from the camp.

ARMY R.O.T.C. "majoring in Leadership"

On Campus with Max Shulman

THE POSTMAN COMETH

I have recently received several letters from readers which have been so interesting, so piquant, so *je ne sais quoi*, that I feel I must share them with all of you. The letters and my replies follow:

SIR:

Maybe you can help me. I came up to college eight years ago. On my very first day I got into a bridge game in the student union. I am still in the same bridge game. I have never gone to class, cracked a book, or paid any tuition. All I do is play bridge.

To explain my long absence and keep the money coming from home, I told a harmless little lie. I said I was in medical school. This made Dad (my father) terribly proud. It also enabled me to keep playing bridge. We were both very happy.

But all good things must come to an end. Mine ended when I came home for Christmas vacation. I arrived to find that Sister (my sister) was in the hospital with an ingrown spleen. Dr. Norbert Sigafoos, the eminent ingrown spleen surgeon, was scheduled to operate, but unfortunately he was run over by a hot-food cart on the way to the scrubbing room.

HARLOW WILL FIX SISTER

"Oh, never mind," chuckled Dad (my father). "Harlow (me) will fix Sister (my sister)."

Well sir, what could I do? If I told the truth I would make a laughingstock out of Dad (my father) who had been bragging about me all over town. Also I would get yanked out of school which would be a dirty shame just when I am beginning to understand the weak club bid.

There was nothing for it but to brazen it out. I got Sister (my sister) apart all night, but I must confess myself completely at a loss as to how to put her back together again. Can you suggest anything? They're getting pretty surly around here.

Sincerely,
Harlow Protein

Dear Harlow:

Indeed I do have the solution for you—the solution that has never failed me when things close in: Light up a Marlboro! Knots untie as you puff that fine rich tobacco. Shade becomes light as that grand flavor comes freely and friendlily through that splendid filter. Who can stay glum when Marlboro gives you such a lot to like? Not I. Not you. Not nobody.

SIR:

Just off the campus where I go to school there is a lake called Lake Widgiwagan. Thirty years ago when my father was an undergraduate here he went fishing one day in Lake Widgiwagan and dropped his Deke pin in the water. He dived for days but never found it.

Just yesterday—thirty years later, mark you!—I went fishing in Widgiwagan. I caught a four-pound bass. I took the fish home, cut it open, and what do you think I found inside?

You guessed it! Two tickets to the Dempsey-Firpo fight.

Sincerely,
Willis Wayde

© 1958 Max Shulman

This column is brought to you by the makers of Marlboro Cigarettes who suggest that if your mail has recently been blessed with some money from home, invest it in the cigarette with the long white ash—Marlboro, of course!

Student Party

Nominations Made For Court Posts

An almost complete slate of nominations was made for all court positions at the Wednesday night session of the Student Party convention.

Competition for the party nomination was seen in the races for every women's position on the courts.

The convention, held in the Graduate School lecture hall, adjourned until last night after completing the court nominations. Due to the Flambean deadline, last night's session could not be reported in today's paper.

TWO DECISIONS

Two decisions were made by the party's executive committee. First, no more endorsements would be made by the party, and second, no fraternity or sorority members would be permitted to sit in dormitory or day student delegations.

Nominations were:

Senior Women's Honor Court: Nancy Jo Bowers and Barbara Eissey; Senior Men's Honor Court: Bill Wait and Kelvin Huhen.

Junior Women's Honor Court: Ann Williams and Nancy Jones; Junior Men's Honor Court: Fred Rowland and Jim Reeves.

Traffic Court: Susie Blackburn, junior and Janie Davidson, sophomore.

JUDICIARY PROSPECT

Senior Women's Judiciary: Nancy Key, Ann Key, and Dot Goodwin: Senior Men's Judiciary: Douglas Rogers and Hal Dyer.

Junior Women's Judiciary: Ann Easterday, Monty Gilliam, and Marilyn Harris: Junior Men's Judiciary: John Nibenthal, David Dale and Duni Nelson.

Sophomore Women's Judiciary: Linda Reidell, Linda Reams, and Lynn Williams: Sophomore Men's Judiciary: Dick Bryan and Roy Mathia.

Returned Postcards Indicate Crowd For 'Family Weekend'

A meeting of dormitory, fraternity and sorority representatives was held Wednesday afternoon at the Alpha Gamma Delta sorority house to discuss plans for Family Weekend.

Laura Cheek, general chairman for the event, reported to the group that response from families was good and that approximately 75 families had returned postcards saying they were planning to attend.

Some of the various remarks "Wonderful idea! We want to participate in everything available. Can we help?" A woman wrote, "I think this is a wonderful idea. We are looking forward to a delightful weekend."

One woman, who will not be able to attend remarked, "Deeply regret that we can't. You have a grand idea and a wonderful program planned."

The representatives were also asked to urge their groups to plan an outside decorstion in the Circus theme for the weekend.

"A prize of ten dollars will be awarded to the dormitory, fraternity and sorority with most outstanding decorations," Miss Cheek said. Each group is asked not to spend over $10 for decorations. Judges will be Dean R. R. Oglesby, Dr. James Carr and Jim McIntyre.

The chairman told the representatives to plan for an open house on Friday, May 2, at 9 30 p.m.

Miss Cheek urged that students buy picnic tickets soon so that the committee will know how many to plan for. No tickets will be sold after 5 p. m. on Friday, May 2.

"For $1," she said, "you will receive a quarter fried chicken, potato salad, baked beans, cole slaw, deviled egg, pickles, rolls, cookies and iced tea."

Tickets are now on sale for both the circus and picnic. Circus tickets are $1.25 for reserved seats, $1 general admission (sold only at the gate) and 50 cents for students.

Three Sororities Presented Awards

Scholarship awards were presented to three sororities at the annual Pan-Hellenic Scholarship Banquet, held Tuesday night at the Tallahassee Dining Room.

Sorority presidents, Pan-Hel representatives, and housemothers were present at the gathering, in addition to the Faculty Committee on Sorority Affairs. Members of the committee are Dr. Sarah Hammond, Miss Agnes Gregory, Dr. Grace C. Madsen, and Miss Jane Kirk Bell.

Dean of Women Katherine Warren presented to Kappa Alpha Theta their trophy for attaining the highest overall scholastic average.

THE AUTHOR looks over one of the types of rifles which the Cuban rebels are using in the revolution.

'Rebels Won't Have You'

Don't Join Cuban Revolution, Advises Student Upon Return

By MARK AUSTIN

Thinking of going down to Cuba and helping the Rebels fight for "freedom" in the revolution? Well take my advice and don't do it!

Reason one, the rebels in the Carribbean Legion won't have you. Reason two, you are very likely to be jailed or killed by the federal forces before you get within shooting distance of the

About this time last year I decided that college life and I didn't agree. It was a beautiful spring and I had this one prof in particular that seemed to be trying for a record in making the world's most useless and inane statements.

PROF SUCCEEDS

During one extremely dead Friday afternoon class — he succeeded. That, on top of a few other things, was too much. I closed my book, stood up, murmured a polite "excuse me" and walked out of the room.

My car was outside so, for lack of anything else to do, I got in and drove off, trying to get as far from that classroom as possible.

As far as I could go happened to be the southern tip of Key West, where the Gulf almost laps against runways of the airport. This wasn't far enough. With the last of my money I was on the next plane for Havana.

Cuba is always nice, but this was not the best time to be there "getting away from it all." Castro with the Carribbean legion had just begun his long range push which was supposed to culminate in complete rebel victory this month, and during my first two days in Havana, rebels planted six bombs in and around government offices.

An attempt to assassinate Batista in the Presidente's Palace had fizzled with one hundred percent rebel fatalities, a short while before. The government forces were not taking any prisoners or chances.

About 2 a. m. of my third day I had the misfortune of being in the wrong place at the wrong time. Walking down near the waterfront, I looked up to see a huge, barbed-wire barricaded building with a half a dozen uniformed sailors guarding a narrow opening with submachine guns.

I wasn't dressed for touring, but the situation looked interesting, so I stepped closer for a better view.

Out of the corner of my eye I caught a glance of a long, black Cadillac with a Flag Officers decal on the shield moving very slowly up the street.

When the car came closer, a young guard glanced from the car to me. Then he saw the bulge in my old army jacket, made by a paper-back book I had in my pocket. He thought it was a bomb. All hell broke loose.

The guard yelled, a siren started to wail, and a couple of the sailors went down on the ground to cover the ones who ran toward me — all of them with their machineguns cocked and ready to fire.

I threw my hands up in the air and waited for them to shoot, while everyone chattered in Spanish.

Evidently they decided I was harmless, for after the Cadillac was safe behind the barbed-wire they let me go. But I got the idea they definitely preferred that I be elsewhere.

By a coincidence of fate, within the hour, in another part of Havana, I was approached by a very distinguished man who explained that he was an attache' of the Chilean Embassy, and bought me a much-needed meal.

Over the dinner, be very politely questioned me about the revolution, and, in a round about way, what I knew about the rebel forces.

When I began to catch on — and after the food was gone — I assured him that I was merely an American student on an inexpensive vacation in Cuba, and I knew nothing what so ever about the revolution.

He seemed satisfied, but when be offered me a place to stay and didn't let me out of bis sight for a couple of days, I began to wonder.

Finally he took me to his friend, a famous Latin American writer, Juan Bosch, who, he said, "would tell me what to do." I was perfectly happy doing nothing, but the whole situation sounded interesting, so I went along. Actually, I couldn't have done any thing else.

After a couple of conversations with Senor Bosch, and overhearing a few more, I knew these gentlemen were mixed up with the revolution movement. (It wasn't until I got back to the States that I discovered Bosch was one of the organizers of the Carribbean Legion.) So I volunteered my services.

Senor Bosch was very kind. Be offered to help me with money, his influence, anything, but, he said, "Americans in the revolution bave been little but trouble. One already has been killed, and two more resulted in bad publicity." He said the best thing for everyone concerned, would be for me to go back to the States, and college.

But I didn't want to go. I told him if I couldn't work with his group, I would go to another. (There are several non-connected revolutionary movements.)

No, they told me, for my own safety, and to keep me out of the hands of the police, I must get out of the country immediately. To make sure of my safe conduct, they were going to send my attache' friend with me as an escort.

The whole situation had a funny ring to it, but there was nothing I could do. They hustled me down the stairs, into a chauffered Cadillac, and within thirty minutes I was on a plane for the States.

Back in the U. S., the attache' and I were met at the airport by a deputy from the Sheriff's department, and taken into protective custody.

After a little questioning, Sheriff John Spottswood called my parents and asked them to come to Key West to pick me up.

So that finished that — the attache' went back to Cuba, and I was back where I started.

I spent a couple of days with the sheriff, waiting for my folks, and at a party one night he told me that the rebels had probably been using me as a blind to get a man here to contact a gun smuggling crew.

Key West had been a center for that sort of activity, but the sheriff had put a stop to it.

If you get tired of going to college, don't go to Cuba.

Go home and spend a couple of months in bed.

Noted Nuclear Chemist Sets Two Lectures Here

Dr. Harold C. Urey, Nobel Prize winner and distinguished nuclear chemist, will give two lectures on the Florida State University campus next week.

On Thursday Dr. Urey will speak in the Library Lecture Hall at 4 p.m. to the Society of Sigma Xi. At 8:15 he will speak in the Westcott Auditorium, this lecture being open to the public.

NOBEL PRIZE

Dr. Urey was awarded the Nobel Prize in Chemistry in 1934 for his discovery of the heavy isotope of hydrogen called deuterium.

The same year he received the highest honor in American science, the Willard Gibbs medal.

Because of his work in the nuclear field, Dr. Urey was selected to head one of the three main projects in the Manhattan Project, which was the group responsible for the development of the atomic bomb.

The Nobel Prize and the Gibbs medal are two of the many honors, awards, recognitions for his work in this field. He holds eight honorary doctorates from eight different colleges and universities.

Dr. Urey is recognized as a distinguished nuclear chemist in European countries as well as the United States. He has been cited and awarded by numerous European scientific societies, among them the Royal Society of London, which awarded him the Davey medal in 1940.

He is a member of the Royal Society of Sweden, the Royal Academy of Sciences, Literature and the Fine Arts of Belgium, the French Chemical Society and the Royal Irish Society.

After World War II, Dr. Urey joined the University of Chicago Institute for Nuclear Studies and has spent much of his time working with other nuclear scientists who were attempting to find some international political means for peaceful settlement of differences.

Speaking and writing with missionary fervor, he has declared that there is only one defense against the atomic bomb, a political defense.

At the same time, he has advocated that the development of power from nuclear energy in the United States be turned over to private enterprise, insisting that faster development of the use of atomic energy would be obtained.

Dr. Urey is continuing his research on isotopes and at the same time has joined his scientific colleagues in developing theories about the original chemical elements and the way in which they united to form the present solar system.

e's Well-Travelled

'Aunt Ruth,' AXiD Chaperone [Tou]red Behind Iron Curtain

By NANCY FRAZER

Mrs Ruth Hill is not only one of the most well-travelled chaperones on the [Florid]a State campus, she is probably the only housemother to receive a guided [tour] behind the Iron Curtain.

Mrs. Hill, or "Aunt Ruth," as her girls call her, has been the Alpha Xi Delta [housemoth]er for the last nine years.

[During] that time she has taken [two Eu]ropean tours, her first visit [to the] Continent featuring a guided [tour beh]ind the Iron Curtain into [the Russi]an sector of Berlin, Ger[many]. A pair of bright blue eyes [sparkled] as she began to tell of her [adventu]re.

"[My] son Stanford arranged for [me to] go on one of those govern[ment-]sponsored tours," she began, [with a] note of pride in her voice. [He is] general manager of the [Europe]an Exchange Service is [and is] stationed with his family [in Ger]many. Another son, James, [is an e]ngineer in Oakland, Cali[fornia].

[C]URTAINS PULLED

"[Durin]g our train journey from [...] to Berlin, thick double [shades] were pulled down over our [compart]ment windows, and we [were] strongly advised against [...]," she continued.

[In] the eastern sector, Mrs. [Hill's] group was taken on a [...] regimented tour ("no [...] stepping out of line, or [...]") tour of Stalin Alley, a [boule]vard lined with store[s].

[She w]as impressed, until she saw [the rest] of the city. In direct con[trast to] the western sector, East [Berlin w]as still largely a mass [of ruin]s following the bombings [of Worl]d War II, and the Commu[nists h]ad made little effort to restore the residential areas, according to Mrs. Hill.

ROVING REPORTER

The group was inspecting several large statues of Communist heroes in a particularly beautiful East Berlin Park, when a roving radio reporter asked Mrs. Hill for her impressions of her visit. Noticing several Russian soldiers and dignitaries in the area, she merely commented on the beauty of the park. "But if I'd expressed my true feelings, I'd have started another war!" she exclaimed.

"Aunt Ruth," born in Alabama, moved to Tallahassee as a small child and her talk is filled with stories of the city in its early days.

"I can remember when a little rain made it nearly impossible to cross Monroe Street because of the thick mud," she continued.

Her father, Milton Smith, established the **Daily Democrat** in Tallahassee and she graduated from Florida State, then a small women's college with only three sororities.

XOs MET IN TOWER

"You know, the Chi Omegas used to meet in one of Bryan Hall's towers, and the ADPi's in another," she recalled.

Mrs. Hill's mother is still a Tallahassee resident, living in a large white frame house across from the Gamma Phi Betas on College Avenue.

Why did she decide to become a sorority housemother? "Well, I remember visiting my son's fraternity when he was attending college in Berkley, and thinking then how wonderful it would be to be a chaperone," she explained.

After her husband's death, Mrs. Hill left California, where she had raised her family, and returned to her native Tallahassee, by now "much changed." She became the Alpha Xi Delta chaperone, and has been having a "wonderfully rewarding" experience ever since.

Has she any more plans for travel? "Of course I do," she exclaimed, her eyes lighting up in their characteristic way. Next on Aunt Ruth's agenda is another European tour—with four other Florida State chaperones.

This summer they'll visit Spain, the British Isles,—and Africa! "I want to see all the places I missed before," she smiled.

"You know, when I'm old I can travel in the United States," added Aunt Ruth. "But while I can still kick around, I want to see the world!"

PDT Participates In Service Day Program

Members of Phi Delta Theta fraternity will mobilize their cleaning equipment and garden tools and devote tomorrow to putting them to use for the benefit of Ruge Hall, the Episcopal student house, as this fraternity chapter's project as part of the national fraternity's annual "Community Service Day."

Announcement of the program yesterday by Hank McCann, president of the chapter on campus, carried with it the explanation that 75 members of the undergraduate chapter, aided by some of the Phi Delt grads and alumni, will take part in the undertaking.

119 PDT CHAPTERS

"There will be 119 other chapters of Phi Delta Theta engaging in Community Service projects much like ours, and all on the same day," said McCann.

"Funds for the Community Service Day fraternity group's undertaking, like the manual labor, supervision, supplies and equipment, will all be contributed by the Phi Delt boys," says Frank Petruselli, chairman of the undergrads' Community Service undertaking.

DEEDS EN MASSE

Out of the 120 chapters of Phi Delta Theta which do their good deeds en masse on April 19, there is a good deal of rivalry as to which group of collegians does the best and most striking job of helpfulness.

In some cities the Phi Delts' efforts have brought trophies, prizes, or resolutions of approval from local Chambers of Commerce, business men's clubs or ministerial associations.

Besides such evidences of community approval, the 120 chapters of "helpful Henrys" compete for a division of trophies put up by the fraternity's general headquarters on an international basis applying to all the American and Canadian college chapters.

Dick Elwood AGD Man Of The Year

The **Alpha Gam's** brought their formal dance to a climax last Friday night by announcing their "man of the year", Dick Elwood.

Dick was chosen by the popular vote of the **Alpha Gamma** girls on the basis of his time, service, and talents to the sorority.

Bunny Swanson, program chairman for the weekend, presented Dick with a marble and gold trophy, inscribed with his name.

Although Dick contends he's "just average", the AGD's are quick to shout his praises. They'll tell you he's a track man, holding the FSU record in the pole vault, and a personnel management major.

In addition to all his activities, Dick still found time this year to play homecoming decorator, Santa Claus, and chief handyman for the **Alpha Gamma Delta** chapter.

Engagements

BAGDANAOVICH-CHEVRETTE

Patsy Bagdanaovich, DZ, and Jean-Maurice Chevrette plan to marry this June.

Miss Bagdanaovich, from Pensacola, is majoring in fashion design and Mr. Chevrette, from Three Rivers, Quebec, will receive his master's degree from Florida State in June.

CHARLESWORTH-JOHNSON

Lois Charlesworth, Delray Beach, and Robert M. Johnson, Tampa, plan to marry in June 1959.

Miss Charlesworth is Broward Hall's house president and a home economics education major. Mr. Johnson, a senior majoring in political science, plans to enter the Air Force as a second lieutenant upon graduation.

GREENBERG-ROSENBLATT

June 8th is the wedding date set by Miriam R. Greenberg, Tallahassee, and Howard S. Rosenblatt, Huntington, W. Va.

Miss Greenberg is working on her Master's in Humanities and Mr. Rosenblatt is working on his Doctor's in Child Psychology.

HOWARD-JONES

Mary Birdie Howard, **DZ**, and Edwin Jones, who attends the University of Florida, plan to marry June 8.

Miss Howard, an elementary education major, is from Gainesville, and Mr. Jones is from Tallahassee.

MATZAT-DEGNI

A summer wedding is planned for Suzanne Matzat, DZ, and Lt. Michael Degni of Hunter Air Force Base, Savannah.

Miss Matzat is majoring in speech therapy and is affiliated with Sigma Alpha Eta speech and hearing honorary fraternity. Lt. Degni graduated from schools in New York prior to entering aviation cadet school.

REHWINKLE-WITTER

Reba Rehwinkel, **DZ**, and Ray Witter, who attends Penn State University, plan to marry June 28.

Miss Rehwinkel, from Tallahassee, is an elementary education major, and Mr. Witter is majoring in engineering.

ROBERTS-TALMON

Florrie Roberts, a member of **Gamma Phi Beta** sorority, and Don Talmon, treasurer of **Phi Kappa Tau** fraternity, recently announced their engagement and forthcoming wedding on June 6th.

Miss Roberts is a sophomore majoring in home economics education. She is also a member of the Home Economics Club and the Collegiate 4-H Club.

Mr. Talmon, business manager of the **Flambeau**, is also a sophomore majoring in psychology.

PKT 'Progressive'

Beta Iota chapter of Phi Kappa Tau was recently voted as the most progressive chapter in the southeastern domain at a conference held April 11-12 at Georgia Tech in Atlanta.

FSU delegates who attended were Fred Burgess, Bill Tyson, Carl Walsingham, Paul Bishop, Sheldon Fretwell, and Neil Carn.

Religious News

Council Announces Officers

By ANNETTE McINTOSH

The **Inter-Faith Student Council**, an organization of representatives from FSU's religious houses, announces the recent election of the following people to office: Jill Jordan, president; John Carleton, vice-president; Delphia Mae Johnson, secretary; and Ron Wood, treasurer. They took office on March 27, and plan to soon appoint the other committee chairmen.

• • •

A delegation from the FSU chapter of **Gamma Delta**, International Association of Lutheran Students, will attend a Gulf States Region convention in Pensacola this weekend, accompanied by Rev. Richard P. Lehmann of the Epiphany Lutheran Church. The chapter at Tulane University in New Orleans will serve as hosts.

LEAVES FRIDAY

The FSU group will leave campus by car Friday noon, arriving for registration Friday night. Business and sight-seeing sessions will continue through Saturday, with a return to Tallahassee after church services Sunday morning.

• • •

A BANQUET is planned at the **Westminster House**, to be held Thursday at 6 p.m. Dr. Alton Glasure, who is pastor of the First Presbyterian Church of St. Petersburg, will be the guest speaker. Tickets are now on sale for \$.60.

Dr. Herndon will present a topic at the supper and fellowship hour, 5:45 p.m., Sunday. On Tuesday at 9:30 p.m. Jack Taylor will lead the devotions at the Westminster House.

• • •

Members of the **Wesley Foundation** will travel to Alligator Point at 9:30 a.m. Saturday for their annual COAST PARTY. They will hold a weenie roast on the beach around noon and plan to return home by suppertime.

RIDES PROVIDED

Transportation will be furnished for those who sign up beforehand at the Foundation. Members, friends, dates . . . all welcome!

• • •

Plans are being made for **Catholic Faith Week**, to be held May 3-6. Charlotte Beckley and Bill Westendick are co-chairman of the program, which will include celebration of the Mass in the Amphitheater, followed by a Communion breakfast. Several lectures will be delivered by prominent Catholics in the community. Watch for further announcements and the sale of breakfast tickets.

Last Saturday night the Newman Club held a weenie-roast, which was followed by an informal dance.

• • •

Inter-Varsity Christian Fellowship meets at the Seminole Dining Room at 6 p.m. every Thursday for supper, then adjourns to Longmire for their regular meeting. At this time the program consists of a discussion series on the Life of Christ, led by student members.

• • •

The study room hours at the **Christian Science Organization** house have been changed in an effort to meet the students' needs. This room, where authorized Christian Science Literature may be read or borrowed, is now open from 5-8 p.m. Monday and Tuesday, and 5-7 p.m. Wednesday-Saturday. All are welcome to use the available facilities.

READERS ELECTED

Readers have been elected to give the lessons at the Thursday evening meetings. They are Jan Pearce and David Koontz. These lessons are presented on Thursday from 7-7:40 p.m. at the Organization house, 535 W. College Ave. During the latter half of the meeting, testimonies, experiences, and remarks on Christian Science are given.

Young Women:
After Graduation, Begin
Your Career In An Executive Position !
If you're a college senior, you can prepare now for an important executive future by applying for an officer's commission in the Women's Army Corps. In addition to an officer's pay and prestige, you will have a position of vital responsibility...working side by side with male officers in such challenging staff and administrative assignments as:
*Personnel & Administration *Intelligence *Comptroller
*Public Information *Civil Affairs and Military Government
*Information and Education *Legal and Legislative
And with this challenge, come these personal rewards:
*An officer's busy cultural and social life
*The chance for exciting foreign assignments
*A 30 day paid vacation every year
*The satisfaction of serving your country in a really important way
You owe it to yourself and your country to investigate this challenging and rewarding executive opportunity. For full information fill in and mail this coupon today !
JUNIORS — The Women's Army Corps will select a limited number of qualified women who have completed their junior year for 4 weeks training, summer 1958. There are no commitments. You will receive an orientation in the Army and may make application for a commission after graduation if you want to become an officer in the United States Army. If interested check the enclosed coupon.

Fires, Bridge, Tee-Shirts Part Of Magnolia History

By BEN BALSER

Editor's Note: For the first time in FSU history, a dormitory, Magnolia Hall, is having a weekend. The unique event, which will begin tonight with a semi-formal dance in Longmire Lounge, prompted Flabeau Assistant Sports Editor Ben Balser to compose the following to acquaint non-mongolians with the history of the "fire-proof" residence hall.)

The cool air of an early October morning in 1955 chilled the bodies of over 100 pajama-clad men as they ran out of a smoking dormitory on the Florida State University campus.

The dormitory was Magnolia Hall and the men, as they were tagged a few days later, were the Smokeaters. It was just another event in the life of the low-slung, F-shaped dorm with a colorful past.

FOR WOMEN

Magnolia, which now houses over 150 males, was originally built in 1944 to provide residence for the women of the Florida State College for Women. In the October 6, 1944 issue of the **Flambeau**, a story appeared which explained the comforts of the new dorm which was to be opened that semester.

The following paragraph from that story presents an interesting paradox to the fire incident in 1955.

"An interesting fact about the new dormitory (Magnolia) Dr. Campbell pointed out, is that although it was originally planned as a temporary structure, it is the most nearly fire-proof building on campus."

The name of Magnolia is resented by most of the Smokeaters, but records show this is nothing new. In November, 1944, the first girls moved into Magnolia and a story in the **Flambeau** contained the following paragraph.

"The dormitory will have a definite name, which can't come about any too soon to combat the blossomy rumors of Magnolia and Petunia and the patriotic ones of the USS Lexington and Flat-Top."

The name of Magnolia did not appeal to the residents, so for the first few months of its existence it was called New Hall. But eventually the title of Magnolia caught on and remains to this day.

BIG MYSTERY

Old issues of the **Flambean** showed that the girls of Magnolia had some pretty wild capers. A story headlined the Magnolia Hall Mystery appeared in the November issue of 1945.

It seems that the house mother detected the odor of whiskey about one a.m. one morning. When she looked for the source of the odor she couldn't find anything. The girls even helped her look. They never did find out where the smell was coming from. Some mystery.

Many trophies have been won by the residents of Magnolia, but perhaps the biggest Magnolia victory came about in 1946 when the Magnolia girls copped the intramural bridge crown.

The fall semester of 1952 saw the influx of the male species into Magnolia for the first time. It has never been the same since.

SMOKEATERS

After the 1955 fire, the nickname of Smokeaters prompted many promotional stunts by men of the dorm. Namely more fires. Since the 1955 blaze there has been at least four small fires and twice as many false alarms.

Special tee-shirts inscribed Smokeaters were bought and later on, black derbies labeled Magnolia Hall were purchased by the residents.

Throughout the history of Magnolia Hall as a men's dorm there has been internal strife between the two units—Upper and Lower Magnolia. Lower Magnolia is often regarded the underworld hangout of the campus because of the activities and characters that live there.

Lower Magnolia made its stamp on public opinion during the Homecoming of 1955. The dorm as a whole was not providing an entry for the Homecoming parade, so the men of Lower Magnolia decided to build their own float.

Under the influence of Homecoming spirit(s), the men set to work and constructed an actual replica of an outhouse. The football opponent that year was The Citadel and the Lower Magnolia boys wrote SITadel across the top of the privy.

They hoisted it on the back of a car and followed the Homecoming parade around town. It was just another chapter in the lives of the Magnolia Hall Smokeaters.

A RARE PHOTO of the "Lower Magnolia Smokeaters" in assembly.

International Club Picnic Sunday

The International Club has planned an afternoon of "swimming and sunning" at the coast Sunday, according to Miss Joan Guthridge, foreign student advisor.

The group will leave from the Longmire Building at noon Sunday, taking food to cook lunch on the beach.

Miss Guthridge asks that International students interested in going on the picnic check with her office sometime today.

PHYLLIS RAPPEPORT FEATURED IN CONCERT

By DIXON REDDITT

Sunday's Coffee Concert will feature Phyllis Rappeport of the School of Music faculty in Bach's Goldberg Variations at 2:30 in Longmire Lounge.

Phi Mu Alpha, men's national music honorary, and the Music Teachers National Association are jointly sponsoring this concert, which is one of a monthly series.

The stated purpose of these concerts is to afford a good performance medium for students and faculty in the presentation of works of a definitely "chamber nature."

A performance of Haydn's London Trio #1 will also be in the offering with Carol Trpening, flutist, Dorsey Stuart, oboist, and Bob Cancelois, 'chellist.

As with most large works in the literature, the Goldberg Variations has a story connected with its writing and early history replete with colorful details.

One version of this is that one of Bach's best pupils had a part time job providing music for the household of a certain Mr. Goldberg, who was perpetually plagued with insomnia.

Mr. Goldberg had the idea of having Bach write a long piece for his pupil to play at night or whenever he wanted to sleep. This idea supposedly resulted in the famous Variations.

But one wonders after hearing the piece, what kind of man could fall asleep to music which is as exciting in its construction, as the Goldberg. The technical devices which are used are perhaps more interesting to the musicologist than the average listener, but the total result is one that scarely can be missed by anyone.

Bach must not have been overly fond of the variation form but being Bach anything he set his hand to became the model for all that followed. The work begins and ends with a simple, tuneful aria. Every third variation is a canon.

NOT SIMPLE

But not just a simple canon. The first is a cannon at the unison, then one at the second, the third degree of the scale, and so on. At the sixteenth variation he gives a delightful French Overture and at the very end of the piece several popular tunes of the day are combined with his main subject, much in the same way that Alex Templeton, combines Dixie, Moonlight and Roses, etc., in a simultaneous presentation.

Phi Mu Alpha Publicity Director David Brinson reports that "This program promises to be one of the finest this year. The Goldberg variations represent a monumental work in piano literature and will be played by one of the top young pianists in the country, and the Haydn Trio is charming music.

SAI Schedules Spaghetti Feed

A spaghetti supper given by Sigma Alpha Iota, women's music honorary, is scheduled for tomorrow evening from 5 to 7 p.m. The affair will take place on the School of Music patio; tickets are 85 cents.

"This supper, which is an annual project of SAI, will provide the money to buy materials for the music library," said Lorna Elder, new president of the organization.

An added attraction will be a short opera which will be presented at 6:30 in the amphitheater.

In case of rain, the supper will take place in 207 Music Building. Tickets can be obtained from any SAI member, or in the School of Music office.

Strozier, Board Must Approve

Street-Naming Bill Passed By Senate

A bill to name the campus streets passed Senate Wednesday afternoon after several weeks of intermittent discussion. Only scattered opposition was heard when the vote was taken.

If signed by President Arnold Greenfield, the bill will be sent to President Strozier and the Board of Control for their approval.

Originally introduced by Senators Don Lewis, Sonia Moreno, and Pat Mickler, the bill was the topic of much discussion for several Senate and committee meetings. The original bill suggested alternate names for the streets, several of which were not fitting, in the opinion of some senators.

A committee headed by Senator Pat Manning drew up the names as passed by Senate Wednesday.

The bill names the streets as follows:

The street running from Florida Hall to the Jefferson St. gates is Floridan Drive. The street on the west side of Landis Green is Magnolia Lane, while the one on the east side is Seminole Lane.

Collegiate Lane is the street behind the Women's Gym and Varsity Drive is the name given to the street running from the Men's Gym to West Hall.

Ivy Lane is what the street in front of the freshman women's dorms will be called. The street running from the Jefferson St. gates up by the History Building and around to the Education Building is University Circle.

An attempt to dissolve the reapportionment committee failed during Wednesday's session. Senator Don Hayes proposed the committee's dissolution saying there was "never a real reason for the committee."

Polly Atwater, women's vice president, pointed out that the present reapportionment was now two and one half years old and said that it should be reevaluated in the light of actual practice.

IS POSSIBLE

Men's Vice President Bob Murray said that the committee didn't have to come up with something totally new. Many fraternities and sororities have changed residence, he pointed out, and some kind of reapportionment is possible.

The Senate voted unanimously to favor a modified standard in regard to the wearing of bermuda shorts by women students. This standard would presumably be a policy of the Dean of Women's office determining certain times and places for their wear.

The Senate recommendation will be forwarded to Women's Senate and the Dean of Women's office.

In other action:

Senate received the name of Pat Wolfe to replace senior Senator Graham Teschke who resigned.

Heard Art Moore, president-elect, outline the coming SUSGA conference to be held here the weekend of April 25-26.

Frat-of-Year Trophy Offered By AXD

A Fraternity of the Year trophy is being sponsored by Alpha Xi Delta sorority to be awarded to the most outstanding fraternity on campus.

The trophy will be presented this afternoon at 4 p.m. at the IFC concert featuring the Four Aces. Selection is being made on a percentage basis so that the smaller fraternities will be judged equally with the larger, according to Jo Ann Kelz, chairman of the trophy committee.

Each fraternity was instructed to count all the activities of its members listed in IFC card files, receiving certain points for each activity. The total number of points will be divided by the number of members in the fraternity which enables each to compete equally.

Graduating seniors from last year are not being counted as they are no longer on IFC card files.

Points are being awarded on basis of members active in student government, athletics, honoraries, clubs, organizations, religious groups, party members, military, scholarship, publications and fraternity activities and awards.

Around Campus

Traffic Crackdown Slated By Police

Assistant Business Manager Gerald Jones announced this week that the Tallahassee Police Department has begun to crack down on traffic in areas immediately adjacent to the campus.

Jones said that the action of the Police Department came as the result of a request for such enforcement by Student Senate.

The city police are now concentrating efforts on such streets as Copeland, Call, Jefferson and Woodward.

STOP SIGNS

Jones said that special attention is being paid to drivers who disregard stop signs in the area. On Friday alone the officers gave away 10 tickets at the corner of Copeland and Park for running the stop signs there.

Jones also said that plans are underway to install a traffic light at the intersection of Call and Copeland Streets sometime in the near future. The only hold up now is in city appropriations.

Jones added that the on-campus traffic conditions are generally "working out well" and there have been few problems recently.

NO NAMES

He emphasized that a good deal of mixup has been caused by students and faculty members who leave parking tickets in the Longmire office with the fine enclosed but no name on the ticket.

This makes receipting procedures extremely difficult, Jones indicated, and often means that people will receive reminders after they have paid their fines.

Jones asked all persons who mail or leave their fines and tickets without seeing the Traffic Clerk to make sure their name was attached somewhere on the ticket or letter.

Combo Feature For DZ Day

A combo entertained the **Delta Zeta's** at the DZ coast party which was held last Saturday at Dog Island.

At the party Mac Bowler was named **Delta Zeta** man. Bowler helped the sorority with Campus Sing, according to Elaine Jones, DZ press chairman.

Betty Jo Bush was announced as **Delta Zeta** dream girl. This honor is awarded to the senior who the chapter feels has done the most for the chapter, Miss Jones said.

School Of Journalism Will Offer Full Program Next Year

By JIM McINTYRE
Flambeau News Editor

President Robert M. Stro- announced yesterday the School of Journalism will offer a complete program of instruction in 1958-59 school year.

The school was abolished by Board of Control in a re- action. It came as the re- of a report by a special committee of consultants obtain- to investigate the need for journalism education in Florida. The report, which was adopted unanimously by the Board, sounded the death knell for the Journalism School, but did specify a date for its extinc-

Laurence R. Campbell announced to students and faculty of the school yesterday that "The School of Journalism will offer a complete program of instruction in the school year 1958-59. Students in the school will be granted degrees in June, 1958, as well as June, 1959

"Policies and procedures will be modified as necessary to enable all majors to take the journalism courses they will need for their degrees."

The report submitted by the Board of Control's journalism investigating committee was made public Friday morning at the Board meetina in St. Augustine.

Among other things, the report referred specifically to unnecessary duplications, substandard physical facilities and inferior teaching as reasons for abolishing the FSU School of Journalism.

It was filed by an investigating committee composed of Norval Nell Luxon, dean of the School of Journalism at the University of North Carolina, Ralph D. Casey, director of School of Journalism at the University of Minnesota, and Herbert Brucker, editor of the Hartford Courant.

The report was adopted by the board after preliminary statements by the Hon. S Kendrick Guernsey, board member from Jacksonville.

RECOMMENDATIONS

The recommendations of the committee, as found on page five of the report, numbered 13 in all. Included among them were recommendations that:

1) The Board of Control of Florida should concentrate the professional education for journalism program in state-supported universities in one institution: The University of Florida.

2) Three or four staff members with adequate academic and media training be added to the staff of the chcol.

3) University officials seriously consider immediate improvement of the salary structure of the school.

9) The equipment in the typography laboratory at FSU be moved to the University of Florida for use in typography courses in the school. The consultants found typography equipment at FSU to be the only item of equipment there superior to that at the University of Florida.

10) At ao appropriate time the Board of Control should make an appraisal of the role of the program in journalism at Florida A&M.

12) Should the School of Journalism and Communications see a need for establishing limited offerings of a non-professional nature for non-majors, the school should have the responsibility for the design of such a limited program

HEAR EDITORS

The three consultants met with six Florida editors in Gainesville on May 7 and heard the group recommend unanimously that education for journalism in Florida be limited to the U. of F

According to the consultants' report, the decision of the newsmen was announced to them without prior knowledge by the editors of what the consultants had concluded on the basis of their study of the two institutions.

Delving into the origins of the journalism program at FSU, the consultants stated that "Why FSU thought it necessary largely to duplicate the earlier U. of F. establishment has not been adequately explained."

"It can be explained," they continued, "only in terms of the ambitions of FSU to match its sister institution. As we reviewed data from the two schools, we were struck by the fact thai the FSU department was called a school of journalism and that the head of the department was designated as dean.

"In terms of budget allotments and opportunity to support a strong staff, this seems to have been an overzealous effort to mark out an area."

NEITHER EQUIPPED

The consultants pointed out that they felt neither schcol was equipped or staffed to offer the MA or MS degrees They recommended that for the present, masters work at Gainesville be minimized.

The observations on classwork in the universities convinced the consultants "that professional institution in the University of Florida is of good quality while that at FSU is, apart from such isolated advaniages as practice reporting of the state legislature, less founded on realistic professional experience."

The sum of the committee's impressions on student morale and teaching, was that "at the University of Florida the teachers evoked a lively response by students in the courses.

"Instructors encouraged give-and-take discussions of problems raised during the class hour. Interest was high. The instruction seemed stimulating and vigorous in most of the classes visited.

LITTLE EVIDENCE

"With some exceptions, particularly in advertising, there was little evidence of a similar spirit and quality at FSU."

The unanimous conviction of the committee was that, in terms of student participation in class and the interest shown by students in the courses, the University of Florida teaching was definitely superior.

In the Board of Control's recommendation, the presidents of the two institutions were asked to make recommendations to the Board at the May meeting

The May meeting will be held in Tallahassee Thursday, May 15, at 9 a.m. in the Board of Control office in the Education Building

Gerald Jones Moving Up To Board Post

By VIRGINIA DELAVAN

Gerald Jones, assistant business manager, will end three and one-half year association with Florida State University May 1 to assume the position of property supervisor on the State Board of Control.

As property supervisor, a permanent post co the Board, Jones will be "moving ahead with planning on all property outlay." This includes all new public building projects and furnishings for these buildings and preparation of institutional budgets.

Jones appointmeot is the result of the leave of absence given Board member George E. Dale last week to serve as Brevard County Coordinator, said J. B. Culpepper, executive director of the Board of Control.

IMMEDIATE NEED

The great concentration of population at the Cape Canaveral Air Force Missile Test Center in Brevard County has created ao immediate need for new schools, roads and recreation centers, Culpepper said.

Governor LeRoy Collins recently appointed a Task Force Committee to study and evaluate the problems. Dale's job is to use this report and work toward solving the issues concerned, according to Bill Durden of the Governor's office.

Jones will assume part of Dale's duties as well as his owo until his return.

In leaving FSU, Jones told the Flambeau yesterday, "It was not an easy decision for me to make. I have enjoyed my three and one-half years at FSU, but I felt I couldn't turn this down, due to the challenge the new duties present and the opportunity for personal developmeot.

"Having served at FSU has been a privilege and my dealings with faculty, staff and students have enabled me to broaden my outlook on educatico.

DUTIES EXPANDED

"I will still be very much interested in FSU, but my duties will be expanded to include all state institutions."

Jones, a native of Florida, was born and reared in Auburndale. He earned a Bachelor of Science in Business Administration degree from the University of Florida in with a double major in Accounting and Economics.

He has since done graduate work at FSU in managemeot and hopes to obtain his Master's degree in this field.

Jones' tour of duty with the Air Force rao from 1942 to '45. For 16 months he served in Northern Canada and on the Greenland Ice Cap doing rescue work and establishing weather stations.

The last 11 months were spent in India and China in rescue operations and transport of esseotial cargo with the 20th Bomber Command. Jones' discharge from the service came in November, 1945.

KOREAN VET

He joined the staff of the State Auditing Department in March and remained there until recalled to active duty during the Korean conflict ("involuntarily," he says), in August, 1951.

For two years be was chief of the Budget and Accounting Division of the Air and Airways Committee Service in Washington, D. C.

His job with the state auditors reclaimed him in August, '53. In November, 1954, he took over as Internal Auditor at FSU.

His promotion to assistant business manager in charge of auxiliary and service units came last July 1.

Party Conventions

Clendenin, Knight To Battle For Senior Class Presidency

★ ★ ★ ★ ★ ★ ★ ★

COLLEGIATE

Phil Knight and Frank Butterfield were nominated by acclimation for the senior and junior class presidencies on the Collegiate Party slate at the Thursday night convention.

Moe Hobbs defeated Vic Halbach for the sophomore presidency nomination.

Other candidates winning the nomination for their class offices were: Lois Charlesworth, senior secretary, and Rita Nelms, senior social chairman.

Charlotte Stoker was nominated for secretary on the junior class slate with Kay Hall, treasurer, and Audrey Grant, social chairman.

Those winning the selection of the party for sophomore class offices were Rebel Bellamy, vice-president, Dana Ball, secretary, Claire Brightwell, treasurer, and George Ort, social chairman.

Ann Moore was named to one of the two positions for sophomore women's senate with Cecilia Martin winning the second position over Nancy Young by four votes.

Bruce Brown was named to run for sophomore senate. Other Collegiate Party candidates for senate will be, Ralph Chamber, junior men's senate, Yolanda Hustzy, junior women's senate, Chris Vogl, seninr men's senate, and Julie Milam, senior women's senate.

Honor Court nominations named John Grimsley to junior men's honor court, Mary Bell, Betty Jean Price, junior women's honor court, and Tom Wells to senior men's honor court.

Judiciary slate winners were Steve Dunlap, Sissy Sellars, Joyce Nucholis, Donna Falconnier, Fred Powers, Jack Ryder, Tom Pendray, and Eleanor Cain.

Gerry Gordon, past chairman of the party and recent candidate for the vice-presidency of the student body, gave the key-note address.

STUDENT

Bill Clendenin and John Bell were nominated for senior and sophomore class presidents respectively at Thursday night's session of the Student Party nominating convention.

Clendinen was nominated by acclamation while Bell defeated Don Sink and Jack Jones for his nomination. Nobody sought the nod for junior class prexy.

Other senior class nominations are Bill Bunker, vice president, Jean Ragan, secretary, Nan Chamberlan, treasurer, and Marilyn Reedy, social chairman.

Nominees for junior class offices are: Claude Grizzard vice president, Jan Dawson, secretary, Nona Carpenter, treasurer, and Sandy Beskind, social chairman.

Sophomore class nominations are: Barbara Yeomans, vice president, Mary Lee Bone, secretary, Jackie Owens, treasurer, and Martha Bedell social chairman.

Dale Koch, Mary Ann Coleman and Diana Holroyd received the party's nod for senior class senators.

Jackie Soud and Pat Mickler were named for junior women senators and Bill Bryan and Bob Nedley for junior men senators.

Sophomore senate nominees were Penny Pickels, Barbara Bryan and Carl Butler.

David Middleton was added to the nominees for Sophomore Judiciary by the party's executive committee.

The party held two sessions last week—one Wednesday and one Thursday evening. Court members were nominated at the Wednesday session. The two sessions lasted a combined total of nearly four hours.

About 60 voting delegates attended the convention with probably half again as many observers milling around the floor. The convention was marked by several close fights for the nominations, including one which was settled by one vote.

At Sarasota

Martin Opens Art Symposium; FSU Faculty Well-Represented

Florida State University studeots and faculty will be taking an active part in the eleveoth anoual Art Symposium being held this week through Saturday at the John and Mable Ringling Museum of Art in Sarasota.

The symposium was started yesterday with a welcoming address by Dr. A. B Martin, FSU vice-president, at the formal opening.

Dr. Francis R. Walton, head of the FSU classics department, will give an illustrated lecture on Greece with color slides. Exhibitions of paintings by FSU, U of Florida, and U of Miami graduates will be held.

Karl Zerbe of FSU will participate in a round-table discussion on paintings with other artist teachers.

Edward Kilenyi, professor of music here will perform works of Beethoven, Chopin and Dohnanyi. Ben Johnson's play, "The Alchemist," will be presented by the FSU Department of Speech, directed by Dr. James W. Brock.

All art majors are required to attend the symposium either in their junior or seoior years with graduate studeots being required to attend each year they are in school. Those not majoring in art are allowed to attend, but have to get permission from the head of their departmeot in order to be excused from classes.

FSU Dormitory Tops Board Priority Order

Court Acquits Rosenberg, Asks Changes

In precedent-setting legal action, the Honor Court, in a three hour session Thursday night, acquitted acting Secretary of Elections Sandra Rosenberg of violation of the Honor Code in conducting the April 1 election.

The electioo committee, of which Miss Rosenberg is chairman, was found guilty of failing to enforce two statutes pertaining to election procedure at the same hearing.

The Court recommended changes in the procedure to the committee. The elections were ing to enforce two statutes predisqualified.

FILE COMPLAINT

Six students had filed a letter of complaint with the Honor Court oo April 16 which brought about the hearing. The six charged that Art Moore, victorious presidential candidate, had filed his expense statement after a deadline set by Miss Rosenberg.

Miss Rosenberg's acceptance of the statement put her in violation of the Honor Code, the letter charged.

Moore, in his capacity of attorney-general, defended the elections committee and Miss Rosenberg. Bob Hutchins acted as attorney for the complainants, of which he was one. The others were Julie Leonard, Clyde Wells, Robert Howes, John Webb, and Bob Duke.

The question was soon resolved when the defense pointed out that the basis for the complaint, a statement in the Friday, April 11 **Flambeau** in which Miss Rosenberg threatened disqualification of any candidate not meeting the deadline, was the result of a misunderstanding on the part of the **Flambeau** reporter.

NO DEADLINE

According to the statutes, there is no deadline for the filing of expense statements. The Court recommended that such a deadline be enacted into law.

Hutchins also charged the elections committee with failing to enforce Chapter 703.2 of the statutes requiring that the names of election committee members and poll workers be publicly posted at least one week before the election.

He further charged that two authorized poll workers were not at the polling places at all times during the election as required by the statutes.

Moore pled that the violations were due to "human error" on the part of the committee. It is not always possible, he said, for the statutes to be perfectly enforced. He said that there was no deliberate violation on Miss Rosenberg's part or by any of the committee members.

In its decision, the court

(Continued on Page 4)

Philosophy Club Meets Thursday

The Philosophy Club will meet Thursday at 8 p.m. in the Student Center Trophy Room to hear Hans S. Plendl speak co "Some Basic Principles of Quantum Mechanics and their Implications." Plendl is associate professor of physics.

The public is invited to attend. Refreshments will be served.

Flambeau photo: Jo Ann Overstreet

FOR VARIETY SHOW. Jack Ryder practices his pantomine act for tonight's Kappa Sigma variety show as Kip Tichenor looks on. The show goes on at 8 p m. in Westcott.

Opera Guild Sets 'Boheme' In May

Puccini's "La Boheme" will be presented by the Florida State University Opera Guild on Friday, May 16, and Saturday, May 17, at Westcott Auditorium at 8 15 p.m.

FSU students will receive a special rate of 50 cents upon presentation of their activity book. Other students may purchase 50 cent tickets upon presentation of proper identification. Regular admission price is $1.00, and no seats are reserved.

CENTENNIAL

The presentation of "La Boheme" is in honor of the centennial of Giacomo Puccini's birth. The FSU Opera Guild is joining numerous groups throughout the world, including the Metropolitan Opera Association, in celebrating this occasion.

Producer-stage director of the production is Richard Collins of the FSU music faculty. Robert Sedore, also of the music faculty, will conduct the FSU Symphony for both performances.

The Choral Union, under the direction of Herman Gunter, will provide the chorus, and Betty Jane Grimm is in charge of choral staging. Edith Kaup is a musical ooach for the production.

JUNIOR CHORUS

The Tallahassee Junior Chorus, under the direction of Lois Schnoor, FSU faculty member, will provide the children's chorus.

A student production staff includes the following: Max Estes, technical director; Pat Wolfe, designer; Sidney Kennedy, stage manager-carpenter; Ralph Nolen, musical coach; Byron Nichols, lighting Musical assistants are Charlotte Goodman, Deanna Lumpkin, and Linda Upshaw.

Heading the cast are Martha King and Shirley Paonessa, as Mimi, Erbert Aldridge and Martin Lies, as Rodolfo, Ethel Donaldson and Patty McCarty, as Musetta, and Lonnie Keene, as Marcello.

Other members of the cast are Wesley Chestnut, as Schaunard, Steven Kleid, as Colline, and Sidney Kennedy and Ralph Nolen as Alcindoro and Benoit. Virgil Austin will sing the part of Parpignol and Andrew Sheffield will appear as a sergeant in the cast.

The public is cordially invited to attend this production of La Boheme, a romantic opera in four acts.

Oratory Contest Slated Tonight

Preliminaries for the Florida State University intramural original oratory contest will be held tonight at 7 p. m. 222 History Building.

Dr. Gregg Phifer, debate coach, and Tom King, graduate assistant will act as judges for the event.

According to Dr. Phifer, the public speaking oontest will be held on Tuesday, April 29, at 7 p. m. in 222 History.

Anyone interested in entering either of these contests may sign up at 105 History or call extension 7206-1, as registration is still open.

The preliminaries for the intramural after-dinner speaking contest were held Tuesday evening. Finalists were: Dave Horton, junior speech major, speaking on "Silverking"

Pat Wilson, junior speech major, speaking on "I Was There"; and Raenid Perkins, sophomore nursing major, "It Was Baseball."

The finals in after dinner speaking will be held before the Tallahassee Junior Chamber of Commerce today at ooon. Dr. Ernest Bormann of the department of speech will act as chairman.

The winner will be declared on a vote by the entire Junior Chamber of Commerce.

Nuclear Study Building 6th On Prospectus

Florida State University's much-needed men's dormitory and the proposed Nuclear Studies Building were approved for first order priorities by the Board of Control Friday.

This will mean that money will be made available for beginning construction immediately on the buildings.

The dorm will roughly approximate the structure of West Hall and will be located adjacent to its counterpart.

DORMS AND ATOMS

A total of $955,900 was appropriated by the Board for dorm construction at FSU, with $742,000 being appropriated for the nuclear research facilities.

Nine items in all comprised the first order of priority, with FSU having two, the U of F four, School for the Deaf and Blind and Florida A&M, ona item each.

The remaining item was an $8,602,000 appropriation for initial construction of the University of South Florida, near Tampa.

Board Chairman James Love told the Board that the State Budget Director was optimistic about the possibility of having sufficient money to begin construction on the first three items of the second priority order in the near future.

The first item on this second order is the FSU Math and Meteorology Building, an appropriation of $1,065,526.

FSU ATOMS FIRST

Although the FSU Nuclear Studies and Research Building was approved for construction in the first order, the same program at the University of Florida was put on the second priority list.

Gainesville Nuclear Research Building will be constructed only if state revenues increase sufficiently in the near future. Otherwise, all items on the second priority list will be deferred until the next biennium.

In all, 47 items were listed on the capital outlay list in order of priority. Items pertaining to FSU and their relative priority listings are:

(30) Acquisition of land, $90,725, (31) Social Science Classroom Building, $999,660; 35) Oceanographic Institute Staff Building, $24,640;

(36) Extension of Oceanographic, $5,000; (38) Oceanographic Institute Lab Extension, $50,000; and (47) Addition to Campbell Stadium, $500,000

President Strozier asked the Board for more time to consider the various adjustments that could possibly be made by the Universities themselves before any final decision were made.

Strozier told the board that "not getting the Math and Meteorology Building could have a crippling effect. This is a special area which needs a great deal of attention."

J. Broward Culpepper, executive secretary of the Board, said that planning money had already been released for all nine items on the first list.

Florida Wins Again

That Florida State University's development of schools of specialized training has come too late is illustrated by the recent Board of Control action favoring Gainesville as the center for journalism study in the state.

BECAUSE THE University of Florida School of Journalism is the more well established, it follows that its facilities are more complete and its enrollment larger. FSU's School of Journalism, suffered, perhaps, because of its youth, however it is debatable whether this type of duplication should have been initiated in the first place.

DUPLICATION IS the keynote of the Board's recommendation that the FSU school be abolished. We agree that this is the only realistic step to take.

With duplication of journalism schools at the University of Florida and at FSU, both schools suffer in quality and number of facilities the state can afford to budget to each.

THE CHARGE THAT the committee investigating the schools concentrated mostly on physical facilities is perhaps accurate, but we believe this was the most important aspect of determining which university would get the journalism school. Although the committee was of the opinion that the FSU faculty was not as experienced in professional newspaper work, this is not entirely true and if it were the determining factor it would be difficult to prove.

THE FACTOR OF most importance is that if the school were to be located in Tallahassee, the state would need to provide funds for facilities already in full operation at Florida. It seems to boil down to mainly a problem of money.

We are of the opinion that Tallahassee is the best site for a journalism school. If the two schools could have been judged on equal footing (with the same quanity of physical facilities) the FSU school would have been the obvious choice.

ALTHOUGH FSU is located in the capitol city, far too little use is made of the opportunities created by the state government. Journalism courses such as state reporting eannot be taught at Gainesville.

Students are missing great opportunities to study the government in action because these Tallahassee facilities are not utilized to the fullest extent by the universities.

So although we have many advantages over our sister institution, the problems of duplication prevent us from entering fields in which Florida has a head start.

Realizing this fact, FSU should initiate programs which are not offered at Florida. An emphasis upon liberal arts departments and the basis scienees would provide FSU the opportunity to make a great contribution and round out the state's institutions of higher learning.

★ ★ ★ ★ ★

Open Library Please

Now is the time when the administration formulates its policies and procedures for the coming year. So the **Flambeau** would like to insert a word in edgewise concerning the library.

LAST FALL we editorially urged that the library remain open Sunday evenings. We had what we thought were some pretty good reasons why this should be done.

More students and faculty members working on research would benefit by this act, we pointed out. They are the ones for whom the library exists. They should be the ones for whom it operates.

FINANCES should not be an administrative excuse. Last year the library managed to keep its doors open on Sunday evenings. It should have been able to do so this year. It should be able to do so next year.

If, however, the library is really short of funds, we feel sure that the great majority of students and faculty members would be willing to trade Friday night for Sunday night.
